Volume 37 ■ Number 64
Pages 6641–6722

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

LABOR DISPUTES—Executive orders create emergency boards to investigate railway worker grievances 6647, 6651

LOUISIANA OFFSHORE OIL—Interior Dept. requests comments within 45 days on the environmental impact of proposed leasing of oil and gas lands in the Gulf of Mexico off eastern Louisiana 6700

ECONOMIC STABILIZATION—
Price Comm. postpones date for filing quarterly reports by insurers with annual revenues over $50 million 6653
Price Comm. extends date for filing of information by agencies administering rent control programs to 4–15–72 6718
IRS amendments clarify procedural rules 6653

BANKING—FRS proposes to adopt a more equitable system of reserve payments and to require member and nonmember banks to pay cash items upon presentment (2 documents); comments by 5–15–72 6694, 6695

EQUAL HOUSING OPPORTUNITY—HUD policy excludes discriminatory advertising for housing; effective 5–1–72 6700

UNFAIR TRADE PRACTICES—FTC orders H&R Block, Inc., to cease misrepresenting a guarantee that the firm will reimburse customers for tax penalty assessments 6663

TELECOMMUNICATIONS—FCC provides for expanded non-voice communications including radioteleprinter, radiofacsimile, and ambulance telemetering; effective 5–9–72 6681

Current White House Releases

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

This unique service makes available transcripts of the President's news conferences; messages to Congress; public speeches, remarks, and statements; and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. It includes an Index of Contents and a system of cumulative indexes. Other finding aids include lists of laws approved by the President and of nominations submitted to the Senate, a checklist of White House releases, and a digest of other White House announcements.

This systematic publication of Presidential items provides users with up-to-date information and a permanent reference source concerning Presidential policies and pronouncements.

Subscription Price: $9.00 per year

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 3—The President

EXECUTIVE ORDER 11663

Creating an Emergency Board To Investigate Disputes Between the Carriers Represented by the National Railway Labor Conference and Certain of Their Employees

WHEREAS, disputes exist between the carriers represented by the National Railway Labor Conference designated in lists attached hereto and made a part hereof, and certain of their employees represented by the Sheet Metal Workers' International Association, a labor organization; and

WHEREAS, these disputes have not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS, these disputes, in the judgment of the National Mediation Board, threaten substantially to interrupt interstate commerce to a degree such as to deprive sections of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U.S.C. 160), I hereby create a board, of three members, to be appointed by me, to investigate these disputes. No member of the board shall be pecuniarily or otherwise interested in any organization of railroad employees or any carrier.

The Board shall report its finding to the President with respect to these disputes within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the carriers represented by the National Railway Labor Conference, or by their employees, in the conditions out of which the disputes arose.

EXECUTIVE ORDER 11664

Creating an Emergency Board To Investigate a Dispute Between the Penn Central Transportation Company and Certain of Its Employees

WHEREAS, a dispute exists between the Penn Central Transportation Company and certain of its employees represented by the United Transportation Union, a labor organization; and

WHEREAS, this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS, this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive a section of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by Section 10 of the Railway Labor Act, as amended (45 U.S.C. 160), I hereby create a Board of three members, to be appointed by me, to investigate this dispute. No member of the Board shall be pecuniarily or otherwise interested in any organization of railroad employees or any carrier.

The Board shall report its findings to the President with respect to the dispute within thirty days from the date of this order.

As provided by Section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the Board has made its report to the President, no change, except by agreement, shall be made by the Penn Central Transportation Company, or by its employees, in the conditions out of which the dispute arose.

Title 1—GENERAL PROVISIONS

Chapter I—Administrative Committee of the Federal Register

CFR CHECKLIST

1972 Issuances

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the issuance date and price of revised volumes of the Code of Federal Regulations issued to date during 1972. New units issued during the month are announced on the inside cover of the daily FEDERAL REGISTER as they become available.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

CFR unit (Rev. as of Jan. 1, 1972):

Title 6—ECONOMIC STABILIZATION

Chapter III—Price Commission

PART 301—RENT STABILIZATION

Rent Controlled Units; Furnishing of Information to Price Commission

The purpose of this amendment to § 301.106(c) of the Regulations of the Price Commission is to change the date in § 301.106(c)(1) for the furnishing of certain information by agencies or instrumentalities administering a rent control program under § 301.106, and the date in § 301.106(c)(3) for furnishing supplemental information. As currently in effect, subparagraph (1) requires each such agency or instrumentality to furnish to the Price Commission a full description of its methods of rent control and a copy of its laws, regulations, and procedures, before February 1, 1972. It has been determined that it was not possible for all agencies or instrumentalities to comply with that date so it is being extended until April 15, 1972.

In addition, subparagraph (3), is amended by adding the words "beginning with the quarter ending on March 31, 1972" to clarify the beginning quarter for the supplemental reporting of aggregate percentage rent increases for controlled units.

Because the purpose of this amendment is to provide immediate guidance and information as to the rent stabilization program, and Price Commission procedures with respect thereto, it is hereby found that notice and public procedure thereon is impracticable and that good cause exists for making it effective less than 30 days after publication.

(Economic Stabilization Act of 1970, as amended, Public Law 91–379, 84 Stat. 799; Public Law 91–558, 84 Stat. 1468; Public Law 92–8, 85 Stat. 13; Public Law 92–15, 85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92–210; Executive Order No. 11640, 37 F.R. 1213, Jan. 27, 1972; Cost of Living Council Order No. 4, 36 F.R. 20202, Oct. 16, 1971)

In consideration of the foregoing subparagraphs (1) and (3) of § 301.106(c) of Title 6 of the Code of Federal Regulations are amended to read as follows, effective February 1, 1972:

§ 301.106 Rent controlled units.

• • • • •

(c) *Instructions to governmental authorities.* • • •

(1) Before April 15, 1972, furnish the Price Commission a full description of its methods of rent control, and a copy of each of its laws, regulations, and procedures by which that control is implemented;

• • • • •

(3) Report to the Price Commission, within 30 days after the end of each calendar quarter, beginning with the quarter ending on March 31, 1972, on the aggregate percentage rent increases for controlled units under its jurisdiction during that quarter.

• • • • •

Issued in Washington, D.C., on March 30, 1972.

C. JACKSON GRAYSON, Jr.,
Chairman, Price Commission.

[FR Doc.72-5130 Filed 3-31-72;8:50 am]

Chapter IV—Internal Revenue Service

PART 401—PROCEDURAL RULES RELATING TO ECONOMIC STABILIZATION MATTERS

Miscellaneous Amendments

In order to clarify the Internal Revenue Service procedural rules relating to economic stabilization, miscellaneous amendments are made to 6 CFR Part 401 as follows:

PARAGRAPH 1. Section 401.2 is amended by adding alphabetically definitions for "National Office" and "Office of the Chief Counsel," and by revising the definitions of "Person aggrieved" and "Request for a determination" to read as follows:

§ 401.2 Definitions and terms.

• • • • •

"National Office" means the Office of the Assistant Commissioner of Internal Revenue (Stabilization).

• • • • •

"Office of the Chief Counsel" means the Office of the Chief Counsel for the Internal Revenue Service located in Washington, D.C.

• • • • •

"Person aggrieved" means:

(1) A person with a substantial pecuniary interest in the denial of a requested action,

(2) An employee whose wage or salary is subject to a pay adjustment, or his representative, or

(3) A person whose request for an exemption has been denied by a district director.

• • • • •

"Request for a determination" means a written inquiry by a person as to the application to him of the regulations and guidelines promulgated by the Cost of Living Council, Pay Board, and Price Commission in respect of a completed or proposed act or transaction. Thus, such a request may be a request for an interpretation or ruling, an application for an exception or exemption, or a pay challenge.

• • • • •

V 37-64
APR 1 72
XUM

PAR. 2. Section 401.4 is amended to read as follows:

§ 401.4 **Computation of time.**

Except as otherwise provided by law, in computing any period of time prescribed or allowed by this part for the performance of any act, the day of the act, event, or default on which the designated period of time begins to run shall not be counted. Additionally, if the period prescribed or allowed is 7 days or less, an intervening Saturday, Sunday, or Federal legal holiday shall not be counted.

PAR. 3. Section 401.101 is amended by revising paragraphs (a) and (f), and by adding a new paragraph (g) to read as follows:

§ 401.101 **Instructions to applicants.**

(a) Each request for a determination must be submitted in writing to the appropriate district director and contain a complete statement of all relevant facts relating to the act or transaction. Such facts include names, addresses, and identifying numbers of all affected parties (if reasonably ascertainable); a full and precise statement of the business reasons for the act or transaction (where appropriate); and a carefully detailed description of the act or transaction. In addition, true copies of all contracts, agreements, leases, instruments, and other documents involved must be submitted with the request. However, relevant facts reflected in documents submitted must be included in the statement and not merely incorporated by reference, and must be accompanied by an analysis of their bearing on the issue or issues, specifying the pertinent provisions. The request must contain a statement whether, to the best of the knowledge of the applicant or his representative, the identical issue is being considered by any field office of the Service (or other Governmental agency) in connection with a possible violation of economic stabilization regulations or guidelines by the person who is the subject of the requested determination. The request must also contain a statement as to whether the applicant or his representative has filed an application for an exception or exemption, or if a pay challenge has been filed with respect to the subject matter of the requested determination. Where the request pertains to only one step of a larger integrated transaction, the facts, circumstances, etc., must be submitted with respect to the entire transaction. As documents and exhibits become a part of the Internal Revenue Service file and cannot be returned, the original documents should not be submitted.

• • • • • •

(f) It is the practice of the Service to process requests for determinations in regular order and as expeditiously as possible. Compliance with a request for consideration of a particular matter ahead of its regular order, or by a specified time, tends to delay the disposition of other matters. Requests for processing ahead of the regular order, made in writing in a separate letter submitted with the request or subsequent thereto and showing clear need for such treatment will be given consideration as the particular circumstances warrant. However, no assurance can be given that any request for determination will be processed by the time requested. For example, the scheduling of a closing date for transaction or a meeting of the board of directors or shareholders of a corporation without due regard to the time it may take to obtain such a determination will not be deemed sufficient reason for handling a request ahead of its regular order. Neither will the possible effect of fluctuation in the market price of goods or commodities on a transaction be deemed sufficient reason for handling a request out of order. Requests by telegram will be treated in the same manner as requests by letter. Determinations ordinarily will not be issued by telegram.

(g) A request for a ruling or interpretation which includes, or could be construed to include, an application for an exception, exemption, or a pay challenge will nonetheless be treated solely as a request for a ruling or interpretation, as appropriate, and processed as such.

PAR. 4. Section 401.205 is amended by revising paragraphs (a)(3), (b)(1) and (3), (c), (d), (e), and (g)(1) to read as follows:

§ 401.205 **Practices and policies with respect to interpretations and rulings.**

(a) *Circumstances under which the Office of the Chief Counsel issues rulings.* • • •

(3) An application has been made for an exception or exemption, or a pay challenge has been filed with respect to the subject matter of the requested determination.

(b) *Circumstances under which district directors issue interpretations.* • • •

(1) An application has been made for an exception or exemption, or a pay challenge has been filed with respect to the subject matter of the requested determination,

• • • • • •

(3) The issue involved has been the subject of a recent court decision adverse to the Government, and the question of following the decision or further litigating the matter has not been resolved.

(c) *Discretionary authority to issue rulings and interpretations.* There are certain areas where, because of the sensitive nature of the problem involved, or for other reasons, the Office of the Chief Counsel and the Service will not issue rulings or interpretations. The Office of the Chief Counsel and the Service may decline to issue rulings or interpretations whenever warranted by the facts or circumstances of a particular case. District Directors may, when it is deemed appropriate and in the best interest of the Service and the public, issue information letters calling attention to well-established principles of the regulations and guidelines promulgated by the Cost of Living Council, Pay Board, and Price Commission.

(d) *Reference of matters to district offices.* The National Office will not entertain direct requests for interpretations and will forward such requests received for action to the appropriate district office. The Office of the Chief Counsel, except in unusual circumstances will not entertain direct requests for rulings, and will forward such requests received for action to the appropriate district office.

(e) *Review of determinations.* Interpretations are not generally reviewed by the National Office or Office of the Chief Counsel as they merely inform an applicant of a position previously established by regulations or guidelines, or in a ruling or court decision. If an applicant believes that an interpretation is in error, he may appeal under the provisions of §§ 401.601 through 401.605 if he qualifies. An applicant who does not qualify under § 401.601 may request a review of the interpretation by the district director who issued the interpretation. An applicant for a ruling will be notified that he may seek a reconsideration or may file an appeal with respect to the ruling issued to him if he believes such ruling is in error.

• • • • • •

(g) *Oral advice.* (1) Rulings or interpretations are not issued upon oral requests. Furthermore, officials and employees of the National Office and Office of the Chief Counsel will not discuss a substantive issue with an applicant or his representative. This should not be construed as preventing an applicant or his representative from inquiring whether the Service will rule on a particular question. The Service will discuss questions relating to procedures for submitting a request for an interpretation or ruling.

• • • • • •

PAR. 5. Section 401.303 is amended to read as follows:

§ 401.303 **Instructions to applicants.**

(a) *In general.* A request for an exception or exemption must be clearly designated as such. Any request for an exception or exemption included in a request for an interpretation or ruling shall be processed solely as a request for an interpretation or ruling, as appropriate. The provisions of § 401.101, relating to instructions applicable to requests for determinations, are generally applicable to requests for exception or exemption.

(b) *Special instructions.* A request for an exception or exemption shall present evidence sufficient to establish—

(1) That the application of economic stabilization regulations and guidelines will result in serious hardship or gross inequity,

(2) That the request is not designed as part of a plan to avoid the intent and purpose of the Act, and

(3) That, in the case of request for exception pursuant to § 301.109 of this title, the lessees have been notified of such request in the manner prescribed in such section.

Requests for exception will not be processed if they are based on a proposed wage agreement.

PAR. 6. Section 401.404 is amended by revising paragraph (a) to read as follows:

§ 401.404 **Instructions to applicants.**

(a) *In general.* A pay challenge must be clearly designated as such. Any pay challenge included in a request for an interpretation or ruling shall be processed solely as a request for an interpretation or ruling, as appropriate. The provisions of § 401.101, relating to instructions applicable to request for determinations, are generally applicable to a pay challenge.

• • • • • •

PAR. 7. Section 401.502 is amended by revising paragraph (b) to read as follows:

§ 401.502 **Violations.**

• • • • • •

(b) *Investigative procedure.* A person who is issued a notice of violation will be given an opportunity to explain his position with respect to the alleged violation prior to the submission of the case by the district director to a U.S. attorney unless compelling reasons exist to the contrary. (See § 401.5 for rules relating to service.) The principal (the person to whom the notice was issued) will be granted an interview if he makes a request to the appropriate district director within 2 days after the date of receipt of the notice of violation. The interview will be held within a reasonable time after the receipt by the district director of the request for an interview, but in no event more than 5 days after the receipt of such request. At this interview, the principal may have counsel present and will be informed, by a general oral statement, of the features of his case which are alleged to show a violation of economic stabilization regulations and guidelines and, at the same time, there will be made available to the principal sufficient facts, figures, and legal analysis to acquaint him with the nature, basis, and other essential elements of the alleged violation. The principal may not make an appeal pursuant to the provisions of Subpart G of this part.

• • • • • •

PAR. 8. The heading of Subpart G is revised to read as follows:

Subpart G—Appeals and Reconsiderations

PAR. 9. Immediately preceding § 401.601 a center heading is added to read as follows:

APPEALS

PAR. 10. Section 401.601 is revised to read as follows:

§ 401.601 **Right to appeal.**

Any person who is—

(a) A person aggrieved (as defined in § 401.2), except a person aggrieved by a ruling, or

(b) Subject to any provision of an interpretation,

may appeal in the manner set forth in this subpart. A person is, for the purposes of paragraph (b) of this section, subject to such a provision only if the interpretation was issued to him, the action is adverse to him, and he has a substantial pecuniary interest. A principal referred to in paragraph (b) of § 401.502 may not make an appeal pursuant to the provisions of this subpart with respect to the subject matter of the notice of violation issued to him. Any appeal filed by or on behalf of a person not subject to the provision protested, or otherwise not in accordance with this subpart, may be rejected by the appropriate district director. See § 401.502(b) for the appeal procedure applicable in the case of a principal.

PAR. 11. Section 401.602 is amended by revising paragraph (b) to read as follows:

§ 401.602 **Time and place for filing appeal.**

• • • • • •

(b) The issuance of the interpretation referred to in such section with the district director whose office processed the appellant's request for determination with respect to which such interpretation was issued.

PAR. 12. Section 401.603 is amended by revising paragraph (b) to read as follows:

§ 401.603 **Contents of appeal.**

• • • • • •

(b) A copy of the interpretation,

• • • • • •

PAR. 13. Section 401.604 is amended by revising paragraph (c) to read as follows:

§ 401.604 **Action by district conferee on appeal.**

• • • • • •

(c) Notice of any such action taken by the district conferee shall promptly be issued to the appellant. In any case in which an appeal has been denied in whole or in part, the appellant shall be advised by such notice that he may file an appeal with the Cost of Living Council, Pay Board, or Price Commission in accordance with the provisions of §§ 105.20 through 105.28 of this title, §§ 205.20 through 205.28 of this title, or §§ 305.20 through 305.28 of this title, respectively.

• • • • • •

PAR. 14. Section 401.605 is revised to read as follows:

§ 401.605 **Effect of decision upon appeal.**

A decision of a district conferee pursuant to § 401.604 shall be binding on all Service personnel and may only be reversed, upon appeal, by the Cost of Living Council, Pay Board, or Price Commission as appropriate, pursuant to the provisions of this title or by a final court decision.

PAR. 15. Immediately following § 401.605 the following new sections and a center heading are added to Subpart G of 6 CFR Part 401 to read as follows:

RECONSIDERATIONS

§ 401.606 **Right to reconsideration.**

Any person who is—

(a) A person aggrieved (as defined in § 401.2) by a ruling, or

(b) Subject to any provision of a ruling,

may request a reconsideration of a ruling issued by the Office of the Chief Counsel (Stabilization Division) on or after April 1, 1972, in the manner set forth in this subpart. A person is, for the purposes of paragraph (b) of this section, subject to such a provision only if the ruling was issued to him, the action is adverse to him, and he has a substantial pecuniary interest. A principal referred to in paragraph (b) of § 401.502 may not make a request for reconsideration pursuant to the provisions of this subpart with respect to the subject matter of the notice of violation issued to him. Any request for reconsideration filed by or on behalf of a person not subject to the provision protested, or otherwise not in accordance with this subpart, may be rejected by the Office of the Chief Counsel (Stabilization Division). See § 401.502(b) for the appeal procedure applicable in the case of a principal.

§ 401.607 **Time and place for filing request for reconsideration.**

Any request for reconsideration referred to in § 401.606 shall be filed within 10 days of the issuance of the ruling referred to in such section with the Office of the Chief Counsel for the Internal Revenue Service, Attention: Director, Stabilization Division, CC:S:A, Washington, D.C. 20224.

§ 401.608 **Contents of the request.**

Every request for reconsideration shall set forth:

(a) The name, address, and identifying number of the person seeking the reconsideration,

(b) A copy of the ruling,

(c) A clear and concise statement of all objections raised by the person seeking the reconsideration against the provision or provisions objected to, and

(d) Whether or not a conference is desired.

The person seeking the reconsideration must also include with his request a statement of his views as to the affect of economic stabilization regulations and guidelines upon the subject act or transaction and furnish a statement of relevant authorities to support such views.

§ 401.609 **Action by Office of the Chief Counsel on Reconsideration.**

The Office of the Chief Counsel (Stabilization Division) shall process and decide a request for reconsideration pursuant to the procedural rules of this section:

(a) Within a reasonable time after the filing of any request for reconsideration in accordance with this subpart, but in no event more than 10 days after such filing, the Stabilization Division shall:

V 37-64 APR 1 72 XUM

(1) Grant or deny such request in whole or in part,

(2) Advise the person seeking a reconsideration in writing that, in accordance with the established procedures, a decision will be delayed, or

(3) If a conference has been requested and granted, issue a notice of the date it is to be held (see § 401.701).

(b) Where a conference on a request for reconsideration has been granted, the Stabilization Division shall, within 10 days after such conference, grant or deny such request in whole or in part.

(c) Notice of any such action taken by the Stabilization Division shall promptly be issued to the person seeking a reconsideration. In any case in which a request has been denied in whole or in part, the person seeking a reconsideration shall be advised by such notice that he may file an appeal with the Cost of Living Council, Pay Board, or Price Commission in accordance with the provisions of §§ 105.20 through 105.28 of this title, §§ 205.20 through 205.28 of this title, or §§ 305.20 through 305.28 of this title, respectively.

For purposes of this title, the denial of a request for reconsideration in whole or in part by the Stabilization Division pursuant to this section shall be considered a final action by the Internal Revenue Service.

§ 401.610 Effect of a ruling by the Stabilization Division.

A ruling issued by the Stabilization Division or a decision of the Stabilization Division pursuant to § 401.609 shall be binding on all Service personnel and may only be reversed, upon appeal, by the Cost of Living Council, Pay Board, or Price Commission, as appropriate, pursuant to the provisions of this title or by a final court decision.

§ 401.611 Copy of appeal required when appeals are taken to the Council, Board, or Commission.

Any person qualified under § 401.606 to request a reconsideration may file an appeal with the Cost of Living Council, Pay Board, or Price Commission without seeking a reconsideration or after his request for reconsideration is denied in whole or in part. If an appeal is filed without the seeking of a reconsideration, the right to such reconsideration is forfeited. A copy of the appeal shall be sent to the Office of the Chief Counsel for the Internal Revenue Service, Attention: Director, Stabilization Division, CC:S:A, Washington, D.C. 20224.

Because of the need for immediate guidance from the Internal Revenue Service with respect to the subject matter of this regulation, it is found impracticable to issue such regulation with notice and public procedure thereon under section 553(b) of title 5 of the United States Code or subject to the effective date limitation of section 553(d) of such title.

(Economic Stabilization Act of 1970 as amended, Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15, 85 Stat. 38; Public Law 92-210, 85 Stat. 743; Executive Order No. 11640 [37 F.R. 1213, January 27, 1972], Cost of Living Council Order No. 8 [37 F.R. 2727, February 4, 1972], Pay Board Order No. 4 [37 F.R. 3792, February 19, 1972], Price Commission Order No. 2 [37 F.R. 3212, February 12, 1972])

JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

LEE H. HENKEL, JR.,
Acting Chief Counsel for the Internal Revenue Service.

[FR Doc.72-4996 Filed 3-31-72;8:47 am]

Title 7—AGRICULTURE

Chapter I—Consumer and Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 59—INSPECTION OF EGGS AND EGG PRODUCTS

Miscellaneous Amendments

Under authority contained in the Egg Products Inspection Act (84 Stat. 1620 et seq., 21 U.S.C. 1031-1056) the U.S. Department of Agriculture hereby amends the Regulations Governing the Inspection of Eggs and Egg Products (7 CFR Part 59).

Statement of considerations. On February 5, 1972, a rule making proposal was published in the FEDERAL REGISTER (37 F.R. 2775) setting forth proposed miscellaneous amendments to the eggs and egg products inspection regulations which govern the program created by the Egg Products Inspection Act. The purpose of the proposed amendments was to clarify certain sections of the regulations and provide more specific information for persons affected by the Act and make some changes in the facility requirements and operating procedures for egg products plants.

An additional rule making proposal concerning labeling requirements when water is added to egg products was published on February 12, 1972, in the FEDERAL REGISTER (37 F.R. 3187).

Except as further stated herein, the bases and considerations stated in the above notices of rule making are adopted and made a part hereof.

Twenty comments were received on the two proposals, 14 of which were from affected persons in the egg and egg products industry, four were from trade organizations, and two were from other interested persons.

There were several comments in opposition to the proposed requirements for a separate refuse room for egg products plants on the basis that this would be unnecessary when refuse is regularly removed from the plant. However, unless refuse is confined to a specific closed room, it is difficult to maintain sanitation and control odors. Both a refuse room and a prompt disposal system for such refuse are fundamental and necessary to the production of wholesome egg products.

A number of constructive comments were received suggesting clarification of certain of the proposed amendments. Because of the merit of these suggestions they have been incorporated in the following changes in the proposed miscellaneous amendments published February 5:

1. Section 59.500(o) would require refuse rooms to be completely enclosed without doorways opening into breaking or processing rooms. There is no objection to such rooms opening into the transfer room since there is no exposed product in this room and most refuse material would move directly from the transfer room to the refuse room. This section has been reworded to make it clear that transfer rooms are not considered processing rooms.

2. A number of comments were received from egg producers who are not under official supervision who ship inedible shell eggs to drying plants where the product is processed for industrial use or for animal food. They contend that coloring the eggs or decharacterizing them as required in § 59.720 produces an undesirable dried product for animal use. If adequate controls can be maintained on the shipment and receipt of this product, coloring the shells or decharacterization would not be necessary. Whether adequate controls can be maintained would be determined on an individual basis. Accordingly, § 59.720(a)(3) has been changed to permit procedures other than those listed when approved by the Administrator for handling eggs to be processed for industrial use or for animal food.

Provision for shipping nondenatured or nondecharacterized egg product under Government seal had been proposed in § 59.720, but was inadvertently omitted from § 59.504(c). The provision has been added to § 59.504(c).

3. Section 59.506(c) was interpreted by many industry people to mean that special exhaust systems or vents would be required in all cases to remove steam, vapors, or odors originating from the shell egg washing equipment. In some cases, the main exhaust system for the room in which this washing equipment is located takes care of the problem without the need of special systems for the washing equipment. This section has been reworded to clear up the misunderstanding.

4. Section 59.522(aa)(2) would require the pipelines and pumping systems for pumping egg liquid directly from breaking machines to be cleaned or flushed approximately every 4 hours or as often as needed to maintain them in a sanitary condition.

After consideration of comments, it appears that the 4-hour requirement is unnecessarily restrictive for pipelines since they are a closed system and not as vulnerable to contamination as other equipment. Therefore, the section has been reworded to require pipelines to be cleaned or flushed "as often as necessary to maintain them in a sanitary condition."

5. In § 59.720(a)(4) reference was only made to restricted eggs without specifying the type of eggs involved in the coloring or decharacterizing requirements. Clarification has been made to indicate that this section refers to loss and inedible eggs.

Also in § 59.720(a)(4), provision has been made to ship lots of eggs directly to breaking plants when they contain edible eggs and a significant percent of blood or meat spots, but no other types of loss and inedible eggs. Such lots of eggs would be labeled "Spots—For Processing Only in Official Egg Products Plants." These eggs contain a high percentage of wholesome salvageable product. The labeling provision makes it possible to avoid recandling the product in shell egg plants and to efficiently utilize this product in official egg products plants by processing it in a special manner.

With respect to the proposal on labeling when water is added to egg products published in the FEDERAL REGISTER on February 12 amending § 59.720(c)(1) in the proposal published February 5, the comments reflected some confusion as to whether dried eggs were involved and whether water added to ingredients to be added to egg products was covered in the proposal. Accordingly, this section is clarified to indicate that it applies only to liquid and frozen eggs, and the water indicated on the label includes that added to the ingredient of an egg product (in excess of the normal water content of that ingredient). A few other minor changes are made solely for the sake of clarity.

The amendments are as follows:

1. In § 59.5 definition of "Egg," subparagraph (3), "Dirty egg" is amended to read:

§ 59.5 Terms defined.

* * * * *

"Egg" * * *

(3) "Dirty egg" or "Dirties" means an egg(s) that has a shell that is unbroken and has adhering dirt, foreign material, or prominent stains.

* * * * *

2. Section 59.40 is amended to read:

§ 59.40 Continuous inspection not provided.

Continuous inspection shall not be provided under this part at any plant for the processing of any egg products which are not intended for use as human food, but such articles prior to their offer for sale or transportation in commerce shall be denatured or decharacterized unless shipped under seal as authorized in section 504(c) and 720(a), and identified as prescribed by the regulations in this part to prevent their use for human food. Periodic inspections shall be made of such operations and records to assure compliance with the Act and the regulations in this part.

3. In § 59.45, paragraph (a) is amended to read:

§ 59.45 Prohibition on eggs and egg products not intended for use as human food.

(a) No person shall buy, sell, or transport or offer to buy or sell, or offer or receive for transportation in commerce, any eggs or egg products which are not intended for use as human food, unless they are denatured or decharacterized, unless shipped under seal as authorized in section 504(c) and 720(a) and identified as required by the regulations in this part.

* * * * *

4. In § 59.128, paragraph (b) is amended to read:

§ 59.128 Holiday inspection service.

* * * * *

(b) The term "holiday" shall mean the legal public holidays specified by the Congress in paragraph (a) of section 6103, title 5 of the United States Code. Information on legal holidays may be obtained from the supervisor.

5. In § 59.160, paragraphs (d)(1) and (2) and (e) are amended and new subparagraphs (3) and (4) are added to paragraph (f) to read:

§ 59.160 Refusal, suspension, or withdrawal of service.

* * * * *

(d)(1) Any applicant for inspection at a plant where the operations thereof may result in any discharge into the navigable waters in the United States is required by subsection 21(b)(2) and (3) of the Federal Water Pollution Control Act, as amended (84 Stat. 91), to provide the Administrator with a certification as prescribed in said subsection that there is reasonable assurance that such activity will be conducted in a manner which will not violate the applicable water quality standards. No grant of inspection can be issued after April 3, 1970 (the date of enactment of the Water Quality Improvement Act), unless such certification has been obtained, or is waived because of failure or refusal of the State, interstate agency, or the Administrator of the Environmental Protection Agency to act on a request for certification within a reasonable period (which shall not exceed 1 year after receipt of such request). Further, upon receipt of an application for inspection and a certification as required by subsection 21(b) of the Federal Water Pollution Control Act, the Administrator (as defined in § 59.5) is required by subparagraph (2) of said subsection to notify the Administrator of the Environmental Protection Agency for proceedings in accordance with that subsection. No grant of inspection can be made until the requirements of said subparagraph (2) have been met.

(2) However, certification is not initially required in connection with an application for inspection granted after April 3, 1970, for facilities existing or under construction on April 3, 1970, although certification for such facilities is required to be obtained within the 3-year period immediately following April 3, 1970. Failure to obtain such certification and meet the other requirements of subsection 21(b) prior to April 3, 1973, will result in the termination of inspection at such plant on that date. In the case of any activity which will affect water quality, but for which there are no applicable water quality standards, no certification is required prior to a grant of inspection, but such grant will be conditioned upon a requirement of compliance with the purposes of the Federal Water Pollution Control Act as provided in subsection 21(b)(9) of said Act.

(e) Inspection may also be suspended, revoked, or terminated as provided in section 21 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 466, et seq. and Public Law 91-224).

(f) *Suspension of plant approval and withdrawal of service.* * * *

(3) The operator shall be notified of the withdrawal action and the reasons therefor and afforded an opportunity to present his views informally prior to the effective date of such withdrawal, and upon written request, he shall be afforded an opportunity for a hearing in accordance with the applicable rules of practice (Part 50 of this chapter), with respect to the merits or validity of the withdrawal, but such a suspension or other withdrawal shall continue in effect pending the outcome of any such hearing unless otherwise ordered by the Administrator.

(4) In any case where inspection service is suspended under this paragraph (f), such service, after appropriate corrective action is taken, will be restored immediately, or as soon thereafter as an inspector can be made available. In any case where inspection service is withdrawn for a specified period under this paragraph (f), the person concerned may, after said specified period has expired, apply for inspection service as provided in §§ 59.140 through 59.146.

6. Section 59.200 is amended to read:

§ 59.200 Records and related requirements.

(a) Persons engaged in the business of transporting, shipping, or receiving any eggs or egg products in commerce, or holding such articles so received, and all egg handlers, including hatcheries, shall maintain records showing, for a period of 2 years, to the extent that they are concerned therewith, the receipt, delivery, sale, movement, and disposition of all eggs and egg products handled by them, and shall, upon the request of an authorized representative of the Secretary, permit him, at reasonable times, to have access to and to copy all such records.

(b) Production records by categories of eggs such as graded eggs, nest-run eggs, dirties, checks, leakers, loss, inedible, etc., bills of sale, inventories, receipts, shipments, shippers, receivers, dates of shipment and receipt, carrier names, etc., as determined by the Administrator, shall be maintained by all shell egg handlers and egg processing operations, except that, (1) producers who ship all of their production as nest-run eggs without segregation need only to maintain records indicating the amount of shell eggs shipped, date of shipment, and the receivers' name and address, and (2) official egg products plants which use all shell eggs received

V 37 I 64 APR 1 72 XUM

and do not reship any shell eggs need only to maintain records indicating the amount of eggs received, date received, and the name and address of the shipper.

7. Section 59.240 is amended to read:

§ 59.240 Detaining product.

Whenever any eggs or egg products subject to the Act are found by any authorized representative of the Secretary upon any premises, and there is reason to believe that they are or have been processed, bought, sold, possessed, used, transported, or offered or received for sale or transportation in violation of the Act or the regulations in this part, or that they are in any other way in violation of the Act, or whenever any restricted eggs capable of use as human food are found by such a representative in the possession of any person not authorized to acquire such eggs under the regulations in this part, such articles may be detained by such representative for a period not to exceed 20 days, as more fully provided in section 19 of the Act. A detention tag or other similar device shall be used to identify detained product, and the custodian or owner shall be given a written notice of such detention. Only authorized representatives of the Secretary shall affix or remove detention identification. The provisions of this section shall in no way derogate from authority for condemnation or seizure conferred by other provisions of the Act, the regulations in this part, or other laws.

8. Section 59.411 is amended to read:

§ 59.411 Requirement of formulas and approval of labels for use in official egg products plants.

(a) No label, container, or packaging material which bears official identification shall bear any statement that is false or misleading. Any label, container, or packaging material which bears any official identification shall be used only in such manner as the Administrator may prescribe. No label, container, or packaging material bearing official identification may be used unless it is approved by the Administrator in accordance with paragraph (b) of this section. If the label is printed on or otherwise applied directly to the container or packaging material, the principal display panel thereof shall be considered as the label.

(b) No label, container, or packaging material bearing official identification shall be printed or prepared for use until the printers' or other final proof has been approved by the Administrator in accordance with the regulations in this part, the Egg Products Inspection Act, the Federal Food, Drug, and Cosmetic Act, and the Fair Packaging and Labeling Act. The finished copies or samples or such label must be submitted to the Administrator for approval. Copies of each label submitted for approval shall be accompanied by:

(1) A statement showing by their common or usual names the kinds and percentages of the ingredients comprising the egg product in the form in which it is to be used (i.e., liquid or dried). Approximate percentages (range) may be given in cases where the percentages may vary from time to time.

(2) When required, scientific data demonstrating that the substance or mixture is safe and effective for its intended use and does not promote deception or cause the product to be otherwise adulterated or misbranded.

(c) Containers of product bearing official identification shall display the following information:

(1) The common or usual name, if any, and if the product is comprised of two or more ingredients, such ingredients shall be listed in the order of descending proportions. When water (excluding that used to reconstitute dehydrated ingredients back to their normal composition) is added to a liquid or frozen egg product or to an ingredient of such products (in excess of the normal water content of that ingredient), the total amount of water added, including the water content of any cellulose or vegetable gums used, shall be expressed as a percentage of the total product volume in the ingredient statement on the label. This subparagraph (1) is effective September 1, 1972;

(2) The name, address, and ZIP code of the packer or distributor. When the distributor is shown, it shall be qualified by such terms as "packed for," "distributed by," or "distributors";

(3) The lot number or production code number;

(4) The net contents;

(5) Official identification and plant number;

(6) Egg products which are produced in an official plant from edible shell eggs of other than current production or from other egg products produced from shell eggs of other than current production, shall be clearly and distinctly labeled in close proximity to the common or usual name of the product, e.g., "Manufactured from eggs of other than current production";

(7) Egg products produced from edible shell eggs or the egg product produced from such shell eggs of the turkey, duck, goose, or guinea shall be clearly and distinctly labeled as to the common or usual name of the product indicating the type of eggs or egg products used in the product, e.g., "Frozen whole turkey eggs," "Frozen whole chicken and turkey eggs." Egg products labeled without qualifying words as to the type of shell egg used in the product shall be produced only from the edible shell egg of the domesticated chicken or the egg product produced from such shell eggs.

(d) Liquid or frozen egg products identified as whole eggs and prepared other than in natural proportions, as so broken from the shell, shall have a total egg solids content of 24.70 percent or greater.

(e) If the Administrator has reason to believe that the statement on formulation shows the product to be adulterated or misbranded or that any labeling, or the size or form of any container in use or proposed for use in respect to egg products at any official plant is false or misleading in any way, he may direct that such use be withheld unless the labeling or container is modified in such a manner as he may prescribe so that it will not be false or misleading, and/or the formulation of the product is altered in such a manner that he may prescribe so that it is not adulterated or would not cause misbranding. Any person so denied the approval of any label shall be notified promptly of the reasons for the denial on a form approved by the Administrator. If the person using or proposing to use the label does not accept the determination of the Administrator, he may request a hearing by filing with the Administrator within 10 days after receiving the notice of denial, a written application for a hearing setting forth specifically, the errors alleged to have been made by the Administrator in denying approval of the label. The use of the label shall be withheld pending hearing and final determination by the Administrator if the Administrator so directs. Hearings held pursuant to this subsection shall be presided at by the Administrator. The applicant shall be given the opportunity to present evidence both oral and written in support of his allegation that the Administrator erred in denying approval of the label. The notice of denial together with all other available data and information used as a basis for such denial shall be considered part of the record. The Administrator may take official notice of such matters as are judicially noticed by the Courts of the United States and of any other matter of technical, scientific, or commercial fact of established character. The Administrator shall make his final determination with respect to the matter upon the basis of evidence before him. Such determination shall be conclusive unless, within 30 days after the receipt of notice of such final determination, the person adversely affected thereby appeals to the U.S. Court of Appeals for the circuit in which he has his principal place of business, or to the U.S. Court of Appeals for the District of Columbia Circuit. The provisions of section 204 of the Packers and Stockyards Act of 1921, as amended, shall be applicable to appeals taken under this section.

9. In § 59.500, a new paragraph (o) is added to read:

§ 59.500 Plant requirements.

. . . . . .

(o) Refuse rooms shall be provided for the accumulation and storage of shells, trash, and other refuse. They shall be separate rooms completely enclosed without doorways opening into breaking rooms or rooms where egg products or packaging materials are handled or stored and have concrete floors with approved drains, facilities for cleaning, and an approved exhaust system vented to the outside.

10. In § 59.504 paragraphs (c) and (o) (3) (iii) are amended and a new paragraph (q) is added to read, respectively:

§ 59.504 General operating procedures.

. . . . . .

(c) All loss and inedible eggs or egg products shall be placed in a container clearly labeled inedible and containing an approved denaturant or decharacterant such as FD&C blue, black, or green colors, meat or bone meal, or any other substance, as approved by the Administrator, that will accomplish the purposes of this section. Shell eggs shall be crushed and the substance shall be dispersed through the product in amounts sufficient to give the product a distinctive appearance or odor. Notwithstanding the foregoing, and upon permission of the inspector, the applicant may hold inedible product in containers clearly labeled inedible which do not contain a denaturant if such inedible product is denatured or decharacterized prior to shipment from the official plant: *Provided*, That such product is properly packaged, labled, segregated, and inventory controls are maintained. In addition, product shipped from the official plant for industrial use or animal food need not be denatured or decharacterized if it is shipped under Government seal and is received by an inspector or grader as defined in this part.

. . . . . .

(o) . . .

(3) . . .

(iii) The applicant shall acknowledge receipt of each shipment by indicating on the reverse side of the USDA certificate, "The quantity of nonpasteurized egg product stated on this certificate was received at ----------," the blank being filled in with the name and address of the receiving company and the date and signature of the person completing the form. The certificate shall be returned to the USDA inspector at the origin plant.

. . . . . .

(q) All liquid and solid waste material in the official plant shall be disposed of in a manner approved by the Administrator to prevent product contamination and in accordance with acceptable environmental protection practices.

11. In § 59.506, paragraph (c) is amended to read:

§ 59.506 Candling and transfer-room facilities and equipment.

. . . . . .

(c) An approved exhaust system shall be provided for the continuous removal directly to the outside of any steam, vapors, odors, or dust in the room. The room shall be maintained at reasonable working temperatures during operations.

. . . . . .

12. In § 59.520, paragraph (i) is amended to read:

§ 59.520 Breaking room facilities.

. . . . . .

(i) A separate drawoff room with a filtered positive air ventilation system shall be provided for packaging liquid egg product, except product packaged by automatic, closed packaging systems.

13. In § 59.522, paragraph (aa) (2) is amended to read:

§ 59.522 Breaking room operations.

. . . . . .

(aa) . . .

(2) Systems for pumping egg liquid directly from egg breaking machines shall be of approved sanitary design and construction, and designed to minimize the entrance of shells into the system and be disconnected when inedible eggs are encountered. The pipelines of the pumping system shall be cleaned or flushed as often as needed to maintain them in a sanitary condition, and they shall be cleaned and sanitized at the end of each shift. Other pumping system equipment shall be cleaned and sanitized approximately every 4 hours or as often as needed to maintain it in a sanitary condition. All liquid egg pumped directly from egg breaking machines shall be reexamined, except as otherwise prescribed and approved by the Administrator.

. . . . . .

14. Section 59.690 is amended to read:

§ 59.690 Persons required to register.

Shell egg handlers, except for producer-packers with an annual egg production from a flock of 3,000 hens or less, who grade and pack eggs for the ultimate consumer (e.g., retail stores, households, restaurants, institutions, food manufacturers, etc.), and hatcheries, prior to July 1, 1972, are required to register with the U.S. Department of Agriculture by furnishing their name, place of business, and such other information as is requested on forms provided by and/or available from the U.S. Department of Agriculture. Completed forms shall be sent to the addressee indicated on the form. Persons as those listed above who establish businesses after July 1, 1972, will be required to register before they start operations.

15. In § 59.720, paragraph (a) is amended to read:

§ 59.720 Disposition of restricted eggs.

(a) Eggs classified as checks, dirties, incubator rejects, inedibles, leakers, or loss shall be disposed of by one of the following methods at point and time of segregation:

(1) Checks and dirties may be shipped directly or indirectly to an official egg products plant for segregation and processing when labeled in accordance with § 59.800. Inedibles and loss eggs shall not be intermingled in the same containers with checks and dirties.

(2) By destruction in a manner approved by the Administrator, such as crushing and denaturing or decharacterizing in accordance with § 59.504(c) and identifying the product as "Inedible Egg Product—Not To Be Used As Human Food."

(3) Processing for industrial use or for animal food. Such product shall be denatured or decharacterized in accordance with § 59.504(c) and identified as provided in §§ 59.840 and 59.860, or handled in accordance with other procedures approved by the Administrator. Notwithstanding the foregoing, product which was produced under official supervision and transported for industrial use or animal food need not be denatured or decharacterized if it is shipped under Government seal and received by an inspector or grader as defined in this part.

(4) By coloring the shells of loss and inedible eggs with a sufficient amount of FD&C color to give a distinct appearance, or applying a substance that will penetrate the shell and decharacterize the egg meat. Except that, lots of eggs containing significant percentages of blood or meat spots, but no other types of loss or inedible eggs, may be shipped directly to official egg products plants, provided they are conspicuously labeled "Spots—For Processing Only In Official Egg Products Plants."

(5) Incubator rejects shall be broken or crushed and denatured or decharacterized in accordance with § 59.504(c) and labeled as required in §§ 59.840 and 59.860.

. . . . . .

16. Section 59.800 is amended to read:

§ 59.800 Identification of restricted eggs.

The shipping container of restricted eggs shall be determined to be satisfactorily identified if such container bears the packer's name and address, the quality of the eggs in the container (e.g., dirties, checks, inedibles, or loss), or the statement "Restricted Eggs—For Processing Only In An Official USDA Egg Products Plant," for checks or dirties, or "Restricted Eggs—Not To Be Used As Human Food," for inedibles, loss, and incubator rejects, or "Restricted Eggs—To Be Regraded" for graded eggs which contain more restricted eggs than are allowed in the official standards for U.S. Consumer Grade B shell eggs. The size of the letters of the identification wording shall be as required in § 59.860.

17. Section 59.860 is amended to read:

§ 59.860 Identification wording.

The letters of the identification wording shall be legible and conspicuous.

18. In § 59.905, paragraph (a) is amended to read:

§ 59.905 Importation of restricted eggs or eggs containing more restricted eggs than permitted in the official standards for U.S. Consumer Grade B.

(a) No containers of restricted eggs other than checks or dirties shall be imported into the United States. The shipping containers of such eggs shall be identified with the name, address, and country of origin of the exporter, and the quality of the eggs (e.g., checks, or dirties) preceded by the word "Imported" or the statement "Imported Restricted Eggs—For Processing Only In An Official USDA Plant," or "Restricted Eggs—Not To Be Used As Human Food." Such identification shall be legible and conspicuous.

. . . . . .

19. In § 59.930, paragraph (d) is amended to read:

V 37-64
APR 1 72
XUM

§ 59.930 **Imported eggs and egg products; retention in customs custody; delivery under bond; movement prior to inspection; sealing; handling; facilities, and assistance.**

• • • • •

(d) No person shall affix, break, alter, deface, mutilate, remove, or destroy any special import seal of the U.S. Department of Agriculture, except customs officers or inspectors, or as provided in paragraph (f) of this section.

• • • • •

20. In § 59.945, paragraph (a) is amended to read:

§ 59.945 **Foreign eggs and egg products offered for importation; reporting of findings to customs; handling of products refused entry.**

(a) Inspectors shall report their findings to the collector of customs at the port where products are offered for entry, and shall request the collector to refuse entry to eggs or egg products which are marked or designated "U.S. Refused Entry" or otherwise are not in compliance with the regulations in this part. Unless such products are exported by the consignee within a time specified by the collector of customs (usually 30 days), the consignee shall cause the destruction of such products for human food purposes under the supervision of an inspector. If products are destroyed for human food purposes under the supervision of an inspector, he shall give prompt notice thereof to the District Director of Customs.

• • • • •

21. Section 59.960 is amended to read:

§ 59.960 **Small importations for consignee's personal use, display, or laboratory analysis.**

Any eggs or egg products which are offered for importation, exclusively for the consignee's personal use, display, or laboratory analysis and not for sale or distribution; which is sound, healthful, wholesome, and fit for human food; and which is not adulterated and does not contain any substance not permitted by the Act or regulations, may be admitted into the United States without a foreign inspection certificate. Such product is not required to be inspected upon arrival in the United States and may be shipped to the consignee without further restriction under this part: *Provided*, That the Department may, with respect to any specific importation, require that the consignee certify that such product is exclusively for the consignee's personal use, display, or laboratory analysis and not for sale or distribution. The amount of such product imported shall not exceed 30-dozen shell eggs, 30 pounds of liquid or frozen eggs, or 50 pounds of dried egg products, unless otherwise authorized by the Administrator.

Issued at Washington, D.C., this 28th day of March 1972, to become effective July 1, 1972.

G. R. GRANGE,
Acting Administrator.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Expenses and Rate of Assessment and Carryover of Unexpended Funds

On March 15, 1972, notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 5391) regarding proposed expenses and the related rate of assessment for the period November 1, 1971, through October 31, 1972, and carryover of unexpended funds from the period November 1, 1970, through October 31, 1971, pursuant to the marketing agreement as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Valencia Orange Administrative Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 908.211 **Expenses and rate of assessment.**

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Valencia Orange Administrative Committee during the period November 1, 1971, through October 31, 1972, will amount to $243,000.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 908.41, is fixed at $0.013 per carton of Valencia oranges.

(c) *Reserve.* Unexpended funds, in excess of expenses incurred during the fiscal year ended October 31, 1971, in the amount of $15,000 are carried over as a reserve in accordance with § 908.42 of said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable oranges handled during the aforesaid period, (2) shipments of Valencia oranges are currently in progress, and (3) such period began on November 1, 1971, and said rate of assessment will automatically apply to all such oranges beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 28, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.72-5003 Filed 3-31-72;8:46 am]

[Lemon. Reg. 527]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.827 **Lemon Regulation 527.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 28, 1972.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period April 2, 1972, through April 8, 1972, is hereby fixed at 200,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 29, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.72-5090 Filed 3-31-72;8:50 am]

[Orange Reg. 2]

PART 914—ORANGES GROWN IN THE INTERIOR DISTRICT IN FLORIDA

Limitation of Handling

§ 914.302 **Orange Regulation 2.**

(a) *Findings.* (1) Pursuant to the marketing agreement and this part (Order No. 914), regulating the handling of oranges grown in the Interior District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Interior Orange Marketing Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for the regulation stems from the current market situation which reflects a continued weakness in prices for Florida Interior oranges, and a strong threat that shipments during next week, in the absence of regulations, would be in excess of the market demand. Such excess shipments would most likely further depress prices for Florida Interior oranges, which at the end of February 1972, were only 76 percent of parity. The need for the regulation is also based on the prospective marketing conditions. The present market is slow and there are no indications of an improvement in the demand. Thus, a regulation is needed to prevent excessive shipments during the week of April 3 through April 9, 1972.

(3) There is not sufficient time to give preliminary notice and engage in public rule-making procedure because (i) volume shipments of Florida Interior District oranges are currently regulated pursuant to Orange Regulation 1 (37 F.R. 6179) and determinations as to the need for, and extent of, continued regulation of volume shipments of such oranges must await the availability of information on the demand for such fruit, (ii) information on the current and prospective market conditions during the period April 3 through April 9, 1972, could not be fully evaluated before March 28, 1972, and (iii) shipments likely to be made in the absence of regulations, and the amount of oranges needed to satisfy the market demand for the period April 3 through April 9, 1972, could not be anticipated at an earlier date.

(4) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Interior oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Interior oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 28, 1972.

(b) *Order.* (1) The quantity of oranges grown in the Interior District which may be handled during the period April 3 through April 9, 1972, is hereby fixed at 187,500 standard packed boxes.

(2) As used in this section, "handled," "Interior District," "oranges," and "standard packed box" have the same meaning as when used in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 30, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Title 46—SHIPPING

Chapter II—Maritime Administration, Department of Commerce

SUBCHAPTER H—TRAINING

[General Order 97, Rev., Amdt. 10]

PART 310—MERCHANT MARINE TRAINING

Subpart C—Admission and Training of Cadets at the United States Merchant Marine Academy

TRAINING ON SUBSIDIZED VESSELS

Effective upon the date of publication in the FEDERAL REGISTER (4–1–72), § 310.58 of this subpart is amended by changing the first sentence of paragraph (c) thereof to read as follows:

§ 310.58 **Training on subsidized vessels.**

• • • • •

(c) *Pay.* Cadets, while attached to merchant vessels, shall receive pay at the rate of $265.35 per month from their steamship company employers. • • •

(Sec. 204, 49 Stat. 1897, as amended; 46 U.S.C. 1114)

Dated: March 23, 1972.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER E—ORGANIZATION REGULATIONS

[Reg. OR–59, Amdt. 24]

PART 385—DELEGATIONS AND REVIEW OF ACTION UNDER DELEGATION; NONHEARING MATTERS

Delegation of Authority to Director, Bureau of Operating Rights, to Waive Charter Regulations in Certain Cases

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 28th day of March 1972.

The Director, Bureau of Operating Rights, presently has delegated authority to waive certain sections of Parts 378 and 378a of the Board's Special Regulations.[1] The past year has brought a marked increase in requests for waivers of various other portions of the Board's charter regulations.

We have determined to delegate to the Director, Bureau of Operating Rights, the authority to grant or deny such requests in cases where there is established Board precedent for such action. Additionally, we have determined to delegate to the Director, Bureau of Operating Rights, specific authority to waive the procedural filing time requirements of Part 373.[2]

Since the amendment provided for herein is a rule of agency organization, the Board finds that notice and public procedure are unnecessary and the rule may be made effective immediately.

In consideration of the foregoing, the Board hereby amends § 385.13 of the Organization Regulations (14 CFR Part 385), effective March 28, 1972, by revising paragraph (v) (2) and adding a new

[1] Section 385.13(v).

[2] The Director already has delegated authority to waive the procedural filing requirements of §§ 378.10 and 378a.10.

V 37-64
APR 1 72
XUM

paragraph (cc), the section as amended to read as follows:

§ 385.13 Delegation to the Director, Bureau of Operating Rights.

• • • • •

(v) With respect to • • •

(2) Grant or deny waivers of the respective filing time requirements of Parts 373, 378, and 378a of this chapter.

• • • • •

(cc) Grant or deny requests for waiver of Parts 207, 208, 212, 214, 373, 378, and 378a of this chapter, where grant or denial of the request is in accordance with established Board precedent.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324. Reorganization Plan No. 3 of 1961, 75 Stat. 837, 26 F.R. 5989; 49 U.S.C. 1324 (note))

By the Civil Aeronautics Board.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601–1605) [Cease and desist order, Cosmaw, Inc., Omaha, Nebr., Docket No. C-2161, March 1, 1972]

In the Matter of Cosmaw, Inc., a Corporation, and Waldo E. Brown, Individually and as an Officer of said Corporation, and Lloyd C. McCord, Individually and as a Manager of said Corporation

Consent order requiring an Omaha, Nebr., corporation allegedly operating social clubs for single, divorced and/or widowed persons to cease misrepresenting that such social clubs are in actual operation, that such clubs operate 7 nights a week, that they offer dancing, cards, ping-pong, bowling and other recreational activities, that prospective members will help form the clubs' boards of directors, that any portion of the monies paid to the clubs is tax-free, failing to give notice that payment notes may be sold, and failing to include in contracts a provision for cancellation within 3 days. Respondents are also required to give notice to customers that they are not licensed to do business in Missouri or Kansas and that no social club was ever opened in Kansas City.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered,* That Cosmaw, Inc., a corporation, and its officers, and Waldo E. Brown, individually and as an officer of said corporation, and Lloyd C. McCord, individually and as a manager of said corporation, and respondents' agents, representatives, salesmen, and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, and sale of social club memberships or other services or products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that respondents operate or will operate any social club or any other type of business, unless such club or business is actually in operation and offering all services prior to the actual advertisement, solicitation, and or/sale of memberships in said club or business.

2. Representing, directly or by implication, that respondents have conducted any survey concerning the demand for the memberships or services of their social clubs.

3. Representing, directly or by implication, that respondents' social clubs are open seven (7) nights a week, or for any other period of time, other than the actual hours of operation of such clubs.

4. Representing, directly or by implication, that respondents' social clubs offer dancing, singing, billiards, cards, ping-pong, TV, and a cash bar and food, unless such be the fact.

5. Representing, directly or by implication, that respondents' social clubs provide courses of instruction in dancing, bridge, public speaking, art, drama, and investment clubs.

6. Representing, directly or by implication, that respondents' social clubs offer group activities consisting of bowling, dinner parties, swimming, theatre, picnics, and group vacations.

7. Representing, directly or by implication, that the board of directors of respondents' social clubs are made up of doctors, clergymen, bankers, attorneys, and/or members of any other profession not actually represented on the board of directors.

8. Representing, directly or by implication, that any of respondents' members are designated "charter members" and help to form an advisory board, which governs the operation of respondents' social clubs.

9. Representing, directly or by implication, that the membership in respondents' social clubs is limited as to age group or in any other manner.

10. Representing, directly or by implication, that prospective members for respondents' social clubs are carefully screened and their personal references checked.

11. Representing, directly or by implication, that any portion of monies paid to respondents is sales tax, unless such money is remitted to the proper taxing authority.

12. Representing, directly or by implication, that respondents' memberships in its social clubs are constituted of an equal number of men and women.

13. Representing, directly or by implication, that respondents' memberships may be transferred and/or sold.

14. Representing, directly or by implication, that respondents and/or their memberships contribute to or sponsor any charitable organization.

15. Failing to incorporate the following statement on the face of all contracts, notes, or other evidence of indebtedness executed by or on behalf of respondents' customers:

NOTICE

Any holder takes this instrument subject to the terms and conditions of the contract which gave rise to the debt evidenced hereby, any contractual provision or other agreement to the contrary notwithstanding.

16. Assigning, selling or otherwise transferring respondents' notes, contracts or other documents evidencing a purchaser's indebtedness, unless any rights or defenses which the purchaser has and may assert against respondents are preserved and may be asserted against any assignee or subsequent holder of such note, contract or other documents evidencing the indebtedness.

17. Contracting for any sale, which shall become binding on the buyer prior to midnight of the third day, excluding Sundays and legal holidays, after the date of consummation of the transaction.

18. Failing to refund immediately all monies to customers who have requested contract cancellation in writing within three (3) days from the execution thereof:

Provided, That the prohibitions contained in sections 15 through 18 above shall not apply in those instances when respondents do not own an interest in the business in question, or formulate, direct, control and/or manage its business acts and practices.

II. *It is further ordered,* That respondents, Cosmaw, Inc., a corporation, and its officers, and Waldo E. Brown, individually and as an officer of said corporation, and Lloyd C. McCord, individually and as a manager of said corporation, trading under said corporate name or trading or doing business under any other name or names, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the consumer credit sale of memberships or services, or any other products or services, as "credit sale" is defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Public Law 90–321, 15 U.S.C. 1601 et seq.), forthwith cease and desist from:

1. Failing to disclose the annual percentage rate, where and when required by Regulation Z to be used, to the nearest quarter of one (1%) percent, in accordance with § 226.5(b)(1) of Regulation Z.

2. Failing to disclose accurately the sum of the payments scheduled to repay the indebtedness and to describe that sum as the "total of payments," as required by § 226.8(b)(3) of Regulation Z.

3. Failing to disclose the method of computing any unearned portion of the finance charge in the event of prepayment of the obligation, and further failing to disclose the amount or method of computation of any charge that may be deducted from the amount of any rebate to be credited to the obligation or refunded to the customer, as required by § 226.8(b)(7) of Regulation Z.

4. Failing to use the term "cash price" to designate the cash price of the property or service which is the subject of the transaction, as required by § 226.8(c)(1) of Regulation Z.

5. Failing to disclose the amount of any downpayment in money as the "cash downpayment," using that term, as required by § 226.8(c)(2) of Regulation Z.

6. Failing to disclose the difference between the cash price and the cash downpayment, using the term "unpaid balance of cash price," as required by § 226.8(c)(3) of Regulation Z.

7. Failing to disclose accurately the amount financed or failing to describe that amount as the "amount financed," as required by § 226.8(c)(7) of Regulation Z.

8. Failing to disclose the finance charge accurately, computed in accordance with § 226.4 of Regulation Z, as required by § 226.8(c)(8)(i) of Regulation Z.

9. Failing to disclose accurately the amount of the deferred payment price or failing to describe that amount as the "deferred payment price," as required by § 226.8(c)(8)(ii) of Regulation Z.

It is further ordered, That each and every customer who purchased a membership from Cosmaw, Inc., in the Metropolitan Kansas City Area be notified in writing that:

1. Cosmaw, Inc., is a Nebraska corporation, and is not authorized to do business in the States of Missouri and Kansas.

2. The retail time contracts and promissory notes executed in the States of Missouri and Kansas are not enforceable.

3. Educational Credit Bureau is not a holder in due course as concerns those retail time contracts and promissory notes assigned to it by respondents. Educational Credit Bureau had knowledge or reason to know that Cosmaw, Inc., was a foreign corporation and that the Cosmaw, Inc., social club was not open and never did open for business at 3217 Broadway, Kansas City, MO.

It is further ordered, That respondents provide each and every person who purchased a membership in the Kansas City metropolitan area a true and correct copy of this cease and desist order.

It is further ordered, That respondents, Waldo E. Brown and Lloyd C. McCord, not engage in the promotion, advertisement, solicitation, and/or sale of any type of membership, until such time as full restitution of all monies has been made to those persons who purchased a Cosmaw, Inc., membership in the Cosmaw club, which was to have been operated at 3217 Broadway, Kansas City MO.

It is further ordered, That respondents, Waldo E. Brown and Lloyd C. McCord, shall not act as an officer or director, or become an agent or employee of any corporation or partnership or other form of business engaged in the promotion, advertisement, or solicitation, and/or sale of any type of membership, until such time as full restitution of all monies has been made to each and every person who purchased a membership in Cosmaw, Inc., club, which was to be operated at 3217 Broadway, Kansas City, MO.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in any of the corporate respondents, such as dissolution, assignment, or sale, resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation, or any of them, which may affect compliance obligations arising out of this order.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all of their present and future personnel, engaged in the offering for sale, or sale of memberships, services, or any other products or services, or in the consummation of any extension of consumer credit in connection with said sales transactions, or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

Issued: March 1, 1972.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

H&R Block, Inc.

Subpart—Advertising falsely or misleadingly: § 13.70 *Fictitious or misleading guarantees;* § 13.185 *Refunds, repairs, and replacements;* § 13.225 *Services.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1647 *Guarantees;* § 13.1725 *Refunds.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1905 *Terms and conditions.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, H&R Block, Inc., Kansas City, Mo., Docket No. C-2162, Mar. 1, 1972]

In the Matter of H&R Block, Inc., a Corporation

Consent order requiring a Kansas City, Mo., firm offering income tax preparation and other services to cease misrepresenting the terms and conditions of any guarantee, that respondent will reimburse customer for any addition he may have to make to his initial tax payment, that respondent will not assume liability for any additional taxes assessed, using information obtained from customer's tax data for purposes other than the tax return, and where respondent intends to transfer such information, to obtain customer's signature releasing the information.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent H&R Block, Inc., a corporation, and its officers, and respondent's employees, agents, representatives, or successors and assigns, directly or through any corporate or other device, in connection with the preparation of income tax returns or the compilation of customer mailing lists, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using any guarantee without clearly and conspicuously disclosing the terms, conditions, and limitations of any such guarantee; or misrepresenting, in any manner, the terms and conditions of any guarantee.

2. Representing, directly or by implication, that respondent will reimburse its customers for any payments the customer may be required to make in addition to his initial tax payment, in instances where such additional payments result from an error by respondent in the preparation of the tax return: *Provided, however,* Nothing herein shall prevent truthful representations that respondent will reimburse its customers for interest or penalty payments resulting from respondent's error.

3. Failing to disclose, clearly and conspicuously, whenever respondent makes any representation, directly or by implication, as to its responsibility for, or obligation resulting from, errors attributable to respondent in the preparation of tax returns, that respondent will not assume the liability for additional taxes assessed against the taxpayer.

4. Representing, directly or by implication, that respondent will provide legal representation to customers whose tax returns may be audited; or misrepresenting, in any manner, the type or manner of assistance provided by respondent to customers whose returns may be audited.

5. Using any information concerning any customer of respondent, including

V 37-64 APR 1 72 XUM

the name and/or address of the customer, obtained as a result of the preparation of the customer's tax return for any purpose which is not essential or necessary to the preparation of said tax return, without clearly and conspicuously disclosing to the customer, prior to the obtaining of any information relative to the preparation of the tax return, that respondent intends to use the information for purposes other than the preparation of the customer's return, the exact information which will be used, the particular use which will be made of such information, and a description of the parties or entities to whom the information will be made available: *Provided, however,* That nothing herein shall prohibit respondent from using names and addresses only of customers for the purpose of communication with such customers solely concerning respondent's income tax preparation business.

6. Failing to provide each customer in instances where the information described in paragraph 5 hereof will be used for any purpose other than the preparation of the tax return, with a form to be signed by the customer prior to the obtaining of any such information clearly stating that respondent intends to use the information for purposes other than the preparation of the return, the exact information to be used, the particular use to be made of such information, a description of the parties or entities to whom the information will be made available, and a statement that the customer consents to the use of such information.

It is further ordered, That:

(a) Respondent herein deliver a copy of this decision and order to each of its present and future franchisees and any other persons, partnerships, or corporations authorized by respondent to engage in the commercial preparation of income tax returns.

(b) Respondent in paragraph (a) above that respondent is obligated by the terms of this order to notify the Commission of persons who continue on their own the deceptive practices prohibited by this order.

(c) Respondent, in its continuing business dealings with each said person described in paragraph (a), take note of any failure to observe the requirements of this order and advise the Federal Trade Commission of such failure.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon it of this order, send a letter to the last known address of each of its customers and the customers of its franchisees for the most recent past year, clearly and accurately explaining (1) the terms, conditions, and limitations of respondent's policy regarding its responsibility for, or obligation resulting from errors attributable to respondent in the preparation of tax returns; and (2) the type or manner of assistance provided by respondent to customers whose returns may be audited.

It is further ordered, That respondent herein shall notify the Commission at least 30 days prior to any proposed change in the structure of the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the respondent corporation which may affect compliance obligations arising out of this order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

Issued: March 1, 1972.

By the Commission.

[Docket No. 8771 c]

PART 13—PROHIBITED TRADE PRACTICES

Skylark Originals, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.70 *Fictitious or misleading guarantees;* § 13.155 *Prices:* 13.155–40 Exaggerated as regular and customary; § 13.225 *Services;* §13.240 *Special or limited offers.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1882 *Prices.* Subpart—Securing orders by deception: § 13.2170 Securing orders by deception.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Skylark Originals, Inc., et al., Asbury Park, N.J. Docket No. 8771, Mar. 9, 1972]

In the Matter of Skylark Originals, Inc., a Corporation, and Daniel Freedman and Beverly Freedman, Individually and as Officers of Said Corporation

Order requiring an Asbury Park, N.J., corporation selling ladies' clothing and wigs to cease misrepresenting the prices at which their merchandise has been sold and the savings available to purchasers, failing to make refunds on merchandise guaranteed, failing to maintain an adequate supply of merchandise advertised, and failing to make deliveries of products within time specified by respondents.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Skylark Originals, Inc., a corporation, and its officers, trading under its own name or under the name Patti Fashions or any other trade name or names, and Daniel L. Freedman and Beverly Freedman, individually and as officers of said corporation, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale, or distribution of ladies' clothing, wigs, or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the abbreviation "Reg." or the word "regular" or any other abbreviation, word, term, or expression of similar import or meaning to refer to any amount which is in excess of the price at which such merchandise has been sold or offered for sale in good faith by the respondents for a reasonably substantial period of time in the recent, regular course of their business; or misrepresenting, in any manner, the price at which such merchandise has been sold or offered for sale by the respondents.

2. Falsely representing, in any manner, that savings are available to purchasers or prospective purchasers of respondents' merchandise; or misrepresenting, in any manner, the savings or amount of savings available to purchasers or prospective purchasers of respondents' merchandise.

3. Failing to maintain adequate records (a) which disclose the facts upon which any savings claims, including representations as to former prices and similar representations of the type described in paragraphs 1 and 2 of this order are based, and (b) from which the validity of such claims and representations can be determined.

4. Failing, when request is made pursuant to a guarantee of satisfaction or of full refund and in accordance with the terms of such guarantee, to refund the purchase price of merchandise together with all charges paid by purchasers in connection with such purchase voluntarily and within the time specified in respondents' advertisements, or if no time is specified, within a reasonable time not to exceed 30 days from the date of receipt of the returned merchandise.

5. Failing to fulfill promptly all of respondents' obligations and requirements under the terms set forth in, or represented directly or by implication to be contained in, any guarantee in connection with the sale of said products.

6. Representing, directly or by implication, that any product or service is guaranteed, unless:

(1) The nature and extent of the guarantee, the identity of the guarantor, and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed, and

(2) The guarantor does in fact perform all of the actual and represented obligations under the terms of the guarantee.

7. Advertising for sale merchandise of a stated style, model, material, or color or other stated features or characteristics unless respondents have made arrangements to obtain, and to maintain, sufficient merchandise as so represented and described to fill all reasonably anticipated orders of such merchandise.

8. Representing, directly or by implication, that any offer is limited in time or in any other manner unless any represented limitation or restriction is actually imposed and in good faith adhered to.

9. Failing to make deliveries of products within the period of time specified by respondents or, if no time is specified, within a reasonable time, not to exceed 30 days from the date of receipt of the order: *Provided, however,* That where an order for merchandise cannot be immediately filled for reasons beyond respondents' control, respondents shall promptly notify the prospective purchaser of such fact, stating the anticipated date of delivery and giving him the option of an immediate refund.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondents notify the Commission within thirty (30) days after any change in the corporate respondent, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of this order.

It is further ordered, That the hearing examiner's initial decision as modified herein be, and it hereby is, adopted as the decision of the Commission.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 9, 1972.

By the Commission.

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 72-91]

PART 153—ANTIDUMPING

Diamond Tips for Phonograph Needles from the United Kingdom

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that diamond tips for phonograph needles from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of November 20, 1971 (36 F.R. 22188, F.R. Doc. 71-17090).)

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the U.S. Tariff Commission reponsibility for determination of injury or likelihood of injury. The U.S. Tariff Commission has determined, and on February 17, 1972, it notified the Secretary of the Treasury that an industry in the United States is being or is likely to be injured, or prevented from being established, by reason of the importation of diamond tips for phonograph needles from the United Kingdom, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. (Published in the FEDERAL REGISTER of February 24, 1972 (37 F.R. 3932, F.R. Doc. 72-2688).)

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to diamond tips for phonograph needles from the United Kingdom.

Section 153.43 of the Customs Regulations is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise	Country	T.D.
Diamond tips for phonograph needles.	United Kingdom.	72-91

(Secs. 201, 407, 42 Stat. 11, as amended, 18; 19 U.S.C. 160, 173)

Title 22—FOREIGN RELATIONS

Chapter VI—U.S. Arms Control and Disarmament Agency

PART 602—AVAILABILITY OF RECORDS

PART 603—STATEMENT OF ORGANIZATION

Miscellaneous Amendments

Part 602 of Chapter VI of Title 22 of the Code of Federal Regulations is amended as follows:

1. The table of contents is amended as follows:

Subpart A—Communications and Reference Service Center

Sec.
602.10 Records in the Agency's Communications and Reference Service Center.

2. The title of Subpart A is revised to read as follows:

Subpart A—Communications and Reference Service Center

3. In § 602.2, paragraph (a) is revised to read as follows:

§ 602.2 Places where and methods whereby records may be inspected, copies obtained or requests made.

(a) Any person desiring records relative to arms control and disarmament matters in which the U.S. Arms Control and Disarmament Agency has been or is engaged, should apply in person between the hours of 9 a.m. and 5 p.m. on weekdays (holidays excluded) at the ACDA Communications and Reference Service Center in the Agency headquarters, Department of State Building, 320 21st Street NW., in Washington, DC, or write to the Chief, Communications and Reference Service Center at Agency headquarters if the petitioner is a resident of the United States. The request should specifically identify the document requested. An index identifying all records available to any person shall be kept on file at the Communications and Reference Service Center. Copies of this index may be obtained by writing to the Chief, Communications and Reference Service Center.

. . . . . .

4. Section 602.5 is revised to read as follows:

§ 602.5 Copies of records.

Copies of records shall be produced as promptly as possible upon payment of the search and copying fees specified in the schedule set forth in Subpart B of this part. The Chief, Communications and Reference Service Center, is authorized to limit petitioners to one copy of each requested record when he finds that there exists an extraordinary demand for the number of available copies or for the Center's copying services.

5. In § 602.6, paragraph (a) is revised to read as follows:

§ 602.6 Written requests.

. . . . . .

(a) Address his request to:

Chief, Communications and Reference Service Center, U.S. Arms Control and Disarmament Agency, Washington, D.C. 20451.

. . . . . .

6. The introductory text of § 602.10 is amended to read as follows:

§ 602.10 Records in the Agency's Communications and Reference Service Center.

The Communications and Reference Service Center shall contain, or shall have available, to the extent not authorized to be withheld, the following works or classes of information:

. . . . . .

7. Section 602.11 is revised to read as follows:

§ 602.11 Inspection of records.

Copies of records available to the public may be inspected by a petitioner in the Communications and Reference Service Center during the business hours stated in § 602.2. Copies of records made available for inspection may not be removed by any petitioner from the Center.

8. Section 602.22 is revised to read as follows:

§ 602.22 Certification.

Certification of each record as a true copy by the Chief, Communications and Reference Service Center $0.75.

9. In § 602.23 paragraph (a) is revised, paragraph (b) is revoked, and the first word of paragraph (c) is corrected to read "Printed." As amended, § 602.23 reads as follows:

§ 602.23 Printed research reports.

(a) (1) $0.50 per copy of each report up to 50 pages.

V 37-64 APR 1 72 XUM

(2) $1 per copy of each report up to 100 pages.

(3) $2 per copy of each report up to 300 pages.

(4) $4 per copy of each report over 300 pages.

(b) [Revoked]

(c) Printed research reports which are not published by the Government Printing Office are available in limited supply. The schedule of fees for such printed research reports will remain in effect until the supply of copies in stock is exhausted; thereafter reports will be copied at the expense of the petitioner in accordance with the fee schedule established for copying services.

10. Section 602.25 is revised to read as follows:

§ 602.25 Records printed by contractors.

Charges, if any, for records printed by contractors or grantees will be set forth on the fee schedule of any index of available records, or will be determined by the Chief, Communications and Reference Service Center, in response to a request.

11. The introductory text of § 602.40 is amended to read as follows:

§ 602.40 Exemptions.

No record shall be withheld from inspection or copying unless it may be withheld by the Agency under the authority of the Act, or is specifically authorized to be withheld under an order issued by a court of competent jurisdiction. The following list contains examples of records which may be witheld from the public by the Chief, Communications and Reference Service Center.

* * * * *

12. In § 602.45, paragraph (b) is revised to read as follows:

§ 602.45 Review of decision to withhold a record.

* * * * *

(b) Written denial of record by the Chief, Communications and Reference Service Center, shall be considered a denial upon which administrative review may be requested.

Part 603 of Chapter VI of Title 22 of the Code of Federal Regulations is amended as follows:

1. The table of contents is amended as follows:

Sec.

603.10 Office of the Director.
603.11 Office of the Executive Director.
603.12 Office of the General Counsel.
603.13 Office of Public Affairs.
603.14 Economic Affairs Bureau.
603.15 International Relations Bureau.
603.16 Science and Technology Bureau.
603.17 Weapons Evaluation and Control Bureau.
603.18 General Advisory Committee.
603.19 [Revoked]
603.20 [Revoked]
603.21 [Revoked]

2. In § 603.2, paragraph (b) is revised to read as follows:

§ 603.2 Purpose and scope.

* * * * *

(b) The Agency works at the highest level of the U.S. Government, and under the direction of the Secretary of State, conducts U.S. participation in international arms control and disarmament negotiations. It does not normally hand down decisions or engage in regulations affecting the general public, since its functions are principally in the advisory or diplomatic areas, as noted above. A significant body of the research conducted in the Agency or by contract or interagency agreement is unclassified and will be made available to the public pursuant to the Freedom of Information Act. The reports embodying such research as well as those agency publications which may affect the general public will be made available in the Agency's Communications and Reference Service Center. Members of the public will be afforded the opportunity to inspect and to obtain copies of such material.

3. Section 603.10 is revised to read as follows:

§ 603.10 Office of the Director.

(a) The Director of the U.S. Arms Control and Disarmament Agency is the principal adviser to the President and the Secretary of State on arms control and disarmament matters. Under the direction of the Secretary of State, he has primary responsibility within the Government for formulation of policy recommendations and for operations in such matters. He is responsible for the executive direction and coordination of all activities of the Agency and relations with the Congress on them.

(b) The Deputy Director assists the Director in carrying out his responsibilities and acts for and exercises the powers of the Director during his absence.

(c) The Special Assistant to the Director is responsible for such projects as may be assigned by the Director including interagency and White House liaison. He acts also as Executive Secretary of the Agency and is responsible for direction and coordination of staff work for the Director and Deputy Director.

(d) The Counselor of the Agency is responsible for such special projects essential to the formulation of arms control and disarmament policy as may be assigned by the Director.

(e) The Special Assistant for Plans to the Deputy Director serves as a focal point for encouraging, monitoring, and integrating Agency formulation of basic policies and forward planning.

(f) The Intelligence Adviser, under the Deputy Director, serves as central point of contact for the Agency with departments and agencies within the intelligence community.

4. Section 603.11 is revised to read as follows:

§ 603.11 Office of the Executive Director.

Under the direction of the Executive Director, this Office has responsibility for managing all administrative activities of the Agency including budget, personnel, contracting, security, general services, management analyses, information and records services, and development or issuance of regulations. It maintains liaison on and coordinates these matters outside the Agency. The Office provides management advice to the Director on achieving program and budgetary objectives and the resolving of organizational questions, and participates in the formulation of Agency-wide arms control policies, such as those bearing on research and field testing projects. The Office directs the management aspects of arms control and disarmament negotiations with other countries in proportion to the role of the Agency in such matters.

5. Section 603.12 is revised to read as follows:

§ 603.12 Office of the General Counsel.

(a) Under the direction of the General Counsel, the Office is responsible for all legal matters concerning the Agency. It is responsible for all questions of domestic and international law and treaty affairs; participates in the preparation, implementation, interpretation and revision of arms control and disarmament agreements; and is responsible for legal research in the Agency.

(b) The Office has primary responsibility for congressional matters (except budgetary operations), including authorizing and other legislation. It handles the legal aspects of Agency policy, regulations and operations related to personnel, security, patents, contracts, procurement, fiscal and all other administrative affairs; and, also provides legal representation for the Agency with other Government departments and agencies, foreign governments, and contractors.

6. Section 603.13 is revised to read as follows:

§ 603.13 Office of Public Affairs.

(a) Under the direction of the Public Affairs Adviser, this Office carries out the Agency's responsibility for the dissemination and coordination of public information concerning arms control and disarmament. It is responsible for liaison with the world press, both in Washington and at international conferences. It also initiates, or prepares in response to requests, press guidance and materials related to arms control and disarmament.

(b) The Office of Public Affairs responds to requests from the public for information, documentation, speakers and conference participation, and prepares publications, including the Agency's Annual Report to Congress.

7. Section 603.14 is revised to read as follows:

§ 603.14 Economic Affairs Bureau.

This Bureau is responsible for developing policy recommendations regarding the multilateral control of conventional arms transfers and limitations on military expenditures. It assesses the domestic economic impact of reductions in defense spending incident to arms control and disarmament agreements or related actions. The Bureau also assures that arms control factors are taken into account in policy decisions relating to U.S. arms transfers. It compiles data on worldwide arms transfers and military expenditures. In addition, the Bureau supports Agency activities by developing historical analyses on topics related to arms control and disarmament and by publishing documentary compilations in this field. Assisting the Bureau in its work is an advisory board of distinguished social scientists.

8. Section 603.15 is revised to read as follows:

§ 603.15 International Relations Bureau.

The Bureau is responsible for translating U.S. disarmament policies into action at the conference table and in the United Nations. It manages most multilateral international negotiations and serves as the primary source of political advisers assigned to these and to the U.N. General Assembly. The Bureau also participates in the development of policies and positions in the field of arms control and prepares instructions for U.S. negotiators both at international conferences and for bilateral and regional arms control and disarmament discussions.

9. Section 603.16 is revised to read as follows:

§ 603.16 Science and Technology Bureau.

(a) This Bureau is responsible for scientific and technological aspects of arms control policies and operations, particularly those related to advanced strategic offensive and defensive weapon systems.

(b) In addition to investigating measures to limit existing advanced weapons and their delivery systems, the Bureau also seeks ways to curb the proliferation of these weapons and delivery systems to additional countries.

(c) The Bureau has the primary responsibility for the preparation, evaluation, and support of strategic arms limitations proposals. In addition, the Bureau is responsible for the research and policy recommendations on verification requirements and techniques for arms control and disarmament matters including the application of these techniques to strategic arms limitation proposals.

10. Section 603.17 is revised to read as follows:

§ 603.17 Weapons Evaluation and Control Bureau.

The primary function of this Bureau is the evaluation of the impact of possible arms control measures on a range of United States and allied military and national security interests, including such subjects as force structures and deployments, strategic concepts, and strategic and tactical weapons systems. Other functions include the evaluation of the arms control implications of the military postures of the United States and its allies, and the U.S.S.R. and its allies; the development and evaluation of systems and techniques for verifying certain arms control measures and participation in planning of, preparation for, and operation of inspection and control systems which may become part of U.S. arms control and disarmament activities.

11. Section 603.18 is revised to read as follows:

§ 603.18 General Advisory Committee.

The General Advisory Committee is an independent advisory body of 15 members appointed by the President by and with the advice and consent of the Senate to advise the President, the Secretary of State, and the Director of ACDA respecting matters affecting arms control, disarmament and world peace. To perform this function the Committee has access to information at all levels of security and invites the testimony of senior officials in the executive branch, as well as such other experts as it deems appropriate, on the major political and strategic issues related to arms control. The Committee is required by law to meet four times annually, but in practice is convened more frequently by the Chairman. The Committee conveys its advice to the President and its other advisees directly or in writing.

§ 603.19 [Revoked]

12. Section 603.19 is revoked.

§ 603.20 [Revoked]

13. Section 603.20 is revoked.

§ 603.21 [Revoked]

14. Section 603.21 is revoked.

Effective date. This amendment shall become effective on the date of its publication in the FEDERAL REGISTER (4-1-72).

The foregoing amendments to Parts 602 and 603 are approved.

Dated: March 24, 1972.

PHILIP J. FARLEY,
Acting Director.

[FR Doc.72-4901 Filed 3-31-72;8:45 am]

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter VI—Office of Assistant Secretary for Community Planning and Management, Department of Housing and Urban Development

[Docket No. R-72-164]

PART 600—COMPREHENSIVE PLANNING ASSISTANCE

Part 600 of Title 24 of the Code of Federal Regulations was published in effective form in the FEDERAL REGISTER on February 4, 1972 (37 F.R. 2665), to provide requirements and guidelines for filing a Comprehensive Planning Assistance grant application. Opportunity was provided for interested persons to submit written comments or suggestions with respect to the regulations. Comments and suggestions received are currently under consideration. In the meantime, there are certain changes the Department desires to make. The substantive changes are as follows:

Section 600.69(b) is new. It reflects departmental policy to assist only one areawide planning agency in each metropolitan and nonmetropolitan planning jurisdiction. Items formerly numbered (b) and (c) are renumbered (c) and (d).

Part of § 600.90(f) and the entire § 600.90(g) of the February 4, 1972, publication are deleted since they deal with matters outside the scope of the regulation.

Minor corrections are made in §§ 600.65, 600.95, 600.100, 600.105, 600.128, and 600.170.

For the reasons stated at the time Part 600 was first published comment and public procedure on this amendment would be impracticable and contrary to the public interest and good cause exists for making the amendment effective upon publication.

Accordingly, Part 600 is amended to read as follows:

Subpart A—General Information

Sec.

600.1 Purpose.
600.5 Scope of comprehensive planning.
600.10 Financial support.
600.15 Staff and consultant services.
600.20 Inservice training.
600.25 Who may be assisted.
600.30 Legal status and authority.
600.35 Assistance to States for statewide planning.
600.36 Assistance to States for assistance and services to localities.
600.37 Provision of planning assistance to localities by areawide planning organizations.
600.40 Grants for areawide planning and management assistance.
600.45 Assistance to large cities.
600.50 Planning and management assistance for other applicants.
600.55 Eligible activities all assisted agencies.
600.58 Ineligible activities.

Subpart B—Special Requirements

600.60 Purpose.
600.65 Environmental considerations.
600.70 Required housing element.
600.75 Equal opportunity requirements.
600.80 Citizen involvement.

Subpart C—Procedural Requirements

600.85 Purpose.
600.90 Steps for application submission, negotiation and approval.
600.95 Applications by States.
600.100 The application package.
600.105 Overall Program Design.

Subpart D—State Procedural for Local Planning and Management Service

600.110 Purpose.
600.115 State Overall Program Design.
600.120 Summary of local planning and management assistance procedures.
600.125 Design of the State program for localities.
600.128 Considerations in State assistance to localities.
600.130 Negotiations with HUD.
600.135 State agency review and evaluation.

Subpart E—Evaluation and Coordination Procedures

600.140 Purpose.
600.145 Evaluation and review.
600.150 Coordination and intergovernmental review procedures.
600.160 OMB Circular A-95 coordination procedures.
600.170 Overall Program Design review.

V 37-64 APR 1 72 XUM

AUTHORITY: The provisions of this Part 600 issued under sec. 701, Housing Act of 1954, 68 Stat. 640; 40 U.S.C. 461; Secretary's delegation of authority published at 36 F.R. 5004, effective Mar. 8, 1971.

Subpart A—General Information

§ 600.1 Purpose.

The purpose of this subpart is to set forth provisions of general applicability with respect to the regulations in this part. Such provisions relate to (a) encouraging State, local, and areawide officials to improve executive planning, decisionmaking, and management capability and to establish and improve their staffs and techniques; (b) encouraging community planning and management as a continuous process; and (c) assisting State and local governments and areawide agencies to solve problems, realize opportunities, and formulate and implement policies related to community development and growth for urban and rural areas.

§ 600.5 Scope of comprehensive planning.

For the purpose of the regulations in this part, "comprehensive planning" means a continuing process whereby State and local governments and areawide planning organizations formulate and coordinate community strategies and management decisions. It spans the broad range of governmental activities, services, and investments for which assisted governments are responsive. Through comprehensive planning and management, chief executives are able to identify problems and opportunities, determine development objectives, analyze alternate solutions, prepare implementation programs, and evaluate performance in meeting these objectives.

§ 600.10 Financial support.

Comprehensive planning assistance grants shall not exceed two-thirds of the total cost of eligible activities, except in certain circumstances when the grant may cover up to three-fourths of the costs.

(a) Three-fourths grants may be made when the applicant or recipient is:

(1) Located in a redevelopment area or economic development district designated by the Secretary of Commerce under title IV of the Public Works and Economic Development Act of 1965;

(2) Located in a local development district, certified under title IV of the Public Works and Economic Development Act of 1965;

(3) A federally impacted area where there has been at least a 5 percent decrease in employment over a 2-year period attributable to reduction in Federal activity;

(4) Any regional commission established by the Appalachian Regional Development Act of 1965 or under the Public Works and Economic Development Act of 1965; or

(5) Any governmental agency or organization of public officials for planning activities that are necessary to the development of planning for States, regions, or other multijurisdictional areas whose development has significance for purposes of national growth and urban development objectives and which otherwise meets the tests of 701(j) of the Housing Act of 1954, as amended.

(b) Non-Federal share: The non-Federal share of the total cost of assisted activities may be provided in the form of cash and/or services from the applicant, or from other non-Federal sources.

§ 600.15 Staff and consultant services.

(a) *Planning staff services.* To be eligible for assistance, the applicant and each areawide planning agency recipient must demonstrate that it has a staff of sufficient size nad professional competence to effectively discharge the program for which assistance is sought. The planning agency must establish, and periodically update, standards for the recruitment and retention of professional personnel consonant with or superior to State or local merit or civil service system standards. The standards established shall be subject to HUD approval.

(b) *Provision of consulting services.* Staff capability may be supplemented through consulting services by other public agencies (State, areawide, local), by instrumentalities of State and local governments (such as universities, municipal leagues, and county officer associations), and by private contractors and consulting firms.

§ 600.20 Inservice training.

Applicants may engage in inservice training to increase the level of knowledge and skills of their staff.

(a) *Eligible trainees.* Eligible trainees are limited to members of staffs of eligible applicants.

(b) *Maximum costs.* Except for work-study programs, the total cost of an inservice training program shall not exceed 5 percent of the agency's total grant under the Comprehensive Planning Assistance Program for any 1 year.

§ 600.25 Who may be assisted.

Currently, grants are authorized to the following:

(a) States, for statewide planning and management;

(b) States, for local planning and management assistance to counties, cities, and municipalities, groups of adjacent communities having a total population of less than 50,000, Indian reservations, disaster areas, federally impacted areas, and metropolitan and nonmetropolitan areawide planning organization;

(c) Metropolitan and regional agencies involved in comprehensive planning and management. Also, district agencies which are organizations composed of public officials representative of political jurisdictions within the district.

(d) Cities within metropolitan areas, having populations of 50,000 or more; and

(e) Other applicants, including interstate regional planning commissions, tribal planning councils, disaster areas, federally impacted areas, local development districts, and economic development districts, including cities, other municipalities and counties located within economic development districts.

§ 600.30 Legal status and authority.

Applicants must:

(a) Be authorized by State law or interstate compact or other agreement to perform the comprehensive planning work for which the grant is requested;

(b) Have authority to receive and expend Federal and other funds, and to contract with Federal and other units of government, private concerns, or individuals for performance of planning work and services; and

(c) Assure HUD that the non-Federal share of the program cost will be provided.

§ 600.35 Assistance to States for statewide planning.

Eligible applicants for Comprehensive Planning Assistance for statewide planning and management are:

(a) The Office of the Governor (the preferred applicant); or

(b) The State agency designated by the Governor or by State law, provided applications are endorsed by the Governor.

§ 600.36 Assistance to States for assistance and services to localities.

Eligible applicants for Comprehensive Planning Assistance and services are:

(a) *For assistance and services to localities.* (1) The Office of the Governor; or

(2) The State agency designated by State law (or the Governor) for the provision of comprehensive planning and management services to local governments and for the administration of Comprehensive Planning Assistance grant funds. Where feasible, this should be the same State agency designated for statewide planning. Eligible local recipients are:

(i) Cities and other municipalities having populations of less than 50,000 according to the latest decennial census. The planning area must include, at the minimum, the entire geographic area of the general local government, plus any contiguous territory over which the local government has authority for planning purposes.

(ii) Counties of any population size. In this case, the minimum planning area must include the unincorporated areas over which the county government has statutory or other authority for planning purposes. Assistance to a county having a population of over 50,000 within a metropolitan area, will be made only if planning for such a county is coordinated with planning for the metropolitan area of which it is a part and with prior HUD approval.

(iii) Any group of adjacent communities, either incorporated or unincorporated, having a total population of less than 50,000 according to the latest decennial census. The group's planning jurisdiction must be the entire area having such problems. Insofar as feasible, the boundaries of the planning area must conform to the jurisdictional boundaries

of the general local governments comprising the group.

(iv) General purpose local governments, regardless of population size, in redevelopment areas or Economic Development Districts designated by the Secretary of Commerce under title IV of the Public Works and Economic Development Act of 1965; Local Development Districts in accordance with the Appalachian Regional Development Act of 1965.

(v) Metropolitan and nonmetropolitan areawide planning organizations.

(vi) Indian reservations, disaster areas, and federally impacted areas.

(b) *For State community development services.* The State agency designated by State law or the Governor is responsible for conducting community development services. The services should be based on a multidisciplinary staff of specialists in the State planning agency, other State agencies or instrumentalities, and, where appropriate, include consultant support.

§ 600.37 Provision of planning assistance to localities by areawide planning organizations.

Metropolitan and nonmetropolitan areawide planning organizations, with the approval of the State agency (or Governor of the State), may also provide local planning and management assistance to any of the recipients listed in § 600.36(a) (other than the federally impacted areas) within the respective areawide planning jurisdictions.

§ 600.40 Grants for areawide planning and management assistance.

(a) Eligible applicants: Areawide planning organizations include metropolitan planning agencies and nonmetropolitan district agencies. These agencies may be:

(1) Organizations of public officials representative of the political jurisdictions within the metropolitan area, region, or district. Among such organizations are councils of government, joint city-county planning commissions, multijurisdictional or regional planning agencies, economic development districts, and local planning districts;

(2) Agencies under State law or by interlocal agreement responsible for comprehensive planning; or

(3) States authorized by State law to perform areawide planning.

(b) HUD will assist only one areawide planning agency in each metropolitan and nonmetropolitan planning jurisdiction. An exception may be made when State-enabling legislation does not permit the formation of a single areawide planning organization for a multistate planning area.

(c) Areawide planning requirements:

(1) Planning area jurisdiction is determined by consideration of the following factors:

(i) The planning area jurisdiction for a metropolitan area should include the Standard Metropolitan Statistical Area (SMSA) plus any contiguous county or counties now urbanized or likely to become urbanized in the foreseable future. Where feasible, contiguous SMSA's should be included in the same metropolitan areawide planning jurisdiction. Where the State has established substate planning and devlopment areas, or districts, the boundaries of proposed areawide planning jurisdictions should conform to the State-designated areas.

(ii) The planning area jurisdiction for a nonmetropolitan area must include one or more counties and one or more other units of general local government, but may not include any portion of any SMSA. Where the State has established sub-State planning and development areas, or districts, the boundaries of proposed areawide planning jurisdictions should conform to the State-designated areas.

(2) Areawide planning organizations must meet the HUD areawide planning requirements in accordance with HUD 6415 Issuance Series.

(d) Application submission: Metropolitan planning agencies and nonmetropolitan organizations of local elected officials may apply directly to the appropriate HUD office for Comprehensive Planning Assistance. Nonmetropolitan areawide planning agencies which are not organizations of local elected officials, shall apply to the eligible State agency. HUD prefers that all nonmetropolitan agencies apply through the eligible State agency so that the State may coordinate and package programs, thereby eliminating duplication of effort and inefficiencies in processing.

§ 600.45 Assistance to large cities.

On behalf of a city within a metropolitan area, and having a population of 50,000 or more, eligible applicants are:

(a) The Office of the Chief Executive (i.e., the Mayor), the preferred applicant; or

(b) The agency designated by the chief executive, provided applications are endorsed by the chief executive.

§ 600.50 Planning and management assistance for other applicants.

Planning and management assistance may also be provided for the following:

(a) *Interstate regional commissions.* Interstate regional commissions, established under the Appalachian Regional Development Act of 1965 or the Public Works and Economic Development Act of 1965, are eligible for Comprehensive Planning Assistance. However, the Department is prohibited from funding Interstate Commissions.

(b) *Indian reservations*—(1) *Intent.* To provide financial assistance to conduct planning programs for Indian Reservations.

(2) *Eligible applicants.* (i) State agencies: State planning agencies are eligible to apply on behalf of tribal councils in order to provide planning services.

(ii) Areawide planning organizations: Areawide planning organizations are eligible applicants if the State has formally delegated them responsible for the administration of such planning assistance.

(iii) With the approval of the Secretary of Interior, State multitribal organizations representing more than 50 percent of the reservations within a State which have been delegated authority by member organizations to conduct planning activities on their behalf.

(iv) Tribal planning councils or other tribal bodies which may apply through the eligible State agency or directly to HUD.

(3) *Financial support.* Funds and services of the Bureau of Indian Affairs or of any other Federal agency are not eligible as a portion of the non-Federal share of cost of the assisted planning program.

(c) *Federally-impacted areas.* (1) Intent: To provide financial assistance to federally-impacted areas to plan adjustments occasioned by Federal impacts upon the economic, social, physical, and governmental structure occasioned by

(i) Rapid urbanization due to the establishment of rapid and substantial expansion of a Federal installation, or for areas where rapid urbanization is expected to result on land developed or to be developed as a new community under title VII of the Housing and Urban Development Act of 1970.

(ii) Substantial reduction in employment opportunities as the result of:

(*a*) The closing (in whole or in part) of a Federal installation, or

(*b*) A decline in the volume of government orders for the procurement of articles or materials produced or manufactured in the area.

The actual or foreseen change in employment over a 2-year period must be at least 5 percent of the preimpact level.

(2) Eligible applicants shall be official governmental planning agencies.

(d) *Disaster areas.* (1) Comprehensive Planning Assistance may provide financial assistance to plan for the recovery from disaster. Any city, other municipality or county which is designated by the President as a "major disaster area" in accordance with the Disaster Relief Act of 1970 may apply for assistance. HUD prefers that such areas apply through the eligible State agency,

(2) Eligible applicants are official governmental planning agencies with planning responsibility for jurisdictions in the disaster area.

(3) Application submittal: Applications shall be submitted within 180 days after an area is designated by the President as a disaster area.

(4) Coordination: All applications submitted for Comprehensive Planning Assistance disaster relief must be reviewed and commented upon by the designated State disaster relief agency, if such an agency exists, as prescribed in section 206 of the Federal Disaster Relief Act of 1970. Also, any assisted planning work leading to short range actions for recovery from the disaster should be coordinated with the State between State planning agencies and State disaster relief agencies.

§ 600.55 Eligible activities: all assisted agencies.

Applicants, as a part of their assisted Comprehensive Planning work, may:

V 37-64 APR 1 72 XUM

(a) Support and strengthen State and local government chief executive management capability including:

(1) Improving the chief executive's ability to establish goals, objectives and policies, allocate resources, evaluate programs for achieving objectives, devise methods for obtaining effective public participation in policy decisions and assess program performance;

(2) Modernizing State and local governmental institutions and areawide structures to address community development issues and to provide more responsive service delivery systems;

(3) Improving governmental systems and operations;

(4) Analyzing, recommending and evaluating fiscal policies and arrangements for providing governmental services and facilities; and

(5) Establishing a framework for coordinating intergovernmental planning and development activities and public and private development.

(b) Conduct general community and/or statewide planning and programming with respect to:

(1) Development of human, economic and natural resources;

(2) Community development, growth, and revitalization policies, including land use planning and identification of growth areas, new community development sites and areas of critical environmental concern where development should be restricted;

(3) Housing, transportation, the environment, public facilities and services, health, education, and employment; and

(4) Historic preservation.

(c) Conduct housing work program activities with respect to:

(1) Current and projected population and housing characteristics of neighborhoods, communities, and other subareas of the planning jurisdiction;

(2) Income levels of families in the jurisdiction and its parts;

(3) The location and structural and other qualities of existing housing;

(4) The level and quality of housing-related public services presently available to all racial, ethnic, and socio-economic groups;

(5) Special problems of minority groups in securing adequate housing;

(6) Obstacles to the provision of adequate housing for all groups and citizens, including obstacles in regulations, building codes and zoning regulations, inspection practices, public services, private sector production capability, and housing sales and rental practices;

(7) The availability of sites for various types of housing for all people, especially low and moderate income persons, and the adequacy of sites relative to employment, education, transportation, commercial facilities, and other public services, and to suburbs and central cities;

(8) The capacity of governmental agencies and private organizations for implementing housing action plans, and the adequacy of laws and public policy to stimulate needed housing production;

(9) The impact of current and proposed housing projects on patterns of racial concentration;

(10) The extent to which current and proposed housing projects of varying income levels are distributed throughout the planning area;

(11) The Federal, State and local programs which might be utilized to meet the planning area's housing needs; and

(12) Plans for the promotion of market aggregation.

(d) Delineate areawide planning jurisdictions or substate planning jurisdictions.

(e) Provide technical assistance to State and local governments and areawide agencies, including technical assistance to establish and improve planning staffs and techniques on a substate basis.

(f) Support State Community Development Services including but not limited to:

(1) Direct technical assistance to local or areawide officials on problems of community development;

(2) Advice on pending development decisions;

(3) Professional studies concerning local development problems, objectives, alternatives, and priorities, and organization and administrative processes;

(4) Preparation of technical guides and manuals dealing with the planning, programing, or management of public services, facilities, and resources; or suggesting new approaches to concerns such as housing, community relations, or capital improvement programing.

(g) Meet and carry out other HUD programs and procedures such as:

(1) Workable Program planning;

(2) All HUD and other Federal planning requirements;

(3) New Community planning;

(4) Preparation of water resources and flood plain management measures to meet the standards for eligibility under the National Flood Insurance Program; and

(5) Support for Federal urban growth and development objectives, as provided in section 701(j) of the Housing and Urban Development Act of 1954, as amended.

§ 600.58 Ineligible activities: all assisted agencies.

Applicants, as part of their assisted Comprehensive Planning work, may not include the following:

(a) Project design and engineering;

(b) Routine administration not directly connected to the grant;

(c) Political activities; and

(d) Assistance to businesses in relocating to the detriment of communities where businesses currently are located and assistance to subcontractors in acquiring business customarily performed by other subcontractors.

Subpart B—Special Requirements

§ 600.60 Purpose.

The purpose of this subpart is to describe special requirements that applicants must comply with to receive Comprehensive Planning Assistance.

§ 600.65 Environmental considerations.

HUD requires that planning activities funded under the Comprehensive Planning Assistance Program be conducted in full accord with the policies and provisions of the National Environmental Policy Act of 1969 (Public Law 91–190).

(a) *Environmental goals.* The environmental goals of the Comprehensive Planning Assistance Program are to:

(1) Improve and conserve the quality of the air, water and earth resources for the benefit of present and future generations in the planning and shaping of man-made environments;

(2) Assure that environmental concern and awareness becomes an integral part of the comprehensive planning process, since comprehensive planning is a major means for accomplishing community development on a sound environmental basis; and

(3) Achieve those goals set forth in the National Environmental Policy Act of 1969 (section 101), some of which are:

(i) "• • • assure for all Americans safe, healthful, productive and aesthetically and culturally pleasing surroundings;

(ii) "• • • Attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;

(iii) "• • • Achieve a balance between population and resource use which permit high standards of living and a wide sharing of life's amenities."

(b) *Inclusion of environmental planning in the comprehensive planning process.* Each applicant in the developmental planning aspects of its assisted comprehensive planning work should:

(1) Identify salient elements of the natural and the man-made environments, their interrelationships, and major problems and/or opportunities they present for community development;

(2) Assess those environmental factors which will:

(i) Minimize or prevent undue damage, unwise use, or unwarranted preempting of natural resources and opportunities;

(ii) Recognize and make prudent allowance for major latent environmental dangers or risks (e.g. floods, mud slides, earthquakes, air and water pollution); and

(iii) Foster the human benefits obtainable from use of the natural environment by wise use of the opportunities available (e.g. use of natural drainage systems for park and recreational areas); and

(3) Seek, under the above policies and goals, to:

(i) Avoid adverse environmental impacts on neighborhood or community areas through the planning and careful location and development of community facilities;

(ii) Provide environmental amenities to all areas being planned for, and access to such amenities; and

(iii) Equalize the impact and burden of community change and development on living areas, rather than concentrate them in areas where "sites are cheap"; and

(4) Incorporate State environmental policies and standards, particularly those developed in response to Federal law regarding protection on air and water quality and control and abatement of noise.

(c) *Environmental assessment.* Each applicant shall prepare an environmental assessment when the assisted work program will result in developmental plans or policies for land use, major community facilities, major utility systems, major transportation systems or the protection of natural areas (estuaries, coastal zones, etc.). The assessment, which shall not be written as a justification for any proposed project, program, task or policy, must:

(1) Include the following:

(i) A summary or abstract of the proposed plan(s) or policies;

(ii) The environmental impact (beneficial as well as adverse) of the proposed plan(s) or policies, if they are carried out;

(iii) Any adverse environmental effects which cannot be avoided should the proposed plan(s) or policies be implemented;

(iv) Alternatives to the proposed plan(s) or policies and an analysis of those alternatives;

(v) The relationship, under the proposed plan(s) or policies, between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity;

(vi) Any irreversible and irretrievable commitments of resources which would be involved if the proposed plan(s) or policies should be implemented; and

(vii) A statement setting forth applicable Federal, State and local environmental controls;

(2) Be appended to the resulting proposed plan and accompany the plan through all deliberatons leading to approval and subsequent amendment; and

(3) Be available to the public on a timely basis, including availability before public hearings regarding the plan.

§ 600.70 Required housing element.

(a) Section 701(a) of the Housing Act of 1954 provides that:

> Planning carried out with assistance under this section shall also include a housing element as a part of the preparation of comprehensive land use plans, and this consideration of the housing needs and land use requirements for housing in each comprehensive plan shall take into account all available evidence of the assumptions and statistical bases upon which the projection of zoning, community facilities, and population growth is based, so that the housing needs of both the region and the local communities studied in the planning will be adequately covered in terms of existing and prospective in-migrant population growth.

(b) HUD requires that each assisted State, areawide agency and large city (over 50,000 population) include a housing work program in its Overall Program Design and that each local planning assistance recipient include a housing element in its comprehensive land use plan. The housing element or program must be coordinated with the other planning and management activities identified in the work program.

(c) The housing goals of the Comprehensive Planning Assistance Program are requirements and include the following:

(1) To assure that housing concerns and needs become an integral part of the community planning and management process;

(2) To eliminate effects of past discrimination in housing based on race, color, religion, or national origin and to provide safeguards for the future;

(3) To develop housing growth policies which would insure the provision of an adequate supply of housing, a variety of housing types, and proximity of housing to jobs and daily activities; and

(4) To provide a decent residential environment throughout the planning area by insuring that all housing receives a proper and equitable delivery of public facilities and services.

(d) Each agency's housing work program must be included as a part of its Overall Program Design. The housing work program must be coordinated with the other planning and management activities identified in the agency's annual work program.

(e) The housing work program shall analyze the existing housing market in terms of supply and demand by user group. The work program shall further identify:

(1) Needs met by private market;

(2) Needs met with public assistance; and

(3) Needs not being met.

(f) The housing work program shall:

(1) Identify and analyze the need, problems and opportunities for the construction, conservation and rehabilitation of all housing of the planning jurisdiction;

(2) Define strategies and specific steps by which housing needs, and its related public services and facilities, can be met through responsive governmental programs and private action;

(3) Establish housing planning, programing and technical services where there are none; and

(4) Be coordinated with and build upon the housing efforts of other public and private agencies having housing programs and coordinated with all units of government within the planning area.

(g) The housing work program, including any zoning and subdivision legislation prepared or revised using Comprehensive Planning Assistance, must promote equal housing opportunity.

§ 600.75 Equal opportunity requirements.

(a) All planning assisted under the Comprehensive Assistance Program is subject to the provisions of:

(1) Title VI of the Civil Rights Act of 1964, which provides that no person on the grounds of race, color or national origin shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

(2) Title VIII of the Civil Rights Act of 1968, which provides that it is the policy of the United States to provide, within constitutional limitations, fair housing throughout the United States, and requires the Secretary of HUD to administer the Department's programs and activities in a manner affirmatively to further the policies of Title VIII.

(3) The Equal Employment Opportunity clause contained in Part II—Terms and Conditions, Comprehensive Planning Grant Agreement, which provides that the grantee "shall not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin" and will take affirmative action to ensure equal opportunity in its employment practices.

(b) Each applicant must:

(1) Submit in its application package, a Statement of Assurance of Compliance with title VI, HUD Form 41901.

(2) Indicate in the Overall Program Design those work activities which will contribute to correcting the effects of past discrimination and the manner in which they will do so, and describe how those work activities that relate to the provision of opportunities, services and facilities will benefit residents of the planning area on a nondiscriminatory basis.

(3) Comply with Equal Employment Opportunity Requirements in accordance with HUD's Notice of Grant Award and Guide Form of Contract for Personal Services (see Comprehensive Planning Assistance Handbook–II, CPM 6042.1A). Each applicant and recipient must take affirmative action for equal employment opportunity.

(c) States providing planning and management services to local governments and areawide planning organizations shall obtain from them similar assurance of compliance with equal opportunity requirements and, on a continuing basis, evaluate their performance in fulfilling the conditions of such assurance.

§ 600.80 Citizen involvement.

(a) HUD requires citizen involvement in programs assisted under the Comprehensive Planning Assistance Program. Specific techniques for securing citizen involvement are not imposed, but all applicants are responsible for:

(1) Ensuring that comprehensive planning is responsive to the needs of citizens within the planning jurisdiction;

(2) Reporting on the various means employed to ensure that assisted activities are responsive to the citizens; and

(3) Selecting means of obtaining citizen involvement that can be evaluated according to the following performance criteria in paragraph (b) of this section.

(4) Including a Statement of Citizen Involvement in each Progress Report

V 37-64 APR 1 72 XUM

called for by HUD. Such statement shall identify specific activities undertaken to meet the criteria in paragraph (b) of this section and shall show the relation between the activities and the basic objectives of the applicant's Overall Program Design.

(b) The following criteria will be used to measure the citizen involvement required by paragraph (a) of this section:

(1) *Extent of interaction and involvement.* Meaningful and effective communication works both ways: Citizens, in addition to being informed, should be able to respond. They should have the opportunity to help initiate and implement plans, as well as react to proposals. Communication and interaction between citizens and the grantee should be continuous.

(2) *Access to the decision making process.* The grantee should provide citizens with clear and direct access to the decision making process. Citizens should be involved when goals, objectives, priorities, and policies are formulated. They should help develop methods of communication that are effective in reaching people. Meeting places and times should be widely publicized on a regular basis.

(3) *Improving communication techniques.* Effective communication produces information that is readily available, timely, and easily understood by citizens. All grantee's information pertaining to the activity (except when the disclosure of such information would be a breach of public trust) should be available to citizens upon request. Information should be provided on a continuous basis and sufficiently in advance of public decisions to permit a thorough citizen review of the proposals and an opportunity to react. Grantees should relate technical data and other professional material to the average neighborhood resident so that he understands the impact of public programs, available options, and alternative decisions. When the lack of technical resources is a barrier to effective citizen involvement, the planning agency should provide citizens with technical assistance to enable them to make knowledgeable decisions.

Subpart C—Procedural Requirements

§ 600.85 Purpose.

This subpart sets forth the procedures required of agencies requesting a Comprehensive Planning Assistance grant.

§ 600.90 Steps for application submission, negotiation and approval.

The following are the basic steps in the process of submitting application proposals:

(a) Notification of the appropriate HUD Area Office Director of the intention to submit an application for Comprehensive Planning Assistance. This notification procedure refers primarily to agencies applying for the first time.

(b) Notification of the appropriate designated clearinghouse(s) of the intent to submit an application consistent with OMB Circular A-95. Submission of a copy of a draft Overall Program Design to other agencies for coordination purposes is required by § 600.150.

(c) Submission of a preliminary application upon request to the appropriate HUD Area Office. This should be accomplished well in advance of expiration of any current grant.

(d) Holding a negotiation conference with HUD officials. The chief executive (i.e. Governor, mayor, or city or county executive) or the highest officer on the areawide policy body shall be represented at the negotiation conference.

(e) Resubmission of the application with changes as agreed upon following the negotiation with HUD officials.

(f) Receipt of approval of applications and notifications from HUD of the grant award.

§ 600.95 Applications by States.

States are required to submit a single application (Overall Program Design) including statewide planning, nonmetropolitan assistance, and local planning and management services. Grant assistance shall cover a 12-month work period. States may request separate grants based upon one Overall Program Design, but there must be only one grant recipient per State even though there may be more than one grant. The grant shall be made to the Governor's office or designee, who shall be the single responsible party to HUD for the total grant. Assistance to prepare an Overall Program Design may be given to an applicant applying for the first time. This assistance is given as a special exception to the regular annual grant system.

§ 600.100 The application package.

Applicants must use a standard application package in applying for Comprehensive Planning Assistance. The application package includes:

(a) A letter formally requesting grant assistance which should identify the grant amount being requested and any changes affecting the legal status of the applicant since its last application. The letter shall be signed by the chief elected official (governor, mayor, city or county executive) or, in the case of areawide planning organizations, be signed by the highest policy officer or be accompanied by a resolution from the governing body.

(b) An Overall Program Design which includes the annual work to be assisted. (See § 600.105.) The following are required to prepare a brief and concise Overall Program Design:

(1) States.

(2) Areawide planning organizations, including both metropolitan and nonmetropolitan planning organizations.

(3) Cities having a population of 50,000 or more.

(c) An annual work program summary which identifies the objectives of the proposed program and which summarizes, by objective, the cost of work involved in pursuing each objective.

(d) An annual grant budget which shall be the basis for fiscal audit of the grant.

(e) Applicants may be requested to provide more information regarding such items as legal status, geographic area, etc., as deemed necessary by HUD. This will generally only apply to agencies applying for the first time. Supporting documentation need not be submitted with each application package except where changes have occurred and, then, only the changes need be submitted.

(f) A brief statement of the applicant's organizational characteristics, including policy board composition and representation for areawide planning organizations as described in the HUD 6415 Issuance Series. Also included should be the agency's staffing profile by type, number and racial composition of staff positions, authorized and filled, and by salary range for each.

(g) A copy of all A-95 review comments (and any other review comments) received regarding the proposed Overall Program Design.

(h) A signed copy of "Assurance of Compliance with Department of Housing and Urban Development Regulations under title VI of the Civil Rights Act of 1964." (HUD Form 41901).

§ 600.105 Overall Program Design.

Each applicant shall prepare a concise Overall Program Design (OPD) which shall be the major part of its application. The Overall Program Design is a multiyear work program statement which focuses on specific objectives to be achieved by the applicant. The OPD covers a minimum of 3 years and must be annually updated. The OPD includes all major planning and management objectives to be undertaken by the applicant, not merely those assisted by HUD and provides the applicant and HUD with a base line for evaluation of performance.

(a) *Format.* The following program format provides for the presentation of the applicant's problems, opportunities, goals, and achievable objectives. This format is prescribed unless the HUD Area Office approves a different work format which yields essentially the same data outlined below.

(1) *Program categories.* Each program category, which represents a general planning and management activity, shall include:

(i) The title and reference number of the program category (e.g., 100.0 Growth and Development or 200.0 Executive Management).

NOTE: A separate program category for general administration may be included in the Overall Program Design;

(ii) A brief description of the program category's key issues, problems and opportunities; and

(iii) A brief statement of program category goals.

(2) *Program subcategories.* Each program subcategory, which represents a specific objective, shall include:

(i) The title and reference number of the program subcategory (e.g., 101.0 Land Use or 201.0 Policy and Program Development);

(ii) A brief statement of specific or measurable program objectives to be achieved in addressing issues, problems, and opportunities;

(iii) A brief identification of major work elements to be conducted in achieving objectives of the first work year of the Overall Program Design. To the extent possible, this would include deliverable and products and anticipated results of work;

(iv) Estimated cost by work year for each subcategory. Anticipated sources of funding should also be identified; and

(v) Estimated manpower costs and manmonths for the first work year. This should be identified by in-house staff, other public agency and consultant.

(b) *Related data.* The following shall be included with each Overall Program Design:

(1) A bar chart identifying a time schedule for completing subcategories over the time period covered by the Overall Program Design;

(2) A brief statement which describes how the applicant will coordinate its work with related work being performed by other agencies; and

(3) A brief description of how the applicant will communicate and interact with citizens through its planning process.

Subpart D—State Procedures for Local Planning and Management Services

§ 600.110 Purpose.

This subpart sets forth procedural requirements by which States submit Overall Program Designs for statewide planning and assistance and services for localities and nonmetropolitan planning areas.

§ 600.115 State Overall Program Design.

State Overall Program Design must be presented in the format defined in Subpart C of this part, or in an approved substitute format. A State OPD must include the following:

(a) A statewide planning and management section that identifies statewide planning and management objectives to be achieved.

(b) A local planning and management services section that reflects local issues and identifies a strategy to achieve goals and objectives for local services. This strategy shall include how the State agency will select, monitor, and evaluate the local communities and agencies to be assisted. This section shall include all services to local governments, including State Community Development Services; and

(c) A nonmetropolitan areawide planning section that identifies a strategy of goals and achievable objectives for assisting nonmetropolitan planning areas. This strategy shall include how the State agency will select, monitor and evaluate nonmetropolitan areawide programs to be assisted or serviced.

§ 600.120 Summary of local planning and management assistance procedures.

The following describes procedures which States must employ for managing local planning and management assistance. It is HUD's intent to give States major responsibility and discretion for administering a program of local planning and management services, with flexibility as to the selection of services and the recipients to be assisted. The annual grant will support a State program of planning and management services responsive to the key problems of local governments. HUD's main concern will be with the State's planning and management program, rather than with specific activities undertaken on behalf of individual recipients.

(a) *Application submission.* After the HUD Office has identified a bench mark grant figure, the State agency may submit an application, based on which a single total amount of assistance for local planning and management services will be negotiated.

(b) *Grant coverage.* The grant amount for local assistance normally will be included in the State annual grant and will appear as a single subtotal in the annual grant budget (Form HUD-6703, Revised). A separate grant covering local assistance and services may be requested, provided a single OPD covering statewide planning and local assistance and services is presented to HUD.

(c) *Eligible recipients.* Eligible recipients request Community Planning and Management Assistance from the State agency at times and in the manner established by the State. Unless otherwise prohibited by State law, services should be made available to the locality's chief executive official. Such officials, or their designees, should be the locally responsible party and should have agreed on the manner in which services are provided.

(d) *Expenditure of funds.* The grant will be available to the State agency only for the duration of the project period.

(e) *Commitment of funds.* After receiving from HUD the formal notification of grant approval, the State agency may commit and/or expend funds effective with the beginning of the project period and without further HUD concurrence.

§ 600.125 Design of the State program for localities.

The State's planning and management services program shall be set forth in its Overall Program Design and shall:

(a) Describe the objectives of the State's planning and management services program. In establishing these objectives, due consideration should be given to the general goals of the Community Planning and Management Assistance Program as stated in § 600.5.

(b) Identify the criteria to be used in establishing priorities among localities requesting planning and management services (and for determining the particular mix of planning and management services to individual localities).

(c) Describe the procedures to be followed in assisting localities.

(d) Provide for the accomplishment of paragraphs (a) through (c) of this section and of § 600.128 with the cooperation of the locality. State Community Development Services may be employed as the vehicle for making the determinations and accomplishing the work involved in making them.

§ 600.128 Considerations in State assistance to localities.

In determining the nature and extent of assistance to be provided to any locality, the local work program shall with the cooperation of the elected officials of the locality:

(a) Identify and analyze their key issues, pressing problems, needs, priorities, opportunities, and objectives;

(b) Identify the public and private organizations, agencies and programs at the various levels of government having an impact on the localities, problems, issues, etc.;

(c) Evaluate their previous planning efforts and progress;

(d) Identify their housing problems and the status of their housing planning efforts, including housing opportunities for all income groups;

(e) Identify their environmental problems;

(f) Meet workable program, relocation, and similar planning requirements, if desirable or advantageous to an assisted locality;

(g) Secure other local background data as necessary for dealing adequately with their issues, problems and opportunities; and

(h) Evaluate the localities fulfillment of the conditions of the Statement of Assurance consistent with § 600.75.

§ 600.130 Negotiations with HUD.

State negotiations with HUD will focus on:

(a) Relevance of the proposed program to specific statewide objectives and critical problems of local recipients;

(b) Past State agency performance in managing the program, and achieving objectives;

(c) Recipient performance and progress; and

(d) State capability for providing a variety of planning assistance and services.

§ 600.135 State agency review and evaluation.

The State agency must review the planning activities of recipient areas on a continuing basis. The following specific items must be reviewed:

(a) The quality of the local planning work performed;

(b) The timeliness of the work performance;

(c) The recipients' coordination efforts;

(d) The quality of the citizen involvement in the planning effort;

(e) The value of the planning work in improving the chief executive's management capability; and

(f) The recipient's compliance with Equal Opportunities Requirements.

Subpart E—Evaluation and Coordination Procedures

§ 600.140 Purpose.

This subpart sets forth procedures required to assure the evaluation of programs and the coordination of assisted planning among agencies and governmental levels which may enhance or be affected by such planning.

V 37-64 APR 1 72 XUM

§ 600.145 Evaluation and review.

Certain evaluation and review procedures are established.

(a) *Evaluation.* Required monitoring and reporting activities are defined in Chapter A of HUD Handbook CPM 6042.1A "Comprehensive Planning Assistance Handbook II" (July 1971). With the Annual Program Completion Report described therein and required to be submitted, applicants must include a brief evaluation statement that relates the following:

(1) Agency progress in meeting the Overall Program Design objectives;

(2) Changes or impacts resulting from the agency's assisted work on the social, physical, environmental, and governmental aspects of the planning jurisdiction; and

(3) Outstanding achievements, such as new governmental policies and public and private actions taken resulting from the agency's work.

(b) *HUD review of agency evaluation.* HUD review of evaluations made by assisted applicants will be reported and discussed at the time of negotiations concerning new applications. This review will cover prior work and proposed work as presented in a new application. The review will cover:

(1) The quality of work performed;

(2) The quality of proposed updating in the Overall Program Design and applicant objectives;

(3) The technical competence of applicant staff and consultants in completing previous work and in relation to proposed work;

(4) The adequacy of the applicant's administrative, fiscal and accounting procedures; and

(5) For States, the applicant's ability to identify and respond to needs of communities, to schedule and complete work in timely fashion and to maintain effective management of local assistance and services.

§ 600.150 Coordination and intergovernmental review procedures.

The following procedures required by §§ 600.160 and 600.170 are established to assure intergovernmental coordination and review of planning and management programs proposed for assistance.

§ 600.160 OMB Circular A–95 coordination procedures.

In accordance with HUD procedures set forth in HUD Handbook CPM O4.1A, "Comprehensive Planning Assistance: Requirements and Guidelines for a Grant", and Office of Management and Budget Circular A–95 guidelines and procedures, established pursuant to section 204 of the Demonstration Cities and Metropolitan Development Act of 1966, and Title IV of the Intergovernmental Cooperation Act of 1968, planning agencies must notify the State, regional or metropolitan clearinghouse of the intent to submit an applicant for HUD Comprehensive Planning Assistance.

(a) The application notification will include a summary description of the work to be funded containing the following information:

(1) The identity of the applicant agency;

(2) The geographic location of the project to be assisted;

(3) A brief description of the work to be funded under the grant;

(4) The Federal program and agency under which assistance will be sought; and

(5) The estimated date by which time the applicant expects to formally file an application.

(b) When a State's applicant for Comprehensive Planning Assistance is not the designated State clearinghouse, the applicant agency shall notify the clearinghouse agency of its intention to submit an application.

(c) Interstate Regional Commissions submitting applications for a HUD Comprehensive Planning Assistance grant shall notify the Governors' and/or the designated State clearinghouse(s) of their intent to apply to HUD.

(d) Applicants must notify the appropriate State, regional, and metropolitan clearinghouses well in advance of the HUD negotiations conference. In no instance will applications be processed without having fulfilled the A–95 requirements.

§ 600.170 Overall Program Design review.

(a) In addition to the A–95 review, referred to in § 600.160, assisted agencies should submit a draft copy of the Overall Program Design to agencies likely to be asked to implement portions of the plans and programs or to agencies whose activities are likely to be substantially affected by the plans and programs; and to State, areawide, local, and Federal agencies and private agencies expected to contribute cash or services to the planning effort.

(b) Each nonmetropolitan areawide planning organization must submit a copy of its Overall Program Design to the chairman of the State Rural Development Committee of the U.S. Department of Agriculture, in accordance with agreed upon procedures between the State planning agency and the State rural development committee.

(c) Each areawide planning organization designated as an economic development district (EDD) or adjacent to an EDD must submit a copy of its Overall Program Design to the regional office of the Economic Development Administration, U.S. Department of Commerce.

(d) Each areawide planning organization designated as a local development district (LDD) must submit a copy of its Overall Program Design to the central office of the Appalachian Regional Commission.

(e) Coordination between areawide planning organization and large cities. Executive bodies of areawide planning organizations and the chief executive officials of cities over 50,000 population within the areawide jurisdiction must exchange draft Overall Program Designs for comment by the reciprocating office. Referral by the applicant areawide organization to the city executive and by applicant cities to their areawide organization is required in any case.

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER (4–1–72).

SAMUEL C. JACKSON,
Assistant Secretary for Community Planning and Management.

[FR Doc.72–5036 Filed 3–31–72;8:49 am]

Chapter IX—Office of Interstate Land Sales Registration, Department of Housing and Urban Development

[Docket No. R–72–149]

PART 1710—LAND REGISTRATION

Miscellaneous Amendments

On January 27, 1972, Land Registration regulations were published in the FEDERAL REGISTER (37 F.R. 1302–1317). A correction to § 1710.105 was published in the FEDERAL REGISTER on February 5, 1972 (37 F.R. 2768). Several additional mistakes are corrected by this amendment and some minor clarification changes are made. A change in § 1710.130 has been made to clarify the fact that State filings made on or after the effective date of the regulations shall be made in accordance therewith; State filings in effect prior to January 27, 1972, are not affected until amendment or consolidation. The preamble to the regulations failed to mention the elimination of the requirements for submitting two copies of the Statement of Record and the Property Report previously required by §§ 1710.20 and 1710.105, and two copies of the Statement of Record filed with and approved by appropriate State agencies previously required pursuant to § 1710.120. Under the regulations, only one copy of any such submission must be filed.

Since this amendment is solely for the purpose of correction and clarification, notice and public procedure upon this amendment are not required and good cause exists for making this amendment effective upon publication in the FEDERAL REGISTER.

Part 1710, of Chapter IX of Title 24 of the Code of Federal Regulations which was published in the FEDERAL REGISTER at 37 F.R. 1302–1317 on Thursday, January 27, 1972, is amended as follows:

§ 1710.2 [Amended]

1. In § 1710.2 change the Zip Code "20411" to read "20410".

2. Section 1710.10 is corrected to read as follows:

§ 1710.10 Statutory exemptions.

The requirements of this part shall not apply to:

• • • • • •

(i) The sale or lease of lots to any person who acquires such lots for the purpose of engaging in the business of constructing residential, commercial or industrial buildings or for the purpose of resale or lease of such lots to persons engaged in such business.

The foregoing exemptions are available where the particular factual circumstances of the sale or lease meet the express requirements of the exemption provision. No formal written decision is required, but an exemption advisory opinion pursuant to § 1710.15 may be obtained if desired.

3. The following corrections are made in § 1710.11:

a. In paragraph (a) correct the word "chapter" to read "part".

b. In paragraph (a)(2), change the words "on the lot" to read "on-the-lot".

c. In paragraph (b), everything following the last sentence of subparagraph (2) is deleted and a new subparagraph (3) is added so that paragraph (b) (2) and (3) reads as follows:

§ 1710.11 Statutory exemptions—determination required.

• • • • • •

(b) • • •

(2) If the developer has relied upon the provisions of paragraph (c)(1) of this section to establish the time of sale, he shall file with each acknowledged statement and affirmation a copy of the applicable contract of sale.

(3) All documents required to be submitted by this section shall be bound in alphabetical order and indexed by purchaser's surname. Each bound volume shall contain only such documents as are applicable to a single subdivision and shall be identified on the outer cover by the name and location of the subdivision and the number assigned by OILSR to such subdivision. Upon demand by the Secretary, made at any time during the calendar year, the developer shall, without delay, file copies of such acknowledged statements, affirmations, and applicable contracts as the Secretary may specify.

• • • • • •

d. In paragraph (c)(2) of § 1710.11, change the word "encumbarnces" to read "encumbrances".

4. The following amendments are made in § 1710.14:

a. In the second sentence of paragraph (a)(1)(iv) the word "conclusively" is deleted.

b. In paragraph (b), subparagraph (1) is revised to read as follows:

§ 1710.14 Regulatory exemptions—exemption order required—limited offering.

• • • • • •

(b) • • •

(1) File a partial Statement of Record—request for exemption in accordance with § 1710.125. The partial Statement of Record shall not operate as registration under the Act.

• • • • • •

c. In paragraph (b)(3)(ii) change the word "metohds" to read "methods".

5. In § 1710.15, paragraph (b) is redesignated paragraph (c) and a new paragraph (b) is added, to read as follows:

§ 1710.15 Exemption advisory opinions.

• • • • • •

(b) *Partial Statement of Record.* Any opinion request shall be accompanied by a partial Statement of Record as prescribed in § 1710.125. The partial Statement of Record shall not operate as registration under the Act.

• • • • • •

6. Section 1710.17 is amended to read as follows:

§ 1710.17 Concurrent submission—request for exemption/Statement of Record.

A request for an exemption order pursuant to § 1710.14 or for an exemption advisory opinion pursuant to § 1710.15 may be accompanied by the submission of a complete Statement of Record filed in accordance with the procedures described in paragraphs (a) and (b) of this section.

(a) A developer who wishes to begin to offer or to sell lots in a subdivision may submit in connection with a request for an exemption order or for an exemption advisory opinion a complete Statement of Record (§ 1710.20). Such request shall not affect the date upon which the Statement of Record shall become effective.

(b) If a Statement of Record has become effective prior to the issuance of an exemption order or of an exemption advisory opinion of the Secretary to the effect that the method of disposition is exempt, the developer shall elect within 30 days of the date of such order or opinion whether he intends to rely upon such order or opinion or intends for the Statement of Record to remain in effect. Unless the developer informs the Secretary to the contrary, the Statement of Record shall be deemed ineffective and permanently withdrawn, and it will be presumed that the developer intends to rely upon the order or opinion of the Secretary. Thereafter, the developer shall not represent to a purchaser that:

(1) The subdivision has been registered with the Secretary,

(2) The Statement of Record is in effect, or

(3) The Secretary has accepted any Property Report or similar information given to a purchaser.

If the developer does not intend to rely on the exemption order or on the exemption advisory opinion and so notifies the Secretary of his election within 30 days of the date of such order or opinion, he shall not thereafter represent to a purchaser that his method of sale, lease, or other disposition is exempt from the Act.

7. Paragraph (b) of § 1710.27 is revised to read as follows:

§ 1710.27 State filings—consolidations and amendments.

• • • • • •

(b) *Requirement for amendment.* The Statement of Record and Property Report shall be amended within 15 days of the date on which the developer knows or should have known that there has been a material change.

• • • • • •

8. Paragraph (g)(1) of § 1710.35 is revised to read as follows:

§ 1710.35 Payment of fees.

• • • • • •

(g) • • •

(1) When the developer files a concurrent submission—request for exemption/Statement of Record—pursuant to § 1710.17, the fee required by paragraphs (b) through (e) of this section shall be submitted. If the Secretary advises or orders that the offering is exempt under § 1710.10, § 1710.13, or § 1710.14 and the developer does not notify the Secretary within 30 days thereafter that he intends for the Statement of Record to remain in effect, the Secretary will refund the submitted fee except for $100. If the developer notifies the Secretary that he intends for the Statement of Record to remain in effect or if the request for exemption is denied the fee required by this paragraph will be retained.

• • • • • •

§ 1710.45 [Amended]

9. In the second sentence of paragraph (b)(1) of § 1710.45, the phrase "issue and order" is changed to read "issue an order".

10. The following corrections are made in § 1710.105:

a. In Part I.D., "Supporting documentation:", delete lines 1 and 2 thereunder.

b. In Part X.D.1., a new line is added after c., to read as follows:

d. ----------

c. In the portion of § 1710.105 which is designated as "Instructions for Completion of Statement of Record", the following corrections are made:

i. In the next to the last paragraph preceding "Part I. Administrative Information", the word "therefore" is changed to read "therefor."

ii. In Part I.B.4. delete "2" following "D.".

iii. In Part VII.C.3., the word "with" is changed to read "within".

d. The part of § 1710.105 which is designated as "Instructions for Completion of Statement of Record", Part VII.C.1. is amended to read as follows:

§ 1710.105 Statement of Record—format and instructions.

• • • • • •

INSTRUCTIONS FOR COMPLETION OF STATEMENT OF RECORD

• • • • • •

PART VII. ACCESS, NEARBY COMMUNITIES, ROAD SYSTEM WITHIN THE SUBDIVISION

• • • • • •

C. Supporting documentation.

1. If the developer is to complete access routes, submit a copy of any contracts and a copy of any bonds or escrow agreements to guarantee completion thereof. If the access routes are to be completed by the local government submit a copy of a letter from the local authorities setting forth the plan for completion of access routes and maintenance thereof.

• • • • • •

11. The following amendments are made in § 1710.110:

a. Paragraph 8.(c) is revised to read as follows:

V 37-64 APR 1 72 XUM

§ 1710.110 **Property Report and lease addendum—format instructions.**

• • • • •

8.(c) List all permissible uses of the property based upon local zoning ordinances.

• • • • •

b. In paragraph 15.(a) the word "had" is corrected to read "and".

c. In paragraph 18. delete the comma after the word "land".

d. The word "Requirements" in that portion designated as "Additional Requirements for Property Report" is corrected to read "Requirements".

e. In paragraph e. following "Additional Requirements for Property Report", the numeral "10" is corrected to read "2"; the word "Ten" is corrected to read "Two".

§ 1710.120 [Amended]

12. The following corrections are made in § 1710.120:

a. In paragraph "D. Supporting documentation:", following "Administrative Information", delete lines 1 and 2.

b. In "SEC. II.C.", the word "asknowledges" in the phrase "and (2) asknowledges by his signature" is corrected to read "acknowledges".

§ 1710.125 [Amended]

13. In the introductory paragraph of § 1710.125, "§ 1710.17(b)" is corrected to read "§ 1710.15".

14. In § 1710.130, the last sentence is revised to read as follows:

§ 1710.130 **Effective date.**

• • • All State filings, amendments and consolidations made on or after January 27, 1972, shall comply with these regulations.

(Sec. 7(d), Department of Housing and Urban Development Act, 79 Stat. 670, 42 U.S.C. 3535(d); sec. 1419, 82 Stat. 598, 15 U.S.C. 1718; Secretary's delegation of authority published at 37 F.R 5071)

Effective date. This amendment is effective upon publication in the FEDERAL REGISTER (4–1–72).

GEORGE K. BERNSTEIN,
Interstate Land Sales Administrator.

[FR Doc.72–5035 Filed 3–30–72;8:51 am]

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

VETERANS' PENSIONS AND DEATH BENEFITS

These regulatory changes implement the provisions of Public Law 92–197 (85 Stat. 660) and Public Law 92–198 (85 Stat. 663), effective January 1, 1972, which provide increases in monthly rates and other entitlement liberalizations for veterans' pension and death benefits for widows, children and parents.

1. In § 3.2, paragraph (h) is amended to read as follows:

§ 3.2 **Periods of war.**

• • • • •

(h) *Mexican border period.* May 9, 1916 through April 5, 1917, in the case of a veteran who during such period served in Mexico, on the borders thereof, or in the waters adjacent thereto. (38 U.S.C. 101(30); Public Law 92–198, 85 Stat. 663)

2. In § 3.3, paragraphs (c) and (d)(3) are amended to read as follows:

§ 3.3 **Pension.**

• • • • •

(c) *Disability pension; Mexican border period, and later war periods.* Basic entitlement exists if the veteran:

(1) Served 90 days or more in either the Mexican border period, World War I, World War II, the Korean conflict, or the Vietnam era, or served an aggregate of 90 days or more in separate periods of service during the same or, effective July 21, 1961, during different war periods, including service during the Spanish-American War (38 U.S.C. 521(g); Public Law 92–198, 85 Stat. 663); or

(2) Was discharged or released from such service before having served the stated 90 days for a disability service connected without benefit of presumptive provisions of law, or at the time of discharge had such a service-connected disability, shown by official service records, which in medical judgment would have justified a discharge for disability; and

(3) Is permanently and totally disabled from non-service-connected disability not due to his own willful misconduct or vicious habits, or by reason of having attained the age of 65 years. (38 U.S.C. 502, 521)

(d) *Death pension.* • • •

(3) *Mexican border period and later war periods.* Basic entitlement exists for the widow or child of a deceased veteran if the veteran's service meets the requirements of paragraph (c) (1) or (2) of this section or the veteran was, at the time of death, receiving or entitled to receive compensation or retirement pay for service-connected disability based on wartime service. Basic entitlement exists under the provisions of this subparagraph, effective January 1, 1971, for the widow or child of a deceased veteran of the Mexican border period. (38 U.S.C. 541, 542)

3. In § 3.4, paragraph (c) is amended to read as follows:

§ 3.4 **Compensation.**

• • • • •

(c) *Death compensation.* Basic entitlement exists for a widow, child or children, and dependent parent or parents if:

(1) The veteran died before January 1, 1957; or

(2) The veteran died on or after May 1, 1957, and before January 1, 1972, if at the time of death a policy of U.S. Government Life Insurance or National Service Life Insurance was in effect under waiver of premiums under 38 U.S.C. 724 unless the waiver was granted under the first proviso of section 622(a) of the National Service Life Insurance Act of 1940, and the veteran died before his return to military jurisdiction or within 120 days thereafter. (38 U.S.C. 321, 341, former 417(a); Public Law 92–197, 85 Stat. 660) (See § 3.5(d) as to Public Health Service.)

• • • • •

4. In § 3.5, paragraphs (b)(3), (c), and (e)(3) are amended to read as follows:

§ 3.5 **Dependency and indemnity compensation.**

• • • • •

(b) *Entitlement.* Basic entitlement for a widow, child or children, and parent or parents of a veteran exists, if:

• • • • •

(3) Death occurred on or after May 1, 1957, and before January 1, 1972, and the claimant had been ineligible to receive dependency and indemnity compensation because of the exception in subparagraph (1) of this paragraph. In such case dependency and indemnity compensation is payable upon election. (38 U.S.C. 410, 416, 417, Public Law 92–197, 85 Stat. 660)

(c) *Exclusiveness of remedy.* No person eligible for dependency and indemnity compensation by reason of a death occurring on or after January 1, 1957, shall be eligible by reason of such death for death pension or compensation under any other law administered by the Veterans Administration. (38 U.S.C. 417)

• • • • •

(e) *Widow's rate.* • • •

(3) If there is a widow with one or more children under the age of 18 (including a child not in the widow's actual or constructive custody and a child who is in active military, air, or naval service), the total amount payable shall be increased by $22 for each child. (38 U.S.C. 411(b); Public Law 92–197, 85 Stat. 660)

5. Section 3.17 is revised to read as follows:

§ 3.17 **Disability and death pension; Mexican border period and later war periods.**

In computing the 90 days' service required by § 3.3(c), there will be included active service which began before and extended into the Mexican border period or ended during World War I, or began or ended during World War II, the Korean conflict or the Vietnam era, if such service was continuous. Service during different war periods may be combined with service during any other war period to meet the 90 days' service requirement. (38 U.S.C. 521; Public Law 92–198, 85 Stat. 663)

6. In § 3.251(a), subparagraph (1) is amended to read as follows:

§ 3.251 **Income of parents; dependency and indemnity compensation.**

(a) *Annual income limitation.* (1) Dependency and indemnity compensation is not payable to a parent whose annual income exceeds the following limitations:

(i) $2,300 ($2,600 effective January 1, 1972), one parent alone;

(ii) $2,300 ($2,600 effective January 1, 1972), separately, two parents not living together;

(iii) $3,500 ($3,800 effective January 1, 1972), combined income, two parents living together or remarried parent living with spouse;

(iv) Where there is only one parent, and the parent has remarried and is living with his spouse, dependency and indemnity compensation will be paid to him under either the formula in 38 U.S.C. 415(b)(1) or the formula in 38 U.S.C. 415(d), whichever will provide the greater monthly rate of dependency and indemnity compensation. The total combined annual income of the parent and his spouse will be counted. (38 U.S.C. 415; Public Law 92–197, 85 Stat. 660)

• • • • •

7. In § 3.252, paragraphs (a) and (b) are amended and subparagraph (4) is added to paragraph (e) so that the added and amended material reads as follows:

§ 3.252 **Annual income; pension; Mexican border period—and later war periods.**

(a) *Annual income limitation; protected pension.* Where the right to pension under laws in effect on June 30, 1960, is protected under § 3,956, pension is not payable to an unmarried veteran, or to a widow without a child, or to or on account of a child, whose annual income exceeds $1,900 ($2,200 effective January 1, 1972); or to a married veteran or a veteran with a child, or to a widow with a child whose annual income exceeds $3,200 ($3,500 effective January 1, 1972).

(b) *Annual income and net worth limitation; Public Law 86–211.* Pension is not payable to an unmarried veteran, or to a widow without a child, whose annual income exceeds $2,300 ($2,600 effective January 1, 1972), or to or on account of a child whose annual income (excluding earned income of a child-claimant) exceeds $2,000; or to a married veteran or a veteran with a child, or to a widow with a child, whose annual income exceeds $3,500 ($3,800 effective January 1, 1972); or to a veteran, widow or child if it is reasonable that some part of the claimant's estate be consumed for his maintenance. Where a veteran and spouse are living together, the separate income of the spouse will be considered as the veteran's income, as provided in § 3.262(b). (38 U.S.C. 521, 541, 542, and 543)

• • • • •

(e) *Widow with a child.* • • •

(4) *Alternative rate.* Whenever the monthly pension rate payable to the widow under the formula in 38 U.S.C. 541(c) is less than the rate payable for one child under section 542 if the widow were not entitled, the widow will be paid the child's rate. (38 U.S.C. 541(c), 542; Public Law 92–198, 85 Stat. 663)

8. In § 3.260, paragraph (g) is added to read as follows:

§ 3.260 **Computation of income.**

• • • • •

(g) *Fractions of dollars.* In computing a claimant's annual income a fraction of a dollar will be disregarded for the purpose of determining entitlement to monthly payments of pension and dependency and indemnity compensation. (38 U.S.C. 415(g)(2); 503(b); Public Law 92–197, 85 Stat. 660; Public Law 92–198, 85 Stat. 663)

9. In § 3.261(b), subparagraph (1) is amended to read as follows:

§ 3.261 **Character of income; exclusions and estates.**

The following factors will be considered in determining whether a claimant meets the requirements of §§ 3.250, 3.251, and 3.252 with reference to dependency, income limitations and corpus of estate:

• • • • •

	Dependency (parents)	Dependency and indemnity compensation (parents)	Pension—protected (veterans, widows and children)	Pension—Public Law 86–211 (veterans, widows and children)	See
(b) *Deduction of amounts paid by claimant:*					
(i) Unusual medical expenses.	Not authorized.	Authorized....	Not authorized.	Authorized....	§ 3.262(b)(2), § 3.262(i), § 3.262(l).
...	...	...	...	...	...

10. In § 3.262, paragraphs (b)(2), (e)(4), (i), (k)(5) and (6), (l), (m), and (n) are amended to read as follows:

§ 3.262 **Evaluation of income.**

• • • • •

(b) *Income of spouse.* Income of the spouse will be determined under the rules applicable to income of the claimant.

• • • • •

(2) *Veterans.* The separate income of the spouse of a disabled veteran who is entitled to pension under laws in effect on June 30, 1960, will not be considered. Where pension is payable under Public Law 86–211 (73 Stat. 432), to a veteran who is living with a spouse there will be included as income of the veteran all income of the spouse in excess of whichever is the greater, $1,200 or the total earned income of the spouse, which is reasonably available to or for the veteran, unless hardship to the veteran would result. The presumption that inclusion of such income is available to the veteran and would not work a hardship on him may be rebutted by evidence of unavailability or of expenses beyond the usual family requirements. (38 U.S.C. 521(f))

• • • • •

(e) *Retirement benefits; general.* • • •

(4) *Dependency and indemnity compensation.* Except as provided in this subparagraph, effective January 1, 1967, in determining income for dependency and indemnity compensation purposes, 10 percent of the retirement payments received by a deceased veteran's parent or by the parent's spouse will be excluded. The remaining 90 percent will be considered income as received. Where a parent was receiving or entitled to receive dependency and indemnity compensation and retirement benefits based on his own employment on December 31, 1966, the retirement payments will not be considered income until the amount of the claimant's personal contribution (as distinguished from amounts contributed by the employer) has been received. Thereafter the 10 percent exclusion will apply. (38 U.S.C. 415(g), 503(a)(6); sec. 7(b), Public Law 89–730)

• • • • •

(i) *Compensation (civilian) for injury or death.* (1) Compensation paid by the Bureau of Employees' Compensation, Department of Labor (of the United States), or by Social Security Administration, or by Railroad Retirement Board, or pursuant to any workmen's compensation or employer's liability statute, or damages collected because of personal injury or death, less medical, legal, or other expenses incident to the injury or death, or the collection or recovery of such moneys will be considered income as received, except as provided in subparagraph (2) of this paragraph. The criteria of paragraph (l) of this section are for application as to all medical expenditures after such award or settlement. (Public Law 92–198, 85 Stat. 663)

(2) For pension, effective October 7, 1966, and for dependency and indemnity compensation effective January 1, 1967 if payments based on permanent and total disability or death are received from the Bureau of Employees' Compensation, Social Security Administration or Railroad Retirement Board, or pursuant to any workmen's compensation or employer's liability statute, there will be excluded 10 percent of the payments received after deduction of medical, legal, and other expenses as authorized by subparagraph (1) of this paragraph. The 10 percent exclusion does not apply to damages collected incident to a tort suit under other than an employer's liability law of the United States or a political subdivision of the United States, or to determinations of dependency for compensation purposes.

• • • • •

(k) *Property.* • • •

(5) *Sale of property; Public Law 86–211 and dependency and indemnity compensation.* For pension under Public Law 86–211 (73 Stat. 432) and for dependency and indemnity compensation, profit from the sale of real or personal property other than in the course of a business

V 37-64
APR 1 72
XUM

will not be considered income. This applies to property acquired either before or after the date of entitlement. Any amounts received in excess of the sales price will be counted as income. Where payments are received in installments, principal and interest will not be counted separately. For pension, this provision is effective January 1, 1965; for dependency and indemnity compensation, January 1, 1967. (38 U.S.C. 503(a)(10); 38 U.S.C. 415(g))

(6) *Payments on mortgages on real property; Public Law 86–211.* Effective January 1, 1971, for the purposes of Public Law 86–211 (73 Stat. 432), an amount equaling any prepayments made by a veteran or widow on a mortgage or similar type security instrument in existence at the death of veteran or spouse on real property which prior to the death was the principal residence of the veteran and spouse will be excluded from consideration as income if such payment was made after the death and prior to the close of the year succeeding the year of death. (38 U.S.C. 503(a)(14).)

(l) *Unusual medical expenses.* Within the provisions of subparagraphs (1) through (4) of this paragraph there will be excluded from the amount of the claimant's annual income any unreimbursed amounts which have been paid within the calendar year for unusual medical expenses regardless of the year the indebtedness was incurred. The term "unusual" means "excessive". It does not describe the nature of a medical condition but rather the amount expended for medical treatment in relationship to the claimant's resources available for sustaining a reasonable mode of life. Unreimbursed expenditures which exceed 5 percent of the claimant's reported annual income will be considered unusual. Health, accident, sickness and hospitalization insurance premiums will be included as medical expenses in determining whether the claimant's unreimbursed medical expenses meet the criterion for "unusual." A claimant's statement as to amounts expended for medical expenses ordinarily will be accepted unless the circumstances create doubt as to its credibility. An estimate based on a clear and reasonable expectation that unusual medical expenditure will be realized may be accepted for the purpose of authorizing prospective payments of benefits subject to necessary adjustment in the award upon receipt of an amended estimate or after the end of the calendar year upon receipt of an income questionnaire.

(1) *Veterans.* For the purpose of Public Law 86–211 (73 Stat. 432), there will be excluded unreimbursed amounts paid by the veteran for unusual medical expenses of himself, his spouse, his children, his parents, and other of his relatives in the ascending as well as descending class whom he is under a moral or legal obligation to support and who are members or constructively members of his household.

(2) *Widows.* For the purposes of Public Law 86–211 (73 Stat. 432), there will be excluded unreimbursed amounts paid by the widow for the unusual medical expenses of herself, the veteran's children, and other of her relatives in the ascending as well as descending class whom she is under a moral and legal obligation to support and who are members or constructively members of her household.

(3) *Children.* For the purposes of Public Law 86–211 (73 Stat. 432), there will be excluded unreimbursed amounts paid by a child for the unusual medical expenses of himself, his parent, and his brothers and sisters.

(4) *Parents.* For dependency and indemnity compensation purposes there will be excluded unreimbursed amounts paid by the parent for the unusual medical expenses of himself, his spouse, and other of his relatives in the ascending as well as the descending class whom he is under a moral or legal obligation to support and who are members or constructively members of his household. If the combined annual income of the parent and his spouse is the basis for dependency and indemnity compensation the exclusion is applicable to the combined annual income and extends to the unusual unreimbursed medical expenses of the spouse's relatives in the ascending as well as descending order whom she is under moral or legal obligation to support and who are members or constructively members of the household. (38 U.S.C. 415(g)(3); 503(c); 521(f); Public Law 92–198, 85 Stat. 663)

(m) *Veteran's final expenses; pension.* In claims for pension under Public Law 86–211 (73 Stat. 432), there will be excluded, as provided in paragraph (p) of this section:

(1) From the income of a widow, amounts equal to amounts she, as wife, paid for the expenses of the veteran's last illness;

(2) From the income of a widow, or of a child of a deceased veteran where there is no widow, amounts equal to amounts paid by the widow or child for the veteran's just debts, for the expenses of his last illness, and for the expenses of his burial to the extent such expenses are not reimbursed by the Veterans' Administration. (38 U.S.C. 503(a)(7))

(n) *Final expenses of veteran's spouse or child; pension.* In claims for pension under Public Law 86–211 (73 Stat. 432), there will be excluded, as provided in paragraph (p) of this section:

(1) From the income of a veteran, amounts equal to amounts paid by him for the last illness and burial of his deceased spouse or child; and

(2) From the income of a wife or widow, amounts equal to amounts paid by her as wife or widow of the deceased veteran for the last illness and burial of a child of such veteran. (38 U.S.C. 503(a)(9))

11. In § 3.351, paragraphs (a) and (c) are amended to read as follows:

§ 3.351 Special monthly dependency and indemnity compensation, death compensation and pension ratings.

(a) *Aid and attendance; general.* Additional pension for veterans in need of regular aid and attendance is provided for Indian War veterans (38 U.S.C. 511); Spanish-American War veterans (38 U.S.C. 512); and for veterans of the Mexican border period, World War I, World War II, the Korean conflict or the Vietnam era (38 U.S.C. 521). Additional pensions for widows in need of regular aid and attendance is provided for widows of veterans of all periods of war, including those entitled to pension under the law in effect on June 30, 1960, based on service in Mexican border period service, World War I, World War II or the Korean conflict (38 U.S.C. 544). Additional dependency and indemnity compensation and death compensation for widows and for parents in need of regular aid and attendance is provided for widows and for parents of veterans of all periods of service. (38 U.S.C. 322(b), 411(c), 415(h); Public Law 92–197, 85 Stat. 660)

• • • • • •

(c) *Aid and attendance; criteria.* The veteran, widow, or parent will be considered in need of regular aid and attendance if he or she:

(1) Is blind or so nearly blind as to have corrected visual acuity of 5/200 or less, both eyes, or concentric contraction of the visual field to 5° or less; or

(2) Is a patient in a nursing home on account of mental or physical incapacity; or

(3) Establishes a factual need for aid and attendance under the criteria set forth in § 3.352(a). (38 U.S.C. 502(b); Public Law 92–197, 85 Stat. 660)

• • • • • •

12. Section 3.404 is added to read as follows:

§ 3.404 Parents.

Awards of additional amounts of compensation and dependency and indemnity compensation based on the parent's need for regular aid and attendance will be effective date of receipt of claim or date entitlement arose, whichever is the later. (See also § 3.400(c)(2)) Where the parent is provided hospital, institutional or domiciliary care at Veterans Administration expense, the effective date will be date of departure therefrom. (Public Law 92–197, 85 Stat. 660)

13. In § 3.450, paragraph (c) is amended to read as follows:

§ 3.450 General.

• • • • • •

(c) The amount payable for any child or children in the widow's custody will be added to the widow's share and any amounts payable for children not in her custody will be deducted from her award.

• • • • • •

14. In § 3.500, paragraphs (g) and (n) are amended to read as follows:

§ 3.500 General.

The effective date of a rating which results in the reduction or discontinuance of an award will be in accordance with the facts found except as provided in § 3.105. The effective date of reduction or discontinuance of an award of pension, compensation, or dependency and indemnity compensation for a payee or dependent will be the earliest of the dates stated in these paragraphs unless otherwise provided. Where an award is reduced, the reduced rate will be effective the day following the date of discontinuance of the greater benefit. (38 U.S.C. 3012(b))

• • • • • •

(g) *Death (38 U.S.C. 3012(a), (b); Public Law 92–198, 85 Stat. 663).*—(1) *Payee.* Last day of month before death.

(2) *Dependent of payee (includes apportionee).* Last day of the calendar year in which death occurred.

(3) *Veteran receiving retirement pay.* Date of death.

• • • • • •

(n) *Marriage (or remarriage) (38 U.S.C. 101(3), 3012(b); Public Law 92–198, 85 Stat. 663).*—(1) *Payee.* Last day of month before marriage.

(2) *Dependent of payee (includes apportionee).* Last day of the calendar year in which marriage occurred.

(3) *Inferred marriage of child.* As provided in subparagraph (1) or (2) of this paragraph.

(4) *Conduct of widow.* Last day of month before inception of relationship.

• • • • • •

15. In § 3.501, paragraph (d) is amended to read as follows:

§ 3.501 Veterans.

The effective date of discontinuance of pension or compensation to or for a veteran will be the earliest of the dates stated in this section. Where an award is reduced, the reduced rate will be payable the day following the date of discontinuance of the greater benefit.

• • • • • •

(d) *Divorce (38 U.S.C. 3012(b)(2); Public Law 92–198, 85 Stat. 663).* Last day of the calendar year in which divorce occurred.

• • • • • •

16. In § 3.502, paragraph (a) is amended to read as follows:

§ 3.502 Widows.

The effective date of discontinuance of pension, compensation, or dependency and indemnity compensation to or for a widow will be the earliest of the dates stated in this section. Where an award is reduced, the reduced rate will be payable the day following the date of discontinuance of the greater benefit.

(a) *Additional allowance of dependency and indemnity compensation for children (38 U.S.C. 3012(b), Public Law 92–198, 85 Stat. 663; § 3.5(e)(3)).* Day preceding child's 18th birthday or last day of calendar year in which child's marriage occurred (see § 3.500(n)(2) and (3)), whichever is earlier.

• • • • • •

17. Section 3.504 is added to read as follows:

§ 3.504 Parents; aid and attendance.

The effective date of discontinuance of an increased award because of the parent's need for aid and attendance will be the day of last payment if need for aid and attendance has ceased. If hospitalized at Veterans Administration expense as a veteran the date will be specified in § 3.552(b)(1) or (3). (Public Law 92–197, 85 Stat. 660)

18. In § 3.660, paragraph (a) is amended to read as follows:

§ 3.660 Dependency, income and estate.

(a) *Reduction or discontinuance.*—(1) *General.* A veteran, widow, or child who is receiving pension, or a parent who is receiving compensation of dependency and indemnity compensation must notify the Veterans Administration of any material change or expected change in his income or other circumstances which would affect his entitlement to receive, or the rate of, the benefit being paid. Such notice must be furnished when he acquires knowledge that he will begin to receive additional income at a rate which if continued will cause his income to exceed the income limitation or increment applicable to the rate of the benefit being paid or when his marital or dependency status changes. In pension claims subject to § 3.252(b) and in compensation claims subject to § 3.250(a)(2), notice must be furnished of any material increase in corpus of the estate or net worth.

(2) *Contingency.* Where reduction or discontinuance of a running award is required because of an increase in income, which increase could not reasonably have been anticipated based on the amount actually received from that source the year before, or because of an increase in corpus of estate or net worth or because dependency of a parent ceased or became dependency ceased due to the dependent's marriage, divorce or death the award will be reduced or discontinued effective the last day of the calendar year in which the increase occurred or dependency ceased. (38 U.S.C. 3012; Public Law 92–198, 85 Stat. 663)

(3) *Overpayments.* Overpayments created by retroactive discontinuance of benefits will be subject to recovery if not waived. Where dependency and indemnity compensation was being paid to two parents living together, an overpayment will be established on the award to each parent.

• • • • • •

19. In § 3.702, paragraph (a) is amended to read as follows:

§ 3.702 Dependency and indemnity compensation.

(a) *Right to elect.* A person who is eligible for death compensation and who has entitlement to dependency and indemnity compensation pursuant to the provisions of § 3.5(b)(2) or (3) may receive dependency and indemnity compensation upon the filing of a claim. The claim of such a person for service-connected death benefits shall be considered a claim for dependency and indemnity compensation subject to confirmation by the claimant. Payments may be authorized as of the date of entitlement provided the claim is filed within a reasonable period (not to exceed 120 days) before that date. The effective date of payment is controlled by the provisions of § 3.400(c)(3).

• • • • • •

(72 Stat. 1114; 38 U.S.C. 210)

These VA regulations are effective January 1, 1972.

Approved: March 24, 1972.

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

Subpart D—Administration of Educational Benefits; 38 U.S.C. Chapters 34, 35, and 36

APPROVAL CRITERIA FOR "AERO CLUBS"

These regulatory changes supply less restrictive approval criteria for the so-called "AERO Clubs" which are flying clubs considered to be governmental instrumentalities.

1. In § 21.4150, paragraph (f) is added to read as follows:

§ 21.4150 Designation.

• • • • • •

(f) Approval of a course of education offered by any agency or instrumentality of the Federal Government shall be under the authority of the Administrator. (38 U.S.C. 1772(b).)

2. In § 21.4151, paragraph (b) is amended to read as follows:

§ 21.4151 Cooperation.

• • • • • •

(b) State approving agencies are responsible for inspecting and supervising schools within the borders of their respective States and for determining those courses which may be approved for the enrollment of veterans and eligible persons. They are also responsible for ascertaining whether a school at all times complies with its established standards relating to the course or courses which have been approved. Under agreement with the Veterans Administration they will also be responsible for rendering services and obtaining information necessary for the Administrator's approval or disapproval under chapters 34 and 35 of courses of education offered by any agency or instrumentality of the Federal Government within the borders of their respective States. (38 U.S.C. 1772, 1773)

• • • • • •

3. In § 21.4202(c), subparagraph (3) is added to read as follows:

§ 21.4202 Overcharges; restrictions on enrollments.

• • • • • •

(c) *Restrictions—proprietary schools.*

• • •

(3) Flying clubs established, organized, and operated pursuant to regulations of a military department of the Armed Forces as "nonappropriated sundry fund

V 37-64 APR 1 72 XUM

activities" are Government instrumentalities and are not proprietary schools within the scope of this paragraph.

4. In § 21.4251(a), subparagraph (1) is amended to read as follows:

§ 21.4251 Period of operation of course.

(a) *General.* A course offered by a school other than a job training establishment will be appropriate for the enrollment of a veteran or eligible person only if it has been in operation for 2 years or more immediately prior to the date of enrollment of such person, except that this provision does not apply to:

(1) Any course to be pursued in a public or other tax-supported educational institution including the flying clubs which are the subject of § 21.4202(c)(3) and any course of the nature contemplated under provisions of § 21.4235(a)(1) which is to be pursued at an institution operated by the Department of Defense;

* * * * *

(72 Stat. 1114; 38 U.S.C. 210)

These VA regulations are effective the date of approval.

Approved: March 28, 1972.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 9—Atomic Energy Commission

PART 9-7—CONTRACT CLAUSES

Subpart 9-7.50—Use of Standard Clauses

PART 9-16—PROCUREMENT FORMS

Subpart 9-16.50—Contract Outlines

MISCELLANEOUS AMENDMENTS

These changes are necessary to implement Federal Procurement Regulation Subpart 1-12.11, Listing of Employment Openings.

1. In Subpart 9-7.50, Use of Standard Clauses, § 9-7.5005, *Standard FPR clauses not included in § 9-7.5004*, a new, § 9-7.5005-23, *Listing of employment openings*, is added as follows:

§ 9-7.5005 Standard FPR clauses not included in § 9-7.5004.

§ 9-7.5005-23 Listing of employment openings.

See FPR 1-12.1102-2.

2. In Subpart 9-16.50, Contract Outlines, § 9-16.5002-2, *Outline of a cost-plus-a-fixed-fee supply contract (performed by commercial concerns in contractor's facilities)*, a new paragraph is added as follows:

§ 9-16.5002-2 Outline of a cost-plus-a-fixed-fee supply contract (performed by commercial concerns in contractor's facilities).

* * * * *

(43) Listing of employment openings—FPR 1-12.1102-2.

3. In Subpart 9-16.50, Contract Outlines, § 9-16.5002-4, *Outline of a cost-plus-a-fixed-fee construction contract*, a new Article XXXVII, *Listing of employment openings*, is added as follows:

§ 9-16.5002-4 Outline of a cost-plus-a-fixed-fee construction contract.

* * * * *

Article XXXVII—Listing of Employment openings. Insert contract clause set forth in FPR 1-12.1102-2:

In witness whereof, the parties hereto have executed this contract as of the day and year above written:

UNITED STATES OF AMERICA
By _____
_____
(Title)

UNITED STATES ATOMIC ENERGY COMMISSION
_____
(Contractor)
By _____
_____
(Title)

I, _____, certify that I
(Attester)
am the _____ of the
(Title)
Contractor named in this contract; that _____ who signed this
(Signatory)
contract on behalf of said Contractor was then _____ of said Contractor; that this contract was duly signed for and on behalf of said Contractor by authority of its governing body and is within the scope of its legal powers.

In witness whereof, I have hereunto affixed my hand and the seal of said Contractor.

[SEAL] _____

4. In Subpart 9-16.50, Contract Outlines, § 9-16.5002-5, *Outline of a cost-plus-a-fixed-fee architect-engineer contract*, a new Article XL, *Listing of Employment Openings*, is added as follows:

§ 9-16.5002-5 Outline of a cost-plus-a-fixed-fee architect-engineer contract.

* * * * *

Article XL—Listing of employment openings. Insert contract clause set forth in FPR 1-12.1102-2:

In witness whereof, the parties hereto have executed this Contract as of the day and year above written:

UNITED STATES OF AMERICA
By _____
_____
(Title)

UNITED STATES ATOMIC ENERGY COMMISSION
_____
(Contractor)
By _____
_____
(Title)

I, _____, certify that I
(Attestor)
am the _____ of the
(Title)
Contractor named under this contract; that _____ who signed this
(Signatory)
contract on behalf of said Contractor was then _____ of said Contractor; that this contract was duly signed for and on behalf of said Contractor by authority of its governing body and is within the scope of its legal powers.

In witness whereof, I have hereunto affixed my hand and the seal of said Contractor.

[SEAL] _____

5. In Subpart 9-16.50, Contract Outlines, § 9-16.5002-8, *Outline of special research support agreement with educational institutions*, Articles B-XXVIII through XXX are revised as follows:

§ 9-16.5002-8 Outline of special research support agreement with educational institutions.

* * * * *

ARTICLE B-XXVIII—LISTING OF EMPLOYMENT OPENINGS

Insert the clause set forth in FPR 1-12.1102-2.

ARTICLE B-XXIX—DETERMINATION OF SUPPORT COSTS

(a) The term "Support Cost" as used in this contract means the Commission's share[1] of the sum of costs incurred by the Contractor for items included under Article A-II(a) of Appendix A which are in furtherance of the work hereunder, which are incurred in accordance with the provisions of this contract, and which are reported to the AEC in accordance with (b) below. The term "Cumulative Support Cost" as used in this contract means the total of the Support Cost incurred during the initial contract period plus any extension periods of the contract.

(b) Within 3 months after the end of each contract period set forth in Appendix A, and within 3 months after the termination or expiration of the total period of performance, the Contractor shall furnish a certified statement, executed by an official of the Contractor and also signed by the principal investigator, showing the Contractor's cost, and evidencing its performance under the contract, during the contract term just completed. The statement shall show all costs incurred during the pertinent contract term set forth in Appendix A for items under Article A-II(a) of Appendix A, including the Contractor's share, if any, of such costs, and show the extent of the Contractor's contribution of items listed under Article A-II(b)(1) of Appendix A. Costs included in the certified statement may include the following: Expenditures of cash; the cost of material and supplies transferred from stores inventory; and the amount due the Contractor for indirect costs in accordance with the rate and factor or factors shown in Appendix A of the contract for the pertinent contract period. The costs for the pertinent contract period shall be consistent with the principles of the Bureau of the Budget Circular A-21, as constituted on the effective commencement date of said period. The certified statement shall be in the form set forth in Appendix C.

(c) The Contractor understands that the Commission expects to rely on this certified statement for determining the Support Cost for the pertinent contract period. With respect to any period in which proportionate costsharing is applicable, the Support Cost for the pertinent period will be determined by applying the percentage figure included in Article A-III for the pertinent period, to the certified cost of items included under Article A-II(a) incurred during the pertinent contract period. All charges to the AEC shall be subject to the approval requirements of this contract. The Contractor is expected to maintain auditable records as contemplated by Article B-II(c) to substantiate the costs incurred for items under Article A-II(a) and to show the extent of the Contractor's contribution of items listed under Article A-II(b)(1).

[1] In those cases in which there is no proportionate sharing of costs, the Commission's "share" will be 100 percent. With respect to any period in which proportionate cost-sharing is applicable pursuant to Article A-III, it is understood that the Support Cost for that specified period will equal the stipulated percent of the sum of costs incurred by the Contractor during the stated period for items under A-II(a) of Appendix A, not to exceed 110 percent of the estimated Support Cost set forth in Article A-III for that contract period except as otherwise approved by the AEC.

ARTICLE B-XXX—ADDITIONAL APPROVALS

(a) In addition to such approvals as are specifically required by other provisions of this contract, the Contractor shall obtain the Commission's approval for:

(1) Acquisition of:

(i) An item of equipment, not itemized in Appendix A, involving an acquisition cost in excess of $1,000 or 2 percent of the total estimated cost specified in A-III of Appendix A, whichever is greater, unless such equipment is merely a different model of an item listed in Appendix A. (When plant and equipment funds are provided for the acquisition of Government property, the Headquarters Program Divisions may require, in specific cases, that such funds be used only for acquiring the equipment designated in Article V, unless prior AEC approval has been obtained.)

(ii) Any equipment not itemized in Appendix A, the acquisition cost of which will cause the equipment dollar level shown in Article A-II(a) of Appendix A to be increased by $500 or more. (If plant and equipment funds are provided for the acquisition of equipment, with title to be vested in the Government, the total cost of such equipment acquisitions shall not exceed the amount budgeted for such equipment unless prior AEC approval has been obtained.)

(2) Purchase of any general-purpose equipment, such as office furniture or air conditioning, not specifically provided for in Appendix A, except that purchased without cost to the Commission.

(3) Incurring costs during the pertinent contract period set forth in Appendix A, for items set forth in Article A-II(a), in excess of 110 percent of the estimated cost specified in Article A-III for the pertinent contract period; charges to the Commission for any such costs incurred with the approval of the Commission shall also be subject to the limitations of Article III.

(4) A change of the principal investigator, or continuation of the research work without direction by an approved principal investigator. The principal investigator may increase or decrease the amount of effort which he devotes to the project without obtaining Commission approval; however, the principal investigator shall consult with the appropriate AEC Headquarters program representatives if he plans to, or becomes aware that he will, devote substantially less effort to the work than anticipated in Article A-I. The purpose of such consultation will be to determine what effect, if any, the anticipated change will have on the research work.

(b) No change in the phenomenon or phenomena under study, i.e., broad category of the research under this contract, shall be made without the specific written approval of the Commission; ordinarily, such changes, if approved by the Commission, will be accomplished through a new contract or a mutually agreed-to modification. The Contractor may change the specific objectvies in the research work described in this contract, provided it gives the Commission prompt notification of such changes; and the Contractor may continue to follow the new objectives while the Commission determines whether it wishes to continue the program under the changed approach.

APPENDIX C

U.S. ATOMIC ENERGY COMMISSION

Statement of Costs

1. Name and address of Contractor: _____

2. Contract number: _____

3. Beginning and ending date of pertinent contract period: _____

4. Costs incurred during the pertinent contract period. [List only those costs which are to be reimbursed by the AEC or proportionately shared by the parties in accordance with Article A-II(a) and Article A-III.]

Cost categories[1]	*Amount*
a. *Salaries and wages.* [List personnel included in Article A-II(a) of Appendix A in same detail as shown in the Contractor's payroll distribution or time and attendance records.]	$_____
b. *Supplies and materials.* (Show in same detail as in Appendix A.)	_____
c. *Equipment.* [List separately the cost of each piece of equipment separately listed in Appendix A to the contract or for which separate approval was obtained from AEC.]	_____
d. *Publications*	_____
e. *Travel*	_____
f. *Other.* [List separately each type of cost included in this category.]	_____
g. *Total direct expenditures*	_____
h. *Indirect charges.* (Indirect percent and expenditures to which percent is applied.)	_____
5. *Total costs* for items under Article A-II(a) for pertinent contract period	_____
6. *Support cost* for the pertinent contract period set forth in Appendix A, as defined in Article B-XXVII of the contract, chargeable to AEC for the pertinent contract period (percent of total costs using percent shown in Article A-III of Appendix A for pertinent period of contract)	_____
7. *Cumulative support cost* (support cost under this statement plus support cost for previous period of the contract)	_____
8. *Accumulated support ceiling* in Article III of the contract	_____
9. Provide information regarding contribution by the contractor of items listed in Article A-II(b) of Appendix A during pertinent contract period. State the extent of the Contractor's actual contribution; the measure of such contributions should be in the same terms as the Contractor's commitment under Article A-II(b), e.g., time, dollar, etc	_____

[1] The listing of categories should be consistent with the itemization in Appendix A.

I hereby certify that this report is true and correct to the best of my knowledge and belief and that the costs listed herein were incurred in connection with the performance of the research provided for under this contract and in accordance with the terms and conditions set forth therein.

_____
(Name and title of principal investigator)

_____ _____
(Signature) (Date)

_____
(Name and title of business officer)

_____ _____
(Signature) (Date)

In Subpart 9-16.50, Contract Outlines, § 9-16.5002-9, *Outline of cost-type contract for research and development with educational institutions*, a new article, B-45—Listing of Employment Openings, is added as follows:

§ 9-16.5002-9 Outline of cost-type contract for research and development with educational institutions.

* * * * *

ARTICLE B-45—LISTING OF EMPLOYMENT OPENINGS

Insert the clause set forth in FPR 1-12.1102-2.

(Sec. 161, Atomic Energy Act of 1954, as amended, 68 Stat. 948, 42 U.S.C. 2201; sec. 205, Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486)

Effective date. These amendments are effective upon publication in the FEDERAL REGISTER (4-1-72).

Dated at Germantown, Md., this 27th day of March 1972.

For the U.S. Atomic Energy Commission.

JOSEPH L. SMITH,
Director,
Division of Contracts.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 19261; FCC 72-274]

EXPANDED NONVOICE COMMUNICATION TECHNIQUES

Report and order. In the matter of amendment of Parts 89, 91, and 93 of our rules to provide for expanded nonvoice communication techniques including radioteleprinter, radio-facsimile and ambulance telemetering, Docket No. 19261.

1. On June 21, 1971, the Commission issued a notice of proposed rule making in the above entitled matter which was published in the FEDERAL REGISTER on June 25, 1971 (36 F.R. 12114). Comments and reply comments in response to the notice were submitted by some 60 parties.[1] Each of the comments has been carefully considered and the major points raised will be discussed herein.

[1] Appendix A contains a listing of all the parties who submitted comments; filed as part of the original document.

V 37-64 APR 1 72 XUM

2. Major rule amendments related to expansion of opportunities to utilize rapidly developing techniques in nonvoice radio communications in the land mobile radio services were proposed in this proceeding as follows:

(a) Radioteleprinter and facsimile transmissions would be permitted, under the interim rules adopted in Docket 18108, (First Report and Order Adopted August 13, 1969, FCC 69–893), in all private land mobile radio services governed by Parts 89, 91, and 93 where frequency coordination is required. This includes the Public Safety Services, except the Special Emergency Radio Service, all of the Land Transportation Services, and the Industrial Radio Services, except for the Business Radio Service with respect to operations below 450 MHz, and except for the Industrial Radiolocation Service.

(b) Two of the frequency pairs, previously reserved for possible radioteleprinter use[1] in the 460–470 MHz band, would be allocated to the Police Radio Service in the largest 20 cities, for development and operation of digital systems for information retrieval and other similar purposes.

(c) Allocation of five single mobile-only frequencies, again out of the 10 pairs previously reserved for possible radioteleprinter use, would be made available to the Special Emergency Radio Service for telemetry transmission of biomedical information, such as electrocardiogram readings from an ambulance to a hospital; consideration to be given also to possible allocation of the paired base frequencies for hospital to ambulance communications in connection with telemetry operations.

(d) Two pairs of 460 MHz frequencies, which are already allocated in the Fire Radio Service, would be redesignated primarily for ambulance telemetering and secondarily for other ambulance operations.

3. The comments supported the basic purposes of these proposals and for the reasons given below they are adopted, but with a number of modifications, particularly with respect to the proposals relating to ambulance telemetry operations, as discussed in the following paragraphs.

RADIOTELEPRINTER AND RADIOFACSIMILE

4. Radioteleprinter is presently permitted in the Fire, Police, and Railroad Radio Services and operational experience with this technique has convinced the Commission it would be feasible for all coordinated services and should be encouraged. In addition, we proposed to permit in all frequency coordinated services the transmission of facsimile because new developments and increased interest in this technique indicates it could also prove to be a valuable communications tool. The interim rule provisions proposed would permit licensing base stations, but not mobile units, to transmit in radioteleprinter and radiofacsimile modes in accordance with the following general standards:

(a) Base stations must be geographically frequency coordinated with existing cochannel voice systems within 75 miles for single-frequency systems and within 35 miles for two-frequency systems. (New voice systems would not be afforded protection from these operations);

(b) Applications must show manufacturer's identification for equipment or give a detailed system and data description;

(c) Transmitters type-accepted for use of F–3 emission may, under certain conditions, be utilized also for these nonvoice operations;

(d) Frequencies will not be assigned exclusively for these emissions;

(e) Station identification for these operations must be by voice.

5. While the comments supported these basic proposals, exceptions to the specific rules outlined above were requested. The American Petroleum Institute (API) urged that new voice operations should be given priority over established teleprinter or facsimile operations since "voice emissions will continue to be used to provide for the bulk of mobile communications in the Petroleum Radio Service for the foreseeable future." However, this would deny the nonvoice licensee a reasonable measure of protection for his investment and operations to which the Commission believes he is entitled. New voice systems, therefore, will have to tolerate interference on frequencies occupied by radioteleprinter or radiofacsimile, but we expect that the coordination process will prevent conflicts in this respect.

6. Salem, Va., objects to the geographic frequency coordination requirement, which it contends is too stringent and could preclude transmission of a facsimile "all points bulletin" on a common police frequency if one licensee did not provide clearance. We recognize that this could cause problems in certain areas of the country and we are hopeful that experience gained under our interim rules will provide needed data of the extent to which nonvoice techniques involving radioteleprinter and radiofacsimile are compatible with land mobile voice systems for possible future relaxation of this type of requirement. For the present, however, the mileage separation standards are considered necessary to effective sharing by nonvoice and voice systems of the limited number of available frequencies and this factor requires primary consideration in the rules.

7. Salem also requested, together with Raytheon, that teleprinter and facsimile operations be permitted from mobile units as well as from base stations. Salem argues that it foresees the development of a "mobile crime lab of photographs, sketches, diagrams, or other such information as would then be rebroadcast from the base station for the immediate use of field officers." Raytheon contends that "vehicle-to-base links * * * will permit greater spectrum utilization by creating the potential for utilizing more advanced communications techniques which have been and are in the process of development and test by industry." While both of these arguments have merit, the Commission believes that greater expansion than that proposed for teleprinter and facsimile operations is premature and should be delayed until there has been an opportunity for proper evaluation of systems in operation. This is the primary reason that the rule changes proposed for these systems are to be on an interim basis. Moreover, this does not prevent issuance of developmental authorizations for testing of additional methods for using nonvoice techniques and requests for a limited number of such authorizations will be considered on a case-by-case basis when it is demonstrated that an organized program has been planned looking towards the development of technical and operational factors along with a time table indicating the period of operation required to permit the required data to be acquired.

460 MHz FREQUENCIES FOR POLICE

8. The second major rule change proposed would allocate the frequency pairs 462.950/462.975 MHz (base-mobile) and 467.950/467.975 MHz (mobile only) to the Police Radio Service. These frequencies are taken from the radioteleprinter reservation and would be assignable in the 20 largest cities to be used for a wider application of nonvoice purposes, other than telemetry, telecommand, and automatic vehicle location.[2] They may also be utilized for radiotelephony, but only on a secondary basis to nonvoice operations.

9. As noted, the comments generally supported this proposed allocation and urged its adoption. The Electronics Industries Association (EIA) comment reflects the consensus in observing that the allocation "will permit police systems to be developed and optimized without the constraints of an integrated voice/nonvoice system and should encourage rapid development of such systems." A few parties, while agreeing with the need for additional frequencies for the nonvoice police operations, felt that the required channels should be dedicated from land mobile frequency pools which have been established to share the lower seven UHF–TV channels (Docket 18261). They argue that this will allow the reserved radioteleprinter frequencies to be assigned in other radio services for other purposes—for example, in the Special Emergency Radio Service for medical emergencies. However, requests to permit special uses on the "shared" UHF–TV frequencies were considered in Docket 18261 as discussed in the second report and order (36 F.R. 12477 July 1, 1971), and will not be further considered herein.

10. The Commission's proposal to limit use of these allocations to the 20 largest cities was contested. A number of parties maintained that many small communities are developing nonvoice systems which should be accommodated on these frequencies. The Commission disagrees and believes that critical need for these frequencies exists in the major cities which encounter frequency congestion difficulties that preclude "same-channel" development of nonvoice systems, rather than in small communities where the message handling rate is much reduced and appears to afford the ability to establish effective integrated voice/nonvoice systems. Additionally, extending availability of these two frequency pairs to unlimited users and areas would present practical and perhaps insurmountable coordination problems to prevent cochannel interference. These problems are not involved in the 20 cities proposed since there is sufficient geographic separation between them to permit ready coordination and to minimize such interference. For these reasons, we are retaining the proposed provision that the use of these frequencies be confined to the larger cities. At the same time, there is justification and latitude for enlarging upon the group of 20 cities. Study of locations of the next 10 largest cities indicates that they can also utilize the 460 MHz frequencies without likelihood of cochannel interference. We are, therefore, modifying the proposed rule to include the Nation's largest 30 cities.[4]

11. A problem noted by International Business Machines Corp. (IBM) concerns station identification. IBM contends that "interrupting base station data transmissions in high speed high volume nonvoice systems to meet the station identification requirements of § 89.-153 will be inefficient and burdensome." The Commission agrees and since only the readily identifiable 30 largest cities can operate on these frequencies, an exception to present station identification requirements is being provided for these licensees. They are advised, however, that this exception may be withdrawn as part of rule changes the Commission anticipates proposing for automatic station identification requirements in the land mobile services.

12. IBM also recommends, in the interest of minimizing the necessity for extensive investment in new equipment, that we allow transmitters type-accepted for voice emission to be used also for nonvoice operations to cover systems authorized on the new 460 MHz police frequencies. A provision of this nature is already included in the interim rules for radioteleprinter and radiofacsimile operations and we find that a similar provision should be adopted for the new frequencies.

BIOMEDICAL TELEMETRY SYSTEMS

13. The remaining group of rule amendments proposed in this proceeding provides for regular licensing of ambulance biomedical telemetry systems. The Commission has been aware of the importance of this radio technique to the efforts of the medical community to improve prehospitalization treatment for cardiac patients, accident victims, and others for whom emergency care is necessary. However, the rules contemplate voice operation primarily, and telemetering is generally not permitted on land mobile frequencies. In addition, these operations require the continuous carrier mode of transmission, as well as protection from interference from other systems. As a result, present medical telemetry systems are authorized on a developmental basis to produce data in actual operational environments concerning the need for, and feasibility of, such installations. Developmental telemetry systems have been authorized in both the 150 and 450 MHz bands where they have demonstrated their practicality and their significant potential for advancement to the life saving function of medical facilities. An important example has been the telemetering of electrocardiograms of heart attack victims to enable hospital-based physicians to provide instructions for administering effective preliminary emergency care. Similarly, telemetry is being employed for treatment of accident victims and the U.S. Department of Health, Education, and Welfare (HEW) concludes in its comments:

> It is reasonable to expect that biomedical telemetry used by an effective emergency medical service can help reduce this tragic loss because existing technology can provide the means for professional medical supervision of patient management by paramedical personnel on site and in transit to an emergency medical care facility.

14. In view of these advantages, the proposals would authorize biomedical telemetering systems on a regular basis in the Special Emergency and Fire Radio Services. The major feature of our original proposals is provision for 460 MHz mobile frequencies primarily for telemetry transmissions and secondarily for radiotelephony associated with the telemetry operation.[5] Five of the frequencies were to be allocated in Special Emergency Radio Service and are taken from the reserved radioteleprinter pool previously discussed. Base frequencies "paired" with these five frequencies were not proposed to be allocated but the Commission asked for comments as to whether they are needed to permit direct hospital to ambulance instructions. Two other mobile frequencies were intended primarily for Fire Radio Service Telemetry operations. Base station frequencies paired to these two frequencies were additionally proposed to be made available in the Fire Radio Service in the expectation that they would be utilized primarily for central dispatching of ambulances, both municipal and private, in connection with area-wide communications plans. Development of these plans, while not a requirement, was encouraged by the Commission in its notice for coordinated use of the seven 460 MHz mobile frequencies.

15. While, as noted, the comments essentially supported these basic proposals for telemetry operations, some parties wanted to go further to provide a new "Medical Radio Service" that would cover radio communication requirements of all medical personnel and facilities. HEW summarizes this position:

> * * * the Department of Health, Education, and Welfare feels that development of an effective nationwide emergency medical service is urgent if the nation is to meet its responsibilities to the sick and injured. The radio communications requirements for this emergency service should be met under a single set of rules and regulations affording the same priority and protection now available to the Police and Fire Radio Services. This can probably best be accomplished by establishing an Emergency Medical Service under Part 89 of the FCC rules and regulations.

However, the merits of a separate service concept and this recommendation are matters beyond the scope of this proceeding and will not be considered herein.

16. Most of the comments agreed that telemetry systems could effectively operate in the 460 MHz band. A few parties sought separate frequencies in the 150 MHz band for these operations instead of, or at least in addition to, the 460 MHz allocations. The argument was that this would permit utilization of their present equipment and tie-in with their regular base station operations for necessary communications related to telemetering activities. The Commission recognizes that these advantages exist for licensees, as do certain economic advantages and technical advantages including more favorable propagation characteristics in the 150 MHz band. The difficulty is that there is not a sufficient number of 150 MHz frequencies available for exclusive telemetry operations. Nor did the comments in this regard produce a reasonable solution. Most suggested that we permit licensees the option to use the hospital frequency 155.34 MHz for telemetry systems. But sharing of a single frequency in a given community would not, in our view, serve to meet anticipated emergency telemetering requirements. Further, the Commission believes that permitting telemetry in different bands would preclude development of coordinated operations which we considered desirable for the most effective

[1] The reservation consists of 10 two-frequency channels reserved for possible radioteleprinter use in Docket 13847 (Second Report and Order, 11 FCC 2nd 648; 1963); see also notice of inquiry, Docket 18108 (33 F.R. 5323; 1968).

[2] One important use, described in our notice, is two-way digital communications for rapid access by police mobile units to central computer records; the data response could include visual display in the vehicle by radioteleprinter, radiofacsimile, or cathode ray tube.

[4] Appendix B lists these cities as taken from the 1970 Federal Census; filed as part of the original document.

[5] In the Business Radio Service, the frequency band 216–220 MHz can be used for mobile telemetering but these frequencies are only available on a shared basis with U.S. Government operations and specific frequencies may not be available over a wide area. Consideration was also given to use of 150 MHz frequencies, but these channels must be shared for a number of other important voice and nonvoice uses and are not available to accommodate the telemetry function, as more fully discussed in paragraph 17, infra.

V 37-64 APR 1 72 XUM

frequency utilization. In the final analysis, the Commission concludes, as did the majority of the comments, that 460 MHz allocations afford the best possible compromise. Frequencies in this band are already being utilized for successful developmental telemetry operations with minimal problems and we see no reason why similar results would not be experienced by regular systems with the added benefit that extended operations should contribute to development of improved equipment and operating methods for this technique. Accordingly, we are finalizing the proposals to provide for biomedical telemetry operations in the 450–470 MHz band.[6]

17. There was also concern in a few comments with the number of 460 MHz channels being provided. Los Angeles County called the proposed allocation for seven mobile frequencies "completely inadequate," claiming "it requires a minimum of 10 duplex channels which includes one for adjacent Orange County." This is in accord with the County's plan for each of its hospitals to have a separate frequency for its ambulance telemetry system. The county adds that it anticipated growth "in the future which would require frequencies in addition to the ten which we have requested."

18. The Commission is not unaware of the unusual problems faced by Los Angeles County, the original petitioner in this proceeding (RM–1712), and other densely populated communitiees in providing communication systems for their areas. In the notice, we commented concerning Los Angeles' showing for additional channels, as follows:

> While the number of frequencies, two pairs and five singles, is less than petitioner seeks, we believe that the number proposed will provide an adequate accommodation for biomedical telemetry based on a coordinated area approach.

The Commission feels that this remains the valid approach for the county. Even if it were not impractical within the present frequency complement to afford capability as requested by Los Angeles, greater operating advantage appears to lie in a "block" assignment method which can be utilized under a communication plan developed for the entire area served by the County. Rather than one frequency for each of its hospitals, this would provide multiple-channel capability which should be far more dependable for meeting emergency telemetry requirements. For these reasons, the Commission is adhering to the proposed number of frequencies being provided for ambulance telemetry transmissions.

19. Los Angeles' request for duplex capability for medical telemetry systems is an entirely different matter. The Commission discussed this problem in its notice and stated:

> If requested, we will designate base station frequencies from the pool which was formally reserved for radioteleprinters only. If this occurs, we would anticipate that dispatching would not be permitted thereon in order to insure channel availability for instructions to ambulances in response to telemetered patient data.

Los Angeles now confirms this need:

> During the 2 years that the Los Angeles County pilot program has been operational numerous instances have been documented to substantiate the importance of duplex operation whereby cardiac data is supplemented by voice consultation between the paramedic team and the cardiological team at the hospital.

Dr. Gary J. Anderson of Indiana University supports this view, which is also shared in a number of comments, and notes "the designation of frequencies for this purpose is necessary and places the expertise of the physician into the ambulance." Also, the Connecticut Advisory Committee on Emergency Medical Services reviews the difficulties associated with the alternatives to use of paired 460 MHz base frequencies:

> We strongly recommend that base station frequencies be assigned in such a fashion as to permit duplex operation between ambulances and hospitals. The medical necessity is obvious since telemetry without appropriate voice response and action is relatively useless. As presently proposed, the voice transmission would require using frequencies in another band which contains these inherent problems: (1) Transmission in two bands with different propagation characteristics, (2) the two bands are subject to different types of user traffic conditions, and (3) unnecessary duplication of costs.

20. The Commission agrees that paired base station frequencies are warranted to complement Special Emergency mobile telemetry communications. Accordingly, we are allocating five paired 460 MHz base/mobile frequencies to be available for base station operations in the Special Emergency Radio Service, in this application, for instructions concerning the telemetry function from hospitals or other medical-care facilities to field personnel, and not for central dispatching purposes or other hospital activities.

21. Nevertheless, we recognize the need for frequencies in the same frequency range for dispatching purposes to obviate the need for an ambulance to be equipped with two radio systems, one for dispatching and one for telemetry and telemetry-related communications. Accordingly, we are revising our original proposal so as to accommodate this objective. We will make available for dispatching purposes the two pairs of frequencies now allocated in the Fire Radio Service, namely 460.525/465.525 and 460.550/465.550 MHz, which we had proposed for telemetry functions in that service, to permit central dispatching of telemetry equipped ambulances by municipal as well as by nongovernmental entities. The base station frequencies in these pairs, i.e. 460,525 and 460.550 MHz, will be made available in addition to the Fire Radio Service in the Local Government and in the Special Emergency Radio Services. However, since ambulance operations (whether municipal or private) may be accommodated in the Special Emergency Radio Service, all of the seven mobile frequencies, including 465.525 and 465.550 MHz, would be allocated to the Special Emergency Radio Service only. The latter two frequencies will be authorized primarily for mobile unit response to dispatch operations and secondarily, on a showing of need, for mobile telemetry. This approach, we believe, would facilitate the licensing process and the establishment of coordinated area-wide dispatch and telemetry communications plans. In effect, therefore, the two frequency pairs mentioned above will complement the telemetry operations in the Special Emergency Radio Service in the 460 MHz band, and by providing an incentive for participation in a plan calling for cooperative area-wide use of telemetry channels, they will contribute to making the limited number of frequencies available that much more effective.

22. Another group of frequencies which we indicated in our notice might also be allocated, is four 3-watt Business Radio frequencies in the 450 MHz band. Comments were solicited concerning the need for these frequencies for low-power portable telemetering to the hospital from a patient, prior to his being placed in an ambulance, by means of automatic retransmission in the ambulance (mobile/mobile-relay). These frequencies may be required when communicating directly from patients to hospitals cannot be regularly accomplished on portable equipment in the 460 MHz band. The comments concurred that provision should be made for these operations, but most raised objections to reallocation and use of the four 450 MHz Business Radio frequencies. National Association of Business and Educational Radio (NABER), for example, listed a significant amount of licensed Business Radio Service operation on these frequencies which would have to be relocated to accommodate telemetry and contended that there is "no place for dislocated licensees to go." NABER, EIA, and others noted technical problems and objected to "a frequency separation from the mobile transmit frequency of some 11 MHz," when 5 MHz separation is the established standard for land mobile operations. Some supporting comments also raised problems. Hewlett-Packard Co. argued that "such allocation would limit these frequencies to undesirably low total user time in a region of the spectrum which is destined to become much more actively used in the near future"; Connecticut and Dr. Fred B. Vogt, of the University of Texas, maintained that it is "more logical" to allocate these frequencies as "input frequencies for repeaters" rather than just for ambulance relay.

23. This is not to say there was no unqualified support for these allocations as this too was reflected in some comments. Nevertheless, the Commission believes that the difficulties noted are significant and are going to require further study, following greater development of telemetry systems, before informed analysis can be made for this allocation matter. We have determined, therefore, that another method for accommodating mobile/mobile-relay portable telemetry requirements should be adopted, at least temporarily. A suggestion from the American College of Cardiology and EIA to permit these operations on the five base station frequencies which we are allocating to the Special Emergency Radio Service appears to provide a partial answer, although, here too, there are apparent problems. For example, there is the interference potential of cochannel base station transmissions upon a portable telemetry signal and, also, there is the policy against encouraging mobile operations on base frequencies. Further, use of base frequencies for low-power mobile operation makes more difficult the passing of instructions from a hospital to the ambulance crew since duplex operation will not be possible during this phase of the system operation. However, on balance, the Commission feels, that in the interest of maximum spectrum utilization, these portable operations on base-designated frequencies are a reasonable compromise and will afford a solution for meeting this supplemental telemetry communication requirement in some systems. Provisions to this effect, therefore, are being provided.

24. To summarize the rule changes being adopted for ambulance to hospital biomedical telemetry systems, the Commission is providing seven base-mobile frequency pairs in the 460 MHz band for these operations as follows:

Base and mobile:	*Service and purpose*
460.525 460.550	Fire, local government, Special Emergency for dispatching.
463.000 463.025 463.050 463.075 463.100	Special Emergency for telemetry-related voice, and portable telemetry.
Mobile only:	
465.525 465.550	Special Emergency for dispatch-response and telemetry.
468.000 468.025 468.050 468.075 468.100	Special Emergency for telemetry and telemetry-related voice.

Thus, all of these frequencies are available in the Special Emergency Radio Service. The mobile frequencies are primarily assignable for telemetry transmissions, but supplemental voice operations related to the telemetry activity may also be conducted on mobile frequencies. The five base-designated frequencies 463.000 through 463.100 MHz are assignable for hospital to vehicle voice communications regarding the telemetry activity. They may also be used to accommodate the need for portable telemetering from patients before they can be placed into ambulances to telemeter from the patients through ambulance radios to a hospital (portable to mobile/mobile-relay). The two base-designated frequencies 460.525 and 460.550 MHz are assignable only for central dispatching of ambulance telemetry systems under an area-wide communication plan for coordinated use of telemetry frequencies. They may be assigned in the Special Emergency and Local Government Radio Services, in addition to the Fire Radio Service, for this purpose. (No other 460 MHz frequency is available for dispatching ambulance telemetry systems.) The two mobile-only frequencies, 465.525 and 465.550 MHz, are also available under an area-wide communication plan for central dispatching which will also permit their use for telemetry when they are needed for the latter purpose. These communications plans may incorporate a single licensee dispatching multiple telemetry systems, or a group of licensees operating independent or shared telemetry systems, or both. The object is to encourage and maximize the most effective use of the limited number of frequencies available for these purposes in a given area.

CONCLUSION

25. In consideration of the foregoing, the Commission finds that adoption of the proposed rule changes as modified herein, to extend radioteleprinter and radiofacsimile operations in the land mobile radio services to allocate two 460 MHz frequency pairs to the Police Radio Service for nonvoice operations, and to provide frequencies and standards for the operation of biomedical telemetry systems in Fire, Local Government, and Special Emergency Radio Services, serve the public interest, convenience, and necessity and should contribute to greater efficiency and effectiveness of nonvoice operations in the Land Mobile Services.

26. Accordingly, pursuant to authority contained in sections (4) (i) and 303(r) of the Communications Act of 1934, as amended: *It is ordered*, That, effective May 9, 1972, Parts 89, 91, and 93 of the Commission's rules are amended as shown in the attached Appendix C. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: March 23, 1972.

Released: March 29, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[7]

[SEAL] BEN F. WAPLE,
Secretary.

APPENDIX C

Part 89, 91, and 93 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

PART 89—PUBLIC SAFETY RADIO SERVICES

1. Section 89.122 and headnote are amended to read as follows:

§ 89.122 Interim provisions for operation of radioteleprinters and radiofacsimile devices.

These provisions authorize F2, F4, or F9 (audio frequency tone phase shift) emissions for radioteleprinter, radiofacsimile, or audio passband radiotelephony multiplexed with radioteleprinter or radiofacsimile, respectively, for base station use (other than on mobile only frequencies) in the Local Government, Police, Fire, Highway Maintenance, and Forestry-Conservation Radio Services, subject to the following conditions:

(a) Information is submitted with an application to establish that minimum separation between a proposed radioteleprinter or radiofacsimile base station and the nearest cochannel base station of another licensee operating a voice system is 75 miles for a single frequency mode of operation or 35 miles for a two frequency mode of operation, or, where this minimum mileage separation cannot be achieved, agreement to the use of F2, F4, or F9 emission has been received from all existing cochannel licensees using voice emission within the applicable mileage limits. If it develops that agreement was not received from an existing cochannel licensee and there is interference with voice operations, the licensee of the radioteleprinter or radiofacsimile system is responsible for eliminating the interference. New licensees of voice operations will be expected to share equally any frequency occupied by established radioteleprinter or radiofacsimile operations.

(b) The application lists the manufacturer and model number of the radioteleprinter or radiofacsimile system to be employed, or, in lieu thereof, contains a detailed technical description of the system and emitted data language.

(c) The requirements in this part applicable to use of F3 emission are also applicable to use of F2, F4, or F9 emission for radioteleprinters and radiofacsimile transmissions.

(d) The station identification required by § 89.153 must be given by voice.

(e) Frequencies will not be assigned exclusively for F2 or F4 emission for radioteleprinter or radiofacsimile.

(f) Transmitters type accepted under this part for use of F3 emission may also be used for F2, F4, or F9 emission for radioteleprinter or radiofacsimile, provided, for each of these emissions, the keying signal is passed through the low pass audio frequency filter required to be provided in the transmitter of F3 emission. The transmitter must be so adjusted and operated that the instantaneous frequency deviation does not exceed the maximum value allowed for F3 emission.

2. In § 89.259, paragraph (d) and the table in paragraph (f) are amended and a new subparagraph (g) (13) is added to read as follows:

§ 89.259 Frequencies available to the Local Government Radio Service.

* * * * *

(d) Normally, no more than two frequencies will be assigned unless a request therefor is adequately supported by a satisfactory showing of need, provided that request for operation on the frequency 39.06 MHz will be approved upon satisfactory showing of a need even

[6] We will continue to license presently authorized developmental medical telemetry systems in other frequency bands for a maximum of two additional 1-year license terms to permit an adequate opportunity to convert the operations to frequencies in the 460–470 MHz band.

[7] Commissioners Robert E. Lee and Johnson absent.

V 37 - 64 APR 1 72 XUM

though the licensee already has been assigned two other frequencies or provided that an applicant who obtains authorization to operate on the frequency 39.06 MHz shall still be allowed to request and obtain two other frequency assignments in this service. Further, assignment of additional frequencies in the 460 MHz band may be authorized to dispatch biomedical telemetry operations in accordance with paragraph (g) (13) of this section.

• • • • •

(f) • • •

Frequency or band	Class of station(s)	Limitations
MHz		
• • •	• • •	• • •
460.525	Base and mobile	13
460.550	do	13
• • •	• • •	• • •

(g) • • •

(13) This frequency may be assigned, without regard to the coordination requirements of § 89.15(b) to dispatch ambulances and personnel operating biomedical telemetry units authorized in the Special Emergency Radio Service under an area-wide radio communications plan. This frequency is also available for this purpose in the Fire and Special Emergency Radio Services.

• • • • •

3. In § 89.309, the table in paragraph (g) is amended, and a new subparagraph (h) (5) is added to read as follows:

§ 89.309 Frequencies available to the Police Radio Service.

• • • • •

(g) • • •

Frequency or band	Class of station(s)	Limitations
MHz		
• • •	• • •	• • •
462.050	Base and mobile	5
462.975	do	5
• • •	• • •	• • •
467.050	Mobile only	2,5
467.975	do	2,5
• • •	• • •	• • •

(5) This frequency is available for assignment, without regard to the coordination requirements of § 89.15(b), in the largest 30 cities in the United States (1970 Federal Census) for the development and operation of nonvoice systems. F2, F4, or F9 emission will be authorized for use of this frequency, except that telemetry, telecommand, or automatic vehicle location systems may not be operated. F3 emission may also be authorized when required to supplement nonvoice operation. Transmitters type-accepted under this part for use of F3 emission may also be used for nonvoice operation on this frequency, provided that the audio keying signal is passed through the low pass audio frequency filter required in the transmitter for F3 emission, and provided further that the transmitter is so adjusted and operated that the instantaneous frequency deviation does not exceed the maximum value allowed for F3 emission. Operation on this frequency is exempted from the station identification requirements of § 89.153.

• • • • •

4. In § 89.359, paragraphs (c) and (f) table are amended, and a new subparagraph (g) (10) is added to read as follows:

§ 89.359 Frequencies available to the Fire Radio Service.

(c) Normally no more than two frequencies will be assigned to a licensee for mobile service operations. Additional frequencies may be assigned provided the request therefor is adequately supported by a satisfactory showing of need. One such need specifically contemplated herein is for the assignment of an additional frequency or frequencies for common intracounty, intrafire district, or intrastate fire coordination operations; the frequency or frequencies requested must be in accord with an approved frequency utilization plan, for the area involved, on file with the Commission. Another need contemplated herein is for assignment of additional frequencies in the 460 MHz band to dispatch biomedical telemetry operations in accordance with paragraph (g) (10) of this section.

• • • • •

(f) • • •

Frequency or band	Class of station(s)	Limitations
MHz		
• • •	• • •	• • •
460.525	Base and mobile	10
460.550	do	10
• • •	• • •	• • •

(g) • • •

• • • • •

(10) This frequency may be assigned, without regard to the coordination requirements of § 89.15(b) to dispatch ambulances and personnel operating biomedical telemetry units authorized in the Special Emergency Radio Service under an area-wide radio communications plan. This frequency is also available for this purpose in the Local Government and Special Emergency Radio Services.

• • • • •

5. In § 89.525, paragraphs (c) and (e) table are amended, new subparagraphs (f) (1), (2), (4), (5), (8), and (11) are added, and paragraph (g) is deleted and designated [Reserved] to read as follows:

§ 89.525 Frequencies available to the Special Emergency Radio Service.

• • • • •

(c) The operation of mobile systems in the Special Emergency Radio Service will be restricted to the use of only one frequency; providing that (1) an additional frequency may be authorized when mobile relay stations are authorized pursuant to paragraph (h) of this section; and (2) one or more additional frequencies in the 460 MHz band may be assigned, as needed, for bio-medical telemetry operations in accordance with paragraph (f) (2), (4), (5), and (8) of this section.

• • • • •

(e) • • •

Frequency or band	Class of station(s)	Limitations
• • •	• • •	• • •
460.525	Base and mobile	1, 2
460.550	do	1, 2
463.000	do	1, 4
463.025	do	1, 4
463.050	do	1, 4
463.075	do	1, 4
463.100	do	1, 4
465.525	Mobile only	1, 8
465.550	do	1, 8
468.000	do	1, 5, 11
468.025	do	1, 5, 11
468.050	do	1, 5, 11
468.075	do	1, 5, 11
468.100	do	1, 5, 11

(f) • • •

(1) For two-frequency systems, separation between base and mobile transmit frequencies is 5 MHz.

(2) This frequency may be assigned to disptach ambulances and personnel operating biomedical telemetry units in this service under an area-wide radio communications plan. This frequency is also available for this purpose in the Fire and Local Government Radio Services.

• • • • •

(4) This frequency is available for assignment to hospitals under § 89.503 for communication with medical-care vehicles and personnel equipped with biomedical telemetry capability. Use of this frequency is further authorized for telemetry or voice tranmissions from a portable telemetering unit to an ambulance for automatic retransmission (mobile/relay) from a patient to a hospital or other medical-care facility. When using telemetry emission, the continuous carrier mode of operation is authorized for this frequency.

(5) This frequency is available for assignment to operate mobile biomedical telemetry units in ambulances and other medical-care vehicles, or when hand-carried by medical personnel. F2 and F9 emission may be authorized; F3 emission may also be authorized on a secondary basis when required for the telemetering activity. When using telemetry emission, the continuous carrier mode of operation is authorized for this frequency.

• • • • •

(8) This frequency may be assigned primarily for mobile dispatch response by ambulances and personnel operating biomedical telemetry units in this service under an area-wide radio communications plan involving central dispatching on the associated base-mobile frequency 460.525 or 460.550 MHz. When authorized for this dispatch response purpose, this frequency may be used on a secondary basis for the purposes and in the manner set forth in subparagraphs (1), (5), and (11) of this paragraph.

• • • • •

(11) Mobile stations authorized to operate on this frequency may be used to extend the range of transmission between portable telemetering units and hospitals or other medical-care facilities. Each mobile station used for this purpose shall be so designed and installed that it will be activated only by means of a continuous tone device, the absence of which will deactivate the mobile transmitter. The continuous tone device is not required when the mobile station is equipped with a switch that must be activated to change the mobile unit to the automatic mode.

• • • • •

(g) [Reserved]

• • • • •

PART 91—INDUSTRIAL RADIO SERVICES

1. New § 91.113 is added to read as follows:

§ 91.113 Interim provisions for operation of radioteleprinters and radiofacsimile devices.

These provisions authorize F2, F4, or F9 (audio frequency tone shift or tone passband radiotelephone multiplexed with radioteleprinted or radiofacsimile, respectively) for base station use (other than on mobile-only or on paging only frequencies) in the radio services in this part, other than the Industrial Radiolocation Service. In the Business Radio Service the authority extends only to those frequencies subject to the coordination requirements set forth in the § 91.8 of the rules. These provisions are subject to the following conditions:

(a) Information is submitted with an application to establish that minimum separation between a proposed radioteleprinter or radiofacsimile base station and the nearest cochannel base station of another licensee operating a voice system is 75 miles for a single frequency mode of operation or 35 miles for a two frequency mode of operation or, where this minimum mileage separation cannot be achieved, agreement to the use of F2, F4, or F9 emission has been received from all existing cochannel licensees using voice emission within the applicable mileage limits. If it develops that agreement was not received from an existing cochannel licensee and there is interference with voice operations, the licensee of the radioteleprinter or radiofacsimile system is responsible for eliminating the interference. New licensees of voice operations will be expected to share equally any frequency occupied by established radioteleprinter or radiofacsimile operations.

(b) The application lists the manufacturer and model number of the radioteleprinter or radiofacsimile system to be employed, or, in lieu thereof, contains a detailed technical description of the system and emitted data language.

(c) The requirements in this part applicable to use of F3 emission are also applicable to use of F2, F4, or F9 emission for radioteleprinters and radiofacsimile transmissions.

(d) The station identification required by § 91.152 must be given by voice.

(e) Frequencies will not be assigned exclusively for F2 or F4 emission for radioteleprinter or radiofacsimile.

(f) Transmitters type-accepted under this part for use of F3 emission may also be used for F2, F4, or F9 emission for radioteleprinter or radiofacsimile, provided, for each of these emissions, the keying signal is passed through the low pass audio frequency filter required to be provided in the transmitter for F3 emission. The transmitter must be so adjusted and operated that the instantaneous frequency deviation does not exceed the maximum value allowed for F3 emission.

PART 93—LAND TRANSPORTATION RADIO SERVICES

1. Section 93.113 and headnote are amended to read as follows:

§ 93.113 Interim provisions for operation of radioteleprinters and radiofacsimile devices.

These provisions authorize F2, F4, or F9 (audio frequency tone shift or tone phase shift) emissions for radioteleprinter, radiofacsimile, or audio passband radiotelephony multiplexed with radioteleprinter or radiofacsimile, respectively, for base station use (other than on mobile frequencies) in the radio services covered by this part subject to the following conditions:

(a) Information is submitted with an application to establish that minimum separation between a proposed radioteleprinter or radiofacsimile base station and the nearest cochannel base station of another licensee operating a voice system is 75 miles for a single frequency mode of operation or 35 miles for a two-frequency mode of operation, or, where this minimum mileage separation cannot be achieved, agreement to the use of F2, F4, or F9 emission has been received from all existing cochannel licensees using voice emission within the applicable mileage limits. If it develops that agreement was not received from an existing cochannel licensee and there is interference with voice operations, the licensee of the radioteleprinter or radiofacsimile system is responsible for eliminating the interference. New licensees of voice operations will be expected to share equally any frequency occupied by established radioteleprinter or radiofacsimile operations.

(b) The application lists the manufacturer and model number of the radioteleprinter or radiofacsimile system to be employed, or, in lieu thereof, contains a detailed technical description of the system and emitted data language.

(c) The requirements in this part applicable to use of F3 emission are also applicable to use of F2, F4, or F9 emission for radioteleprinters and radiofacsimile transmissions.

(d) The station identification required by § 93.152 must be given by voice.

(e) Frequencies will not be assigned exclusively for F2 or F4 emission for radioteleprinter or radiofacsimile.

(f) Transmitters type-accepted under this part for use of F3 emission may also be used for F2, F4, or F9 emission for radioteleprinter or radiofacsimile, provided for each of these emissions, the keying signal is passed through the low pass audio frequency filter required to be provided in the transmitter for F3 emission. The transmitter must be so adjusted and operated that the instantaneous frequency deviation does not exceed the maximum value allowed for F3 emission.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

Lacreek National Wildlife Refuge, S. Dak.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (4-1-72).

§ 33.5 Special regulation; sport fishing; for individual wildlife refuge areas.

SOUTH DAKOTA

LACREEK NATIONAL WILDLIFE REFUGE

Sport fishing on the Lacreek National Wildlife Refuge, Martin, S. Dak., 57551 is permitted only on the Little White River Recreational Area, and the portion of Cedar Creek Dam No. 1 that is within the refuge, and Cedar Creek Dams Nos. 2 and 3, which are designated by signs as open to fishing. These open areas comprising a total of 165 acres, are delineated on maps available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the Little White River Recreational Area extends from March 24, 1972 through December 31, 1972, inclusive; daylight hours only.

(2) The open season for sport fishing on the Cedar Creek Dams Nos. 1, 2, and 3 extends from May 15, 1972 through December 31, 1972, inclusive; daylight hours only.

(3) The use of motorized vehicles on ice is prohibited.

(4) The use of boats on the Cedar Creek Dams Nos. 1, 2, and 3 is prohibited.

(5) The use of live minnows on the Cedar Creek Dams Nos. 1, 2, and 3 is prohibited.

(6) Opening and closing dates on Cedar Creek Dams will be subject to road conditions, wildlife nesting requirements, and availability of fish.

The provisions of this special regulation supplement the regulations which govern fishing on Wildlife Refuge areas generally which are set forth in Title 50, Part 33, and are effective through December 31, 1972.

VICTOR M. HALL,
Refuge Manager, Lacreek National Wildlife Refuge, Martin, South Dakota.

MARCH 24, 1972.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Controlled Foreign Corporations Not Availed of To Reduce Taxes

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 1, 1972. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601 (b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 1, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their request for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) under section 954(b)(4) of the Internal Revenue Code of 1954, relating to exception for foreign corporations not availed of to reduce taxes, to section 909 of the Tax Reform Act of 1969 (83 Stat. 718), such regulations are amended as follows:

PARAGRAPH 1. Section 1.954 is amended by revising section 954(b)(4) and the historical note to read as follows:

§ 1.954 Statutory provisions; foreign base company income.

SEC. 954. *Foreign base company income.* • • •

(b) *Exclusions and special rules.* • • •

(4) *Exception for foreign corporations not availed of to reduce taxes.* For purposes of subsection (a), foreign base company income does not include any item of income received by a controlled foreign corporation if it is established to the satisfaction of the Secretary or his delegate that neither—

(A) The creation or organization of such controlled foreign corporation under the laws of the foreign country in which it is incorporated (or, in the case of a controlled foreign corporation which is an acquired corporation, the acquisition of such corporation created or organized under the laws of the foreign country in which it is incorporated), nor

(B) The effecting of the transaction giving rise to such income through the controlled foreign corporation,

has as one of its significant purposes a substantial reduction of income, war profits, or excess profits or similar taxes.

• • • • •

[Sec. 954 as added by sec. 12(a), Rev. Act 1962 (76 Stat. 1006); as amended by sec. 909, Tax Reform Act 1969 (83 Stat. 718)]

PAR. 2. Section 1.954–1(b) is amended by revising the heading and subdivision (i) of subparagraph (3) and by adding a new subparagraph (4). These amended and added provisions read as follows:

§ 1.954–1 Foreign base company income.

• • • • •

(b) *Exclusions from foreign base company income.* • • •

(3) *Income of controlled foreign corporations not availed of to substantially reduce income or similar taxes; taxable years ending on or before October 9, 1969*—(i) *General rule.* Foreign base company income does not include any item of gross income if it is established to the satisfaction of the district director that the creation or organization of the controlled foreign corporation receiving such item of gross income does not have the effect of substantially reducing income, war profits, excess profits, or similar taxes with respect to such item. See section 954(b)(4). For taxable years ending after October 9, 1969, see also subparagraph (4) of this paragraph.

• • • • •

(4) *Income of controlled foreign corporations not availed of to substantially reduce income or similar taxes; taxable years ending after October 9, 1969*—(i) *General rule.* Foreign base company income of a controlled foreign corporation for any taxable year ending after October 9, 1969, does not include any item of gross income received or accrued by such corporation during such year if it is established that both (*a*) the creation or organization of such corporation under the laws of the foreign country or possession of the United States in which it incorporated, and (*b*) the effecting through such corporation of the transaction which gives rise to such income did not have as a significant purpose a substantial reduction of income, war profits, excess profits, or similar taxes. If the controlled foreign corporation receives or accrues an item of income in respect of which there has been no substantial reduction for the taxable year of income, war profits, excess profits, or similar taxes, it may, without reference to (*a*) or (*b*) of this subdivision, be excluded from foreign base company income under section 954(b)(4) and this subparagraph. On the other hand, if the controlled foreign corporation receives or accrues an item of income in respect of which there has been a substantial reduction for the taxable year of income, war profits, excess profits, or similar taxes, it may not be excluded from foreign base company income under section 954(b)(4) and this subparagraph if there is a failure to satisfy the requirements of either (*a*) or (*b*) of this subdivision. If it is established that the creation or organization of such corporation under the laws of the foreign country or possession of the United States in which it is incorporated did not have as one of its significant purposes a substantial reduction of income, war profits, excess profits, or similar taxes, then only that income may be excluded for the taxable year in respect of which it is established that the effecting through such corporation of the transaction giving rise to such income did not have as one of its significant purposes a substantial reduction of income, war profits, excess profits, or similar taxes. If with respect to the U.S. shareholder the foreign corporation became a controlled foreign corporation by reason of the acquisition of its stock, rather than by reason of its creation or organization under the laws of the foreign country or possession of the United States in which it is incorporated, it must be established, for purposes of (*a*) of this subdivision, that the acquisition of such corporation did not have as one of its significant purposes a substantial reduction of income, war profits, excess profits, or similar taxes.

(ii) *Substantial reduction of income taxes.* For purposes of this subparagraph, a determination as to whether there has been a substantial reduction of income, war profits,, excess profits, or similar taxes with respect to an—

(*a*) Item of foreign personal holding company income described in § 1.954–2 shall be made by applying the principles of subparagraph (3)(ii) of this paragraph, or

(*b*) Item of foreign base company sales income described in § 1.954–3 or an item of foreign base company services income described in § 1.954–4 shall be made by applying the principles of subparagraph (3) (iii) and (iv) of this paragraph.

For illustrations of cases in which for purposes of this subparagraph it may be determined whether or not there has been a substantial reduction of income, war profits, excess profits, or similar taxes with respect to an item of income, see the examples in subparagraph (3)(viii) of this paragraph.

(iii) *Significant purpose defined.* For purposes of this subparagraph, to be significant a purpose must be important, but it is not necessary that it be the principal purpose or the purpose of first importance.

(iv) *Application of significant purpose test.* For purposes of determining whether the creation or organization of a controlled foreign corporation in a particular foreign country or possession of the United States, or whether the acquisition of a controlled foreign corporation in that country or possession, or whether the effecting of the income-producing transaction through that corporation had as one of its significant purposes a substantial reduction of income, war profits, excess profits, or similar taxes, all the facts and circumstances involved will be taken into account. Among the factors to be considered are the various purposes for the action; the type of business carried on or to be carried on, by the controlled foreign corporation; the classes of income derived, or to be derived, by such corporation; the frequency with which the particular item of income is derived; the effective rate of tax imposed on such income; the place in which the income-producing transaction occurs or the source of such income; and the location of the persons purchasing the corporation's goods or services. Generally, if the income-producing activity carried on by a controlled foreign corporation takes place within the foreign country or possession of the United States in which the corporation is created or organized, the creation or organization of the corporation in that country or possession will not be considered to have as a significant purpose a substantial reduction of income, war profits, excess profits, or similar taxes.

(v) *Manner of demonstrating lack of tax reduction purpose.* It is the U.S. shareholder's responsibility, in accordance with § 1.964–3 and paragraph (d)(6) of § 1.964–4, to provide the district director with books or records sufficient to verify the gross income excluded from foreign base company income under section 954(b)(4) and this subparagraph. However, if the U.S. shareholder of a controlled foreign corporation desires to establish in respect of a proposed transaction that neither the creation or organization (or acquisition) of such corporation under the laws of the foreign country or possession of the United States in which it is incorporated nor the effecting through such corporation of the transaction giving rise to an item or items of income has as one of its significant purposes a substantial reduction of income, war profits, excess profits, or similar taxes, he may forward a statement setting forth sufficient facts and circumstances to the Commissioner of Internal Revenue, Attention: Income Tax Division, Washington, D.C. 20224, for a ruling. Where the Commissioner determines that a ruling is appropriate, a letter setting forth the Commissioner's determination will be mailed to the taxpayer. If the Commissioner determines that, upon the basis of the facts presented, the exclusion of section 954(b)(4) and this subparagraph applies to the income involved, the taxpayer should retain a copy of the Commissioner's letter as authority for excluding such income from foreign base company income for the taxable year.

(vi) *Other applicable rules.* The principles of subparagraph (3)(vi) of this paragraph, relating to effect of the exclusion under section 954(b)(4) upon other amounts, and subparagraph (3)(vii) of this paragraph, relating to a branch treated as a separate wholly owned subsidiary corporation, apply for purposes of this subparagraph.

(vii) *Illustration.* The application of this subparagraph may be illustrated by the following example:

Example. A controlled foreign corporation is incorporated under the laws of a foreign country. In the past the controlled foreign corporation has organized a number of other corporations in that country to operate radio and television stations there. The purpose of establishing these other corporations was to form a centrally managed radio and television network. The controlled foreign corporation's stock interest in these other corporations ranges from 10 percent to 100 percent. By reason of its stock interests and for other financial or technical reasons, the controlled foreign corporation has exercised effective practical control over the other corporations. The controlled foreign corporation also has conducted several businesses in the foreign country for a number of years which are related to the communications network it has been attempting to establish. In 1969, the communications agency of the foreign country changes its policy and rules that foreign corporations may not own more than 10 percent of the stock of local communications corporations. Since the controlled foreign corporation is more than 50 percent owned by U.S. persons, it is treated by the communications agency of the foreign country as being subject to this new rule. Because of this policy change, the controlled foreign corporation sells all its shares of stock in the radio and television corporations in the foreign country and realizes capital gains on the sales which are not taxed by the foreign country. Under this subparagraph, these gains are excluded from foreign base company income, since the controlled foreign corporation was organized in the foreign country to actively engage in business in that country and because the acquisition and the sale of the stock of the radio and television corporations by the controlled foreign corporation (rather than by its parent corporation or an affiliated corporation) did not have as one of its significant purposes a substantial reduction of income or similar taxes.

• • • • •

PAR. 3. Section 1.964–4 is amended by revising paragraph (d)(6) to read as follows:

§ 1.964–4 Verification of certain classes of income.

• • • • •

(d) *Foreign base company income and exclusions therefrom.* • • •

(6) *Income on which taxes are not substantially reduced.* The gross income excluded from foreign base company income under section 954(b)(4) and paragraph (b)(3) or (4) of § 1.954–1 in the case of a controlled foreign corporation not availed of to substantially reduce income taxes, the income or similar taxes incurred with respect thereto, and all other factors necessary to verify the application of such exclusion.

[FR Doc.72-5047 Filed 3-31-72;8:49 am]

[26 CFR Part 301]

PROCEDURES AND ADMINISTRATION

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol, Tobacco, and Firearms Division, Internal Revenue Service, Washington, D.C. 20224, within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Director, Alcohol, Tobacco, and Firearms Division, within the 30-day period. In such a case, a pubic hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to (1) conform the regulations to changes in law, (2) provide that the regional counsel shall authorize or sanction forfeiture proceedings, (3) provide for certain functions to be performed by Directors of Service Centers, (4) reflect recent organizational changes, and (5) make other conforming and editorial changes, the regulations in 26 CFR Part 301 are amended as follows:

PARAGRAPH 1. Paragraph (b) of § 301.6091–1, subparagraph (2) of paragraph (a) of § 301.6402–2, and paragraph (c) of § 301.6404–1, and §§ 301.7321–1, 301.7322–1, 301.7328–1, 301.7601–1, and 301.7622–1, are amended by changing "assistant regional commissioner (alcohol and tobacco tax)", wherever it appears, to read "assistant regional commisstoner (alcohol, tobacco and firearms)".

V 37-64 APR 1 72 XUM

PAR. 2. Paragraph (b) of § 301.6091 is revised to reflect changes made in section 6091, I.R.C., by Public Law 89–713. As amended, § 301.6091(b) reads as follows:

§ 301.6091 Statutory provisions; place for filing returns or other documents.

* * * * *

(b) *Tax returns.* In the case of returns of tax required under authority of part II of this subchapter—

(1) *Persons other than corporations.*

(A) *General rule.* Except as provided in subparagraph (B), a return (other than a corporation return) shall be made to the Secretary or his delegate—

(i) in the internal revenue district in which is located the legal residence or principal place of business of the person making the return, or

(ii) at a service center serving the internal revenue district referred to in clause (i),

as the Secretary or his delegate may by regulations designate.

(B) *Exception.* Returns of—

(i) persons who have no legal residence or principal place of business in any internal revenue district,

(ii) citizens of the United States whose principal place of abode for the period with respect to which the return is filed is outside the United States,

(iii) persons who claim the benefits of section 911 (relating to earned income from sources without the United States), section 931 (relating to income from sources within possessions of the United States), or section 933 (relating to income from sources within Puerto Rico), and

(iv) Nonresident alien persons,

shall be made at such place as the Secretary or his delegate may by regulations designate.

(2) *Corporations.*

(A) *General rule.* Except as provided in subparagraph (B), a return of a corporation shall be made to the Secretary or his delegate—

(i) in the internal revenue district in which is located the principal place of business or principal office or agency of the corporation, or

(ii) at a service center serving the internal revenue district referred to in clause (i),

as the Secretary or his delegate may by regulations designate.

(B) *Exception.* Returns of—

(i) corporations which have no principal place of business or principal office or agency in any internal revenue district,

(ii) corporations which claim the benefits of section 922 (relating to special deduction for Western Hemisphere trade corporations), section 931 (relating to income from sources within possessions of the United States), or section 941 (relating to the special deduction for China Trade Act corporations), and

(iii) foreign corporations

shall be made at such place as the Secretary or his delegate may by regulations designate.

(3) *Estate tax returns.* Returns of estate tax required under section 6018 shall be made to the Secretary or his delegate in the internal revenue district in which was the domicile of the decedent at the time of his death or, if there was no such domicile in an internal revenue district, then at such place as the Secretary or his delegate may by regulations prescribe.

(4) *Hand-carried returns.* Notwithstanding paragraph (1) or (2), a return to which paragraph (1)(A) or (2)(A) would apply, but for this paragraph, which is made to the Secretary or his delegate by hand carrying shall, under regulations prescribed by the Secretary or his delegate, be made in the internal revenue district referred to in paragraph (1)(A)(i) or (2)(A)(i), as the case may be.

(5) ***Exceptional cases.*** Notwithstanding paragraph (1), (2), (3), or (4) of this subsection, the Secretary or his delegate may permit a return to be filed in any internal revenue district, and may require the return of any officer or employee of the Treasury Department to be filed in any internal revenue district selected by the Secretary or his delegate.

[Sec. 6091 as amended by sec. 1(a), Public Law 89–713 (80 Stat. 1107)]

PAR. 3. Subparagraph (3) of paragraph (a) of § 301.6311–1 is amended to conform to recent organizational changes and to delete an obsolete reference. As amended, § 301.6311–1(a)(3) reads as follows:

§ 301.6311–1 Payment by check or money order.

(a) *Authority to receive* * * *

(3) *Payment of tax on distilled spirits, wine, beer, cigars, or cigarettes; proprietor in default.* Where a check or money order tendered in payment for taxes on distilled spirits, wines, beer, or rectified products (imposed under chapter 51 of the Code), or cigars or cigarettes (imposed under chapter 52 of the Code) is not paid on presentment, or where a taxpayer is otherwise in default in payment of such taxes, any remittance for such taxes made during the period of such default, and until the assistant regional commissioner (alcohol, tobacco, and firearms) finds that the revenue will not be jeopardized by the acceptance of personal checks (if acceptable to the district director under subparagraph (1) of this paragraph), shall be in cash, or shall be in the form of a certified, cashier's, or treasurer's check, drawn on any bank or trust company incorporated under the laws of the United States, or under the laws of any State or possession of the United States, or a money order as described in subparagraph (1) of this paragraph.

* * * * *

PAR. 4. Section 301.6423–1 is amended to reflect changes in law made by Public Law 89–44. As amended, § 301.6423–1 reads as follows:

§ 301.6423–1 Conditions to allowance in the case of alcohol and tobacco taxes.

For regulations under section 6423, see Part 170 of this chapter, relating to distilled spirits, wine, and beer; and Part 296 of this chapter, relating to cigars, cigarettes, and cigarette papers and tubes.

PAR. 5. In § 301.6653, subparagraph (1) of paragraph (c), and paragraph (d) are amended to reflect changes in law made by Public Law 91–172, and the statutory citation is updated. As amended, § 301.6653(c)(1), § 301.6653(d), and the statutory citation read as follows:

§ 301.6653 Statutory provisions; failure to pay tax.

* * * * *

(c) *Definition of underpayment.* * * *

(1) *Income, estate, gift, and chapter 42 taxes.* In the case of a tax to which section 6211 (relating to income, estate, gift, and chapter 42 taxes) is applicable, a deficiency as defined in that section (except that, for this purpose, the tax shown on a return referred to in section 6211(a)(1)(A) shall be taken into account only if such return was filed on or before the last day prescribed for the filing of such return, determined with regard to any extension of time for such filing), and

* * * * *

(d) *No delinquency penalty if fraud asscssed.* If any penalty is assessed under subsection (b) (relating to fraud) for an underpayment of tax which is required to be shown on a return, no penalty under section 6651 (relating to failure to file such return or pay tax) shall be assessed with respect to the same underpayment.

* * * * *

[Sec. 6653 as amended by sec. 86, Technical Amendments Act 1958 (72 Stat. 1665); secs. 101(j)(50) and 943(c)(6), Public Law 91–172 (83 Stat. 531, 729)]

PAR. 6. Section 301.6805–1 is amended by reflecting changes resulting from the transfer of functions from offices of district directors to service centers and by deleting subparagraph (3) of paragraph (a). As amended, § 301.6805–1 reads as follows:

§ 301.6805–1 Redemption of stamps.

(a) *Authorization.* (1) Upon receipt of satisfactory evidence of the facts by the district director or director of the service center, he may make allowance for or redeem stamps issued under the authority of any internal revenue law if—

(i) The stamps have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or

(ii) The owner of the stamps has no use therefor.

(2) If a stamp has been in use for any period of time, it may not be redeemed under section 6805. Similarly, no allowance shall be made for stamps which have been lost or stolen.

(b) *Method and conditions of allowance.* Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof. Claims for the redemption of or allowance for stamps shall be made on Form 843 and filed with the district director or director of the service center within three years from the date of the purchase of the stamps from the Government. The stamps for which redemption or allowance is claimed shall be submitted with the claim. If the stamps are destroyed or damaged to the extent that they cannot be presented for redemption or allowance, proof satisfactory to the district director or director of the service center that they have been destroyed or so damaged must accompany the claim before allowance or redemption shall be made. In any case where the actual date of purchase of the stamps from the Government cannot be established, it must be definitely shown in the claim whether they were so purchased within three years prior to the date of filing of the claim.

(c) *Time for filing claims.* No claim for the redemption of, or allowance for, stamps shall be allowed under this section unless presented within 3 years after the purchase of such stamps from the Government.

(d) *Finality of decisions.* The findings of fact in and the decision of the district director or director of the service center upon the merits of any claim presented under or authorized by this section, shall in the absence of fraud or mistake in mathematical calculation, be final and not subject to revision by any accounting officer.

PAR. 7. Section 301.6806–1 is amended by conforming it with changes made in section 6806, I.R.C., by Public Laws 89–44 and 90–618. As amended, § 301.6806–1 reads as follows:

§ 301.6806–1 Posting occupational tax stamps.

For provisions relating to the posting of specific stamps used with respect to a particular tax, other than a special tax under subchapter B of chapter 35, subchapter B of chapter 36, or subtitle E, see the regulations relating to such tax. For penalties for failure to post occupational tax stamps, see section 7273.

PAR. 8. Section 301.7210 is amended to include a reference to sections 6424(d)(2) and 6427(e)(2), I.R.C. As amended, § 301.7210 reads as follows:

§ 301.7210 Statutory provisions; failure to obey summons.

SEC. 7210. *Failure to obey summons.* Any person who, being duly summoned to appear to testify, or to appear and produce books, accounts, records, memoranda, or other papers, as required under sections 6420(e)(2), 6421(f)(2), 6424(d)(2), 6427(e)(2), 7602, 7603, and 7604(b), neglects to appear or to produce such books, accounts, records, memoranda, or other papers, shall, upon conviction thereof, be fined not more than $1,000, or imprisoned not more than 1 year, or both, together with costs of prosecution.

[Sec. 7210 as amended by sec. 4(h), Act of Apr. 2, 1956 (Public Law 466, 84th Cong., 70 Stat. 91); sec. 208(d)(3), Highway Revenue Act 1956 (70 Stat. 396); sec. 202(c)(4), Public Law 89–44 (79 Stat. 139); sec. 207(d)(9), Public Law 91–258 (84 Stat. 249)]

PAR. 9. Section 301.7326 is amended by conforming the section with changes made in section 7326, I.R.C., by Public Laws 89–44 and 91–513; and paragraph (c) of § 301.7326–1 is amended by deleting a reference of § 177.102 and by inserting in lieu thereof a reference to § 178.166. As amended, §§ 301.7326 and 301.7326–1(c) read as follows:

§ 301.7326 Statutory provisions; disposal of forfeited or abandoned property in special cases.

SEC. 7326. *Disposal of forfeited or abandoned property in special cases.*—(a) *Coin-operated gaming devices.* Any coin-operated gaming device as defined in section 4462 upon which a tax is imposed by section 4461 and which has been forfeited under any provision of this title shall be destroyed, or otherwise disposed of, in such manner as may be prescribed by the Secretary or his delegate.

(b) [Repealed]

(c) *Firearms.* For provisions relating to disposal of forfeited firearms, see section 5862(b).

[Sec. 7326 as amended by sec. 204(13), Excise Tax Technical Changes Act 1958 (72 Stat. 1429); sec. 601(j), Public Law 89–44 (79 Stat. 155); sec. 1102(f), Public Law 91–513 (84 Stat. 1292)]

§ 301.7326–1 Disposal of forfeited or abandoned property in special cases.

* * * * *

(c) *Firearms.* For regulations relating to the disposal of forfeited firearms or ammunition, see § 178.166 of this chapter (Commerce in Firearms and Ammunition), and § 179.182 of this chapter (Machine Guns, Destructive Devices, and Certain Other Firearms).

PAR. 10. Paragraph (a) of § 301.7401–1 is amended to reflect an organizational change. As amended, § 301.7401–1(a) reads as follows:

§ 301.7401–1 Authorization.

(a) *In general.* No civil action for the collection or recovery of taxes, or of any fine, penalty, or forfeiture, shall be commenced unless the Commissioner (or the Director, Alcohol, Tobacco, and Firearms Division, with respect to the provisions of subtitle E of the Code), or the Chief Counsel for the Internal Revenue Service or his delegate authorizes or sanctions the proceedings and the Attorney General or his delegate directs that the action be commenced.

* * * * *

PAR. 11. In § 301.7602–1, paragraphs (b) and (c) are amended by including references to sections 6424(d)(2) and 6427(e)(2), I.R.C., and by updating the title in subparagraph (3) of paragraph (c). As amended, § 301.7602–1 (b) and (c) read as follows:

§ 301.7602–1 Examination of books and witnesses.

* * * * *

(b) *Summons.* For the purposes described in paragraph (a) of this section the officers and employees of the Internal Revenue Service designated in paragraph (c) of this section are authorized to summon the person liable for tax or required to perform the act, or any officer or employee of such person, or any person having possession, custody, or care of books of accounts containing entries relating to the business of the person liable for tax or required to perform the act, or any other person deemed proper, to appear before a designated officer or employee of the Internal Revenue Service at a time and place named in the summons and to produce such books, papers, records, or other data, and to give such testimony, under oath, as may be relevant or material to such inquiry; and take such testimony of the person concerned, under oath, as may be relevant or material to such inquiry. The officers and employees designated in paragraph (c) of this section may designate any other employee of the Internal Revenue Service as the individual before whom a person summoned pursuant to section 6420(e)(2), 6421(f)(2), 6424(d)(2), 6427(e)(2), or 7602 shall appear. Any such other employee, when so designated in a summons, is authorized to take testimony under oath of the person summoned and to receive and examine books, papers, records, or other data produced in compliance with the summons. The authority to issue a summons may not be redelegated.

(c) *Persons who may issue summons.* The following officers and employees of the Internal Revenue Service are authorized to issue a summons pursuant to section 6420(e)(2), 6421(f)(2), 6424(d)(2), 6427(e)(2), or 7602—

(1) Regional commissioners and district directors.

(2) Inspection: Assistant Commissioner; director and assistant directors, Internal Security Division; regional inspectors; and all internal security inspectors.

(3) Alcohol, Tobacco, and Firearms: Assistant regional commissioners.

(4) Intelligence: Director; assistant director; assistant regional commissioners; executive assistants to assistant regional commissioner; chiefs, Review and Conference Staff; reviewer-conferees; chiefs and assistant chiefs of divisions, branches, and sections; group supervisors; and special agents of the national regional and district offices.

(5) International Operations: Director; assistant director; chiefs of divisions, branches, and groups; special agents; internal revenue agents; estate tax examiners, revenue service representatives; and assistant revenue service representatives.

(6) Collection: Chiefs and assistant chiefs of divisions; chiefs and assistant chiefs of the Delinquent Accounts and Returns Branches; group supervisors; and revenue officers.

(7) Audit: Chiefs of divisions and branches; group supervisors; internal revenue agents; and estate tax examiners.

PAR. 12. Section 301.7603 is amended to include a reference to sections 6424(d)(2) and 6427(e)(2), I.R.C. As amended, § 301.7603 reads as follows:

§ 301.7603 Statutory provisions; service of summons.

SEC. 7603. *Service of summons.* A summons issued under sections 6420(e)(2), 6421(f)(2), 6424(d)(2), 6427(e)(2), or 7602 shall be served by the Secretary or his delegate, by an attested copy delivered in hand to the person to whom it is directed, or left at his last and usual place of abode; and the certificate of service signed by the person serving the summons shall be evidence of the facts it states on the hearing of an application for the enforcement of the summons. When the summons requires the production of books, papers, records, or other data, it shall be sufficient if such books, papers, records, or other data are described with reasonable certainty.

[Sec. 7603 as amended by sec. 4(1), Act of Apr. 2, 1956 (Public Law 466, 84th Cong., 70 Stat. 91); sec. 208(d)(4), Highway Revenue Act 1956 (70 Stat. 396); sec. 202(c)(4), Public Law 89–44 (79 Stat. 139); sec. 207(d)(9), Public Law 91–258 (84 Stat. 249)]

PAR. 13. Section 301.7603–1 is amended to include a reference to sections 6424(d)(2) and 6427(e)(2), I.R.C., and to reflect changes in organization and position titles. As amended § 301.7603–1 reads as follows:

V 37-64
APR 1 72
XUM

§ 301.7603–1 Service of summons.

(a) *In general.* A summons issued under section 6420(e)(2), 6421(f)(2), 6424(d)(2), 6427(e)(2), or 7602 shall be served by an attested copy delivered in hand to the person to whom it is directed, or left at his last and usual place of abode. The certificate of service signed by the person serving the summons shall be evidence of the facts it states on the hearing of an application for the enforcement of the summons. When the summons requires the production of books, papers, records, or other data, it shall be sufficient if such books, papers, records, or other data are described with reasonable certainty.

(b) *Persons who may serve summons.* The following officers and employees of the Internal Revenue Service are authorized to serve a summons issued under section 6420(e)(2), 6421(f)(2), 6424(d)(2), 6427(e)(2), or 7602—

(1) The officers and employees designated in paragraph (c) of § 301.7602–1, and

(2) Alcohol, Tobacco, and Firearms: Chiefs; assistant chiefs; chief special investigators; special investigators; area supervisors; chief inspectors; and inspectors.

The authority to serve a summons may be redelegated only by the Assistant Commissioner (Inspection), regional commissioners, assistant regional commissioners (alcohol, tobacco and firearms), district directors, and the Director of International Operations to officers and employees under their jurisdiction.

PAR. 14. Section 301.7608–1 is amended to reflect changes in position titles. As amended, § 301.7608–1 reads as follows:

§ 301.7608–1 Authority of internal revenue enforcement officers.

Any special investigator, agent, or other internal revenue officer by whatever term designated, whom the Commissioner, Assistant Commissioner (Compliance), Director, Alcohol, Tobacco, and Firearms Division, regional commissioner, or assistant regional commissioner (alcohol, tobacco, and firearms) charges with the duty of enforcing any of the criminal, seizure, or forfeiture provisions of subtitle E of the Code or any other law of the United States pertaining to the commodities subject to tax under such subtitle for the enforcement of which such officers are responsible, may perform the functions provided in section 7608.

PAR. 15. Paragraph (g) of § 301.7623–1 is amended to refer to the current designation of this Division and of certain officers and employees. As amended, § 301.7623–1(g) reads as follows:

§ 301.7623–1 Rewards for information relating to violations of internal revenue laws.

• • • • •

(g) *Claims involving Alcohol, Tobacco, and Firearms Division.* Rewards for information leading to the detection and punishment of persons guilty of violating the internal revenue laws administered by the Alcohol, Tobacco, and Firearms Division shall be handled consistently with the provisions of this section, except that—

(1) Assistant regional commissioners (alcohol, tobacco, and firearms), under the direction and supervision of the regional commissioners, shall perform all functions delegated to district directors by these regulations, and

(2) The Director, Alcohol, Tobacco, and Firearms Division, Washington, D.C. 20224, shall perform all functions delegated to the Director, Intelligence Division, Washington, D.C. 20224, by these regulations.

PAR. 16. In § 301.7652, paragraph (a)(3) is amended to conform it to changes made in section 7652, I.R.C., by Public Law 89–44, and the statutory citation at the end of § 301.7652 is amended. As amended, § 301.7652(a)(3) and the statutory citation read as follows:

§ 301.7652 Statutory provisions; shipments to the United States.

SEC. 7652. Shipments to the United States—(a) *Puerto Rico*—(1) *Rate of tax.*

• • •

(3) *Deposit of internal revenue collections.* All taxes collected under the internal revenue laws of the United States on articles produced in Puerto Rico and transported to the United States (less the estimated amount necessary for payment of refunds and drawbacks), or consumed in the island, shall be covered into the treasury of Puerto Rico.

• • • • •

[Sec. 7652 as amended by sec 204 (17), (18), Excise Tax Technical Changes Act 1958 (72 Stat. 1430); sec. 808(b)(3), Public Law 89–44 (79 Stat. 164)]

PAR. 17. Section 301.7652–1 is amended to delete references to tobacco materials and tobacco products. As amended, § 301.7652–1 reads as follows:

§ 301.7652–1 Shipments to the United States.

For regulations under section 7652, see Part 179 of this chapter, relating to machineguns, destructive devices, and certain other firearms; Part 250 of this chapter, relating to liquors and articles from Puerto Rico and the Virgin Islands; and Part 275 of this chapter, relating to cigars, cigarettes, and cigarette papers and tubes.

PAR. 18. Section 301.7653–1 is amended to delete references to tobacco materials and tobacco products. As amended, § 301.7653–1 reads as follows:

§ 301.7653–1 Shipments from the United States.

For regulations under section 7653, see Part 179 of this chapter, relating to machineguns, destructive devices, and certain other firearms; Part 196 of this chapter, relating to stills; Part 252 of this chapter, relating to exportation of liquors; and Part 290 of this chapter, relating to exportation of cigars, cigarettes, and cigarette papers and tubes.

PAR. 19. Paragraph (f) of § 301.9000–1 is amended to include reference to tobacco and explosives cases and to conform it to provisions of 26 CFR 601.702(d)(12). As amended, § 301.9000–1(f) reads as follows:

§ 301.9000–1 Procedure to be followed by officers and employees of the Internal Revenue Service upon receipt of a request or demand for disclosure of internal revenue records or information.

• • • • •

(f) *State liquor, tobacco, firearms, or explosives cases.* Assistant regional commissioners (alcohol, tobacco, and firearms) or the Director, Alcohol, Tobacco, and Firearms Division, may, in the interest of Federal and State law enforcement, upon receipt of demands or requests of State authorities, and at the expense of the State, authorize special investigators and other employees under their supervision to attend trials and administrative hearings in liquor, tobacco, firearms, or explosives cases in which the State is a party, produce records, and testify as to facts coming to their knowledge in their official capacities: *Provided*, That such production or testimony will not divulge information contrary to section 7213 of the Code, nor divulge information subject to the restrictions in section 5848. See also 18 U.S.C. 1905.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 161]

RIGHTS-OF-WAY OVER INDIAN LANDS

Tenure of Approved Right-of-Way Grants

MARCH 24, 1972.

Notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938).

Notice is hereby given that it is proposed to revise § 161.18 of Part 161, Subchapter O, Chapter I, of Title 25 of the Code of Federal Regulations. This revision is proposed pursuant to the authority contained in 5 U.S.C. 301; in the Act of February 5, 1948 (62 Stat. 17; 25 U.S.C. 323–328).

The purpose of the amendment is to revise 25 CFR 161.18 by providing individual property owners, especially those acquiring homesite properties under various Federal housing programs, the privilege of acquiring access roads to homesite properties in perpetuity.

It is the policy of the Department of the Interior to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendment to the Director, Economic Development, Bureau of Indian Affairs, 1951 Constitution Avenue NW., Washington, DC 20242, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

As revised, 25 CFR 161.18 will read as follows:

§ 161.18 Tenure of approved right-of-way grants.

All rights-of-way granted under the regulations in this Part 161 shall be in the nature of easements for the periods stated in the conveyance instrument. Except as otherwise determined by the Secretary and stated in the conveyance instrument, rights-of-way granted under the Act of February 5, 1948 (62 Stat. 17; 25 U.S.C. 323–328), for railroads, telephone lines, telegraph lines, public roads and highways, access roads to homesite properties, public sanitary and storm sewer lines including sewage disposal and treatment plants, water control and use projects (including but not limited to dams, reservoirs, flowage easements, ditches, and canals), oil, gas, and public utility water pipelines (including pumping stations and appurtenant facilities), electric power projects, generating plants, switchyards, electric transmission and distribution lines (including poles, towers, and appurtenant facilities), and for service roads and trails essential to any of the aforestated use purposes, may be without limitation as to term of years; whereas, rights-of-way for all other purposes shall be for a period of not to exceed 50 years, as determined by the Secretary and stated in the conveyance instrument.

JOHN O. CROW,
Deputy Commissioner.

Consumer and Marketing Service

[7 CFR Part 987]

DOMESTIC DATES PRODUCED OR PACKED IN RIVERSIDE COUNTY, CALIF.

Proposed Modification of Grade Requirements

Notice is hereby given of a proposal to amend § 987.203(b)(2) of Subpart—Grade and Size Regulations (7 CFR 987.202–987.218; 36 F.R. 23894; 37 F.R. 4900; and 37 F.R. 5282) so that restricted dates for products meet the minimum standards of quality prescribed in § 987.202 instead of the additional grade requirements in § 987.203(b)(2). The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 987, as amended (7 CFR Part 987; 36 F.R. 15053), regulating the handling of domestic dates produced or packed in Riverside County, Calif. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was recommended by the California Date Administrative Committee.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than 7 days after publication of this notice in the FEDERAL REGISTER. All written submissions pursuant to the notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is to amend § 987.203(b) of Subpart—Grade and Size Regulations (7 CFR 987.202–987.218; 36 F.R. 23894; 37 F.R. 4900; 37 F.R. 5282) by revising subparagraph (2) as follows:

§ 987.203 Additonal grade regulations.

• • • • • •

(b) • • •

(2) *Restricted dates to be disposed of in other approved outlets.* Dates withheld from handling pursuant to § 987.45 to be disposed of pursuant to § 987.55 as products shall meet the minimum standards of quality set forth in § 987.202. Dates withheld from handling pursuant to § 987.45 to be disposed of pursuant to § 987.55 by export to Mexico shall meet the requirements of U.S. Grade C or, if for further processing, U.S. Grade C (Dry) of the U.S. Standards for Grades of Dates, as aforesaid: *Provided*, That Deglet Noor dates shall score (i) not less than 24 points for the factor of absence of defects, except that dates damaged by broken skin, by mashing, and by mechanical injury (not affecting eating quality) shall not be considered when determining the defect factor, and (ii) not less than 29 points for the factor of character.

Dated: March 28, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.72–5006 Filed 3–31–72;8:46 am]

[7 CFR Part 1046]

MILK IN LOUISVILLE-LEXINGTON-EVANSVILLE MARKETING AREA

Termination of Proceeding To Suspend Certain Provision of Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), notice of proposed rule making was issued by the Deputy Administrator, Regulatory Programs, on March 16, 1972, with respect to proposed suspension of a certain provision of the order regulating the handling of milk in the Louisville-Lexington-Evansville marketing area. Interested persons were invited to submit views, data, or arguments to the Hearing Clerk not later than March 24, 1972, in connection with the proposed suspension.

The provision in § 1046.51(b) proposed to be suspended reads, "and for the months of April through August such price less 10 cents." Suspension of this language from the order would have maintained the Class II price, during the April–August period, at the price paid for manufacturing grade milk by plants in Minnesota and Wisconsin.

On the basis of all facts available to the Department, including written views, data, and arguments submitted by interested parties, it is concluded that suspension of this provision would not be appropriate at this time.

It is hereby found and determined that the proposed suspension should not be effectuated and that the proceeding begun in this matter on March 16, 1972, should be and is hereby terminated.

Signed at Washington, D.C., on March 29, 1972.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

V 37 • 64 APR 1 72 XUM

[9 CFR Part 322]

EXPORT OF MEAT PRODUCTS FOR CONSIGNEE'S OWN USE

Proposed Clearance of Vessels and Exceptions to Prohibition of Transportation Without Certificate

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Consumer and Marketing Service is considering amending § 322.4 of the Meat Inspection Regulations (9 CFR 322.4) as indicated below, pursuant to the authority contained in section 21 of the Federal Meat Inspection Act, as amended (21 U.S.C. 621).

Statement of considerations. It is proposed to set a specific limit on the amount of federally inspected meat and meat food products which may be exported for the personal use of the consignee without requiring an official export certificate. The proposed amendment to § 322.4 of the regulations would provide for stricter enforcement of the Federal Meat Inspection Act by identifying a definite amount which may be exported without such certification. The amendment would also clarify the fact that § 322.4 is not meant to apply to inedible product that is denatured or otherwise identified as required by the regulations to deter its use as human food and that is eligible for exportation under other provisions of the regulations.

Section 322.4 would be amended to read as follows:

§ 322.4 Clearance of vessels and transportation without certificate prohibited; exceptions.

No clearance shall be given to any vessel having on board any product destined to any foreign country, and no person operating any vessel, and no railroad or other carrier, shall receive for transportation or transport from the United States to any foreign country, any products, unless and until an official export certificate covering the same has been issued and delivered as provided in this part; except in the case of inspected and passed ship stores and not more than 50 pounds of inspected and passed product for the exclusive personal use of the consignee and not for sale or distribution, and except for exempted product eligible for exportation under the provisions of the Act and the regulations in this subchapter and inedible product that is not capable of use as human food and is eligible for exportation under other provisions of said regulations.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, within 30 days after the date of publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours in a manner convenient to the public business (7 CFR 1.27(b)). Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on March 28, 1972.

G. R. GRANGE,
Acting Administrator.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[46 CFR Part 146]

[CGD 71-53(a)]

CORROSIVE LIQUIDS

Supplemental Notice of Proposed Rule Making

In the Friday, June 11, 1971, issue of the FEDERAL REGISTER (36 F.R. 11302), the Coast Guard published a notice of proposed rule making (CGD 71-53(a)) to amend § 146.23. In the Wednesday, August 18, 1971, issue of the FEDERAL REGISTER (36 F.R. 15762) the Coast Guard issued a supplement to that notice to clarify the packaging requirements for the new article "Corrosive solids, n.o.s.".

This document is an additional supplement to the original notice and is being issued to clarify the stowage and segregation that will be given this new commodity. The Coast Guard feels it is in the public interest to issue this supplement and to permit the public an additional opportunity to participate in the rule making procedure.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the U.S. Coast Guard (MHM), 400 Seventh Street SW., Washington, DC 20590. Each person submitting comments should include his name and address, identify the notice (CGD 71-53(a)), and give reasons for any recommendations. Comments received will be available for examination by interested persons in Room 8306, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, DC.

The Coast Guard will hold an informal hearing on May 24, 1972, at 9:30 a.m. in Conference Room 8332, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, DC. Interested persons are invited to attend the hearing and present oral or written statements on this proposal. There will be no cross-examination of persons presenting statements. It is requested that anyone desiring to attend the hearing notify the U.S. Coast Guard (MHM), 400 Seventh Street SW., Washington, DC 20590.

The Commandant will evaluate all communications received before May 31, 1972, and take final action of this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing it is proposed that the new article "Corrosive solid n.o.s." be permitted on all vessels except passenger vessels and the stowage be "on deck protected and on deck under cover." It is also proposed that the segregation requirements be the same as for corrosive liquids in general.

(R.S. 4472, as amended, R.S. 4417a, as amended, sec. 1, 19 Stat. 252, 49 Stat. 1889, sec. 6(b)(1), 80 Stat. 937; 46 U.S.C. 170, 391a, 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b))

Dated: March 27, 1972.

G. H. READ,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

[FR Doc.72-5010 Filed 3-31-72;8:46 am]

FEDERAL RESERVE SYSTEM

[12 CFR Part 204]

[Reg. D]

RESERVES OF MEMBER BANKS

Computation and Requirements

The Board of Governors proposes to adopt a system of reserve requirements against the demand deposits of all member banks based on the amount of such deposits held by a member bank.

The purpose of the proposal is to adopt a more equitable system of reserve requirements. Under it, reserve percentages would be based on a member bank's deposits without regard to the location of the bank.

The proposal is not intended to signal any change in monetary policy. The net anticipated effect of the proposal, if adopted, would be an overall reduction in reserve requirements. The effect of the resulting increase in funds available for use by member banks would be substantially offset by adoption of the Board's proposed amendment to Regulation J, also announced today. It is intended that Federal Reserve open market operations would be adapted as needed, when the proposals are put into effect, to neutralize the effects on monetary policy.

An integral part of the proposal is a redefinition of the term "reserve city." Such redefinition is essential to eliminate major inequities in the present system of reserve requirements under which several large "country" banks are required to maintain less reserves than competitor reserve city banks with comparable size and characteristics.

Under the proposal, a city would become a reserve city automatically as the net demand deposits of a member bank with its head office located in that city rise above $400 million. Unless a Federal Reserve office is located in that city, it would cease to be a reserve city if no member bank headquartered in the city has average net demand deposits of that amount. The amount of reserves that a bank having deposits of $400 million or less would not be affected by the bank being located in a city that is classified as a reserve city. Permission to carry reduced reserves would be extended to all banks located in a reserve city having deposits of $400 million or less.

Normally the Board does not offer proposed changes in reserve requirement percentages for public comment (See § 262.2(e) of the Board's rules of procedure.) However, because of the basic structural nature of this proposal, the Board believes that comment by the public can be helpful. Accordingly, to aid in the consideration by the Board of this matter, interested persons are invited to submit relevant data, views, or arguments. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 15, 1972. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding availability of information.

To implement its proposal, the Board proposes to amend Regulation D (12 CFR Part 204) in the following respects:

1. Section 204.2(a) (2) and (3) would be amended to read as follows:

§ 204.2 Computation of reserves.

(a) *Amounts of reserves to be maintained.* • • •

(2) A member bank in a reserve city is deemed to have a character of business similar to banks outside of reserve cities whenever it has average net demand deposit balances of $400 million or less for the second computation period preceding the current reserve maintenance period. The Board grants permission to any such bank or banks to maintain for the current period the reserve balances that are in effect for member banks not located in reserve cities. Such permission and any other permission granted by the Board to maintain reduced reserves is automatically suspended for the current reserve maintenance period with respect to any member bank in a reserve city that has average net demand deposit balances of more than $400 million for the second computation period preceding the current reserve maintenance period. Any such bank shall maintain for the current period the reserve balances in effect for banks located in reserve cities.

(3) For the purposes of this part, each city having a Federal Reserve office is a reserve city. In addition, any city, town, village, or other community, whether or not incorporated, is a reserve city for a reserve computation period if it contains a head office of any member bank that had average daily net demand deposit balances of more than $400 million for the second computation period preceding the current reserve maintenance period.

• • • • •

2. Section 204.5(a) (1)(iii) and (2)(iii) would be amended to read as follows:

§ 204.5 Reserve requirements.

(a) *Reserve percentages.* Pursuant to the provisions of section 19 of the Federal Reserve Act and § 204.2(a) and subject to paragraph (c) of this section, the Board of Governors of the Federal Reserve System hereby prescribes the following reserve balances that each member bank of the Federal Reserve System is required to maintain on deposit with the Federal Reserve Bank of its district:

(1) If not in a reserve city—

• • • • •

(iii) (*a*) Eight percent of its net demand deposits if its aggregate net demand deposits are $2 million or less, (*b*) $160,000 plus 10 percent of its net demand deposits in excess of $2 million if its aggregate net demand deposits are in excess of $2 million but less than $10 million, or (*c*) $960,000 plus 13 percent of its net demand deposits in excess of $10 million.

(2) If a reserve city (except as to any bank located in such a city that is permitted by the Board of Governors of the Federal Reserve System, pursuant to § 204.2(a)(2), to maintain the reserves specified in subparagraph (1) of this paragraph)—

• • • • •

(iii) $51,660,000 plus 17½ percent of its net demand deposits in excess of $400 million.

• • • • •

§§ 204.51—204.57 [Revoked]

3. Sections 204.51 through 204.57 would be revoked.

(12 U.S.C. 248(1) and 461)

By order of the Board of Governors, March 20, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-4998 Filed 3-31-72;8:46 am]

[12 CFR Part 210]

[Reg. J]

COLLECTION OF CHECKS AND OTHER ITEMS BY FEDERAL RESERVE BANKS

Payment of Cash Items Upon Presentment

The Board of Governors proposes to amend its Regulation J to require banks—member and nonmember—to pay cash items presented by a Federal Reserve Bank on the day of presentment in funds available to the Reserve Bank on that day. The Board anticipates that payment will be by debit to an account on the books of a Reserve Bank.

The proposal is designed to provide an arrangement for immediate payment of checks presented by Federal Reserve offices and to promote earlier availability of funds to depositors. At present, commercial banks in zones of immediate payment in and around cities with a Federal Reserve office, a clearing house, or in areas served by Regional Check Processing Centers are paying checks on the day of presentment, while other banks make actual payment on the day following receipt of the checks.

The Reserve Banks follow the practice of presenting checks to paying banks early in the day, often before the opening of business. Until the mid-1960's many banks outside Federal Reserve cities paid for these checks by drawing and dispatching a draft on the day of receipt of the checks. Remittance drafts were usually not received and collected until the following day, resulting in a deferment of payment.

In recent years the use of modern accounting and communications systems has led to payment of checks on the day of presentment. Roughly 80 percent of the total amount of payments by paying banks on checks presented by Reserve Banks is through direct charges to reserve accounts. Now it is feasible to make universal the practice of paying in immediately available funds on the day of presentment.

In addition to being a major transitional step toward a more fully automated payments mechanism, the Board's proposal has three immediate goals:

First, requiring payment on the day of presentment will eliminate the long-standing inequities that operate to the disadvantage of banks located in Federal Reserve office cities or in cities served by clearing houses. Until now, banks located outside of these cities have had an additional day to invest funds owed to the collecting bank.

Second, checks drawn on country banks located in the same Federal Reserve territory as depositing banks will be collected a day earlier. Federal Reserve Banks will amend their operating circulars to provide that such amounts will also be credited to depositing banks a day earlier. The Board expects that, in many cases, the depositing member bank will make the credit received from its Reserve Bank available to its depositor at an earlier time than under present practice.

Finally, for checks drawn on country banks located in other Federal Reserve territories, a major component of Federal Reserve float will be eliminated. Federal Reserve float is the equivalent of an interest free advance. It arises when the collecting bank is given credit on checks for which the Federal Reserve Bank has not received payment. Adoption of the Board's proposal would eliminate approximately 60 percent ($2 billion) of Federal Reserve float.

To aid in the consideration of this matter by the Board, interested persons are invited to submit relevant data, views, or arguments. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 15, 1972. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding availability of information.

V 37 64 APR 1 72 XUM

To implement its proposal, the Board is considering amending Regulation J as follows:

1. Section 210.9(a) would be amended to read:

§ 210.9 Remittance and payment.

(a) (1) *Cash item.* A paying bank becomes accountable for the amount of each cash item received by it from or through a Federal Reserve Bank at the close of the paying bank's banking day on which the cash item was so received [1] if it retains such item after the close of such banking day, unless, prior to such time, it pays or remits for the item as herein provided. Payment or remittance therefor shall be effected on such day of receipt by:

(i) Debit to an account on the books of a Federal Reserve Bank; or

(ii) Payment in cash; or

(iii) In the discretion of the Federal Reserve Bank, any other form of payment or remittance:

Provided, That the proceeds of any such payment or remittance in any form herein stated shall be available to the Federal Reserve Bank not later than the close of the banking day for such Federal Reserve Bank on the day on which such item was so received by the paying bank. If the banking day on which an item is received by a paying bank is not a banking day for the Federal Reserve Bank from which the item was received, any payment or remittance made hereunder shall be effected on the banking day of both such Federal Reserve Bank and such paying bank next following the day of receipt of such item.

(2) *Noncash item.* A Federal Reserve Bank may require the paying bank or collecting bank to which it has presented, sent, or forwarded any noncash item pursuant to § 210.7 to pay or remit for such item in cash, but is authorized, in its discretion, to permit such paying bank or collecting bank to authorize or cause payment or remittance therefor to be made by a debit to an account on the books of such Federal Reserve Bank or to pay or remit therefor in any of the following which is in a form acceptable to such Federal Reserve Bank: Bank draft, transfer of funds or bank credit, or any other form of payment or remittance authorized by applicable State law.

(3) *Nonbank payor.* A Federal Reserve Bank may require the nonbank payor to which it has presented any cash item or noncash item pursuant to § 210.7 to pay therefor in cash, but is authorized, in its discretion, to permit such nonbank payor to pay therefor in any of the following which is in a form acceptable to such Federal Reserve Bank: Cashier's check, certified check, or other bank draft or obligation.

* * * * *

2. Section 210.12(a) would read:

§ 210.12 Return of cash items.

(a) A paying bank that receives a cash item from or through a Federal Reserve Bank, otherwise than for immediate payment over the counter, and that pays or remits for such item as provided in § 210.9(a) shall have the right to recover any payment or remittance so made if, before it has finally paid the item, it returns the item before midnight of its banking day next following the banking day of receipt or takes such other action to recover such payment or remittance within such time and by such means as may be provided by applicable State law: *Provided,* That the foregoing provisions shall not extend, nor shall the time herein provided for return be extended by, the time for return of unpaid items fixed by the rules and practices of any clearing house through which the item was presented or fixed by the provisions of any special collection agreement pursuant to which it was presented.

* * * * *

(12 U.S.C. 248 (i) and (o) and 342)

By order of the Board of Governors, March 20, 1972.

TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-4999 Filed 3-31-72;8:46 am]

[1] A cash item received by a paying bank shall be deemed to have been received by the bank on its next banking day if the item is received under one of the following circumstances: (1) On a day other than a banking day for it, or (2) on a banking day for it, but (a) after its regular banking hours, or (b) after a "cutoff hour" established by it in accordance with applicable State law, or (c) during afternoon or evening periods when it is open for limited functions only.

SELECTIVE SERVICE SYSTEM

[32 CFR Parts 1606, 1608, 1670]

PUBLIC INFORMATION

Notice of Proposed Rule Making

Pursuant to the Military Selective Service Act, as amended (50 U.S.C. App., sections 451 et seq.), and § 1604.1 of Selective Service Regulations (32 CFR 1604.1), the Director of Selective Service hereby gives public notice that consideration is being given to the following proposed amendments to the Selective Service Regulations constituting a portion of Chapter XVI of the Code of Federal Regulations. These regulations implement the Military Selective Service Act, as amended (50 U.S.C. App., sections 451 et seq.).

The proposed Part 1608 consists chiefly of the text formerly appearing in the sections of Part 1606 which are being revoked.

All persons who desire to submit views to the Director on the proposals should prepare them in writing and mail them to the General Counsel, National Headquarters, Selective Service System, 1724 F Street NW., Washington, DC 20435, within 30 days following the publication of this notice in the FEDERAL REGISTER.

The proposed amendments follow:

PART 1606—GENERAL ADMINISTRATION

§§ 1606.31, 1606.32, 1606.34, 1606.35, 1606.37–1606.42, 1606.55–1606.63 [Revoked]

Section 1606.31 *What records confidential,* is revoked.

Section 1606.32 *Availability and use of confidential records and information,* is revoked.

Section 1606.34 *Waiver of confidential nature of information,* is revoked.

Section 1606.35 *Subpena of records,* is revoked.

Section 1606.37 *Disclosure or furnishing of information relating to physical or mental condition,* is revoked.

Section 1606.38 *"Disclose," "furnish," and "examine" defined,* is revoked.

Section 1606.39 *Searching or handling records,* is revoked.

Section 1606.40 *Furnishing lists of registrants,* is revoked.

Section 1606.41 *Addresses of registrants,* is revoked.

Section 1606.42 *Disclosing information to former employers,* is revoked.

Section 1606.55 *Information to be made available,* is revoked.

Section 1606.56 *General policy,* is revoked.

Section 1606.57 *Service charges for information,* is revoked.

Section 1606.58 *Places where information may be obtained,* is revoked.

Section 1606.59 *Time for obtaining information,* is revoked.

Section 1606.60 *Identification of information requested,* is revoked.

Section 1606.61 *Public information policy,* is revoked.

Section 1606.62 *Requests for names, addresses, and personal data concerning board members, government appeal agents, advisors and other officials,* is revoked.

Section 1606.63 *Demands of courts or other authorities for records or information protected by these regulations,* is revoked.

PART 1608—PUBLIC INFORMATION

Part 1608 (formerly entitled "Payment for Personal Services") is amended to read as follows:

§ 1608.1 Public information policy.

In addition to the policies relative to the disclosure of information when requested by a member of the public, the Selective Service System has a positive public information policy under which information is brought to the attention of the public. Under this policy, the Selective Service System brings to the public, through news releases, pamphlets, educational material for distribution to high schools, and other documents, information concerning important events, the application of the Military Selective Service Act, Selective Service Regulations, and the functions of the Selective Service System.

§ 1608.2 General policy on disclosure of information.

(a) Title 5, United States Code section 552 provides in part that each agency of the Federal Government shall make available for public inspection and copying statements of policy and interpretations which have been adopted by the agency and have not been published in the FEDERAL REGISTER as well as administrative staff manuals and instructions to staff that affect a member of the public. The aforementioned section also provides in part that each agency of the Federal Government, on request for identifiable records make in accordance with published rules stating the time, place, fees to the extent authorized by statute, and procedures to be followed, shall make the records available to any person.

(b) It is the general policy of the Selective Service System to make information available to the public even though it has been published in the FEDERAL REGISTER unless the disclosure thereof would constitute a clearly unwarranted invasion of personal privacy or is prohibited under law or Executive order or relates to internal memoranda, letters or other documents the disclosure of which would interfere with the functions of the Selective Service System. The Director of Selective Service reserves the right to make exceptions to the general policy in a particular instance giving due weight to the right of the public to know and the interests of the individual or individuals involved.

(c) The records in a registrant's file and the information contained in such records shall be confidential.

(d) Technical instructions pertaining to automatic data processing, memoranda, correspondence, opinions, data, staff studies, information received in confidence, and similar documentary material prepared for the purpose of internal comunication within the Selective Service System or between the Selective Service System and other organizations or persons generally are not information available to the public.

§ 1608.3 Availability and use of information in registrants' files.

(a) Information contained in records in a registrant's file may be disclosed or furnished to, or examined by, the following persons, namely:

(1) The registrant, or any person having written authority dated and signed by the registrant: *Provided,* That, whenever the time of the expiration of such authority is not specified therein, no information shall be disclosed, furnished, or examined under that authority after the expiration of a period of 1 year from its date.

(2) The legal representative of a deceased or incompetent registrant.

(3) All personnel of the Selective Service System while engaged in carrying out the functions of the Selective Service System.

(4) Any other agency, official, or employee, or class or group of officials or employees of the United States or any State or subdivision thereof upon written request in individual cases, but only when and to the extent specifically authorized in writing by the State Director of Selective Service or the Director of Selective Service.

(b) Information contained in records in a registrant's file may be disclosed or furnished to, or examined by a U.S. attorney and his duly authorized representatives, including agents of the Federal Bureau of Investigation, whenever the registrant has been reported to the U.S. attorney as a violator for prosecution for violating the Military Selective Service Act or the rules, regulations, or directions made pursuant thereto.

(c) Notwithstanding any other provisions of the regulations in this part, information contained in any record in a registrant's file may be disclosed or furnished to, or examined by, any person having specific written authority from the Director of Selective Service. No person shall use any information so disclosed, furnished, or examined for any purpose other than that designated in such written authority.

(d) No information shall be disclosed or furnished to, or examined by, any person under the provisions of this section, until such person has been properly identified as entitled to obtain such information.

(e) Where a registrant has been indicted under the Military Selective Service Act and must defend himself in a criminal prosecution, or where a registrant submits to induction and thereafter brings habeas corpus proceedings to test the validity of his induction, it is the policy of the Selective Service System to furnish, to him or to any person he may designate, one copy of his selective service file free of charge. Any other registrant may secure a copy of his file upon payment of the fees prescribed in § 1608.12(b).

§ 1608.4 Waiver of confidential nature of information on registrants' files.

The making or filing by or on behalf of a registrant of a claim or action for damages against the Government or any person, based on acts in the performance of which the record of a registrant or any part thereof was compiled, or the institution of any action against the Government or any representative thereof by or on behalf of a registrant involving his classification, selection, or induction, shall constitute a waiver of the confidential nature of all selective service records of such registrant, and, in addition, all such records shall be produced in response to the subpena or summons of the tribunal in which such claim or action is pending.

§ 1608.5 Subpena of records.

(a) In the prosecution of a registrant or any other person for a violation of the Military Selective Service Act, the Selective Service Regulations, any orders or directions made pursuant to such act or regulations, or for perjury, all records of the registrant shall be produced in response to the subpena or summons of the court in which such production or proceeding is pending. Any officer or employee of the Selective Service System who produces the records of a registrant in court shall be considered the custodian of such records for the purpose of this section.

(b) Except as provided in paragraph (a) of this section, no officer or employee of the Selective Service System shall produce a registrant's file, or any part thereof, or testify regarding any confidential information contained therein, in response to the subpena or summons of any court without the consent, in writing, of the registrant concerned, or of the Director of Selective Service.

(c) Whenever, under the provisions of this section, a registrant's file, or any part thereof, is produced as evidence in the proceedings of any court, such file shall remain in the personal custody of an official of the Selective Service System, and permission of the court be asked, after tender of the original file, to substitute a copy of the file with the court.

§ 1608.6 Disclosure or furnishing of information relating to physical or mental condition of registrants.

Information relating to the physical or mental condition of a registrant may only be disclosed or furnished to the appropriate civil authorities by a medical advisor to the State Director of Selective Service or a medical advisor to the local board where he is required by law to report diseases or defects.

§ 1608.7 "Disclose," "furnish," and "examine" defined.

When used in this part, the following words with regard to the records of, or information as to, any registrant shall have the meaning ascribed to them as follows:

(a) "Disclose" shall mean a verbal or written statement concerning any such record or information.

(b) "Furnish" shall mean providing in substance or verbatim a copy of any such record or information.

(c) "Examine" shall mean a visual inspection and examination of any such record or information at the office of the local board or appeal board as the case may be.

§ 1608.8 Searching or handling records.

Except as specifically provided in the regulations in this part or by written authority of the Director of Selective Service, no person shall be entitled to search or handle any record.

§ 1608.9 Furnishing lists of registrants.

Lists of registrants may be prepared and posted or furnished only as provided in the regulations in this part or in accordance with written instructions from the Director of Selective Service.

§ 1608.10 Addresses of registrants.

The addresses of registrants are confidential information.

§ 1608.11 Disclosing information to former employers of registrants.

A State Director of Selective Service may disclose to the former employer of a registrant who is serving in or who

V 37-64 APR 1 72 XUM

has been discharged from the armed forces whether the registrant has or has not been discharged and, if discharged, the date thereof, upon reasonable proof that the registrant left a position in the employ of the person requesting such information in order to serve in the armed forces.

§ 1608.12 Available information.

(a) Upon request current documents specifically identified as being printed for free distribution to the general public will be furnished without charge. Each individual requesting such documents shall be entitled to only one copy of each document.

(b)(1) For processed copies of File Folder (SSS Form 101) or other identifiable records or documents prepared on Selective Service System equipment, the requester will pay 25 cents per page.

(2) For copies of File Folder (SSS Form 101) or other identifiable records or documents reproduced by a private concern the requester will assume the expense of copying. The Selective Service System employee's time to monitor the reproduction, computed from the time of his departure until his return to his post, will be charged by the Selective Service System to the requester at the rate of $1 per quarter-hour after the first quarter-hour. (See § 1608.3(e) for circumstances when file folder will be furnished registrants without charge.)

(3) Copies will not be released to any requester until these fees are paid in full by money order payable to the Selective Service System.

(4) Copying of records as prescribed by this section is a service provided to registrants and members of the public. Except as provided in § 1608.3(e), the Director may without notice suspend this service at any Selective Service site if its continuation would impede the effective operation of the office located at the site.

(c) Copies of Selective Service Regulations (this Chapter XVI) and the Registrants Processing Manual are offered for sale and may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

(d) The Registrants Processing Manual may be inspected at the office of any local board, the office of the State Director of Selective Service for any State, or at the Office of Public Information, National Headquarters, Selective Service System.

(e) Each local board maintains a Classification Record (SSS Form 102), which contains the name, selective service number, and the current and past classifications for each person registered with that board. This record is open to inspection by the public.

(f)(1) In accordance with Federal Personnel Manual Letter 294–1, March 17, 1966, issued by the Civil Service Commission, the names, position titles, grades, salaries, and duty stations of employees of the Selective Service System are public information.

(2) The names of board members and advisors to registrants will be posted in an area available to the public at each board office to which such personnel are assigned.

(3) In accordance with the reasoning of Federal Personnel Manual Letter 711–8, August 2, 1967, issued by the Civil Service Commission, the home addresses and other personal data concerning the officials designated in subparagraph (2) of this paragraph will not be released unless the person to whom the data relates consents to such release or the board chairman determines in writing, after consultation with the person to whom the data relates, that disclosure would not harm such person, and would not constitute a clearly unwarranted invasion of his personal privacy.

§ 1608.13 Places where information may be obtained.

(a) The information contained in a registrant's selective service file is confidential, and may be revealed only upon strict compliance with the provisions of § 1608.3. Requests for information concerning a registrant shall be addressed to the local board where he is registered.

(b) Requests for information concerning the national administration of the Military Selective Service Act shall be addressed to the Office of Public Information, National Headquarters, Selective Service System, 1724 F Street NW., Washington, DC 20435.

(c) Requests for information concerning the administration of the Military Selective Service Act within a particular State shall be addressed to the State Director of Selective Service involved. Addresses of the offices of the State Directors of Selective Service are as follows:

§ 1608.14 Rules governing the obtaining of information.

(a) A request for information under this part must be made orally or in writing during business hours at the appropriate selective service office. When information to be furnished is not readily available, the employee responsible for obtaining the information shall advise the requester how and where it may be obtained.

(b) Although the time period allowed for inspection of identifiable documents and registrants' files must be sufficient to allow hand copying, the activity should not interfere with the daily business activities of the selective service office. Accordingly, the selective service employee handling the request for information or inspection should arrange for inspection of selective service files and documents during specified hours of the business week.

(c) Any person entitled under the provisions of this part to examine any record or information shall be permitted to copy it by hand, to photograph it or to copy it by using portable copying equipment so long as the use of such equipment does not disrupt the normal operations of the office.

§ 1608.15 Identification of information requested.

(a) Any person who requests information under these regulations shall provide a reasonably specific description of the information sought so that it may be located without undue search or inquiry. Information that is not identified by a reasonably specific description is not an identifiable record, and the request for that information may be declined.

(b) If the description is insufficient, the employee processing the request will notify the requester and, to the extent possible, indicate the additional information required. Every reasonable effort shall be made to assist a requester in the identification and location of the record or records sought. Records will not be withheld merely because it is difficult to find them.

(c) When a request is received at an office not having charge of the records, it shall promptly forward the request to the proper office and notify the requester of the action taken.

§ 1608.16 Review of denials of requests for information.

(a) Complaints concerning possible abuse of discretion granted selective service employees under this section or failure to respond to inquiries or denial of information shall be directed to the State director in the case of State headquarters or local board employees and to the Director in the case of National Headquarters employees.

(b) A requester whose request for information or documents has not been satisfied pursuant to paragraph (a) of this section may petition the General Counsel, Selective Service System, National Headquarters, 1724 F Street NW., Washington, DC 20435, for appropriate action on the request. The General Counsel's decision shall be the final action of the Selective Service System.

§ 1608.17 Demands of courts or other authorities for records or information protected by these regulations.

(a) Authority to release records or information the disclosure of which is prohibited or restricted by the regulations in this part, including personal information bearing on the qualifications of an official to serve in the position he occupies, is reserved to the Director of Selective Service. A request, demand or order to produce such information (hereafter "demand") will not be honored by an employee of the System without prior approval of the Director.

(1) Whenever such demand is made upon an employee of the System by or through a court or other authority, he will immediately notify the Regional Counsel responsible for the U.S. District in which the issuing court or other authority is located.

(2) The Regional Counsel shall without delay notify the appropriate U.S. attorney and immediately request instructions from the Director of Selective Service through the Office of the General Counsel, National Headquarters, Selective Service System.

(3) If response to the demand is required before instructions from the Director of Selective Service are received, the Regional Counsel responsible for responding shall request the appropriate U.S. attorney to represent the selective service employee before the court or other authority, shall cause the court or other authority to be furnished a copy of this section and § 1608.12(f), and shall cause it to be informed that the demand has been or is being, as the case may be, referred for the prompt consideration of the Director of Selective Service. The Regional Counsel should respectfully request the court or other authority to stay the demand pending receipt of instructions from the Director of Selective Service.

(b) If the court or other authority declines to stay the effect of the demand, or rules that the demand must be complied with regardless of the instructions from the Director of Selective Service, the Regional Counsel will advise the employee to respectfully decline to comply with the demand citing United States ex rel. Touhy v. Ragan, 340 U.S.C. 462 (1951).

PART 1670—RECORDS ADMINISTRATION IN FEDERAL RECORD DEPOTS

Part 1670 is revoked.

PROPOSED OUTER CONTINENTAL SHELF OIL AND GAS LEASE SALE OFFSHORE EASTERN LOUISIANA

Environmental Impact Statement

MARCH 31, 1972.

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Bureau of Land Management, Department of the Interior, has prepared a draft environmental impact statement relating to a proposed Outer Continental Shelf general oil and gas lease sale. The environmental statement considers 78 tracts of Outer Continental Shelf lands which have been identified for oil and gas leasing potential. All 78 tracts are located in the Gulf of Mexico offshore eastern Louisiana.

Reading copies of the draft environmental impact statement are available in Room 5643 of the Interior Building in Washington, and in BLM's New Orleans office. Copies may be obtained for $2 by writing the Director, Bureau of Land Management (130), U.S. Department of the Interior, Washington, D.C. 20240, or the Manager, BLM Outer Continental Shelf Office, Post Office Box 53226, New Orleans, LA 70153.

Anyone wishing to comment on the draft environmental statement should submit his comments in writing within 45 days to:

Director, Bureau of Land Management (310), U.S. Department of Interior, Washington, D.C. 20240.

After all comments have been received and analyzed, a final environmental statement will be prepared.

GEORGE L. TURCOTT,
Acting Director,
Bureau of Land Management.

MASTER PLAN FOR WHITE SANDS NATIONAL MONUMENT

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for the draft master plan for White Sands National Monument located within Dona Ana and Otero Counties, N. Mex. Written comments on the statement are invited and will be accepted for 30 days from the date of this notice except where time extensions are granted upon request in accordance with Council on Environmental Quality Guidelines of April 23, 1971. Comments should be addressed Superintendent, White Sands National Monument, shown below.

The master plan provides in a conceptual manner for the overall management and development of the monument and related to considerations given to the study of potential wilderness land designation within the monument. A public hearing on the wilderness study was announced in the FEDERAL REGISTER of February 1, 1972, and information packets were made available at that time. This environmental statement should be considered in light of those information packets.

Copies of this environmental statement are available from or for inspection at the following locations: Southwest Regional Office, National Park Service, Old Santa Fe Trail, Post Office Box 728, Santa Fe, NM 87501; and from White Sands National Monument, Post Office Box 458, Alamogordo, NM 88310.

Dated: March 29, 1972.

W. W. LYONS,
Deputy Assistant Secretary
of the Interior.

DEPARTMENT OF AGRICULTURE

Forest Service

MESQUITE CONTROL PROGRAM

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Mesquite Control Program on the Coronado National Forest in Tucson, Ariz., USDA-FS-DES(Adm) 72-28.

The environmental statement concerns a proposed spray program on 2,175 acres of mesquite located all on the Nogales Ranger District in six separate locations in Pima and Santa Cruz Counties, State of Arizona.

This draft environmental statement was filed with CEQ on March 27, 1972.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW., Washington, D.C. 20250.

USDA, Forest Service, Southwestern Region, Federal Building, 517 Gold Avenue SW., Albuquerque, NM 87101.

Coronado National Forest, 130 South Scott, Tucson, AZ 85702.

A limited number of single copies are available upon request to Clyde Doran, Forest Supervisor, U.S. Forest Service, Box 551, Tucson, Ariz. 85702.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151 for $3 each. Please refer to the name and number of environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Mr. Clyde Doran, U.S. Forest Service, Coronado National Forest, Box 551, Tucson, Ariz. 85702. Comments must be received within 30 days of the date of publication of this notice in order to be considered in the preparation of the final environmental statement.

THOMAS C. NELSON,
Deputy Chief, Forest Service.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Equal Opportunity

[Docket No. R-72-106]

ADVERTISING GUIDELINES FOR FAIR HOUSING

Notice of Statement of Policy

In order to facilitate and promote compliance with the requirements of Title VIII of the Civil Rights Act of 1968, and particularly section 804(c) thereof (42 U.S.C. 3601, 3604(c)) regarding notices, statements or advertisements, the Department of Housing and Urban Development has prepared guidelines to indicate graphic and written references that are appropriate for the preparation, publication, and general use of advertising matter with respect to the sale or rental of a dwelling as defined by the Act.

Notice of a proposed statement of policy was published in the FEDERAL REGISTER on May 21, 1971 (36 F.R. 9266). Comments were received from 26 interested persons and organizations and consideration has been given to each comment.

Several comments observed that the proposed policy statement was at times unnecessarily limited to the field of newspaper advertising. In response to the comments, the policy statement has been revised in several places to clarify that the guidelines apply to advertisements in all media, including, e.g., television and radio, as well as to advertising agencies and other persons who use advertising.

Several organizations suggested additional catchwords connoting a discriminatory effect for inclusion in section A-3. That section has been expanded to include several additional terms which may have a discriminatory effect when used in a discriminatory context.

In response to other comments, section A-6 has been revised to clarify how directional references could be employed in a discriminatory context with an ethnically, as well as a racially, discriminatory effect. Also, section A-7 has been added relating specifically to designation of religious, ethnic or racial facilities to identify an area or neighborhood.

A number of comments indicated that human models or Equal Opportunity advertisements can and have been used selectively to promote the development of racially exclusive communities. A new section C-4 has been added in order to meet this specific problem. The previous human models section has been clarified by revision and reorganization in the new section C, in light of comments which indicated confusion or uncertainty surrounding the use of human models.

In response to publishers' comments, Table I has been simplified and references to minimum type sizes limited to a recommendation that the type should be bold display face and no smaller than eight points.

A number of organizations suggested the inclusion of a publisher's notice to appear with real estate advertising. A suggested notice has been included as Table III, in lieu of the provision in the proposed guidelines for direct notification to all firms or persons using the advertising services of a publisher. This provision was removed in light of objections that such notification would be unworkable or would impose great hardship since a large volume of real estate advertising is placed by a great number of persons on a nonrecurring basis.

Finally, a number of minor editorial or organizational changes have been made in order to clarify or simplify the advertising guidelines.

Several organizations suggested that the guidelines make specific reference to the roles of other enforcement agencies, including the Department of Justice and local agencies. These comments suggested that the guidelines specify that they do not alter or affect conciliation agreements or court orders obtained by these agencies, as well as by the Department. Such a disclaimer appears to be unnecessary, since there is nothing in the guidelines to indicate an intent to alter or affect agreements or orders obtained by the Department and other agencies.

This document is issued pursuant to section 7(d), Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

The statement of Policy reads as follows:

PUBLICATION GUIDELINES FOR COMPLIANCE WITH TITLE VIII OF THE CIVIL RIGHTS ACT OF 1968

POLICY STATEMENT

Section 804(c) of title VIII of the Civil Rights Act of 1968, 42 U.S.C. 3604(c), makes it unlawful to make, print, or publish, or cause to be made, printed, or published any notice, statement, or advertisement, with respect to the sale or rental of a dwelling (any building, structure, or portion thereof which is occupied as, or designed or intended for occupancy as, a residence by one or more families, and any vacant land which is offered for sale or lease for the construction or location thereof of any such building, structure, or portion thereof) that indicates any preference, limitation, or discrimination based on race, color, religion, or national origin, or an intention to make any such preference, limitation or discrimination.

These advertising guidelines are being issued for the purpose of assisting all advertising media, advertising agencies, and all other persons who use advertising to make, print, or publish or cause to be made, printed, or published any classified or display advertisement with respect to the sale or rental of a dwelling by the owner or his agent, in compliance with the requirements of title VIII.

Conformance with these guidelines will be considered in evaluating compliance with title VIII in connection with investigations by the Assistant Secretary of advertising practices and policies under the title.

A. *The use of words, phrases, sentences and visual aids which have a discriminatory effect.* The following words, phrases, symbols, and forms typify those most often used in residential real estate advertising to convey either overt or tacit discriminatory intent. Their use should therefore be avoided in order to eliminate their discriminatory effect. In considering a complaint under title VIII, the Assistant Secretary will normally consider the use of these and comparable words, phrases, symbols, and forms to indicate possible violation of the title and to establish a need for seeking resolution of the complaint, if it is apparent from the context of the usage that discrimination within the meaning of the Title is likely to result.

1. *Words descriptive of dwelling, landlord, and tenant.* White private home, Colored home, Jewish home.

2. *Words indicative of race, color, religion, or national origin.* Negro, Hispano, Mexican, Indian, Oriental, Black, White, WASP, Hebrew, Irish, Italian, European, etc.

3. *Catch words.* Restricted, ghetto, disadvantaged. Also, words such as private, integrated, traditional, "board approval" or "membership approved" if used in a discriminatory context.

4. *Symbols or logotypes.* Symbols or logotypes which imply or suggest race, color, religion, or national origin.

5. *Colloquialisms.* Locally accepted words or phrases which imply or suggest race, color, religion, or national origin.

6. *Directions to the real estate for sale or rent (use of maps or written instructions).* References to real estate location made in terms of racially or ethnically significant landmarks such as an existing Black development (signal to Blacks) or an existing development known for its exclusion of minorities (signal to Whites). Specific directions given from a racially or ethnically significant area.

7. *Area (location) description.* Use of religious, ethnic, or racial facilities to describe an area, neighborhood, or location.

B. *Selective use of advertising media or content with discriminatory effect.* The selective use of advertising in various media and with respect to various housing developments or sites can lead to discriminatory results and may indicate a violation of title VIII.

1. *Selective geographic impact.* Such selective use may involve the strategic placement of billboards, brochure advertisements distributed within a limited geographic area by hand or in the mail, or advertising in particular geographic coverage editions of major metropolitan newspapers, or in local newspapers which are mainly advertising vehicles for reaching a particular segment of the community, or in displays or announcements only in selected sales offices.

2. *Selective use of equal opportunity slogan or logo.* Such selective use may involve using the equal opportunity slogan or logo in advertising reaching some geographic areas, but not others, or with respect to some properties but not others.

3. *Selective use of human models.* Such selective advertising may also involve the use of human models primarily in media that cater to one racial or ethnic segment of the population that is not balanced by a complementary advertising campaign that is directed at other groups, or the use by a developer of racially mixed models to advertise one of the developments and not others.

C. *Policy and practices guidelines.* The following guidelines are offered as suggested methods of assuring equal opportunity in real estate advertising:

1. *Guidelines for use of logotype, statement, or slogan.* All advertising of residential real estate for sale or rent can contain an Equal Housing Opportunity logotype, statement or slogan as a means of educating the homeseeking public that the property is available to all persons regardless of race, color, religion, or national origin. Table I (see appendix) indicates suggested sizes for the use of the logotype. In all space advertising which is less than 4 column inches of a page in size, the Equal Housing Opportunity slogan should be used. The advertisement may be grouped with other advertisements under a caption which states that the housing is available to all without regard to race, color, religion, or national origin. Alternatively, 3-5 percent of the advertisement copy may be devoted to a statement of the equal housing opportunity policy of the owner or agent. Table 2 (see appendix) contains copies of the suggested Equal Housing Opportunity logotype, statement and slogan.

2. *Guidelines for use of human models.* Human models in photographs, drawings, or other graphic techniques may be used to indicate racial inclusiveness. If models are used in display advertising campaigns, the models should be clearly definable as reasonably representing both majority and minority groups in the metropolitan area. Models, if used, should indicate to the general public that the housing is open to all without regard to race, color, religion, or national origin, and is not for the exclusive use of one such group.

3. *Guidelines for notification of Fair Housing Policy.* (a) *Employees.* All publishers of advertisements, advertising agencies, and firms engaged in the sale or rental of real estate should provide a printed copy of their nondiscriminatory policy to each employee and officer.

V 37-64
APR 1 72
XUM

(b) *Clients.* All publishers of advertisements and advertising agencies should post a copy of their nondiscrimination policy in a conspicuous place wherever persons come to place advertising and should have copies available for all firms and persons using their advertising services.

(c) *Publisher's notice.* All publishers are encouraged to publish at the beginning of the real estate advertising section a notice such as that appearing in Table 3 (see appendix).

Effective date. This statement of policy shall be effective May 1, 1972.

SAMUEL J. SIMMONS,
Assistant Secretary for Equal Opportunity.

APPENDIX

The following three tables may serve as a guide for the use of the Equal Housing Opportunity logotype, statement, slogan, and publisher's notice for display advertising:

TABLE I

A simple formula can guide the real estate advertiser in using the Equal Housing Opportunity logotype, statement, or slogan. If other logotypes are used in the advertisement, then the Equal Housing Opportunity logotype should be of a size equal to the largest of the other logotypes; if no other logotypes are used, then the following guidelines can be used. In all instances, the type should be bold display face and no smaller than 8 points.

Approximate size of advertisement	*Size of Logotype in inches*
½ page or larger	2 x 2.
⅛ page up to ½ page	1 x 1.
4 column inches to ⅛ page	½ x ½.
Less than 4 column inches	(1).

[1] Do not use.

TABLE II.—ILLUSTRATIONS OF LOGOTYPE, STATEMENT, AND SLOGAN

Equal Housing Opportunity logotype.

EQUAL HOUSING OPPORTUNITY

Equal Housing Opportunity statement:
We are pledged to the letter and spirit of U.S. policy for the achievement of equal housing opportunity throughout the Nation. We encourage and support an affirmative advertising and marketing program in which there are no barriers to obtaining housing because of race, color, religion or national origin.

Equal Housing Opportunity slogan:
"Equal Housing Opportunity."

TABLE III—ILLUSTRATION OF PUBLISHER'S NOTICE

Publisher's notice:
All real estate advertised in this newspaper is subject to the Federal Fair Housing Act of 1968 which makes it illegal to advertise "any preference, limitation, or discrimination based on race, color, religion, or national origin, or an intention to make any such preference, limitation, or discrimination."

This newspaper will not knowingly accept any advertising for real estate which is in violation of the law. Our readers are hereby informed that all dwellings advertised in this newspaper are available on an equal opportunity basis.

ATOMIC ENERGY COMMISSION

[Docket No. 50-269]

DUKE POWER CO.

Notice of Availability of Final Detailed Statement on Environmental Considerations

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Atomic Energy Commission ("the Commission") in 10 CFR Part 50, Appendix D, notice is hereby given that a Final Detailed Statement (entitled "Final Environmental Statement Related to Operation of Oconee Nuclear Station Units 1, 2, and 3 Duke Power Company") on the environmental considerations related to the proposed issuance of an operating license for the Oconee Nuclear Station, Unit No. 1 located on the Company's site located in eastern Oconee County, approximately 8 miles northeast of Seneca, S.C., has been prepared and has been made available for public inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and at the Oconee County Library, 201 South Spring Street, Walhalla, S.C. The Final Detailed Statement is also being made available to the public at the Office of the Governor, State Planning and Grants Division, Wade Hampton Office Building, Columbia, S.C. 29201, and at the South Carolina Appalachian Regional Planning and Development Commission, Post Office Box 4184, 11 Regency Hills Drive, Greenville, SC 29608.

Although the applicant's report and the Commission's Final Detailed Statement on environmental considerations deal with Units 1, 2, and 3 of the Oconee Nuclear Station, the subject statement is only final with respect to Unit 1. A further opportunity will be afforded to interested persons to submit comments with respect to environmental matters concerning Units 2 and 3.

A notice was published in the FEDERAL REGISTER on December 21, 1971 (36 F.R. 24128), concerning the availability of the Duke Power Co's. Environmental Report dated July 1970, and Supplement and Revision 1 thereto dated October 1971, and November 2, 1971, respectively (collectively called "the report"). The report was analyzed by the Commission's Division of Radiological and Environmental Protection and a Notice of Availability of the Commission's Draft Detailed Statement dated December 14, 1971, was published in the FEDERAL REGISTER on December 21, 1971 (36 FR 24126). Copies of comments received on the Draft Detailed Statement were placed in the above designated document rooms for public inspection.

Single copies of the Commission's Final Detailed Statement on the environmental considerations may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Dated at Bethesda, Md., this 29th day of March 1972.

For the Atomic Energy Commission.

R. C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Division of Reactor Licensing.

[Docket No. 23333; Order 72-3-85]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Reduced Fares for Cargo Agents

Issued under delegated authority March 27, 1972.

Agreement adopted by the traffic conferences of the International Air Transport Association relating to reduced fares for cargo agents, Docket 23333, Agreement CAB 22968.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between air carriers, foreign air carriers, and other air carriers embodied in the resolutions of the traffic conferences of the International Air Transport Association (IATA). The agreement, which was adopted by mail vote, has been assigned the above-designated CAB agreement number.

The agreement would have the effect of continuing through August 31, 1972, the past basis upon which the number of reduced-fare tickets are allocated to cargo agents, i.e. two tickets at a 75-percent discount per agency location per year. This basis was to have expired February 29, 1972, and been replaced with new provisions on which the Board deferred action in Order 72-1-52 of January 17, 1972.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found, on a tentative basis, that the following resolutions, which are incorporated in Agreement CAB 22968, are adverse to the public interest or in violation of the Act:

IATA RESOLUTIONS

100(Mail 894)203a and 203d.
200(Mail 131)203a and 203d.
300(Mail 373)203a and 203d.
JT12(Mail 785)203a and 203d.
JT23(Mail 295)203a and 203d.
JT31(Mail 212)203a and 203d.
JT123(Mail 684)203a and 203d.

Accordingly, it is ordered, That:

Action on Agreement CAB 22968 be and hereby is deferred with a view toward eventual approval.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may, within 10 days after the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-5028 Filed 3-31-72;8:48 am]

[Docket No. 23333; Order 72-3-86]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Cargo Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 27th day of March 1972.

Agreements adopted by the traffic conferences of the International Air Transport Association relating to cargo rate matters, Docket 23333, Agreement CAB 22429, R-7 and R-8; Agreement CAB 22460, R-69 and R-70.

By Order 71-12-33, dated December 8, 1971, and issued under delegated authority, action was deferred on agreements adopted by the carrier members of the International Air Transport Association (IATA). The agreements propose to revalidate and make certain amendments to resolutions governing the procedures and standard IATA formats of air waybills/consignment notes. A period of 10 days was initially granted in which interested persons and parties might submit petitions in support of or in opposition to actions proposed by that order; however, such period was extended through January 31, 1972,[1] at the request of IATA, which filed on behalf of Pan American World Airways, Inc. (Pan American), and Trans World Airlines, Inc. (TWA).

In a joint petition filed,[2] January 31, 1972, Pan American and TWA object to the proposed disapproval, in air transportation as defined by the Federal Aviation Act of 1958, of provisions relating to the documentation of international route charges on air waybills/consignment notes, including the addition of a space or "box" on the formats in which to enter such charges. Board review is, therefore, requested by the petitioners who claim that since the Board previously disapproved application of international route charges in air transportation,[2] the "box" would be completed only in the case of shipments not moving in air transportation. On this basis, the petitioners suggest that the Board might appropriately disclaim jurisdiction, or approve the agreement. It is contended that approval of the agreement will not result in any adverse public interest consequences, since the carriers consider such agreement will have a "miniscule effect" in connection with shipments moving to and from the United States.

In any event, the petitioning carriers argue against the contemplated disapproval of a form they desire for worldwide use. They assert that Board disapproval would result in unreasonable expense to carriers by requiring the maintenance of two sets of forms—one for use in air transportation and another for shipments not involving air transportation. Moreover, it is argued that disapproval by the Board could result in "an inadvertent error or honest misrepresentation of what 'is in air transportation'" being construed as a carrier violation of Board rulings, IATA resolutions, or possibly antitrust laws by the use of the incorrect form.

Lastly, it is urged that if the Board still requires disapproval, that the Board do so only with respect to air waybills/consignment notes issued in the United States, its territories, and possessions; or to provide air carriers the option of indicating on any worldwide shipping document that includes a "box" for international route charges that such charges do not apply to or from the United States, its territories and possessions.

Upon consideration of the matter raised by Pan American and TWA, the Board is unable to conclude that the public interest warrants unqualified approval of the agreements or that it is in a position to disclaim jurisdiction. The air waybill/consignment note formats, as revised, are intended for worldwide application, which includes international cargo shipments moving in air transportation. In the light of the earlier Board disapproval in air transportation of international route charges, our interest at this juncture centers around the possible confusion which might be occasioned by the added element of a "box," designated specifically for the entry of such charges. We recognize the advantages which will stem from worldwide use of the form and find that the public interest considerations will be met if the carriers indicate on their shipping documents that international route charges do not apply to or from the United States, its territories and possessions. Therefore, our approval herein is conditioned accordingly.

No petitions have been received in regard to other matters falling within the terms of Order 71-12-33, supra: Namely, the proposed limited approval through August 12, 1972, and subject to condition, of the revalidation (as further amended) of the resolutions governing air waybills/consignment notes. We will therefore finalize herein these tentative conclusions contained in that order.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find that the following resolutions, which are incorporated in the agreement indicated, are adverse to the public interest or in violation of the Act, provided that approval thereof is subject to the conditions hereinafter ordered:

Agreement CAB	*IATA resolutions*
22429:	
R-7	103(CTPC)600j
	203(CTPC)600j
	303(CTPC)600j

	203(CTPC)600k
	303(CTPC)600k

[1] Order 71-12-144, dated Dec. 30, 1971.
[2] Board Order 71-9-43, dated Sept. 9, 1971.

V 37-64 APR 1 72 XUM

Agreement CAB 22460	IATA No.	Title	Application
R–69	609	Manual Air Waybill/Consignment Note (AWB) (Revalidating and Amending).	1; 2; 3.
R–70	609k	Transmittable Air Waybill/Consignment Note (Revalidating and Amending).	1; 2; 3.

Accordingly, it is ordered, That:

1. The petition of Pan American World Airways, Inc., and Trans World Airlines, Inc., is granted to the extent ordered below; and

2. Agreements CAB 22429, R–7 and R–8, and CAB 22460, R–69 and R–70, be and hereby are approved: *Provided,* That:

(a) In the event that air waybill/consignment note formats provide a designed space in which international route charges are to be noted, appropriate and adequate reference shall be made, on each copy or page containing such a space, to the effect that international route charges do not apply to or from the United States, its territories and possessions;

(b) Provisions for the inclusion of industrial diamonds and cultured pearls as valuable cargo shall not become effective in air transportation to/from the United States/the District of Columbia/the Commonwealth of Puerto Rico unless and until the Board approves similar provisions incorporated in the basic resolution (Resolution 595) governing the rating of such valuable cargo in said area of air transportation; and

(d) Approval in air transportation, as defined by the Act, shall be limited through August 12, 1972.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72–5029 Filed 3–31–72;8:48 am]

[Docket No. 23846; Order 72–3–90]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fares

Issued under delegated authority, March 28, 1972.

Agreements adopted by Traffic Conference 1 of the International Air Transport Association relating to passenger fares, Docket 23486, Agreement CAB 22982.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers and other carriers embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement, which was adopted by mail vote, has been assigned the above-designated CAB agreement number.

The agreement would amend an existing resolution governing economy-class excursion fares within the Western Hemisphere by the inclusion of a specified fare reflecting new direct service between Mazatlan and Denver. The fare, established at $155 round-trip, would be available for 5/14-day excursion travel between April 6 and November 30, 1972, on flights departing Monday through Friday, only.

Pursuant to authority duly delegated by the Board, it is not found, on a tentative basis, that Resolution 100(Mail 892) 070, which is incorporated in Agreement CAB 22982, is adverse to the public interest or in violation of the Act.

Accordingly, it is ordered, That:

Action on Agreement CAB 22982 be and hereby is deferred with a view toward eventual approval.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may, within 10 days from the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc. 72–5080 Filed 3–31–72;8:48 am]

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN MAURITIUS

Entry or Withdrawal From Warehouse for Consumption

MARCH 29, 1972.

On November 2, 1971, there was published in the FEDERAL REGISTER (36 F.R. 21008), a letter dated October 23, 1971, from the Chairman of the President's Cabinet Textile Advisory Committee to the Commissioner of Customs establishing a level of restraint for cotton textile products in Category 39, produced or manufactured in Mauritius, which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning August 25, 1971.

Recently, discussions were held between the Governments of the United States and Mauritius whereby the U.S. Government agreed to increase the aforesaid level of restraint from 21,680 dozen pairs to 30,000 dozen pairs for the current 12-month period. The U.S. Government further agreed that, should the Government of Mauritius request, the aforesaid level would be further increased up to an amount equivalent to the level of restraint which would be applicable for the second 12-month period.

In such an event, it was mutually agreed that cotton textile products so entered during the current 12-month period will be charged against the level of restaint which would be applicable for the second 12-month period, and that the level for that period will be correspondingly reduced. The Government of Mauritius has made such a request.

There is published below a letter of March 29, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, amending the earlier letter dated October 23, 1971, thereby implementing the request of the Government of Mauritius.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

ASSISTANT SECRETARY OF COMMERCE
COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

MARCH 29, 1972.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

DEAR MR. COMMISSIONER: This directive amends but does not cancel the directive issued to you on October 23, 1971, from the Chairman of the President's Cabinet Textile Advisory Committee, regarding imports into the United States of cotton textile products in Category 39, produced or manufactured in Mauritius.

The first paragraph of the directive of October 23, 1971, is amended to read as follows:

"Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, including Article 6(c) thereof relating to nonparticipants, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective as soon as possible, and for the 12-month period beginning August 25, 1971, and extending through August 24, 1972, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 39, produced or manufactured in Mauritius, in excess of a level of restraint for the period of 61,500 dozen pairs."

The actions taken with respect to the Government of Mauritius and with respect to imports of cotton textiles and cotton textile products from Mauritius have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

FEDERAL COMMUNICATIONS COMMISSION

STANDARD BROADCAST STATIONS OF UNITED MEXICAN STATES

Official List of Notified Assignments

Official list of notified assignments of standard broadcast stations of the United Mexican States, December 31, 1971, listed by frequency. Recapitulative list based on the recommendations of the North American Regional Broadcasting Agreement Engineering meeting, January 30, 1941, as modified in accordance with the agreements between the United Mexican States and the United States of America of January 29, 1957, and December 11, 1968, concerning broadcasting in the standard broadcast band, and notifications made up to and including Notification List Number 265 dated June 16, 1971.

ABBREVIATIONS

Hz.....Hertz.
kHz.....Kilohertz.
w.....Watt.
kw.....Kilowatt.
mV/m.....Millivolts/meter.
U.....Unlimited time (day and night).
D.....Daytime operation only.
N.....Nighttime operation.
ND.....Omnidirectional antenna.
DA.....Directional antenna.
DA–1.....Directional antenna: Digit indicates the same pattern but not necessarily the same power day and night.
DA–2.....Directional antenna: Digit indicates different patterns day and night with either the same or different power day and night.
DA–N.....Directional antenna: "N" indicates directional antenna for nighttime only; omnidirectional day.
DA–D.....Directional antenna: "D" indicates directional antenna for day operation.
PO.....Present operation.
Vide.....See assignment on.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.72-4754 Filed 3-31-72;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CP72-226]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

MARCH 24, 1972.

Take notice that on March 17, 1972, Natural Gas Pipeline Company of America (applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP72-226 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing applicant to exchange natural gas with Phillips Petroleum Co. (Phillips) and to operate existing facilities in order to effectuate such exchange, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to exchange gas with Phillips in accordance with an exchange agreement entered into between applicant and Phillips on February 15, 1972. Under this agreement, Phillips will commence delivering to applicant sometime prior to May 1, 1972, up to 10,000 Mcf of gas per day (but not more than a total volume of 1,000,000 Mcf) at an existing point of interconnection between the facilities of applicant and Phillips at the Chocolate Bayou Plant, Brazoria County, Tex. Deliveries from Phillips to applicant will cease May 1, 1972. Applicant will redeliver thermally equivalent volumes to Phillips during the period June through September 1972 at the Chocolate Bayou delivery point.

Applicant states that the proposed exchange will be beneficial to it in that it will enable applicant to secure additional volumes of gas needed to meet system requirements during the current heating season.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 17, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project 2197]

YADKIN, INC.

Notice of Application for Change in Land Rights

MARCH 24, 1972.

Public notice is hereby given that application for approval of the conveyance of project property to Duke Power Co., for use as a right-of-way for construction of transmission lines, has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by Yadkin, Inc. (correspondence to Leboeuf, Lamb, Leiby, and McRae, attorneys for Yadkin, Inc., 1 Chase Manhattan Plaza, New York, NY 10005), in Project No. 2197, located on the lower stretch of the Yadkin—Pee Dee River, in Stanly, Montgomery, Davidson, and Rowan Counties, N.C. The project land to be conveyed is in Rowan and Davidson Counties, near the cities of Salisbury, Lexington, Kannapolis, High Point, and Thomasville.

The application seeks Commission approval of a proposed conveyance of a 200-foot wide right-of-way for construction of transmission lines. There would be 10 reservoir crossings in the reservoir headwaters of the High Rock Development (Project No. 2197), ranging in length from 45 to 1,150 feet. Applicant proposes to convey 10 strips of land, totalling 4,392 feet in length, and all within the project boundary which is the 624-foot (M.S.L.) contour.

Duke Power Co.'s construction on the right-of-way would be portions of its proposed 85-mile long McGuire to Pleasant Garden 500 kv. transmission line. No towers or structures would be located within the project boundaries and only the transmission lines would be over project lands and waters. The lines would have a minimum vertical clearance over project waters of 49.5 feet.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 28, 1972, file with the Federal Power Commission, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project 2411–Virginia]

DAN RIVER, INC.

Notice of Availability of Environmental Statement for Inspection

MARCH 30, 1972.

Notice is hereby given that on December 7, 1971, as required by § 2.81(b) of Commission regulations under Order 415–B (36 F.R. 22738, November 30, 1971) a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971) was placed in the public files of the Federal Power Commission. This statement deals with an application for major license filed pursuant to the Federal Power Act for the constructed Schoolfield Project No. 2411, located on the Dan River in the city of Danville, Va.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, DC. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The project is a run-of-river development consisting of a low concrete gravity dam topped by flashboards, creating a pond extending about 3,000 feet upstream, and an intake structure integral with a powerhouse having an installed capacity of 5,300 kw.

Any person desiring to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene, and also file an explanation of their environmental position, specifying any difference with the environmental statement upon which the intervenor wishes to be heard, including therein a discussion of the factors enumerated in § 2.80 of Order 415–B. Written statement by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before 60 days from April 7, 1972. The Commission will consider all response to the statement.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–7716]

IOWA-ILLINOIS GAS & ELECTRIC CO.

Notice of Proposed Changes in Rates and Charges

MARCH 30, 1972.

Take notice that Iowa-Illinois Gas & Electric Co. on March 13, 1972, tendered for filing proposed changes in its electric service rates to the Sherrard Power System, Orion, Ill. The proposed changes would increase by $169,974 the annual revenues from sales and service to Sherrard Power System. The proposed rate change is described in the company's transmitted letter as follows:

The demand rate steps on Original Sheet 1 were increased by 30 cents, 20 cents, and 20 cents per kilowatt, respectively. The energy steps on Original Sheet 1A were increased by 0.09 cent and 0.06 cent per kilowatt-hour, respectively. These rate revisions, together with the cancellation of the 3 percent gross receipts discount per Original Sheet 2, increase revenue about 15.8 percent for the 1971 test period. No substantive changes were made on Original Sheet 1B.

Since the present rate to Sherrard Power System was established in 1966 and subsequently reduced in 1967, our operating income related to our property has declined to a level which provides an inadequate return. Despite our efforts to combat increasing costs, the return is inadequate to permit the financing required to continue the expenditures that must be made to properly serve the growing needs of our customers.

It is essential in the interest of preserving the financial integrity of the Company that its revenues and operating income be adequate to meet the operating expenses necessary to provide good electric service and to attract the additional capital required. We believe that the proposed increase in rates is reasonable and necessary to accomplish this result.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 10, 1972. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing have been served on the parties of interest.

KENNETH F. PLUMB,
Secretary.

[Project 2545]

WASHINGTON WATER POWER CO.

Notice of Availability of Environmental Statement for Inspection

MARCH 30, 1972.

Notice is hereby given that on March 31, 1972, as required by § 2.81(b) of Commission regulations under Order 415–B (36 F.R. 22738, November 30, 1971) a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971) was placed in the public files of the Federal Power Commission. This statement deals with an application for license filed pursuant to the Federal Power Act by The Washington Water Power Co. for constructed hydroelectric Spokane River Project No. 2545.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, DC. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The project, which consists of the Upper Falls, the Monroe Street, the Nine Mile and the Long Lake developments having installed capacities of 10 mw., 7.2 mw., 12 mw., and 70 mw., respectively, is located in the city of Spokane and in Spokane, Stevens, and Lincoln Counties, Wash., on the Spokane River. The application was amended to provide for the reconstruction of the Monroe Street Plant prior to opening of the Spokane International Exposition of 1974.

Any person desiring to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene, and also file an explanation of their environmental position, specifying any difference with the environmental statement upon which the intervenor wishes to be heard, including therein a discussion of the factors enumerated in § 2.80 of Order 415–B. Written statement by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before 60 days from March 31, 1972. The Commission will consider all response to the statement.

KENNETH P. PLUMB,
Secretary.

OFFICE OF EMERGENCY PREPAREDNESS

WASHINGTON

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in me by the President under Executive Order 11575 of December 31, 1970; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on March 24, 1972, the President declared a major disaster as follows:

I have determined that the damages in certain areas of the State of Washington from heavy rains and flooding, beginning about February 13, 1972, are of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Washington. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in me by the President under Executive Order 11575 to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I hereby appoint Mr. Creath A. Tooley, Regional Director, OEP Region 10, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of Washington to have been adversely affected by this declared major disaster:

The Counties of:

King. Thurston.
Pierce.

Dated: March 29, 1972.

G. A. LINCOLN,
Director,
Office of Emergency Preparedness.

PRICE COMMISSION

QUARTERLY REPORTS BY INSURERS

Postponement of Time for Filing

Section 300.20(h) of the regulations of the Price Commission requires each insurer that had annual revenues of $50 million or more during the calendar year preceding any rate increase proposed by it to file a quarterly report with the Price Commission at the time the insurer normally releases its quarterly reports, but not later than 45 days after the end of the quarter, of each rate increase by it during that quarter that affects $250,000 or more in aggregate annualized premiums under the existing rate. The report is required to be made on a form prescribed by the Price Commission.

The required form is in the process of development but may not be ready for use by the time the reports are due. Therefore the Price Commission is temporarily postponing the due date for such reports until the forms have been distributed. Notice will be published when they are available so that the required reports may be made. The Commission emphasizes that this action is a postponement of the due date and not a cancellation of the requirement.

Issued in Washington, D.C., on March 30, 1972.

C. JACKSON GRAYSON, JR.,
Chairman, Price Commission.

SECURITIES AND EXCHANGE COMMISSION

[70-5176]

COLUMBIA GAS SYSTEM, INC.

Notice of Proposed Issue and Sale of Short-Term Notes in and Exception From Competitive Bidding Requirements

MARCH 27, 1972.

Notice is hereby given that the Columbia Gas System, Inc., 20 Montchanin Road, Wilmington, DE 19807 (Columbia), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 6(b) thereof and Rule 50(a) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Columbia requests that the exemption from the provisions of section 6(a) of the Act afforded to it by the first sentence of section 6(b) thereof, relating to the issue and sale of short-term notes, be increased through May 31, 1973, from 5 percent to approximately 16 percent of the principal amount and par value of the other securities of Columbia then outstanding in order to permit Columbia to have outstanding up to $195 million principal amount of proposed short-term notes, consisting of bank notes and commercial paper. Generally, Columbia will make the proceeds from the sale of these notes available to its subsidiary companies for construction, for the purchase of underground storage gas during the summer months, for other miscellaneous inventories and for other short-term seasonal requirements, in accordance with the terms of another filing with this Commission (File No. 70-5176).

Columbia proposes to issue and sell, from time to time, short-term notes in the form of commercial paper and notes to banks, in an aggregate amount not exceeding $195 million at any one time outstanding.

It is Columbia's intention to issue and sell commercial paper to one or more dealers therein, and continue to do so as long as the effective interest rate is less than the effective interest cost which Columbia would have to pay to banks for an equivalent amount of funds as of the date of borrowing, except that, in order to obtain maximum flexibility, commercial paper may be issued with a maturity of not more than 60 days from the date of issue with an effective interest cost in excess of such effective interest cost on bank borrowings.

The commercial paper will be in the form of promissory notes with maturities not to exceed 270 days, and will not be prepayable prior to maturity. The actual maturities will be determined by market conditions, effective interest cost to Columbia, and Columbia's anticipated cash requirements at the time of issue. The commercial paper notes will be issued in denominations of not less than $50,000 and not more than $1 million, and will be sold at a discount which will be not in excess of the discount rate per annum prevailing at the date of issuance for prime commercial paper of the particular maturity.

It is stated that no commission or fee will be payable in connection with the issue and sale of the commercial paper notes. Each dealer, as principal, will reoffer such notes at a discount rate of one-eighth of 1 percent per annum less than the discount rate to Columbia. The reoffering will be made to not more than an aggregate of 200 customers of the dealers, such customers to be identified and designated in lists (nonpublic) prepared in advance. No additions will be made to the customer lists, which will consist of institutional investors. It is expected that Columbia's commercial paper notes will be held by customers to maturity, but, if they wish to resell prior thereto, the applicable dealer, pursuant to a repurchase agreement, will repurchase the notes and reoffer the same to others in its specified group of customers.

Columbia requests exception from the competitive bidding requirements of Rule 50 for the proposed issue and sale of its commercial paper. In support of this request, Columbia states that the proposed commercial paper notes will have a maturity of 9 months or less, that it is not practical to invite competitive bids for commercial paper, and that current rates for commercial paper for such prime borrowers as Columbia are published daily in financial publications.

Columbia proposes that up to $85 million of the aforesaid commercial paper will be converted into inventory bank loans on or before November 1, 1972, and Columbia intends to secure credit lines from a group of 31 banks in a maximum aggregate amount of $85 million, borrowings thereunder to be repaid at or before the maturity date thereof, May 1, 1973, with cash generated from operations. The bank loans will bear interest at the minimum commercial lending rate in effect from time to time at Morgan Guaranty Trust Co. of New York, and will be prepayable, in whole or in part, at any time without penalty.

It is stated that although banks have not required that Columbia maintain minimum compensating balances, it has been a policy of Columbia to maintain bank balances which on an annual basis are somewhat in excess of 20 percent of its average annual loans. On this basis, the effective cost of the bank borrowings (based on the current prime rate of 4¾ percent) would be 5.94 percent per annum.

The proposed transactions represent interim financing of the Columbia System's requirements. Columbia states that, subject to market conditions, it expects to sell $160 million of long-term securities later in 1972; this would be the subject of a future filing or filings with the Commission.

The fees and expenses to be paid by Columbia in connection with the proposed transactions are estimated at $2,800. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 20, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[File No. 500-1]

FIRST FIDELITY CO.

Order Suspending Trading

MARCH 27, 1972.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, no par value, of First Fidelity Co. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from 11 a.m. on March 27, 1972, through April 5, 1972.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

[File No. 7-4118]

JEANNETTE CORP.

Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

MARCH 27, 1972.

In the matter of application of the Philadelphia-Baltimore-Washington Stock Exchange for unlisted trading privileges in a certain security.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is listed and registered on one or more other national securities exchange:

Jeannette Corp., File No. 7-4118.

Upon receipt of a request, on or before April 11, 1972, from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission (pursuant to delegated authority).

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.72-5019 Filed 3-31-72;8:47 am]

SELECTIVE SERVICE SYSTEM

ORGANIZATION AND SOURCES OF INFORMATION

Pursuant to 5 U.S.C. 552 the following description of the central and field organization of the Selective Service System, the established places at which the public may obtain information, and the general course and methods by which its functions are channeled and determined is published for the guidance of the public.

Creation and authority. The Selective Service System was established by the Military Selective Service Act (62 Stat. 604 as amended; 50 U.S.C. App. 451-471).

The Military Selective Service Act requires the registration of male citizens of the United States and all other male persons except certain alien nonimmigrants and alien medical, dental, or allied specialists who are in the United States who are between the ages

V 37-64 APR 1 72 XUM

of 18 and 26 years. (Alien medical, dental, or allied specialists are liable to register until age 35 years.) The act imposes liability for training and service in the Armed Forces upon registrants who are between the ages of 18 years and 6 months and 26 years except that aliens are not liable for training and service until they have remainded in the United States for more than 1 year. Some persons who have been deferred remain liable for training and service until age 35. Persons in a medical, dental, or allied specialist category who enter the United States after age 26 are liable for training and service until age 35. Conscientious objectors who are found to be opposed to any service in the Armed Forces are required to perform civilian work in lieu of induction into the Armed Forces.

The President is authorized prior to July 1, 1973, to select and induct into the Armed Forces not more than 140,000 persons as may be required to maintain the strengths of the forces in the fiscal year ending June 30, 1973, and also to provide for the selection and induction into the Armed Forces of persons qualified in needed medical, dental, or allied specialist categories pursuant to special requisitions submitted by the Secretary of Defense.

The act exempts members of the active Armed Forces and foreign diplomatic and consular personnel from registration and liability for training and service. Likewise exempted are categories of aliens, as specified by the President, who are not admitted to the United States for permanent residence. Other exemptions or deferments from training and service are provided by the act, and the President is authorized to provide, by rules and regulations, for deferments involving occupations, some kinds of study, dependency and fitness.

The President by Executive Order 11623 has delegated to the Director of Selective Service authority, subject to certain restrictions, to issue regulations to carry out the Military Selective Service Act.

Pursuant to the provisions of section 672(a) of title 10 of the United States Code (72 Stat. 1440), the Director of Selective Service determines the availability of members of the Standby Reserve of the Armed Forces for order to active duty in time of war or national emergency declared by Congress.

Purpose. The purpose of the Selective Service System is to supply the Armed Forces manpower adequate to insure the security of the United States, with concomitant regard for the maintenance of an effective national economy.

ORGANIZATION AND ACTIVITIES

Director of Selective Service. The Selective Service System is headed by the Director of Selective Service, who is appointed by the President with the consent of the Senate. The Director is responsible directly to the President for carrying out the functions of the System. The Director decides appeals from the determinations of appeal boards as to the availability of members of the Standby Reserve for order to active duty.

National Headquarters. The National Headquarters functions under the supervision of the Director and assists him. The operations of the Selective Service System are largely decentralized.

State headquarters. Each State headquarters is headed by a State director of Selective Service, who is appointed by the Director in the name of the President upon recommendation of the Governor. The State director is responsible for carrying out the functions of the Selective Service System within his area of jurisdiction. He is responsible to the Director of Selective Service for the coordination and supervision of the activities of the local boards, appeal boards, and other selective service agencies under its jurisdiction.

Local boards. At least one local board has been established in each county or political subdivision corresponding thereto except where, upon recommendation of the respective Governors, intercounty local boards have been established for areas not exceeding five counties. A local board consists of three or more civilian members, residents of a county in the local board area, who are appointed by the President upon recommendation of the Governor and serve without compensation. A special local board, with jurisdiction over all persons registered who do not have a place of residence within the United States has been established in the District of Columbia.

Each local board has the power to determine all questions or claims with respect to inclusion for, or exemption or deferment from, training and service of all men registered in, or subject to registration in, the local board area. The decisions of a local board are final, except where an appeal to an appeal board is authorized and is taken. Each local board is responsible for the registration, examination, classification, selection, delivery to the Armed Forces for induction, ordering to perform civilian work in lieu of induction, and maintenance of the records of men who are required to register and who are within its area of jurisdiction.

Appeal boards. Appeal boards have been established for each Federal judicial district in each of the States and in Puerto Rico, the Virgin Islands, Guam, the Canal Zone, and the District of Columbia. Members of appeal boards are civilians resident in the appeal board area and are appointed by the President upon recommendation of the Governor and serve without compensation. The functions of an appeal board are to decide anew the cases of registrants and members of the Standby Reserve appealed to it.

National Advisory Committee on the Selection of Physicians, Dentists, and Allied Specialists. The National Advisory Committee on the Selection of Physicians, Dentists, and Allied Specialists is located at National Headquarters. The members of this committee are appointed by the President. The functions of the National Committee are to advise the Director of Selective Service and to coordinate the work of State and local volunteer advisory committees established to cooperate with the National Committee, with respect to the availability of needed medical, dental, and allied specialists categories of persons for service in the Armed Forces. The National Committee is independent of the Selective Service System.

SOURCES OF INFORMATION

Publications. The following are examples of Selective Service publications available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402: Registrants Processing Manual, and Curriculum Guide to the Draft. Selective Service Regulations appear in Chapter XVI of Title 32, Code of Federal Regulations.

The following are available from the Public Information Office, Selective Service System: Perspective on the Draft; Hardship Deferment; Conscientious Objector; It's Your Choice; Lottery and Class 1–H; The Draft; Past, Present and Future; Doctors Draft; and Aliens.

Employment. Inquiries and application should be directed to the Director, Selective Service System, Attention: AP, 1724 F Street NW., Washington, DC 20435.

Procurement. Inquiries should be directed to Director, Selective Service System, Attention: AAPB, 1724 F Street NW., Washington, DC 20435.

For further information including names of State Directors and addresses of State Headquarters, contact the Office of Public Information, Selective Service System, 1724 F Street NW., Washington, DC 20435.

Approved: March 29, 1972.

CURTIS W. TARR,
Director of Selective Service.

[FR Doc.72-5024 Filed 3-31-72;8:48 am]

INTERSTATE COMMERCE COMMISSION

ASSIGNMENT OF HEARINGS

MARCH 29, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC-F-11170, Hyman Freightways, Inc.—Control—Tri-D Truck Line, Inc., continued to May 1, 1972, at St. Paul, Minn., in a hearing room to be later designated.

MC-F-11364, Snyder Bros. Motor Freight, Inc.—Control—Bush Van Lines, Inc., and MC 120659 Sub 2, Bush Van Lines, Inc., assigned April 17, 1972, MC 14702 Sub 35, Ohio Fast Freight, Inc., assigned April 24, 1972, and MC 128273 Sub 107, Midwestern Express, Inc., assigned April 19, 1972, will be held in Room 4 State Office Building, 65 South Front Street, Columbus, OH.

FD 26747, Baltimore & Ohio Railroad Co. Abandonment between National Road and Shawnee, in Licking and Perry Counties, Ohio, now assigned April 27, 1972, at Newark, Ohio, will be held in Chamber of Commerce Room, Masonic Temple Building, 36 West Church Street.

MC 133436 Sub 14, Dudden Elevator, Inc., assigned for hearing May 3, 1972, at Chicago, Ill., in a hearing room to be later designated.

FD 27022, The Colorado & Wyoming Railway Co. Construction and operation, Pueblo County, Colo., now being assigned hearing May 8, 1972, at Pueblo, Colo., in a hearing room to be later designated.

MC 112822 Sub 199, Bray Lines, Inc., now being assigned continued hearing May 4, 1972, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 61592 Sub 216, Jenkins Truck Line, Inc., now assigned May 3, 1972, at Chicago, Ill., is postponed indefinitely.

MC-C-7276, Manhattan Transit Co.-V-National Ski Tours, Inc., et al., now assigned for continued hearing May 8, 1972, at Washington, D.C., postponed to May 17, 1972, same time and place.

MC 16088 Sub 54, Floyd & Beasley Transfer Co., Inc., MC 35320 Sub 127, T.I.M.E.-DC, Inc., MC 41432 Sub 116, East Texas Motor Freight Lines, Inc., MC 61788 Sub 28, Georgia-Florida-Alabama Transportation Co., MC 65697 Sub 46, Theatres Service Co., MC 105881 Sub 46, M R & R Trucking Co., and MC 113528 Sub 19, Mercury Freight Lines, Inc., now being assigned for continued hearing May 15, 1972, in Room 556, Federal Office Building, 275 Peachtree Street NE., Atlanta, Ga.

MC 101186 Sub 11, Arledge Transfer, Inc., now being assigned hearing May 8, 1972, at Des Moines, Iowa, in a hearing room to be later designated.

MC 1977 Sub 14, Northwest Transport Service, Inc., now being assigned hearing May 8, 1972, at Denver, Colo., in a hearing room to be later designated.

MC 135602, Road Hog, Inc., now being assigned hearing May 8, 1972, at New York, N.Y., in a hearing room to be later designated.

[Rev. S.O. 994; ICC Order 67]

CENTRAL RAILROAD COMPANY OF NEW JERSEY

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, agent, the Central Railroad Company of New Jersey, Robert D. Timpany, trustee, is unable to transport traffic over its lines in Pennsylvania because of a cessation of operations ordered by the Federal District Court in Newark, N.J.

It is ordered, That:

(a) Rerouting traffic: The Central Railroad Company of New Jersey, Robert D. Timpany, trustees, being unable to transport traffic over its lines in Pennsylvania because of a cessation of operations ordered by the Federal District Court in Newark, N.J., this railroad and its connections are hereby authorized to reroute or divert such traffic by substituting the Lehigh Valley Railroad Co., John F. Nash and Robert C. Haldeman, trustees, for the Central Railroad of New Jersey for movement over that line in the State of Pennsylvania and/or to and from those stations of the Central Railroad Company of New Jersey, Robert D. Timpany, trustee, located in the State of Pennsylvania. No other changes in routing shall be made unless authorized by the shipper; or, if the shipment was originally unrouted, unless authorized by the origin carrier. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(c) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(d) In executing the directions of the Commission and of such agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(e) Effective date: This order shall become effective at 12:01 a.m., April 1, 1972.

(f) Expiration date: This order shall expire at 11:59 p.m., May 30, 1972, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., March 24, 1972.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[FR Doc.72-5046 Filed 3-31-72;8:49 am]

FOURTH SECTION APPLICATIONS FOR RELIEF

MARCH 29, 1972.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 42386—*Iron or steel angles and bars to specified points in Texas.* Filed by Southwestern Freight Bureau, agent (No. B-308), for interested rail carriers. Rates on angles and bars, iron or steel, in carloads, as described in the application, from points in Alabama, Georgia, Illinois, Missouri, and Oklahoma, to specified points in Texas.

Grounds for relief—Barge-truck competition, market competition, and rate relationship.

Tariff—Supplement 282 to Southwestern Freight Bureau, agent, tariff ICC 4753. Rates are published to become effective on April 26, 1972.

FSA No. 42388—*Class and commodity rates between points in Texas.* Filed by Texas-Louisiana Freight Bureau, agent (No. 657), for interested rail carriers. Rates on cups or tumblers, cooling boxes or chests, in carloads, as described in the application, from, to, and between points in Texas, over interstate routes through adjoining States.

Grounds for relief—Intrastate rates and maintenance of rates from and to points in other States not subject to the same competition.

Tariff—Supplement 136 to Texas-Louisiana Freight Bureau, agent, tariff ICC 998. Rates are published to become effective on May 2, 1972.

FSA No. 42390—*Hominy feed from and to points in southern and southwestern territories.* Filed by Southwestern Freight Bureau, agent (No. B-298), for interested rail carriers. Rates on hominy feed, in carloads, as described in the application, from and to points in southern, southwestern, and western trunkline territories.

Grounds for relief—Rate relationship.

Tariffs—Supplement 89 to Southwestern Freight Bureau, agent, tariff ICC 4901, and seven other schedules named in the application. Rates are published to become effective on May 3, 1972.

V 37 64 APR 1 72 XUM

FSA No. 42391—*General commodities between rail stations in New Jersey and ports in Japan.* Filed by Sea-Land Service, Inc. (No. 61), for itself, and interested rail carriers. Rates on general commodities, from rail stations in New Jersey, to ports in Japan.

Grounds for relief—Water competition.

Tariff—Sea-Land Service, Inc., tariff 201, ICC No. 72. Rates are published to become effective on April 21, 1972.

AGGREGATE OF INTERMEDIATES

FSA No. 42387—*Iron or steel angles and bars to specified points in Texas.* Filed by Southwestern Freight Bureau, agent (No. B-309), for interested rail carriers. Rates on angles and bars, iron or steel, in carloads, as described in the application, from points in Alabama, Georgia, Illinois, Missouri, and Oklahoma, to specified points in Texas.

Grounds for relief—Maintenance of depressed rates published to meet water and market competition without use of such rates as factors in constructing combination rates.

Tariff—Supplement 282 to Southwestern Freight Bureau, agent, tariff ICC 4753. Rates are published to become effective on April 26, 1972.

FSA No. 42389—*Class and commodity rates between points in Texas.* Filed by Texas-Louisiana Freight Bureau, agent (No. 656), for interested rail carriers. Rates on petroleum coke or petroleum coke breeze, salt cake, cups or tumblers, and cooling boxes or chests, in carloads, as described in the application, from, to, and between points in Texas, over interstate routes through adjoining States.

Grounds for relief—Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates.

Tariff—Supplements 135 and 136 to Texas-Louisiana Freight Bureau, agent, tariff ICC 998. Rates are published to become effective on May 2, 1972.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 7—AGRICULTURE

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Orange Reg. 69, Amdt. 9]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The recommendation by the Growers Administrative Committee for less restrictive grade limitations on fresh shipments of Temple oranges is consistent with the external appearance and available supply of such fruit in the production area and the current and prospective demand for such fruit by fresh market outlets. The recommended grade regulation is necessary to insure a continuous supply of good quality fruit to consumers and to improve overall returns to producers.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of Temple oranges grown in Florida.

Order. The provisions of paragraph (a)(5) of § 905.536 (Orange Regulation 69; 36 F.R. 20215, 22054, 22666, 23353, 23617, 23575, 25401; 37 F.R. 2660, 5813) are amended to read as follows:

§ 905.536 Orange Regulation 69.

(a) • • •

(5) Any Temple oranges, grown in the production area, which do not grade at least U.S. No. 2.

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated March 30, 1972, to become effective March 31, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.72–5127 Filed 4–3–72;8:51 am]

[Tangerine Reg. 42, Amdt. 5]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The recommendation by the Growers Administrative Committee for less restrictive size limitations on fresh shipments of tangerines is consistent with the available supply of and current and prospective demand for such smaller sizes of tangerines by fresh market outlets. The amendment is necessary to provide a supply of tangerines to consumers and to improve overall returns to producers.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of tangerines grown in Florida.

Order. In § 905.537 (Tangerine Regulation 42; 36 F.R. 20215, 22054, 22667, 23354, 24111) paragraph (a)(2) is amended to read as follows:

§ 905.537 Tangerine Regulation 42.

(a) • • •

(2) Any tangerines, grown in the production area, which are of a size smaller than $2\frac{2}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of tangerines smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the U.S. Standards for Florida Tangerines.

• • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, March 30, 1972, to become effective March 31, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.72–5128 Filed 4–3–72;8:51 am]

PART 987—DOMESTIC DATES PRODUCED OR PACKED IN RIVERSIDE COUNTY, CALIF.

Disposition of Other Than Free Dates

Notice was published in the February 29, 1972, issue of the FEDERAL REGISTER (37 F.R. 4196) regarding a proposal to amend Subpart—Administrative Rules and Regulations (7 CFR Part 987.100–987.174; 36 F.R. 23137; 37 F.R. 1159; 37 F.R. 5282) to authorize the exportation to groups of countries of restricted and other marketable dates certified as meeting the minimum grade requirements for restricted dates for further processing. The proposal was pursuant to § 987.55 of the marketing agreement, as amended, and Order No. 987, as amended (7 CFR Part 987; 36 F.R. 15053), regulating the handling of domestic dates produced or packed in Riverside County, Calif. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was based on a unanimous recommendation of the California Date Administrative Committee.

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the

V 37-65 APR 4 72 XUM

proposal; one such submission was received from the California Date Administrative Committee.

Section 987.55 authorizes, among other things, the Committee, with the approval of the Secretary, to establish by country or groups of countries such special grade requirements for any variety of restricted dates for export as are deemed essential to the promotion of orderly marketing and facilitate sales of such dates in export. That section also provides for the exportation of dates other than restricted dates (i.e., other marketable dates) if they meet the applicable requirements for export.

Currently, dates for further processing may be exported only to France and Belgium. However, processors in other countries have expressed interest in importing such dates. Date processing firms are located in the date producing countries of Morocco, Algeria, Tunisia, Libya, Egypt, and Sudan, and in the date consuming countries of Spain, West Germany, Italy, Greece, as well as France and Belgium.

To promote orderly marketing and facilitate export sales of dates meeting the applicable grade requirements for restricted dates for further processing, two groups of countries should be established. One group is to consist of the known date processing and producing countries in North Africa: Morocco, Algeria, Tunisia, Libya, Egypt, and Sudan. The other group is to consist of the known processing and consuming countries north of the Mediterranean Sea: Spain, France, Belgium, West Germany, Italy, and Greece. Additional processing countries in these areas should be designated by the Commitee, with the approval of the Secretary, as they become known and be added to the appropriate list.

It was proposed in the notice that the grade requirements prescribed in § 987.203(b)(2) for dates for further processing be applied to dates exported to those groups of countries. However, in its comments, the Committee stated that the higher grade requirements prescribed in § 987.203(b)(1) for dates for further processing should be applied to such dates. The Committee's recommendation is adopted.

Adoption of the Committee's recommendation requires insertion of a reference to § 987.155(a)(5) in § 987.203(b)(1) to make it clear that the grade requirements currently prescribed therein for certain dates for further processing for export to approved or particular countries are also applicable to the groups of countries prescribed in § 987.155(a)(5).

After consideration of all relevant matter presented, including that in the notice, the recommendation of the Committee and the written comments received from it pursuant to the notice, and other available information, it is hereby found that amendment of Subpart—Administrative Rules and Regulations establishing the two groups of countries, as hereinafter set forth, for export of restricted and other marketable dates certified as meeting the applicable grade requirements of § 987.203(b)(1) for further processing, is deemed essential to the promotion of orderly marketing and facilitate sales of such dates in export.

It is, therefore, ordered, That Subpart—Administrative Rules and Regulations (7 CFR 987.100–987.174; 36 F.R. 23137; 37 F.R. 1159; and 37 F.R. 5282) and Subpart—Grade and Size Regulations (7 CFR 987.202–987.218; 36 F.R. 23894; 37 F.R. 4900; and 37 F.R. 5282) be amended as follows:

1. In § 987.155(a)(1) "or (5)" is added immediately after "subparagraph (2)".

2. A new subparagraph (5) is added to paragraph (a) of § 987.155 reading as follows:

§ 987.155 Disposition of restricted and other marketable dates by export or diversion.

(a) • • •

(5) Restricted and other marketable dates certified as meeting the then current grade requirements in § 987.203(b)(1) for restricted dates for further processing may be exported (i) to the following designated date producing and processing countries of North Africa: Morocco, Algeria, Tunisia, Libya, Egypt, and Sudan, and (ii) to the following designated date processing and consuming countries north of the Mediterranean Sea: Spain, France, Belgium, West Germany, Italy, and Greece. Additional such date producing and processing and date processing and consuming countries may from time to time be similarly designated, after which such certified dates may be exported to such countries.

• • • • •

§ 987.203 [Amended]

3. In § 987.203(b)(1), delete the "and" between "§ 987.155(a)(1) and (2)", insert a comma after "(a)(1)" and insert "and (5)" after "(2)".

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) This action relieves restrictions by permitting exportation of dates for further processing to additional countries; (2) processors in foreign countries have expressed interest in importing such dates, and the California date industry should be afforded opportunity to supply such dates as soon as requests therefor are received; (3) handlers are aware of this interest, are prepared to export such dates immediately, and require no additional time for preparation; and (4) no useful purpose would be served by postponing the effective time of this action.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated March 30, 1972, to become effective upon publication in the FEDERAL REGISTER (4–4–72).

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Reg., 1971-Crop Wheat Supp., Amdt. 1]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1971-Crop Wheat Loan and Purchase Program

SUPPORT RATES, PREMIUMS AND DISCOUNTS

The regulations issued by the Commodity Credit Corporation, published at 36 F.R. 11714, containing regulations for the loan and purchase program applicable to the 1971 crop of wheat are amended to include wheat grading Ergoty which contains less than 5 percent ergot as eligible for warehouse storage loans with appropriate discounts for such quality of wheat. Significant quantities of 1971-crop wheat produced in some areas are grading "Ergoty". Without this relaxation of eligibility requirements, many producers who would otherwise be eligible for warehouse loans on wheat would be denied the advantages of the loan program. In view of this and the fact that loans are currently being made on 1971-crop wheat, it is hereby found and determined that compliance with the notice of proposed rule making procedure provided for in the Statement of Policy issued by the Secretary on July 20, 1971 (36 F.R. 13804), is impracticable and contrary to the public interest. Therefore, this amendment is being issued without following the proposed rule making procedure and will be effective on filing with the Office of the Federal Register.

This amendment to the regulations is as follows:

In § 1421.489, paragraph (b)(2), the following is added at the end of subdivision (ii):

Notwithstanding the provisions of paragraph (b)(4) of § 1421.461, wheat grading Ergoty which contains less than 5 percent of ergot will be eligible for a warehouse storage loan provided the wheat otherwise meets the eligibility requirements of § 1421.461. The following discounts shall apply:

Ergot content (percent)	*Discount (cents per bushel)*
0.31–0.40	1
0.41–0.50	2
0.51–0.60	3
0.61–0.70	4
0.71–0.80	5
0.81–0.90	6
0.91–1.00	7
1.01–4.99	10

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 107, 401, 63 Stat. 1051, 1054; 15 U.S.C. 714c, 7 U.S.C. 1441, 1421)

Effective date: Upon filing with the Office of the Federal Register.

Signed at Washington, D.C., on March 28, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 72–EA–22, Amdt. 39–1429]

PART 39—AIRWORTHINESS DIRECTIVES

Consolidated Aeronautic Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Lake- and Colonial-type airplanes.

There has been a report of an inflight failure of a rod-end bearing on an LA–4 type airplane causing a loss of flap control. Because of the similarity of parts the foregoing deficiency can also exist on Colonial Aircraft. Thus an airworthiness directive is being issued to require a repetitive inspection and replacement when necessary.

Since the foregoing affects air safety, expeditious adoption of the amendment is required. Thus notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In view of the foregoing, the amendment is herewith made effective upon publication in the FEDERAL REGISTER (4–4–72).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

CONSOLIDATED AERONAUTICS. Applies to Colonial Model C–1, C–2, and Lake Model LA–4, LA–4A, LA–4P, and LA–4–200 airplanes certificated in all categories, incorporating Flap Actuator Pushrod Assembly, Lake Aircraft Corporation P/N 2–7811–7.

Compliance required as indicated.

To prevent hazards in flight as a result of the failure of the rod-end bearing, P/N HM–5C, connected to the flap pushrod, P/N 2–7811–21, accomplish the following:

(a) Within the next 15 hours in service after the effective date of this AD, unless already accomplished within the last 10 hours in service, and at intervals thereafter not to exceed 25 hours in service from the last inspection:

Remove the rod-end bearing P/N HM–5C at the forward end of the flap pushrod:

(1) Visually inspect the rod-end bearing for corrosion and for freedom of motion of the ball. Lubricate the ball before reinstalling the rod end.

(2) With at least a 10-power glass, inspect the threaded portion of P/N HM–5C for cracks.

(b) Corroded, cracked, and binding parts must be replaced before further flight with parts inspected in accordance with this directive or with equivalent parts.

(c) When P/N HM–5C or an equivalent part is installed, the repetitive inspection specified in paragraph (a) may be discontinued.

(d) Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the repetitive inspection interval specified in this AD. Equivalent parts must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region. [Lake Aircraft Division, Consolidated Aeronautics, Service Letter No. 39 pertains to this subject.]

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y. on March 23, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.72–5052 Filed 4–3–72;8:45 am]

[Airspace Docket No. 72–EA–26]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Transition Area

The Federal Aviation Administration is amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Wrightstown, N.J., Transition Area (37 F.R. 2308).

Due to a recent cancellation of instrument approach and departure procedures to Red Bank Airport, Red Bank, N.J., there is no further need for portions of the subject transition area.

Since the foregoing is less restrictive in nature and imposes no burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective upon publication in the FEDERAL REGISTER (4–4–72), as follows:

Amend § 71.181 of Part 71, Federal Aviation Regulations, so as to amend the Wrightstown, N.J., 700-foot-floor transition area by deleting, "Within a 5-mile radius of Red Bank Airport (latitude 40°19'45" N., longitude 74°04'45" W.); within 3 miles north and 5 miles south of the Colts Neck VOR 255° and 075° radials extending from 5 miles east to 10 miles west of the VOR;" from the description.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on March 21, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.72–5053 Filed 4–3–72;8:45 am]

[Airspace Docket No. 72–EA–30]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Revocation of Control Zone

The Federal Aviation Administration is amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to revoke the Dublin, Va., Control Zone (37 F.R. 1359).

As of April 13, 1972, weather reporting service will no longer be available for the control zone. In view of the foregoing, it will be necessary to revoke the control zone.

Since the foregoing is a revocation of a rule and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, the proposed regulation is hereby adotped, effective 2200 G.m.t. April 12, 1972, as follows:

Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to revoke the Dublin, Va., control zone.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on March 17, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C–2165]

PART 13—PROHIBITED TRADE PRACTICES

Gregory & Goldberg, Inc., and Harry Goldberg

Subpart—Importing, selling, or transporting flammable wear: § 13.1060 *Importing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Gregory & Goldberg, Inc., et al., New York, N.Y., Docket No. C–2165, Mar. 6, 1972]

In the Matter of Gregory & Goldberg, Inc., a Corporation, and Harry Goldberg, Individually and as an Officer of Said Corporation

Consent order requiring a New York City manufacturer and seller of women's apparel, including feather fabrics, to cease violating the Flammable Fabrics Act by importing and selling any fabric which fails to conform to the standards of said Act.

V 37-65 APR 4 72 XUM

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Gregory & Goldberg, Inc., a corporation, and its officers, and Harry Goldberg, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, do forthwith cease and desist from manufacturing for sale, selling or offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported, in commerce, or selling or delivering after a sale or shipment in commerce, any product, fabric, or related material; or manufacturing for sale, selling or offering for sale any product made of fabric or related material which has been shipped or received in commerce, as "commerce", "product", "fabric" and "related material" are defined in the Flammable Fabrics Act, as amended, which product, fabric, or related material fails to conform to an applicable standard or regulation issued, amended, or continued in effect, under the provisions of the aforesaid Act.

It is further ordered, That respondents notify all of their customers who have purchased or to whom have been delivered the feather fabric which gave rise to this complaint of the flammable nature of said feather fabric and effect recall of said feather fabric from such customers.

It is further ordered, That the respondents herein either process the feather fabric which gave rise to the complaint so as to bring it into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said feather fabric.

It is further ordered, That the respondents herein shall, within ten (10) days after service upon them of this order, file with the Commission a special report in writing setting forth the respondents' intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the fabrics which gave rise to the complaint, (2) the amount of said fabrics in inventory, (3) any action taken and any further actions proposed to be taken to notify customers of the flammability of said fabrics and effect the recall of said fabrics and of the results thereof, (4) any disposition of said fabrics since April 1, 1970, and (5) any action taken or proposed to be taken to bring said fabrics into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said fabrics, and the results of such action. Such report shall further inform the Commission as to whether or not respondents have in inventory any product, fabric, or related material having a plain surface and made of paper, silk, rayon and acetate, nylon and acetate, rayon, cotton, or any other material or combinations thereof in a weight of 2 ounces or less per square yard, or any product, fabric, or related material having a raised fiber surface. Respondents shall submit samples of not less than 1 square yard in size of any such product, fabric, or related material with this report.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: March 6, 1972.

By the Commission.

[Docket No. C-2166]

PART 13—PROHIBITED TRADE PRACTICES

Orr's of Bethlehem, Inc.

Subpart—Importing, selling, or transporting flammable wear: § 13.1060 *Importing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Orr's of Bethlehem, Inc., Bethlehem, Pa., Docket No. C-2166, Mar. 6, 1972]

In the Matter of Orr's of Bethlehem, Inc., a Corporation

Consent order requiring a Bethlehem, Pa., seller and distributor of ladies', men's and children's wearing apparel and accessories, including women's fake fur coats, to cease violating the Flammable Fabrics Act by importing and selling any fabric which fails to conform to the standards of said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That the respondent Orr's of Bethlehem, Inc., a corporation, its successors and assigns, its officers and respondents' representatives, agents, and employees:

It is ordered, That the respondent Orr's of Bethlehem, Inc., a corporation, its successors and assigns, its officers and respondents' representatives, agents and employees, directly or through any corporate or other device, do forthwith cease and desist from selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any product, fabric, or related material; or manufacturing for sale, selling, or offering for sale, any product made of fabric or related material which has been shipped or received in commerce, as "commerce," "product," "fabric" or "related material" are defined in the Flammable Fabrics Act, as amended, which product, fabric, or related material fails to conform to any applicable standard or regulations continued in effect, issued, or amended under the provisions of the aforesaid Act.

It is further ordered, That the respondent notify all of its stores to whom have been delivered the products which gave rise to the complaint, of the flammable nature of said products, and effect recall of said products from such stores and, if identified, their customers.

It is further ordered, That the respondent either process the products which gave rise to the complaint so as to bring them into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products.

It is further ordered, That the respondent herein shall, within ten (10) days after service upon it of this order, file with the Commission a special report in writing setting forth the respondent's intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the products which gave rise to the complaint, (2) the number of said products in inventory, (3) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products and effect the recall of said products and of results thereof, (4) any disposition of said products since October 30, 1971, and (5) any action taken or proposed to be taken to bring said products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products, and the results of such action. Such report shall further inform the Commission as to whether or not respondents have in inventory any product, fabric, or related material having a plain surface and made of paper, silk, rayon and acetate, nylon and acetate, rayon, cotton, or any other material or combination thereof in a weight of 2 ounces or less per square yard, or any product, fabric, or related material having a raised fiber surface. Upon request of the Commission the respondent shall submit samples of not less than 1 square yard in size of any such product, fabric, or related material with this report.

It is further ordered, That respondent notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

Issued: March 6, 1972.

By the Commission.

Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852-70 Textile Fiber Products Identification Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 72 Stat. 1717, 67 Stat. 111, as amended; 15 U.S.C. 45, 70, 1191) [Cease and desist order, F. W. Woolworth Co., New York, N.Y., Docket No. C-2167, Mar. 6, 1972]

In the Matter of F. W. Woolworth Co., a Corporation

Consent order requiring a New York City seller and distributor of textile fiber products and flammable fabrics, including ladies' pajamas, to cease violating the Textile Fiber Products Identification Act and the Flammable Fabrics Act by misbranding its textile fiber products and importing and selling any fabric which fails to conform to the standards of the Flammable Fabrics Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent F. W. Woolworth Co., a corporation, and its officers, and respondent's representatives, agents, and employees, directly or through any corporate or other device, do forthwith cease and desist from selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any ladies' pajamas; or any product, fabric, or related material, imported by or manufactured under the control or direction of F. W. Woolworth Co., as the terms "commerce", "product", "fabric", or "related material" are defined in the Flammable Fabrics Act, as amended; or any other product, fabric, or related material, the manufacturer of which has not furnished a guaranty under section 8(a) of the Flammable Fabrics Act, as amended; and which ladies' pajamas, products, fabrics, or related material fail to conform to an applicable standard or regulation, issued, amended, or continued in effect under the provisions of the aforesaid Act; *Provided, however*, Nothing herein shall accord to the respondent immunity from any subsequent proceedings under section 3, 6(a), or 6(b) of the Flammable Fabrics Act, as amended. Further, nothing herein shall limit the authority of the Commission to extend the terms of the order to products, fabrics, or related materials presently excluded from this order in any subsequent proceeding against the respondent.

It is further ordered, That respondent notify all of its customers who have purchased or to whom have been delivered the products which gave rise to the complaint, of the flammable nature of said products, and effect the recall of said products from such customers.

It is further ordered, That the respondent herein either process the products which gave rise to the complaint so as to bring them into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products.

It is further ordered, That the respondent herein shall, within ten (10) days after service upon it of this order, file with the Commission a special report in writing setting forth the respondent's intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the products which gave rise to the complaint, (2) the number of said products in inventory, (3) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products and effect the recall of said products from customers, and of the results thereof, (4) any disposition of said products since April 16, 1971, and (5) any action taken or proposed to be taken to bring said products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products, and the results of such action. Such report shall further inform the Commission as to whether or not respondent has in inventory any product, fabric, or related material having a plain surface and made of paper, silk, rayon and acetate, nylon and acetate, rayon, cotton, or any other material or combinations thereof, in a weight of 2 ounces or less per square yard, or any product, fabric, or related material having a raised fiber surface. Upon request of the Commission the respondent shall submit samples of not less than 1 square yard in size of any product, fabric, or related material.

It is further ordered, That respondent F. W. Woolworth Co., a corporation and its officers, and respondent's representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction, delivery for introduction, manufacture for introduction, sale, advertising, or offering for sale, in commerce, or the transportation or causing to be transported in commerce, or the importation into the United States, of any textile fiber product; or in connection with the sale, offering for sale, advertising, delivery, transportation, or causing to be transported, of any textile fiber product, which has been advertised or offered for sale in commerce; or in connection with the sale, offering for sale, advertising, delivery, transportation, or causing to be transported, after shipment in commerce, of any textile fiber product, whether in its original state or contained in other textile fiber products, as the terms "commerce" and "textile fiber product" are defined in the Textile Fiber Products Identification Act, do forthwith cease and desist from misbranding textile fiber products by failing to affix labels to each such product showing in a clear, legible, and conspicuous manner each element of information required to be disclosed by section 4(b) of the Textile Fiber Products Identification Act.

It is further ordered, That respondent notify the Commission at least 30 days prior to any proposed change in the corporate respondent, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: March 6, 1972.

By the Commission.

V 37-65 APR 4 72 XUM

to provide for the use of an acidified break process:

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055–56 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections or requests for a hearing were filed to the order in the above-identified matter published in the FEDERAL REGISTER of December 30, 1971 (36 F.R. 25223). Accordingly, the amendment promulgated by that order became effective February 28, 1972.

Dated: March 24, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–5110 Filed 4–3–72;8:50 am]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

FERMENTATION-DERIVED, MILK-CLOTTING ENZYME

Two petitions were filed proposing that the food additives regulation for safe use of fermentation-derived, milk-clotting enzymes in making cheese (21 CFR 121.1199) be amended to extend it to enzyme preparations derived from *Mucor miehei*. One of the petitions (FAP 1A2655) was filed by Wallerstein Laboratories, Division of Travenol Laboratories, Morton Grove, Ill. The other petition (FAP 2A2712) was filed by Novo Enzyme Corp., Mamaroneck, N.Y. Since a single amendment of the regulation is responsive to both petitions they are being approved together.

The Commissioner of Food and Drugs, having evaluated the data in both of the above-identified petitions, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for the safe use in cheese production of milk-clotting enzyme preparations derived from *Mucor miehei* by pure-culture fermentation processes.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1199 is amended in paragraph (a) by adding a new subparagraph as follows:

§ 121.1199 Fermentation-derived, milk-clotting enzyme.

• • • • • •

(a) • • •

(4) *Mucor miehei* Cooney et Emerson classified as follows: Class, Phycomycetes; subclass, Zygomycetes; order, Mucorales; family, Mucoraceae; genus, *Mucor;* species, *miehei;* variety, Cooney et Emerson.

• • • • • •

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4–4–72).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: March 27, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–5109 Filed 4–3–72;8:50 am]

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Coumaphos

The Commissioner of Food and Drugs has evaluated a new animal drug application (45–287V) filed by Chemagro Corp., Hawthorne Road, Post Office Box 4913, Kansas City, Mo. 64120, proposing an amendment to the regulations to provide for use of Coumaphos Crumbles for the control of gastrointestinal roundworms in cattle. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended by adding the following new section:

§ 135c.65 Coumaphos crumbles.

(a) *Chemical name.* O,O-Diethyl O-3-chloro-4-methyl-2-oxo-2H-1-benzopyran-7-yl-phosphorothioate.

(b) *Specifications.* Coumaphos Crumbles contain 0.32 percent coumaphos.

(c) *Sponsor.* See code No. 007 in § 135.501(c) of this chapter.

(d) *Special considerations.* Adequate directions and warnings for use must be given and shall include a statement that coumaphos is a cholinesterase inhibitor and that animals being treated with coumaphos should not be exposed during or within a few days before or after treatment with any other cholinesterase inhibiting drugs, insecticides, pesticides, or chemicals.

(e) *Related tolerances.* See 40 CFR 180.189.

(f) *Conditions of use.* It is used as a top dressing on the daily feed ration of cattle for the control of gastrointestinal roundworms (*Haemonchus* spp., *Ostertagia* spp., *Cooperia* spp., *Nematodirus* spp., and *Trichostrongylus* spp.). It is administered at the rate of 1 ounce of coumaphos crumbles per 100 pounds of body weight per day for six consecutive days. Should conditions warrant, treatment should be repeated at 30 day intervals. Not to be fed to cattle less than 3 months old. Not to be fed to sick animals or animals under stress such as those just shipped, dehorned, castrated, or weaned within the previous 3 weeks. Not to be used in conjunction with oral drenches or with feeds containing phenothiazine.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER. (4–4–72)

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 24, 1972.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

[FR Doc.72–5112 Filed 4–3–72;8:50 am]

PART 165—HABIT-FORMING DRUGS

Revocation of Exemption of Paregoric From Prescription Requirements

In the FEDERAL REGISTER of October 20, 1971 (36 F.R. 20306), a notice was published proposing to remove the exemption of paregoric, a camphorated tincture of opium, and other opium-containing combinations from the prescription dispensing requirements of section 503(b)(1)(A) of the Federal Food, Drug, and Cosmetic Act under § 165.5(a)(1) of the habit-forming drug regulations (21 CFR 165.5(a)(1)).

Comments came from six different sources and were varied. The American Pharmaceutical Association, two pharmaceutical manufacturers, and a private individual opposed the proposal. A law enforcement agency and a State pharmaceutical association favored the proposal.

The following comments were made in opposition to the proposal:

1. Paregoric has served as a low-cost, readily-available, and legitimate home remedy for many years. Prescription dispensing of the drug would make it more expensive for the consumer.

2. The decision to place paregoric in prescription status should be left to the discretion of the individual States.

3. The proposed action should be revised so as not to apply to paregoric-containing combination drugs having lower levels of opium. These drugs have a limited potential for abuse and are adequately regulated by their classification in Schedule V of the Comprehensive Drug Abuse Prevention and Control Act of 1970. The Department of Justice's Bureau of Narcotics and Dangerous Drugs shares this opinion.

The following comments were made in favor of the proposal:

(1) The revocation will provide for better enforcement of the Controlled Substances Act of 1970 by eliminating problems encountered within States where paregoric is not subject to prescription dispensing.

(2) The revocation will provide for better enforcement of the Controlled Substances Act of 1970 by eliminating the problems experienced by the practicing pharmacists because of differing policies toward paregoric in adjacent States.

(3) In addition to the documented abuse by addicts, experience among law enforcement agencies indicates that paregoric may be used by "neophyte addicts" as a bridge leading to abuse of the so-called "hard" narcotics such as heroin and cocaine.

The Commissioner of Food and Drugs has considered the comments and finds that paregoric should be restricted to prescription sale. Because of the documented abuse potential of paregoric, neither long-standing availability nor price should serve as criteria for continuing its over-the-counter status. Further, the Commissioner finds that, in view of the limited potential for abuse of the paregoric-containing combinations which have lower levels of opium and are provided for in Schedule V of the Comprehensive Drug Abuse Prevention and Control Act of 1970, such preparations need not be restricted to prescription sale.

Accordingly, the Commissioner of Food and Drugs concludes that it is in the public interest for paregoric and other products containing more than 100 milligrams of opium per 100 milliliters or per 100 grams to be restricted to prescription sale. Therefore they must be labeled with the statement, "Caution: Federal law prohibits dispensing without prescription," as required by section 503(b)(4) of the Federal Food, Drug, and Cosmetic Act.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502(a) and (f), 503(b), 701(a), 52 Stat. 1050–52 as amended, 1055; 21 U.S.C. 352(a) and (f), 353(b), 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), § 165.5 is amended by revising paragraph (a)(1) to read as follows:

§ 165.5 Exemption of certain habit-forming drugs from prescription requirements.

• • • • • •

(a) • • •

(1) Pharmaceutical preparations containing not more than 100 milligrams of opium per 100 milliliters or per 100 grams.

• • • • • •

Effective date. This order shall become effective 60 days after its date of publication in the FEDERAL REGISTER.

(Secs. 502(a) and (f), 503(b), 701(a), 52 Stat. 1050–52 as amended, 1055; 21 U.S.C. 352(a) and (f), 353(b), 371(a))

Dated: March 24, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–5111 Filed 4–3–72;8:50 am]

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 2—PUBLIC USE AND RECREATION

Possession and Use of Drugs and Alcohol

On page 1365 of the FEDERAL REGISTER of January 28, 1972, there was published a notice of proposed rule making to amend Title 36 of the Code of Federal Regulations by addition of § 2.37 containing regulations governing use and possession of drugs in areas of the National Park System, and to amend existing National Park Service regulations in § 2.16 concerning intoxication and possession of alcohol by minors.

The effect of the amendments is to prohibit possession and delivery of certain drugs in park areas and to transfer regulations concerning drug incapacitation from § 2.16 to the new § 2.37. Slight changes in wording were made in § 2.16.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations. No comments have been received and therefore the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These regulations shall be effective 30 days after publication of this notice in the FEDERAL REGISTER.

(5 U.S.C. 553; 39 Stat. 535; as amended; 16 U.S.C. 3)

Dated: March 27, 1972.

RAYMOND L. FREEMAN,
Acting Director, National Park Service.

Section 2.16(a) is amended to read as follows:

§ 2.16 Intoxication; possession of alcohol by minors.

(a) Presence in a park area when under the influence of alcohol, to a degree that may endanger oneself, or another person, or property, or may cause unreasonable interference with another person's enjoyment of a park area is prohibited.

• • • • • •

Section 2.37 is added to read as follows:

§ 2.37 Possession and delivery of controlled substances: Incapacitation.

(a) *Definitions.* (1) The term "controlled substance" means a drug or other substance, or immediate precursor, included in Schedules I, II, III, IV, or V of Part B of the Controlled Substance Act (title 21, United States Code, section 812) or any drug or substance added to these schedules pursuant to the terms of the Act.

(2) The term "practitioner" means a physician, dentist, veterinarian, scientific investigator, pharmacy, hospital, or other person licensed, registered, or otherwise permitted by the United States or the jurisdiction in which he practices to distribute or possess a controlled substance in the course of professional practice.

(3) The term "delivery" means the actual, attempted or constructive transfer of a controlled substance, whether or not there exists an agency relationship.

(b) *Offenses.* (1) The delivery of any controlled substance is prohibited, provided that distribution by a practitioner in accordance with applicable law is permitted.

(2) The possession of a controlled substance is prohibited unless such substance was obtained by the possessor directly, or pursuant to a valid prescription or order, from a practitioner acting in the course of his professional practice, or except as otherwise authorized by applicable law.

(3) Presence in a park area when under the influence of a controlled substance to a degree that may endanger oneself, or another person, or property, or may cause unreasonable interference with another person's enjoyment of a park area, is prohibited.

[FR Doc.72–5085 Filed 4–3–72;8:48 am]

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 4—Department of Agriculture

PROCUREMENT

Miscellaneous Amendments to Chapter

These amendments involve matters relating to agency management and to contracts and include rules interpreting and implementing existing regulations of other Federal agencies which are not subject to the notice and public procedure requirements for rule making under 5 U.S.C. 553. It is in the public interest that these provisions be made effective immediately. Accordingly, in accordance with the Secretary's Statement of Policy (36 F.R. 13804) it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest.

(Executive Order 11246, as amended; 26 U.S.C. 50)

PART 4–4—SPECIAL TYPES AND METHODS OF PROCUREMENT

1. Section 4–4.5099 is amended by adding paragraph (d) as follows:

V 37-65 APR 4 72 XUM

§ 4–4.5099 Visual services.

* * * * *

(d) *Microform Retrieval Equipment Guide.* As a guide for determining equipment selection and other general information concerning the uses of microfilm retrieval equipment, agencies may obtain from GSA supply depots the Microform Retrieval Equipment Guide. Ordering information is shown below.

Stock No.	Title
7610–181–7579	Microform Retrieval Equipment Guide

PART 4–12—LABOR

1. Section 4–12.805–5 is amended by revising paragraph (c) and adding paragraph (d) as follows:

§ 4–12.805–5 Compliance reviews.

* * * * *

(c) The following information shall be prepared by each agency for all active construction contracts exceeding $10,000 (except FHA need not report single dwelling construction and REA shall submit loan announcements and annual statistical reports in lieu of these requirements) and submitted in duplicate to the Contract and Supply Management Staff, Office of Plant and Operations, by January 20 for the 6-month period July 1 through December 31, and by July 20 for the 6-month period January 1 through June 30 of each fiscal year:

(1) Name of agency;

(2) Contract number;

(3) Description and location of project;

(4) Names and address of contractor(s);

(5) Amount of contract and date of award;

(6) Percent of completion.

(d) The Federal agency awarding or administering a federally involved construction contract in a "Hometown" or "Imposed" plan area has the responsibility of ensuring that the contractors and subcontractors are informed of their contractual obligations under Executive Order 11246, as amended. Compliance reviews are the responsibility of the Department as stated in paragraph (a) of this section. However, agencies shall take measures to provide assistance in the programs for equal employment opportunity in the construction industry. The following are construction compliance review procedures applicable to "Hometown" and "Imposed" plan areas as listed in § 4–12.810 and Part 4–52 of this chapter:

(1) *General*—(i) *Purpose.* The construction compliance review is to determine whether the contractor and all covered subcontractors are in compliance with the Executive Order.

(ii) *General method.* The time needed for a compliance review will vary according to the size of the project. There will be two important phases in each review. In phase one, taking place before the site visit, the Compliance Officer will analyze the personnel, personnel policies, practices and programs of the prime and subcontractors to determine problem areas, if any. In the second phase, the Compliance Officer will conduct site visits and prepare a detailed compliance review report.

(iii) *Site visits.* Site visits shall be scheduled in accordance with the type of construction project that is being accomplished. The projected construction flow system (PERT Chart) for major projects, which is developed by most prime contractors, will provide information as to where the project will be at various phases. An agency's engineering office can also predict anticipated progress. The site visits for building construction should be scheduled approximately as follows:

Time of visit	Percent of completion
1st	10–15 percent (Or the period when the foundation is being poured and structure is about to rise out of the excavation).
2d	45–55 percent (Or the period when the structure is going up and the framing work is underway).
3d	70–80 percent (Or the period just before the finishing work begins).

Timing of site visits for other projects, such as roads and bridges, should be based upon the principle expressed above.

(2) *Phase 1 of the review.* Most actions during this phase will be accomplished by the Compliance Officer. Thirty days prior to each site visit, the Compliance Officer shall notify the prime contractor of a visit and request a meeting space be reserved on the day of the visit at the home office or at the job site. The Contracting Officer shall be notified in a similar manner. The Contracting Officer shall also be furnished information relative to the affirmative action progress of the prime contractor and subcontractors.

(3) *Phase 2 of the review.* The Compliance Officer shall accomplish the following during each initial site visit:

(i) Inform contractor and subcontractors of the objective of the visit.

(ii) Inform the contractor how he will be advised of the results and what action may be required of him and his subcontractors.

(iii) Discussion of actual workings of the contractor's hiring practices.

(iv) The Compliance Officer shall make a physical tour of the construction site to determine whether or not EEO posters are properly displayed and physical facilities are integrated and to substantiate data by a head count and employee interview.

(v) Determination of employee job category, upgrading opportunities, and how employees were placed on the job shall be accomplished.

Subsequent reviews will involve checking on the progress of contractor's minority manpower utilization goals contained in the plan and a review of progress made concerning any deficiencies noted in the initial review.

2. Section 4–12.810(d) is revised to read as follows:

§ 4–12.810 Affirmative action compliance program.

* * * * *

(d) Bid conditions for all nonexempt Federal and federally assisted construction contracts. "Hometown" and "Imposed" plans contain bid conditions that set forth affirmative action and equal employment opportunity requirements that are to be included in all invitation for bids for use in connection with nonexempt Federal and federally assisted construction contracts located in the plan areas. Nonexempt Federal and federally assisted construction contracts are those estimated to exceed $10,000 for "Hometown" plans and $500,000 for "Imposed" plans. The bid conditions for "Imposed" plans are listed in Part 4–52 of this chapter. The following is a listing of "Hometown" plans:

(1) *Alameda.* Alameda County, Calif.

(2) *Arizona.* State of Arizona.

(3) *Boston.* Cities of Arlington, Boston, Belmont, Brookline, Burlington, Cambridge, Canton, Chelsea, Dedham, Everett, Malden, Medford, Melrose, Milton, Norwood, Reading, Revere, Sommerville, Stoneham, Wakefield, Westwood, Winthrop, Winchester, Woburn, and the Islands of Boston Harbor, Mass.

(4) *Buffalo.* Erie County and Buffalo, N.Y.

(5) *Cincinnati.* Ohio counties of Clermont, Hamilton, and Warren and in the Kentucky counties of Boone, Campbell, Kenton, and Dearborn.

(6) *Cleveland.* Cuyahoga, Carroll, Medina, Ashtabula, Erie, Geauga, Huron, Lake, Lorain, Seneca, Sandusky, Coshocton, Harrison, Holmes, Tuscarawas, Wayne, Ashland, Crawford, and Ottawa Counties, Ohio.

(7) *Contra Costa.* Contra Costa County, Calif.

(8) *Dayton.* Greene, Miami, Montgomery, and Preble Counties, Ohio.

(9) *Delaware.* State of Delaware.

(10) *Denver.* Adams, Boulder, Jefferson, Arapahoe, and Denver Counties, Colo.

(11) *Detroit.* Wayne, Oakland, and Macomb Counties, Mich.

(12) *El Paso.* El Paso County, Tex.

(13) *Evansville.* Vanderburgh County, Ind.

(14) *Fresno.* Fresno, Madera, Kings, and Tulare Counties, Calif.

(15) *Indianapolis.* Marion County, Ind.

(16) *Kansas City.* Clay, Platte, Jackson, Bates, Carroll, Lafayette, Ray, Johnson, Henry, and Cass Counties, Mo.; and Wyandotte, Johnson, and Miami Counties, Kans.

(17) *Little Rock.* Pulaski County, Ark.

(18) *Los Angeles.* Los Angeles County, Calif.

(19) *Monterey.* Monterey County, Calif.

(20) *Nashville.* City of Nashville, Tenn.

(21) *New Bedford.* New Bedford, Dartmouth, Fairhaven, Acushnett, Rochester, Marion, Mettapoisett, Wareham, Barnstable, Duke, and Nantucket Counties, Mass.

(22) *New Haven.* Includes the following cities and towns in Connecticut: Woodbridge, Guilford, Clinton, Bethany, Madison, Killingworth, New Haven, Cheshire, Chester, North Haven, Wallingford, East Haven, Hamden, North Branford, West Haven, Branford, Durham, and Orange.

(23) *New Orleans.* Orleans, Jefferson, St. Bernard, St. Tammany, St. Charles, St. John, Lafourche, Plaquemines, Washington, Terrebonne, Tangipahoa, Livingston, and St. James Parishes, La.

(24) *North Bay.* Solano, Napa, Lake, Marin, Sonoma, and Mendocino Counties, Calif.

(25) *Pittsburgh.* Allegheny County, Pa.

(26) *Rhode Island.* State of Rhode Island.

(27) *Rochester.* Area of jurisdiction of the Allied Building Trades Council of Rochester, New York, and vicinity in Monroe, Livingston, Wayne, and Ontario Counties.

(28) *San Mateo.* San Mateo County, Calif.

(29) *Santa Clara.* Santa Clara County, Calif.

(30) *Santa Cruz.* Santa Cruz County, Calif.

(31) *Seattle.* King County, Wash.

(32) *Spokane.* This area includes the following counties: Washington counties: Spokane, Whitman, Lincoln, Adams, Stevens, Pend Oreille, Columbia, Garfield, Asotin, and Ferry and in connection with Indian employment, Okanogan and parts of any other counties included in reservations incorporating portions of the above area; Idaho counties: Boundary, Bonner, Kootenai, Shoshone, Benewah, Latah, Clearwater, Nez Perce, Lewis, and Idaho, and in connection with Indian employment, any other territory included in reservations, part of which are in the above counties.

(i) All bidders must comply with the bid conditions contained in the invitation to be considered responsible bidders and hence eligible for the award. Part I of the bid conditions applies to those trades covered by the applicable "Hometown" plan. Part II of the bid conditions contains the requirement for submission of the affirmative action plan for those trades not covered by the "Hometown" plan.

(ii) Bid conditions for these plans will not be distributed to the agencies because some of the plans are being amended and agency distribution would necessitate frequent updatings. Agencies should request copies of the bid conditions for the listed "Hometown" plans, as needed from the Contracts and Supply Management Staff, Office of Plant and Operations, Washington, D.C. 20250.

PART 4–16—PROCUREMENT FORMS

1. The table of contents for Part 4–16 is amended as follows:

a. The following entries are deleted:

Sec.
4–16.950–375 Form AD–375: Invitation, bid and award (Supply—under $10,000). [Deleted]
4–16.950–376 Form AD–376: Invitation, bid, and award (Service). [Deleted]
4–16.950–384 Form AD–384: Instructions to contractors. [Deleted]

b. The following entry is revised to read as follows:

Sec.
4–16.950–425 Form AD–425: Instructions to contractors.

2. Section 4–16.150 is revised to read as follows:

§ 4–16.150 Invitation, bid, and award.

The Standard Form 33 shall be used for supply contracts when procured by formal advertising.

3. Section 4–16.500 is revised to read as follows:

§ 4–16.500 Invitation, bid, and award (Service).

The forms prescribed in §§ 1–16.101 and 1–16.201 of this title shall be utilized for advertised and negotiated nonpersonal service contracts (other than construction).

Effective date. Upon publication in the FEDERAL REGISTER (4–4–72).

Done at Washington, D.C., this 30th day of March 1972.

T. M. BALDAUF,
Director of Plant and Operations.

[FR Doc.72–5134 Filed 4–3–72;8:52 am]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 72–249]

PART 0—COMMISSION ORGANIZATION

Executive Advisory Council

Order. In the matter of amendment of § 0.6 to expand organizational scope of Executive Advisory Council.

1. The Executive Advisory Council was established to provide a mechanism through which the principal operating staff units in the Commission could more effectively carry out their program responsibility. Experience with and accomplishments through the use of the Council to date convince the Commission that the organizational scope of the Council should be expanded.

2. The amendments set forth in the appendix to this order relate to internal Commission organization and practice so that the prior notice provisions of section 4 of the Administrative Procedure Act, 553, do not apply, and amendments can be effective immediately. Authority for the amendment is set out in 4(i), 5(d), and 303(r) of the Communications Act of 1934, as amended.

3. In view of the foregoing: *It is ordered,* Effective April 7, 1972, that Part 0 of the rules and regulations is amended as set forth below.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

Adopted: March 23, 1972.

Released: March 28, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

Part 0 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 0.6 is revised to read as follows:

§ 0.6 Executive Advisory Council.

The Executive Advisory Council provides a forum for the interchange of information and ideas among the Commission's principal staff components. The Council coordinates Commission programs and activities; analyzes problems and issues of concern to the members of the Council; and develops recommendations for action by the Chairman and the Commission. The membership is composed of the head of each principal staff unit in the Commission.

[FR Doc.72–5064 Filed 4–3–72;8:46 am]

[FCC 72–271]

PART 0—COMMISSION ORGANIZATION

Chairman; Authority To Perform Contractual Services

Order. In the matter of amendment of § 0.211.

1. The amendment set forth below incorporates in Subpart B of Part 0 of the Commission's rules delegated authority to perform contractual services for the Commission.

2. Heretofore the delegation for contractual services has not been included in Subpart B of Part 0 of the Commission's rules. This is because the function pertains primarily to the internal affairs of the Commission. In view of the expansion of the Commission's contracting activity and the resultant public involvement, it now appears to be in the public interest to include the delegation for this activity in the Commission's published Delegations of Authority.

3. Authority for the amendment set out below is contained in 4(i), 5(d) and 303(r) of the Communications Act of 1934, as amended. As the amendment relates to matters of internal Commission organization and procedure, the prior notice and public procedure provisions of 5 U.S.C. 553 do not apply.

4. In view of the foregoing: *It is ordered,* Effective April 7, 1972, that Part 0 of the rules and regulations is amended as set forth below.

[1] Commissioners Robert E. Lee and Johnson absent.

V 37 65
APR 4 72
XUM

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

Adopted: March 23, 1972.

Released: March 28, 1972.

FEDERAL COMMUNICATIONS COMMISSION[3]
[SEAL] BEN F. WAPLE,
Secretary.

Part O of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 0.211(e) is added to read as follows:

§ 0.211 Chairman.

* * * * *

(e) To act as Contracting Officer for the Commission and to designate appropriate subordinate officials to act as Contracting Officer for the Commission.

[FR Doc.72-5063 Filed 4-3-72;8:46 am]

PART 73—RADIO BROADCAST SERVICES

PART 74—EXPERIMENTAL, AUXILIARY, SPECIAL BROADCAST, AND OTHER PROGRAM DISTRIBUTION SERVICES

Showing of Sports Events on Over-the-Air Subscription Television or by Cablecasting

Report and order. In the matter of amendment of §§ 73.643(b)(2) and 74.1121(a)(2) of the Commission's rules and regulations Pertaining to the Showing of Sports Events on over-the-air Subscription Television or by Cablecasting,[1] Docket No. 18893.

1. The Commission has before it comments and reply comments filed in response to a notice of proposed rule making released in this docket on July 1, 1970, 35 F.R. 11040, which proposed to amend the rules as indicated in the caption above.[2] Before evaluating the comments, the following information, paraphrasing the notice, is presented to set the proposed amendments in perspective.

BACKGROUND

2. In a Fourth Report and Order in Docket No. 11279, the Commission established an over-the-air subscription television service (STV). "Subscription Television," 15 FCC 2d 466 (1968). This action was affirmed in subsequent court proceedings. "National Association of Theatre Owners, et al. v. FCC," 420 F. 2d 194 (D.C. Cir. 1969), cert. denied, 397 U.S. 922 (1970). Among the rules adopted to govern the new service were the so-called antisiphoning rules, 47 CFR § 73.643(b)(1)–(3) (1969). It had been argued that if STV were established, it would outbid conventional TV for programs and that viewers would then have to pay for what they previously were able to see without direct charge. The antisiphoning rules are designed to prevent this.

3. More specifically, they are intended to prevent siphoning of three kinds of programs from conventional TV-feature films, series-type programs with interconnected plot or substantially the same cast of principal characters, and sports events—by prohibiting (with various exceptions) their showing on STV. The Commission was of the view that some competition between conventional TV and STV might result in improved and more varied fare both for STV viewers and for those who continue to rely on conventional TV, and for this reason did not adopt rules to protect against siphoning of every kind of programing appearing on conventional TV. However, since the aforementioned three kinds constitute a substantial part of what is shown on conventional television, the protection is considerable.

4. In a Memorandum Opinion and Order in Docket No. 18937, released July 1, 1970, CATV, 23 FCC 2d 825 (1970), the antisiphoning rules governing STV were extended to apply to cablecasting[5] which is accompanied by a per-program or per-channel fee, because the Commission believed that such cablecasting is akin to STV and presents the same threat of program siphoning. The rules were not made applicable to cablecasting that is unaccompanied by such fees since it does not appear to pose a significant threat of siphoning and the development of such service would be inhibited by them.

5. The instant proceeding deals with proposed amendment of the antisiphoning rules concerning the showing of sports events over STV or by cablecasting, as set forth in the notice. However, the present report and order is limited to the proposed amendment of the rule concerning the showing of sports events on STV, and consideration will only be given to comments filed herein insofar as they pertain to that subject.[6] The present sports rule for STV—§ 73.643(b)(2)—reads as follows:

> Sports events shall not be broadcast which have been televised live on a nonsubscription, regular basis in the community during the 2 years preceding their proposed subscription broadcast: *Provided, however,* That if the last regular occurrence of a specific event (e.g., summer Olympic games) was more than 2 years before the proposed showing on subscription television in a community, and the event was at that time televised on conventional television in that community, it shall not be broadcast on a subscription basis.
>
> NOTE 1: In determining whether a sports event has been televised in a community on a nonsubscription basis, only commercial television broadcast stations which place a Grade A contour over the entire community will be considered. Such stations need not necessarily be licensed to serve that community.
>
> NOTE 2: The manner in which this subparagraph will be administered and in which "sports," "sports events," and "televised live on a nonsubscription regular basis" will be construed is explained in paragraphs 288–305 of the Fourth Report and Order in Docket No. 11279, 15 F.C.C. 2d 466.

6. The rationale of the rule is that by prohibiting the STV operator from showing sports events that have been regularly shown in his community over conventional television during the past 2 years, STV will not compete with conventional television for them and they will continue to be shown over the latter medium. However, sports events that have not been available on conventional TV during that period, such as "blacked-out" home games of professional football teams, could, under the rule, be shown over STV.

7. Doubts about the efficacy of the sports rule as a siphoning preventive were expressed prior to the adoption of the rule in the STV proceeding and also in Congressional STV hearings held after its adoption. "Hearings Before the Subcommittee on Communications and Power of the House Committee on Interstate and Foreign Commerce", 91st Cong., 1st Sess. Serial No. 91–37, at, e.g., 25–29, 55, 118–119, 247–254, 303–347, 369–380 (1969). The doubts arise from the belief that the owner of TV rights to a sports event might be willing to withhold the event from conventional TV for a period of 2 years in order to make it eligible, under the rules, for showing over STV thereafter at a greater profit.[8] In adopting the rule, the Commission observed that such rules would be avoided because of the adverse publicity that would redound to the detriment of those engaging in such practices. It also announced that it had no intention of creating new markets for owners of TV rights to sports events, and that it would keep the operation of the rule under close scrutiny and take necessary action if undesired developments occurred. It indicated that such action might include amending the rule to provide a 5-year standard instead of a 2-year standard (on the theory that owners of TV rights might not wish to withhold sports events from conventional TV for a period of 5 years in order to show the events subsequently on STV because the loss of revenue would be too great).

THE PROPOSAL

8. In the notice of proposed rule making we noted the concern over the efficacy of the sports rule that had been expressed at the aforementioned Congressional hearings. We also observed that this concern was mirrored in H.R. 16418, reported out of the Committee on Interstate and Foreign Commerce of the House of Representatives on May 19, 1970, H.R. Rept. No. 91–1110, 91st Cong., 2d Sess., which was then awaiting action on the floor of the House. Among other things, that bill proposed to amend the Communications Act to provide that sports events could not be broadcast over STV if they had been televised on a regular basis in the community on conventional TV during any period in the 5 years preceding their proposed STV broadcast.

9. The notice stated that the Congressional hearings had furnished helpful information about the sports rule and that on further consideration we thought it would be in the public interest to amend the rule to make it more effective in precluding possible sports siphoning. We acknowledged the fact that if the proposed legislation were passed it would override Commission rules on the subject, but that if it were not passed, the Commission rules would naturally prevail and the new proposal, if adopted, should serve to remove all uncertainty about siphoning of sports events. The second session of the 91st Congress adjourned without passing the bill and we are today adopting an amended sports antisiphoning rule for STV.[9]

10. In the notice, we proposed the following 5-year rule to govern the showing of sports events over STV:

> Sports events may not be broadcast (live) if such events have been televised live on a nonsubscription, regular basis in the community during any one year in the 5 years preceding their proposed subscription broadcast.

The proposal also stated that Note 1 and Note 2 of the present sports rule (paragraph 5 supra) would be carried over as a part of the new rule. In addition to comments on the basic proposal, comments were specifically invited as to possible modifications in the concepts of paragraphs 288–305 referred to in Note 2. (Those paragraphs constitute the "legislative history" of the sports rule.)

DISCUSSION OF COMMENTS

11. All parties support the proposed change from a 2-year to a 5-year standard.[7] Having considered the matter carefully, we are of the view that such a change will serve the public interest by more effectively preventing siphoning, and we are amending the sports rule accordingly. However, some parties, although approving the change, point to deficiencies in our proposal which they believe should be rectified.

12. Delayed showing by STV. One such deficiency, mentioned by ABC, Fitzgerald, MST, and NAB, is that the proposed rule states that sports events "may not be broadcast over STV (live)" if such events have been televised live on a nonsubscription, regular basis over conventional TV. The word "(live)" does not appear in the present rule. It is urged that introducing this word in the proposed rule is potentially destructive of the Commission's objective since it would permit evasion of the regulatory prohibition by using the expedient of taping a sports event and then showing it on STV an hour or so later, or perhaps 5 or 10 seconds later—an "instant replay." Since they would not be live, it is argued, such delayed showings would be outside the purview of the rule. On the other hand, we are told, the present rule does not contain the word "(live)" and therefore would prohibit such delayed showings.

13. We think the point is well taken and that the proscription of the proposed rule should not be limited to live showings over STV but should extend to replays as well. It is clear, for example, that instant replays could siphon sporting events just as surely as live showing of those events could. Thus, as MST states, the entire World Series could be put on instant replay over STV under the proposed rules regardless of the fact that this event had in the past been regularly shown over conventional television.

14. However, to omit the word "(live)" from the rule, thereby leaving the rule, in this respect, exactly as it now is, presents another problem. So phrased, the rule would prohibit, as it presently does, all delayed showings. This means that if an event had been regularly shown over conventional TV, STV could not show it on instant replay 1 or 2 seconds later, or at any other time—even a week or a month later. We believe that such a rule is too broad, for it must be borne in mind that the purpose of the rule is to prevent siphoning of sports events that have been regularly shown live over conventional TV. It is in the nature of many sports events (World Series, Super Bowl, etc.) that they have allure largely because of their timeliness. Though they may hold some interest for viewers if not shown at the moment they occur or very shortly thereafter, it is likely that permitting them to be shown on STV at a considerable remove in time from the actual occurrence of the events would not result in their being siphoned from conventional TV. It is possible that, for some reason, an STV operator might, on occasion, wish to show "old" sports events. We see no reason why he should not be allowed to do so.

15. If it is conceded that some delayed showings should be prohibited and some should not, the question then resolves itself into where to draw the line. Clearly instant replays should be prohibited. What about a half-hour delay? An hour delay? A 20-hour delay? Any such decision must, to some extent, be arbitrary. We are of the view that prohibiting delayed STV showing of a sports event on the same day that the event occurs, and permitting delayed STV showing thereafter, is a reasonable standard, and the rule we adopt today reflects this view. The rule, of course, also prohibits live showing over STV.

16. Delayed showing by conventional TV. ABC, Fitzgerald, and MST point to another deficiency. The rule as it now exists and as proposed protects against the siphoning to STV of sports events that have been regularly shown live over conventional television. Paragraph 305 of the Fourth Report and Order stated:

> * * * (I)t is our belief that only sports events that are broadcast live should be afforded protection, and the rule reflects this view. It appears unlikely that STV would wish, or be able, to sell taped sports programs. To the extent that they should do so, we believe that this sort of programming should be open to competition between the two TV services. This means, then, the showing of such a program as ABC's Wide World of Sports consisting, generally, of taped sports events would not prevent the showing of similar programs on STV.

The aforementioned parties suggest that we consider giving antisiphoning protection not only to sports events that are shown live over conventional TV, but also to those which that medium shows on a delayed basis.

17. ABC, for example, urges that antisiphoning protection be extended to sports events that are presented on conventional TV as brief tape delays if the event carried is not necessarily timely. At a minimum, it argues, certain events that occasion even shorter delays arising from coast-to-coast or international time differences, in order to accommodate the viewing habits of the public, should be protected. Finally, ABC believes that conventional TV programs like the "Wide World of Sports" (in which tapes are generally shown after a relatively long delay) present, in whole or in substantial part sports events that are otherwise not available and that they develop an audience for certain sports events that should not be taken away by STV. In this connection, it avers that taped sports programs and events otherwise not covered often provide a basic program ingredient for independent UHF stations.

18. Like ABC, MST mentions that the rule does not prevent siphoning of sports programing such as "Wide World of

---

[3] Commissioner Bartley not participating; Commissioners Robert E. Lee and Johnson absent.

[1] Section 73.643(b)(2) governs the showing of sports events on over-the-air subscription television. Section 74.1121(a)(2) governs cablecasting. This document only amends the former section (see paragraph 5 infra).

[2] Comments were filed by: American Broadcasting Co. (ABC); Association of Maximum Service Telecasters, Inc. (MST); John R. Fitzgerald (Fitzgerald); National Association of Broadcasters (NAB); National Broadcasting Co., Inc. (NBC); National Cable Television Association, Inc. (NCTA); Vue-Metrics, Inc. (Vue-Metrics); and Zenith Radio Corp., and Teco, Inc. (Zenith-Teco). Reply comments were filed by: ABC; MST; Teleglobe Pay-TV System, Inc. (Teleglobe); and Lawrence M. Turet (Turet).

[5] Commission rules define "cablecasting" as "television programing distributed on a CATV system which has been originated by the CATV operator or by another entity, exclusive of television broadcast signals distributed on the system." 47 CFR 74.1001(1) (1969).

[6] Materials in the comments that pertains to the sports rule for cablecasting will be given consideration at a later date.

[8] Actually, under the present rule, the event would only have to be withheld for 1 year in order to be eligible for STV showing. Note 2 of the rule provides that the meaning of "televised live on a nonsubscription regular basis" will be construed in accordance with what is said in paragraphs 288–305 of the Fourth Report and Order in Docket No. 11279. These paragraphs state that sports events must have been shown over conventional TV in a community during each of the 2 years preceding proposed STV showing in order to be considered as having been broadcast on a regular basis during the 2-year period. Thus, if the event appeared on conventional TV during one of the 2 years but not the other, it would be eligible for showing on STV.

[9] Substantially the same bill has been introduced in the 92d Cong., 1st Sess., as H.R. 670. If that bill is passed, it will, of course, supersede the rule adopted by the Commission.

[7] NCTA opposed a 5-year standard, but since its comments were directed entirely to cablecasting, they are not considered herein. See Note 4 supra.

V 37-65 APR 4 72 XUM

Sports," and adds that antisiphoning protection is likewise not given to delayed play-by-play broadcasts of regular games. It, too, states that since such programing can be of importance in the development and survival of independent UHF stations the subject should be reconsidered.

19. Fitzgerald points out that the antisiphoning rule does not prevent the siphoning of tape-delayed programs and gives a specific example in New York City. He states that out-of-town games of the New York Rangers and the New York Knickerbockers are presented over conventional TV in New York on a half-hour or 1-hour videotape delayed basis. He mentions that for most viewers the results are virtually like live broadcasts. (Since the results are not known when the viewer tunes in, he says, the situation is not like ABC's "Wide World of Sports".) Mr. Fitzgerald suggests that protection should be given to such events by defining the word "live" as a telecast that is simultaneous with the actual occurrence of the event, or that is shown within a certain number of hours (less than 24) of its occurrence, or that is shown on delayed tape while the event is still in progress.

20. We agree to some extent with the foregoing arguments that events shown on a delayed basis on conventional television should be given antisiphoning protection. Thus, we think it clear that protection should be given in the type of situation mentioned by Fitzgerald where the delayed viewing of the event is virtually like viewing it live.[8] On the other hand, where the delay is substantial, as it often is in the case of the "Wide World of Sports," we still believe that the programing should be open to STV as well as to conventional TV. As with the matter dealt with in the preceding section, the question is where to draw the line. The rules adopted herein contain what appears to be a reasonable standard—that of affording antisiphoning protection to sports events that have been given delayed showing on conventional television on the same day that the events occurred. Coupling this with what has been said heretofore, what we do today means that if sports events were regularly televised[9] live or on a same-day delayed basis on conventional TV in a community during any one year of the 5 years preceding proposed subscription showing, the event may not be shown on STV, either live or on a same-day delayed basis in that community.[10]

[8] At the time that he filed his comments, the situation as to broadcast of Knickerbocker and Ranger games was as Fitzgerald described it. Since then (commencing in October 1970), those events have been carried live by the New York TV station. However, this does not detract from the validity of his argument concerning tape-delayed broadcasts in general.

[9] For the meaning of the term "regularly televised," see paragraphs 34–35 infra.

[10] As to the argument that tape-delayed sports events often provide a basic program ingredient of UHF stations and can be of importance to their development and survival, we think that this rule would have no adverse impact on UHF.

21. Sports programs consisting of both live and delayed showings by STV: ABC urges that sports events on conventional television that are presented live within a program such as "Wide World of Sports," that generally consists of tape-delayed broadcasts, should be extended antisiphoning protection. We see no reason why this should not be, and the rule will be construed to give protection both to live and to same-day delayed portions of such programs.

22. Other deficiencies in the proposal: In addition to arguments aimed at the foregoing fundamental shortcomings of the proposed rule, some arguments on lesser points are made. Thus, MST avers that the Olympics are broadcast only every 4 years and some other events—championship boxing matches, for example—may occur on less than an annual basis. Because of this, it is stated, such events would not have to be withheld from conventional TV too often, even under the proposed 5-year rule, to become available for showing on STV. Consequently, MST says, the new rule will offer little deterrent to the siphoning of events of this type.

23. We do not find these arguments persuasive. Whereas, for example, the televising rights of professional team games remain relatively constant over the years and those having such rights might conceivably withhold events from conventional TV in order to show them on STV thereafter, the televising rights to boxing matches may shift with changing fighters. Hence, in the case of boxing there would be no incentive to withhold. Instead, the motivation would be to take whatever revenues might be available at the time of a fight, for the opportunity to obtain STV revenues at a later date is not assured.

24. In the case of the Olympic games, even though the TV rights might be in the same hands over the years, it would seem more likely that there would be an incentive to obtain the immediate revenues at hand rather than withhold a conventional TV showing for the purpose of being able to use STV for subsequent Olympic games. Nevertheless, since we are tightening the sports rule with regard to events that usually occur annually, we are not averse to tightening it for the Olympics as well. Accordingly, the rule is being amended to provide that if the games appeared on conventional TV 1 year out of the 10 years immediately preceding proposed STV showing, they may not be shown on the latter medium. This provision will also be applied to any other events which regularly recur at intervals of more than a year.

25. MST also views as a loophole the fact that—according to paragraph 302 of the "legislative history" of the sports rule—if a conventional TV station has regularly broadcast some but not all of the home games of a local major league baseball team, STV may supplement this by showing additional home games. For example, if the conventional TV station had shown, on the average, five home games a season, STV in the community may show all but five. MST is of the opinion that "sports entrepreneurs could simply refuse to offer the games or could price them beyond the reach of free television and might be strongly motivated to do so in order to enhance the value to STV • • • of the games which they were transmitting."

26. Along the same vein, NBC states that the rule is not entirely adequate for it would be relatively simple for teams, such as professional football teams, whose "away" games are now carried on conventional TV and whose home games are not, to permit the showing of the home games on STV for a period of 5 years (while, presumably, still broadcasting the "away" games on conventional TV) and then to cease using conventional TV entirely—without jeopardizing a cent of current income.

27. In response to the foregoing suggested shortcomings of the rule, we repeat what we said in the Fourth Report and Order in Docket No. 11279. It is not our intent to create new markets for owners of television rights of sports events, and we shall observe the operation of the rule and take appropriate action to deal with any undesired developments. Thus, for example, if during one or more of the 5 years preceding proposed STV showing, some home games (e.g., on the average of five games per season) of a local major league baseball team have been shown on conventional TV, then under the rules STV could broadcast additional home games. If it should be called to our attention that the owners of TV rights to such events are refusing to offer "home" games to conventional TV or are pricing the events out of reach of that medium, we would take a close look at the matter. If our examination thereof revealed that the allegations were true, then STV would be precluded from showing those events.

28. We find unconvincing the NBC argument that teams would show home games over STV while continuing to show "away" games over conventional TV for 5 years and then discard conventional TV altogether. That they may use STV for home games not previously shown is clear under our rules. That they might simultaneously continue to use conventional TV for the "away" games is also clear, as is the fact that by doing this there would be no loss of current income. In fact there would be an increase of income since what formerly was income only from the "away" games would be supplemented by income from home games. But we do not understand why the teams would, after 5 years, decide to drop conventional TV altogether and give up the revenues from that medium for "away" games, for they could not then be shown over STV unless they were withheld for a period of 5 years.

29. Vue-Metrics, an applicant for an STV authorization for Philadelphia, poses a problem and suggests a modification of our proposed rule to meet it. The problem concerns situations in which a sports event is carried on conventional TV in a community for the first time. As examples, it mentions a new football bowl game, the regular season games of a professional soccer team, or the finals of a high school basketball championship. Vue-Metrics states that if the events were shown 1 year and were not thereafter presented on conventional TV because they did not provide a large enough share of the audience to attract advertisers, then, under the Commission's proposed rule, they could not be shown on STV until 5 years had elapsed even though there might be enough public interest to make the presentation of such events viable over STV.

30. To correct this anomaly, Vue-Metrics suggests that the Commission's proposed 5-year rule be amended to read as follows:

> Sports events may not be broadcast (live over STV) if such events, having been televised on a non-subscription, regular basis in the community during a period of two years or more, have been withheld from conventional television in the community, for any reason, for a period of less than five years prior to the proposed subscription broadcast.[11]

Vue-Metrics states that virtually all sports events that have been seen on conventional TV to date have been broadcast for 2 successive years or more and have proved to be commercially viable on conventional TV. Such programs, it states, could not be shown on STV, under its proposed amendment, unless they were withheld for 5 years. However, in the case of sports events that have proved to be commercial failures in their first showing over conventional TV, the events could, under the Vue-Metrics proposal, be shown the next year over STV.

31. In its reply comments, MST opposes the Vue-Metrics suggestion on two grounds. First, it states that there has been no showing that the problem posed is likely to be serious or widespread. Second, MST avers that siphoning can occur if the owner of TV rights to sports events refuses to permit their showing on conventional TV stations or if he prices the events outside the reach of such stations. It goes on to say that the latter would not be a "withholding" of the event under the Vue-Metrics proposal, and the event therefore could be shown on STV immediately. Without dwelling on the technicality of what constitutes a "withholding," we reject the Vue-Metrics proposal on the grounds that the hypothetical situation which the proposal would handle might, as MST suggests, not be serious or widespread, and on the relatively rare occasions when it might occur, the matter may be dealt with on a waiver basis on a showing that advertising support for the program on conventional TV is unavailable.

32. "Legislative history" of the sports rule—general. The notice stated that Note 2 (as well as Note 1) of the present sports rule would be carried over and made a part of the new rule (see paragraphs 5 and 10 supra). It pointed out that this meant that paragraphs 288–305 of the Fourth Report and Order in Docket No. 11279 (constituting the "legislative history" of the sports rule) would continue to be used as the basis for administering and construing the rule although some of the material therein would not be pertinent. Comments suggesting possible modifications or deletions of the concepts of the legislative history were invited.

[11] The context in which the suggestion is made in the Vue-Metrics comments appears to indicate that "during a period of 2 years or more" means that the sports events were televised for 2 successive years or more.

33. We reaffirm here our statement that the aforementioned legislative history will be used as a basis for administering and construing the new sports rule. However, the concepts in the legislative history are modified as indicated in the following paragraphs in order to take into account our changing from a 2-year sports rule, and recent developments in sports.

34. "Legislative history"—showing on a regular basis: Under the present rule and the legislative history, sports events are classified as "specific" or "nonspecific," and the latter are divided into well-defined categories. (This classification is discussed in detail in the Fourth Report and Order and will not be explained here.) Most specific events are of the type that recur on a periodic basis, usually annually, such as the World Series, the Super Bowl, Rose Bowl, Kentucky Derby, or the U.S. Open Golf Tournament. Some specific events, such as heavyweight title boxing matches, do not occur on a periodic basis. Nonspecific events usually occur on a yearly basis, such as football, baseball, or basketball games played during the regular seasons for those sports.

35. The present rule provides that sports events may not be shown on STV in a community if they were shown live over conventional TV in that community on a regular basis during the 2-year period immediately preceding proposed STV showing. A specific event that recurs on a yearly basis is considered to have been regularly shown over conventional TV during that 2-year period if it was shown in each year of that period. If the event was conventionally televised in a community during only 1 of the 2 years immediately preceding the proposed STV showing, it is not considered as having been regularly shown on conventional TV and may be shown on STV there.

36. Specific events that do not recur on a periodic basis, such as heavyweight title boxing matches, are considered to have been broadcast in a community on a regular basis over conventional TV during the 2-year period if all such fights occurring in that period were broadcast on that medium. If some were so broadcast and some were not (e.g. some might have been shown only over closed circuit TV), then the fights are not considered to have been broadcast on a regular basis for the 2-year period and they may be shown on STV in the community.

37. As to nonspecific events, the matter of regular showing is dealt with on a category-by-category basis. Thus, if a substantial number of events in a category have been televised over conventional TV in a community within each of the 2 years immediately preceding proposed STV showing, the category is considered to have been shown on a regular basis during the 2-year period and may not be shown there on STV. However, if during one of the 2 years a less than substantial number of events in the category have been shown over conventional TV in the community, the category is considered not to have been regularly shown and may be transmitted over STV there.

38. The new rule adopted today proscribes STV showing in a community (live or on a same-day delayed basis) of events that have been regularly shown on conventional TV in the community (live or on a same-day delayed basis) during any one year in the 5 years immediately preceding proposed STV showing there. The immediately following paragraphs spell out how this new rule will be applied. These paragraphs do not cover every conceivable situation that might arise, for to do so is perhaps impossible. However, the setting forth and discussion of some of the fundamental problems in administering the rule will, it is hoped, give guidance in the solving of other problems that may occur.

39. Under the rule adopted today, the term "any one year" does not mean "any one calendar year." Rather, it means any of the 1-year periods counting back from the date of proposed STV showing. Thus, if a proposed STV showing is June 15, 1972, the first 1-year period is from June 15, 1971, through June 14, 1972, the next 1-year period is from June 15, 1970, through June 14, 1971, and so on. Under the new rule, any category of nonspecific event, such as professional baseball games played during the regular season, will be considered to have been regularly shown on conventional TV in a community if during any one of the 5 years immediately preceding a proposed STV showing of the events in the community a substantial number of the events were shown on conventional TV there. However, if during each of the 5 years preceding proposed STV showing none or a less than substantial number of the events were shown on conventional TV in the community, then STV showing there would be permitted.

40. As to specific events that recur on an irregular basis, such as heavyweight title boxing matches, if in any year of the 5 years immediately preceding proposed STV showing in a community, one or more such events occurred and all of them were shown on conventional TV in the community during that year, the event will be considered to have been regularly shown on conventional TV in the community for that year, and STV showing there will be prohibited. However, if there is no year in the 5-year period during which all of the occurrences of such events in the year were shown on conventional TV in the community (e.g., none of those that occurred were on conventional TV, or some were on conventional TV and some were on closed circuit TV), then the event will be considered as not having been regularly shown in any one year of the 5-year period and STV showing in the community may take place.

V 37-65 APR 4 72 XUM

41. The method in which the rule will be applied to specific events that recur on a periodic basis (usually yearly) will be slightly different from the method used for nonspecific events and for irregularly recurring specific events outlined above. The following example illustrates the special problem that exists for periodic recurring events, and is followed by our solution to that problem. The most recent Super Bowl was played on January 16, 1972. It was, of course, widely shown on conventional TV stations throughout the country. Let us assume that the event is withheld from conventional TV in 1973, 1974, 1975, and 1976, and that it is scheduled to be played on January 18, 1977. Let us further assume that a party proposes to show the 1977 Super Bowl on January 18, 1977, over STV in a community and that the event was shown over conventional TV in that community on January 16, 1972. Counting back 5 years from January 18, 1977, brings one to January 18, 1972. Under a straightforward application of the rule, since the event was not shown on conventional TV in the community during any one of the 5 years immediately preceding the proposed STV showing there on January 18, 1977, it could be shown in that community on STC in 1977. On the other hand, had the 1977 event been scheduled to be played on January 5, 1977, a straightforward application of the rule would have prevented the 1977 STV showing in that community since the 5-year period preceding the proposed STV showing would have extended back to January 5, 1972, and the January 16, 1972 game would thus have been televised on conventional TV during that period.

42. We do not believe that the determination of whether a periodic recurring specific event of the type mentioned in our example may be shown on STV should hinge on the fortuitous circumstance that the event will occur on a varying date that does or does not bring the event within the straightforward application of the rule.[12] To us, the important thing in such cases is that an event has occurred periodically at intervals of approximately 1 year and that it has or has not been shown on conventional TV one or more of the five times that it occurred immediately before the proposed STV showing. Therefore, for such recurring specific events, if the proposed STV showing in a community has been immediately preceded by five successive occurrences of the event, which occurrences have not been shown on conventional TV in the community, then STV may show the event in that community although a straightforward application of the rule might preclude such showing. This means that in the Super Bowl example above, the event could not be shown on STV whether scheduled for January 5 or January 18, 1977.

43. Attention is invited to the fact that in the discussion above we have been careful to tie the conventional and STV showing to a specific community. In other words, sports events may generally be shown nationally, but not be shown on conventional TV in some communities. It is the fact that the event was or was not regularly shown in a community during any one of the 5 years preceding proposed STV showing there that is determinative. Whether it was so shown in other communities during that period is of no import, for the underlying rationale of the rule is that STV is to serve as a supplement to conventional TV in a community, and sports events that were regularly shown to that community on conventional TV are not to be siphoned to STV there.

44. "Legislative history"—new sports events. As previously stated, under the present rule, STV showing of sports events in a community is barred if they have been carried there on a nonsubscription regular basis during the 2 years immediately preceding the proposed STV showing. If they have not been so carried, they may be shown on STV there. The rule and the legislative history do not attempt to look into the question of why there was no conventional showing in the community. The mere fact that there has been no such showing is sufficient to all STV carriage.

45. Comments filed in the present proceeding have led us to the conclusion that the rule which we adopt today should distinguish between events that were not shown on conventional TV in a community simply because the events did not exist and those events that were in existence but were not carried on conventional TV in the community for any of a number of reasons (e.g., lack of community interest or advertiser support, a team's blackout policy prohibiting carriage of home games of a professional football team that the station would have liked to carry). Under the rule adopted today, events of the latter kind fall within the regular 5-year provisions previously stated; thus, for example, STV may carry professional football home games (if the team will permit this) that were previously blacked out and hence not shown locally on conventional TV during any one of the preceding 5 years, or high school basketball games not conventionally shown in the community during any one of the preceding 5 years because of lack of advertiser support.

46. In contrast with the aforementioned types of events which STV may carry if the 5-year provision of the rule is met, are events that STV proposes to carry that never existed before. These are of two kinds: (1) New events that are the result of restructuring of an existing sport, and (2) new events that are not the result of restructuring of an existing sport. An example of the former type of event is the Super Bowl which did not exist until 5 years ago when the first such event occurred in 1967. Suppose that STV had been operational and full blown at that time and that the 2-year sports rule had been in effect (actually, it was adopted in 1968 and became effective in 1969). Under that rule, STV could have shown the Super Bowl in 1967 since it would not have been shown on conventional TV during the 2 preceding years.

47. The example of the Super Bowl is not an isolated one. There are other examples, in both professional football and baseball, of new sports events which were the result of restructuring of existing sports. Prior to 1969 when the 2-year sports rule became effective, teams in each of the two major leagues played regular games during the baseball season and compiled a percentage record for their total games played. At the end of the season, the teams having the highest percentage in each league met in the World Series. If, on rare occasions, two teams were tied for a league title, a playoff occurred. The sports rule and the legislative history took into account this pattern of events that had existed for many years, and provided that regular season games would be viewed as nonspecific events, the World Series, as a specific event, and an occasional playoff for a league title, as a specific event.

48. In 1969, after the adoption of the sports rule, the leagues were restructured into two divisions each, and the World Series was preceded by division playoffs in each league (between the high percentage teams of each division) with the playoff winners in each league competing in the World Series. The division playoffs, as new events not previously shown on conventional TV, would have been eligible for STV showing. However, no STV operations were in existence, and the playoffs have been broadcast for the past 3 years in much the same manner as the World Series—each game of the playoff was broadcast and there was no blackout of the playoff game in the community where it was played.

9. In professional football, aside from the Super Bowl, other new events, resulting from restructuring, have also appeared. In 1970 the merger of the American and the National Football Leagues was completed with a resulting National Football League consisting of an American Conference and a National Conference. Each conference consists of three divisions. At the end of the season, the three divisional champions and a fourth team engaged in playoffs and the two victorious teams meet for the conference title.[13] The two conference champions meet in the Super Bowl.

50. ABC and NBC argue that the Commission should consider means for insuring against the possibility that sports entrepreneurs will revise the structures of their sports so as to "phase out" events now protected against siphoning and introduce new events that would not be so protected and hence would be eligible for STV showing. NBC urges that for the first 5 years of any new event STV be prohibited from carrying that event. This, it is argued, will favor the showing of the new events on conventional TV and allow that service to continue its expansion of sports service, and will inhibit the restructuring of sports events for the purpose of making them eligible for pay TV.

51. ABC states that the present sports rule tends to freeze conventional TV sports coverage at its present level. It argues that in recent years conventional TV has constantly expanded coverage of previously broadcast sports events and has added new events, and urges that the chance for such expanded availability of sports events should not be diminished. ABC suggests that, at a minimum, some form of notice and related procedure should be established so that interested parties would be in a position to seek a Commission ruling prior to the initial showing of a new event by STV. (It also urges that similar procedures be established to handle disputes over whether events have been regularly televised over conventional TV prior to their showing on STV.[14]) The suggestion implies, without specifically stating, that if the Commission were to find that there was a restructuring with the intent to make the new events available to STV, then it would rule that the events could not be shown immediately on STV.

52. The intent of the sports rule is to prevent siphoning of sports programing presently carried on conventional TV. Any phasing out of present events and introducing of new events for the specific purpose of showing the new events on STV would run directly counter to the intent of the rule and would not be condoned. It will be recalled that a cornerstone of our decision to establish STV as a regular service was that it could provide a beneficial supplement to the programing available on conventional TV. We are of the view that unless we devise rules to prevent it, there is a real likelihood that conventional TV sports telecasting as we know it may be undermined, as the comments suggest, and rendered minimal, so that STV would not be providing a beneficial supplement to, but, rather, a substitute for conventional TV sportscasting.

53. As mentioned above, NBC and ABC each suggest a way of handling this problem. NBC would have us adopt a rule that would "guarantee" to conventional TV for 5 years any new sports event by not permitting the showing of such an event over STV for such a period. The ABC alternative would provide for a form of notice and related procedures for new events so that the Commission could rule on whether a restructuring with intent to transfer events to STV had occurred. The ABC proposal is fraught with difficulties that would make its administration unwieldy. We are faced with the fact that sports are restructured and new events introduced for reasons entirely apart from the desire to gain revenues from STV. Witness, for example, the recent restructuring of major league baseball and professional football. It might prove to be a very difficult and time-consuming task to determine whether a restructuring was for the purpose of achieving STV showings. On the other hand, a rule based on the NBC proposal would be clear and easy to administer, and we are therefore writing into the sports rule a provision that new events that are the result of restructuring of an existing sport will be available to conventional TV and unavailable to STV until 5 years after their first occurrence.

54. To avoid confusion over this provision governing news sports events which are the result of restructuring, we shall elaborate on how it would operate. During the first 5 years after such a new event first occurred, it could only be shown on conventional TV, and would be barred from STV showing. Thereafter, whether the event could or could not be shown on STV in a community would depend on whether it had been shown there on conventional TV during the 5-year "protected period."[15] If it had not been shown at all during that period, it would be permitted on STV in the sixth year. If it had been shown on a nonsubscription regular basis (as discussed above) during any one year of the 5-year "protected period," then it would be barred from STV showing in the sixth year. In other words, after the 5-year "protected period," the regular 5-year rule would become applicable. And it would be applicable not only to proposed STV showings in the sixth year but to proposed STV showings thereafter. Thus, if it were not proposed to be shown on STV in the sixth year, but were proposed in the seventh year of the event, one would look to the 5 years immediately preceding the proposed STV showing (one of which years would be in the "unprotected period" and four of which would be in the "protected period") to see if the general 5-year rule barred STV showings.

55. In paragraph 46, supra, we stated that there are two kinds of new sports events—those that are the result of restructuring of an existing sport and those that are not the result of restructuring. The foregoing discussion has been limited to the former, and the rule affording a 5-year protected period, just described, applies only to the former.

56. As mentioned, however, there are new events that could arise for reasons other than restructuring of an existing sport. For example, a group of entrepreneurs conceivably might decide to form a National Cricket League and have regular games during a "cricket season" culminating in a championship game or series of games. Similarly, an American Jai Alai League might be founded with regular seasonal games and a championship game or series. New events of this kind will not fall within the purview of the "5-year protected period" rule. Instead, when such new events develop, we shall examine the situation existing at that time and determine, in the light of the existing circumstances, whether they will be permitted to be shown on STV. This method is consistent with our statement in the Fourth Report and Order (paragraph 304) in which we stated that we would face developing situations as they arise.

57. Finally, attention is invited to paragraphs 29–31, supra. Consistent with the discussion in those paragraphs, if a new sports event (whether or not it resulted from restructuring of an existing sport) were introduced and regularly shown on conventional TV during, say, the first and/or second year of its occurrence and then dropped by that medium thereafter because of lack of advertiser support, and if an STV operator wished thereafter to show it, we would consider granting a waiver of the general 5-year rule or the "5-year protected period" rule, as appropriate, on a proper showing that the event could not be sold to conventional TV.

ORDERS

58. Authority for the rule amendments adopted herein is contained in sections 2, 3, 4 (i) and (j), 301, 303, 307, 308, and 309 of the Communications Act of 1934, as amended.

59. *Accordingly, it is ordered,* That the rules contained below are adopted, effective May 9, 1972: *It is further ordered,* That this proceeding is terminated.

(Secs. 2, 3, 4, 301, 303, 307, 308, 309; 48 Stat., as amended, 1064, 1065, 1066, 1081, 1082, 1083, 1084, 1085; 47 U.S.C. 152, 153, 154, 301, 303, 307, 308, 309)

Adopted: March 23, 1972.

Released: March 29, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[16]

[SEAL] BEN F. WAPLE,
Secretary.

1. Section 73.643(b)(2) of the Commission rules and regulations is amended to read as follows:

§ 73.643 General operating requirements.

. . . . . .

(b) Subscription television broadcast programs shall comply with the following requirements:

. . . . . .

(2) Sports events shall not be broadcast live or on a same-day delayed basis which have been televised live, or same-day delayed, on a nonsubscription, regular basis in the community during any 1

[12] It is not inconceivable, of course, that the holders of TV rights to a periodically recurring specific event might intentionally schedule it on a date that would place it outside the proscription of the rule. Our treatment of periodically recurring specific events, however, takes care of both fortuitous and intentional variations of dates.

[13] In administering the sports rule, professional baseball division playoffs, and professional football division playoffs and conference title games, will be dealt with as specific events. Concerning playoffs, in some sports, that are not viewed as specific events, see paragraph 297 of the legislative history in the Fourth Report and Order.

[14] We see no present need for such procedures.

[15] "Protected period," as used herein, means the first 5 years after a new event first occurs during which it may not be shown on STV.

[16] Commissioner Bartley dissenting and issuing a statement which is filed as part of the original document. Commissioners Robert E. Lee and Johnson absent.

V 37-65
APR 4 72
XUM

year in the 5 years preceding their proposed subscription broadcast. If a regularly recurring event takes place at intervales of more than 1 year (e.g., summer Olympic games), the aforementioned proscription shall be 1 year in the preceding 10 years, rather than 1 year in the preceding 5 years. Moreover, new sports events that result from the restructuring of existing sports shall not be broadcast on a subscription basis until 5 years after their first occurrence; thereafter, subscription showing will be governed by the provisions of the first sentence of this subparagraph. Determinations as to whether new sports events that are not the result of the restructing of existing sports may be shown on a subscription basis will be made by the Commission as such new events occur.

NOTE 1: In determining whether a sports event has been televised in a community on a nonsubscription basis, only commercial television broadcast stations which place a Grade A contour over the entire community will be considered. Such atations need not necessarily be licensed to serve that community.

NOTE 2: The manner in which this subparagraph will be administered and in which "sports," "sports events," "New sports events," and "televised on a nonsubscription, regular basis" will be construed is explained in paragraphs 288–305 of the fourth report and order in Docket No. 11279, 15 FCC 2d 466, as modified by paragraphs 32–57 of the report and order in Docket No. 18893, ------ FCC 2d -------.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

[7 CFR Part 1488]

[GSM–4, Rev. II]

EXPORT CREDIT SALES PROGRAM

Financing of Export Sales of Agricultural Commodities From Private Stocks

Pursuant to the authority contained in section 5(f), 62 Stat. 1072 and section 4, 80 Stat. 1538, the Commodity Credit Corporation proposes to amend paragraphs A.1. of Supplements I and II to GSM–4, Revision II, Regulations Covering Export Financing of Sales of Agricultural Commodities under the CCC Export Credit Sales Program.

Interested persons may submit written comments, suggestions, or objections related to the proposed amendments to Director, CCC Credit Sales Division, Export Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250. In order to be sure of consideration, all submissions must be received not later than 30 days following the publication of this notice in the FEDERAL REGISTER. The comments, suggestions, or objections will be open to public inspection during this 30-day period at the office of the Director from 8:15 a.m. to 4:45 p.m. (local time) of each business day (7 CFR 1.27 (b)).

1. The amendment of paragraph A.1. of Supplement I redefines "port value" by increasing the financing limits for beef breeding animals under the CCC Export Credit Sales Program. As amended, paragraph A.1. of Supplement I to GSM–4, Revision II, will read as follows:

1. "Port value" means the net amount of the exporter's sales price for beef breeding cattle to be exported under the financing agreement, basis f.a.s. or f.o.b. export carrier at U.S. ports, at U.S. border points of exit, or at U.S. airports if shipped by air. The point of exportation for animals shall be designated by the Agricultural Research Service, U.S. Department of Agriculture. The port value shall not include the ocean freight for a c.i.f. sale or ocean freight and marine and war risk insurance for a c.i.f. sale, and shall also not include any animal care or servicing cost incurred after such animals are loaded aboard the export carrier. The net amount of the exporter's sales price means the contract price for the animals less any payments made by the importer and less any discounts, credits, or allowances to the importer. Such net amount shall not exceed (a) for registered bulls, $1,350 each or, with prior approval of the Assistant Sales Manager for Commercial Credit and Barter, $2,750 if performance has been superior to the performance records specified in Exhibit II to this supplement; (b) for registered females, $750 each or, with prior approval of the Assistant Sales Manager for Commercial Credit and Barter, $1,100 if performance has been superior to the performance records specified in Exhibit I to this supplement; (c) for nonregistered females, an average, for the sale, of $500 each or, with prior approval of the Assistant Sales Manager for Commercial Credit and Barter, $700 if performance has been superior to the performance records specified in said Exhibit I. The difference, if any, between the maximum net amount specified in (a), (b), or (c) of this paragraph A.1. and the contract price for the individual animal, if registered, or the average contract price for the individual animal, if nonregistered, shall not be included as part of the port value.

2. The amendment of paragraph A.1. of Supplement II redefines "port value" by increasing the financing limits for dairy breeding animals under the CCC Export Credit Sales Program. As amended, paragraph A.1. of Supplement II to GSM–4, Revision II, will read as follows:

1. "Port value" means the net amount of the exporter's sales price for dairy breeding cattle to be exported under the financing agreement, basis f.a.s. or f.o.b. export carrier at U.S. ports, at U.S. border points of exit, or at U.S. airports if shipped by air. The point of exportation for animals shall be designated by the Agricultural Research Service, U.S. Department of Agriculture. The port value shall not include the ocean freight for a c.i.f. sale or ocean freight and marine and war risk insurance for a c.i.f. sale, and shall also not include any animal care or servicing cost incurred after such animals are loaded aboard the export carrier. The net amount of the exporter's sales price means the contract price for the animals less any payments made by the importer and less any discounts, credits, or allowances to the importer. Such net amount shall not exceed (a) $2,000 each for registered bulls which have an acceptable performance index as set out in paragraph D.1., Exhibit II to this supplement, or, with prior approval of the Assistant Sales Manager for Commercial Credit and Barter, $3,500 if such animal has a superior performance index as set out in paragraph D.2. of Exhibit II; (b) $900 each for registered females which have an acceptable performance index as set out in paragraph D.1., Exhibit I to this supplement, or with prior approval of the Assistant Sales Manager for Commercial Credit and Barter, $1,500 if such animal has a superior performance index as set out in paragraph D.2. of Exhibit I; (c) with prior approval of the Assistant Sales Manager for Commercial Credit and Barter, $1,750 each for registered mature cows which have a superior performance index as set out in paragraph D.3. of Exhibit I; (d) with prior approval of the Assistant Sales Manager for Commercial Credit and Barter, $925 each for nonregistered mature cows which have a superior performance index as set out in paragraph D.3. of Exhibit I; or (e) $750 average for the sale of nonregistered females, other than mature cows with a superior performance index, if each such animal has an acceptable performance index as set out in paragraph D.1. of Exhibit I. The difference, if any, between the maximum net amount specified in (a), (b), (c), (d), or (e) of this paragraph A.1. and the contract price for individual registered animals or nonregistered mature cows with a superior performance index, or the average contract price for nonregistered females, other than mature cows with a superior performance index, shall not be included as a part of the port value.

Signed at Washington, D.C., on March 28, 1972.

CLIFFORD G. PULVERMACHER,
Vice President, Commodity Credit Corporation, and General Sales Manager, Export Marketing Service.

Consumer and Marketing Service

[7 CFR Part 1201]

TYPE 62 SHADE-GROWN, CIGAR-LEAF TOBACCO GROWN IN DESIGNATED PRODUCTION AREA OF FLORIDA AND GEORGIA

Proposed Expenses and Rate of Assessment for 1972–73 Fiscal Period

Consideration is being given to the following proposals submitted by the Control Committee, established under the amended marketing agreement and Amended Order No. 195 (7 CFR Part 1201), regulating the handling of type 62 shade-grown, cigar-leaf tobacco grown in designated production area of Florida and Georgia, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(a) Expenses in the amount of $7,200 are reasonable and likely to be incurred by the Control Committee for its maintenance and functioning during the fiscal period ending January 31, 1973.

(b) The following rate of assessment which each handler who first handles tobacco shall pay, in accordance with the applicable provisions of the said amended marketing agreement and amended order, is hereby fixed as such handler's pro rata share of the aforesaid expenses: $1.60 per 1,000 pounds of tobacco handled by such handler as the first handler thereof during the fiscal period ending January 31, 1973.

(c) Terms used in this section shall have the same meaning as when used in said amended marketing agreement and amended order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 15th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to the notice will be made available for public

V 37-65 APR 4 72 XUM

inspection at the office of the Hearing Clerk during official hours of business.

Done at Washington, D.C., this 30th day of March 1972.

JACK THOMASON,
Director, Tobacco Division, Consumer and Marketing Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-CE-7]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Moberly, Mo.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

A new public use instrument approach procedure has been developed for the Omar Bradley Airport, Moberly, Mo. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Moberly, Mo.

In consideration of the foregoing, the Federal Aviation Administration proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is added:

MOBERLY, MO.

That airspace extending upwards from 700 feet above the surface within a 6.5-statute-mile radius of the Omar N. Bradley Airport (latitude 39°27'50" N., longitude 92°25'40" W.) and 3 miles either side of the 317° bearing from the airport extending from the 6.5-mile radius to 8 miles northwest, and that airspace extending upwards from 1,200 feet above the surface 9.5 miles southwest and 5 miles northeast of the 317° bearing from the airport extending from the airport to 18.5 miles northwest and 6.5 miles southeast.

This amendment is propsed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on March 9, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.72-5055 Filed 4-3-72;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72-CE-8]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area as Mason City, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

New public use instrument approach procedures have been developed for the Mason City Municipal Airport, Mason City, Iowa. Accordingly, it is necessary to alter the Mason City transition area to adequately protect aircraft executing the new approach procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

MASON CITY, IOWA

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Mason City Municipal Airport (latitude 43°09'25" N., longitude 93°19'54" W.); within 5 miles each side of the Mason City VORTAC 002° radial, extending from the 9-mile radius area to 24½ miles north of the VORTAC; and within 4½ miles west and 9½ miles east of the Mason City VORTAC 182° and 002° radials, extending from 5 miles north to 24½ miles south of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within a 24-mile radius of Mason City VORTAC; and within 4½ miles east and 10 miles west of the Mason City VORTAC 002° radial, extending from the 24-mile radius area to 34½ miles north of the VORTAC, excluding the portion which overlies the Albert Lea, Minn., transition area and Charles City, Iowa transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on March 9, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.72-5056 Filed 4-3-72;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72-EA-27]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Middletown, N.Y., Transition Area (37 F.R. 2240).

A new NDB-A instrument approach procedure has been developed for Randall Airport, Middletown, N.Y., which requires alteration of the transition area to contain IFR arrivals and departures at Randall Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with the Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region. Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Middletown, N.Y., proposes the airspace action hereinafter set forth:

Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Middletown, N.Y., 700-foot-floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the center 41°25'54" N., 74°23'40" W., of Randall Airport, Middletown, N.Y., and within 2 miles each side of the Huguenot, N.Y., VORTAC 082° radial, extending from the 7-mile-radius area to the VORTAC, excluding the portion that coincides with the Newburgh, N.Y., 700-foot-floor transition area. This transition area is effective from sunrise to sunset, daily.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on March 21, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Meadville, Pa., Transition Area (37 F.R. 2238).

A revision of the VOR instrument approach procedure for Port Meadville Airport, Meadville, Pa., requires alteration of the Meadville, Pa., 700-foot-floor transition area to protect IFR arrivals and departures at Port Meadville Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with the Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region. Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Meadville, Pa., proposes the airspace action hereinafter set forth:

Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Meadville, Pa., 700-foot-floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the center 41°37'37" N., 80°12'51" W., of Port Meadville Airport, Meadville, Pa.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on March 21, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Gaithersburg, Md., Transition Area (37 F.R. 2199).

A revision of the NDB instrument approach procedure for Montgomery County Airport, Gaithersburg, Md., requires alteration of the transition area to protect IFR arrivals and departures at Montgomery County Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with the Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region. Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Gaithersburg, Md., proposes the airspace action hereinafter set forth:

Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Gaithersburg, Md., 700-foot-floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the center 39°09'54" N., 77°10'00" W. of Montgomery County Airport, Gaithersburg, Md., and within 3 miles each side of the 008° bearing from the Gaithersburg, Md., RBN 39°10'06" N., 77°09'42" W., extending from the 8.5-mile-radius area to 8.5 miles north of the RBN.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on March 21, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

Hazardous Materials Regulations Board

[49 CFR Parts 171, 173, 178]

[Docket No. HM-99; Notice 72-3]

TRANSPORTATION OF HAZARDOUS MATERIALS

Specifications 3AX, 3AAX, and 3T Cylinders

The Hazardous Materials Regulations Board is considering amendments to §§ 171.7, 173.34, 173.301, 173.302, and 173.304, and addition of a new § 178.45, to provide for the shipment of certain gases in large cylinders or tubes mounted on a motor vehicle.

These proposed changes are based on several outstanding permits and two petitions for rule change from the Compressed Gas Association, Inc. Nineteen shippers, including most major gas suppliers, are involved in the special permits which have been outstanding for up to 4 years. Consequently, the Board has evaluated considerable experience data. It has found that, without exception, all reports have cited satisfactory experience, without loss of any product.

Although not specifically covered by petitions, the Board specified several special conditions of transportation in the permits and is proposing them in this rule making action. These special conditions are covered essentially by the proposed new paragraph (l) to § 173.301.

Also covered by this notice are matters relating to manufacturer's registration

V 37-65 APR 4 72 XUM

and method of maintaining cylinder reports. However, the purposes of the Board regarding these new items have been the subject of similar rule making actions in Dockets HM-27 and HM-69, and, therefore, are not discussed specifically in this docket.

In consideration of the foregoing, 49 CFR Parts 171, 173, and 178 would be amended as follows:

PART 171—GENERAL INFORMATION AND REGULATIONS

In § 171.7 paragraphs (c) (13) and (d) (8) would be added to read as follows:

§ 171.7 Matter incorporated by reference.

• • • • • •

(c) • • •

(13) Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(d) • • •

(8) U.S. Department of Commerce, National Bureau of Standards Handbook H 28 (1957)—Part II is titled, "Screw-Thread Standards for Federal Services 1957", December 1966 edition.

PART 173—SHIPPERS

§ 173.34 [Amended]

(A) In § 173.34 paragraph (e) Table, the following would be added as the ninth entry: "3T----------5/3 times service pressure------5".

(B) In § 173.301 paragraph (h) Table would be amended by adding, "DOT-3AX" and "DOT-3AAX" as the fifth and eighth entries respectively in the first column and "DOT-3T" as the third entry in the second column; paragraph (d) (1) would be amended; paragraph (l) would be added to read as follows:

§ 173.301 General requirements for shipment of compressed gases in cylinders.[1]

• • • • •

(d) • • •

(1) Manifolding is authorized for containers of the following gases: argon, air, carbon dioxide, helium, neon, nitrogen, nitrous oxide, or oxygen provided that each container is individually equipped with safety relief devices as required by § 173.34(d) or § 173.315(l).

• • • • •

(l) Specifications 3AX, 3AAX, and 3T cylinders are authorized for transportation only when horizontally mounted on a motor vehicle and when valves and safety devices are protected, as follows:

(1) Each cylinder must be fixed at the rear end of each vehicle with provisions for thermal expansion at the forward attachment to the vehicle;

(2) The valve and safety relief device protective structure must be sufficiently strong to withstand a force equal to twice the weight involved with a safety factor of four, based on the ultimate strength of the material used; and

(3) Each discharge for a safety relief device on a cylinder containing a flammable gas must be upward and unobstructed.

(C) In § 173.302, paragraph (a) (3), the introductory text of paragraph (c), (c) (3) Table, and paragraph (f) would be amended to read as follows:

§ 173.302 Charging of cylinders with non liquefied compressed gases.

(a) • • •

(3) Specification 3AX, 3AAX, or 3T (§§ 178.36, 178.37, 178.45 of this chapter) cylinders are authorized only for the following non liquefied gases: air, argon, carbon monoxide, ethane, ethylene, helium, hydrogen, methane, neon, nitrogen, or oxygen, except that specification 3T is not authorized for hydrogen.

• • • • • •

(c) *Special filling limits for Specifications 3A, 3AX, 3AA, 3AAX, and 3T cylinders.* Specifications 3A, 3AX, 3AA, 3AAX, and 3T (§§ 178.36, 178.37, 178.45 of this chapter) cylinders may be charged with compressed gases, other than liquefied, dissolved, poisonous, or flammable gases to a pressure 10 percent in excess of their marked service pressure, provided:

• • • • • •

(3) • • • .

Kind of gas	Maximum permitted filling density (see note 1)	Containers marked as shown in this column or of the same type with higher service pressure must be used except as provided in §§173.34 (a), (b), 173.301(j) (see notes following table)
(change)	*Percent*	
Carbon dioxide, liquefied (see Notes 3, 4, 7, and 8).	68	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-3HT2000; DOT-39.
Carbon dioxide-nitrous oxide mixture (see Notes 7 and 8).	68	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT 3E1800; DOT-3T1800; DOT-3HT2000; DOT-39.
Ethane (see Notes 8 and 9)	35.8	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-39.
Do	36.8	DOT-3A2000; DOT-3AX2000; DOT-3AA2000; DOT-3AAX2000; DOT-3T2000; DOT-39.
Ethylene (see Notes 8 and 9)	31.0	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-39.
Do	32.5	DOT-3A2000; DOT-3AX2000; DOT-3AA2000; DOT-3AAX2000; DOT-3T2000; DOT-39.
Do	35.5	DOT-3A2400; DOT-3AX2400; DOT-3AA2400; DOT-3AAX2400; DOT-3T2400; DOT-39.
Nitrous oxide (see Notes 7 and 8)	68	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-3HT2000; DOT-39.

• • • • • •

(f) *Carbon monoxide.* Carbon monoxide must be shipped in a specification 3A, 3AX, 3AA, 3AAX, 3, 3E, or 3T (§§ 178.36, 178.37, 178.42, 178.45) cylinder having a minimum service pressure of 1,800 p.s.i.g. The pressure in the cylinder must not exceed 1,000 p.s.i.g. at 70° F. except that if the gas is dry and sulfur free, a cylinder may be charged to five-sixths the cylinder service pressure or 2,000 p.s.i.g., whichever is the lesser.

(D) In § 173.304 paragraph (a) (2) the table would be amended as follows:

§ 173.304 Charging of cylinders with liquefied compressed gas.

(a) • • •

(2) • • •

Type of steel	Average wall stress limitation	Maximum wall stress limitation
(add)		
Steel of analysis and heat treatment specified in Spec. DOT-3T----------	87,000	94,000

• • • • • •

PART 178—SHIPPING CONTAINER SPECIFICATIONS

(A) In Part 178 Table of Contents, § 178.45 would be added to read as follows:

Sec.

178.45 Specification 3T; seamless steel cylinder.

(B) Section 178.45 would be added to read as follows:

§ 178.45 Specification 3T; seamless steel cylinder.

§ 178.45–1 Compliance.

Each cylinder must meet the applicable requirements of § 173.24 of this chapter.

§ 178.45–2 Type, size, and service pressure.

(a) *Type.* Each cylinder must be of seamless construction with integrally formed heads concave to pressure at both ends. The inside head shape must be hemispherical, ellipsoidal in which the major axis is two times the minor axis, or a dished shape falling within these two limits. Permanent closures formed by spinning are prohibited.

(b) *Size.* The minimum water capacity is 1,000 pounds.

(c) *Service pressure.* The minimum service pressure is 1,800 p.s.i.

§ 178.45–3 Inspection by whom and where.

Inspection of each cylinder must be performed by a competent and disinterested inspector, acceptable to the Bureau of Explosives. Chemical analyses and tests must be performed within the limits of the United States.

[1] Requirements covering cylinders are also applicable to spherical pressure vessels.

§ 178.45–4 Duties of the inspector.

(a) The inspector must determine that all materials are in compliance with the requirements of this specification.

(b) The inspector must verify compliance with the requirements of § 178.45–5 by making a chemical analysis or obtaining a certified chemical analysis from the material manufacturer for each heat of material. If an analysis is not provided by the material manufacturer, a sample from each heat must be analyzed.

(c) The inspector must determine that each cylinder is made and marked in compliance with this specification by:

(1) Complete internal and external inspection;

(2) Verification of proper heat treatment;

(3) Selection of samples to be tested;

(4) Witnessing all tests;

(5) Verification of threads by gage; and

(6) Preparation of required report.

§ 178.45–5 Material, steel.

(a) Only open hearth, basic oxygen, or electric furnace process steel of uniform quality is authorized. The steel analysis must conform to the following:

ANALYSES TOLERANCES

Element (percent)	Ladle analysis	Check analysis Under	Check analysis Over
Carbon	0.35–0.50	0.03	0.04
Manganese	0.75–1.05	0.04	0.04
Phosphorus (max)	0.035	-------	0.01
Sulfur (max)	0.04	-------	0.01
Silicon	0.15–0.35	0.02	0.03
Chromium	0.80–1.15	0.05	0.05
Molybdenum	0.15–0.25	0.02	0.02

(b) A heat of steel made under these specifications, the ladle analysis of which is slightly out of the specified range, is acceptable if satisfactory in all other respects. However, the check analysis tolerances shown in the above table may not be exceeded except as approved by the Department.

(c) Material with seams, cracks, laminations, or other injurious defects is not permitted.

(d) Material used must be identified by any suitable method.

§ 178.45–6 Manufacture.

(a) General manufacturing requirements are as follows:

(1) Dirt and scale must be removed prior to inspection and processing.

(2) Surface finish must be uniform and reasonably smooth.

(3) Inside surfaces must be clean, dry, and free of loose particles.

(4) No defect of any kind is permitted if it is likely to weaken a finished cylinder.

(b) If the cylinder surface is not originally free from the defects described in paragraph (a) of this section, the surface may be machined or otherwise treated to eliminate these defects provided the minimum wall thickness is maintained.

(c) Welding or brazing on a cylinder is not permitted.

§ 178.45–7 Wall thickness.

(a) The minimum wall thickness must be such that the wall stress at the minimum specified test pressure does not exceed 67 percent of the minimum tensile strength of the steel as determined by the physical tests required in §§ 178.45–14 and 178.45–15. A wall stress of more than 90,500 p.s.i. is not permitted. The minimum wall thickness for any cylinder may not be less than 0.225 inch.

(b) Calculation of the stress for cylinders must be made by the following formula:

$$S=\frac{P\,(1.3D^2+0.4d^2)}{D^2-d^2}$$

where:

S=Wall stress in pounds per square inch;
P=Minimum test pressure, at least 5/3 service pressure;
D=Outside diameter in inches;
d=Inside diameter in inches.

(c) Each cylinder must meet the following additional requirements which assumes a cylinder horizontally supported at its two ends and uniformly loaded over its entire length. This load consists of the weight per inch of length of the straight cylindrical portion filled with water compressed to the specified test pressure. The wall thickness must be increased when necessary to meet this additional requirement.

(1) The sum of two times the maximum tensile stress in the bottom fibers due to bending (see subdivision (i) of this subparagraph), plus the maximum tensile stress in the same fibers due to hydrostatic testing (see subdivision (ii) of this subparagraph) may not exceed 80 percent of the minimum yield strength of the steel at this maximum stress.

(i) The following formula must be used to calculate the maximum tensile stress due to bending:

$$S=\frac{Mc}{I}$$

where:

S=Tensile stress in pounds per square inch;
M=Bending moment in inch-pounds $\left(\frac{wl^2}{8}\right)$;
I=Moment of inertia—0.04909 (D^4-d^4) in inches fourth;
c=Radius $\left(\frac{D}{2}\right)$ of cylinder in inches;
w=Weight per inch of cylinder filled with water;
l=Length of cylinder in inches;
D=Outside diameter in inches;
d=Inside diameter in inches.

(ii) The following formula must be used to calculate the maximum longitudinal tensile stress due to hydrostatic test pressure:

$$S=\frac{A_1P}{A_2}$$

where:

S=Tensile stress in pounds per square inch;
A_1=Internal area in cross section of cylinder in square inches;
P=Hydrostatic test pressure in pounds per square inch;
A_2=Area of metal in cross section of cylinder in square inches.

§ 178.45–8 Heat treatment.

(a) Each completed cylinder must be uniformly and properly heat treated prior to testing, as follows:

(1) Each cylinder must be heated and held at the proper temperature for at least 1 hour per inch of thickness based on the maximum thickness of the cylinder and then quenched in a suitable liquid medium having a cooling rate not in excess of 80 percent of water. The steel temperature on quenching must be that recommended for the steel analysis, but it must never exceed 1,750° F.

(2) After quenching, each cylinder must be reheated to a temperature below the transformation range but not less than 1,050° F., and must be held at this temperature for at least 1 hour per inch of thickness based on the maximum thickness of the cylinder. Each cylinder must then be cooled under conditions recommended for the steel.

§ 178.45–9 Openings.

(a) Openings are permitted on heads only.

(b) The size of any centered opening in a head may not exceed one-half the outside diameter of the cylinder.

(c) Openings in a head must have ligaments between openings of at least three times the average of their hole diameter. No off-center opening may exceed 2.625 inches in diameter.

(d) All openings must be circular.

(e) All openings must be threaded. Threads must be in compliance with the following:

(1) Each thread must be clean cut, even, without any checks, and to gage.

(2) Taper threads, when used, must be the American Standard Pipe thread (NPT) type and must be in compliance with the requirements of NBS Handbook H–28, Part II, section VII.

(3) Taper threads conforming to National Gas Taper thread (NGT) standards must be in compliance with the requirements of NBS Handbook H–28, Part II, sections VII and IX.

(4) Straight threads conforming with National Gas Straight thread (NGS) standards are authorized. These threads must be in compliance with the requirements of NBS Handbook H–28, Part II, sections VII and IX.

§ 178.45–10 Safety devices and protection for valves, safety devices, and other connections.

Safety devices and protection arrangements for valves, safety devices, and other connections must be in compliance with § 173.34(d) of this chapter. See also § 173.301(l) of this chapter.

§ 178.45–11 Hydrostatic test.

(a) Each cylinder must be tested at an internal pressure by the water jacket method or other suitable method. The testing apparatus must be operated in a

V 37-65 APR 4 72 XUM

manner that will obtain accurate data. Any pressure gage used must permit reading to an accuracy of 1 percent. Any expansion gage used must permit reading of the total expansion to an accuracy of 1 percent.

(b) Any internal pressure applied to the cylinder after heat treatment and before the official test may not exceed 90 percent of the test pressure.

(c) The pressure must be maintained sufficiently long to assure complete expansion of the cylinder. In no case may the pressure be held less than 30 seconds.

(d) If, due to failure of the test apparatus, the required test pressure cannot be maintained, the test may be repeated at a pressure increased by 10 percent or 100 p.s.i., whichever is the lower.

(e) Permanent volumetric expansion of the cylinder may not exceed 10 percent of its total volumetric expansion at the required test pressure.

(f) Each cylinder must be tested to at least 5/3 times its service pressure.

§ 178.45–12 Ultrasonic examination.

After the hydrostatic test, the cylindrical section of each vessel must be examined in accordance with ASTM Standard A–388–67 using the angle beam technique. The equipment used must be calibrated to detect a notch equal to 5 percent of the design minimum wall thickness. Any discontinuity indication greater than that produced by the 5 percent notch shall be cause for rejection of the cylinder unless the discontinuity is repaired within the requirements of this specification.

§ 178.45–13 Basic requirements for tension and Charpy impact tests.

(a) When the cylinders are heat treated in a batch furnace, two tension specimens and three Charpy impact specimens must be tested from one of the cylinders or a test ring from each batch. The lot size represented by these tests may not exceed 200 cylinders.

(b) When the cylinders are heat treated in a continuous furnace, two tension specimens and three Charpy impact specimens must be tested from one of the cylinders or a test ring from each 4 hours or less of production. However, in no case may a test lot based on this production period exceed 200 cylinders.

(c) Each specimen for the tension and Charpy impact tests must be taken from the side wall of a cylinder or from a ring which has been heat treated with the finished cylinders of which the specimens must be representative. The axis of the specimens must be parallel to the axis of the cylinder. Each cylinder or ring specimen for test must be of the same diameter, thickness, and metal as the finished cylinders they represent. A test ring must be at least 24 inches long with ends covered during the heat treatment process so as to simulate the heat treatment process of the finished cylinders it represents.

(d) A test cylinder or test ring need represent only one of the heats in a furnace batch provided the other heats in the batch have previously been tested and have passed the tests and that such tests do not represent more than 200 cylinders from any one heat.

(e) The test results must conform to the requirements specified in §§ 178.45–14 and 178.45–15.

(f) When the test results do not conform to the requirements specified, the cylinders represented by the tests may be reheat treated and the tests repeated. Paragraph (e) of this section applies to any retesting.

§ 178.45–14 Basic conditions for acceptable physical testing.

(a) The following criteria must be followed to obtain acceptable physical test results:

(1) Each tension specimen must have a gage length of 2 inches with a width not exceeding 1½ inches. Except for the grip ends, the specimen may not be flattened. The grip ends may be flattened to within 1 inch of each end of the reduced section.

(2) A specimen may not be heated after heat treatment specified in § 178.45–8.

(3) The yield strength in tension must be the stress corresponding to a permanent strain of 0.2 percent of the gage length.

(i) This yield strength must be determined by the "offset" method or the "extension under load" method described in ASTM Standard E8–69.

(ii) For the "extension under load" method, the total strain (or extension under load) corresponding to the stress at which the 0.2 percent permanent strain occurs may be determined with sufficient accuracy by calculating the elastic extension of the gage length under appropriate load and adding thereto 0.2 percent of the gage length. Elastic extension calculations must be based on an elastic modulus of 30 million. However, when the degree of accuracy of this method is questionable, the entire stress-strain diagram must be plotted and the yield strength determined from the 0.2 percent offset.

(iii) For the purpose of strain measurement, the initial strain must be set with the specimen under a stress of 12,000 p.s.i. and the strain indicator reading set at the calculated corresponding strain.

(iv) The crosshead speed of the testing machine may not exceed one-eighth inch per minute during the determination of yield strength.

(4) Each impact specimen must be Charpy V-notch type size 10 mm x 10 mm taken in accordance with paragraph 11 of ASTM Standard A–333–67. When a reduced size specimen is used, it must be the largest size obtainable.

§ 178.45–15 Acceptable physical test results.

(a) Results of physical tests must conform to the following:

(1) The tensile strength may not exceed 155,000 p.s.i.

(2) The elongation must be at least 16 percent for a 2-inch gage length.

(3) The Charpy V-notch impact properties for the three impact specimens, which must be tested at 0° F., may not be less than the values shown below:

Size of specimen (mm)	Average value for acceptance 3 specimens	Minimum value 1 specimen only of the 3
	Foot pounds	*Foot pounds*
10.0 x 10.0	25	20
10.0 x 7.5	21	17
10.0 x 5.0	17	14

(4) After the final heat treatment, each vessel must be hardness tested on the cylindrical section. The tensile strength equivalent of the hardness number obtained may not be more than 165,000 p.s.i. (R_c 36). When the result of a hardness test exceeds the maximum permitted, two or more retests may be made; however, the hardness number obtained in each retest may not exceed the maximum permitted.

§ 178.45–16 Rejected cylinders.

(a) Reheat treatment is authorized. However, each reheat treated cylinder must subsequently pass all the prescribed tests.

(b) Repair by welding is not authorized.

§ 178.45–17 Markings.

(a) Marking must be done by stamping into the metal of the cylinder. All markings must be legible and located on a shoulder.

(b) Required markings are as follows:

(1) DOT–3T, followed by the service pressure (for example: DOT–3T1800);

(2) A serial number;

(3) The registration number of the manufacturer (M ****);

(4) The inspector's official mark near the serial number;

(5) The tare weight in pounds; and

(6) The date of the test (for example 5–72 for May 1972), so placed that dates of subsequent tests may be easily added.

(c) Markings must be at least one-half inch high.

(d) The markings prescribed by paragraphs (b) (1), (2), and (3) of this section must be displayed one immediately below the previous one as follows:

DOT–3T1800
1234
M 6789

(e) No person may mark any cylinder with the specification identification "DOT–3T" unless (1) it was manufactured in compliance with the requirements of this section and (2) its manufacturer has a registration number (M ****) from the Office of Hazardous Materials, Department of Transportation, Washington, D.C. 20590.

§ 178.45–18 Inspector's report.

(a) The inspector's report must be retained indefinitely by the manufacturer as long as DOT–3T cylinders are authorized for use by these regulations and a copy must be supplied the purchaser and owner of each cylinder. Upon sale by the original purchaser or owner, a copy of the report must be furnished the buyer. The manufacturer and owner must keep all reports available for examination upon request by representatives of the Department.

(b) Each report must be legible, and contain at least the following information:

INSPECTION REPORT COVERING THE MANUFACTURE OF SPECIFICATION DOT–3T CYLINDERS

The cylinders covered by this report were manufactured for _____ located at _____ They were manufactured by _____ located at _____ The cylinders are _____ inches in diameter (OD), _____ inches in length, and have a minimum wall thickness of _____ inches. The calculated stress is _____ p.s.i. under a test pressure of _____ p.s.i. The marks stamped into the shoulder of the cylinder are:

Specification DOT– _____;
Serial Nos. _____ to _____ inclusive;
Inspector's mark _____;
DOT registration number M_____;
Tare weight _____;
Test date _____;
Other marks (if any) _____

These cylinders were made by process of _____. The cylinders were heat treated by the process of _____. The metal used was identified by the following _____ (heat-purchase order) numbers _____. The metal used was verified as to chemical analysis as shown in the "Record of Chemical Analysis of Metal" attached hereto. The heat numbers _____ (were–were not) _____ marked on the metal.

All material was inspected visually and by ultrasonic means and all that was accepted was found free of injurious defects which might significantly affect the strength of the cylinder. The processes of manufacture and heat treatment of cylinders were observed and found satisfactory.

The cylinder walls and outside diameter were measured and the calculated stress for the cylinder design covered herein was verified.

Hydrostatic test, physical tests of the material, and other tests as prescribed in specification DOT–3T were made in the presence of the inspector. All materials, tests results, and cylinders accepted were found to be in compliance with the requirements of that specification and records therefor are attached hereto.

I hereby certify that all these cylinders proved satisfactory in every way and are in compliance with the requirements of Department of Transportation Specification 3T.

V 37-65 APR 4 72 XUM

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, Department of Transportation, 400 Sixth Street SW., Washington, DC 20590. Communications received on or before July 11, 1972, will be considered before final action is taken on the proposal. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board, both before and after the closing date for comments.

This proposal is made under the authority of sections 831–835 of title 18, United States Code, and section 9 of the Department of Transportation Act (49 U.S.C. 1657).

Issued in Washington, D.C., on March 28, 1972.

WILLIAM K. BYRD,
Acting Chairman, Hazardous Materials Regulations Board.

[FR Doc.72-5009 Filed 4-3-72;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 1, 81, 87, 89, 91, 93]

[Docket No. 19484; FCC 72-272]

SAFETY AND SPECIAL RADIO SERVICES

Applications or Petitions To Deny Applications

In the matter of amendment of Parts 1, 81, 87, 89, 91, and 93 of the Commission's rules relating to the time in which applications, and amendments thereto, or petitions to deny applications, may be filed in the Safety and Special Radio Services Docket No. 19484.

1. Notice of proposed rule making in the above-captioned matter is hereby given.

2. We propose to establish cutoff dates in our rules for the filing of mutually exclusive applications, major amendments thereto, and petitions to deny applications in the Safety and Special Radio Services of which public notice is required by section 309(b) of the Communications Act. The proposed changes are consonant with cutoff rules now applicable in the Broadcast and Common Carrier Services. The proposed cutoff rules will apply, generally, to applications for fixed microwave stations, industrial radio positioning stations for which frequencies are assigned on an exclusive basis, aeronautical advisory, en route, fixed and airborne control stations; and for maritime public coast stations. The cutoff times proposed are reasonable related to the time when the applications would normally be reached for processing by the Commission's staff. In substance, the proposed rules will require:

a. Applications that are mutually exclusive with an application already on file will be accepted for filing only if the later application is filed either (i) by the close of business 1 business day before the date of the Commission's order which first designated for hearing the first prior application or applications with which such application is in conflict, or (ii) within 60 days after the date of the public notice[1] listing the first prior filed application with which the subsequently filed application is in conflict, as having been accepted for filing, whichever date is earlier;

b. That a petition to deny an application may be filed no later than 30 days after the date of the public notice listing the application, or substantial amendment to the application, as having been accepted for filing.

c. Substantial amendments to mutually exclusive applications, and amendments, which will improve the applicant's position in any comparative hearing or which will change the issues in any hearing will be accepted if filed within 30 days after public notice is given of the filing of the mutually exclusive applications.

d. Amendments (those described in para. c above) to applications against which petitions to deny have been filed will be accepted if filed within 30 days of the filing of the first petition to deny.

3. It is to be noted, that the proposed cutoff dates set forth in the Rule Sections as amended, for filing a mutually exclusive application are stated in the alternative, whichever is earlier; (1) the close of business one business day before the Commission's designation order, or (2) within 60 days from the date of the public notice listing the first application for filing. Thus, the date fixed by the public notice is no guarantee that an application will be entitled to consideration with listed applications if filed by the end of the 60-day period, but rather that date is the last possible filing date for comparative consideration only if the earlier application has not been designated for hearing by that time.

4. It is also noted, that according to the language and intent of these sections as amended, the consolidation rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications. Thus, if application B is timely filed for consideration with application A, and application C is not timely filed for consideration with application A, application C will not be consolidated in the hearing on applicatiohs A and B though it was timely filed as to B, unless of course, application C is mutually exclusive with application B only.

5. The proposed amendments to the rules, as set forth below, are issued pursuant to the authority contained in sections 4(i), 303(r), and 309(d)(1) of the Communications Act of 1934, as amended.

6. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before May 9, 1972, and reply comments on or before May 19, 1972. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

7. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its main offices in Washington, D.C.

Adopted: March 23, 1972.

Released: March 28, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 1.227(b) (2) and (3) is amended to read as follows:

§ 1.227 Consolidations.

* * * * *

(b) * * *

(2) In cases of applications filed in the Safety and Special Radio Services, any application that is mutually exclusive with another application or applications will be consolidated for hearing with such other application or applications only if the later application in question is substantially complete and tendered for filing by whichever date is earlier: (i) Not later than the close of business 1 business day before the Commission adopted an order which first designated for hearing the prior application or applications with which such application is in conflict; or (ii) within 60 days after the date of public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change (i.e., substantial change as defined by § 1.962(c) will, for the purpose of this section, be considered to be a newly filed application.

(3) In common carrier cases, other than Public Coast stations in the Maritime Mobile Services which are provided for in subparagraph (2) of this paragraph and except those involving Domestic Public Radio Service any application that is mutually exclusive with another previously filed application will

[1] During the course of each week a public notice is issued listing, inter alia, certain applications, for which public notice is required by section 309(b) of the Communications Act, accepted for filing in the Safety and Special Radio Services, and applications requesting major amendment to applications previously subject to public notice.

[1] Commissioners Robert E. Lee and Johnson absent.

be considered with such prior filed application only if the later filed application is substantially complete and tendered for filing prior to the close of business on the day preceding the day the earlier filed application is designated for hearing. In the Domestic Public Radio Services no application will be consolidated for hearing as mutually exclusive with a previously filed application or applications unless such application, or such application as amended so as to constitute a major change therein as defined in § 21.33 of this chapter, is substantially completed and tendered for filing by whichever date is earlier: (i) The close of business 1 business day preceding the day on which the Commission designates the earlier filed application for hearing; or (ii) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will, for the purpose of this section, be considered to be a newly filed application. Where major changes which do not relate to the mutually exclusive aspect of a proceeding are warranted, or in the case of multiple mutually exclusive issues where the warranted major changes serve to resolve one or more of the issues but do not relate to the mutually exclusive aspect of the proceeding, such changes or amendments will not serve to alter the existing mutually exclusive status so long as new conflicts are not created.

* * * * *

2. In § 1.918, paragraph (b) is amended, a new paragraph (c) is added and the existing paragraph (c) is redesignated paragraph (d), to read as follows:

§ 1.918 Amendment of applications.

* * * * *

(b) Any application may be amended as a matter of right prior to the grant of such application by filing the appropriate number of copies of the amendments in question duly executed: *Provided, however,* That when an application is mutually exclusive with another application, or when a petition to deny such an application has been filed, an application to amend the application substantially, as defined in § 1.962(c) of this chapter, or in a way that would improve the applicant's position in any comparative hearing, or to change the issues in any hearing, must be filed not later than 30 days after the filing at the Commission of the petition to deny such application or, in the case of mutually exclusive applications, within 30 days of the public notice of the filing of the mutually exclusive application. If a petition to deny has been filed, or the application is mutually exclusive with another application, the amendment shall be served on the petitioner, or the other applicant, as the case may be.

(c) An application to amend an application after it has been designated for hearing will be considered only upon written petition addressed to the hearing examiner and served upon the parties of record, and will be granted only for good cause shown. A petition which requests a substantial change or to change the applicant's position, or the issues, in a hearing, must be accompanied by a signed statement of a person with knowledge of the facts as to whether or not consideration has been promised to or received by the petitioner, directly or indirectly, in connection with the filing of such petition for amendment. If consideration has been promised, or received, the statement shall set forth in full detail all the relevant facts with sufficient itemization of the consideration to enable the examiner to determine to what extent, if any, that the consideration represents only the reasonable costs of prosecuting the petitioner's application.

* * * * *

3. Section 1.962(g) of the rules is amended to read as follows:

§ 1.962 Public notice of acceptance for filing; petitions to deny application of specified categories.

* * * * *

(g) Any party in interest may file with the Commission a petition to deny any application, whether as filed originally or as subsequently amended by a substantial amendment as defined in paragraph (c) of this section, subject to the provisions of this section, no later than 30 days after the date of the public notice listing the application, or substantial amendment to the application, as having been accepted for filing. A petitioner shall serve a copy of such petition on the applicant. A petition shall contain specific allegations of fact sufficient to show that the petitioner is a party in interest and that a grant of the application would be prima facie inconsistent with the public interest, convenience, and necessity. Such allegations of fact, except for those of which official notice may be taken, shall be supported by affidavit of a person or persons with personal knowledge thereof.

* * * * *

§§ 81.28, 87.39, 89.69, 91.61, 93.61 [Amended]

4. Sections 81.28(b), 87.39(b), 89.69 (a), 91.61(a), 93.61(a) are amended identically to read as follows:

Any application, except for mutually exclusive applications or those against which a petition to deny has been filed, may be amended as a matter of right at any time prior to the time the application is granted or designated for hearing. Each amendment to an application shall be signed and submitted in the same manner as required for the original application. The procedures for amending applications mutually exclusive under this part, applications against which a petition to deny has been filed, and applications designated for hearing are set forth in § 1.918 of this chapter.

[47 CFR Part 73]

[Docket No. 19483; FCC 72-265]

FM BROADCAST STATIONS IN SODDY-DAISY, TENN.

Proposed Table of Assignments

In the matter of amendment of § 73.202, *Table of Assignments,* FM Broadcast Stations (Soddy-Daisy, Tenn.), Docket No. 19483, RM-1810.

1. Notice is hereby given concerning the amendment of the FM Table of Assignments (§ 73.202 of the rules) to add a first channel for Soddy-Daisy, Tenn.

2. Petitioner, Robert Allen Mayer, requests the assignment of Channel 272A to Soddy-Daisy, Tenn., which are located in Hamilton County, northeast of Chattanooga. Both are within the Chattanooga Standard Metropolitan Statistical Area. According to the petition the proposed assignment could be made without disturbing any existing assignments and without having any significant preclusionary effect.

3. In support of the proposed assignment, petitioner contends that the communities, which have a combined population of 7,569,[1] lack local nighttime radio service. Such service as they have (principally from Chattanooga) is said to be unattentive to the particular needs of these communities. Petitioner is licensee of WPJD-AM a daytime-only station in Daisy, Tenn.

4. From our study of the petition it appears that the proposed assignment would not have a significant preclusionary effect and could be made consistent with our rules and without disturbing any existing assignments. For these reasons we believe that the proposal to serve this area merits consideration. There is another matter however, which bears upon this situation. In a notice of proposed rule making in Docket 19160, we proposed, and have since adopted, a Class A assignment for Red Bank-White Oak, Tenn. Like Soddy-Daisy, these communities are located in Hamilton County and in the Chattanooga SMSA, close enough to Soddy-Daisy so a station using the new assignment would provide 1.0 mv/m or better service to Red Bank-White Oak. From currently available information it appears that the proposed Red Bank-White Oak assignment would provide 1 mv/m service to Soddy-Daisy. Although both assignments could be made, petitioner and others desiring to comment, should address themselves to the need for an additional assignment in this area in view of our recent action. Finally, commenting parties should address themselves to the question of whether it would be appropriate to assign the channel on a hyphenated basis rather than to either community separately if it appears that an additional assignment in the area is warranted.

5. Cutoff procedure. As in other recent FM rule making proceedings, the following procedures will govern:

[1] 1970 Census. The petition also points out that the Soddy-Daisy joint Civil Division has a 1970 population of 10,918.

V 37 ■ 65 APR 4 72 XUM

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with any of the proposals in this notice, they will be considered as comments in the proceedings, and public notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

6. In view of the foregoing, and pursuant to authority found in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as concerns the communities below:

City	Channel No.	
	Present	Proposed
Soddy-Daisy, Tenn.		272A

7. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested persons may file comments on or before May 9, 1972, and reply comments on or before May 19, 1972. All submissions by parties to this proceeding or persons acting in behalf of such parties must be made in written comments, reply comments or other appropriate pleadings.

8. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. These documents will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Adopted: March 23, 1972.

Released: March 28, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[3]

[SEAL] BEN F. WAPLE, *Secretary.*

[FR Doc.72-5066 Filed 4-3-72;8:46 am]

[47 CFR Part 73]

[Docket No. 19401]

FM BROADCAST STATIONS IN CERTAIN CITIES IN IOWA, WEST VIRGINIA, AND FLORIDA

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Hampton, Pella, Cedar Rapids, and Charles City, Iowa; Keyser, W. Va.; Crystal River and Gainesville, Fla.), Docket No. 19401, RM-1750, RM-1756, RM-1757, RM-1777, RM-1790, RM-1829.

1. The further notice of proposed rule making in the above-entitled proceeding was adopted on February 9, 1972, released February 14, 1972, and published in the FEDERAL REGISTER on February 17, 1972, 37 F.R. 3548. The dates for filing comments and reply comments are presently March 24, 1972 and April 5, 1972, respectively.

2. On March 23, 1972, Tri-County Broadcasters, Inc. (Tri-County), licensee of Stations WTRS and WTRS-FM, Dunnellon, Fla., by its attorney, filed a request for an extension of time to and including April 7, 1972, in which to file comments. Counsel states that Tri-County desires to participate in this proceeding but due to the short time of its operation of the Dunnellon stations additional time is needed in order to allow it to make a showing in the public interest.

3. We are of the view that the requested extension of time is warranted and would serve the public interest: *Accordingly, it is ordered*, That the time for filing comments in the above docket, RM-1757, RM-1777, and RM-1790 only, is extended to and including April 7, 1972, and for the filing of reply comments to and including April 19, 1972.

4. This action is taken pursuant to authority found in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules and regulations.

Adopted: March 24, 1972.

Released: March 28, 1972.

FM BROADCAST STATIONS IN CERTAIN CITIES IN MAINE, NEW HAMPSHIRE AND NEW YORK

Memorandum Opinion and Order Terminating Proceeding

In the matter of amendment of § 73.202, *Table of Assignments*, FM Broadcast Stations. (Skowhegan, Augusta, Westbrook, and South Paris, Maine; Plymouth and Dover, N.H.; Waterbury, Vt.; and Plattsburgh, N.Y.) Docket No. 19116, RM-1442, RM-1464.

1. The Commission here considers petitions for reconsideration of the report and order in this proceeding which made certain changes, while denying others, in the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations), adopted November 10, 1971, and released November 12, 1971, 32 FCC 2d 549. The petitions were filed by Lakes Region Broadcasting Corp. (Lakes Region), WIRY, Inc. (WIRY), and Oxford Hills Radio Communications, Inc., licensee of WNWY-FM, Norway, Maine. The latter petition dealing only with reimbursement was voluntarily dismissed; see paragraph 14, below. Lakes Region also filed a petition for stay which we are denying; see paragraph 3, below. Lakes Region's petition for reconsideration was opposed by Kennebec Valley Broadcasting, Inc., licensee of Station WGHM-FM, Skowhegan, Maine (Kennebec Valley) and Eastminster Broadcasting Corp., licensee of FM Station WDNH, Dover, N.H. (Eastminster). The petition of WIRY is opposed by Kennebec Valley and partially by Lakes Region; WIRY filed a reply to Kennebec Valley's opposition. Lakes Region filed replies to the oppositions of Kennebec Valley and Eastminster.

2. The proceeding in brief involved proposals for Class C assignments at Skowhegan, Maine, proposed by Kennebec Valley (RM-1442), and at Plymouth, N.H., proposed by Lakes Region (RM-1464), which were in conflict and thus considered together because of the adjacent mileage separation shortage between the Channel 286 assignment at Skowhegan proposed by Kennebec Valley and Channel 287 which Lakes Region proposed to substitute for Channel 248 for Station WDNH, Dover, N.H., with Channel 248 being allocated to Plymouth, N.H. There were other concomitant changes. In general, Kennebec Valley's proposal was adopted while Lakes Region's proposal and counterproposal were not. WIRY, Inc., licensee of Class IV AM Station WIRY at Plattsburgh,[1] became a party because of its petition to assign Channel 281 or 287 at Plattsburgh and its having filed comments in this proceeding to comply with the "cut off" procedure in FM rule making proceedings. Its proposal for Channel 281 might have conflicted with the alternative Channel 281 substitute for Augusta, Maine, to which the Report and Order assigned Channel 294 (although the Canadian authorities have been requested to reconsider the Channel 282 alternative; see paragraph 15 of the report and order, 32 FCC 2d at 556). The Channel 287 proposal conflicted with that of Green Mountain Radio Associates to assign that channel to Rutland, Vt., and was linked to the principal proceeding because of Lakes Region's proposed substitute for Station WDNH; the Rutland proposal was withdrawn (see paragraph 8 of the report and order, 32 FCC 2d at 552). We denied both of WIRY's proposals because each seriously violated minimum mileage separations of the Working Arrangement of 1963 under the Canadian-United States FM Agreement of 1947.

3. We first discuss Lakes Region's petition for stay, which was opposed by Kennebec Valley and Eastminster. We did

[3] Commissioners Robert E. Lee and Johnson absent.

[1] Other aural facilities at Plattsburgh are Stations WEAV (Class III, unlimited time) and WEAV-FM, licensed to Plattsburgh Broadcasting Co., and daytime AM Station WKDR, licensed to Metro Group Broadcasting Co.

not act on the stay separately because of Lakes Region's failure to establish a right to one under classic criteria, see "Capitol Broadcasting Company, Inc.," 1 F.C.C. 2d 376 (1965); "WHDH, Inc., 20 R.R. 410a (1960); and "Saratoga-Bradentown Florida Television Co., Inc," 29 FCC 2d 520 (1971). To the extent that Lakes Region was specifically concerned with adherence to the schedule(s) in Paragraphs 18 and 19 of the report and order for Stations WGHM-FM (Kennebec Valley) and WNWY-FM to agree to channel changes and file technical data, these steps were meaningless without further Commission action. Indeed, Station WNWY-FM requested leave to defer compliance with paragraph 19; see paragraph 14 below. Further, Kennebec Valley had already filed its assent to the change and it was about to file the technical data, and we felt that we could defer denial until acting on Lakes Region's petition for reconsideration, since such acts alone could not prejudice Lakes Region's petition for reconsideration.

4. We now discuss WIRY's petition for reconsideration. WIRY, aware of the mileage separation shortages to Canadian channel assignments, endeavored to show that Plattsburgh, on the basis of population (18,715 according to the 1970 Census [2]), is entitled to an additional FM channel. FM Channel 260 already is assigned to that community; it is occupied by Station WEAV-FM, and there are other aural services including Class IV AM Station WIRY, licensed to the petitioner (see footnote 1). As WIRY states in the petition for reconsideration, the short-spacings referred to in fn. 6 of the report and order (32 FCC 2d at 553) were noted by it, and WIRY proposed limited radiation toward Canada (a Class A facility). The Channel 287 alternative, which also conflicted with Lakes Region's proposal for Dover, N.H., was not deemed technically feasible even with the proposed suppressed radiation because of great shortages of mileage separations to the three Canadian channels involved. With suppression in radiation, Channel 281 would have meet Class A spacings to two Canadian channels and the other two were within the 5-mile tolerance permitted under the FM agreements with Canada; however, we are especially concerned with the wide angle of suppression required to the Canadian border and the concomitant limitation on radiation in the opposite direction brought about by the 15 decibel restriction in maximum to minimum radiation in § 73.316(c). Thus, a station on Channel 281 at Plattsburgh could never effectively operate as a Class C channel domestically where it would be necessary to maintain Class C separations, and there would be a large preclusion area to the south of Plattsburgh where Channel 281 might be allocated. If Channel 281 were assigned to Plattsburgh, there would be a substantial area where allocation of Channel 280A would be precluded irrespective of Canadian FM channel assignments. In sum, in our judgment, assignment of Channel 281 to Plattsburgh would be a highly inefficient allocation in the circumstances as concerns our domestic situation, considering the mandate of Section 307(b) of the Communications Act of 1934, as amended, about a fair, efficient, and equitable distribution of radio service among the States and communities.

5. In its petition for reconsideration, WIRY now proposes terrain shielding in the direction of Canada. More specifically, WIRY suggests the allocation of Channel 281 to Plattsburgh but at a selected transmitter site which would protect the Canadian allocations by utilizing natural obstacles; the specific example is a site west of Plattsburgh which in the direction of St. Jerome, Quebec, to whose Channel 280B there is a mileage separation shortage, an antenna with a center of radiation of 500 feet above ground is 223 feet below average terrain. WIRY's engineer further states that similar shielding would be obtained at other sites. This is a novel approach, for in the FM service we have not recognized terrain shielding for allocation purposes along the United States-Canadian border as well for domestic purposes. This concept is not specifically contemplated by our accord with Canada. However, this aside, and as pointed out above, allocation of Channel 261 to Plattsburgh would be inefficient.

6. We now turn to Lakes Region's petition for reconsideration. Its main argument is that its counterproposal should have been adopted. As to the principal commmunities involved, it states that Class C channels could be assigned to Skowhegan (Channel 277), Plymouth (Channel 248), and Dover (substitute Channel 287 for 248). Lakes Region contends that the report and order in some respects is based on errors of fact and law and fails to consider critical public interest factors. We disagree and adhere to the views expressed in the Report and Order. Lakes Region's petition for reconsideration viewed in its proper light mainly is a reargument of contentions considered and rejected by the Commission. Contrary to this party's contentions the report and order was not based on misconception of fact or law.[3]

7. Lakes Region's argument that Plymouth is entitled to a Class C channel was predicated on two separate grounds. The predominant one was that such an allocation would provide a first or second "in-state" service to large areas in New Hampshire. As stated in the report and order (paragraph 11, 32 FCC 2d at 554), Lakes Region erroneously assumes that Station WWMT-FM (Channel 235, Mount Washington, N.H.) is not a New Hampshire assignment. This novel argument of "in-state" service, we rejected on the broader ground that Lakes Region failed to show unserved and underserved areas under the "Roanoke Rapids and Goldsboro, North Carolina," 9 FCC 2d 672 (1967), case as the touchstone of fair, efficient, and equitable service in the circumstances as required by section 307(b) of the Communications Act of 1934, as amended. This point was made earlier in the notice of proposed rule making (paragraph 10(c)). Lakes Region contends that it also argued that Plymouth needed a Class C channel because of terrain and service to dispersed populations. There is no doubt that the "Roanoke Rapids" case doctrine applies in the latter respect and, despite Lakes Region's contrary contention, we found that no showing was made that a Class C channel would provide service to unserved areas.[4] This aside, allocation of Channel 248 to Plymouth, N.H.—the only possible Class C channel that could be assigned under mileage criteria—depended on a suitable substitute channel for Station WDNH, Dover, N.H., being available. (That station could not continue to operate on Channel 248, if that channel were to be allocated to Plymouth.) The proposed substitution of Channel 287 in lieu of 248 at Dover was limited not only by the proposed assignment of Channel 286 to Skowhegan but by a cochannel Station WPJB-FM, Providence, R.I. Footnote 5 of the notice of proposed rule making stated that Lakes Region's suggested waiver of the separation rules would not be considered and that no convincing argument had been made why we should derogate from the integrity of the separation rules. In its petition for reconsideration, Lakes Region suggests another course of action restricting Station WDNH on Channel 287 at its present site with a maximum antenna height of 300 feet (its actual height is 292 feet) thus affording Station WPJB-FM what Lakes Region characterizes as "equivalent distance protection", and, should Station WDNH in the future seek to operate as a maximum Class B facility, it could remove the restriction by selecting a new site. It is essential to this concept that the Commission adopt Lakes Region's counterproposal which includes allocation of Channel 277 at Skowhegan and concomitant changes elsewhere. These include the substitution of Channel 295 for Station WMOU-FM, Berlin, N.H.

[2] The seat and largest city of Clinton County (with a population of 72,934). Plattsburgh is about 22 miles from the Canadian border.

[3] In fact, Lakes Region's assertions are the ones not free from factual error. For example, it states that Plymouth is comparable in size to Rumford. According to the 1970 Census, Plymouth has a population of 4,225 (a 31.6 percent growth since 1960), and that of Rumford is 9,363 (a 6.4 percent loss since 1960). The higher percentages of increase and loss relied on by Lakes Region are for Plymouth Compact (38.5 percent) and Rumford Compact (14.3 percent decrease), whose respective populations are 8,109 and 6,198. At another point, Lakes Region says that the Commission in discussing preclusion at Athol and Orange, Mass., no mention was made of service from stations at Keene, N.H., and Fitchburg and Worcester, Mass. Paragraph 9(d) of the notice of proposed rule making said: "Athol and Orange * * * received service from stations * * * fairly close by such as Keene * * * Fitchburg and Worcester * * *".

[4] There is a minimal underserved area. Lakes Region estimates this to be 600 square miles.

V 37 N 65 APR 4 72 XUM

(Channel 279), which in turn requires the substitution of Channel 284 for 298 at Lewiston, Maine.

8. In our report and order, we rejected the counterproposal because proposed Channel 295 at Berlin would be short spaced to Channel 295B at Three Rivers, Quebec. We also referred to the note to § 73.207(a) (IF taboo) as limiting the proposed assignment of Channel 284 at Lewiston. As to the short spacing between Berlin and Three Rivers, Quebec, Lakes Region contends that the Three Rivers assignment was not in existence until 8 months after Lakes Region submitted its counterproposal. Here, reliance is placed on the filing of comments on February 26, 1971, and the first announcement about the Three Rivers allocation not appearing in the FEDERAL REGISTER until October 20, 1971 (36 F.R. 20316–7).

9. In fact, under the Canada-United States FM Agreement of 1947 and the Working Arrangement of 1963, the channel change for Three Rivers was agreed to in January 1970, a little more than 1 year before Lakes Region's counterproposal. Although the Commission from time to time issues a "public notice" and the FEDERAL REGISTER, when the Commission submits such data, publishes an up-dated Table A of the Working Agreement, neither step is one required by the 1947 Agreement or 1963 Working Arrangement, any law, or Commission Rule or Regulation. Indeed, any such information is cumulative and recapitulates information furnished by the Department of Communications of Canada. Lakes Region, however, was not without recourse to ascertain whether its counterproposal conflicted with a Canadian assignment, for, under §§ 0.451 and 0.455 of the Commission's rules, interested persons are entitled to have such data made available. Despite the short-spacing to Three Rivers, Lakes Region focuses on other benefits which could accrue from the substitution of Channel 295 for Channel 279 for Station WMOU–FM at Berlin because this would eliminate the 55-mile short-spacing[8] to Station WKNE–FM (Channel 279), Keene, N.H., and the 19.1 mile short-spacing to Channel 278A at Granby, Quebec. In the reply to the opposition of Kennebec Valley to its petition for reconsideration, Lakes Region states that there is another 23-mile short-spacing from Station WMOU–FM to Channel 280 at Rochester, N.H., that would be obviated and so 97 miles of short-spacing would be reduced to 32.8 miles. The additional mileage includes: 2.9 miles from the Berlin reference point to Station WKXR–FM, Exeter, N.H. (Channel 296A); 1.4 miles between the proposed Channel 277 at Skowhegan and its cochannel at Fredericton, New Brunswick, Canada; and the 4.5 miles short-spacing between Stations WDNH (the proposed Channel 287) and WPJB–FM.

[8] Our engineering study shows this to be 50 miles.

10. Lakes Region makes two different arguments about Channel 284. First it proposes that both Lewiston's channels be classified as B's (Station WCOU–FM, Channel 230, already is, because its transmitter site is located in Zone I; see § 73.207(b)). Lakes Region says that by so doing, there would be no loss of existing service, there would be no injury to any operating FM, and this would allow the assignment of additional channels in the New England area where FM is in very short supply. As a precedent, Lakes Region says that this rationale prompted changing the FM channels at Rutland, Vt., from Class C to B. We do not agree. We read the first report and order in Docket No. 18801, adopted May 13, 1970 (FCC 70–502), as saying that the reason for changing the class of FM channels at Rutland was that the channel assignments were made on the basis of the community being in Zone I while in fact in Zone II. Since neither channel would meet minimum mileage separations as Class C channels and no Class C assignment could be made to Rutland, the Rutland channels were designated as Class B as an "exceptional departure" from basing classification on location and the "reclassification" was a formal recognition of the inadvertent designation. This is not a precedent for Lewiston.

11. In its reply to the opposition of Kennebec Valley of its petition for reconsideration, Lakes Regions states that § 73.205(a) of the rules makes all Lewiston channels Class B, for in delineating Zone I, when a city is astride the lines demarcating Zone I, the channels are Class B's. At least this is the interpretation that Lakes Region would give the last sentence of that paragraph, which reads:

> When any of the above lines pass through a city, the city shall be considered to be located in Zone I.

On the other hand, § 73.207(b) says:

> The zone in which the transmitter of an FM station is located or proposed to be located determines the applicable rules with respect to minimum required spacings.

If the latter controls, quite clearly, Channel 284 would have to be west of Lewiston in Zone II, which raises a question of principal city coverage, for the required IF taboo spacing of C to B is 25 miles. It should be noted that the Commission in adding the Note to § 73.207(b) said that "(t)he problem (which the Note deals with) will be considered on a case-by-case basis". (5 R.R. 2d 1679, 1680 (1965).) Insofar as the apparent conflict between §§ 73.205(a) and 73.207(b), we tend toward the view that the latter is controlling, and thus we are faced with Lakes Region's strained interpretation of the "Rutland" proceeding as precedent. Kennebec Valley observed in its reply comments that the proposed Channel 284 assignment to Lewiston would be short-spaced to adjacent channels at Fitchburg (5 miles to Station WFMP) and Gloucester (1 mile to WVCA–FM), if the proposed Lewiston Channel 284 is classified as a C rather than as a B.

12. There is no question in our mind that in Lakes Region's own words its counterproposal is "sui generis" (Petition for Reconsideration, p. 19). We address ourselves first to Lakes Region's counterproposal as concerns Skowhegan and Berlin. Both Station WMOU–FM at Berlin and Station WKNE at Keene were authorized stations preexisting the current FM table of assignments. Thus, to point to elimination of the vast mileage shortage between these stations as some special result of Lakes Region's proposal is beside the point. If it were deemed advantageous to have done so, this shortage could have been eliminated in 1963 when the FM table of assignments was adopted. For whatever reason, it was deemed best to leave that situation remain as it is. This aside, to make reallocations on the basis of minimizing shortages rather than serving some other public interest, convenience, and necessity, consideration is not sufficient. This sort of pragmatic approach would be placing emphasis on nonconsequential facts. Moreover, in order to eliminate a single 19.1 mile shortage, we would have to propose two shortages totaling 26.4 miles—25 miles between Three Rivers, Quebec, and Berlin, and a 1.4 mile shortage between Skowhegan and Fredericton, New Brunswick. Considering generally the situation in the northeastern United States along the Canadian border, we feel that it would be better not to establish two short spacings to Canada.

13. Indeed, we need not even reach consideration of the international aspect discussed above, if we give full consideration to the implications of Lakes Region's proposal for Dover. It appears that what Lakes Region is saying is that if Station WDNH remains at present power and height (and limited to 300 (feet), we should allow a cochannel short spacing of 4.5 miles because Station WPJB–FM in effect is receiving equivalent protection and should Station WDNH want to increase height and power it could with a different transmitter site (and for which reason Lakes Region proposes the allocation of Channel 277 to Skowhegan and the concomitant changes at Berlin and Lewiston). This is all posited on Lakes Region's having clearly demonstrated that the public interest, convenience, and necessity would be served by the allocation of a Class C channel to Plymouth, N.H.; of all of its arguments, the most persuasive is the subsidiary one that a Class C channel would be appropriate because of terrain but Lakes Region has never made a full showing in this respect but rather has urged the unprecedented theory that there would be "in-state service" to unserved and underserved areas. In the latter respect, the only showing is based on service from New Hampshire stations—contrary to the "Roanoke Rapids" case—and on the assumption that Station WWMT–FM is not a New Hampshire station. Further, to accomplish this objective, Lakes Region would permit 4.5 miles cochannel short spacing despite our clearly indicating that for allocation purposes we must adhere to the integrity of mileage separations. Even assuming that the short spacing between Stations WDNH and WPJB–FM is only an accommodation to allow the former to continue its present operation, Lakes Region would have us make further changes which would increase the number and amount of short spacings to Canadian allocations. To do so would clearly be antithetical to the needs and exigencies of the situation.

14. As noted above, Oxford Hills, licensee of Station WNWY–FM, withdrew its petition for reconsideration. This was accomplished by an Agreement with Kennebec Valley filed with the Commission February 15, 1972. Oxford Hills also requested that the agreement "constitute • • • (1) notification to the Commission of WNWY–FM's acceptance of the modification of license • • • (2) that such notification be treated as compliance with paragraph 19(a) of the Report; and • • • (3) a request that the date for submitting the (technical) information called for by paragraph 19(b) of the report and order be extended until 30 days after WGHM–FM commences construction of its Channel 286 facilities on Sugarloaf Mountain." In the latter respect, Stations WGHM–FM and WNWY–FM agreed that the former give the latter legal and engineering assistance and advice. Since compliance with paragraph 19 is not crucial to our report and order, we accept the late filing by Station WNWY–FM to the change of its channel. Nor does the anticipated delay in filing technical data have any serious impact.

15. Accordingly, and for the reasons stated, the petitions for reconsideration of WIRY, Inc. and Lakes Region Broadcasting Corp. are denied. Lakes Region's petition for stay also is denied. The request for late filing (and actual late filing) of acquiescence to channel change by Oxford Hills Radio Communications, Inc. is granted; and its request for leave to comply with paragraph 19(b) of the report and order is granted:

16. *It is ordered*, That this proceeding is terminated.

Adopted: March 23, 1972.

Released: March 28, 1972.

[Docket No. 19478; FCC 72–250]

BUSINESS RADIO SERVICE

Medical Telemetry and Other Low-Power Uses on Offset Frequencies

Notice of inquiry and proposed rule making. In the matter of amendment of Part 91 of the Commission's rules to permit medical telemetry and other low-power uses on offset frequencies in the Business Radio Service, Docket No. 19478, RM–1842.

1. The Commission has under consideration expanded utilization of the Business Radio Service "offset" frequencies in the 450–470 MHz band which are 12.5 kHz removed from regularly assignable mobile frequencies. The "offset" frequencies became available as a result of action in Docket 13847 (33 F.R. 3114) in order to meet a "requirement for low-power multiple frequency operation within the confines of manufacturing plants". There are currently approximately 125 of these frequencies and use is limited to low-power (3 watts or less) operation within "an industrial complex".

2. Additional low-power communications uses have rapidly developed which the Commission feels could also be accommodated on these "offset" frequencies. Examples are intra-building communication in office complexes, biological research telemetry and physiological parameter telemetry in hospitals. The subject frequencies are particularly well-suited for operations of these types since user density on the frequencies will be quite low, and the likelihood of interference is remote and would not increase with additional loading due to the low output power utilized. Further, they would complement frequencies provided in other bands for bio-medical telemetry under Part 15 of the rules.[1]

3. One of the new uses which we have under consideration for these frequencies is described in a petition filed by Hewlett-Packard requesting amendment of the rules to permit operation of low-power, portable, medical telemetry systems for monitoring cardiac patients. The medical transmitters are worn by and continuously monitor cardiac patients in coronary care units, relaying pertinent data to a nearby receiver. Consequently, the equipment requires a unique carrier frequency for each patient continuously monitored. Hewlett-Packard describes the problems:

> In these medical telemetry applications, the patient of a coronary unit must remain near emergency assistance equipment and is thus ambulatory over a limited region of a few hundred feet or, at most, over only the immediate grounds of the hospital. In this respect, such mobile transmitters as are carried about by telemetered patients, are confined to operation within the region of a hospital. And the low-power levels of these medical telemetry units (typically several milliwatts) assure that spurious emissions are negligibly low a short distance away from the limited operating region within the hospital.

4. To support its request, petitioner states that operation on low-power frequencies is necessary to minimize the likelihood of interference to these telemetry units. However, although frequencies regularly designated for low-power operation (3 watts or less) in the Business Radio Service are well suited for the use of medical telemetry equipment, there is an insufficient number to supply the need for each transmitter to have a separate discrete frequency. For these reasons and the growing need for large medical telemetry systems, Hewlett-Packard has requested the use of the numerous low-power, offset frequencies in the 450–470 MHz band.

5. As noted, these offset frequencies are separated by 12.5 kHz from mobile frequencies in the Business Radio Service, and their use is restricted to low-power mobile operation where the area of operation is limited to the confines of an industrial complex. Hewlett-Packard states "[i]n view of the similarities between operations of low-power mobile transmitters within the confines of hospitals and industrial complexes, there appears to be no reason for distinguishing between these business entities for purposes of operation on the split frequencies between 450 MHz and 470 MHz".

6. Utilization of these telemetry devices in hospitals appears to the Commission to be an important medical advancement and accommodation for such use should be maximized to the extent possible. Consequently, we propose to amend the rules as recommended by the petitioner, to permit operation of low-power medical telemetry units on the frequencies as requested. The proposed amendment would permit one-way, non-voice, low-power (100 mw) telemetry within the confines of a hospital complex, or medical or convalescent center, on any frequency 12.5 kHz removed from a mobile frequency in the Business Radio Service 450–470 MHz band.[2] Since the output of the telemetry unit is nominal the possibility of harmful interference to adjacent channel users is negligible. Also, offset operation adjacent to regular mobile frequencies involves minimal interference potential to hospital telemetry since it normally requires a coincidence of factors before a problem develops (i.e., a mobile unit transmitting particularly close to a hospital on a channel adjacent to the particular offset frequency being used). Additionally, since most medical telemetry operation will be in a hospital, interference is further reduced by shielding characteristics of the building structure. Nevertheless, comments are requested concerning the effect of interference upon medical telemetry operations.

7. The Commission believes that there are other valuable uses to which these frequencies can be put which will not reduce the effectiveness of industrial complex uses or the medical telemetry uses being proposed. Therefore, in addition to the above proposal, comments are also solicited as to the possibility of extending the use of these frequencies to other areas. Interested parties are spe-

[1] Report and order, released Mar. 13, 1972, Docket 19231, 75068, 37 F.R. 5497, FCC 72–217.

[2] If this amendment is adopted, transmitters could operate in the continuous carrier transmit mode in accordance with § 91.555.

V 37-65 APR 4 72 XUM

cifically requested to consider the following questions:

(1) What operational requirements exist for allowing uses other than those located in hospital or industrial complexes?

(2) Is the 100-milliwatt power specified for hospital telemetry sufficient for successful operation in similar environments for different purposes, i.e., paging in office buildings, medical and scientific research, etc.

(3) What limitations, other than power, should be placed on these frequencies?

(4) What interference factors exist either to or from operation on these offset frequencies?

8. Authority for the proposed amendments is contained in sections 4(i) and 303 of the Communications Act of 1934, as amended. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before May 9, 1972, and reply comments on or before May 19, 1972. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision, the Commission may also take into account other relevant information before it, in addition to the specific comments by this notice.

9. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters in Washington, D.C.

Adopted: March 23, 1972.

Released: March 28, 1972.

FEDERAL COMMUNCATIONS COMMSSION,[a]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 270]

[Releases Nos. 34-9546, IC-7087]

ADJOURNMENT OF SHAREHOLDERS' MEETING AND SOLICITATION OF ADDITIONAL PROXIES

Notice of Proposed Rule Making

Notice is hereby given that the Securities and Exchange Commission has under consideration the adoption of Rule 20a-4 (17 CFR 270.20a-4) under the Investment Company Act of 1940 (Act) (15 U.S.C. 80a-1 et seq.), to prohibit, except under certain circumstances, the adjournment of a meeting of shareholders of any investment company registered under the Act and any additional solicitation of proxies to be used at a reconvened meeting of shareholders.

The Commission has been concerned with recent practices whereby investment company shareholder meetings have been repeatedly adjourned, notwithstanding the presence of a quorum under State law, in an effort to gain sufficient additional votes to carry certain proposals.

The proposed rule is designed to prohibit the adjournment of a meeting of shareholders at which is present in person or by proxy a quorum under State or applicable law or corporate charter or other instrument pursuant to such law, for the purpose of soliciting additional proxies in the event that there are insufficient votes cast to approve pursuant to the Act a proposal recommended by management. However, the rule would also preclude an adjournment intended to affect a vote pertaining to a shareholder proposal. The rule would not limit adjournments where less than the aforesaid number of voting securities were present.

The Commission recognizes that certain unusual circumstances may warrant or necessitate adjournments and additional solicitations despite the presence of a quorum. Although the Commission would not anticipate that many such situations would arise, where, for example, a material factual change has occurred so as to render the proxy soliciting material misleading, an adjournment would be necessary and not within the intent of the rule's prohibition.

The proposed rule would be adopted pursuant to sections 20(a) and 38(a) of the Act (15 U.S.C. 80a-20(a), 80a-37(a)). Section 20(a) states that it is unlawful for any person by use of the mails or any means or instrumentality of interstate commerce or otherwise, to solicit or to permit the use of his name to solicit any proxy or consent or authorization in respect of any security of which a registered investment company is the issuer in contravention of such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors. Section 38(a) states, in part, that the Commission shall have the authority from time to time to make, issue, and amend such rules and regulations as are necessary or appropriate to the exercise of the powers conferred upon the Commission elsewhere in the Act.

Additionally, Rule 20a-1 would be amended to incorporate a reference to Rule 20a-4.

The text of the proposed Commission action is as follows:

Commission action. The Commission proposes to amend Part 270 of Chapter II of Title 17 of the Code of Federal Regulations as indicated below.

I. Section 270.20a-1 is proposed to be amended by deleting, in the first sentence of paragraph (a), the words "§§ 270.20a-2 and 270.20a-3" and inserting in lieu thereof the words "§§ 270.20a-2, 270.20a-3 and 270.20a-4". As proposed to be amended § 270.20a-1 would read as follows:

§ 270.20a-1 Solicitation of proxies, consents and authorizations.

(a) No person shall solicit or permit the use of his name to solicit any proxy consent or authorization in respect of any security of which a registered investment company is the issuer, except upon compliance with §§ 270.20a-2, 270.20a-3 and 270.20a-4 and all rules and regulations adopted pursuant to section 14(a) of the Securities Exchange Act of 1934 that would be applicable to such solicitation if it were made in respect of a security registered on a national securities exchange. Unless the solicitation is made in respect of a security registered on a national securities exchange, none of the soliciting material need be filed with such exchange.

(b) If the solicitation is made by or on behalf of the management of the investment company, then the investment adviser or any prospective investment adviser and any affiliated person thereof as to whom information is required in the solicitation shall upon request of the investment company promptly transmit to the investment company all information necessary to enable the management of such company to comply with the rules and regulations applicable to such solicitation. If the solicitation is made by any person other than the management of the investment company, on behalf of and with the consent of the investment adviser or prospective investment adviser, then the investment adviser or prospective investment adviser and any affiliated person thereof as to whom information is required in the solicitation shall upon request of the person making the solicitation promptly transmit to such person all information necessary to enable such person to comply with the rules and regulations applicable to the solicitation.

II. Part 270 of Chapter II of Title 17 of the Code of Federal Regulations is proposed to be amended by adding a new § 270.20a-4 reading as follows:

§ 270.20a-4 Prohibition against adjournment of certain meetings of shareholders.

No meeting of shareholders of any registered investment company which relates to a proposal requiring shareholder approval shall be adjourned if there is present at such meeting, in person or by proxy, a quorum under state or applicable law or corporate charter or other instrument pursuant to such law.

All interested persons are invited to submit their written views and comments on the proposed rule to Ronald F. Hunt, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, on or before May 19, 1972. All communication to the Secretary in this regard should refer to File No. S7-434, and will be available for public inspection.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

Maritime Administration

[46 CFR Part 251]

CONSTRUCTION-DIFFERENTIAL SUBSIDY

Notice of Proposed Rule Making

Pursuant to section 204, Merchant Marine Act, 1936, as amended (46 U.S.C. 1114) and in accordance with the provisions of section 3(a)(3), Administrative Procedure Act, 5 U.S.C. 552, (a)(1)D, notice is hereby given that the Maritime Subsidy Board is contemplating the adoption of regulations to be followed in connection with the granting and administration of construction-differential subsidy under title V of the Merchant Marine Act, 1936.

Accordingly, it is proposed that the present provisions of Title 46, Code of Federal Regulations will be revoked and the regulations following this notice will be codified therein.

While the subsidy program is exempt from the requirements of section 4, Administrative Procedure Act, 5 U.S.C. 553, the Board invites interested parties to submit any written views on the proposed regulations for consideration by the Board, in triplicate, by the close of business on May 9, 1972.

Dated: March 30, 1972.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, JR.,
Secretary.

PART 251—CONSTRUCTION-DIFFERENTIAL SUBSIDY

Sec.
- 251.1 Purpose.
- 251.2 Definitions.
- 251.3 Statement of policy.
- 251.4 Persons eligible to apply for construction-differential subsidy.
- 251.5 Construction, reconstruction, reconditioning.
- 251.6 Statutory limitations on amount of construction-differential subsidy for construction, reconstruction or reconditioning.
- 251.7 Design work, engineering inspection and review, and plan approval.
- 251.8 Change orders.
- 251.9 Determination of construction-differential subsidy.
- 251.10 Procedure for filing construction-differential subsidy applications.
- 251.11 Methods of paying construction-differential subsidy.
- 251.12 Construction - differential subsidy standard forms of contract.
- 251.13 Domestic preference.
- 251.14 Contract clauses applicable to all shipyards constructing, reconstructing, or reconditioning vessels with construction-differential subsidy aid.
- 251.15 Contract administration, standard form contracts.
- 251.16 Documentation.
- 251.17 Sale, transfer or charter.
- 251.18 Scope of permissible domestic trading.
- 251.19 National defense features.
- 251.20 Audit.
- 251.21 Government liability and Government monetary obligations.
- 251.22 Allocation of work among U.S. shipyards.
- 251.23 Sources of vessel design.
- 251.35 Prospective application of regulations.

AUTHORITY: The provisions of this Part 251 issued under sec. 204(b), 49 Stat. 1987, as amended, 46 U.S.C. 1114(b), unless otherwise noted.

§ 251.1 Purpose.

The purpose of this part is to prescribe rules and regulations to carry out the provisions of title V of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1151–1161), as it relates to construction-differential subsidy.

§ 251.2 Definitions.

(a) *Act.* The word "Act" shall mean the Merchant Marine Act, 1936, as amended.

(b) *Administration.* The word "Administration" shall mean the Maritime Administration of the U.S. Department of Commerce.

(c) *Board.* The word "Board" shall mean the Maritime Subsidy Board, which has been delegated and assigned the function of performing certain duties under title V of the Act, pursuant to Department of Commerce Organization Orders 10–8 (October 21, 1970), as amended, and 25–2 (September 28, 1971), as amended.

(d) *Citizen of the United States.* For purposes of construction-differential subsidy, the words "citizen of the United States" shall include persons, corporations, partnerships, or associations, but only if they are citizens of the United States within the meaning of section 2 of the Shipping Act, 1916, as amended (46 U.S.C. 802).

(e) *Cost of construction or cost of constructing, reconstructing or reconditioning.* The terms "cost of construction" or "cost of constructing, reconstructing, or reconditioning" shall mean the contract price plus the purchaser's cost of design work, plan approval, and inspections, if applicable.

(f) *Construction contract.* The term "construction contract" shall mean the contract between the purchaser and the contractor for the construction, reconstruction, or reconditioning of an eligible vessel, as indicated in § 251.12.

(g) *Construction-differential subsidy.* The term "construction-differential subsidy" shall mean the excess of the bid or negotiated price of constructing, reconstructing, or reconditioning a vessel in a shipyard of the United States (excluding the cost of any features incorporated in the vessel for national defense uses, which shall be paid by the Secretary in addition to the construction-differential subsidy), over the fair and reasonable estimated cost, as determined by the Secretary, for constructing, reconstructing, or reconditioning that type vessel under similar plans and specifications (excluding national defense features as above provided) in a foreign shipbuilding center which is deemed by the Secretary to furnish a fair and representative example for determining the estimated foreign cost of similar construction, reconstruction, or reconditioning.

(h) *Contract price.* The term "contract price" shall mean the total amount paid to the contractor for constructing, reconstructing, or reconditioning an eligible vessel (i.e., the applicant's foreign cost plus the Board's construction-differential subsidy cost), but shall not include the cost of national defense features.

(i) *Contractor.* The term "contractor" shall apply to a shipyard of the United States which enters into a construction contract with a ship purchaser.

(j) *Eligible vessel.* For purposes of this part, the term "eligible vessel" shall mean a vessel which will engage in the foreign commerce of the United States. The term "eligible vessel" as used in this part is not to be confused with the term "eligible vessel" as used in section 607 of the Act.

(k) *Exceptional cases.* The term "exceptional cases" shall mean those instances when the Secretary determines that construction-differential subsidy may be allowed for the reconstruction or reconditioning of an existing vessel.

(l) *Foreign commerce of the United States.* The term "foreign commerce of the United States" shall mean the following:

(1) The carriage of cargo loaded in the United States, its territories, or possessions, or the District of Columbia, and discharged in a foreign country, or cargo loaded in a foreign country and discharged in the United States, its territories, or possessions, or the District of Columbia, and

(2) In the case of a liquid and/or dry bulk cargo vessel, the carriage of cargo as authorized by Part 278 of this chapter.

(m) *Purchaser or proposed ship purchaser.* The terms "purchaser" or "proposed ship purchaser" shall mean a citizen of the United States who enters into, or proposes to enter into, a construction contract for the construction, reconstruction, or reconditioning of an eligible vessel with a shipyard of the United States.

(n) *Secretary.* The term "Secretary" shall include the Secretary of Commerce, the Assistant Secretary of Commerce for Maritime Affairs, and all other officials of the Maritime Administration

V 37 - 65 APR 4 72 XUM

authorized from time to time to perform the duties and functions of the Assistant Secretary of Commerce for Maritime Affairs, and

(o) *United States.* The term "United States" shall mean the United States, its territories or possessions, or the District of Columbia.

§ 251.3 Statement of policy.

(a) *General.* No application for construction-differential subsidy shall be approved by the Board unless it also makes the following determinations:

(1) The plans and specifications call for a vessel which will meet the requirements of the foreign commerce of the United States, will aid in the promotion and development of such commerce, and be suitable for use by the United Statee for national defense or military purposes in time of war or national emergency (this determination shall not be made unless the Secretary of the Navy first certifies that such vessel shall be suitable for economical and speedy conversion into a naval or military auxiliary, or otherwise be suitable for use by the U.S. Government in time of war or national emergency);

(2) The purchaser, shipyard (if the shipyard is to own the vessel), and any lessee or bareboat charterer possesses the ability, experience, financial resources, and other qualifications necessary for the operation and maintenance of the proposed new vessel; and

(3) The granting of the aid applied for is reasonably calculated to carry out effectively the purposes and policy of the Act.

(b) *Criteria to be employed by Board—vessel selection.* The Board will allocate Federal financial assistance for the construction, reconstruction, or reconditioning of an eligible vessel so as to give priority to those proposals which, having met all the requirements of title V of the Act, and this Part 251, will in the Board's opinion utilize such assistance to accomplish the following objectives:

(1) Reduction of construction-differential subsidy to the applicable percentages set forth in section 502(b) of the Act and § 251.6, or to lower percentages;

(2) Reduction or elimination of operating-differential subsidy;

(3) Provision of vessels to meet the economic needs of the United States;

(4) Provision of vessels suitable for emergency ocean transportation; and

(5) Production of ships of high transport capability and productivity.

In determining the productivity of a proposed vessel or vessels, the Board may take into consideration the following factors:

(i) Cubic and/or deadweight capacity and speed;

(ii) Proposed cargo handling equipment and techniques for transfer of cargo in and out of vessels and to and from inland points. In this respect, the Board may require an applicant to supplement his application by setting forth the estimated rate of loading and discharge of cargo, as well as the adaptability of the proposed vessel to integrated systems of transportation embracing both ocean and overland transportation; and

(iii) Estimated revenue and costs of operation.

§ 251.4 Persons eligible to apply for construction-differential subsidy.

Any citizen of the United States or any shipyard of the United States shall be eligible to apply for construction-differential subsidy.

§ 251.5 Construction, reconstruction, reconditioning.

In addition to the items indicated in §§ 251.7 and 251.8 the following types of work shall be eligible for construction-differential subsidy.

(a) *Construction.* The cost of constructing an eligible vessel.

(b) *Reconstruction or reconditioning.* The cost of reconstructing or reconditioning an eligible vessel: *Provided, however,* That construction-differential subsidy for reconstructing or reconditioning an eligible vessel shall be granted only in exceptional cases, as determined by the Board. Such determinations may be made when reconstruction or reconditioning is necessary to make a vessel suitable for operation, or continued operation, in the foreign commerce of the United States (e.g., the jumboizing of a container vessel to increase the container capacity) but only when the Board determines that the proposed reconstruction or reconditioning is consistent with the criteria outlined in § 251.3.

§ 251.6 Statutory limitations on amount of construction-differential subsidy for construction, reconstruction or reconditioning.

(a) *General.* The amount of construction-differential subsidy allowable under § 251.5 shall not exceed fifty (50) percent of the cost of constructing, reconstructing or reconditioning an eligible vessel in a shipyard of the United States (exclusive of national defense features), subject, however, to the additional limitations outlined in paragraphs (b) through (e) of this section.

(b) *Negotiated price contracts.* (1) An applicant may enter into a negotiated price contract with a shipyard of the United States: *Provided,* That the amount of construction-differential subsidy in such instances shall not exceed the following percentages of domestic cost:

(i) Forty-three (43) percent in fiscal year 1972, and

(ii) Forty-one (41) percent in fiscal year 1973

(2) If the applicant proposes to enter into a negotiated price contract with a shipyard of the United States, the following conditions shall also apply:

(i) The proposed purchaser and the shipyard must submit backup cost details and evidence (see § 251.10(d) that the negotiated price is fair and reasonable, and

(ii) The Secretary must determine that the negotiated price is fair and reasonable before construction-differential may be granted.

(3) The award of construction-differential subsidy, pursuant to this paragraph (b) shall be implemented by means of the two contracts indicated in § 251.12 (b) and (c) (use of the contract indicated in paragraph (a) is optional), and the method of paying construction-differential subsidy shall be as indicated in § 251.11(d).

(4) The Secretary's authority to accept negotiated price contracts expires June 30, 1973.

(c) *Shipyard applications.* If the applicant is a shipyard of the United States, its application shall be treated as though it were an application for a negotiated price contract and shall be subject to the limitations indicated in paragraph (b) of this section.

(d) *Competitively bid contracts.* (1) A contract for the construction, reconstruction, or reconditioning of an eligible vessel may be awarded on a competitive bid basis, and in such instances the contract shall be awarded to the lowest bidder, unless otherwise authorized by section 502(f) of the Act, or as below indicated, *Provided,* That the Secretary first determines that the price is fair and reasonable, and *Further provided,* That the award does not result in the payment of construction-differential subsidy which exceeds the following percentages of domestic cost:

(i) Forty-three (43) percent in fiscal year 1972;

(ii) Forty-one (41) percent in fiscal year 1973;

(iii) Thirty-nine (39) percent in fiscal year 1974;

(iv) Thirty-seven (37) percent in fiscal year 1975;

(v) Thirty-five (35) percent in fiscal year 1976 and thereafter.

(2) If the low bid reflects a price which the Secretary determines is not fair and reasonable, the Secretary may negotiate [1] with the low bidder for the purpose of reducing the low bidder's price to a fair and reasonable level. The Secretary may negotiate only with the low bidder if his bid (before negotiation with the Secretary) would have resulted in an amount of construction-differential subsidy that did not exceed the applicable percentage set out in the above subparagraph.

(3) If the low bid reflects a contract price which the Secretary determines is not fair and reasonable and if the low bid also would have resulted in an amount of construction-differential subsidy that exceeds the applicable percentage as set out above, the Secretary may negotiate with any of the bidders, whether or not such bidder was the lowest bidder, and notwithstanding the provisions of section 505 of the Act with respect to competitive bidding, for the purpose of reducing the contract price to a fair and reasonable level: *Provided,* That—

(i) The Secretary first determines that a fair and reasonable price and the applicable percentage cannot be met in a subsequent invitation for bids, and that the national commitment to the ship construction program may not otherwise be continued,

(ii) The resulting contract price is the lowest which can be obtained, and

(iii) The resulting payment of construction-differential subsidy is reduced to the applicable percentage, or as close thereto as possible, or less, but in no event in excess of fifty (50) percent.

(4) If the low bid reflects a price which the Secretary determines is fair and reasonable but would have resulted in an amount of construction-differential subsidy that exceeds the applicable percentage as set out above, the Secretary may negotiate with any of the bidders in accordance with all applicable provisions of subparagraph (3) of this paragraph.

(5) The Secretary shall notify the Commission on American Shipbuilding (established pursuant to section 41, Merchant Marine Act of 1970 [Public Law 91-469; 84 Stat. 1037]) in the event contracts are entered into pursuant to subparagraphs (3) and (4) of this paragraph.[1]

(6) The award of construction-differential subsidy, pursuant to this paragraph (d) shall be implemented by means of the three contracts indicated in § 251.12, and the method of paying construction-differential subsidy shall be as indicated in § 251.11(d).

(e) *Fiscal year.* As used in this section, the term "fiscal year" means the Administration's fiscal year, for accounting purposes, whose term begins July 1 of one calendar year and ends June 30 of the next calendar year.

§ 251.7 Design work, engineering inspection and review, and plan approval.

(a) Design work, engineering inspection and review, and plan approval (together with related travel, reproduction, communication, equipment, and other related items of expense) costs incurred by the purchaser in constructing an eligible vessel shall be eligible for construction-differential subsidy, whether the applicant finds it necessary to procure these services from his own employees or from an outside source: *Provided,* That the amount of construction-differential subsidy as to such costs shall be limited by the applicable fiscal year percentage indicated in § 251.6, and further limited as follows:

(1) Administrative overhead shall not be included as a subsidized item.

(2) A purchaser's engineering expense for inspection, covering the construction of an eligible vessel, shall be entitled to subsidization. Three hundred fifty thousand dollars of such costs shall be entitled to subsidization if the contract is completed within 24 months after it was entered into. An additional $30,000 of such costs per month shall be entitled to subsidization for each month beyond the 24 month and until the contract is completed. However, there shall be a corresponding $30,000 reduction for each month that start of shipyard fabrication is deferred more than 12 months. For example, the maximum amount of this type of cost which may be subsidized, on a contract to be completed in 36 months, would be $710,000. During fiscal year 1973, therefore, the amount of subsidy on this item would be 41 percent of $710,000.

(3) Post contract award engineering costs incurred by a purchaser for engineering review and plan approval of a newly constructed vessel will be limited for subsidy purposes to 2 percent of the contract price per vessel: *Provided,* That the contract price per vessel does not exceed $25 million, plus an additional one half percent of the contract price per vessel in excess of this amount.

(4) The percentage figures in the two immediately preceding subparagraphs may be adjusted downward to take into account features including, but not limited to, standardized design, successive flights of ships in the same yard, or successive flights of ships in different yards.

(b) The costs indicated in paragraph (a) of this section shall also be entitled to subsidization in the event an eligible vessel is reconstructed or reconditioned, except that the limitations on such costs shall be determined on an individual basis.

(c) Notwithstanding any of the foregoing limitations on subsidy, the Board will in exceptional cases authorize additional subsidy for design work, engineering inspection and review, and plan approval costs for new ship concepts or individual ship features whose economic justification lie in the possibility of future major advances in ship construction or operation and which in the Board's judgment may lead to greater efficiency and economy.

§ 251.8 Change orders.

(a) Construction-differential subsidy may be allowed for change orders in the following circumstances:

(1) When it can be demonstrated with reasonable certainty that the net effect of such changes will decrease the amount of construction-differential subsidy and/or operating-differential subsidy projected over the life of the vessel, or

(2) When it can be demonstrated with reasonable certainty that the change order will produce a return to the owner that justifies the added investment, or

(3) When it becomes necessary to correct a substantial design defect which will materially reduce the economic life or value of the unchanged vessel, or

(4) When it becomes necessary to comply with a change in the requirement of a regulatory body which becomes effective after 30 days preceding bid opening or agreement on a negotiated price, or

(5) When it becomes necessary to comply with any new law or rule, the promulgation of which renders it illegal to own or operate the unchanged vessel.

(b) In considering changes under paragraph (a) (1) and (2) of this section, consideration may be given to what the work would have cost if it had been included in the bidding specification.

(c) The procedure for the payment of construction-differential subsidy as to change orders in standard form contracts is outlined in § 251.15.

(d) The percentage of construction-differential subsidy allowed for change orders shall not exceed the percentage awarded by the Board, pursuant to the provisions of § 251.6, for the original contract work affected by the change orders.

(e) Any changes desired by the applicant, which do not qualify for subsidy under this section, shall be for the applicant's own account.

(f) Changes which would violate the requirements of any regulatory body or alter the general dimensions and/or characteristics of a vessel must be presented to the Board for prior approval, whether or not subsidization is sought for such change orders.

§ 251.9 Determination of construction-differential subsidy.

(a) *Purpose.* The purpose of this section is to prescribe regulations governing determination of the amount of construction-differential subsidy payable for construction, reconstruction; or reconditioning of a vessel or vessels under title V of the Act.

(b) *Establishment of vessel types.* (1) For purpose of this section, the Secretary shall from time to time establish specific categories of vessels. Each vessel category shall encompass vessels of one specific genus (e.g., liquid bulk carriers, dry bulk carriers, barge-carrying ships, containerships, etc.), one general design (e.g., oil tanker; ore-bulk-oil carrier; LNG vessel; etc.), and a size or range of sizes (e.g., 40,000–80,000 d.w.t.; 100,000–150,000 M³, etc.): *Provided,* That where a range of sizes is used in any category, the vessels within that range shall be sufficiently similar to justify treatment as equivalents for construction-differential subsidy purposes.

(2) Each category established in accordance with subparagraph (1) of this paragraph shall be referred to as a "vessel type."

(c) *Determination of construction-differential subsidy rates by vessel type.* (1) The Secretary shall, as soon as practicable after establishment of a vessel type, determine the set of construction-differential subsidy rates applicable to all vessels within that vessel type. The set of construction-differential subsidy rates for the vessel type shall be determined as follows:

[1] The Secretary's authority to "negotiate" a contract is not to be confused with the term "negotiated price contract" as used in paragraph (b) of this section between an applicant and the shipyard.

[1] The Commission on American Shipbuilding is required, not later than 6 months after such notification, to submit a report to Congress.

V 37 • 65 APR 4 72 XUM

(i) The Secretary shall select one vessel within the type as a reasonable representative of all vessels within the type. Such vessel shall be referred to as the "representative vessel";

(ii) The Secretary shall determine the fair and reasonable estimated cost of constructing, reconstructing, or reconditioning such representative vessel (exclusive of national defense features) under similar plans and specifications in a representative foreign shipbuilding center (as defined in section 502(b) of the Act): *Provided*, That the estimated foreign cost shall be determined for one vessel, each of two vessels, each of three vessels and so on up to the maximum number of vessels of that type which the Secretary deems might practically be built as a single flight;

(iii) The Secretary shall determine the fair and reasonable estimated cost of constructing, reconstructing, or reconditioning such representative vessel (exclusive of national defense features) under similar plans and specifications in the United States: *Provided*, That the estimated domestic cost shall be determined for one vessel, each of two vessels, each of three vessels and so on up to the maximum number of vessels of that type which the Secretary deems might practically, be built as a single flight;

(iv) The Secretary shall subtract from the estimated domestic costs for one vessel, each of two vessels, each of three vessels, etc., the corresponding estimated foreign costs. Each difference so determined shall be divided by the corresponding estimated domestic cost to determine the percentage that each difference bears to the corresponding estimated domestic cost.

(2) The set of percentages so found shall constitute the set of construction-differential subsidy rates applicable to all vessels within the vessel type from which representative vessel was selected.

(3) The Secretary shall recompute the set of construction-differential subsidy rates applicable to each vessel type annually unless, in the opinion of the Secretary, there has been a significant change in shipbuilding market conditions sufficient to justify recomputation prior to the scheduled annual date.

(4) The Secretary shall publish notice of his intention to compute or recompute the set of construction-differential subsidy rates for each vessel type and shall give interested persons, including but not limited to shipyards and shipowners and associations thereof, an opportunity to file written statements.

(5) As soon as practicable after computation or recomputation the Secretary shall publish in the FEDERAL REGISTER the set of construction-differential subsidy rates applicable to each vessel type established. Interested persons, including but not limited to shipyards and shipowners and associations thereof, shall be given an opportunity to file written comments on the construction-differential subsidy rates so published. Notice of adoption of final construction-differential subsidy rates shall be published in the FEDERAL REGISTER after the opportunity for comment has expired.

(d) *Application of construction-differential subsidy rates to specific vessels within an established vessel type.* (1) Any vessel or vessels which a qualified applicant proposes to construct, reconstruct, or recondition under title V of the Act, which satisfy all requirements under that title, and which fall within a vessel type established by the Secretary, shall be eligible for construction-differential subsidy at the construction-differential subsidy rates established by the Secretary for that vessel type under paragraph (c) of this section and in effect at the time the applicant's application for construction-differential subsidy is granted or such other time as the Secretary, in his discretion, deems appropriate.

(2) The number of vessels proposed in an appropriate application to be constructed, reconstructed, or reconditioned shall determine the specific construction-differential subsidy rate within the pertinent set of construction-differential subsidy rates which will apply, i.e., a one vessel application will qualify for the one vessel construction-differential subsidy rate, a two vessel application for the two vessel construction-differential subsidy rate and so on: *Provided*, That where more than one application is filed and the vessels encompassed by such applications are to be constructed as one flight of vessels in the same shipyard, the number of vessels in all such applications combined shall determine the applicable construction-differential subsidy rate within the pertinent set of rates.

(3) Where an application calls for construction, reconstruction, or reconditioning of a vessel or vessels and the applicable construction-differential subsidy rate, determined in accordance with paragraph (d)(2) of this section, exceeds the applicable fiscal year ceiling rate established by section 502(b) of the Act, as set out in § 251.6, the application will not be granted unless the applicant affirmatively demonstrates the existence of extraordinary circumstances sufficient, in the Secretary's opinion, to justify:

(i) Payment of construction-differential subsidy at a rate in excess of the applicable fiscal year ceiling rate, but not in excess of fifty (50) percent, or

(ii) Treatment of the application as equivalent in price to an application for a greater number of vessels, the applicable construction-differential subsidy rate for which (determined in accordance with paragraph (d)(2) of this section) does not exceed the applicable fiscal year ceiling rate.

(4) The dollar amount of construction-differential subsidy payable upon the granting of a proper application shall be the applicable construction-differential subsidy rate, determined in accordance with this paragraph (d), times the actual domestic price stated in the application and found by the Secretary, where appropriate, to be fair and reasonable.

(e) *Payment of construction-differential subsidy for specific vessels not within an established vessel type.* (1) Any vessel or vessels which a qualified applicant proposes to construct, reconstruct, or recondition under title V of the Act, which satisfy all requirements under that title, but which do not fall within a type established by the Secretary or fall within an established vessel type for which a set of construction-differential subsidy rates has not been established by the Secretary, shall be eligible for construction-differential subsidy equal to the excess of the bid or fair and reasonable negotiated price of the shipyard constructing, reconstructing, or reconditioning the proposed vessel or vessels over the fair and reasonable estimated cost, as determined by the Secretary, of constructing, reconstructing, or reconditioning that vessel (exclusive of national defense features) in a representative foreign shipbuilding center (as defined in section 502(b) of the Act). The Secretary shall publish notice of his intention to compute such estimated foreign cost and shall give interested persons, including but not limited to shipyards and shipowners and associations thereof, an opportunity to file written statements.

(2) Where an application for construction, reconstruction, or reconditioning of a vessel or vessels and the applicable construction-differential subsidy rate, determined in accordance with paragraph (e)(1) of this section, exceeds the applicable fiscal year ceiling rate established by section 502(b) of the Act, as set out in § 251.6, the application will not be granted unless the applicant affirmatively demonstrates the existence of extraordinary circumstances sufficient, in the Secretary's opinion, to justify payment of construction-differential subsidy at a rate in excess of the applicable fiscal year ceiling rate but not to exceed fifty (50) percent.

(f) *Example.* (1) Under paragraph (b) of this section, the following vessel type might be established:

Genus: Liquid Bulk Carriers.
General design: Ore/Bulk/Oil Carrier.
Size range: 70,000–100,000 dwt.

(2) Under paragraph (c) of this section, the following set of CDS rates might be established for new vessel construction (all numbers are hypothetical):

(i) Representative vessel: Liquid Bulk Carrier, Ore/Bulk/Oil Carrier, 80,500 dwt.

(ii) Estimated foreign cost (constructed in Japan):

(a) Each of 1	$19,000,000
(b) Each of 2	17,000,000
(c) Each of 3	16,600,000
(d) Each of 4	16,400,000
(e) Each of 5	16,200,000
(f) Each of 6	16,150,000

(iii) Estimated domestic cost:

(a) Each of 1	$34,000,000
(b) Each of 2	30,000,000
(c) Each of 3	29,000,000
(d) Each of 4	28,500,000
(e) Each of 5	28,000,000
(f) Each of 6	27,500,000

(iv) CDS percentages:

(a) Each of 1:

$$\frac{15,000,000}{34,000,000}=44.1\%$$

(b) Each of 2:

$$\frac{13,000,000}{30,000,000}=43.4\%$$

(c) Each of 3:

$$\frac{12,400,000}{29,000,000}=42.8\%$$

(d) Each of 4:

$$\frac{12,100,000}{28,500,000}=42.5\%$$

(e) Each of 5:

$$\frac{11,800,000}{28,000,000}=42.2\%$$

(f) Each of 6:

$$\frac{11,350,000}{27,500,000}=42.0\%$$

The percentages listed in paragraph (f)(2)(iv) of this section would constitute the set of construction-differential subsidy percentages applicable to all vessels falling within the vessel type listed in paragraph (f)(1) of this section.

(3) Under subparagraph (2)(iv) of this paragraph, an applicant seeking to construct three OBO's falling within the vessel type would be eligible to receive a construction-differential subsidy rate of 42.8 percent. Assuming that the set of construction-differential subsidy rates in the above example was applicable during fiscal year 1972, when the section 502(b) fiscal year ceiling rate is 43 percent (see § 251.6), the application could be granted, as provided in subparagraph (2)(iv)(c) of this paragraph, without a showing of extraordinary circumstances. The construction-differential subsidy payable for construction of the three OBO's would be 42.8 percent of the bid or fair and reasonable negotiated price listed in the application. If, for example, the application called for construction of three OBO's, 90,000 dwt, at a negotiated price of $32 million per vessel, the construction-differential payable (if the application meets all requirements of title V and is granted) would be 42.8 percent of $32 million or $13,696,000.

(4) Under subparagraph (2)(iv) of this paragraph, an applicant seeking to construct two OBO's falling within the vessel type would be eligible to receive a construction-differential subsidy rate of 43.4 percent. If the fiscal year 1972 ceiling rate of 43 percent is in effect, however, paragraph (d)(3) of this section would bar the granting of the application absent a showing of extraordinary circumstances sufficient to justify the 43.4 percent rate or a showing that the contract price for the two vessels proposed in the application was in fact equivalent to, say, a three ship price, in which case the 42.8 percent each of three rate could, at the Secretary's discretion, be applied.

§ 251.10 Procedure for filing construction-differential subsidy applications.

(a) *Form.* Applications for construction-differential subsidy to aid in the construction of a new vessel or the reconstruction or reconditioning of an existing vessel shall be filed on Form —— in accordance with the instructions annexed thereto.

(b) *General requirements.* (1) Applications shall be submitted in triplicate original with 12 conformed copies. Each of the applications shall be completed by the insertion of appropriate and full information as indicated on the form; shall be executed by a duly authorized official of the applicant; and shall be accompanied by an Affidavit of U.S. Citizenship in accordance with Part 355 of this title, unless (with the concurrence of the Secretary) reference is made to an affidavit or report of U.S. citizenship previously filed. Items or parts of items which are inapplicable may, however, be omitted, with a notation as to their inapplicability. The applicant may incorporate by specific reference information previously furnished the Board, provided that such information so incorporated shall have been furnished at least in triplicate and is readily available in the files of the Administration. If any information called for by an applicable item is not furnished, an explanation of the omission shall be given. The applicant may furnish such relevant information as it may desire, in addition to that specified in the form.

(2) Any additional information called for by the Board from time to time (e.g., see § 251.3(b)(5)(ii)) shall be furnished by amending the application. Each amendment to an application shall be filed in the same manner as the application with the same number of originals and conformed copies as indicated in the preceding subparagraph. Each amendment shall be numbered and dated and shall make specific references to the application being amended. Without any specific request from the Board, the applicant shall file from time to time any amendments necessary to keep all information contained or furnished in connection with a pending application current and correct.

(3) In the event a concurrent application for aid under sections 507, 510, or 601, or under title XI of the Act is being submitted, the applicant may incorporate in its construction-differential subsidy application by specific reference any information contained in such contemporary application.

(4) Detailed contract plans and specifications shall be submitted with the construction-differential subsidy application. To facilitate application processing it is recommended that the specifications conform to those in Standard Specification for Cargo Ship Construction by section and article to the maximum extent possible. (Copies of this publication may be obtained from the National Technical Information Service, Springfield, Va. 22151, by ordering Stock No. PB 177493 at a price of $9 per copy.) These specifications shall include, where applicable, value engineered features as described in the Administration's Value Engineering Information Letters. (These letters may be obtained without charge from the chief, Office of Ship Construction, Maritime Administration, Department of Commerce, Washington, D.C. 20235.)

(c) *Plan submission.* (1) When the applicant proposes the construction of a new vessel whose design has never been approved as part of a construction-differential subsidy application, he should first submit a preliminary design study consisting of a table of characteristics, preliminary arrangement and profile plans, and cost estimates. If the Board approves in principle such fundamental matters as speed, cargo capacity, etc., the applicant should then proceed with the submission of the actual preliminary design. If the Board later approves the application and the Secretary of the Navy certifies as to the national defense value of the vessel (see § 251.3(a)(1)) the applicant should then proceed with the submission of the contract plans and specifications, as required for the award of a shipyard contact, in accordance with the provisions of this section.

(2) When the applicant proposes the reconstruction or reconditioning of an existing vessel, the procedure outlined in the immediately preceding subparagraph should be followed.

(d) *Additional information to be supplied.* (1) When the applicant proposes to enter into a negotiated price contract for the construction, reconstruction, or reconditioning of an eligible vessel (§ 251.6(b)), the following material, where applicable, shall be submitted with application:

(i) A copy of all of the detailed estimate backup sheets upon which the proposed price is based;

(ii) A full set of contract plans, guidance plans, and specifications;

(iii) A statement of the proposed performance time and vessel delivery sequence. In this connection, advice should be given if changed conditions of performance would result in any reduction in cost;

(iv) A breakdown of vessel weights in usual administration form, if possible. However, the shipyard form will be accepted;

(v) A set of all vendor and subcontractor price quotations obtained by the shipyard for all shipbuilding materials, supplies, or equipment in excess of $25,000 per ship;

(vi) Labor rates for both engineering and production labor, including support computations for the determination of such average rate. Copies of union agreements, historical actual cost labor data, as well as projected labor cost should be included also;

(vii) Estimated reduction in labor hours and material requirements for repeat ships;

(viii) Overhead rate as projected for this construction, historical data for overhead cost experienced in the past along with justification for rate proposed for such contract. Write off of any proposed new facility shall be included separately; and

(ix) Profit rates included for each multiple of vessels to be constructed.

V 37 • 65 APR 4 72 XUM

(2) When the applicant is a shipyard, the same information as outlined in the immediately preceding subparagraph shall be submitted.

(e) *Mailing address.* All applications, including supplementary material, shall be submitted to the Secretary, Maritime Administration, U.S. Department of Commerce, Washington, D.C. 20235.

(f) *Government response.* The Secretary, upon receipt of an application or bid, will proceed to determine in reasonableness by relying on all or a combination of the following:

(1) Complete and thorough review and assessment of all facets of the applicant's detailed estimate supporting the proposed contract;

(2) Independent Administration estimate of the reasonable cost of construction;

(3) Solicitation of quotations from suppliers of shipbuilding materials, supplies, or equipment;

(4) Assessment of the magnitude of domestic shipbuilding activity as a guide to market conditions and competitiveness of the pricing;

(5) Comparison of material pricing and labor rates against data from Government sources (Bureau of Labor Statistics, etc.);

(6) Relationship of the proposed pricing to the contract prices for other current vessel construction;

(7) Factors bearing upon pricing such as material and labor escalation, financing, terms of payment, performance time, delivery sequence, etc.

§ 251.11 Methods of paying construction-differential subsidy.

(a) *Shipyard applicants.* If the applicant is a shipyard, the Board may pay the shipyard construction-differential subsidy, in an amount and for the items authorized by these regulations, and in a manner further provided for by contract between the Board and the shipyard.

(b) *Vessel construction other than for shipyard applicants.* In such instances, the Board may adopt either of the methods outlined in paragraphs (c) and (d) of this section.

(c) *Section 502(a) of the Act.* (1) The Board may enter into a contract with a shipyard, pursuant to which the Board shall undertake for the Government's account the entire cost, including national defense features, of constructing the vessel.

(2) Simultaneously, the Board shall enter into a contract with the applicant in which the applicant shall agree to purchase the vessel from the Board.

(3) The applicant's price shall be the Board's cost of constructing the vessel, less construction-differential subsidy and the cost of national defense features.

(4) Before he takes possession, the applicant shall have made cash payments to the Board of not less than twenty-five (25) percent of the price at which the vessel is sold to him. These cash payments shall be made at the time and in the same proportion (i.e., not less than twenty-five (25) percent) as the Government's payments to the shipyard become due.

(5) The balance of such purchase price shall be paid by the applicant, within 25 years after delivery of the vessel and not to exceed 25 equal annual installments, the first of which shall be payable 1 year after the delivery of the vessel by the Secretary to the applicant.

(6) The applicant shall pay, not less frequently than annually, interest on those portions of the Secretary's payments as made to the shipbuilder which are chargeable to the applicant's portion of the price of the vessel (after deduction of the purchaser's cash payments) at a rate not less than—

(i) A rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of one per centum, plus

(ii) An allowance adequate in the judgment of the Secretary of Commerce to cover administrative costs.

(7) The standard form contracts referred to in § 251.12 (b) and (c), may be used in this type of financing, with appropriate modifications where necessary.

(d) *Section 504 of the Act.* (1) In this method, the Board's payments to the shipyard shall be limited to construction-differential subsidy and the cost of national defense features.

(2) The standard form contracts referred to in § 251.12 (b) and (c), shall be used in this type of financing if a purchaser enters into a negotiated price contract with a shipyard of the United States pursuant to § 251.6(b).

(3) The standard form contracts referred to in § 251.12 (a), (b), and (c), shall be used in this type of financing if a purchaser enters into a competitively bid contract with a shipyard of the United States pursuant to § 251.6(d).

(e) *Vessel reconstruction or reconditioning.* If the applicant is a shipowner who applies for construction-differential subsidy for reconstruction or reconditioning of his vessel, the procedure outlines in paragraph (d) of this section shall be followed—i.e., the method shall be in accord with section 504 of the Act.

§ 251.12 Construction-differential subsidy standard forms of contract.

An award of construction-differential subsidy shall be implemented by the execution of a "construction contract" between the proposed purchaser (or shipowner) and the contractor, a contract between the proposed purchaser (or shipowner) and the Board, and a contract between the Board and the contractor. In the case of competitive bid procurement, the following three contract forms shall be used:

(a) "Contract MA/MSB—between the contractor and the purchaser," adopted by the Board, 1972;

(b) "Contract MA/MSB—between the Board and the purchaser," adopted by the Board, 1972.

(c) "Contract MA/MSB—between the Board and the contractor," adopted by the Board, 1972.

In the case of negotiated price procurement, only those forms listed in paragraphs (b) and (c) of this section shall be required provided only that the negotiated contract entered into by the contractor and the purchaser does not impair the right of the Board under contract forms in paragraphs (b) and (c) of this section and provided that the Board shall have the right to ask for modification of a contract clause which the Board determines has an unreasonable impact on price. Copies of contract forms in paragraphs (a)–(c) of this section may be obtained from the Secretary, Maritime Administration, Washington, D.C. 20235.

§ 251.13 Domestic preference.

(a) In all construction, reconstruction, or reconditioning undertaken with the assistance of construction-differential subsidy, only articles, materials, and supplies of the growth, production, or manufacture of the United States (see section 401(h), Tariff Act of 1930, as amended, 19 U.S.C. 1401(h), for a definition of the term "United States" as used in this section) shall be employed.

(b) This requirement may be waived by the Board if the Board determines that—

(1) Such articles, materials, or supplies are customarily not manufactured in the United States, or

(2) The domestic cost of such articles, materials, or supplies is more than twice the foreign costs, or

(3) With respect to other than major components of the hull, superstructure, and any material used in the construction thereof, this domestic preference requirement will unreasonably delay the construction, reconstruction, or reconditioning of an eligible vessel.

(c) The Board will not consider a waiver under paragraph (b) (1) or (2) of this section unless the request for such waiver is accompanied by a concise explanation. In the case of paragraph (b)(3) of this section, such request shall be accompanied by the following:

(1) An erection schedule showing the latest dates the material or equipment for which a waiver is sought is required in order not to delay completion of the work beyond a reasonable delivery date,

(2) A procurement schedule showing the earliest dates the material or equipment, for which a waiver is sought, can be placed,

(3) Any technical information which the Board may require in order to make its determination,

(4) Evidence (e.g., letters from vendors or other indications) that all qualified U.S. suppliers, without regard for price, cannot meet the latest required delivery dates, when ordered on the earliest practical date, and

(5) The proposed foreign vendor's agreement to deliver the material or equipment to the U.S. shipyard on or before the latest required delivery date.

(d) If the Board waives the domestic preference requirements provided above, the Board, where it determines that the estimated domestic cost exceeds the estimated foreign cost, will reduce the construction-differential subsidy by an amount equal to the construction-differential subsidy rate times the estimated domestic cost (as determined by the Board) of the equipment or material to be purchased foreign.

(e) If the Board does not waive this domestic preference requirement, and a shipyard fails to abide by the provisions of section 505 of the Act, the Board, pursuant to the provisions of Subpart 1–1.6 of Title 41 of the Code of Federal Regulations, may debar that shipyard.

§ 251.14 Contract clauses applicable to all shipyards constructing, reconstructing, or reconditioning vessels with construction-differential subsidy aid.

All agreements between the Board and a shipyard of the United States for the award of construction-differential subsidy relating to the construction, reconstruction, or reconditioning of an eligible vessel, and all agreements between such shipyards and their subcontractors, materialmen, and suppliers shall be subject to the following contract clauses:

(a) Domestic preference (see § 251.13),

(b) Contingent fees (see 41 CFR 1–1.5),

(c) Assignment of claims (see 41 CFR 1–30.703),

(d) Officials not to benefit or be employed (see 41 CFR 1–7.101–19),

(e) Anti-kickback provisions (see 40 U.S.C. 874),

(f) Overtime compensation (see 41 CFR 1–12.4),

(g) Convict labor (see 41 CFR 1–12.2),

(h) Equal employment opportunity (see 41 CFR 1–12.803–2),

(i) Minority business (see 41 CFR 1–1.13),

(j) Small business concerns (see 41 CFR 1–1.7),

(k) Renegotiation Act of 1951 (U.S.C. App. 1211, et seq.), and

(l) A clause permitting audit of a shipyard's books and records (to the extent examination of a shipyard's books and records is authorized by § 251.20), and

(m) Any other contract clause which the Board deems necessary.

§ 251.15 Contract administration, standard form contracts.

(a) *Progress payments.* (1) The Board shall make to the contractor periodic progress payments of the Board's portion of the contract price. These progress payments shall coincide with the purchaser's progress payments to the contractor.

(2) The Board shall make to the contractor periodic progress payments of the cost of national defense features.

(3) Progress payments will be measured by the percentage of work completed, as attested by representatives of the Board, the purchaser, and the contractor. However, at no time prior to delivery of each vessel shall cumulative progress payments made by the Board and the purchaser exceed the recorded book cost of each such vessel incurred by the contractor in the performance of the contract work, plus five (5) percent of such cost.

(4) The balance of the Board's portion of the contract price and the balance of the cost of national defense features as to each of the vessels shall be payable by the Board at delivery.

(5) The balance of the purchaser's portion of the contract price shall be paid in accordance with the provisions of the construction contract.

(6) The representatives indicated in the preceding paragraph will, on such terms and conditions as the Board prescribes, include as part of the value of the work performed, work performed by any subcontractor on materials, machinery, or equipment to be installed in the vessel although not yet delivered, if the title to such materials, machinery, or equipment included as part of the value of the work done on the vessel shall have vested in the contractor, subject, however, to the subcontractor agreeing to bear the risk of the loss of such materials, machinery, or equipment until delivered to the contractor, and further provided that all amounts in respect of any such subcontractor's work shall have been paid.

(7) The Board shall make no payments, except on bills, vouchers, or invoices submitted in such number or form and executed and attested in such manner as shall be prescribed by the Board.

(b) *Progress payments, as affected by change orders on items other than national defense features.* (1) In the event the Board elects to subsidize a change, resulting in an increase in the contract price, the Board's grant of subsidy and the level of the Board's progress payments shall be increased accordingly and shall reflect the percentage of subsidization which the Board has awarded on the change.

(2) In the event the Board elects not to subsidize a change resulting in an increase in the contract price, the increase in the level of progress payments shall be for the sole account of the purchaser.

(3) In the event the Board has not yet decided whether to subisdize a change resulting in an increase in the contract price, any increase in the level of progress payments shall be for the sole account of the purchaser until such time as the Board arrives at its decision. If the Board later elects to subsidize the change, the increase in the level of the Board's progress payments, for which the purchaser shall have made payment to the contractor pursuant to the provisions of the preceding sentence, shall be remitted directly to the purchaser by the Board.

(4) In the event a change results in a decrease in the cost of the contract work, the Board's grant of subsidy and the Board's obligation to make progress payments shall be decreased accordingly in the remaining payments.

(5) The Board shall have the right to determine for subsidy purposes whether any change by the purchaser regarding performance of the contract work, which is accepted by the contractor as a no-cost change, results in a decrease in the cost of the contract work. If the Board determines that any such change does result in a decrease in the cost of the construction work, the Board's grant of subsidy and the Board's obligation to make progress payments shall be decreased accordingly.

(6) In the event that an increase or decrease in the contract price due to a change is not finally determined prior to delivery of the vessel to which the increased or decrease applies, appropriate adjustment shall be made promptly upon final determination of the increase or decrease.

(c) *Progress payments, as affected by change orders on national defense features.* (1) One hundred ten (110) percent of the net increase in the estimated cost of the contract work resulting from the change cost estimates approved by the Board shall be added to the cost of national defense features and the level of the Board's progress payments as to national defense features shall be increased accordingly.

(2) In the event of a net decrease in the estimated cost of the contract work resulting from the change cost estimates approved by the Board, the cost of national defense features and the level of the Board's progress payments as to such items will be decreased accordingly.

(d) *Change orders*—(1) *General.* No change in the contract work under the construction contract shall be aided with subsidy unless the purchaser notifies the Board in writing of its intention to request for subsidy for the change. The purchaser shall submit its request for subsidy to the Board within the time period established in the contract between the purchaser and the Board. At the same time, the purchaser or the contractor shall submit the following:

(i) The contractor's—

(*a*) Detailed estimate of the major components of the cost of such change, including labor, materials, engineering, and overhead,

(*b*) Estimate of the effect on weight, moments, and centers,

(*c*) Estimate of delay in delivery of the vessel,

(*d*) Description of any completed work eliminated or modified and any acquired materials which would not be used, and

(*e*) Detailed estimate as to the increase, or decrease, in the cost of the contract work, as well as

(ii) Any agreement between the purchaser and the contractor as to the cost and delay attributable to the change.

(2) *National defense features.* Within 30 days (or such longer period as the Board may approve) after receipt of the Board's written direction of a change in the national defense features, the contractor shall submit to the Board its

V 37-65
APR 4 72
XUM

detailed estimate of the net increase or decrease in the cost of contract work and the probable delay, if any, in delivery of any of the vessels to result from such change. The contractor's estimate shall include the major components of the cost of the change, including labor, materials, engineering, overhead, and the effect on the scheduling of other work in the contractor's yard or other commitments of the yard then pending. The purchaser shall be invited to comment on the contractor's estimate. The Board shall review the estimate and the purchaser's comments, if any, along with any other cost data available to the Board and shall determine the amount of any net increase or decrease in the estimated cost of the contract work. The Board may at the same time determine the delay in the delivery of the vessels to result from said change or may determine to make such delay determination without prejudice to the rights of the contractor after the vessels are delivered.

§ 251.16 Documentation.

(a) Each vessel constructed with the assistance of construction-differential subsidy, other than vessels capable for use as liquid bulk carriers, shall remain documented under the laws of the United States for not less than 25 years from the date of delivery by the contractor to the purchaser or so long as there is outstanding a preferred ship mortgage from the purchaser insured under title XI of the Act, whichever is the longer period, subject, however, to the provisions of section 611 of the Act.

(b) Each vessel constructed with the assistance of construction-differential subsidy, capable of use as a liquid bulk carrier, shall remain documented under the laws of the United States for not less than 25 years from the date of delivery by the contractor to the purchaser or so long as there is outstanding a preferred ship mortgage from the purchaser insured under title XI of the Act, whichever is the longer period, subject, however, to the provisions of section 611 of the Act.

(c) In the event a vessel is reconstructed or reconditioned with the assistance of construction-differential subsidy, the period during which the vessel shall remain documented under the laws of the United States shall be determined by the Board on an ad hoc basis prior to the award of subsidy.

§ 251.17 Sale, transfer, or charter.

(a) No vessel constructed, reconstructed, or reconditioned with the assistance of construction-differential subsidy shall be sold or transferred during the period within which it must also remain documented under the laws of the United States, without the prior written approval of the Board, nor shall such vessel be leased, bareboat chartered or time chartered, if such time charter extends for more than 10 years, without Board approval.

(b) The findings under sections 501 (a), 502, and 504 of the Act with respect to an applicant's ability, experience, financial resources, and other qualifications necessary to enable it to operate and maintain the vessel shall be the basis for the Board's approval or disapproval under paragraph (a) of this section.

(c) A sale, transfer lease, or charter of any vessel by a purchaser shall not release the purchaser from any of its obligations to the Board or the contractor unless the Board approves such sale, transfer, lease, or charter and agrees to release the purchaser: *Provided, however,* That the following shall be conditions precedent to the operative effect of any Board approval:

(1) The agreement of the proposed purchaser or transferee to be bound by all the provisions of the purchaser's contract with the Board, and

(2) The inclusion in any bill of sale or document of transfer of all the restrictions which run with title of the vessel.

§ 251.18 Scope of permissible domestic trading.

(a) *Purpose.* The purpose of this section is to prescribe regulations pursuant to section 506 of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1156) governing the extent to which vessels on which a construction-differential subsidy has been paid, may engage in domestic trade and establishing the conditions applicable in the event of such trade.

(b) *Definitions.* For the purpose of this section the following definitions are applicable:

(1) *Foreign trade.* "Foreign trade" shall mean both United States Export-Import Foreign Commerce and Foreign-to-Foreign Commerce as defined in Part 278 of this chapter. Nothing in this part shall be construed to affect any obligations under Part 278 of this chapter.

(2) *Gross revenue.* "Gross revenue derived from the domestic trade" in any year shall mean total revenues received for the carriage of all cargo in the domestic trade discharged during that year; "gross revenue derived from the entire voyages completed" in any year shall mean total revenues received from all voyages terminated during that year. "Gross revenue derived from the domestic trade" shall hereinafter be referred to as "domestic gross revenue." "Gross revenue derived from the entire voyages completed" shall hereinafter be referred to as "total gross revenue."

(3) *Round-the-world voyage.* "Round-the-world voyage" shall mean a voyage originating at a U.S. port moving outbound to a foreign port or ports and then moving inbound to the originating port (or another U.S. port on the same coast), where the outbound and inbound movements constitute circumnavigation of the earth.

(4) *Round voyage.* "Round voyage" shall mean a voyage originating at a U.S. port moving outbound to a foreign port or ports and then moving inbound to the originating port (or another U.S. port on the same coast) where the outbound and inbound movements do not constitute circumnavigation of the earth.

(5) *United States.* "United States" shall mean the United States, its territories or possessions (including the Commonwealth of Puerto Rico) or the District of Columbia.

(6) *Atlantic coast.* "Atlantic coast" shall mean the eastern coast and gulf coast of the contiguous 48 States.

(7) *West coast.* "West coast" shall mean the western coast of the contiguous 48 States and the coast of Alaska.

(8) *Domestic trade.* "Domestic trade" shall mean trade between ports in the United States.

(9) *Intercoastal trade.* "Intercoastal trade" shall mean trade by water between ports on the Atlantic coast and ports on the west coast by way of the Panama Canal or the Straits of Magellan.

(10) *Intercoastal port.* "Intercoastal port" is a port involved in intercoastal trade as defined in subparagraph (9) of this paragraph.

(11) *Island territory.* "Island territory" shall mean any island which has the status of a U.S. territory and any island that has the status of a U.S. commonwealth (e.g., Puerto Rico).

(12) *Island possession.* "Island possession" shall mean any island which has the status of a U.S. possession.

(13) *Year.* "Year" shall mean an annual period and not a calendar year.

(14) *Annual period.* "Annual period" shall mean 365 days (or 366 days if appropriate).

(c) *Scope of permissible domestic trade.* (1) Except as provided in paragraph (g) of this section, vessels for which a construction-differential subsidy has been paid shall be operated—

(i) Exclusively in foreign trade, or

(ii) On a round-the-world voyage, which includes intercoastal ports of the United States, or

(iii) On a round voyage from the west coast of the United States to a European port or ports which include intercoastal ports of the United States, or

(iv) On a round voyage from the Atlantic coast of the United States to the Orient which includes intercoastal ports of the United States, or

(v) On a voyage in foreign trade (defined above) on which the vessel may stop at the State of Hawaii, or an island possession or island territory of the United States, or

(vi) On a combination of subdivisions (ii) and (v), or (iii) and (v), or (iv) and (v) of this subparagraph.

(2) The domestic trade permitted within the statutorily enumerated voyages referred to in subparagraph (1) of this paragraph shall as to subparagraph (1) (ii), (iii), and (iv) of this paragraph, be limited to intercoastal trade, as to subparagraph (1) (v) of this paragraph be limited to stops at the State of Hawaii or an island possession or island territory of the United States, provided the stop at the State of Hawaii or an island possession or island territory is an intermediate stop in foreign trade, and as to subparagraph (1) (vi) of this paragraph be limited to intercoastal trade and stops at the State of Hawaii or an island possession or island territory of the United States.

(d) *Computation of proportional repayment of subsidy pursuant to the first sentence of section 506 of the Act.* (1) If a vessel subsidized with construction-differential subsidy is operated in any of the permissible domestic services enumerated in paragraph (c) of this section, the owner shall pay annually to the Board that proportion of one-twenty-fifth, or one-twentieth,[1] of the construction-differential subsidy paid for such vessel as the gross revenue derived from the domestic trade bears to the gross revenue derived from the entire voyages completed during the preceding year.

(2) To compute the subsidy payback due to the Board, an owner shall determine the ratio of the domestic gross revenue for a completed annual period and the total gross revenue for the same annual period. The owner shall then take one-twenty-fifth (1/25th) or one-twentieth (1/20th)[2] of the total amount of construction-differential subsidy paid for such vessel and multiply that amount by the ratio of domestic gross revenue to total gross revenue. The amount so computed shall be paid to the Board within 120 days of the end of the completed annual period unless the Board grants a written request for an extension of time. The computation formula for subsidy payback may be stated as follows:

FORMULA

$$\frac{D}{T}\times\frac{S}{25}=A$$

FORMULA SYMBOLS EXPLAINED

D=Domestic gross revenue for annual period.
T=Total gross revenue for annual period.
S=Total CDS paid on vessel.
25=25 years, or statutory life of the vessel.[3]
A=Amount of subsidy payback.

(3) For subsidy payback purposes, the owner's first annual period shall commence with delivery of the vessel.

(4) In the event that the economic life of a vessel is extended pursuant to § 251.16(c) as a result of reconstruction or reconditioning, the computation of subsidy payback shall, commencing after the effective date of the extension, be based upon a subsidy amortization ratio whose denominator is the sum of the remaining years of economic life on the date of completion of reconstruction or reconditioning plus the number of years in the extension and whose numerator is the sum of the unamortized subsidy (if any) for the original construction plus the subsidy paid for the reconstruction or reconditioning.

(e) *Interest charge on subsidy payback.* The owner shall pay, in addition to the proportional repayment of subsidy, interest on the amount of the repayment, at a rate determined by the Board, taking into consideration the current average market yield on outstanding marketable obligations of the United States in effect at the time of delivery of the vessel. Such interest shall be computed from the first day on which the vessel was delivered until the date of repayment of subsidy.

(f) *Filing statement.* (1) Within 120 days from the termination of an annual period, the owner of a vessel subject to this part shall submit to the Secretary of the Board a report stating the domestic gross revenues earned by that vessel during the annual period, the total gross revenues earned by that vessel during the annual period and the amount of subsidy payback due for that period computed in accordance with paragraph (d) of this section. The owner's report shall be accompanied by payment of the amount which the report shows is due for the annual period plus interest due in accordance with paragraph (e) of this section.

(2) The owner's report and the repayment of subsidy and interest accompanying the report in accordance with the immediately preceding subparagraph shall be subject to approval and verification by the Board.

(g) *Special emergency domestic service pursuant to the second sentence of section 506 of the Act.* (1) No vessel subsidized with construction-differential subsidy shall engage in domestic trade other than that enumerated in paragraph (c) of this section without the prior written consent of the Board. The Board may grant written consent to the temporary transfer of such a vessel to domestic trade other than the enumerated domestic services for periods not exceeding 6 months in any year whenever the Board may determine that such transfer is necessary or appropriate to carry out the purposes of the Act or necessary for emergency purposes and will not result in unfair competition to any person, firm, or corporation operating in the domestic noncontiguous, coastal, or intercoastal service. Such an application shall include the following:

(i) The nature of proposed service,

(ii) All facts demonstrating emergency criteria,

(iii) The requested duration of such emergency service,

(iv) The names of other operators, if any, serving the same route, and

(v) Any other pertinent information thereto.

(2) *Consent procedure.* Application for written consent as specified in subparagraph (1) of this paragraph shall be made to the Secretary of the Maritime Subsidy Board, Washington, D.C. 20235 and timely notice of such application, circumstances permitting, shall be published in the FEDERAL REGISTER. Every person, firm or corporation having any interest in such application shall be permitted to submit written statements of position as to the propriety of the particular request for consent. No hearing shall be granted except under those circumstances in which the Board in its discretion determines a hearing to be necessary. All determinations of the Board shall constitute final administrative action: *Provided,* That if the Secretary of Commerce undertakes to review a determination of the Board, the Secretary's review decision shall constitute final administrative action.

(3) *Subsidy payback.* Subsidy payback pursuant to the second sentence of section 506, shall be an amount which bears the same proportion to the construction-differential subsidy paid by the Board as such temporary period bears to the entire economic life of the vessel.[1] A computation formula for CDS payback pursuant to the second sentence of section 506 of the Act is as follows:

FORMULA

$$\frac{P}{365}\times\frac{S}{(EL)}=A$$

FORMULA SYMBOLS EXPLAINED

P=Period of time consent is given for temporary transfer to domestic service.
365=Three hundred sixty-five day annual period (or a 366 day annual period if appropriate).
S=Total subsidy paid on the vessel.
EL=Economic life of the vessel (25 years for dry bulk carriers and 20 years for liquid bulk carriers).
A=Amount of subsidy payback.

(4) *Interest charge.* Where Board consent is given to the owner of a vessel subsidized with construction-differential subsidy to transfer the vessel to temporary domestic service, the owner shall pay in addition to the required repayment of subsidy, interest at a rate determined by the Board, taking into consideration the current average market yield on outstanding maketable obligations of the United States in effect at the time of the delivery of the vessel. Such interest shall be computed from the first day on which the vessel was delivered until the date of repayment of subsidy.

(h) *Failure to comply with regulations.* The failure in any year of an owner of a vessel, on which construction-differential subsidy has been paid, to comply with the requirements of this part shall disqualify the owner or any parent, subsidiary, affiliated or related corporation or person from operating any vessel upon which construction-differential subsidy has been paid in any domestic trade for a period of 2 years from the date the failure to comply is established by the Board unless the Board shall in its discretion, determine that the failure to comply was excusable.

(i) *Transfer of ownership.* The restrictions on domestic trading of a vessel set forth in this section shall run with title to the vessel and shall not be altered in any way by a transfer of ownership of the vessel. If an owner's compliance with the restrictions set forth in this part in the year of transfer has been rendered impossible by the acts or omissions of a prior owner, the owner shall be excused from the provisions of paragraph (h) of this section for that year, provided that the owner operates for the remainder of the year exclusively in foreign commerce. The prior owner whose acts or omissions rendered compliance with the restrictions in this part impossible shall be subject to the provisions of paragraph (h) of this section.

[1] In the case of liquid bulk carriers, the statutory life shall be 20 years. (See § 251.16.)
[2] *Ibid.*

[1] Ibid.

V 37-65 APR 4 72 XUM

§ 251.19 National defense features.

The Secretary of the Navy may require certain national defense features, which will be paid for by the Board and not the applicant, to be incorporated in a vessel built with construction-differential subsidy assistance. (See § 251.15 for contract administration as affecting national defense features.) If during the statutory life of such vessel the owner utilizes a national defense feature in the commercial operation of the vessel, a proportional repayment of its foreign cost shall be made to the Board.

§ 251.20 Audit.

(a) *Contractor or shipyard.* (1) The books, files, and other records of a contractor or shipyard and of any holding, subsidiary, affiliated or associated company which contain information pertinent to a construction contract or a contract between a shipyard and the Board shall, until the expiration of 3 years after final payment, be subject to inspection and audit by representatives of the Board.

(2) In accord with section 502 of the Act, the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of 3 years after final payment, have access to, and the right to examine, any pertinent books, documents, papers, and records.

(b) *Purchaser or shipowner.* If, pursuant to the provisions of § 251.7 a purchaser or shipowner is awarded construction-differential subsidy for the cost of design work, plan approval, etc., such costs shall be subject to audit by representatives of the Board for a period of 3 years following final payment.

(c) For purposes of this section, the term "final payment" shall mean final resolution or settlement of all claims, rights, and liabilities, disputes, lawsuits, or other proceedings arising under the contracts between the contractor or shipyard and the Board, or the purchaser or shipowner and the Board.

(d) For purposes of this section, the term "contractor or shipyard" shall include all subcontractors related to the performance of any contract applicable to this Part 251.

(e) Each contractor shall include in its subcontracts the provisions of this section.

§ 251.21 Government liability and Government monetary obligations.

(a) In the event an Administration design is used for the construction, reconstruction, or reconditioning of any vessel, neither the Administration, nor the Board, nor any other instrumentality of the U.S. Government shall be liable for any defect in such design.

(b) Except as provided in the contracts between the Board and the purchaser or the contractor, the grant of construction-differential subsidy and payment for national defense features shall be the exclusive monetary obligations of the U.S. Government and the Board under this Part 251. Neither a purchaser nor a contractor shall have any recourse, under this Part 251, for the consequences of Government priorities, the acts of civil, naval, or military authorities, or other acts or omissions of the U.S. Government, acting in its sovereign capacity.

§ 251.22 Allocation of work among U.S. shipyards.

The construction, reconstruction, or reconditioning of any eligible vessel under title V of the Act may be allocated to any shipyard or shipyards of the United States, to the extent such allocation is authorized by section 502(f) of the Act.

§ 251.23 Sources of vessel design.

Designs with respect to the construction, reconstruction, or reconditioning of any vessel under this Part 251 may include those developed by—

(a) The proposed ship purchaser,

(b) The shipyard, or

(c) Subject to § 251.21, the Administration.

§ 251.35 Prospective application of regulations.

The regulations set forth in this part shall apply prospectively from the date of approval by the Board.

[T.D. 72-92]

PERSONS DEEMED NONRESIDENTS

Exemptions From Duties and Taxes on Imported Merchandise

MARCH 27, 1972.

There is set forth below the operative portion of a ruling issued March 20, 1972. This ruling clarifies the exemptions from Customs duties and internal revenue taxes on imported merchandise which may be granted persons arriving in the United States who are deemed to be nonresidents under the provisions of § 10.16 (c) of the Customs regulations (19 CFR 10.16(c)). The ruling also describes procedures applicable to the processing of persons claiming this status. The Customs regulations will be amended to incorporate this clarification.

[SEAL] LEONARD LEHMAN,
Assistant Commissioner,
Office of Regulations and Rulings.

The Bureau has determined that a person who would otherwise be considered a "returning resident of the United States" may be classified as a "nonresident" upon entering the United States for a short visit before returning abroad, pursuant to § 10.16(c), Customs regulations. The traveler claiming this status may import articles free of duty and internal revenue taxes under the provisions of items 812.10, 812.20, 812.25 and 812.30, Tariff Schedules of the United States (TSUS), upon the condition that he will, except for gifts imported under item 812.25, and articles consumed during his visit, export all such articles upon his departure from the United States. The assertion of this status by the traveler will, of course, deny him any privileges afforded returning residents of the United States under items 813.10–813.40, TSUS.

Furthermore, where the Customs officer receiving the traveler's baggage declaration decides that protection of the revenue dictates such a course, such an arriving traveler will be required to list imported articles of substantial value, in duplicate, on an appropriate form designated by the Customs officer, and to note thereon the expected duration of his visit. He must present one copy of the form to the inspecting officer, who will initial both copies. The duplicate copy will be retained by the traveler and presented to a Customs officer at the time the traveler departs the United States at the end of his visit.

Should any traveler who temporarily enters merchandise as a nonresident under the provisions of section 10.16(c), Customs regulations, find that his circumstances have changed and that he will not return abroad, whether or not he has been required to list his importations, in duplicate, he must immediately report this information to the District Director of Customs at the port of his entry. The District Director will advise the traveler of the amount of duty and taxes due.

DEPARTMENT OF THE INTERIOR

National Park Service

NATIONAL REGISTER OF HISTORIC PLACES

Additions, Deletions, or Corrections

By notice in the FEDERAL REGISTER of March 15, 1972, Part II, there was published a list of the properties included in the National Register of Historic Places through Feb. 1, 1972 (37 F.R. 5428). This list has been amended by a notice in the FEDERAL REGISTER of March 7 (pp. 4923–24). Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470.

The following properties have been added to the Register since March 7:

ALASKA

Fairbanks North Star Borough

Fairbanks, *George C. Thomas Memorial Library*, 901 1st Avenue.

Greater Sitka Borough

Sitka, *Alaska Native Brotherhood Hall, Sitka Camp No. 1*, Katlean Street.
Sitka, *Sheldon Jackson Museum*, Lincoln Street.

Kodiak Island Borough

Kodiak Island, *Three Saints Bay Archeological Site*, north of Cape Kasiak, T. 35 S., R. 27 W.

Southeastern District

Metlakatla, *Duncan, Father William, House*, Fifth Avenue and Atkinson Street.
Yakutat vicinity, *New Russia Archeological Site*, southwest of Yakutat on Phipps Peninsula.

ARKANSAS

Lee County (also in Monroe and Phillips Counties)

Blackton vicinity, *Louisiana Purchase Survey Marker*, southeast of Blackton at the corner of the three counties.

Monroe County

Louisiana Purchase Survey Marker (see Lee County).

Phillips County

Louisiana Purchase Survey Marker (see Lee County).

Washington County

Fayetteville, *Washington County Courthouse*, College Avenue and East Center Street.

CALIFORNIA

Amador County

Jackson, *Amador County Hospital Building*, 810 Court Street.

Butte County

Chico vicinity, *Patrick, William G., Home*, 3 miles southeast of Chico off U.S. 99 E.

Calaveras County

San Andreas, *Calaveras County Courthouse*, Main Street.
San Andreas, *Thorn House*, 87 East St. Charles Street.

Lake County

Clearlake Oaks vicinity, *Patwin Indian Site*, 6 miles northwest of Clearlake Oaks.

Los Angeles County

Los Angeles, *Domiciliary No. 9, Veterans Administration Center*, Dewey Avenue.

Mendocino County

Pine Grove vicinity, *Point Cabrillo Site*, 0.75 mile west of Pine Grove and California 1.

Napa County

St. Helena, *Rhine House*, 2000 Main Street.

San Francisco County

San Francisco, *McElroy Octagon House*, 2645 Gough Street.

Santa Clara County

Morgan Hill vicinity, *Poverty Flat Site*, west of Morgan Hill in Henry Williard Coe State Park.
Palo Alto, *Squire, John Adam, House*, 900 University Avenue.

Tulare County

Allensworth, *Allensworth Historic District*.

CONNECTICUT

Hartford County

East Granby, *Viets' Tavern*, Newgate Road.

Litchfield County

Woodbury, *Woodbury Historic District No. 2*, both sides of Main Street from the Woodbury-Southbury town line to Middle Quarter.

Middlesex County

Chester, *Old Town Hall (Second Congregational Meetinghouse)*, on the green between Liberty Street and Goose Hill Road.

New Haven County

Southbury, *Bullet Hill School*, west side of Main Street at the intersection of Seymour Road.

New London County

Norwich, *Huntington, Colonel Joshua, House*, 11 Huntington Lane.

Tolland County

Mansfield, *Mansfield Center Historic District*, Storrs Road.

DELAWARE

New Castle County

Newark, *England House (Red Mill Farm)*, 81 Red Mill Road.

Sussex County

Lewes, *DeVries Palisade*, Pilottown Road at DeVries Monument.

FLORIDA

Franklin County

Sumatra vicinity, *Fort Gadsden Historic Memorial*, 6 miles southwest of Sumatra.

Nassau County

Fernandina Beach vicinity, *Fort Clinch*, 3 miles north of Fernandina Beach on Florida A1A.

GEORGIA

Bibb County

Macon, *Central City Park Bandstand*, Central City Park.
Macon, *Monroe Street Apartments*, 641–661 Monroe Street.

Clayton County

Jonesboro, *Stately Oaks*, Tara Boulevard.

Coweta County

Newnan vicinity, *Gordon-Banks House*, U.S. 29 south of Newnan.

Muscogee County

Columbus, *Rankin House*, 1440 Second Avenue.

Richmond County

Augusta, *Old Medical College Building*, corner of Telfair and Sixth Streets.
Augusta, *Sacred Heart Catholic Church*, northwest corner of Greene and 13th Streets.

IDAHO

Lemhi County

Salmon vicinity, *Fort Lemhi (Salmon River Mission)*, about 18 miles southeast of Salmon.

KANSAS

Douglas County

Lawrence, *Blood, Colonel James, House*, 1015 Tennessee.
Lawrence, *Old West Lawrence Historic District*, bounded approximately by Tennessee, Eighth, Indiana, and Sixth.

Ellis County

Ellis, *Chrysler, Walter P., House*, 104 West 10th Street.

Ellsworth County

Kanopolis, *Fort Harker Guardhouse*, corner of Wyoming and Ohio Streets.

Ford County

Dodge City, *Mueller-Schmidt House*, 112 East Vine.

Franklin County

Ottawa, *Dietrich Cabin*, Main and Fifth Streets.

Kiowa County

Greensburg, *Greensburg Well*, Sycamore Street.

Leavenworth County

Leavenworth, *Brewer, David J., House*, 403 Fifth Avenue.

Logan County

Russell Springs, *Old Logan County Courthouse*, Main Street.

Lyon County

Hartford, *Hartford Collegiate Institute*, southwest corner of Plumb and College Avenues.

McPherson County

Lindsborg, *Smoky Valley Roller Mill*, Mill Street.

Marshall County

Blue Rapids vicinity, *Alcove Springs*, 4 miles north of Blue Rapids on secondary roads.

Ness County

Ness City, *Ness County Bank*, Main Street and Pennsylvania Avenue.

KENTUCKY

Warren County

Bowling Green, *Riverview (Hobson House)*, Hobson Grove Park, Main Street.

MAINE

Cumberland County

Portland, *Clapp, Charles Q., House*, 97 Spring Street.
Portland, *Park Street Row*, 88–114 Park Street.
Portland, *Woodman Building*, 133–141 Middle Street.

Franklin County

West Farmington vicinity, *Little Red Schoolhouse*, south of West Farmington on Wilton Road.

Lincoln County

Wiscasset, *Scott, George, House (Octagon House)*, Federal Street.

Penobscot County

Bangor, *Bangor House*, 174 Main Street.

Sagadahoc County

Richmond, *Southard Block*, 25 Front Street.

MARYLAND

Anne Arundel County

Annapolis, *Paca House and Garden*, 186 Prince George Street.

MASSACHUSETTS

Barnstable County

Provincetown, *First Universalist Church*, 236 Commercial Street.

Berkshire County

Lanesborough, *St. Luke's Episcopal Church*, U.S. 7.
South Lee, *Merrell Tavern*, Massachusetts 102.

Franklin County

Buckland, *Griswold, Major Joseph, House*, Upper Street.

Plymouth County

Plymouth, *Old County Courthouse*, corner of Leyden and Market Streets.

Suffolk County

Boston, *Crowninshield House*, 164 Marlborough Street.
Boston, *First Baptist Church (Brattle Square Church)*, Commonwealth Avenue and Clarendon Street.
Boston, *Trinity Rectory*, northeast corner of Clarendon and Newbury Streets.

Worcester County

Northborough, *Northborough Town Hall*, northeast corner of West Main and Blake Streets.

MINNESOTA

Brown County

New Ulm, *Kiesling House*, 220 North Minnesota Street.

Ramsey County

St. Paul, *Minnesota State Capitol*, Aurora between Cedar and Park.

MISSOURI

Atchison County

Watson vicinity, *The Gibbs Site*, 4 miles northeast of Watson.

Dent County

Salem, *Dent County Courthouse*, Main and Fourth Streets.

Jackson County

Kansas City, *Coates House Hotel*, 1005 Broadway.

Saline County

Arrow Rock, *Arrow Rock Tavern*, Main Street.

NEVADA

Churchill County

Austin vicinity, *Cold Springs Station*, 51 miles west of Austin on U.S. 50.
Fallon vicinity, *Grimes Point*, 12 miles southeast of Fallon on U.S. 50.

White Pine County

Ely vicinity, *Fort Schellbourne*, 43 miles north of Ely via U.S. 93 and east 3 miles on Nevada 2.

NEW YORK

New York County

New York, *Blackwell House*, Welfare Island.

NORTH DAKOTA

Benson County

Bismarck, *Camp Hancock Site*, 101 Main Avenue.

OHIO

Clark County

Enon, *Enon Mound*, Mound Street.

Franklin County

Columbus, *Wyandotte Building*, 21 West Broad Street.

Greene County

Cedarville vicinity, *Pollock Works*, west of Cedarville off U.S. 42.
Fairborn vicinity, *Wright-Patterson Air Force Base Mound*, Area B, P Street between Seventh and Eighth Streets.

Lucas County

Toledo, *Old Central Post Office*, 13th Street between Madison and Jefferson Avenues.
Toledo, *Philipps, Henry, House*, 220 Columbia.
Toledo, *Pythian Castle (Bleckner Music Company)*, 801 Jefferson Avenue.
Toledo, *St. Patrick's Catholic Church*, 13th Street and Avondale Avenue.
Toledo, *Toledo City Market (city of Toledo Service Building)*, 237 South Erie Street.
Toledo, *Toledo News-Bee Building*, 604 Jackson Street.

Ottawa County,

Mineyahta-on-the-Bay, *War of 1812 Battle Site*, East Bay Shore Road, 1 mile west of the junction with T–142.

Ross County

Bourneville vicinity, *Spruce Hill Works*, east of Bourneville at Spruce Hill.

OKLAHOMA

Woodward County

Fort Supply, *Fort Supply Historic District*, NE¼ sec. 9, T. 24 N., R. 22 W.

RHODE ISLAND

Newport County

Newport, *House*, 295 Thames Street.
Newport, *Rogers, Joseph, House*, 37 Touro Street.
Newport, *White Horse Tavern*, 26 Marlborough Street.

Providence County

Berkeley, *Berkeley Mill Village*. Bounded by properties on both sides of Martin Street and Mendon Road on the northeast and northwest, by the railroad on the southwest, and the cemetery on the southeast.

Washington County

Wickford vicinity, *Smith's Castle*, north of Wickford on the Post Road.

SOUTH CAROLINA

Charleston County

Charleston vicinity, *Fenwick Hall*, on John's Island approximately 10 miles south of Charleston.

Fairfield County

Winnsboro, *Rural Point (Robertson House)*, Old Camden Road.

Jasper County

Robertville, *Robertville Baptist Church*, intersection of U.S. 321 and County Route 26.

Marlboro County

Bennettsville, *Jennings-Brown House*, 121 South Marlboro Street.

Richland County

Columbia, *Lorick-Baker House*, 1727 Hampton Street.
Columbia, *Wilson, Thomas Woodrow, Boyhood Home*, 1705 Hampton Street.

TENNESSEE

Davidson County

Donelson, *Two Rivers (David H. McGavock House)*, McGavock Pike.
Nashville, *Gymnasium, Vanderbilt University*, southwest corner of West End and 23d Avenues.
Nashville, *The Parthenon*, Centennial Park.
Nashville, *Second Avenue Commercial District*, Second Avenue North between Brandon Street and Broadway.

Franklin County

Huntland vicinity, *Falls Mill*, 1 mile off U.S. 64.

Williamson County

Franklin, *St. Paul's Episcopal Church*, 510 Main Street.

TEXAS

Bexar County

San Antonio, *Mission San Francisco de la Espada*, Espada Road.
San Antonio, *Mission San Juan Capistrano*, Mission Road.

Cameron County

Port Isabel vicinity, *Garcia Pasture Site*, Loma del Mesquite about 2 miles south-southwest of Port Isabel.

Concho County

Paint Rock vicinity, *Paint Rock Indian Pictograph Site*, 1 mile northwest of Paint Rock off U.S. 83.

El Paso County

El Paso, *Old Fort Bliss*, 1800 block Doniphan Street; property between Doniphan Street and the Rio Grande, north of Franklin Canal.

Oldham County

Adrian vicinity, *Rocky Dell*, 9 miles northwest of Adrian and 2.7 miles north of U.S. 40.

Travis County

Austin, *Hardeman House*, 401 East 16th Street.

UTAH

Cache County

Logan, *Old Main, Utah State University*, Utah State University campus.

Washington County

Rockville, *Deseret Telegraph and Post Office*, Utah 15.

Wayne County

Fruita, *Fruita Schoolhouse*, Utah 24.
Green River vicinity, *Horseshoe (Barrier) Canyon Pictograph Panels*, 43 miles south of Green River secs. 17, 19, T. 27 S., R. 16 E.

VIRGINIA

Albermarle County

Cismont vicinity, *Castle Hill*, 0.8 mile northwest of Route 231, 2 miles northeast of the intersection with Route 600.

Arlington County

Arlington, *The Glebe*, 4527 North 17th Street.

V 37-65 APR 4 72 XUM

Goochland County

Pemberton vicinity, *Howard's Neck*, 1 mile northwest of Pemberton.

Hampton (independent city)

Herbert House, east end of Marina Road on Hampton Creek.

Loudoun County

Middleburg vicinity, *Welbourne*, 0.1 mile south of Route 743, 1.2 miles northwest of its intersection with Route 6111.

Lunenburg County

Lunenburg
Lunenburg Courthouse Historic District, 0.2 mile west and north of the intersection of Routes 40 and 49; and 0.4 mile east and south of the intersection of Routes 40 and 675.

Prince William County

The Plains vicinity, *Beverley Mill (Chapman Mill)*, north side of the intersection of Routes 600 and 55.

Richmond (independent city)

Barrett House, 15 South Fifth Street.

Broad Street Station, Broad and Robinson Streets.

Confederate Memorial Chapel, 2900 Grove Avenue.

[DES 72-49]

PROPOSED STRIP MINED AREA RECLAMATION AND RECREATION CENTER DEVELOPMENT PROJECT; LACKAWANNA COUNTY, PA.

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Mines, Department of the Interior, has prepared a draft environmental statement concerning the conduct of a strip mined area reclamation project as part of an overall public recreation area/anthracite museum-mine tour complex development program coordinated by Lackawanna County, Pa. Written comments are invited for a period of 30 days after publication of this notice.

The proposed project will eliminate the scars of past surface coal mining activities on 125 acres of county owned land located within the adjoining communities of Scranton and Taylor, Pa. The Bureau of Mines will cooperate in finalization of the park land-use plan, fill coal strip mine pits with material from adjoining spoil banks, grade the park area to stable rolling contours, plant reclaimed and graded areas, and reconstruct and seal the channel of Lucky Run Creek which flows across the park area.

Single copies of the draft statement are available from:

Director, Bureau of Mines, Room 4614, Department of the Interior, Washington, D.C. 20240.
Chief, Environmental Affairs Field Office, Veterans Building, 19 North Main Street, Wilkes-Barre, PA 18701.

In requesting this document, please refer to the statement number above.

Dated: March 30, 1972.

W. W. LYONS,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Forest Service

COOPERATIVE 1972 GYPSY MOTH SUPPRESSION AND REGULATORY PROGRAM

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Cooperative 1972 Gypsy Moth Suppression and Regulatory Program, USDA–FS–FES (Adm) 72–16.

The environmental statement concerns a suppression effort using carbaryl on about 200,000 acres to assist cooperating States in Pennsylvania, New Jersey, and New York in preventing defoliation of hardwoods and to protect forest and forest-related resources from imminent damage by the gypsy moth.

This final environmental statement was filed with CEQ on March 27, 1972.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW., Washington, DC 20250.
USDA, Forest Service, 1621 North Kent Street, Rosslyn Plaza, Room 1205–B, Arlington, VA 22209.
USDA, Forest Service, 6816 Market Street, Room 207, Upper Darby, PA 19082.
U.S. Department of Agriculture, Animal and Plant Health Service, Administration Building, Room 302–E, 12th Street and Independence Avenue, SW., Washington, DC 20250.

A limited number of single copies are available upon request to Edward P. Cliff, Chief, U.S. Forest Service, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20250.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151 for $3 each. Please refer to the name and number of statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

LAWRENCE M. WHITFIELD,
Acting Deputy Chief, Forest Service.

[DESI 9036]

OXYTETRACYCLINE HYDROCHLORIDE AND POLYMYXIN B SULFATE VAGINAL TABLETS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Terramycin Vaginal Tablets with Polymyxin B Sulfate, containing oxytetracycline hydrochloride and polymyxin B sulfate; Pfizer, Inc., 235 East 42d Street, New York, N.Y. 10017 (NDA 61–009).

The Food and Drug Administration concludes that oxytetracycline hydrochloride with polymyxin B sulfate vaginal tablets are effective for the indications described in the labeling conditions in this announcement.

Preparations containing oxytetracycline and polymyxin B sulfate are subject to the antibiotic certification procedures under section 507 of the Federal Food, Drug, and Cosmetic Act. Within 60 days following publication of this announcement in the FEDERAL REGISTER drugs in the dosage form described above for which certification or release is requested should contain labeling information in accord with this reevaluation of the drug published in this announcement.

The above-named firm and any other holders of applications approved for a drug of the kind described above are requested to submit within 60 days following publication of this announcement in the FEDERAL REGISTER, amendments to their antibiotic applications to provide for revised labeling. Such labeling should comply with all requirements of the Act and regulations, bear adequate information for safe and effective use of the drug, and be in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section of the labeling should be as follows:

INDICATIONS

For use in the treatment of acute or chronic vaginitis due to one or more susceptible bacterial organisms.

The Food and Drug Administration concludes that the above drug is possibly effective for use in trichomonas vaginitis; prophylaxis before vaginal surgery; and following cauterization of the cervix. Batches of the drugs which bear labeling with the indications evaluated as possibly effective and are otherwise in accord with the labeling conditions herein will be accepted for release or certification by the Food and Drug Administration for a period of 6 months from the publication date of this announcement to allow any applicant to obtain and submit data to provide substantial evidence of effectiveness of the drug for use in a condition for which it has been evaluated as possibly effective.

To be acceptable for consideration in support of the effectiveness of a drug, any such data must be previously unsubmitted, well-organized, and include data from adequate and well-controlled clinical investigations (identified for ready review) as described in § 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for the approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

At the end of the 6-month period, any such data will be evaluated to determine whether there is substantial evidence of effectiveness for such uses. After that evaluation, the conclusions concerning the drug will be published in the FEDERAL REGISTER. If no studies have been undertaken, or if the studies do not provide substantial evidence of effectiveness, such drug will no longer be eligible for release or certification when labeled with those indications.

A copy of the Academy's report has been furnished to the firm referred to above. Communications forwaded in response to this announcement should be identified with the reference number DESI 9036, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Amendments (identify with NDA number, if known): Division of Anti-Infective Drug Products (BD–140), Office of Scientific Evaluation, Bureau of Drugs.
Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: March 23, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

V 37-65 APR 4 72 XUM

[DESI 11659; Docket No. FDC-D-289; NDA 11-659]

PREPARATION CONTAINING STERILE UREA AND INVERT SUGAR INJECTION

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drug for intravenous use:

Urevert containing sterile urea and invert sugar injection; Travenol Laboratories, Inc., 6301 Lincoln Avenue, Morton Grove, IL 60053 (NDA 11-659).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. A new drug application is required from any person marketing such drug without approval.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that:

1. Thirty percent (w/w) urea solutions are effective for use in the reduction of intracranial or intraocular pressure and in the control of cerebral edema.

2. Four percent urea solutions lack substantial evidence of effectiveness for use in the management of edema associated with surgery, trauma, or burns and for the prevention of postoperative sodium retention.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* Such preparations are in a form suitable for intravenous use.

2. *Labeling conditions.* a. The label bears the statement: "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the Act and regulations. The labeling bears adequate information for safe and effective use of the drug and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section is as follows:

INDICATIONS

When administered as a 30 percent solution, this preparation is indicated for the reduction of intracranial pressure (in the control of cerebral edema) and of intraocular pressure.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study" published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), as follows:

a. For holders of "deemed approved" new drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a)(1)(i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new drug application, the submission of an abbreviated new drug application as described in paragraph (a)(3)(i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

C. *Opportunity for a hearing.* 1. The Commissioner of Food and Drugs proposes to issue an order under the provisions of section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of all new drug applications and/or all amendments and supplements thereto providing for the indications for which substantial evidence of effectiveness is lacking as described in paragraph A.2 of this announcement. An order withdrawing approval of the applications will not issue if such applications are supplemented, in accord with this notice, to delete such indications. Any related drug for human use, not the subject of an approved new drug application, offered for the indications for which substantial evidence of effectiveness is lacking, may be affected by this action.

2. In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner will give the holders of any such applications, and any interested person who would be adversely affected by such an order, an opportunity for a hearing to show why such indications should not be deleted from the labeling. A request for a hearing must be filed within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

3. A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing, together with a well organized and full factual analysis of the clinical and other investigational data that the objector is prepared to prove in a hearing. Any data submitted in response to this notice must be previously unsubmitted and include data from adequate and well-controlled clinical investigations (identified for ready review) as described in section 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

4. If a hearing is requested and is justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 11659, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD-100), Bureau of Drugs.
Original abbreviated new drug applications (identify as such): Drug Efficacy Study Implementation Project Office (BD-60), Bureau of Drugs.
Requests for the Academy's report: Drug Efficacy Study Information Control (BD-67), Bureau of Drugs.
Request for a hearing (identify with docket number): Hearing Clerk; Office of General Counsel (GC-1), Room 6-88, Parklawn Building.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD-60), Bureau of Drugs.

Received requests for a hearing may be seen in the office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: March 20, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72-5061 Filed 4-3-72;8:46 am]

[Docket No. FDC-D-274; NADA 11-388V]

BARNES-HIND PHARMACEUTICALS, INC.

Prednisolone Injection Veterinary; Withdrawal of Approval of New Animal Drug Application

A notice of opportunity for a hearing was published in the FEDERAL REGISTER of April 29, 1971 (36 F.R. 8065). Said notice gave the named holders of various NADA's (new animal drug applications) 30 days in which to request an opportunity for a hearing.

Barnes-Hind Pharmaceuticals, Inc., 895 Kifer Road, Sunnyvale, Calif. 94086, the holder of NADA No. 11-388V for the product Prednisolone Injection Veterinary filed a written appearance requesting an opportunity for a hearing. However, said appearance was not supported by well-organized and full-factual analysis of clinical and other investigational data to support their opposition to the grounds for said notice. Therefore, the firm's request for a hearing is denied.

The Commissioner of Food and Drugs, based on his evaluation of information before him with respect to said drug finds that there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended or suggested in the labeling. Accordingly, the Commissioner concludes that approval of said new animal drug application should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 11-388V including all amendments and supplements thereto is hereby withdrawn effective on the date of publication of this document (4-4-72).

Dated: March 24, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72-5107 Filed 4-3-72;8:50 am]

OVER-THE-COUNTER ANTIMICROBIAL INGREDIENTS IN DRUG PRODUCTS

Safety and Efficacy Review; Request for Data and Information

A notice was published in the FEDERAL REGISTER, January 7, 1972 (37 F.R. 235), inviting submission of data by interested parties on over-the-counter antibacterial ingredients (excluding mercurials, antibiotics, and methyl, ethyl, or propyl alcohols) in drug products for repeated daily human use. The notice was corrected on January 26, 1972 (37 F.R. 1182). The Commissioner of Food and Drugs has concluded that the scope of the panel should be expanded; therefore the notice as corrected is replaced by the following (responses to the prior "antibacterial" notice will be considered as responses submitted to this notice):

The FDA is undertaking a review of all over-the-counter (OTC) drug products currently marketed in the United States, to determine that these OTC products are safe and effective for their labeled indications. This review will utilize expert panels working with FDA personnel.

A notice of proposed rule making outlining procedures and explaining the purpose for this review was published in the FEDERAL REGISTER of January 5, 1972.

To facilitate this review and a determination as to whether an OTC drug for human use is generally recognized as safe and effective and not misbranded under its recommended conditions of use, and to provide all interested persons an opportunity to present for the consideration of the reviewing experts the best data and information available to support the stated claims for these categories of antimicrobial-containing products for which drug claims are made, we are inviting published and unpublished data and other information pertinent to all active ingredients utilized as antimicrobial components of such products. (This includes soaps, surgical scrubs, skin washes, skin cleansers, and first aid preparations. Excluded at this time, but to be considered at a later date, are OTC drug products containing antimicrobial agents, offered for treatment or prophylaxis of specific disorders such as seborrhea, dandruff, acne, athletes foot, and vaginitis.)

FDA is aware that the following active ingredients are used in such products:

Bis-phenols (Hexachlorophene).
Phenolic Compounds.
Salicylanilides (Tribromsalan).
Salicylic Acid.
Quaternary Ammonium Compounds.
Carbanilides (Triclorcarban, Cloflucarban).
Iodophors.
Iodine.
Irgasans.

Interested parties are also invited to submit data on any other active antimicrobial ingredients which they may wish to be considered.

The FDA is aware that safety data on these ingredients is available as a result of testing related to nondrug products (such as cosmetics, economic poisons, coatings, and other products). In vitro and in vivo data on the antimicrobial effectiveness of such ingredients is also available from these other sources. All interested parties are encouraged to submit, at this time, all available safety and antimicrobial effectiveness data for these antimicrobial ingredients, so that the conclusions reached will reflect the best information available.

This panel is not charged with reviewing the safety or effectiveness of the use of antimicrobial ingredients in nondrug products such as cosmetics (e.g. deodorants), economic poisons, wall coatings, air filters, and other common uses. However, the conclusions of the panel with respect to these ingredients for drug use may be utilized by the Food and Drug Administration in determining whether their use in cosmetics and hazardous household products can continue to be justified, and the Environmental Protection Agency may similarly use this information in reviewing their continued use in economic poisons. Thus, although the report and monograph prepared by this panel will cover only OTC drug use, the conclusions may well have a direct and substantial impact on all uses of antimicrobial ingredients in consumer products.

To be considered, eight copies of the data and/or views must be submitted in the following format:

OTC DRUG REVIEW INFORMATION

I. Label(s) and all labeling.
II. A statement of the complete quantitative composition of the drug.
III. Animal safety data.
A. Individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
B. Combinations of the individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
4. Pertinent marketing experiences that may influence a determination as to the safety of each individual active component.
B. Combinations of the individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
4. Pertinent marketing experiences that may influence a determination as to the safety of combinations of the individual active components.
C. Finished drug product.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
4. Pertinent marketing experiences that may influence a determination as to the safety of the finished drug product.
V. Efficacy data.
A. Individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
B. Combinations of the individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
C. Finished drug product.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
IV. Human safety data.
A. Individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
4. Pertinent marketing experiences that may influence a determination as to the safety of each individual active component.
B. Combinations of the individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
4. Pertinent marketing experiences that may influence a determination as to the safety of combinations of the individual active components.
C. Finished drug product.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
4. Pertinent marketing experiences that may influence a determination as to the safety of the finished drug product.
V. Efficacy data.
A. Individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
B. Combinations of the individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).
C. Finished drug product.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports (not testimonial reports).

VI. A summary of the data and views setting forth the medical rationale and purpose (or lack thereof) for the drug and its ingredients and the scientific basis (or lack thereof) for the conclusion that the drug and its ingredients have been proven safe and effective for the intended use. If there is an absence of controlled studies in the material submitted, an explanation as to why such studies are not considered necessary must be included.

Data should be submitted to: Food and Drug Administration, Bureau of Drugs, OTC Drug Products Evaluation Staff (BD-106), 5600 Fishers Lane, Rockville, Md. 20852. These data shall be submitted wtihin 30 days from date of this publication.

Voluntary submission of data pursuant to this request or any other form of cooperation with the Food and Drug Administration with respect to the OTC drug review does not constitute agreement with the legality of the procedure or the resulting monograph. Any person submitting data or information or otherwise cooperating with the review retains the right to challenge at any time any

V 37-65 APR 4 72 XUM

aspect of the procedure or monograph on any legal ground.

Dated: March 24, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.72-5105 Filed 4-3-72;8:50 am]

[Docket No. FDC-D-274; NADA 2-923V, 6-521V]

U.S.V. PHARMACEUTICAL CORP.

Pervinal and Aquasol A Parenteral Veterinary; Notice of Withdrawal of Approval of New Animal Drug Applications

A notice of opportunity for a hearing was published in the FEDERAL REGISTER of April 29, 1971 (36 F.R. 8065). Said notice gave the named holders of various NADA's (new animal drug applications) 30 days in which to request an opportunity for a hearing.

U.S.V. Pharmaceutical Corp., 1 Scarsdale Road, Tuckahoe, NY 10707 the holder of NADA No. 2-923V for the product Pervinal and NADA No. 6-521V for the product Aquasol A Parenteral Veterinary, filed a written appearance requesting an opportunity for a hearing. However, said written appearance was not supported by well-organized and full-factual analysis of clinical and other investigational data to support their opposition to the grounds for said notice. Therefore, the firm's request for a hearing is denied.

The Commissioner of Food and Drugs, based on his evaluation of information before him with respect to said drugs finds that there is a lack of substantial evidence that the drugs will have the effect they purport and are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. Accordingly, the Commissioner concludes that approval of said new animal drug applications should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 2-923V and NADA No. 6-521V including all amendments and supplements thereto is hereby withdrawn effective on the date of publication of this document (4-4-72).

Dated: March 24, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 72-64N]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Ch. I) require that various items of livesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from December 7, 1971, to February 24, 1972 (List No. 6-72). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of title 46, United States Code, section 1333 of title 43, United States Code, and section 198 of title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160-164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner canceled or suspended by proper authority.

SIGNALS, DISTRESS, COMBINATION FLARE AND SMOKE, HAND, FOR MERCHANT VESSELS

Approval No. 160.023/4/0, signal distress, combination flare and smoke, hand-held, Propellex's drawing Model 13, Revision A dated October 7, 1969, manufactured by Propellex Company, Post Office Box 387, Edwardsville, IL 62025, effective February 23, 1972.

WATER, EMERGENCY DRINKING (IN HERMETICALLY SEALED CONTAINERS), FOR MERCHANT VESSELS

Approval No. 160.026/39/0, container for emergency provisions, dwg. No. 313 dated January 31, 1972, and Specification No. 313C dated January 31, 1972, manufactured by Globe Equipment Corp., 257 Water Street, Brooklyn, NY 11201, effective February 18, 1972.

DAVITS FOR MERCHANT VESSELS

Approval No. 160.032/150/3, mechanical davit, steel straight boom sheath screw, Type B-47; approved for a maximum working load of 9,450 pounds per set (4,725 pounds per arm) using not less than 2-part falls; identified by general arrangement dwg. 80049, Rev. C dated January 15, 1969, and drawing list dated January 17, 1972, manufactured by Welin Davit and Boat Division, Lake Shore, Inc., Iron Mountain, Mich. 49801, formerly Welin Davit Division of Lane Marine Technology, Inc., effective February 10, 1972. (It supersedes Approval No. 160.032/150/2 dated April 17, 1970 to show change of name and address of manufacturer and minor drawing revisions.)

LIFEBOATS

Approval No. 160.035/338/2, 28' x 9' x 3.96' aluminum, oar-propelled lifeboat, 59-person capacity, identified by general arrangement dwg. No. 28-1E Rev. E dated February 9, 1972, alternate aluminum interior, 46 CFR 160.035-13(c) Marking. Weights: Wood Interior: Condition "A"=3,120 pounds; Condition "B"=13,901 pounds, Aluminum Interior: Condition "A"=3,055 pounds; Condition "B"=13,836 pounds, manufactured by Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, effective February 18, 1972. (It reinstates and supersedes Approval No. 160.035/338/1 terminated September 24, 1970.)

Approval No. 160.035/444/1, 28' x 9' x 3.96' aluminum, hand-propelled lifeboat, 59-person capacity, identified by general arrangement dwg. No. 28-1F Rev. D dated February 10, 1972, alternate aluminum interior, 46 CFR 160.035-13(c) Marking. Weights: Wood Interior: Condition "A"=3,450 pounds; Condition "B"=14,195 pounds, Aluminum Interior: Condition "A"=3,660 pounds; Condition "B"=14,405 pounds, manufactured by Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, effective February 22, 1972. (It reinstates and supersedes Approval No. 160.035/444/0 terminated September 24, 1970.)

Approval No. 160.035/449/2, 26' x 9' x 3.83' aluminum, motor-propelled lifeboat without radio cabin or searchlight (Class 1), 48-person capacity, identified by general arrangement dwg. No. 26-15 Rev. D dated November 20, 1969, or motor-propelled lifeboat with a searchlight and without radio cabin (Class 2), identified by general arrangement dwg. No. 26-18 dated October 16, 1969, to be fitted with Rottmer Type S-1 Release Gear 160.033/39/3 or Rottmer Type B-1 Release Gear 160.033/52/0, 46 CFR 160.035-13(c) Marking. Weights: Class 1 Condition "A"=3,765 pounds; Condition "B"=12,881 pounds, Class 2 Condition "A"=3,765 pounds; Condition "B"=13,050 pounds, manufactured by Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, effective February 15, 1972. (It reinstates and supersedes Approval No. 160.035/449/0 terminated December 8, 1971 in error.)

Approval No. 160.035/466/0, 30' x 10' x 4.33' steel, hand-propelled lifeboat, 78-person capacity, identified by general arrangement dwg. No. 30-6 Rev. A dated December 22, 1971, 46 CFR 160.035-13(c) Marking. Weights: Condition "A"=5,660 pounds; Condition "B"=19,799 pounds, manufactured by Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, effective February 15, 1972.

Approval No. 160.035/467/0, 30' x 10' x 4.33' steel, motor-propelled lifeboat, without radio or searchlight (Class 1), 74-person capacity, identified by general arrangement dwg. No. 30-7, Rev. A dated December 15, 1971, 46 CFR 160.035-13 (c) Marking. Weights: Condition "A"=6,825 pounds; Condition "B"=20,631 pounds, manufactured by Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, effective February 14, 1972.

BUOYS, LIFE, RING, UNICELLULAR PLASTIC

Approval No. 160.050/82/0, 30-inch unicellular plastic ring life buoy, USCG Specification Subpart 160.050 and B. F. Goodrich dwg. No. 12988, revision 3 dated January 13, 1960, manufactured by Goodenow Manufacturing Co., 1301 West 18th Street, Erie, PA 16501, effective February 24, 1972.

SAFETY RELIEF VALVES, LIQUEFIED COMPRESSED GAS

Approval No. 162.018/78/0, Type 91, pressure vacuum relief valves, made of ASTM-A-216 Grade WCB, in 2", 3", 4", and 6" sizes, for a maximum pressure of 50 p.s.i.g., as shown on the drawings listed below, Type 93, pilot valve, made of ASTM A-107, Grade C1018, as per dwg. Nos. 3-0569 dated July 8, 1967, and 3-0566 dated June 16, 1967, manufactured by Anderson, Greenwood & Co., 5425 South Rice Avenue, Houston, TX 77036, effective December 7, 1971. (It supersedes Approval No. 162.018/78/0 dated November 8, 1971, to show minor changes.)

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/142/0, "Nadisco" fibrous glass cloth faced incombustible fibrous glass thermal insulation board, identical to that described in National Bureau of Standards Test Report No. FR3767 dated July 6, 1971, approved in a density of 4 pounds per cubic foot and a thickness of 1 inch, manufactured by Jamestown Fiberglass, Inc., 140 Blackstone Avenue, Jamestown, NY 14701, effective February 14, 1972.

Dated: March 29, 1972.

G. H. READ,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

[CGD 72-63N]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Termination of Approval Notice

1. Certain laws and regulations (46 CFR Ch. I) require that various items of lifesaving, firefighting, and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been terminated as herein described during the period from February 2, 1972, to February 18, 1972 (List No. 5-72). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of title 46, United States Code, section 1333 of title 43, United States Code, and section 198 of title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160-164.

3. Notwithstanding the termination of approval listed in this document, the equipment affected may be used as long as it remains in good and serviceable condition.

BUOYS, LIFE, RING, CORK, OR BALSA WOOD FOR MERCHANT VESSELS AND MOTORBOATS

The Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, NY 11201, Approvals Nos. 160.009/11/0 and 160.009/13/0 expired and were terminated effective February 17, 1972.

BUOYANT APPARATUS FOR MERCHANT VESSELS

The Tapatco, Inc., Post Office Box 49, Fairfield, CA 94533, no longer manufactures certain buoyant apparatus and Approvals Nos. 160.010/59/1 and 160.010/60/1 were therefore terminated effective February 2, 1972.

DECK COVERINGS FOR MERCHANT VESSELS

The Thos. Moulding Floor Co., Inc., 2519 West Peterson, Chicago, IL 60645, no longer manufactures certain deck coverings and Approval No. 164.006/15/0 was therefore terminated February 18, 1972.

Dated: March 29, 1972.

G. H. READ,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

ATOMIC ENERGY COMMISSION

[Docket No. 50-247]

CONSOLIDATED EDISON CO. OF NEW YORK, INC.

Order Extending Facility Operating License Expiration Date

Consolidated Edison Co. of New York, Inc., having filed a request dated March 9, 1972, for extension of the expiration date of Facility Operating License No. DRP-26 which authorizes fuel loading and subcritical testing of the Indian Point Nuclear Generating Unit No. 2, located in the town of Buchanan, Westchester County, N.Y.; and

Good cause having been shown in the application for this extension pursuant to Part 50 of the Commission's regulations in 10 CFR: *It is hereby ordered,* That the expiration date of Facility Operating License No. DRP-26 is extended from April 19, 1972, to July 19, 1972.

Dated at Bethesda, Md., this 24th day of March 1972.

For the Atomic Energy Commission.

RICHARD C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Division of Reactor Licensing.

[Docket No. 50-268]

GENERAL ELECTRIC CO.

Order Extending Provisional Construction Permit Completion Date

By Amendment No. 23 dated March 2, 1972, General Electric Co. requested an extension of the latest completion date specified in Provisional Construction Permit No. CPCSF-3. The permit authorizes General Electric Co. to construct an irradiated fuel reprocessing plant, known as the Midwest Fuel Recovery Plant, at the company's site in Grundy County, Ill.

Good cause having been shown for this extension pursuant to section 185 of the Atomic Energy Act of 1954, as amended, and § 50.55(b) of 10 CFR Part 50 of the Commission's regulations: *It is hereby ordered,* That the latest completion date specified in Provisional Construction Permit No. CPCSF-3 is extended from April 1, 1972 to April 1, 1973.

Dated at Bethesda, Md., this 28th day of March 1972.

For the Atomic Energy Commission.

S. H. SMILEY,
Director, Division of Materials Licensing.

[FR Doc.72-5080 Filed 4-3-72;8:48 am]

[Dockets Nos. 50-250, 50-251]

FLORIDA POWER AND LIGHT CO.

Notice of Hearing on a Facility Operating License

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, Licensing of Production and Utilization Facilities, and Part 2, Rules of Practice, notice is hereby given that a hearing will be held at a time and place to be set in the future by an Atomic Safety and Licensing Board, in or in the vicinity of Dade County, Fla., to consider the application filed under section 104b. of the Act by the Florida Power and Light Co. (applicant) for facility operating licenses which would authorize the operation of the pressurized water reactors (facility), identified as Turkey Point Nuclear Generating Unit No. 3 and Unit No. 4 at steady-state power levels up to a maximum of 2,200 megawatts thermal each, at the applicant's site in Dade County, Fla.

The hearing will be conducted by an Atomic Safety and Licensing Board (Board) designated by the Atomic

V 37-65 APR 4 72 XUM

Energy Commission (Commission). Notice of the Licensing Board's membership will be published in the FEDERAL REGISTER.

Construction of the facility was authorized by Provisional Construction Permits Nos. CPPR–27 and CPPR–28 issued by the Commission on April 27, 1967, following a public hearing.

A notice of consideration of issuance of an operating license for the facility was published by the Commission on October 30, 1971 (36 F.R. 20906). The notice provided that, within 30 days from the date of publication, any person whose interest may be affected by the issuance of a license could file a petition for leave to intervene in accordance with the requirements of 10 CFR Part 2, Rules of Practice. A petition for leave to intervene was thereafter filed by Paul Siegel, a resident of the city of Miami. Answers to the petition were filed by the applicant and by the Atomic Energy Commission's regulatory staff.

As set forth in a memorandum and order on this matter dated March 30, 1972, the Commission has determined that a public hearing will be held and that Paul Seigel should be admitted as a party to the proceeding.

As to the matters to be considered in the ensuing proceeding the Commission's memorandum and order provided that the issue for hearing consideration will by the steam line safety valve header failure incident referred to in paragraph 5b. of the petition, as refined through appropriate prehearing procedure.

Depending on the resolution of those matters, authorization for issuance of the license may be granted or denied, or the license may be authorized as appropriately conditioned. An operating license would be issued only after appropriate findings are made by the Director of Regulation on the matters set forth below which are not embraced by the Board's decision (and upon compliance with the applicable provisions of Appendix D to 10 CFR Part 50, dealt with hereinafter):

1. Whether construction of the facility has been substantially completed in conformity with the construction permit and the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

2. Whether the facility will operate in conformity with the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

3. Whether there is reasonable assurance (i) that the activities authorized by the operating license can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the regulations of the Commission.

4. Whether the applicant is technically and financially qualified to engage in the activities authorized by the operating license in accordance with the regulations of the Commission.

5. Whether the applicable provisions of 10 CFR Part 140, "Financial Protection Requirements and Indemnity Agreements," of the Commission's regulations have been satisfied.

6. Whether the issuance of the license will be inimical to the common defense and security or to the health and safety of the public.

A prehearing conference will be held by the Board at a date and place to be set by it to consider pertinent matters in accordance with the Commission's "Rules of Practice," 10 CFR Part 2, including section 11 of appendix A. The date and place of the hearing will be set by the Board at or after the prehearing conference. Notices as to the dates and places of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

The Commission has issued revised regulations for the implementation in its licensing proceedings of the National Environmental Policy Act of 1969 (NEPA), Appendix D to 10 CFR Part 50. The instant proceeding is covered by section D.1 of said appendix D (the notice of opportunity for hearing was issued prior to October 31, 1971, but the requirements of sections A.1 through 9 of that appendix have not been completed for this application). In accordance with the provisions of section D.1, the Board will proceed expeditiously with consideration of the hearing issue (as appropriately defined) set forth above pending compliance with the requirements specified in said appendix D.

While the matter of the full power operating license is pending before the Board, the applicant may make a motion in writing pursuant to § 50.57(c) of 10 CFR Part 50 for an operating license authorizing low power testing (operation at not more than 1 percent of full power for the purpose of testing the facility), and further operations short of full power operation.[1] The Board, in accordance with section D.2 of said appendix D, may grant the motion upon a finding that the proposed licensing action will not have a significant, adverse impact on the quality of the environment and upon satisfaction of the requirements of § 50.57(c) of 10 CFR Part 50. In addition, under section D.2, the Board may grant a motion, pursuant to § 50.57(c) of 10 CFR Part 50, upon satisfaction of the requirements of that paragraph, after consideration and balancing of the following factors:

(a) Whether it is likely that limited operation during the prospective review period will give rise to a significant, adverse impact on the environment; the nature and extent of such impact, if any; and whether redress of any such adverse environmental impact can reasonably be effected should modification or termination of the limited license result from the ongoing NEPA environmental review.

(b) Whether limited operation during the prospective review period would foreclose subsequent adoption of alternatives in facility design or operation of the type that could result from the ongoing NEPA environmental review.

(c) The effect of delay in facility operation upon the public interest. Of primary importance under this criterion are the power needs to be served by the facility; the availability of alternative sources, if any, to meet those needs on a timely basis; and delay costs to the licensee and to consumers.

Operation beyond twenty percent (20%) of full power will not be authorized except on specific approval of the Commission, upon the Commission's finding that there exists an emergency situation or other situation requiring such operation in the public interest.

Prior to taking any action on a motion pursuant to § 50.57(c) of 10 CFR Part 50 which any party opposes, the Board shall, with respect to the contested activity sought to be authorized, make findings on the hearing issue (as appropriately refined) specified above, and determine whether the proposed licensing action will have a significant, adverse impact on the quality of the environment or make findings on the factors specified in the paragraph preceding the one above, as appropriate, in the form of an initial decision. The licensing action will be taken by the Director of Regulation only after appropriate findings are made on items 1 through 6 above. If the license is one which requires the specific approval of the Commission, the Board will certify directly to the Commission for determination, without ruling thereon, the matter of whether operation beyond 20 percent (20%) of full power should be authorized.

Any license issued pursuant to the foregoing will be without prejudice to subsequent licensing action which may be taken by the Commission with regard to the environmental aspects of the facility, and any license issued will be conditioned to that effect.

As they become available, the application, the proposed operating license, the applicant's summary of the application, the report of the Commission's Advisory Committee on Reactor Safeguards (ACRS), the Safety Evaluation by the Commission's regulatory staff, the applicant's Environmental Report, the AEC's Detailed Statement on Environmental Considerations, and the transcripts of the prehearing conference and of the hearing, will be placed in the Commission's Public Document Room, 1717 H Street NW., Washington, DC, where they will be available for inspection by members of the public. Copies of those documents will also be made available at the Lily Lawrence Bow Public Library, 212 Northwest, First Avenue, Homestead, FL 33030, for inspection by members of the public between the hours of 10 a.m. to 8 p.m. on Monday and 10 a.m. to 5:30 p.m. on Tuesday through Saturday. Copies of the proposed operating license, the ACRS report, the regulatory staff's Safety Evaluation, the applicant's Environmental Report, and the Commission's Detailed Statement on Environmental Considerations may be obtained, to the extent extra copies are available, by request to the Director of the Division of Reactor Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who wishes to make an oral or written statement in this proceeding setting forth his position on the issues specified, but who has not filed either a petition for leave to intervene or a request for a hearing as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's Rules of Practice. Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified in the issues set out above. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's Rules of Practice, must be filed by the parties to the proceeding (other than the regulatory staff) not later than twenty (20) days from the date of publication of this notice in the FEDERAL REGISTER.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708 of the Commission's Rules of Practice, an original and 20 copies of each such paper with the Commission.

With respect to this proceeding, the Commission has delegated to the Atomic Safety and Licensing Appeal Board the authority and the review function which would otherwise be exercised and performed by the Commission. The Commission has established the Appeal Board pursuant to 10 CFR 2.785 of the Commission's Rules of Practice, and has made the delegation pursuant to subparagraph (a)(1) of this section. The Appeal Board is composed of the Chairman and vice chairman and a third member who is technically qualified and designated by the Commission. The Commission has designated Dr. Lawrence Quarles, Dean of the School of Engineering and Applied Science, the University of Virginia, as this third member.

Dated at Germantown, Md., this 30th day of March 1972.

UNITED STATES ATOMIC ENERGY COMMISSION,
W. B. McCOOL,
Secretary of the Commission.

[FR Doc.72–5212 Filed 4–3–72;8:53 am]

[1] The applicant's answer, filed on Feb. 24, 1972, included an application for authority to load fuel in Turkey Point Unit No. 3 and to conduct certain testing and other limited operations of that unit.

[Dockets Nos. 50–400—50–403]

CAROLINA POWER AND LIGHT CO.

Notice of Availability of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in appendix D to 10 CFR Part 50, notice is hereby given that a report entitled "Environmental Report" submitted by the Carolina Power and Light Co. is being placed in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C., and in the Wake County Public Library, 104 Fayetteville Street, Raleigh, NC 27601. The report is also being made available at the Clearinghouse and Information Center, Post Office Box 1351, Raleigh, NC 27602, and the Research Triangle Regional Planning Commission, Post Office Box 12255, Research Triangle Park, NC 27709.

This report discusses environmental considerations related to the proposed construction of the Shearon Harris Nuclear Power Plant, Units 1, 2, 3, and 4, located in Wake and Chatham Counties, N.C., and supersedes the environmental report submitted on September 7, 1971.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft detailed statement of environmental considerations related to the proposed action will be prepared. Upon preparation of the draft detailed statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft detailed statement. The summary notice will request comments from interested persons on the proposed action and on the draft statement. The summary notice will also contain a statement to the effect that the comments of Federal agencies and State and local officials thereon will be available when received.

Dated at Bethesda, Md., this 29th day of March 1972.

For the Atomic Energy Commission.

R. C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Division of Reactor Licensing.

VIRGINIA ELECTRIC & POWER CO.

Notice of Availability of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in appendix D to 10 CFR Part 50, notice is hereby given that the "Applicant's Environmental Report Supplement, Volumes 1 and 2," for the North Anna Power Station, Units 1, 2, 3, and 4, submitted by the Virginia Electric & Power Co., has been placed in the Commission's Public Document Room at 1717 H Street, NW., Washington, DC 20545, and in the Office of the Executive Secretary of the Board of Supervisors, Louisa County Courthouse, Louisa, Va. 23093.

The report is also being made available at the Virginia Division of Planning and Community Affairs, 1010 James Madison Building, Richmond, VA 23219.

This report discusses environmental considerations related to the proposed operation of the North Anna Power Station, Units 1 and 2, and the proposed construction of Units 3 and 4, located in Louisa County, Va. This report supersedes the environmental report submitted on June 17, 1970, and the supplemental letter of September 29, 1970.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft detailed statement of environmental considerations related to the proposed action will be prepared. Upon preparation of the draft detailed statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft detailed statement. The summary notice will request comments from interested persons on the proposed action and on the draft statement. The summary notice will also contain a statement to the effect that the comments of Federal agencies and State and local officials thereon will be available when received.

Dated at Bethesda, Md., this 29th day of March 1972.

[Docket No. 50-271]

VERMONT YANKEE NUCLEAR POWER CORP.

Order Canceling Session and Convening Evidentiary Hearing

The Atomic Safety and Licensing Board has undertaken consultation with the attorneys for the parties actively participating in the evidentiary sessions respecting their readiness to proceed with the presentation or cross-examination of evidence at the session which has been contemplated for April 10, 1972, in Brattleboro, Vt. The parties reported that arrangements were under consideration regarding the preparation of evidence, that additional time was needed in some respects, and that in general the parties are endeavoring to develop means which will expedite the proceedings. All attorneys are agreed that April 10 does not appear to be a feasible date for convening the proceeding and that the next session is suggested to extend for 3 weeks of continuous hearing commencing on May 30, 1972. No objection was made by any attorney to this proposed schedule.

The Atomic Safety and Licensing Board, after a consideration of these representations from the attorneys, concludes that good cause has been shown to omit the April 10 session, that this proceeding will be expedited by permitting complete preparation of the proposed evidence, and that the next session of hearings should convene on May 30, 1972.

Wherefore, it is ordered, in accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, that the proposed April 10, 1972, session of hearings in this proceeding is canceled, and take notice that the next session of evidentiary hearings in this proceeding shall convene at 2:30 p.m. on Tuesday, May 30, 1972, in Brattleboro, Vt., at a location therein to be designated later by order.

Issued: March 30, 1972, Germantown, Md.

ATOMIC SAFETY AND LICENSING BOARD,
SAMUEL W. JENSCH,
Chairman.

AIR WEST

Order Granting Motion for Immediate Hearing and Consolidating Applications

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 29th day of March 1972. Application of Hughes Air Corp. doing business as Air West, Docket 24052, for amendment of its certificate of public convenience and necessity for route 76 so as to delete Baker, Oreg., and Ontario, Oreg./Payette, Idaho; Application of Hughes Air Corp. doing business as Air West, Docket 23827, for amendment of its certificate of public convenience and necessity for route 76 to delete Roseburg, Oreg.

On December 10, 1971, Hughes Air Corp. doing business as Air West (Air West), filed an application (Docket 24052) requesting that its certificate of public convenience and necessity for route 76 to be amended so as to delete Baker, Oreg., and Ontario, Oreg./Payette, Idaho. On December 13, 1971, Air West filed a motion requesting an immediate hearing on its application.

In support of its motion, Air West states, inter alia, that Baker and Ontario/Payette are among the least productive airline cities in the United States, averaging 1.2 and 0.7 daily enplaned passengers respectively in 1970; that despite the provision of varied service patterns over the last 25 years in an attempt to maximize traffic, Air West has never enplaned more than three passengers per day at Baker and 3.3 at Ontario/Payette; that its present service pattern to Baker and Ontario/Payette involves an annual subsidy need of $209,000 [1]; and that service to the cities has not been examined since 1963 when the Board found that the subsidy need to serve Baker would not exceed $10,000 per year and that service to Ontario was costing $2,400 annually.

On February 17, 1972, the Public Utility Commissioner for the State of Oregon filed a motion seeking consolation of Air West's application to delete Baker and Ontario/Payette for simultaneous consideration with its pending application in Docket 23827 to delete Roseburg, Oreg. The latter case was set down for hearing by Order 71-12-68, December 16, 1971, and is presently awaiting Prehearing Conference. No answers to the motion of either Air West or the Public Utility Commissioner have been filed.

Upon consideration of the pleadings and all the relevant facts, we have decided that Air West's motion for an immediate hearing meets the criteria set forth in § 399.60 of the Board's policy statements and, accordingly, the motion will be granted. In addition, we find that consolidation of the three deletion applications is warranted in view of the facts that the PUC has urged that consolidation will facilitate its ability to participate in the proceedings; that no party has objected to consolidation; and that the points involved are located in a single state and two of them are served on the same flights. In these circumstances, we find that consolidation will be conducive to the proper dispatch of the Board's business and to the ends of justice and will not unduly delay the proceedings. Accordingly, we will grant the motion to consolidate Air West's applications in Dockets 24052 and 23827 for consideration in a single proceeding.

Accordingly, it is ordered, That:

1. Air West's motion for immediate hearing on its application in Docket 24052 be and it hereby is granted;

2. The application set for hearing herein shall be consolidated for contemporaneous consideration with the application set for hearing in Docket 23827, and shall be heard before an Examiner of the Board at a time and place hereinafter to be designated;

3. Applications, motions to consolidate, and motions or petitions for modification or reconsideration of this order shall be filed no later than 20 days after the date of service of this order, and answers to such pleadings shall be filed no later than 10 days thereafter; and

4. A copy of this order shall be served upon Hughes Air Corp. doing business as Air West, United Air Lines, Western Air Lines, Frontier Airlines, American Airlines, Continental Air Lines, Braniff International Airways, Eastern Air Lines, Northwest Airlines, Pan American World Airways, the Civil Executive Offices of Baker, Ontario, and Roseburg, Oreg., and Payette, Idaho; the Airport Managers at Roseburg, Baker, and Ontario/Payette, the Governors of Oregon and Idaho, D. F. O'Scannlan, Public Utility Commissioner of Oregon; the Idaho Public Utilities Commission, and the State Aviation Commission of Oregon and Idaho.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-5122 Filed 4-3-72;8:51 am]

[1] Air West presently serves Baker and Ontario/Payette on one F-27 round trip 5 days a week. The itinerary of the flight is Baker-Ontario/Payette-Boise-Idaho Falls-Pocatello. Air West estimates that the different service pattern (to Pasco and Portland) which it provided Baker and Ontario/Payette in 1971 resulted in an annual subsidy need of $230,000. The latter service pattern generated more traffic than the present service to Boise.

[Docket No. 24359; Order 72-3-97]

NORTHEAST AIRLINES, INC.

Order of Investigation and Suspension Regarding Midweek Excursion Fares to Florida

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 29th day of March 1972.

By tariff revisions [1] marked to become effective April 3 and 25, 1972, Northeast Airlines, Inc. (Northeast) proposes to establish new midweek excursion fares between certain northeastern points and Florida. The fares would replace existing southbound-only weekday 7-21 day fares applicable to Florida from the same northeastern points on Tuesday, Wednesday, and Thursday. Present weekday fares would remain in effect on Monday and on Friday and the somewhat higher weekend 7-21 day fares would remain unchanged. The midweek excursion fares are priced at the level of present weekend excursion fares [2]—all points (except those in New England north of Boston) are common fared at $92.59 during the periods of April 10 through June 30, and September 1 through December 15, and at $101.85 during the peak months of July and August. Minimum-stay requirements are to be reduced from 7 days to the first Tuesday after departure from point of origin, while the 21-day maximum is retained. Children's fares applicable to the new midweek fares have been extended to apply to children 12 through 17 years of age when accompanied by two adult-fare-paying passengers. The fare is 50 percent of the midweek fare for the first child and 25 percent for additional children.

In support of its proposal, Northeast alleges that Monday and Friday have become unquestionably peak days due largely to the introduction of the southbound weekend excursion fare. As a consequence, Northeast claims it is unable to accommodate demand at desirable departure times, while during the midweek it has capacity enough for three times the traffic it carries. The midweek fares are intended to divert some traffic from the peak travel days thereby freeing high demand space which can be sold at a premium, and also to generate new traffic.

National Airlines, Inc. (National) has filed a complaint against the proposal requesting suspension and investigation. [3] National alleges that the present low weekend fare level would virtually supplant the normal individual coach fare (since it would be available 4 days of the week); that the weekend peaking problem was caused by the weekend excursion fares and the proper solution would be modification of that fare rather than expansion of such low-level fares to additional days of the week; that the proposal is contrary to the Board's policy as set forth in Order 72-2-62 concerning peak season fares to Florida proposed by United; and that the children's fares result in ludicrously low yields which are uneconomic.

In answer to the complaint, Northeast contends that it is not introducing a 40-percent discount but is merely increasing the existing discount by 7 percent, while imposing significant new travel restrictions which it believes justify the small additional discount. Northeast alleges that it is incorrect to assume that the weekend fare level would be less profitable during the midweek since it has more available capacity then than during the weekend; and that the proposal will free weekend capacity to accommodate higher-fare traffic. Regarding the allegation that the children's fares would be uneconomic, Northeast alleges that there is no time in the foreseeable future when its normal midweek capacity will be outstripped by demand.

Upon consideration of all relevant matters, the Board finds those portions of the proposal which provide for a 50-percent discount from the adult midweek fare for one child 12 through 17, and for a 75-percent discount for additional children through 17 years of age may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful. We further conclude that this portion of the tariff in question should be suspended pending investigation.

Except for the children's fare provisions the proposal appears to constitute a reasonable attempt to alleviate a demonstrated peaking problem which we believe warrants experimentation during the off season Florida period. As Northeast alleges, the fares should both stimulate travel on the midweek days when sufficient capacity is available, and reduce the severity of weekend peaks, thereby permitting the sale of high demand weekend space at higher fares. Moreover, we note that the proposed fares are not significantly lower than those now in effect during midweek. However, we will expect the carriers offering these fares to bear the risk of the experiment, and we will also expect the carriers to maintain records of traffic, revenues, and expenses sufficient for a full evaluation of profit impact. These reports will be submitted no later than January 15, 1973.

The expanded children's fares, on the other hand, result in substantially greater discounts for family travel. For example, the fares for a family of four in the New York-Miami market would be 40 percent below regular family fares, and the overall yield for the family would be less than 3 cents a mile. Discounts for a family of five would approximate 50 percent of regular family fares, and in some markets the overall yield approaches 2 cents a mile. Notwithstanding that the fares would apply on off-peak days of the week, we believe they may be unreasonably and should not be permitted to become effective without investigation. We also question the soundness of providing discounts from an already substantially discounted fare of the magnitude here proposed.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions in "Exception 1" and "Exception 2" to Rule 4.(B) on 1st Revised Page 6 of Eastern Air Lines, Inc.'s, CAB No. 375, in "Exception 1" and "Exception 2" to Rule 4.(B) on 1st and 2nd Revised Pages 5 of National Airlines, Inc.'s, CAB No. 153, and in "Exception 1" and "Exception 2" to Rule 4.(B) on 1st Revised Page 2-A of Northeast Airlines, Inc.'s CAB No. 136, and rules, regulations, or practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions.

2. Pending hearing and decision by the Board, "Exception 1" and "Exception 2" to Rule 4.(B) on 1st Revised Page 6 of Eastern Air Lines, Inc.'s, CAB No. 375, "Exception 1" and "Exception 2" to Rule 4.(B) on 1st and 2d Revised Pages 5 of National Airlines, Inc.'s, CAB No. 153, and "Exception 1" and "Exception 2" to Rule 4.(B) on 1st Revised Page 2-A of Northeast Airlines, Inc.'s, CAB No. 136 are suspended and their use deferred to and including July 1, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein, the complaints in Dockets 24263 and 24308 are hereby dismissed;

4. The proceeding ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated; and

5. Copies of this order be filed in the aforesaid tariffs and be served upon

[1] Northeast Airlines, Inc., Tariff CAB No. 136.

[2] Weekend excursion fares from northeast points to Florida and return over the same weekend.

[3] National has also filed a defensive tariff, as has Eastern, and Delta has filed a complaint in support of the National complaint.

V 37-65 APR 4 72 XUM

Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., and Northeast Airlines, Inc., which are hereby made parties to this proceeding.

This order will be filed in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[4]

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental impact statements received by the Council on Environmental Quality March 20–24, 1972.

NOTE: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, D.C. 20250, (202) 388–7803.

ANIMAL AND PLANT HEALTH SERVICE

Final March 17

Imported Fire Ant Cooperative Federal-State Control and Regulatory Program. Proposed aerial treatment of 20 million acres in the South and Southwest with 1.7 grams of mirex per acre, in order to control the imported fire ant. The lasting effects of the pesticide are not fully known. It is slow to break down, and its residue is easily absorbed by biological organisms. Comments made by DOC, EPA, and HEW. (ELR Order No. 3051, 103 pages) (NTIS Order No. PB–205 344–F)

AGRICULTURAL RESEARCH SERVICE

Draft March 10

Agricultural Research Center, Beltsville, Md. Approximately 1,200 tons of digested sewage sludge will be utilized on 4 acres of soil to evaluate its use as a soil amendment. (ELR Order No. 3050, 13 pages) (NTIS Order No. PB–207 544–D)

FOREST SERVICE

Draft March 9

Sinulaw National Forest, Oreg. The proposed use of the herbicides 2, 4–D, 2, 4, 5–T, Amitrole–T, Atrazine, Picoloram, and Dicamba to control specific types of vegetation. Some nontarget plants will be destroyed. (ELR Order No. 2081, 32 pages) (NTIS Order No. PB–207 465–D)

Draft March 17

Pelican Butte Winter Sports Development, Klamath County, Oreg. Proposed development of a comprehensive winter sports complex. Clearing the area will affect soil, water, and visual resources. Increase in resident and transitory population will occur, with related impact. (ELR Order No. 3088, 15 pages) (NTIS Order No. PB–207 570–D)

[4] Members Minetti and Murphy filed a partial dissenting statement which is filed as part of the original document.

Tonto Working Circle, Tonto National Forest, Ariz. A proposal to allow timber cutting on the Tonto Working Circle. Dust, smoke, and fire hazards will increase with the cutting. (ELR Order No. 3090, 33 pages) (NTIS Order No. PB–207 564–D)

RURAL ELECTRIFICATION ADMINISTRATION

Draft, March 16

Alma and Cassville Stations, Buffalo County, Wis. A proposed REA loan of $11,320,000 to the Dairyland Power Cooperative to finance air pollution reducing plant modifications. The installation would minimize fly ash emissions. (ELR Order No. 3091, 199 pages) (NTIS Order No. PB–207 560–D)

Draft March 20

El Paso, Elbert, and Lincoln Counties, Colo. An application by Tri-State Generation and Transmission Association, Inc., for a loan of $3,708,600 from REA, in order to construct 80 miles of 230 kv. transmission line from Midway to Limon, including a substation at Limon. The line will cause a visual intrusion upon the landscape. (ELR Order No. 4022, 60 pages) (NTIS Order No. PB–207 587–D)

Cochise and Pima Counties, Ariz. Proposed change of purpose for $5,409,028 of prior loaned REA funds to construct 73 miles of 230 kv. transmission line and 16 miles of 115 kv. line. The lines will be an intrusion upon the landscape. (ELR Order No. 4023, 60 pages) (NTIS Order No. PB–207 573–D)

SOIL CONSERVATION SERVICE

Draft March 16

Coushatta, Red River Parish, La. Proposed construction of 7.8 miles of flood prevention channels, with appurtenant structures. Approximately 20 acres of woodland will be lost. (ELR Order No. 4003, 15 pages) (NTIS Order No. PB–207 575–D)

ATOMIC ENERGY COMMISSION

Contact: For Nonregulatory Matters: Joseph J. DiNunno, Director, Office of Environmental Affairs, Washington, D.C. 29545, (202) 973–5391.

For Regulatory Matters: Christopher L. Henderson, Assistant Director of Regulation for Administration, Washington, D.C. 20545, (202) 973–7531.

Draft March 17

Morris, Grundy County, Ill. The proposed issuance of an operating permit to the General Electric Co. for the operation of the Midwest Fuel Recovery Plant. The plant will recover uranium, plutonium, and neptunium from irradiated nuclear fuels. It has a capacity of 300 tons of enriched uranium oxide fuel per year. There is potential for detrimental effects from released fluoxide; this will require monthly testing. (ELR Order No. 3053, 83 pages) (NTIS Order No. PB–207 549–D)

Draft March 22

Colorado, Utah, and N. Mex. Proposed leasing of 25,000 acres of AEC controlled land along the Uravan Mineral Belt to private industries. The purpose of the action is to encourage maximum recovery of the remaining resources of uranium and vanadium in the area. (ELR Order No. 4011, 130 pages) (NTIS Order No. PB–207 582–D)

DEPARTMENT OF DEFENSE

DEPARTMENT OF AIR FORCE

Contact: Col. Cliff M. Whitehead, Room 5E 425, The Pentagon, Washington, D.C. 20330, (202) OX 5–2889.

Draft March 3

Sonic Booms. A study of the environmental impact of supersonic flight. Adverse effects discussed are: cumulative physiological-psychological effect on animal life; annoyance and startle effects; and damage to structures. (ELR Order No. 2085, 31 pages) (NTIS Order No. PB–207 467–D)

Draft March 14

Over the Horizon (OTH) Radar System. The CONUS OTH–B System is an over the horizon backscatter radar which uses ionospheric refraction techniques to illuminate targets beyond the optical horizons. Two sites are proposed, one to be located in Maine, the other in the state of Washington. Adverse environmental effects include: radiation hazards to personnel and wildlife within 180' of the antenna, and to those wearing cardiac pacemakers within 5100' of the antenna; emission of diesel exhaust fumes from a 6MW standby power plant; noise pollution; and clearing of foliage from 600 acres at each site. (ELR Order No. 4017, 72 pages) (NTIS Order No. PB–207 572–D)

DEPARTMENT OF ARMY

Contact: George A. Cunney, Jr., Acting Chief, Environmental Office, Directorate of Installations, Office of the Deputy Chief of Staff for Logistics, Washington, D.C. 20310, (202) OX 4–4269.

Draft March 13

Fort Peck, Mont. Proposed high explosive cratering experiments, known collectively as DIAMOND ORE. Phases II B and II C of DIAMOND ORE, planned for the fall of 1972 and the summer of 1973, respectively, use chemical high explosives (HE) to simulate nuclear energy source cratering. Craters produced by the explosions will vary in depth from 25' to 30', and in radius from 52' to 62'. Present plans call for backfilling and reseeding the cratered area. (ELR Order No. 3021, 55 pages) (NTIS Order No. PB–207 472–D)

DEFENSE SUPPLY AGENCY

Draft March 8

The subject of the statement is the procurement of coal by the Defense Supply Agency for military and Federal Government activities in the United States. Underground and/or surface mining operations in the following states are considered: Alabama, Alaska, Colorado, Illinois, Indiana, Kentucky, New Mexico, North Dakota, Ohio, Oklahoma, Pennsylvania, Utah, Virginia, West Virginia, and Wyoming. (ELR Order No. 2088, 61 pages) (NTIS Order No. PB–207 469–D)

DEPARTMENT OF ARMY

Corps of Engineers

Contract: Francis X. Kelly, Assistant for Conservation Liaison, Public Affairs Office, Office, Chief of Engineers, 1000 Independence Avenue SW., Washington, DC 20314, (202) 693–6346.

Draft March 8

Wells County, Ind. Removal and burning of two log jams on the Salamonie River. The purpose of the action is to control possible flood conditions. (ELR Order No. 2083, 9 pages) (NTIS Order No. PB–207 453–D)

Draft, March 6

Chicago River, Cook County, Ill. Clearing a 12 mile length of the North Bend of the Chicago River of debris. (ELR Order No. 2087, 11 pages) (NTIS Order No. PB–207 464–D)

Draft March 13

Rouge River Flood Control Project, Wayne County, Mich. Enlargement, realignment, and paving of the mainstream of the Rouge River, from the Detroit-Dearborn city limits to Michigan Avenue in Dearborn, a distance of 5.8 miles. The natural river bottom will be replaced by concrete pavement; an existing greenbelt will be permanently lost; and reduced water levels could alter upstream flora. (ELR Order No. 2089, 24 pages) (NTIS Order No. PB–207 451–D)

Draft March 15

New Melones Lake, Stanislaus River, Calif. Proposed contruction of New Melones Dam, a 625' high rockfill structure which will create New Melones Lake, a multipurpose (flood control, irrigation, power generation, recreation, reservoir and downstream fisheries, and water quality control) lake with a gross pool surface area of 12,500 acres. The powerplant will have an installed capacity of 300,000 kw. Approximately 22,700 acres of land will be required by the project; numerous historical and Indian sites, as well as significant wildlife habitat, will be inundated; and whitewater stretches of the Stanislaus River will be lost. (ELR Order No. 3041, 124 pages) (NTIS Order No. PB–207 435–D)

Draft March 14

Obion and Forked Deer Rivers, Tenn. and Ky. Proposed concrete lining of channels on Harris Fork Creek and South Fulton Branch; enlargement of channels from South Fulton to the junction with North Fork, Obion River (a distance of 10 miles), for flood control, Timberland and wildlife habitat will be lost. (ELR Order No. 3078, 48 pages) (NTIS Order No. PB–207 557–D)

Susquehanna River Basin, Pa. Raising of 22,400' of levee, 1065' of steel sheet-pile wall, installing of 1930' of new sheet pile wall, and providing rip rap. Increased sediment loads from run-off will result from the project, as well as adverse visual effects. (ELR Order No. 3081, 36 pages) (NTIS Order No. PB–207 567–D)

Draft March 20

Lower Columbia River, Oreg. and Wash. Construction of bank protection walks along channels in the flood plain of the Columbia River. Loss of shoreline habitat and scenic value will occur. (ELR Order No. 3085, 33 pages) (NTIS Order No. PB–207 562–D)

Draft March 17

Hampton Harbor, N.H. Proposed maintenance dredging of the channel and anchorage basin. Short-term damage to marine life will result. (ELR Order No. 3086, 12 pages) (NTIS Order No. PB–207 563–D)

Andrews River, Mass. Proposed maintenance dredging of the channel and anchorage basin. Short-term damage to marine life will result. (ELR Order No. 3087, 9 pages) (NTIS Order No. PB–207 561–D)

St. Catherine Sound, Md. Maintenance dredging of the Wicomico River Channel and St. Catherine Sound. Temporary damage to marine life will occur. (ELR Order No. 3089, 12 pages) (NTIS Order No. PB–207 565–D)

Draft March 20

Treasure Island, Dunklin County, Mo. Construction of a 150 cfs pumping plant to augment a 25 cfs pumping plant now serving a leveed area. (ELR Order No. 4002, 13 pages) (NTIS Order No. PB–207 576–D)

Draft, March 17

Bullocks Point Cove, R.I. Maintenance dredging of channels, mooring and turning basins. Temporary damage to marine life will result. (ELR Order No. 4004, 10 pages) (NTIS Order No. PB–207 574–D)

Draft, March 15

Phoenix, Maricopa County, Ariz. Construction of a detention basin and associated channel works, for flood control. (ELR Order No. 4005, 15 pages) (NTIS Order No. PB–207 580–D)

Draft, March 17

Guilford Harbor, Conn. Maintenance dredging of two channels and an anchorage basin in Guilford Harbor. Temporary damage to marine life will occur. (ELR Order No. 4007, 10 pages) (NTIS Order No. PB–207 578–D)

Final, March 15

Crescent City Harbor, Del Norte County, Calif. Proposed construction of a 20' deep inner harbor, 200' wide at the entrance and extending north a distance of 325'; and a 400' extension of the inner harbor breakwater. Dredging and blasting will cause destruction of marine life. Comments made by USDA, DOC, EPA, DOI, NOAA, state agencies and concerned citizens. (ELR Order No. 3056, 48 pages) (NTIS Order No. PB–204 380–F)

Lake Forest, Lake County, Ill. Replacement of 30' of permeable steel sheet piling grain by an impermeable 110' section and the extension of a second section by 140'. The purpose of the project is prevention of beach erosion. Comments made by USDA, USCG, EPA, DOI, state and local agencies. (ELR Order No. 3057, 29 pages) (NTIS Order No. PB–204 663–F)

Desmoines River, Jackson, Minn. Proposed construction of earthen levees, concrete floodwalls, closure structures, ponding area, and modification of sanitary and storm sewer system. The purpose of the action is flood control. Approximately 25 acres of land will be lost to the project. Comments made by EPA, DOI, State and local agencies. (ELR Order No. 3059, 29 pages) (NTIS Order No. PB–198 726–F)

Final, March 17

Fort Scott Lake, Marmaton River, Kans. Construction of a multipurpose (flood control, water quality control, water supply, recreation, and wildlife enhancement) lake. The lake will inundate 5,000 acres, eliminate 25 miles of river, tributary streams and wildlife habitat; displace 395 people and one town. Comments made by USDA, EPA, DOI, State and local agencies. (ELR Order No. 3064, 37 pages) (NTIS Order No. PB–201 520–F)

Final, March 15

Gulf Intercoastal Waterway, Tex. Proposed relocation of two portions of the authorized shallow-draft navigation project in Matagorda and Corpus Christi Bays. Dredeging and filling will destroy marine life, wildlife, and their habitats. Comments made by USDA, EPA, DOI, NOAA, State, local, and regional agencies. (ELR Order No. 3071, 58 pages) (NTIS Order No. PB–198 927–F).

Final March 17

Chowan River, N.C., and Blackwater River, Va. Construction of three cutoff channels to control flooding. Twenty-eight acres will be inundated and other acreage will be covered with spoil. Comments made by EPA, DOI, and state agencies. (ELR Order No. 3084, 23 pages) (NTIS Order No. PB–206 258–F)

Final March 22

Panama City Harbor, Fla. Proposed dredging and deepening of harbor. Marine ecosystems will be lost (including 400 acres of bay bottom, and 60 acres of land will be covered by dredge spoils. Comments made by DOC, EPA, HEW, DOI, DOT, and one State agency. (ELR Order No. 4027, 38 pages) (NTIS Order No. PB–200 196–F)

DEPARTMENT OF THE NAVY

Contact: Joseph A. Grimes, Jr., Special Civilian Assistant to the Secretary of Navy, Washington, D.C. 20350, (202) 697–0892.

Final March 22

Norfolk Station, Norfolk, Va. Proposed acquistion of 508 acres of railroad yard facilities at Sewell's Point. Naval facilities will be constructed on the site. Comments made by EPA, DOI, and state agencies. (ELR Order No. 4014, 16 pages) (NTIS Order No. PB–201 855–F)

Draft March 16

Bethany Beach Regional Wastewater Treatment Plant, Sussex County, Del. Proposed construction of a sewerage project to serve Bethany Beach. Wastewater effluent will be discharged into the Assawoman Canal. At issue is the extent to which completion of the project will affect development of seasonal homes. (ELR Order No. 3070, 99 pages) (NTIS Order No. PB–207 542–D)

FEDERAL POWER COMMISSION

Contact: Frederick H. Warren, Advisor on Environmental Quality, 441 G. Street NW., Washington, DC 20426, (202) 386–6084.

Draft March 8

Project No. 176, San Diego County, Calif. Proposed approval of a renewal operating license for Escondido Mutual Water Co.'s Lake Wohlford Project. The project consists of a combination rock and hydraulic fill dam, a 224 acre reservoir, and the Rincon and Bear Valley powerhouses, with a total installed capacity of 760 kw. (ELR Order No. 3010, 89 pages) (NTIS Order No. PB–207 457–D)

Draft March 17

Project No. 1218, Dougherty and Lee Counties, Ga. Proposed approval of a renewal operating license to the Georgia Power Co. for its Flint River Project. The project consists of 2 dams, a connecting dike, a 3-generator powerhouse, a reservoir, and appurtenant facilities. (ELR Order No. 3077, 46 pages) (NTIS Order No. PB–207 555–D)

Draft March 16

Project No. 1888, Dauphin, Lancaster, and York Counties, Pa. Proposed approval for a renewal operating license to the York Haven Power Co. The project consists of a main dam across the Susquehanna River, a secondary dam, a headrace, a 3½ mile long reservoir, and a powerhouse containing 20 generators with a total (combined) capacity of 19,620 kw. (ELR Order No. 3082, 41 pages) (NTIS Order No. PB–207 566–D)

DEPARTMENT OF INTERIOR

Contact: Office of Communications, Room 7214, Washington, D.C. 20240, (202) 343–6416.

Final March 20

Trans-Alaska Pipeline, Alaska. Application from Alyeska Pipeline Service Co. for a 48-inch oil pipeline right-of-way across Federal lands in Alaska between a point south of Prudhoe Bay on the North Slope

V 37-65 APR 4 72 XUM

and Port Valdez, a port on the south coast. The company would design, construct, operate, and maintain the 789-mile long pipeline system. Impact would result from construction, operation, and maintenance, and would occur on abiotic, biotic, and socio-economic components of the human environment far beyond the relatively small part of Alaska which would be occupied by the pipeline system and oil field. The statement includes six volumes, with three supplemental volumes on the economic and security aspects of the pipeline. Titles are as follows: Volume I, "Introduction and Summary;" Volume II, "Environmental Setting of the Proposed Trans-Alaska Pipeline;" Volume III, "Environmental Setting Between Port Valdez, Alaska, and West Coast Ports;" Volume IV, "Evaluation of Environmental Impact;" Volume V, "Alternatives to the Proposed Action" and Volume VI, "Other Sections and Attachments." (ELR Order No. 4034) (NTIS Orders Nos. Volume I–VI, PB–206 921–1 to PB–206 921–6, respectively; or PB–206 921–Set; supplemental material, Volumes I–III, PB–205 744, PB–205 745, and PB–207 254, respectively)

BUREAU OF MINES

Draft March 15

Federal Mine Health and Safety Academy, Beckley, W. Va. Proposed construction of a 600 student, multibuilding facility. The school would train mine inspectors to help administer the Federal Coal Mine Health and Safety Act of 1969. (ELR Order No. 3074, 34 pages) (NTIS Order No. PB–207 543–D)

BUREAU OF RECLAMATION

Draft March 7

Lake Havasu, Ariz. Construction of the Havasu Intake Channel and Pumping Plant, and the Buckskin Mountains Tunnel. The pumping plant will house six 500 c.f.s. pumps, which will pump water from Lake Havasu through two 13-foot-diameter pipes 3,000' up the hillside to the tunnel inlet portal. These facilities are part of the Central Arizona Project. (ELR Order No. 3009, 24 pages) (NTIS Order No. PB–207 454–D)

Draft March 10

Lake Berryessa, Napa County, Calif. A proposed management plan for the development of Lake Berryessa as a recreational area. (ELR Order No. 3083, 116 pages) (NTIS Order No. PB–207 554–D)

BUREAU OF SPORT FISHERIES AND WILDLIFE

Draft March 16

Green Lake National Fish Hatchery, Hancock County, Maine. Construction of a fish hatchery for the propagation of Atlantic Salmon to help restore the species in New England waters. (ELR Order No. 3075, 45 pages) (NTIS Order No. PB–207 541–D)

NATIONAL PARK SERVICE

Draft, March 15

City of Refuge National Historical Park, Hononau Bay, Hawaii. Proposed master plan for management of the Park, which will serve as a center for preservation of Hawaiian culture of the Kona Coast. Approximately 50 people may be displaced by the action. (ELR Order No. 4021, 79 pages) (NTIS Order No. PB–207 583–D)

NATIONAL SCIENCE FOUNDATION

Contact: William J. Hoff, General Counsel, Washington, D.C. 20550.

Final March 15

National Hail Research Experiment. A proposed 5-year series of experiments (beginning in the summer of 1972) which will involve silver iodide seeding of hail cells. The purpose of the project is the development and testing of techniques for modifying hailstorms to suppress the formation of hail and damaging size. The test area, a 50 mile square, is centered on the Pawnee National Grasslands, in northeastern Colorado. Comments made by USDA, AEC, DOD, EPA, DOI, NASA, DOT, and concerned citizens. (ELR Order No. 3052, 21 pages) (NTIS Order No. PB–207 539–F)

POSTAL SERVICE

Contact: James J. Wilson, Assistant General Counsel, Contracts and Property Division, Washington, D.C. 20260.

Draft March 13

United States Post Office, Honolulu, Hawaii. Construction of a one-story general industrial-type building with a two-story office wing. Auxiliary construction consists of parking areas, paved maneuvering areas, an underpass, and all necessary utilities and landscaping. Facility will occupy about 400,000 gross sq. ft. (ELR Order No. 3025, 20 pages) (NTIS Order No. PB–207 470–D)

DEPARTMENT OF TRANSPORTATION

Contact: Martin Convisser[1], Director, Office of Program Coordination, 400 Seventh Street SW., Washington, DC 20590, (202) 462–4357.

FEDERAL AVIATION AGENCY

Draft March 15

Holly Springs, Marshall County, Miss. Request for Federal financial assistance to acquire 83 acres and construct a 3200' x 60' runway, a taxiway, an apron, and an access road. (ELR Order No. 3060, 15 pages) (NTIS Order No. PB–207 540–D)

Thomson-McDuffie Airport, McDuffie County, Ga. Request for Federal funds in order to expand existing facilities to accommodate 70 percent of turbojet powered aircraft of less than 60,000 lbs. Eleven acres of land will be lost to the project. (ELR Order No. 3062, 41 pages) (NTIS Order No. PB–207 245–D)

Final March 16

Sitka, Alaska. Construction of runway extension; relocation of REIL and VASI, etc. Comments made by Army COE, USCG, DOC, EPA, State and local agencies. (ELR Order No. 3066, 26 pages) (NTIS Order No. PB–205 193–F)

Aniak Airport, Aniak, Alaska. Reconstruction and/or extension of existing facilities, including runway, apron, lighting, and access road. Comments made by Army COE, HEW, DOI, NOAA, and State agencies. (ELR Order No. 3067, 22 pages) (NTIS Order No. PB–205 332–F)

FEDERAL HIGHWAY ADMINISTRATION

Draft March 7

Pike County, Ky. Reconstruction of 3.55 miles of U.S. 119, from a two to a four-lane highway. A permanent loss of 185 acres, and the displacement of 77 residences and 21 businesses will result. (ELR Order No. 2062, 24 pages) NTIS Order No. PB–207 471–D)

[1] Mr. Convisser's office will refer you to the regional office from which the statement originated.

Draft March 9

F–05–1, (------), Wise County, Va. Reconstruction of alternate State Route 58 from three to four lanes for a total distance of 2.771 miles. The project will disrupt the ecological balance of a stream system and remove a portion of a school playground. (ELR Order No. 3004, 31 pages) (NTIS Order No. PB–207 458–D)

Legislative Route 1142, Centre County, Pa. Construction of L.S. 1142, a four-lane limited access highway, for a distance of 7.4 miles. The loss of an unspecified amount of farmland and number of homes will result; two streams will be crossed by the project. (ELR Order No. 3005, 24 pages) (NTIS Order No. PB–207 459–D)

Draft March 8

Project S–275–H, Elmore County, Ala. Reconstruction of Alabama State Route 14, with both two- and four-lane sections, for a distance of approximately 17 miles. Approximately 528 acres of land, 18 residences and one business will be lost to the project. (ELR Order No. 3006, 19 pages) (NTIS Order No. PB–207 456–D)

Draft March 2

Grand Forks, N. Dak. Reconstruction of Fifth Street North for a distance of 11 city blocks. One business and an unspecified amount of land will be required for right-of-way. A 4(f) statement is included for park land. (ELR Order No. 3007, 14 pages) (NTIS Order No. PB–207 461–D)

Draft March 13

Project S–1755–A, Montgomery County, Ala. Construction of a four-lane divided highway for a total distance of 2.3 miles and total cost of $5 million. Fifty acres of land will be required by the project; 90 families and 10 businesses will be displaced. (ELR Order No. 3022, 17 pages) (NTIS Order No. PB–207 438–D)

Draft March 10

Vernon, Tolland, and Willington, Conn. Reconstruction of a section of Interstate Route 86, widening the paved area by 30 percent to 50 percent. Nine families and two businesses will be displaced. A 4(f) statement attached refers to encroachment upon the Nipmuck State Forest. (ELR Order No. 3023, 166 pages) (NTIS Order No. PB–207 452–D)

Draft March 14

Route 25, Dunklin County, Mo. Construction of two 12-foot lanes of highway in two unconnected sections with a total length of 2.6 miles. Approximately 47 acres and one residence will be lost to the project. (ELR Order No. 3029, 20 pages) (NTIS Order No. PB–207 413–D)

State Route 525, Snohomish County, Wash. Relocation and reconstruction of State Route 525, a four-lane highway with auxiliary lanes and full access control. Thirty-nine families will be displaced and an unspecified amount of land lost. (ELR Order No. 3030, 23 pages) (NTIS Order No. PB–207 412–D)

Project I–17–2(44), Yavapai County, Ariz. Construction of a section of four-lane Interstate Route 17, a controlled access highway, for a total distance of 6.78 miles. (ELR Order No. 3033, 18 pages) (NTIS Order No. PB–207 411–D)

Draft March 13

F.A.P. 21, Cumberland County, Ky. Relocation and reconstruction of Corridor "J", a section of the Appalachian Development Highway System, for a total of 6.4 miles. The project is of two-lane initial and four-lane ultimate construction. Approximately 250 acres will be lost to the project; 23 residents and two businesses will be displaced. (ELR Order No. 3037, 26 pages) (NTIS Order No. PB–207 416–D)

Draft March 14

I–94, Hennepin County, Minn. Construction of a new 2.63 mile section of I–94 and reconstruction of a smaller, existent section in Minneapolis and Brooklyn Center. The total length of the project is 4.4 miles. A 4(f) statement is included due to encroachment upon two local parks. An unspecified number of homes and business will be lost to the project. (ELR Order No. 3040, 51 pages) (NTIS Order No. PB–207 414–D)

Draft March 10

Project S–0953(1), Douglas Island, Alaska. Proposed construction of a 5.3-mile road to provide access to the recreational area in the Fish Creek Basin. A 4(f) statement is included as all land involved is park land. (ELR Order No. 3042, 69 pages) (NTIS Order No. PB–207 436–D)

Draft March 9

F.A.S. Route 119, Cook County, Ill. Construction of a four-lane highway and bridge project with a total length of 3,700'. The project is being built to replace three existing bridges. A 4(f) statement is included due to encroachment upon wooded park area. (ELR Order No. 3047, 108 pages) (NTIS Order No. PB–207 434–D)

Draft March 20

Route I–44, St. Louis, Mo. Proposed reconstruction of 1.1 miles of I–44 from six to eight lanes. An unspecified number of homes and one school will be lost to the project. (ELR Order No. 4012, 32 pages) (NTIS Order No PB–207 585–D)

Routes J and M, Reynolds County, Mo. Proposed construction of 6.7 miles of two-lane roadway. Eighty acres of land will be lost to the project. A 4(f) statement is required as some of the land is in a State park. (ELR Order No. 4013, 28 pages) (NTIS Order No. PB–207 586–D)

Final March 1

Rome, Oneida County, N.Y. Proposed construction of several miles of arterial highway in the city of Rome. Approximately 3800' of the Mohawk River will be rechanneled by the project; 43 residences, two farms, five businesses, and one church will be lost. Comments made by EPA, DOI, State and local agencies. (ELR Order No. 2075, 50 pages) (NTIS Order No. PB–199 258–F)

Final March 9

U.S. 17, Georgetown County, S.C. Reconstruction of 6.8 miles of U.S. 17, from two to four lanes. Five businesses and one residence will be lost to the project. Comments made by HUD. (ELR Order No. 2090, 15 pages) (NTIS Order No. PB–207 463–F)

Buncombe and Madison Counties, N.C. Proposed construction of a new four-lane highway between Weaverville and Marshall, a total distance of 8.8 miles. Eighteen families will be displaced by the project, and an unspecified amount of woodland lost. Comments made by USDA, Army COE, DOC, EPA, GSA, DOI, OEO, TVA, State and local agencies. (ELR Order No. 2091, 51 pages) (NTIS Order No. PB–199 616–F)

Project No. F–010–1 (19), Volusia County, Fla. Reconstruction of 10.4 miles of U.S. 92, from two to four lanes. An unspecified amount of marsh and woodland will be lost to the project. Comments made by USDA, DOC, EPA, HUD, DOI, and State agencies. (ELR Order No. 2092, 62 pages) (NTIS Order No. PB–200 769–F)

Cass County, Ill. Reconstruction of F.A. Route 48 for a total distance of 1.5 miles. Comments made by USDA, DOC, EPA, HUD, DOI, and State agencies. (ELR Order No. 2095, 34 pages) (NTIS Order No. PB–202 084–F)

Project S–43 (------), Amherst County, Va. Proposed reconstruction of 2.061 miles of Route 622. Four families will be displaced by the project. Comments made by EPA, DOI, and State agencies. (ELR Order No. 2096, 39 pages) (NTIS Order No. PB–202 316–F)

Project I–27–7, Lubbock County, Tex. Reconstruction of 8.45 miles of U.S. 87. Five residences and five businesses will be displaced as a result of the project. Comments made by USDA, Army COE, HEW, HUD, and DOT. (ELR Order No. 2097, 27 pages) (NTIS Order No. PB–201 709–F)

Project S–346(1), Whitley County, Ky. Construction of a bridge and approaches; the total length of the project is 0.16 mile. Seven residences and 2 acres of land will be lost to the project. Comments made by USDA, EPA, DOI, TVA, and State agencies. (ELR Order No. 2098, 27 pages) NTIS Order No. PB–202 430–F)

Project PIN 13320.00, Franklin and Essex Counties, N.Y. Proposed reconstruction of 0.55 mile of highway. A 4(f) statement is attached, as the project is located in the Adirondack Park. Comments made by DOI. (ELR Order No. 2099, 81 pages) (NTIS Order No. PB–200 802–F)

Project F–055–1 (------), Robertson County, Tenn. Proposed construction of 7.68 miles of two-lane highway. An unspecified amount of land and number of residences will be lost to the project. Comments made by USDA, Army COE, DOI, TVA, State and local agencies. (ELR Order No. 3000, 78 pages) (NTIS Order No. PB–207 468–F)

Project APD–127(30), Pike County, Ky. Proposed reconstruction of 4.95 miles of U.S. 23, a four-lane highway. Approximately 380 acres of land will be lost to the project. Comments made by USDA, DOC, EPA, HUD, DOI, State and local agencies. (ELR Order No. 3002, 44 pages) (NTIS Order No. PB–202 002–F)

State Route 5, Chester and Madison Counties, Tenn. Construction of a four-lane highway to provide a continuous facility from Henderson to Jackson. Six creeks will be crossed, 16 houses and 1 business and an unspecified amount of land will be lost as a result of the action. Comments made by USDA, Army COE, DOI, TVA, DOT, and State and local agencies. (ELR Order No. 3012, 51 pages) (NTIS Order No. PB–207 433–F)

U.S. 69, Angelina County, Tex. Reconstruction of U.S. 69 from two to four lanes for a distance of 4 miles. Two families will be displaced by the project and sections of nine front lawns lost. Comments made by USDA, EPA, and State and local agencies. (ELR Order No. 3013, 18 pages) (NTIS Order No. PB–199 863–F)

Project F–1081, Galveston County, Tex. Reconstruction of existing two-lane State Highway 146 to a six-lane limited access highway, and construction of a new bridge. The total length of the project is 4.9 miles. An unspecified amount of land will be lost to the project. Comments made by USDA, EPA, HEW, DOT, State and local agencies. (ELR Order No. 3014, 30 pages) (NTIS Order No. PB–200 758–F)

Project S 0260(1), Dane County, Wis. Proposed reconstruction of County Trunk Highway "D" for a total length of 6.08 miles. An unspecified amount of land will be lost to the project. Comments made by USDA, EPA, HUD, DOI, DOT, State and local agencies. (ELR Order No. 3015, 33 pages) (NTIS Order No. PB–202 657–F)

Project F–03–2 (------), Winnebago County, Wis. Proposed reconstruction of U.S. 41 to limited access freeway standards. An unspecified number of residences and amount of land will be lost to the project. Comments made by USDA, EPA, HEW, HUD, DOI, and State agencies. (ELR Order No. 3016, 29 pages) (NTIS Order No. PB–200 940–F)

Final, March 21

Project RS–96(4), Woodbridge, Conn. Proposed reconstruction of a 0.85-mile section of Route 69. Comments made by USDA, Army COE, EPA, DOI, State and local agencies. (ELR Order No. 3093, 61 pages) (NTIS Order No. PB–201 528–F)

Project No. F–061–1(6), Fairbanks, Alaska. Proposed construction of a four-lane limited access highway in urban Fairbanks, from Gaffney Road to Farmer's Loop Road. An unspecified number of residences will be displaced. A 4(f) statement is required for park land which would be taken by the project. (ELR Order No. 3094, 156 pages) (NTIS Order No. PB–202 141–F)

I–90–1, King County, Wash. Reconstruction of State Route 90 from four to six lanes, for a distance of 4.06 miles. Comments made by USDA, Army COE, EPA, HUD, State, and local agencies. (ELR Order No. 3095, 76 pages) (NTIS Order No. PB–204 167–F)

Project I–459–4(1), Jefferson County, Ala. Construction of Highway I–459 for a total distance of 23.4 miles. The highway will displace 768 persons and four businesses. Comments made by USDA, Army COE, DOC, HUD, DOI, State, and local agencies. (ELR Order No. 3096, 48 pages) (NTIS Order No. PB–201 233–F)

Project F–20 (36), Douglas County, Nebr. Reconstruction of a 0.9-mile section of U.S. 6 in Omaha. One residence and an unspecified number of businesses will be displaced by the project. Comments made by USDA, EPA, DOI, State, and local agencies. (ELR Order No. 3097, 25 pages) (NTIS Order No. PB–201 857–F)

Crile Appalachia Access Road, Washington, Pa. Proposed construction of a 1,300' access road to serve an industrial park. Comments made by EPA, DOI, State, and local agencies. (ELR Order No. 3098, 31 pages) (NTIS Order No. PB–202 298–F)

Project S 10(9), Wayne County, Ky. Reconstruction of a new section of Kentucky 90, a four-lane highway, for approximately 4 miles. Approximately 95 acres will be lost to the project and 18 residences displaced. Comments made by AEC, Army COE, DOI, TVA, State, and local agencies. (ELR Order No. 3099, 45 pages) (NTIS Order No. PB–199 573–F)

Route 460, Prince Edward County, Va. Construction of 8.4 miles of two-lane highway and 15 bridges. An unspecified amount of land will be lost to the project. Comments made by EPA, DOI, and State agencies. (ELR Order No. 4000, 31 pages) (NTIS Order No. PB–207 558–F)

Project F–07–1, Henry County, Va. Construction of 18.06 miles of four-lane highway to bypass Martinsville. Approximately 230 individuals will be displaced, along with seven businesses; an unspecified amount of land will be lost. Comments made by USDA, HUD, DOI, and State agencies. (ELR Order No. 4001, 48 pages) (NTIS Order No. PB–200 322–F)

Final March 22

Power Highway, Coos County, Oreg. Proposed reconstruction of 19 miles of two-lane highway. Comments made by EPA, DOI, and State agencies. (ELR Order No. 4015, 21 pages) (NTIS Order No. PB–207 588–F)

V 37 • 65 APR 4 72 XUM

State Route 169, King County, Wash. Reconstruction of 1.50 miles of two-lane State Route 169. The displacement of three homes and two businesses will result. Comments made by USDA, Army COE, EPA, HUD, State and local agencies. (ELR Order No. 4016, 44 pages) (NTIS Order No. PB-201 858-F)

Project F-125 (------), Davies County, Ky. Proposed widening of 1.56 miles of highway. Comments made by EPA, DOI, TVA, and State agencies. (ELR Order No. 4018, 23 pages) (NTIS Order No. PB-202 178-F)

S-9102(8) St. Mary's County, Md. Proposed widening of Maryland Route 235, for a distance of 1.392 miles. Comments made by USDA, HUD, State, and local agencies. (ELR Order No. 4019, 16 pages) (NTIS Order No. PB-200 760-F)

Project S-079(1), Northway, Alaska. Construction of 7.6 miles of two-lane highway. Comments made by DOI and State agencies. (ELR Order No. 4020, 32 pages) (NTIS Order No. PB-203 108-F)

COAST GUARD

Contact: D.B. Charter, Jr., Commander, U.S. Coast Guard, Chief, Environmental Coordination Branch, 400 Seventh Street, S.W., Washington, DC 20591, (202) 426-9573.

Final March 14

U.S. Coast Guard Reserve Training Center, Yorktown, Va. Proposed reconstruction of an access road and construction of family housing. Comments made by USDA, DOI, DOT, and the State of Virginia. (ELR Order No. 3058, 14 pages) (NTIS Order No. PB-204 163-F)

U.S. WATER RESOURCES COUNCIL

Contact: W. Don Maughan, U.S. Water Resources Council, 2120 L Street NW., Washington, DC 20037, (202) 254-6406.

Draft March 13

Genesee River Basin, N.Y. The statement is a study of the problems and needs of the river basin, with proposed projects and programs. Structural projects proposed by the plan include construction of 16 upland reservoirs; 10 reservoirs in the Ontario Lake Plain; the Canaseraga multipurpose project; and the Stannard multipurpose reservoir. (ELR Order No. 3024, 22 pages) (NTIS Order No. PB-207 437-D)

Draft March 10

Big Muddy River Basin, Ill. The statement is a study of the problems and needs of the river basin, with proposed projects and programs. Structural projects proposed by the plan include construction of 10 reservoirs. Significant Indian cultural remains are located in the basin. (ELR Order No. 3036, 20 pages) (NTIS Order No. PB-207 415-D)

BRIAN P. JENNY,
Acting General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

[Dockets Nos. 19480-19482; FCC 72-282]

A-W BROADCASTING CO., ET AL.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In regard applications of Gary Acker and Billy Wolfe, doing business as A-W Broadcasting Co., Springfield, Mo., Requests: 1550 kc., 500 w., Day, Docket No. 19480, File No. BP-18,321; Charles Burton, Paul L. Bradshaw, Don Burrell, Jerry Carter, and Joseph H. Pyle, doing business as Queen City Broadcasting Co., Springfield, Mo., Requests: 1550 kc., 1 kw., Day, Docket No. 19481, File No. BP-18,460; William B. Neal (KQYX), Joplin, Mo., Has: 1560 kc., 250 w., Day, Requests: 1560 kc., 10 kw., DA, Day, Docket No. 19482, File No. BP-18,480; for construction permits.

1. The Commission has before it for consideration the above mutually exclusive applications.

2. A "Suburban" [1] issue is required with respect to A-W Broadcasting Co. Although it recently amended the community survey portion of its application, A-W has not fully compiled with the "Primer." [2] No demographic data was submitted. Since the applicant did not make a community analysis, we cannot conclude that its contacts with community leaders reflect the composition of the Springfield area. Moreover, the survey conducted of the general public appears to be a mere solicitation of programing tastes, and not an inquiry into the problems, needs, and interests of the area. Accordingly, the applicant will be provided an opportunity to demonstrate its responsiveness to the community in hearing.

3. For the following reasons, the Commission does not find A-W financially qualified to operate its proposed station. The applicant projects first-year construction and operation costs to be $31,968, itemized as follows: Equipment (first-year payments under lease-purchase agreement), $5,648; land, $3,000; building, $1,000; miscellaneous, $5,000; and working capital, $16,500. To cover these expenditures, A-W proposes to use cash on hand of $6,000, a manufacturer's lease-purchase agreement, and the sale of business property and negotiable first mortgages. However, since the applicant has not substantiated the values attributed to or the marketability of the business property and mortgages relied upon, we cannot conclude A-W is financially qualified. Finally, when measured against similar operations manned by six employees, the applicant's estimate of $16,500 for first-year operating expenses appears inordinately low. This amount does not appear sufficient to cover wages, much less the other ordinary and reasonable expenses needed to operate a radio station.

4. Subsequent to the filing of this application, Gary Acker, a partner in A-W Broadcasting Co., acquired Shelby County Broadcasting Co., licensee of WTNN, Millington, Tenn. Acker's acquisition of another station is a significant matter which could have an effect on the outcome of this proceeding. However, A-W has not amended its application as required by § 1.65 of the Commission's rules. Therefore, an issue will be included to determine whether the applicant failed to perform the responsibilities of continuing accuracy and completeness of information furnished in a pending application as required by § 1.65 of the rules.

5. We also conclude that a "Suburban" issue must be included as to Queen City. The applicant's demographic breakdown of Springfield shows that several important economic and social groups exist in the community. These identifiable factions, however, are not reflected in the contacts the applicant made with community leaders. Since it appears that the applicant has not established a dialog with all the significant groups known to exist in the community, further inquiry into the survey is required in hearing. Moreover, Queen City's proposed program format contains several inconsistencies. The most recent amendment, tendered in response to a Commission letter informing the applicant of the defects in its ascertainment survey, lists 16 programs totaling at least 10.6 hours per week which the applicant proposes to broadcast to meet the problems, needs, and interests of the community. However, section IV-A, part III of its application allots only 5 hours per week of broadcast time for public affairs matters. We believe this discrepancy must also be examined in hearing.

6. When originally filed, Queen City's financial plan did not show the applicant possessing sufficient liquid assets to meet its proposed first-year construction and operating costs. Subsequent thereto it amended the financial section. In an effort to match the funds needed to the funds available, the applicant merely reduced the amount allocated for operating expenses. Now, Queen City projects its first-year costs to be $34,805, as follows: Down payment on equipment, $4,177; first-year payments on equipment, with interest, $4,929; land, $600; building, $1,500; miscellaneous, $2,500; and working capital, $21,099. To meet these expenses, Queen City relies upon a manufacturer's letter of credit, existing capital of $2,665, and new capital of $32,000, for a total of $34,665. Moreover, we believe a station operating 84 hours per week by seven employees would require more for salaries than the $14,300 projected by the applicant. Thus, a question obtains whether the applicant's estimates are reasonable. Since the liquid assets available to the applicant still do not match the proposed expenses, and a question has been raised as to the reasonableness of the applicant's proposed costs, a financial issue must be included as to Queen City.

7. Joplin is located approximately 70 miles west of Springfield, Mo. Due to the distance involved, an increase in the power of KQYX would result in only a slight overlap of service areas. Thus, as between the Joplin and Springfield proposals, the section 307(b) issue will be determinative. In the event it is determined that one of the proposals for Springfield is to be preferred, it will be necessary, on a comparative basis, to determine which of the two applicants is better qualified.

[1] Suburban Broadcasters, 20 RR 951 (1961).

[2] Primer on Ascertainment of Community Problems by Broadcast Applicants, 36 F.R. 4092, 27 FCC 2d 650 (1970).

8. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

9. *Accordingly, it is ordered,* That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

(1) To determine the areas and populations which would receive primary service from the Springfield proposals and the availability of other primary aural service (1 mv/m or greater in the case of FM) to such areas and populations.

(2) To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of station KQYX and the availability of other primary aural service (1 mv/m or greater in the case of FM) to such areas and populations.

(3) To determine the efforts made by A-W Broadcasting Co. and Queen City Broadcasting Co. to ascertain the community needs and interests of the area to be served and the means by which the applicants propose to meet those needs and interests.

(4) To determine with respect to the application of A-W Broadcasting Co.:

(a) The basis for the estimate of the first-year's operating expense and whether such estimate is reasonable;

(b) Whether the applicant has sufficient liquid assets to finance construction and operation of the proposed station; and

(c) Whether, in light of the evidence adduced pursuant to (a) and (b), above, the applicant is financially qualified.

(5) To determine whether A-W Broadcasting Co. has complied with the provisions of § 1.65 of the Commission's rules by keeping the Commission advised of substantial and significant changes as required by § 1.65, and, if not, the effect of such noncompliance on its basic and/or comparative qualifications to be a Commission licensee.

(6) To determine with respect to the application of Queen City Broadcasting Co.:

(a) The basis for the estimate of the first-year's operating expenses and whether such estimate is reasonable;

(b) Whether the applicant has sufficient liquid assets to finance construction and operation of the proposed station; and

(c) Whether, in light of the evidence adduced pursuant to (a) and (b), above, the applicant is financially qualified.

(7) To determine the amount of time to be devoted by Queen City Broadcasting Co. to the various program categories and whether part III of section IV-A of the application form accurately reflects the applicant's proposed programing.

(8) To determine, in light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would best provide a fair, efficient, and equitable distribution of radio service.

(9) To determine, in the event it is concluded that a choice between the applications should not be based on considerations relating to section 307(b), which of the proposed Springfield operations would, on a comparative basis, better serve the public interest.

(10) To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

10. *It is further ordered,* That, in the event of a grant of any of the applications the construction permit shall include the following condition:

Permittee shall assume responsibility for the installation and adjustment of filter circuits or other equipment in the antenna system of the proposed operation and any existing station which may be necessary to prevent adverse effects due to internal cross-modulation and reradiation.

11. *It is further ordered,* That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

12. *It is further ordered,* That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: March 23, 1972.

Released: March 29, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[3]

[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-5073 Filed 4-3-72;8:47 am]

[Docket No. 19479; FCC 72-255]

MEADVILLE MASTER ANTENNA, INC.

Memorandum Opinion and Order Instituting a Hearing

In regard Meadville Master Antenna, Inc., Meadville, Pa., request for waiver of § 74.1103 of the Commission's rules, Docket No. 19470, File No. SR-76177.

1. This proceding involves a petition for waiver of the program exclusivity provision of § 74.1103 of the Commission's rules. The proceeding comes before the Commission as a result of the United States Court Appeals for the Third Circuit's action setting aside the Commission's May 6, 1969, Memorandum Opinion and Order and remanding the case to the Commission "Meadville Master Antenna, Inc. v. F.C.C. and U.S.A.", 443 F. 2d 282 (3d Cir. 1971). The Court's opinion fully sets forth the history of procedings before the Commission and the allegations and counterclaims of the parties.

2. In its opinion (Slip Op., p. 6), the Court stated that Meadville Master Antenna, Inc.,

Contends that waiver of the nonduplication rule is justified because the signal strength of WICU-TV is such that its predicted contour does not in fact encompass large sections of the community and is in fact equal to or inferior to that of WFMJ-TV[1] and because the quality of both black and white and color signals of WICU-TV is substantially inferior to that of WFMJ-TV.[2]

The hearing is instituted to take further evidence on these questions. All pleadings comprising the record in this case before the Court of Appeals are hereby made part of the record on hearing. It is believed that the formal taking of further evidnce, coupled with an in-depth analysis by an examiner, will enable the Commission to more fully "set forth its conclusions and the reasons for them" as requested by the Court.[3]

3. The point from which the examiner is to begin his inquiry is that Lamb Communications, Inc., licensee of WICU-TV, has met its burden of establishing the applicability of the nonduplication protection provision "by establishing the predicted contours of the stations and the manner in which the CATV system has failed to provide nonduplication protection." (Slip Op., pp. 6-7.) No party contested this finding before the Court. Meadville Master Antenna, Inc., has met its initial burden of going forward by submission of engineering data to put in question the actual contour and quality of the WICU-TV signal, therefore requiring the initiation of this hearing.

4. The public interest requires that the hearing process be conducted as expeditiously as possible. The examiner is so directed and shall issue his initial decision as promptly as possible after the conclusion of the hearing.

Accordingly, it is ordered, That the request for waiver herein is designated for hearing, at a time and place to be specified in a subsequent order, on the following issues:

[3] Commissioners Robert E. Lee and Johnson absent.

[1] This language is in part derived from the Commission's statement in its Second Report and Order, 2 FCC 2d 725, 753, n. 40 (1966), that "carriage will not be required where a sufficient showing is made that a predicted signal is not in fact present in the county, or that a good signal is not obtainable because of technical deficiencies on the part of the station."

[2] See 2 FCC 2d at 751, par. 62.

[3] Various requests and objections, subsequent to the handing down of the Court's opinion, for on-site inspection of MMA's head-end facilities by WICU-TV engineers accompanied by Commission engineers are now moot since any engineering evidence deemed necessary will be determined by the hearing examiner.

APR 4 72 XUM

(1) To determine (a) whether the community served by Meadville Master Antenna, Inc., is encompassed in whole or in part by the actual Grade B contour of WICU–TV, and (b) whether the actual signal contour of WFMJ–TV has the same or higher priority, in terms of the priorities established by § 74.1103 [New § 76.91 effective March 31, 1972] of the Commission's Rules, compared with the actual signal of WICU–TV.

(2) To determine whether the technical quality of WICU–TV's black-and-white signal reception in the community served by Meadville Master Antenna, Inc., is substantially inferior to that of WFMJ–TV.

(3) To determine whether the technical quality of WICU–TV's color signal reception in the community served by Meadville Master Antenna, Inc., is substantially inferior to that of WFMJ–TV.

(4) To determine whether, in light of the evidence adduced on the above issues, a grant of the request for waiver would be consistent with the public interest.

It is further ordered, That Lamb Communications, Inc., licensee of Station WICU–TV, and Chief, Cable Television Bureau, are made parties to the hearing.

It is further ordered, That Meadville Master Antenna, Inc., (a) proceed with the initial presentation of evidence on issues (1), (2), and (3), and (b) has the burden of proof on issues (1), (2), and (3), and the burden of establishing under issue (4) that a grant of its request for waiver would serve the public interest, convenience, and necessity.

It is further ordered, That to avail themselves of the opportunity to be heard, Meadville Master Antenna, Inc., and Lamb Communications, Inc., pursuant to § 1.221(e) of the Commission's rules and regulations, in person or by attorney, shall within twenty (20) days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this order.

It is further ordered, That all pleadings comprising the record in this case before the Court of Appeals shall be made part of the record on hearing.

It is further ordered, That the examiner shall conduct the hearing expeditiously and issue an initial decision as promptly as possible, in accordance with paragraph 4, supra.

It is further ordered, That the Secretary of the Commission shall send copies of this order by certified mail to the parties to the case.

Adopted: March 23, 1972.

Released: March 29, 1972.

FEDERAL COMMUNICATIONS COMMISSION [4]
BEN F. WAPLE,
Secretary

[FR Doc.72-5074 Filed 4-3-72;8:47 am]

[4] Commissioner Bartley dissenting and issuing a statement, which is filed as part of the original document, and Commissioners Robert E. Lee and Johnson absent.

[Docket No. 18759–18761; FCC 72R–79]

RKO GENERAL, INC., ET AL.

Memorandum Opinion and Order Enlarging Issues

In regard applications of RKO General, Inc. (WNAC–TV), Boston, Mass., for renewal of broadcast license, Docket No. 18759, File No. BRCT–63; Community Broadcasting of Boston, Inc., Boston, Mass., Docket No. 18760, File No. BPCT–4198; The Dudley Station Corp., Boston, Mass., for construction permit for new television broadcast station, Docket No. 18761, File No. BPCT–4277.

1. The above-captioned applications were designated for consolidated hearing by Commission Order, FCC 69–1335, released December 11, 1969, 34 F.R. 19852, 20 FCC 2d 846.[1] The Commission specified various issues, including a financial qualifications issue against The Dudley Station Corp. (Dudley) inquiring into its overall costs and sources of financing. The Board now has before it a petition to enlarge issues, filed on February 3, 1972, by Community Broadcasting of Boston, Inc. (Community) [2] which seeks the inclusion of a § 1.65 issue,[3] a misrepresentation issue and an issue to determine whether Bertram M. Lee, President of Dudley, is engaged in "profiteering" from the prosecution of the application.

2. Dudley, on December 30, 1971, filed a petition to amend its application and tendered an amendment which would include a new letter of credit from RCA to finance equipment valued at $2,600,000; letters of credit and supporting documents from four banks and five individuals which in total purport to advance credit to Durley in the amount of $5,488,000.00; and a Statement Concerning Issuance and Subscription for Class B Stock in The Dudley Station Corp., and other material showing that the following shares of Class B stock had been issued or subscribed:

	Issued		Subscribed	
	No. shares	Cost	No. shares	Cost
Henry M. Morgan [4]	4 000	$30,000	0	0
Jerome B. Wiesner	2,000	15,000	0	0
Ruth Batson	240	1,800	0	0
Henry W. Kendall	1,600	20,000	0	0
Anne Peretz	1,200	15,000	400	$5,000
Harry Levine [4]	1,200	15,000	400	5,000

[4] Counsel's transmittal letter dated Dec. 30, 1971, showed that Morgan subscribed to 5,600 shares with 5,200 issued and 400 to be subsequently issued. The "Statement Concerning Issuance and Subscription of Class B Stock in Dudley Station Corporation" submitted with the amendment showed only 4,000 shares issued to Morgan and no outstanding subscription. The SEC Prospectus showed Morgan owning 5,200 shares of Class B common and asserts that Dr. Morgan has subscribed to 1 unit and that 1,200 shares of that unit have been issued.

[4] The "Statement Concerning Issuance and Subscription for Class B Stock in The Dudley Station Corporation" submitted as part of the amendment has no listing for Levine as either owning or subscribed to stock. However, the transmittal letter shows Levine as having subscribed to 1,600 shares, 1,200 issued and 400 yet to be issued. Also, the information concerning shareholders, required by FCC Form 301, includes information as to Levine with 1,200 shares of Class B issued and 400 shares yet to be issued.

The amendment also states that Dudley has filed a Form 1–A–Notification Under Regulation A and an offering circular with the Securities Exchange Commission which looks toward the sale of 11 additional units of Class B nonvoting common stock in Dudley, each unit to consist of 1,600 shares and to be sold at $20,000 per unit. The amendment also tendered information with respect to stockholders required by section II of FCC Form 301 as to Mortimer B. Zuckerman, Henry W. Kendall, Harry Levine and Anne L. Peretz. Community contends that based on information contained in Dudley's amendment and the material submitted to the SEC, referred to in the amendment and supplied to the Commission by letter of December 27, 1971, the issues it requests should be added in the instant proceeding.

THE § 1.65 ISSUE

3. More particularly with respect to the requested section 1.65 issue, Community contends that Dudley's failure to report its bank loan commitments and certain bank loans already executed, the first of which was dated December 3, 1969, within 30 days from the date the commitment was received by Dudley is a violation of § 7.65 of the Commission's rules. Community also contends that Dudley's failure to report: the sale of 4,000 shares of Class B stock at $7.50 per share for $30,000 prior to December 31, 1969; the sale of 2,240 additional shares of Class B stock at $7.50 per share for $16,800 [5] prior to December 31, 1970; and the subscription of an additional 3,200 shares of Class B stock at $12.50 per share for $40,000, constitutes a further violation of § 1.65 of the Commission's rules.[7] Community also notes that the above-described transaction brought four

[1] This proceeding was redesignated for hearing, incorporating the original designation Order by reference and affording all applicants 30 days from publication to amend their applications by Commission Order, FCC 72–145, released Feb. 24, 1972, 37 F.R. 4382, ------ FCC 2d ------.

[2] The Board also has before it: (a) Comments, filed Feb. 23, 1972, by the Broadcast Bureau; (b) opposition, filed Feb. 23, 1972, by The Dudley Station Corp.; and (c) replies to (a) and (b), filed Mar. 1, 1972, by Community Broadcasting of Boston, Inc.

[3] Section 1.65 of the Commission's rules reads in pertinent part as follows:

Each applicant is responsible for the continuing accuracy and completeness of information furnished in a pending application or in Commission proceedings involving a pending application. Whenever the information furnished in the pending application is no longer substantially accurate and complete in all significant respects, the applicant shall as promptly as possible and in any event within 30 days, unless good cause is shown, amend or request the amendment of his application so as to furnish such additional or corrected information as may be appropriate * * *.

[5] Apparently the figure $56,800 was erroneously used by Dudley in its Statement of Cash Receipts and Disbursements when reporting this sale. Note 2 to the statement reports the sale of 2,240 shares of Class B stock at $7.50. The receipts from such sale would be $16,800.

new stockholders into the company. Community argues that Dudley's failure to comply with § 1.65 of the Commission's rules as described above raises serious questions as to that applicant's qualifications to be a station licensee which must be resolved in the hearing process.

4. In opposition to the requested § 1.65 issue, Dudley takes the position that it had no obligation to report its bank loan commitment letters at this stage of the proceeding since it did not purport to make a specific showing of its financial qualifications in its application and a general issue with respect to its financial qualifications was included in the proceeding; it only submitted the commitment letters well before the hearing date to apprise the Commission and the parties of the material on which Dudley intends to rely at the hearing. As to the sale of Class B stock, Dudley contends that it had no obligation to report those transactions since the shares involved were nonvoting stock and had no effect on the control of the applicant corporation. Moreover, Community contends that since the amendments relate to basic qualifications, not matters for comparative consideration, Community cannot possibly be prejudiced by their disclosure well in advance of the hearing.

5. The Review Board agrees with Dudley and with the Broadcast Bureau that Dudley's failure to report the loan commitments does not constitute an adequate basis for addition of a § 1.65 issue. Dudley did not detail its financial plan in its application. Consequently, an issue concerning its financial qualifications was included in the proceeding. It would have been required to do no more until it presented evidence of its financial qualifications at the hearing. Instead, Dudley chose to amend its application to put the Commission and the parties on notice of the matters which it would rely on at the hearing. The failure to provide this information earlier cannot be the basis for an issue against Dudley. "Cf. WPIX, Inc. (WPIX)," FCC 72R–29, __ FCC 2d __, released February 7, 1972. The Class B stock sales present a different problem. FCC Form 301, Application for Authority to Construct a New Broadcast Station or Make Changes In An Existing Broadcast Station, in section II requires extensive information concerning the shareholders of a corporate applicant. In this case Dudley supplied the required information as to those shareholders of record at the time the application was filed. However, the applicant neglected to advise the Commission of subsequent sales of Class B common stock as soon thereafter as possible and in any event not later than 30 days after the sale of stock or execution of the subscription contract. We cannot accept Dudley's argument that since the sale of Class B shares did not have any bearing on the control of the corporation, which by the charter is vested in the owners of Class A stock, it had no obligation to report the sale of Class B stock. On the contrary, Form 301 makes no distinction as to class of stockholders; it requires the pertinent information as to all stockholders where there are 20 or less shareholders in the corporation. Information with respect to the Class B stockholder is then clearly required by Form 301, and it is "significant information" within the scope of § 1.65 of the rules. Failure of Dudley to promptly report such information raises questions as to its qualifications to be a station licensee. Nevertheless, in the circumstances before us there is no evidence of intent to withhold pertinent information. Dudley did voluntarily come forward with an appropriate amendment supplying all of the necessary information, albeit not timely filed; and there has apparently been only one violation of the rule. The Board does not believe that this incident should reflect on the applicant's basic qualifications. Therefore, an issue will be specified inquiring into this matter and its effect on Dudley's comparative qualifications.

MISREPRESENTATION ISSUE

6. Community contends that certain statements made by Dudley in an "offering circular" submitted to the SEC and subsequently transmitted to the Commission by Dudley constitute misrepresentation. Community first points to the following statement by Dudley: "Among the three applicants (RKO, Community, Dudley) only the Company (Dudley) has stated its intention to have as many as three of its directors involved on a full-time basis in the operation of the station," and contends that since exhibits on this matter have not yet been exchanged Dudley's statement must be regarded as intentional misrepresentation. Community also notes that in the same offering circular Dudley identifies Thomas J. White, a building contractor, as Community's president and David C. Mugar as a supermarket executive. In fact, petitioner alleges, White is not president of Community and Mugar is not a supermarket executive. Community concedes, however, that both of these statements were deleted from the offering circular before it was published. Community also contends that Dudley's detailed financial proposal at page 10 of its offering circular is inconsistent with its declaration of intent to engage in experimentation in local programming and devotion of "substantial resources to community activity, to sponsor and supervise community workshops, regional festivals, conferences, talent hunts and other related activities." In its reply to the opposition on this point, Community notes that Dudley's financial projections anticipate earnings before taxes of $1,622,000 for the first year, $2,499,400 for the second year, $3,538,500 for the third year while projected production expenses are $826,500 during the first year, $982,600 for the second and $964,000 for the third year. The disproportionate relationship between increased income and increased production expenses, Community argues, refutes Dudley's claim concerning its proposed "experimentation to local programming, etc." and warrants a misrepresentation issue. Community also notes that in its amendment of December 2, 1969, Dudley states that within 2 weeks it expected to have a credit commitment letter with respect to its proposed Ampex antenna and that, although many months have passed, Dudley has not come forth with such a letter.

7. Considering all of Community's allegations, even as amplified by its reply, we find no basis for the addition of a misrepresentation issue. The first Dudley statement upon which Community relies is in fact technically accurate. At the time the statement was made Dudley was the only applicant which had "stated its intention [to the Commission] to have as many as three of its directors involved on a full-time basis in the operation of the station." The second alleged misrepresentation involves a transposition of the offices held by Mr. White and Mr. Mugar. David Mugar is in fact president of Community and Mr. David Mugar is the son of Stephen Mugar, the founder of Star Supermarket grocery chain.[8] While Dudley's characterization of David Mugar is not entirely accurate it is of no significance in the context of this proceeding. Moreover, both of the foregoing statements were deleted from the "offering circular" before it was published. Community's third contention is based on no solid factual allegations and the Board will not presume to draw the inferences from Dudley's income and production expense projection which would be necessary to support the addition of a misrepresentation issue. Nor can we regard Dudley's failure to come forward with the Ampex credit letter as warranting such an issue. While the absence of such a letter may have a bearing on Dudley's financial qualifications, Dudley's failure to produce such a letter before going to hearing is no indication of bad faith.

PROFITEERING ISSUE

8. Community notes that Bertram Lee appears to be the primary promoter of Dudley; that he owns 46.7 percent of the Class A voting stock for which he paid a total of $1,600 at $2.50 per share; that as of August 31, 1971, $126,800 [9] had been reiceived from sale of Class B stock, none of which was purchased by Lee; that $131,433 in loans had been received but none of the money was lent by Lee and

[7] In paragraphs five and six of its petition, Community catalogues at some length what it regards as deficiencies in the several loan commitments submitted by Dudley. While these matters may eventually be pertinent to a resolution of the existing financial qualifications issue they have no bearing on the issues requested in Community's petition.

[8] In its reply, Community notes that D. Mugar has never been an executive of Star Supermarket and S. Mugar sold his interest in that company in 1964.

[9] This figure appears to be the function of a $40,000 error as to the value of Class B shares sold in 1970. (See footnote 6, supra.) The correct figure appears to be $86,800.

V 37 I 65 APR 4 72 XUM

that each share of Lee's stock acquired at $2.50 per share had increased in value with the sale of each share of Class B stock at $7.50 or $12.50 per share. Community also asserts that $59,362 was expended for management fees during this period, that Dudley owes Mr. Lee's company $13,096 and that there was $52,134 in other disbursements. Community concludes that a large portion of Dudley's total expenditure went to Lee and that because at the same time his shares have increased in value he has been engaged in something it calls "profiteering."[10]

9. Assuming that all of Community's factual allegations concerning Mr. Lee's relationship with Dudley are true, we find no evidence of profiteering or other wrongdoing. Moreover, in its opposition, Dudley alleges that any funds which Lee has received from Dudley, were authorized by the Board of Directors as compensation for his services. This allegation is supported by a corporate resolution. Furthermore, the corporate minutes of April 7, 1969, authorize the president of the corporation to hire such additional clerical help, not to exceed $500 per month, as might be necessary to conduct the affairs of the corporation. Copies of both of these documents were supplied to Community in response to discovery proceedings in March of 1970. In these circumstances, the Board finds no basis for inclusion of an issue to determine whether Bertram Lee has been engaged in profiteering in the prosecution of Dudley's application for a television station in Boston.

10. *It is therefore ordered*, That the petition to enlarge issues in the above-captioned proceeding, filed February 3, 1972, by Community Broadcasting of Boston, Inc. is granted to the extent that the issues in this proceeding are enlarged as follows and is denied in all other respects;

To ascertain the facts with respect to the Dudley Station Corp.'s failure to promptly notify the Commission of changes in its stockholders, as required by § 1.65 of the Commission's rules, and the effect of such failure on The Dudley Station Corp's. comparative qualifications to be the licensee of a television station.

Adopted: March 27, 1972.

Released: March 29, 1972.

FEDERAL COMMUNICATIONS COMMISSION[11]

[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-5072 Filed 4-3-72;8:47 am]

[10] The word profiteer is defined in Websters New World Dictionary of the American Language, College Edition, as "a person who makes excessive profits by taking advantage of a shortage of supply to charge unreasonably high prices". Community explains its meaning in its reply by stating that Mr. Lee's activities with respect to Dudley are analogous to those of a C.P. holder, who, having sold the C.P., retains an interest in the CP disproportionate to his obligation to make future contributions and thus raises a trafficking issue.

[11] Board Member Berkemeyer dissenting in part and issuing a statement which is filed as part of the original document.

[Docket No. 19154; FCC 72-284]

FORMULATION OF POLICIES RELATING TO BROADCAST RENEWAL APPLICANT STEMMING FROM COMPARATIVE HEARING PROCESS

Order Regarding Oral Argument En Banc

1. On February 23, 1971, the Commission issued its Notice of Inquiry in this proceeding, and on August 20, 1971, following the issuance of the Court's decision in Citizens Communications Center v. FCC, —— U.S. App. D.C. – —, 447 F. 2d 1021 (1971), the Commission issued its Further Notice. The comments and reply comments have now been received. In light of the nature of the issues in this important and far-ranging inquiry, the Commission believes it desirable to afford interested persons an opportunity to make oral presentations.

2. Persons wishing to be heard should submit notices of appearance within 5 days of the release of this order. Parties with a common viewpoint are urged to select a single spokesman in order to avoid unnecessary duplication of arguments; arguments may be made by non-lawyers as well as lawyers representing clients. The Commission, by further order, will specify the order of appearance of the participating parties; it will also announce the amount of time allocated to each participant.

3. The issues have been pointed up in the notice, further notice, and the comments received. The proposals of the Commission are contained in the February 23 Notice. Persons addressing those proposals should be prepared to state specifically their differences, if any, and the alternative approach which they believe would better serve the public interest. Finally, further action in Docket 19153 will await the oral proceedings here, in Docket No. 19260 (the overall fairness inquiry), and in Docket 19142 (children's programing inquiry).

4. *Accordingly, it is ordered*, That oral argument will be held before the Commission en banc at its offices in Washington, D.C., beginning at 10 a.m. on May 4, 1972. Persons desiring to participate in the oral argument shall file a notice of appearance within 5 days of the date of release of this order.

Adopted: March 23, 1972.

Released: March 28, 1972.

[FCC 72-241]

STATION KUTV, SALT LAKE CITY, UTAH

Memorandum Opinion and Order Regarding "Prime Time" Waiver

In the matter of request by Station KUTV, Salt Lake City, Utah, for waiver of the "prime time access rule" (§ 73.658(k)) for Saturdays in March.

1. The Commission here considers a "Petition for Partial Reconsideration" filed on March 6, 1972, by KUTV, Inc., the licensee of Television Station KUTV, Salt Lake City, Utah (NBC affiliated), seeking reversal of that portion of our action of February 16, 1972 (FCC 72-166), which denied its request for waiver of the "prime time access rule" for Saturdays, March 11, 18, and 25, 1972, in connection with NBC movies which will run over 2 hours (generally 2½ hours). In this action, we granted its request for the three previous Saturdays in February and March, largely on the basis that KUTV serves as an NBC "feed" to some 11 other mountain zone stations in smaller markets and we did not wish to disrupt these arrangements on short notice; otherwise we held that grant of the waiver under the circumstances was not warranted, and denied the request for the remainder of March.

2. KUTV now seeks reversal of the latter part of the decision, and grant of waiver for the remaining three Saturdays in March. It advances a number of arguments in support of its position, including: (1) The unique problems of

[1] Commissioners Robert E. Lee and Johnson absent.

[1] See Report and Order released July 18, 1968, FCC 68-739, Interim Criteria to Govern Acceptance of Standard Broadcast Applications, 33 F.R. 10343, 13 RR 2d 1667.

mountain zone stations in the "top 50 markets" as long as their prime hours remain 7 to 11, since they must present, during the latter part of their prime time network, material which in the rest of the United States falls outside of prime time (such as the movie overruns involved here); (2) the small number of homes in the three "top 50" markets which are in the mountain zone, less than 3 percent of the total U.S. "top 50" homes, so that there will assertedly be no appreciable impact on fulfillment of the objectives of the prime time access rule; (3) the asserted difficulty and undesirability of any course of action which would comply with the rule, including canceling one NBC program ("The Bold Ones") early in the evening, or running it after the movie (to which the network and advertisers would likely not agree, since half of it would be outside of prime time), or running the movie later (so that the overrun would fall outside of prime time in Salt Lake City) which would mean canceling KUTV's regular late evening news, and, in any event, having to replace some attractive NBC programing, on rather short notice, with nonnetwork material from its supply, all of which has been shown repeatedly in prime time in the market previously.

3. Of perhaps more significance, statements supporting KUTV's petition were filed by four of the 11 mountain zone stations to which it feeds NBC programs (those in Billings and Great Falls, Mont., Idaho Falls, Idaho, and Casper, Wyo.). These stations urge that reduction of NBC programing resulting from strict application of the rule would mean loss of desirable and accustomed NBC programs to their viewers, and thus disruption of viewing habits. For some of these stations, KUTV is the only source of NBC material except film prints. It is asserted that the resulting loss of NBC programs would require finding expensive and inferior replacements, would affect a total audience (for these stations) substantially greater than KUTV's own audience in the Salt Lake City area and thus would in effect be applying the "prime time access rule" far outside of its intended area, and would therefore be difficult to explain to viewers.

CONCLUSIONS

4. On further consideration, we are of the view that this matter should be reconsidered and our earlier decision reversed insofar as it denied the last half of KUTV's request. We are herein granting the petition for reconsideration and the waivers. Essentially, our decision is based on another look at three circumstances prevailing, which, taken together, lead us to the conclusion that the public interest would be better served by grant of waiver than by reiterated denial. These are: (1) The fact that the "prime time access rule" is not yet in full effect anyhow, since stations may still (until October 1972) fill the cleared time with off-network material and feature films recently shown in the market, and thus the impact on availability of valuable time to new, independent program sources is less than even the relatively small impact which it might have in future seasons; (2) the fact that we intend to resolve these problems very shortly through rule making looking toward a change in the rules as to what is "prime time" in the mountain zone, so that, as KUTV says, these situations are but temporary; and (3) the position of KUTV in "feeding" NBC programs to other stations, in small markets, and the resulting disruption which would occur in the service to audiences lying well outside of the ambit of large-city stations which are the subject of the rule. In view of all these considerations, it appears that the disadvantages from denial of waiver are overshadowed by the benefits which would result.

5. However, we emphasize that this decision is based on all three circumstances mentioned. When one or more of them are absent or different in the future, denial of a similar request might well be required. For example, in connection with the "feed" function mentioned, as we have observed in other connections, it is appropriate only to a very limited extent to base regulation in the broadcast area on the function which stations sometimes serve in point-to-point communications, as sources of programs for other stations. When the rule is in full effect, and whatever change is necessary to resolve the particular mountain zone problems has been made, it does not appear that this consideration in itself would be grounds for further waiver.

6. In view of the foregoing: *It is ordered*, That:

(a) The "Petition for Partial Reconsideration" filed by KUTV, Inc. on March 6, 1972, is granted; and

(b) Waiver of § 73.658(k) is granted to Station KUTV, Salt Lake City, Utah, to present up to 3½ hours of NBC programs on the nights of March 11, March 18, and March 25, 1972, only.

Adopted: March 15, 1972.

Released: March 28, 1972.

FEDERAL MARITIME COMMISSION

CANADIAN GULF LINE OF FLORIDA, INC., ET AL.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. Wesley W. Kurtz, Assistant to the President, Port Everglades Terminal Co., Port Everglades Station, Port Lauderdale, FL 33316.

V 37 65 APR 4 72 XUM

Agreement No. T-2592, between Canadian Gulf Line of Florida, Inc.; Gulfstream Shipping Corp.; Harrington & Co., Inc.; Port Everglades Terminal Co.; Shaw Co. (a division of Luckenbach Steamship Co., Inc.); and Strachan Shipping Co., provides for the creation of an association to be known as Port Everglades Freight Handlers (PEFH) to govern the parties' operations at Port Everglades, Fla. The agreement provides for the parties to: (1) Agree upon and establish rates and charges for freight handling and all services, facilities, rates, and charges incidental thereto; (2) agree upon and establish tariffs, tariff amendments, and supplements; (3) make rules and regulations relating to freight handling and all services, facilities, rates, and charges incidental thereto; and (4) keep such records and statistics as may be required by the parties or deemed helpful to their interest. Port Everglades Freight Handlers will file with the Commission all tariffs, rates, charges, classifications, rules, regulations, and changes thereto adopted pursuant to the agreement. All changes in the PEFH tariff will become effective after 30 days' notice to the public, unless good cause exists for a change on shorter notice. Admission to PEFH is open to any company holding a valid Port Everglades freight handling license upon a majority vote of the members of the PEFH.

Dated: March 29, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

PORT OF HOUSTON AUTHORITY AND TERMINAL SERVICES HOUSTON, INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Robert Eikel, Esq., Eikel & Davey, 1442 Esperson Building, Houston, Tex. 77002.

Agreement No. T-2445-1, between the Port of Houston Authority (Port) and Terminal Services Houston, Inc. (TSH), amends the basic agreement which provides for the lease to TSH of a public container marshaling yard. Under the terms of the amendment, Port will lease to TSH a container crane for operation on a nondiscriminatory basis in accordance with established practices and priorities in the Port of Houston, subject to the direction and assignment of the Port. Rates to be charged the public for hire of the crane will be published in the Port's applicable tariff.

Dated: March 29, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

PORT OF OAKLAND AND SEATRAIN TERMINALS OF CALIFORNIA, INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La. and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. J. Kerwin Rooney, Port Attorney, Port of Oakland, 66 Jack London Square, Post Office Box 2064, Oakland, CA 94607.

Agreement No. T-2605, between the Port of Oakland (Port) and Seatrain Terminals of California, Inc. (Seatrain), provides for the nonexclusive preferential assignment to Seatrain of three parcels of land (aggregating 15.6507 acres) adjoining the facility leased to Seatrain by the Port under Agreement No. T-2480. The primary uses of the facility are the (1) docking, mooring, and berthing of Seatrain vessels; (2) docking, mooring, and berthing of any other vessels (including barges) when cargo moving over the facility to or from such vessels is either transferred to such vessels from Seatrain vessels or is transferred to Seatrain vessels from such other vessels; (3) receipt, handling, loading, unloading, storage, and delivery of cargo and containers; (4) operation and maintenance of container facilities and warehouses; and (5) uses incidental to any of the above functions. Secondary use of the premises is to cover all use in connection with vessels and cargo not included in the above definition of primary use, and is granted to the Port and its designees to the extent that it does not interfere with Seatrain's operations. Seatrain is also granted the right to permit the limited secondary use of the premises by its designees, provided that all dockage, wharfage, wharf demurrage, wharf storage, and crane rental charges (terminal charges) in accordance with the Port's Tariff will accrue to the Port. The agreement provides that all terminal charges received from secondary users will be apportioned equally between the Port and Seatrain, with Seatrain's portion to be deposited in the principal and interest fund established under FMC Agreement No. T-2480, such amount to be applied to reduce the annual base rental paid by Seatrain to the Port pursuant to the terms of Agreement No. T-2480. Initial monthly land rental is $10,028.37 and will increase to $12,953.17 upon addition of Parcel B to the assigned premises. In addition, improvement rentals shall commence upon the completion of improvements to the premises and shall be based upon the total cost for the improvements. Seatrain will also reimburse the Port for the cost of maintenance and maintenance dredging performed by the Port. The land rental for the facility is to be increased by a sum equal to 12½ percent of the land rentals during the preceding 5-year period at the end of the fifth, 10th, 20th, 25th years of the agreement's term. As improvements to the facility, the Port is to construct a 200-foot section of wharf with utilities and crane rails, dredge a 110-foot-wide berth adjacent to the wharf, and install fencing, paving, utilities, yard lighting, and striping.

FEDERAL RESERVE SYSTEM

AFFILIATED BANKSHARES OF COLORADO, INC.

Acquisition of Bank

Affiliated Bankshares of Colorado, Inc., Boulder, Colo., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of University National Bank of Fort Collins, Fort Collins, Colo. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than April 21, 1972.

Board of Governors of the Federal Reserve System, March 29, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-5049 Filed 4-3-72;8:45 am]

UB FINANCIAL CORP.

Order Approving Retention of H. S. Pickrell Co.

UB Financial Corp., Phoenix, Ariz., a bank holding company within the meaning of the Bank Holding Company Act of 1956, as amended, has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y to retain all of the voting shares of H. S. Pickrell Co., Phoenix, Ariz. Said shares were purchased by applicant in May 1970, and under the provisions of section 4(a)(2) of the Act may not be retained beyond December 31, 1980, without prior Board approval. Notice of the application affording opportunity for interested persons to submit comments and views was duly published. Time for filing comments and views has expired and none have been received.

Applicant owns the United Bank of Arizona (Bank), Phoenix, the sixth largest bank in Arizona. Bank's total deposits of $130.6 million represent 3.4 percent of all commercial bank deposits in the State.[1] Bank is engaged in the business of originating mortgage loans for its own account, consisting primarily of conventional residential mortgages and shorter term commercial mortgages. In 1970, Bank originated $231 thousand in conventional single-family residential loans, and $3.7 million in commercial real estate loans. Its mortgage servicing portfolio of $12.7 million represented the total volume of real estate loans serviced for its own account. Bank does not service loans for others.

H. S. Pickrell Co. is engaged in the business of originating and servicing mortgage loans through its head office in Phoenix and one branch located in Tucson, Ariz. In 1969, its last full year of operation as an independent mortgage company, it originated $10.5 million in residential mortgages (all FHA or VA loans). In 1970, this volume increased to $14.6 million. Its commercial loan originations have fluctuated between $8.1 million in 1968; $3.8 million in 1969; and $17 million in 1970. H. S. Pickrell Co.'s total mortgage originations in the Phoenix area in 1970 accounted for 3.2 percent of all mortgages recorded in the Phoenix market, while those of applicant accounted for less than 0.4 percent. Based upon a mortgage servicing portfolio of $125 million,[2] H. S. Pickrell Co. ranks as the 167th largest mortgage banking company in the country.

The Board concludes that applicant's proposed retention of H. S. Pickrell Co. would have no adverse effects on competition, as neither institution has more than a minor share of the mortgage banking business in any local market in Arizona, or in the State as a whole. Nor is there anything in the record to indicate that the proposed retention would lead to an undue concentration of resources, conflicts of interests, or unsound banking practices. To the contrary, it appears that the public would benefit from the strengthening of H. S. Pickrell Co. through the continuance of its enhanced ability to offer larger lines of credit to its customers, and to compete more effectively with the larger financial institutions in the State. These public benefits clearly outweigh any possible adverse effects on competition.

In addition to engaging in the activity of mortgage banking, applicant seeks permission to retain H. S. Pickrell Co. for the purpose of: (1) Engaging in the purchase and sale of land, and (2) acting as a joint venturer in real estate development. It appears that H. S. Pickrell is not currently engaged in any real estate joint ventures but in June 1971, it purchased 19 acres of land, which it subsequently subdivided and improved and has contracted to sell to an independent builder. Such land development activity was not then and is not now permissible for bank holding companies. The Board is of the opinion that the activities of purchasing and selling of land or participating as a joint venturer in real estate development are not so closely related to banking as to be a proper incident thereto, and that insofar as the application pertains to these activities, it should be denied.

Based upon the foregoing and other considerations reflected in the record, the application is approved provided that H. S. Pickrell Co. shall not engage in the activities of purchasing and selling land or participating in real estate joint ventures. This approval is subject further to the Board's authority is to require reports by and make examinations of, holding companies and their subsidiaries and to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[3] March 28, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

COLUMBIA GAS SYSTEM, INC.

Notice of Proposed Intrasystem Financing

MARCH 27, 1972.

Notice is hereby given that the Columbia Gas System, Inc., 20 Montchanin Road, Wilmington, DE 19807 (Columbia), a registered holding company, and its above-named wholly owned subsidiary companies (hereinafter referred to as "Columbia of W. Va.", "Columbia of Ky.", "Columbia of Va.", "Columbia of Ohio", "Ohio Valley", "Preston", "Columbia of Pa.", "Columbia Transmission", "Columbia of N.Y.", "Columbia of Md.", "Hydrocarbon", "Columbia LNG", "Coal Gasification", "Columbia Gulf", "Columbia Development", and "Development Canada") have filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 6(b), 7, 9(a), 10, 12(b), and 12(f) of the Act and Rules 43 and 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration which is summarized below, for a complete statement of the proposed transactions.

The subsidiary companies propose to issue and sell, and Columbia proposes to acquire, prior to April 1, 1973 (a) unsecured installment notes not in excess of the respective amounts set forth below and (b) common stock, at the par value, in the respective amounts set forth below. Columbia also proposes to advance on open account to certain of the subsidiary companies, from time to time during 1972, up to the respective amounts set forth below:

	Advances	Common stock	Installment notes
Columbia of W. Va.	$3,100,000	$10,000,000	$2,400,000
Columbia of Ky.	2,400,000	----------	1,225,000
Columbia of Va.	600,000	----------	475,000
Columbia LNG	----------	19,300,000	23,600,000
Development Canada	----------	24,100,000	----------
Hydrocarbon	----------	----------	350,000
Columbia Transmission	53,700,000	20,500,000	19,500,000
Columbia of Ohio	19,000,000	----------	7,650,000
Ohio Valley	1,000,000	493,200	----------
Preston	----------	1,000,000	----------
Columbia of Pa.	4,400,000	----------	5,800,000
Columbia of N.Y.	500,000	----------	1,700,000
Columbia of Md.	300,000	----------	100,000
Columbia Gulf	----------	----------	6,000,000
Columbia Development	----------	29,000,000	21,500,000
Coal Gasification	----------	6,500,000	----------
Total	85,000,000	110,893,200	90,300,000

The subsidiary companies will use the proceeds from the issue and sale of their notes and common stock to finance a part of their respective construction programs, which, in the aggregate, are estimated for 1972 to require expenditures of $260,083,200. The proceeds of the open account advances will be used by the subsidiary companies to finance the purchase of Winter Service gas, current inventories and other short-term seasonal purposes.

The installment notes will be acquired no later than March 31, 1973, will be dated when issued, will, except in the case of Columbia LNG, be payable in twenty-five (25) equal annual installments on May 31, of each of the years 1974–98, inclusive, and may be prepaid at any time, in whole or in part, without premium. The Installment Notes issued by Columbia LNG for financing the Green Springs, Ohio, reformed gas facility, in the amount of $16 million will be due in ten (10) equal annual installments on April 1st of each of the years 1975 to 1984, inclusive. Columbia LNG Installment Notes for the Cove Point, Md., storage and regasification facility, in the amount of $7,600,000, will be due in twenty (20) equal annual installments on October 1st of each of the years 1977 to 1996, inclusive. Interest on all of the notes will accrue from the date of issue and is to be paid semiannually on the unpaid principal balance. The interest rate will be the actual cost of money to Columbia with respect to its last sale of debentures prior to the issuance of said notes, decreased by an amount necessary in order that the interest rate be a multiple of one-tenth of 1 percent.

The proposed open account advances will be made by Columbia from time to time during 1972 and will be paid by the subsidiary companies in three equal installments on February 23, March 23, and April 25, 1973. The open account advances will initially bear interest at the prime commercial bank rate in effect from time to time at Morgan Guaranty Trust Company of New York. The interest charges will be adjusted, after the storage financing period, to the effective interest cost Columbia achieves on its short-term borrowing for this purpose.

The expenses to be paid by Columbia and by the subsidiary companies in connection with the proposed transactions are estimated at $8,520, including legal fees of $600.

The application-declaration states that the following State commissions have jurisdiction over certain of the proposed transactions: The Pennsylvania Public Utility Commission, the Public Service Commission of West Virginia, the Public Utilities Commission of Ohio, the State Corporation Commission of Virginia, the Kentucky Public Service Commission, and the New York Public Service Commission. It is also stated that the orders of said commissions will be filed with this Commission by amendment. No other State commission and no Federal commission, other than this Commission, is stated to have jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 20, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

[3] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Brimmer, and Sheehan. Absent and not voting: Governors Daane and Maisel.

V 37-65 APR 4 72 XUM

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

POTOMAC EDISON CO., ET AL.

Notice of Proposed Increase in Authorized Capital Stock and Issue and Sale of Common Stock by Subsidiary Companies, and Acquisition and Pledge Thereof by Holding Company

MARCH 29, 1972.

Notice is hereby given that the Potomac Edison Co., Downsville Pike, Hagerstown, Md. 21740 (Potomac Edison), an electric utility company and a registered holding company, and its subsidiary companies, the Potomac Edison, Company of Pennsylvania (PE-Pa.), the Potomac Edison Company of Virginia (PE-Va.), and the Potomac Edison Company of West Virginia (PE-W. Va.), have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6, 7, 9, 10, and 12 of the Act and Rules 43 and 44 promulgated thereunder as applicable to the proposed transactions. Potomac Edison is a subsidiary company of Allegheny Power System, Inc., also a registered holding company. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

PE-Pa. proposes to amend its charter to increase the authorized shares of its capital stock by the number shown below; PE-Pa., PE-Va., and PE-W. Va. (Subsidiary Companies) propose to issue and sell additional shares of their authorized and unissued capital stocks; and Potomac Edison proposes to acquire such shares, in each case in the amounts and for the consideration shown below:

Subsidiary company and title of issue	Proposed increase in authorized shares	Proposed issuance of shares	Cash consideration
PE-Pa.: Capital stock, no par, stated value $5 per share	160,000	240,000	$1,200,000
PE-Va.: Common stock, par value $100 per share	17,000	1,700,000	
PE-W. Va.: Common stock, par value $100 per share	7,000	700,000	

The application-declaration states that funds derived from the proposed issuance and sale of capital stock will be used by each of the Subsidiary Companies to finance necesary property additions and improvements. Construction expenditures for 1972 are estimated to be $2,041,000 for PE-Pa., $3,140,000 for PE-Va., and $2,362,000 for PE-W. Va.

Potomac Edison now owns all the outstanding shares of capital stock of each of the Subsidiary Companies, and such shares are pledged under the Indenture of Potomac Edison dated as of October 1, 1944, as supplemented, securing its First Mortgage and Collateral Trust Bonds. The filing states that the additional shares proposed to be acquired by Potomac Edison will be issued by the Subsidiary Companies from time to time as necessary prior to December 31, 1972, and on issuance will be pledged by Potomac Edison under said indenture in accordance with the requirements thereof.

The application-declaration states that the Pennsylvania Public Utility Commission has jurisdiction over the issuance of the stock of PE-Pa.; the State Corporation Commission of Virginia has jurisdiction over the issuance and acquisition of the stock of PE-Va.; and the Public Service Commission of West Virginia has or asserts jurisdiction over the acquisition of the stocks of the Subsidiary Companies. Appropriate orders of these Commissions are to be filed by amendment. The fees and expenses to be incurred in connection with the proposed transactions are estimated to be $4,300, including legal fees of $300.

Notice is further given that any interested person may, not later than April 20, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

TOPPER CORP.

Order Suspending Trading

MARCH 29, 1972.

The common stock, $1 par value, of Topper Corp. being traded on the American Stock Exchange, pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of Topper Corp. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to sections 19 (a) (4) and 15(c) (5) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period March 30, 1972 through April 8, 1972.

By the Commission.

TARIFF COMMISSION

[337-L-49]

ELECTRONIC PIANOS

Notice of Complaint Received

The U.S. Tariff Commission hereby gives notice of the receipt on March 6, 1972, of a complaint under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), filed by the Wurlitzer Co. of Chicago, Ill., alleging unfair methods of competition and unfair acts in the importation and sale of electronic pianos embraced within the claims of U.S. Patents Nos. 3,038,363; 2,942,512; 2,949,053; 3,154,997, owned by the complainant. Electrokey, Inc., Rhythm Band, Inc., and Tommy Moore of 1212 East Lancaster, Fort Worth, Tex., and the Chicago Musical Instrument Co. of 7373 West Cicero, Lincolnwood, Ill., have been named as importers of the subject products.

In accordance with the provisions of § 203.3 of its rules of practice and procedure (19 CFR 203.3), the Commission has initiated a preliminary inquiry into the allegations of the complaint for the purpose of determining whether there is good and sufficient reason for a full investigation.

A copy of the complaint is available for public inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, DC 20436, and at the New York Office of the Tariff Commission located in room 437 of the Customhouse.

Information submitted by interested persons which is pertinent to the aforementioned preliminary inquiry will be considered by the Commission if it is received not later than May 1, 1972. Such information should be sent to the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, DC 20436. A signed original and nineteen (19) true copies of each document must be filed.

Issued: March 30, 1972.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[TEA-W-137]

KAYSER-ROTH CORP.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers of the Kayser-Roth Corp., Burlington,

V 37-65 APR 4 72 XUM

N.C., the U.S. Tariff Commission, on March 29, 1972, instituted an investigation under section 301(c)(2) of the act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with panty hose (of the types provided for in item No. 382.78 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such company, or an appropriate subdivision thereof.

The petitioners have not requested a public hearing. A hearing will be held on request of any other party showing a proper interest in the subject matter of the investigation, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, DC, and at the New York City office of the Tariff Commission located in room 437 of the Customhouse.

Issued: March 30, 1972.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

Kellwood Co., Grenada, Miss.; 12-28-71 to 6-27-72; 50 learners (boys' jeans).

Kellwood Co., Frederick, Okla.; 1-3-72 to 7-2-72; 50 learners (boys' jeans).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.60 to 522.65, as amended).

Indianapolis Glove Co., Inc., Mount Ida, Ark.; 1-22-72 to 1-21-73; 10 percent of the total number of machine stitchers for normal labor turnover purposes (work gloves).

Monte Glove Co., Pheba, Miss.; 1-14-72 to 1-13-73; 10 learners for normal labor turnover purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.40 to 522.43, as amended).

Danville Knitting Mills, Danville, Va.; 1-4-72 to 1-3-73; 5 percent of the total number of factory production workers for normal labor turnover purposes (boys' seamless hosiery).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.30 to 522.35, as amended).

Sylvester Textile Corp., Sylvester, Ga.; 1-20-72 to 1-19-73; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies' lingerie, sleepwear, and loungewear).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR Part 528.

Signed at Washington, D.C., this 24th day of March 1972.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

ASSIGNMENT OF HEARINGS

MARCH 30, 1972.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 55429, Air-Freight Trucking Service, Inc., and MC 66101 Sub 1, Aft Services, Inc., now being assigned hearing June 8, 1972, at New York, N.Y., in a hearing room to be later designated.

MC 107515 Sub 764, Refrigerated Transport Co., Inc., now being assigned hearing June 6, 1972, at New York, N.Y., in a hearing room to be later designated.

MC 117940 Sub 59, Nationwide Carriers, Inc., now being assigned hearing June 5, 1972, at New York, N.Y., in a hearing room to be later designated.

FD 26950, Baltimore & Ohio Railroad Co., abandonment portion of its Midvale Branch, between Monroe and Midvale, in Randolph and Barbour Counties, W. Va., now being assigned hearing June 12, 1972, at Elkins, W. Va., in a hearing room to be later designated.

I & S No. 8707, Refrigeration Provisions, Florida East Coast Railway now being assigned hearing May 16, 1972, at the Offices of the Interstate Commerce Commission, Washington, D.C.

FD 26904, Seaboard Coast Line Railroad Co., abandonment between Garland and Hanover, in Sampson, Pender, and New Hanover Counties, N.C., now being assigned hearing June 12, 1972, at Wilmington, N.C., in a hearing room to be later designated.

MC 123613 Sub 9, Claremont Motor Lines, Inc., now being assigned hearing June 14, 1972, at Charlotte, N.C., in a hearing room to be later designated.

MC 44053 Sub 6, Towne Services Household Goods Transportation Co., Inc., now being assigned hearing June 12, 1972, at Dallas, Tex., in a hearing room to be later designated.

NO. 35085, Edward S. Watts et al., V-Missouri-Kansas-Texas Railroad Co., now being assigned hearing June 19, 1972, at Dallas, Tex., in a hearing room to be later designated.

FD 13273 Sub 2, in the matter of the application of E. Spencer Miller under section 20a(12) of the Interstate Commerce Act, now being assigned hearing June 19, 1972, at Portland, Maine, in a hearing room to be later designated.

FD 26564, Penn Central Transportation Co. (George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirts, Trustees) abandonment southbridge branch between West Dudley and Southbridge, Worcester County, Mass., now being assigned hearing June 12, 1972, at Southbridge, Mass., in a hearing room to be later designated.

MC-F-11292, Trans-World Movers, Inc.—Purchase (Portion)—R. M. Ormes Transportation, Inc., now being assigned hearing June 16, 1972, at Boston, Mass., in a hearing room to be later designated.

MC-C-7377, J. J. Sullivan The Mover, Inc.—Revocation of Certificate now being assigned hearing June 14, 1972, at Boston, Mass., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 46]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MARCH 29, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MOTOR CARRIERS OF PROPERTY

No. MC 20793 (Sub-No. 45 TA), filed March 15, 1972. Applicant: WAGNER TRUCKING COMPANY, INC., Monmouth Road, Jobstown, NJ 08014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building block*, from Trenton, N.J., to Boston, Mass., and points within the commercial zone of Boston, for 150 days. Supporting shipper: Glazed Products, Inc., Post Office Box 2731, Trenton, NJ 08607. Send protests to: Richard M. Regan, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 428 East State Street, Room 204, Trenton, NJ 08608.

No. MC 74195 (Sub-No. 4 TA), filed March 16, 1972. Applicant: YOUNG AND HAY TRANSPORTING COMPANY, Route No. 3, Post Office Box No. 58, Worthington, MN 56187. Applicant's representative: Charles J. Kimball, 605 South 14th Street, Post Office Box 82028, Lincoln, NB 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas, coconut and pineapple*, (1) from Council Bluffs, Iowa to points in Nebraska, North Dakota, South Dakota, Minnesota, and Iowa; (2) from Inver Grove, Minn., to points in Minnesota, Wisconsin, North Dakota, and South Dakota; and (3) from Denver, Colo., to points in Colorado, Nebraska, South Dakota, and Wisconsin. Restriction: Restricted to traffic moving in chassis-mounted containers having a prior or subsequent movement by rail, for 180 days. Supporting shipper: Chiquita Brands, Inc., 1250 Broadway, New York, NY 10001. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building, and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 106674 (Sub-No. 88 TA), filed March 15, 1972. Applicant: SCHILLI MOTOR LINES, INC., Post Office Box 122, Delphi, IN 46923. Applicant's representative: Thomas R. Schilli (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, from (1) Huntington, Ind., to points in Michigan and Ohio; and (2) from Crawfordsville, Ind., to points in Illinois, Michigan, and Ohio, for 180 days. Supporting shipper: Occidental Chemical Co., 4671 Southwest Freeway, Post Office Box 1185, Houston, TX 77001. Send protests to: District Supervisor J. H. Gray, Bureau of Operations, Interstate Commerce Commission, Room 204, 345 West Wayne Street, Fort Wayne, IN 46802.

No. MC 126118 (Sub-No. 14 TA), filed March 16, 1972. Applicant: GEORGE M. HILL, doing business as HILL TRUCKING COMPANY, Route No. 7, Johnson City, Tenn. 37601. Applicant's representative: R. Cameron Rollins, 321 East Center Street, Kingsport, TN 37660. Authority sought to operate as a *common*

V 37-65 APR 4 72 XUM

carrier, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from Detroit, Mich., to Johnson City and Cookeville, Tenn., for 180 days. NOTE: Applicant does not intend to tack authority here applied for to other authority held by it as indicated on the application. Supporting shippers: Boggs Distributing Co., 400 Steel Street, Johnson City, Tenn.; Whitson Distributing Co., Cookeville, Tenn. Send protests to: Joe J. Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 803 1808 West End Building, Nashville, Tenn. 37203.

No. MC 126196 (Sub-No. 7 TA), filed March 15, 1972. Applicant: LUVERNE S. CHRISTENSEN, doing business as CHRISTENSEN TRUCK LINE, 230 East Second, Box 325, Redwood Falls, MN 56283. Applicant's representative: Gene P. Johnson, 514 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer compounds*, dry, in bulk, from Minneapolis, St. Paul, Maplewood, Red Rock, Savage, and Pine Bend, Minn., to points in Iowa and Wisconsin, for 180 days. Supporting Shipper: Midland Cooperatives, Inc., Interstate 694 at Main Street NE., Minneapolis, Minn. 55421. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 448 Federal Building, and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 128355 (Sub-No. 10 TA), filed March 20, 1972. Applicant: HURLIMAN TRUCKING COMPANY, Post Office Box 17204, Portland, OR 97127. Applicant's representative: John R. Hamlett, 2200 Erie County Savings Bank Building, Buffalo, N.Y. 14202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts*, as described in section A and B of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 76 (except commodities in bulk in tank vehicles), from Denison, Des Moines, Fort Dodge, Glenwood, Iowa Falls, Sioux City, Sioux Center, Waterloo, and Spencer, Iowa; Omaha and West Point, Nebr., under a contract wih W. M. Tynan & Co., New York, N.Y., for 180 days. Supporting shipper: W. M. Tynan & Co., 76 Ninth Avenue, New York, NY 10011. Send protests to: District Supervisor W. J. Huetig, Interstate Commerce Commission, Bureau of Operations, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 128575 (Sub-No. 7 TA), filed March 15, 1972. Applicant: GOLDEN WEST TRUCKING CO., 12780 Southwest Prince Albert Street, Tigard, OR 97223. Applicant's representative: M. C. Risser, 1410 Southwest Morrison, Portland, OR 97205. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Laminated wood beams, trusses and arches, plywood, groundwood sheets, lumber, timbers, fabricated or not fabricated, and necessary connecting hardware items*, (1) from points in Lane County, Oreg., to points in Washington; and (2) from Snohomish, Lewis, Cowlitz, Skamania, and Clark Counties, Wash., to points in Oregon, for 180 days. Supporting shipper: Al Disdero Lumber Co., 2855 Southeast 15th Avenue, Post Office Box 42247, Portland, Oreg. Send protests to: A. E. Odoms, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 450 Multnomah Building, Portland, Oreg.

No. MC 134665 (Sub-No. 4 TA), filed March 20, 1972. Applicant: DWAYNE C. ATKINS, doing business as ATKINS TRUCKING, Post Office Box 4, Tea, SD 57064. Applicant's representative: Charles J. Kimball, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed ingredients*, from points in Cass County, Nebr., Hennepin and Goodhue Counties, Minn., and Woodbury, Webster, Floyd, Hardin, and Linn Counties, Iowa; to the plantsite and storage facilities of Zip Feed Mills, Inc., at or near Huron, S. Dak., for 180 days. Supporting shipper: Zip Feed Mills, Inc., 304 East Eighth, Sioux Falls, SD 57102, Vernon Nordsy, vice president. Send protests to: J. L. Hammond, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 369, Federal Building, Pierre, S. Dak. 57501.

No. MC 136008 (Sub-No. 2 TA), filed March 15, 1972. Applicant: JOE BROWN COMPANY, INC., 20 Third Street, NE., Ardmore, OK 73401. Applicant's representative: Dale Brown (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed gypsum rock*, in bulk, from the Harrison Gypsum Co., plantsite near Cement, Okla., to Fort Worth and Dallas, Tex., and points within a 5-mile radius thereof, for 180 days. Supporting shipper: M. T. Power, General Traffic Manager, Portland Cement Co., 4400 Republic National Bank Tower, Post Office Box 324, Dallas, Tex. 75221. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 240, Old Post Office Building, 215 Northwest Third, Oklahoma City, OK 73102.

No. MC 136464 (Sub-No. 1 TA), filed March 20, 1972. Applicant: CAROLINA WESTERN EXPRESS, INC., 650 Eastwood Drive, Gastonia, NC 28052. Applicant's representative: Philip R. Hedrick, Eighth Floor, City National Bank Building, Charlotte, NC 28202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Slide fasteners* (zippers) finished and/or semifinished; *slide fastener parts; miscellaneous materials, supplies or equipment* necessary for the manufacture, sale and distribution of slide fasteners; *sewing thread* on spools, cotton and/or nylon; and *binding, braid, lace, ribbon, tape, webbing* in packaged units of less than 24 continuous yards, under a continuing contract with Talon Division of Textron, for 180 days. Supporting shipper: Talon, Division of Textron, Meadville, Pa. 16335. Send protests to: Frank H. Wait, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, 316 East Morehead, Suite 417 (BSR Building), Charlotte, NC 28202.

No. MC 136511 TA, filed March 20, 1972. Applicant: VIRGINIA APPALACHIAN LUMBER CORPORATION, Post Office Box 48, Big Island, VA 24526. Applicant's representative: Frank B. Hand, Jr., The Union Trust Building, 740 15th Street NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, crated, as described in Appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from Stanleytown, Va., and West End, N.C., to points in Arizona and California, for 180 days. Supporting shipper: Stanley Furniture Co., Stanleytown, Va. 24168. Send protests to: Clatin M. Harmon, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 215 Campbell Avenue SW., Roanoke, VA 24011.

By the Commission.

ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

[1 CFR Ch. I]

REGULATIONS AFFECTING FEDERAL REGISTER, AND SPECIAL EDITIONS THEREOF

Notice of Proposed Rule Making

The Administrative Committee of the Federal Register is considering a complete revision of its regulations. The proposed revision contains several significant substantive changes as well as a complete restatement and reorganization of the present regulations.

The organization of the regulations in the proposed revision would be such that those regulations of most interest to the general public would be stated first, followed by the regulations primarily directed to Federal agencies. In the revision an effort has been made to state each regulation in clear simple terms. A number of provisions have been dropped as unnecessary or surplus. To assist reviewers, each section in the proposed revision is followed by a bracketed indication of the source for the requirements of that section. Thus for example proposed § 2.0 is based on present § 1.0. In addition, a complete distribution table is set forth at the end of the document to facilitate finding the revision of any present requirement.

The most significant proposed substantive changes are:

(1) Sections 5.6 and 17.2(b) would change the publication dates of the Saturday FEDERAL REGISTER to Monday and of issues which under present procedures would carry a holiday dateline to the day after the holiday. Thus, a FEDERAL REGISTER would be published on each official Federal work day. This would not affect the present work procedures of the Office of the Federal Register or of the Government Printing Office. However, it would eliminate the confusion that frequently arises because of the existence of a Saturday and holiday FEDERAL REGISTER and the absence of a Monday FEDERAL REGISTER and a FEDERAL REGISTER for a work day following a holiday. More importantly, it will make time periods as measured from publication dates more meaningful, particularly for documents published in a Monday issue. In the past the FEDERAL REGISTER usually received on Monday carried a Saturday date and thus 2 days were already lost for any time period measured from the publication date. It is rare today for interested persons to obtain the FEDERAL REGISTER on Saturday whereas when the present schedule was established most Government and business offices were open at least part time on Saturday.

(2) Section 7.5 would liberalize the policy for having a document published as a separate Part of the FEDERAL REGISTER where a substantial number of copies of the document are required. This practice has proved so popular as a time and money-saver that requests for "Part II's" have steadily increased. It appears that a separate Part can frequently be justified even if the document is less than the 16 FEDERAL REGISTER pages that has been the minimum specified in the Committee's regulations. Proposed § 7.5 eliminates any such minimum and also the references to "Part II" since at times it has been necessary to have "Part III's" to satisfy the number of requests for separate Parts.

(3) Section 8.3(b) would change the cutoff date for the annual CFR so that all documents filed with the Office of the Federal Register on or before December 31 would be reflected in the CFR revised as of the following January first. At present the requirement for publication in the FEDERAL REGISTER before January first causes an annual work increase at the Office of the Federal Register and at the Government Printing Office that becomes increasingly burdensome each year. The Administrative Committee has also considered changing the annual CFR update to a staggered system. Each CFR volume would be updated at least once a year as at present but all volumes would not be updated as of January first. This would significantly shorten the time lag between the annual cutoff date for a volume and the publication of the revised volume. If the Committee decides to convert to such a staggered publication then the cutoff date provisions of § 8.3 would be revised accordingly.

(4) Section 16.1(b) would require that before designating a liaison officer an agency must submit the name of the person it intends to designate, and a short statement of that person's qualifications to the Director of the Federal Register. This will enable the Director to review a proposed appointment and to consult with the appointing agency, if necessary, to insure that each liaison officer is in the best position to serve the interests of his agency, the Office of the Federal Register, and the public they both serve.

(5) Section 18.12 would require that each notice of proposed rule making document submitted for filing and publication "contain a clear preamble statement that discusses the substance of the proposed rules and the major issues involved"; and that each final rule document "contain a concise general preamble statement that discusses the basis and purpose thereof." As was indicated in the preamble to the amendment to 1 CFR Ch. I prescribing the "highlights" requirement (36 F.R. 5203) the Administrative Committee believes that in adopting the original Administrative Procedure Act in 1946 it was the intent of the Congress that rule making documents contain such statements. The Committee urged each Federal agency submitting documents for publication in the FEDERAL REGISTER to review its rule making program to insure that each document is written in the clearest possible manner, and that each document include an adequate preamble explanation of the significance of the action taken or being proposed. While some improvement has been noted since then, the Committee now believes that further efforts in this direction are warranted. Under the proposed revision, the Director of the Federal Register would be authorized to return to the issuing agencies each document submitted for publication that does not meet the stated requirements.

(6) Section 18.13 would make clear the status of a document revoked by the issuing agency after it has been submitted to the Office of the Federal Register and filed for public inspection but before it is published. Once a document is filed for public inspection it remains on file with the Office of the Federal Register even if revoked by a subsequent document. However, when the rescinding document is received in time neither would be published.

(7) During the time that the "highlights" listing has appeared in the FEDERAL REGISTER a number of agencies have questioned the usefulness of listing relevant dates in the highlights listing. It is argued that any person interested in the subject matter of the highlight entry would consult the actual document. Many documents contain several relevant dates and if any dates are included in a highlight entry it is misleading not to include all. The Administrative Committee believes that inclusion of relevant dates in highlights entries has some merit. However, the Committee recognizes the validity of the above-referenced comments and is interested in the opinions of FEDERAL REGISTER users as to whether relevant dates should continue to be included in the highlights listings.

(8) Since present Part 7 is a codification of sections 1–6 of Executive Order 11030 and Executive Order 11354, proposed Part 19 is merely a republication without change of present Part 7.

(9) Proposed Part 20 spells out more clearly the requirements for preparation and transmittal of material submitted for publication in the U.S. Government Organization Manual. A new section (20.5) would make the "sources of information" listings which were introduced in the 1971/72 edition of the Manual a permanent feature and would require each agency to furnish the necessary information for these listings.

(10) Since present Part 20—Incorporation by Reference—is a regulation of the Director of the Federal Register rather than of the Administrative Committee its revision is not proposed to be included in Chapter I. Rather, it is proposed that a new Chapter II—Office of the Federal Register—be established and that the regulations governing incorporation by reference be included in a proposed Part 51. Several proposed substantive changes in the existing incorporation by reference regulations are described in a separate document published in this issue of the FEDERAL REGISTER at page 6817.

Interested persons are requested to comment on the proposed new regulations of the Administrative Committee by submitting their comments to the Secretary, Administrative Committee, Office of the Federal Register, NARS, Washington, D.C. 20408. All comments received by June 5, 1972, will be considered.

By order of the Administrative Committee of the Federal Register.

FRED J. EMERY,
Secretary.

Title 1—GENERAL PROVISIONS

Chapter I—Administrative Committee of the Federal Register

SUBCHAPTER A—GENERAL

PART 1—DEFINITIONS

§ 1.1 Definitions.

As used in this chapter, unless the context requires otherwise—

"Administrative Committee" means the Administrative Committee of the Federal Register established under section 1506 of title 44, United States Code;

"Agency" means each authority, whether or not within or subject to review by another agency, of the United States, other than the Congress, the courts, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States;

"Document" includes any Presidential proclamation or Executive order, and any rule, regulation, order, certificate, code of fair competition, license, notice, or similar instrument issued, prescribed, or promulgated by an agency;

"Document having general applicability and legal effect" means any document issued under proper authority prescribing a penalty or course of conduct, conferring a right, privilege, authority, or immunity, or imposing an obligation, and relevant or applicable to the general public, members of a class, or persons in a locality, as distinguished from named individuals or organizations; and

"Regulation" and "rule" have the same meaning.

(44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189)

[Based on Part 40–40.2, 40.4, 40.6, 40.7, 40.10, 40.11, 40.12, 40.13, 40.14, 40.15, and 40.16 are omitted as unnecessary or executed in text]

PART 2—GENERAL INFORMATION

Sec.
2.1 Scope and purpose.
2.2 Administrative Committee of the Federal Register.
2.3 Office of the Federal Register; location; office hours.
2.4 General authority of Director.
2.5 Publication of statutes, regulations, and related documents.
2.6 Unrestricted use.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 2.1 Scope and purpose.

(a) This chapter sets forth the policies, procedures, and delegations under which the Administrative Committee of the Federal Register carries out its general responsibilities under Chapter 15 of Title 44, United States Code.

(b) A primary purpose of this chapter is to inform the public of the nature and uses of Federal Register publications.

[Based on 1.0]

§ 2.2 Administrative Committee of the Federal Register.

(a) The Administrative Committee of the Federal Register is established by section 1506 of Title 44, United States Code.

(b) The Committee consists of—

(1) The Archivist, or Acting Archivist, of the United States, who is the Chairman;

(2) An officer of the Department of Justice designated by the Attorney General; and

(3) The Public Printer or Acting Public Printer.

(c) The Director of the Federal Register is the Secretary of the Committee.

(d) Any material required by law to be filed with the Committee, and any correspondence, inquiries, or other material intended for the Committee or which relate to Federal Register publications shall be sent to the Director of the Office of the Federal Register.

[Based on 1.1 and 2.1]

§ 2.3 Office of the Federal Register; location; office hours.

(a) The Office of the Federal Register is a component of the National Archives and Records Service of the General Services Administration.

(b) The Office is located at 633 Indiana Avenue NW., Washington, D.C.

(c) The mailing address is: Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

(d) Office hours are 8:45 a.m. to 5:15 p.m., Monday through Friday, except for official Federal holidays.

[Based on 1.2]

§ 2.4 General authority of Director.

The Director of the Federal Register is delegated authority to administer generally this chapter, the related provisions of Chapter 15 of Title 44, United States Code, and the pertinent provisions of statutes and regulations contemplated by section 1505 of Title 44, United States Code.

[Based on 1.3]

§ 2.5 Publication of statutes, regulations, and related documents.

(a) The Director of the Federal Register is responsible for the central filing of the original acts enacted by Congress and the original documents containing the Executive orders, proclamations, other Presidential documents, regulations, and notices of proposed rule making and other notices, submitted to the Director by officials of the Executive branch of the Federal Government.

(b) Based on the acts and documents filed under paragraph (a) of this section, the Office of the Federal Register publishes the "slip laws," the "United States Statutes at Large," the daily FEDERAL REGISTER, and the "Code of Federal Regulations."

(c) Based on source materials that are officially related to the acts and documents filed under paragraph (a) of this section, the Office also publishes the "United States Government Organization Manual," the "Public Papers of the Presidents of the United States," and the "Weekly Compilation of Presidential Documents."

[Based on 1.4]

§ 2.6 Unrestricted use.

Any person may reproduce or republish, without restriction, any material appearing in any regular or special edition of the FEDERAL REGISTER.

[Based on 10.5 and 30.3]

PART 3—SERVICES TO THE PUBLIC

Sec.
3.1 Information services.
3.2 Public inspection of documents.
3.3 Reproductions and certified copies of acts and documents.
3.4 Availability of Federal Register publications.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 3.1 Information services.

Except in cases where the time required would be excessive, information concerning the publications described in § 2.5 of this chapter and the original acts and documents filed with the Office of the Federal Register is provided by the staff of that Office. However, the staff may not summarize or interpret substantive text of any act or document.

[Based on 2.2]

§ 3.2 Public inspection of documents.

(a) Current documents filed with the Office of the Federal Register pursuant to law are available for public inspection in Room 405, 633 Indiana Avenue NW., Washington, D.C., during the Office of the Federal Register office hours. There are no formal inspection procedures or requirements.

(b) The Director of the Federal Register shall cause each document received by the office to be filed for public inspection not later than the working day preceding the publication day for that document.

(c) The Director shall cause to be placed on the original and certified copies of each document a notation of the day and hour when it was filed and made available for public inspection.

(d) Manual, typewritten, or other copies of excerpts may be made at the inspection desk.

[Based on 2.3 and 12.3]

V 37 • 65 APR 4 72 XUM

§ 3.3 Reproductions and certified copies of acts and documents.

The regulations for the public use of records in the National Archives (41 CFR Part 105–61) govern the furnishing of reproductions of acts and documents and certificates of authentication for them. Section 105–61.108 of those regulations provides for the advance payment of appropriate fees for reproduction services and for certifying reproductions.

[Based on 2.4]

§ 3.4 Availability of Federal Register publications.

(a) The publications described in § 2.5 of this chapter are published by the Government Printing Office and are sold by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. They are not available for free distribution to the public.

(b) Federal Register publications are available through subscription, as follows:

(1) *Slip laws.* See section 709 of Title 44, United States Code.

(2) *U.S. Statutes at Large.* See section 728 of Title 44, United States Code.

(3) *Federal Register.* Daily issues are furnished to subscribers on a monthly or yearly basis, at a price determined by the Administrative Committee and paid in advance to the Superintendent of Documents. Limited quantities of current or recent copies may be obtained from the Superintendent of Documents at a price determined by him.

(4) *Code of Federal Regulations.* Subscription services on a yearly basis to the volumes comprising the Code, and individual copies thereof, are sold by the Superintendent of Documents at prices determined by him, under the general direction of the Administrative Committee.

(5) *U.S. Government Organization Manual.* Placed on sale by the Superintendent of Documents at a price determined by him, under the general direction of the Administrative Committee.

(6) *Public Papers of the Presidents of the United States.* Annual volumes are placed on sale by the Superintendent of Documents at a price determined by him, under the general direction of the Administrative Committee.

(7) *Weekly Compilation of Presidential Documents.* Placed on sale by the Superintendent of Documents at a price determined by him, under the general direction of the Administrative Committee.

[Based on 1.5, 2.5, 15.10, 15.11, 30.16, 30.17, 31.28, 32.22, and 32.50]

SUBCHAPTER B—THE FEDERAL REGISTER

PART 5—GENERAL

Sec.
5.1 Publication policy.
5.2 Documents required to be filed and published.
5.3 Publication of other documents.
5.4 Publication not authorized.
5.5 Supplement to the Code of Federal Regulations.
5.6 Daily publication.
5.7 Delivery and mailing.
5.8 Form of citation.
5.9 Categories of documents.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 5.1 Publication policy.

(a) Pursuant to Chapter 15 of Title 44, United States Code, and this chapter, the Director of the Federal Register shall publish a serial publication called the "FEDERAL REGISTER" to contain the following:

(1) Executive orders, proclamations, and other Presidential documents.

(2) Documents required to be published therein by law.

(3) Documents accepted for publication under § 5.3.

(b) Each document required or authorized to be filed for publication shall be published in the FEDERAL REGISTER as promptly as possible, within limitations imposed by considerations of accuracy, usability, and reasonable costs.

(c) In prescribing regulations governing headings, preambles, effective dates, authority citations, and similar matters of form, the Administrative Committee does not intend to affect the validity of any document that is filed and published under law.

[Based on 10.1]

§ 5.2 Documents required to be filed and published.

(a) The following documents are required to be filed with the Office of the Federal Register and published in the FEDERAL REGISTER:

(1) Presidential proclamations and Executive orders in the numbered series, and each other document that the President submits for publication or orders to be published.

(2) Each document or class of documents required to be published by act of Congress.

(3) Each document, issued under proper authority, that prescribes a penalty, imposes an obligation or duty, or confers a right, privilege, or immunity, and that is relevant or applicable to the general public, members of a class, or persons in a named locality, as distinguished from named individuals or organizations.

(b) Each document covered by paragraph (a)(3) of this section is hereby determined to have general applicability and legal effect.

(c) The Director of the Federal Register may not accept any document for filing and publication unless it is the official action of the agency concerned. Chapter 15 of Title 44, United States Code, does not authorize or require the filing and publication of other papers from an agency.

[Based on 11.1, 11.2, 11.3, and 11.22]

§ 5.3 Publication of other documents.

Whenever the Director of the Federal Register considers that publication of a document not covered by § 5.2 would be in the public interest, he may allow that document to be filed with the Office of the Federal Register and published in the FEDERAL REGISTER.

[Based on 11.5]

§ 5.4 Publication not authorized.

(a) Chapter 15 of Title 44, United States Code, does not apply to treaties, conventions, protocols, or other international agreements, or proclamations thereof by the President.

(b) Chapter 15 of Title 44, United States Code, prohibits the publication in the FEDERAL REGISTER of comments or news items.

[Based on 11.20 and 11.21]

§ 5.5 Supplement to the Code of Federal Regulations.

The FEDERAL REGISTER serves as a daily supplement to the Code of Federal Regulations. Each document that is subject to codification and published in a daily issue shall be keyed to the Code of Federal Regulations.

[Based on 10.3 and 30.6]

§ 5.6 Daily publication.

There shall be an edition of the FEDERAL REGISTER for each official Federal working day.

[Based on 10.2]

§ 5.7 Delivery and mailing.

The Government Printing Office shall distribute the FEDERAL REGISTER by delivery or by deposit at a post office at or before 9 a.m. on the publication day.

[Based on 15.1]

§ 5.8 Form of citation.

Without prejudice to any other form of citation, FEDERAL REGISTER material may be cited by volume and page number, and the short form "FR" may be used for "FEDERAL REGISTER". For example, "35 FR 3456" refers to material beginning on page 3456 of volume 35 of the daily issues.

[Based on 10.4]

§ 5.9 Categories of documents.

Each document published in the FEDERAL REGISTER shall be placed under one of the following categories, as indicated:

(a) *The President.* Containing each Executive order or Presidential proclamation, and each other Presidential document that the President submits for publication or orders to be published.

(b) *Rules and regulations.* Containing each document subject to codification, except those covered by paragraph (a) of this section.

(c) *Proposed rule making.* Containing each notice of proposed rule making submitted pursuant to section 553 of Title 5, United States Code, or any other law, and each notice of a similar nature voluntarily submitted by an issuing agency.

(d) *Notices.* Containing miscellaneous documents not covered by paragraph (a), (b), or (c) of this section, such as notices of hearings that are not included under proposed rule making documents and documents accepted for publication on the basis of public interest.

[Based on 13.1, 13.2, 13.3, 13.4, and 13.5]

PART 6—INDEXES AND ANCILLARIES

Sec.
6.1 Index to daily issues.
6.2 Analytical subject indexes.
6.3 Daily lists of parts affected.
6.4 Monthly list of sections affected.
6.5 Index-digests and guides.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 6.1 Index to daily issues.

Each daily issue of the FEDERAL REGISTER shall be appropriately indexed under the names of the issuing agencies.

[Based on 14.1]

§ 6.2 Analytical subject indexes.

Analytical subject indexes covering the contents of the FEDERAL REGISTER shall be published as currently as practicable, and shall be cumulated and separately published at least once each calendar year.

[Based on 14.2]

§ 6.3 Daily lists of parts affected.

(a) Each daily issue of the FEDERAL REGISTER shall carry a numerical list of the parts of the Code of Federal Regulations specifically affected by documents published in that issue.

(b) Beginning with the second issue of each month, each daily issue shall also carry a cumulated list of the parts affected by documents published during that month.

[Based on 14.5]

§ 6.4 Monthly lists of sections affected.

A monthly list of sections of the Code of Federal Regulations affected shall be separately published on a cumulative basis during each calendar year. The list shall identify the sections of the Code specifically affected by documents published in the FEDERAL REGISTER during the period it covers.

[Based on 14.6]

§ 6.5 Index-digests and guides.

(a) The Director of the Federal Register may cause to be prepared and published, yearly or at other intervals as necessary to keep them current and useful, index-digests and similar guides, based on laws, Presidential documents, regulations, and notice materials published by the Office and which serve a need of users of the FEDERAL REGISTER.

(b) Each digest and guide is considered to be a special edition of the FEDERAL REGISTER whenever the public need requires special imposition or special binding in substantial numbers.

[Based on 14.9]

PART 7—DISTRIBUTION WITHIN FEDERAL GOVERNMENT

Sec.
7.1 Members of Congress.
7.2 The Judiciary.
7.3 Executive agencies.
7.4 Requisitions for quantity overruns of specific issues.
7.5 Requisitions for quantity overruns of separate Part II issues.
7.6 Extra copies.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 7.1 Members of Congress.

Each Senator and each Member of the House of Representatives is entitled to not more than 5 copies of each daily issue of the FEDERAL REGISTER, without charge.

[Based on 15.3]

§ 7.2 The Judiciary.

(a) *The Supreme Court.* The Supreme Court is entitled to the number of copies of each daily issue of the FEDERAL REGISTER that it needs for official use, without charge.

(b) *Other courts.* Each other constitutional or legislative court of the United States is entitled to the number of copies of each daily issue of the FEDERAL REGISTER that it needs for official use, without charge, based on a written authorization submitted to the Director of the Federal Register by the Director of the Administrative Office of the U.S. Courts specifying the number needed.

[Based on 15.4]

§ 7.3 Executive agencies.

(a) Each Federal executive agency is entitled to the number of copies of each daily issue of the FEDERAL REGISTER that it needs for official use, without charge.

(b) The person in each agency concerned who is authorized under §§ 16.1 and 16.4 of this chapter to list the officers and employees of that agency who need the FEDERAL REGISTER for daily use shall send a written request to the Director of the Federal Register for placement of the names of those officers and employees on the mailing list.

[Based on 15.5]

§ 7.4 Requisitions for quantity overruns of specific issues.

(a) To meet its needs for special distribution of the FEDERAL REGISTER in substantial quantity, any agency may request an overrun of a specific issue.

(b) An advance printing and binding requisition on Standard Form 1 must be submitted by the agency directly to the Government Printing Office, to be received not later than 12 noon on the day before publication.

[Based on 15.6]

§ 7.5 Requisitions for quantity overruns of separate Part issues.

(a) Whenever it is determined by the Director of the Federal Register to be in the public interest, one or more documents may be published as a separate Part (e.g., Part II, Part III) of the FEDERAL REGISTER.

(b) Advance arrangements for this service must be made with the Office of the Federal Register.

(c) Any agency may request an overrun of such a separate Part by submitting an advance printing and binding requisition on Standard Form 1 directly to the Government Printing Office, to be received not later than 12 noon on the working day before the publication date.

[Based on 15.7]

§ 7.6 Extra copies.

An agency may order limited quantities of extra copies of a specific issue of the FEDERAL REGISTER, for official use, from the Superintendent of Documents, to be paid for by that agency.

[Based on 15.8]

SUBCHAPTER C—SPECIAL EDITIONS OF THE FEDERAL REGISTER

PART 8—CODE OF FEDERAL REGULATIONS

Sec.
8.1 Policy.
8.2 Orderly development.
8.3 Periodic updating.
8.4 Indexes.
8.5 Ancillaries.
8.6 General format and binding.
8.7 Agency cooperation.
8.8 Official distribution.
8.9 Form of citation.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 8.1 Policy.

(a) Pursuant to Chapter 15 of Title 44, United States Code, the Director of the Federal Register shall publish periodically a special edition of the FEDERAL REGISTER to present a compact and practical code called the "Code of Federal Regulations", to contain each Federal regulation of general applicability and current or future effect.

(b) The Administrative Committee intends that every practical means be used to keep the Code as current and readily usable as possible, within limitations imposed by dependability and reasonable costs.

[Based on 30.1]

§ 8.2 Orderly development.

To assure orderly development of the Code of Federal Regulations along practical lines, the Director of the Federal Register may establish new titles in the Code and rearrange existing titles and subordinate assignments. However, before taking an action under this section, the Director shall consult with each agency directly affected by the proposed change.

[Based on 30.4]

§ 8.3 Periodic updating.

(a) Criteria: Each book of the Code shall be updated at least once each calendar year. If no change in its contents has occurred during the year, a simple notation to that effect may serve as the supplement for that year. More frequent updating of any unit of the Code may be made whenever the Director of the Federal Register determines that the content of the unit has been substantially superseded or otherwise determines that such action would be consistent with the intent and purpose of the Administrative Committee as stated in § 8.1.

(b) Each document affecting the Code of Federal Regulations received from an

V 37 • 65 APR 4 72 XUM

agency and filed by the Office of the Federal Register on or before December 31 of that year will be published in the appropriate title of the Code for the following year.

[Based on 30.9]

§ 8.4 Indexes.

A subject index to the entire Code shall be annually revised and separately published. An agency-prepared index for any individual book may be published with the approval of the Director of the Federal Register.

[Based on 30.9]

§ 8.5 Ancillaries.

The Code shall provide, among others, the following-described finding aids:

(a) *Parallel tables of statutory authority and rules.* In Title 2 of the Code of Federal Regulations or at such other place as the Director of the Federal Register considers appropriate, numerical lists of all sections of the current edition of the United States Code (except section 301 of Title 5) which are cited by issuing agencies as rule making authority for currently effective regulations in the Code of Federal Regulations. The lists shall be arranged in the order of the titles and sections of the United States Code with parallel citations to the pertinent titles and sections of the Code of Federal Regulations.

(b) *Parallel tables of Presidential documents and agency rules.* In Title 3 of the Code of Federal Regulations, or at such other place as the Director of the Federal Register considers appropriate, tables of proclamations, Executive orders, and similar Presidential documents which are codified, cited as authority, quoted, cited in text, or included or referred to in currently effective regulations as published in the Code of Federal Regulations.

(c) *List of sections affected.* Following the text of each book or cumulative supplement, a numerical list of sections which are affected by documents published in the FEDERAL REGISTER. (A separate volume, "List of Sections Affected, 1949–1963" lists all sections of the Code which have been affected by documents published during the period January 1, 1949 to December 31, 1963.) Listings shall refer to FEDERAL REGISTER pages and shall be designed to enable the user of the Code to assure himself of the precise text that was in effect on a given date in the period covered.

[Based on 30.10]

§ 8.6 General format and binding.

The Director of the Federal Register shall provide for the binding of the Code into as many separate books as are indicated by the needs of users and compatible with the facilities of the Government Printing Office.

[Based on 30.5]

§ 8.7 Agency cooperation.

Each agency shall cooperate in keeping publication of the Code current by complying promptly with deadlines set by the Director of the Federal Register and the Public Printer.

[Based on 30.11]

§ 8.8 Official distribution.

(a) The Code shall be distributed to the following, without charge:

(1) *Congress.* To each committee of the Senate and House of Representatives in the quantity needed for official use, upon the written authorization of the committee chairman or his delegate, to the Director of the Federal Register.

(2) *Supreme Court.* To the Supreme Court in the quantity needed for official use.

(3) *Other courts.* To other constitutional and legislative courts of the United States, in the quantity needed for official use, upon the written authorization of the Director of the Administrative Office of the U.S. Courts to the Director of the Federal Register.

(4) *Executive agencies.* To officials, libraries, and major organizational units of the executive agencies in the quantity needed for official use, upon the written authorization of the authorizing officer or his alternate designated under § 16.1 of this chapter.

(b) Legislative, judicial, and executive agencies of the Federal Government may obtain selected units of the Code, as needed in substantial quantity for special distribution, by the timely submission of a printing and binding requisition to the Government Printing Office on Standard Form 1.

[Based on 30.12, 30.13, 30.14, and 30.15]

§ 8.9 Form of citation.

The Code of Federal Regulations may be cited by title and section, and the short form "CFR" may be used for "Code of Federal Regulations." For example, "1 CFR 10.2" refers to Title 1, Code of Federal Regulations, Part 10, section 2.

[Based on 30.2]

PART 9—U.S. GOVERNMENT ORGANIZATION MANUAL

Sec.
9.1 Publication required.
9.2 Scope.
9.3 Distribution to Government agencies.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 9.1 Publication required.

The Director of the Federal Register shall separately publish annually or at times designated by the Administrative Committee of the Federal Register a special edition of the FEDERAL REGISTER called the "United States Government Organization Manual" or any other title that the Administrative Committee of the Federal Register considers appropriate. The Director of the Federal Register may issue special supplements to the Manual when he considers such supplementation to be in the public interest.

[Based on 31.1 and 31.2]

§ 9.2 Scope.

(a) The Manual shall contain appropriate information about the Executive, Legislative, and Judicial branches of the Federal Government, which for the major Executive agencies shall include—

(1) Descriptions of the agency's public purposes, programs and functions;

(2) Established places and methods whereby the public may obtain information and make submittals or requests; and

(3) Lists of officials heading major operating units.

(b) Brief information about quasi-official agencies and supplemental information that in the opinion of the Director of the Federal Register is of enough public interest to warrant inclusion shall also be published in the Manual.

[Based on 31.6, 31.7, and 31.8]

§ 9.3 Distribution to Government agencies.

(a) The Manual shall be distributed to the following, in the quantities indicated, without charge:

(1) *Members of Congress.* Each Senator and each Member of the House of Representatives shall be furnished two copies, and is entitled to not more than 10 additional copies upon his written authorization to the Director of the Federal Register.

(2) *Congressional committees.* Each committee is entitled to the quantity needed for official use, upon the written request of the chairman of the committee, or his delegate, to the Director, for placement on the mailing list.

(3) *Supreme Court.* The Supreme Court is entitled to 18 copies.

(4) *Other courts.* Each other constitutional or legislative court is entitled to one copy, upon the written authorization of the Director of the Administrative Office of the U.S. Courts to the Director of the Federal Register.

(5) *Executive agencies.* The head of each executive agency and each liaison officer designated under § 16.1 or § 20.1 of this chapter is entitled to one copy.

(b) Legislative, judicial, and executive agencies of the Federal Government may obtain additional copies of the Manual, at cost, for official use by submission, before the press run, of a printing and binding requisition to the Government Printing Office on Standard Form 1. After the press run, each request for extra copies of the Manual must be addressed to the Superintendent of Documents, to be paid for by the agency or official making the request.

[Based on 31.21, 31.22, 31.23, 31.24, 31.25, and 31.26]

PART 10—PRESIDENTIAL PAPERS

Subpart A—Annual Volumes

Sec.
10.1 Publication required.
10.2 Coverage of prior years.
10.3 Scope and sources.
10.4 Format, indexes, and ancillaries.
10.5 Distribution to Government agencies.
10.6 Extra copies.

Subpart B—Weekly Compilation

10.10 Publication required.
10.11 Format and indexes.
10.12 Distribution to Government agencies.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

Subpart A—Annual Volumes

§ 10.1 Publication required.

The Director of the Federal Register shall publish, at the end of each calendar year, a special edition of the FEDERAL REGISTER called the "Public Papers of the Presidents of the United States." Unless the amount of material requires otherwise, each volume shall cover one calendar year.

[Based on 32.1]

§ 10.2 Coverage of prior years.

After consulting with the National Historical Publications Commission on the need therefor, the Administrative Committee may authorize the publication of volumes of papers of the Presidents covering specified years before 1957.

[Based on 32.2]

§ 10.3 Scope and sources.

(a) The basic text of each volume shall consist of oral statements by the President or of writings subscribed by him, and selected from—

(1) Communications to the Congress;
(2) Public addresses;
(3) Transcripts of news conferences;
(4) Public letters;
(5) Messages to heads of State;
(6) Statements released on miscellaneous subjects; and
(7) Formal executive documents promulgated in accordance with law.

(b) In general, ancillary text, notes, and tables shall be derived from official sources.

[Based on 32.10 and 32.11]

§ 10.4 Format, indexes, and ancillaries.

(a) Each annual volume, divided into books whenever appropriate, shall be separately published in the binding and style that the Administrative Committee considers suitable to the dignity of the Office of the President of the United States.

(b) Each volume shall be appropriately indexed and contain appropriate ancillary information respecting significant Presidential documents not printed in full text.

[Based on 32.3]

§ 10.5 Distribution to Government agencies.

(a) The Public Papers of the Presidents of the United States shall be distributed to the following, in the quantities indicated, without charge:

(1) *Members of Congress.* Each Senator and each Member of the House of Representatives is entitled to one copy of each annual volume published during his term of office, upon his written request to the Director of the Federal Register.

(2) *Supreme Court.* The Supreme Court is entitled to 12 copies of each annual volume.

(3) *Executive agencies.* The head of each executive agency is entitled to one copy of each annual volume upon application to the Director.

(b) Legislative, judicial, and executive agencies of the Federal Government may obtain copies of the annual volumes, at cost, for official use, by the timely submission of a printing and binding requisition to the Government Printing Office on Standard Form 1.

[Based on 32.15, 32.16, 32.17, and 32.18]

§ 10.6 Extra copies.

Each request for extra copies of the annual volumes must be addressed to the Superintendent of Documents, to be paid for by the agency or official making the request.

[Based on 32.19]

Subpart B—Weekly Compilation

§ 10.10 Publication required.

The Director of the Federal Register shall publish a special edition of the FEDERAL REGISTER called the "Weekly Compilation of Presidential Documents."

[Based on 32.30]

§ 10.11 Format and indexes.

(a) The Weekly Compilation shall be published in the binding and style that the Administrative Committee considers suitable for public and official use.

(b) The Director of the Federal Register shall provide indexes and any other finding aids that he considers appropriate for effective use.

[Based on 32.31]

§ 10.12 Distribution to Government agencies.

(a) The Weekly Compilation shall be distributed regularly to Members of the Senate and House of Representatives and to officials of the legislative, judicial, and executive branches of the Federal Government in the quantities needed for official use.

(b) Requests for copies shall be made in writing by the authorizing officer to the Director of the Federal Register.

(c) Special needs for selected issues in substantial quantity shall be filled by the timely submission of a printing and binding requisition to the Government Printing Office on Standard Form 1.

[Based on 32.40]

SUBCHAPTER D—PREPARATION, TRANSMITTAL, AND PROCESSING OF DOCUMENTS

PART 15—SERVICES TO FEDERAL AGENCIES

Subpart A—General

Sec.
15.1 Cooperation.
15.2 Information services.
15.3 Staff assistance.
15.4 Reproduction of certified copies of acts and documents.
15.5 Official subscriptions and requisitions of Federal Register publications.

Subpart B—Special Assistance

15.10 Information on drafting and publication.

Subpart C—Supplemental Printing and Editorial Services

15.15 Purpose.
15.16 Use of Federal Register standing type.
15.17 Special editorial service.
15.18 Supplemental loose-leaf services.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

Subpart A—General

§ 15.1 Cooperation.

The Director of the Federal Register shall assist each agency in complying with the pertinent publication laws to assure efficient public service in promulgating administrative documents having the effect of legal notice or of law.

[Based on 3.1]

§ 15.2 Information services.

The Director of the Federal Register shall provide for the answering of each appropriate inquiry presented in person, by telephone, or in writing. Each written communication and each matter involving classified material or the Administrative Committee shall be sent to the Director, Office of the Federal Register, National Archives and Records Service, Washington, DC 20408.

[Based on 3.2]

§ 15.3 Staff assistance.

The staff of the Office of the Federal Register shall provide informal assistance and advice to officials of the various agencies with respect to general or specific programs of regulatory drafting, procedures, and promulgation practices.

[Based on 3.4]

§ 15.4 Reproduction of certified copies of acts and documents.

The Director of the Federal Register shall furnish to requesting agencies, without charge, reproductions or certified copies of original acts and documents filed with that Office that are needed for official use. However, in a case involving voluminous material or numerous copies, the requesting agency may be required to reimburse the cost of reproduction.

[Based on 3.5]

§ 15.5 Official subscriptions and requisitions of Federal Register publications.

The following governs the availability of Federal Register publications for official use.

(a) *Slip laws.* Single copies may be obtained from the House or Senate Document Room, U.S. Congress. Quantity overruns of any slip law may be obtained by the timely submission of a requisition to the Government Printing Office on Standard Form 1.

(b) *U.S. Statutes at Large.* Written requests should be directed to the Joint Committee on Printing, United States Capitol, Washington, D.C. 20510. General provisions relating to the distribution of the U.S. Statutes at Large are set forth in section 728 of Title 44, United States Code.

(c) *Federal Register.* See §§ 7.1 to 7.6 of this chapter.

(d) *Code of Federal Regulations.* See § 8.8 of this chapter.

(e) *U.S. Government Organization Manual.* See § 9.3 of this chapter.

(f) *Public Papers of the Presidents of the United States.* See §§ 10.5 and 10.6 of this chapter.

(g) *Weekly Compilation of Presidential Documents.* See § 10.12 of this chapter.

[Based on 3.6]

V 37 • 65 APR 4 72 XUM

Subpart B—Special Assistance

§ 15.10 Information on drafting and publication.

The Director of the Federal Register may prepare, and distribute to agencies, information and instructions designed to promote effective compliance with the purposes of Chapter 15 of Title 44, United States Code, sections 553–554 of Title 5, United States Code, related statutes, and this chapter. The Director may also develop and conduct programs of technical instruction.

[Based on 3.10 and 3.11]

Subpart C—Supplemental Printing and Editorial Services

§ 15.15 Purpose.

The Director of the Federal Register may provide special services to agencies to promote efficiency and economy through the use of printing and editorial facilities developed in editing and publishing Federal Register publications.

[Based on 3.15]

§ 15.16 Use of Federal Register standing type.

Type used in printing the FEDERAL REGISTER is available for reuse by agencies in making reprints, on their own requisition, by submitting a printing and binding requisition on Standard Form 1 to the Office of the Federal Register for forwarding to the Government Printing Office.

[Based on 3.16]

§ 15.17 Special editorial service.

Upon written request by an appropriate agency official, the staff of the Office of the Federal Register may compile and collate Code units, as of a given date, to assist an issuing agency to prepare a document for publication in the FEDERAL REGISTER.

[Based on 3.18]

§ 15.18 Supplemental loose-leaf services.

The Director of the Federal Register may cooperate with agencies in developing supplemental loose-leaf services for special items in which the need would justify the cost.

[Based on 3.19]

PART 16—AGENCY REPRESENTATIVES

Sec.
16.1 Designation.
16.2 Liaison duties.
16.3 Certifying duties.
16.4 Authorizing duties.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 16.1 Designation.

(a) Each agency shall designate, from its officers or employees, persons to serve in the following capacities with relation to the Office of the Federal Register:

(1) A liaison officer and an alternate.

(2) A certifying officer and an alternate.

(3) An authorizing officer and an alternate.

The same person may be designated to serve in one or more of these positions.

(b) Before designating its liaison officer, each agency shall send the name of the person it intends to designate, and a short statement of that person's qualifications, to the Director of the Federal Register.

(c) Each agency shall notify the Director of the name, title, address, and telephone number of each person it designates under this section and shall promptly notify the Director of any changes.

[Based on 4.1 and 4.2]

§ 16.2 Liaison duties.

Each liaison officer shall—

(a) Represent his agency in all matters relating to the submission of documents to the Office of the Federal Register, and respecting general compliance with this chapter;

(b) Be responsible for the effective distribution and use within his agency of FEDERAL REGISTER information on document drafting and publication assistance authorized by § 15.10 of this chapter; and

(c) Promote his agency's participation in the technical instruction authorized by § 15.10 of this chapter.

[Based on 4.3]

§ 16.3 Certifying duties.

The certifying officer is responsible for attaching the required number of true copies of each original document submitted by his agency to the Office of the Federal Register and for making the certification required by §§ 18.5 and 18.6 of this chapter.

[Based on 4.4]

§ 16.4 Authorizing duties.

The authorizing officer is responsible for furnishing, to the Director of the Federal Register, a current mailing list of officers or employees of his agency who are authorized to receive the FEDERAL REGISTER, the Code of Federal Regulations, and the Weekly Compilation of Presidential Documents for official use.

[Based on 4.5]

PART 17—PUBLICATION SCHEDULES

Sec.
17.1 Receipt and processing.

REGULAR SCHEDULE

17.2 Procedure and timing for regular schedule.

EMERGENCY SCHEDULE

17.3 Criteria for emergency schedule.
17.4 Procedure and timing for emergency schedule.
17.5 Transmittal from distant points.

DEFERRED SCHEDULE

17.6 Criteria.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 17.1 Receipt and processing.

Unless special arrangements are made with the Director of the Federal Register, the Office of the Federal Register receives documents only during official working hours. Upon receipt, each document shall be held for confidential processing until it is filed for public inspection.

[Based on 12.2]

REGULAR SCHEDULE

§ 17.2 Procedure and timing for regular schedule.

(a) Each document received shall be assigned to the regular schedule unless the issuing agency makes special arrangements otherwise. Receipt of a document in the ordinary course of business is considered to be a request for publication on the regular schedule.

(b) The regular schedule for publication is as follows:

Received	Filed	Published
Monday	Wednesday	Thursday.
Tuesday	Thursday	Friday.
Wednesday	Friday	Monday.
Thursday	Monday	Tuesday.
Friday	Tuesday	Wednesday.

[Based on 12.11 and 12.12]

EMERGENCY SCHEDULE

§ 17.3 Criteria for emergency schedule.

The emergency schedule is designed to provide the fastest possible publication of a document involving the prevention, alleviation, control, or relief of an emergency situation.

[Based on 12.6 (first sentence)]

§ 17.4 Procedure and timing for emergency schedule.

(a) Each agency requesting publication on the emergency schedule shall briefly describe the emergency and the benefits to be attributed to immediate publication in the FEDERAL REGISTER. The request shall be made by letter if time permits.

(b) The Director of the Federal Register shall assign a document to the emergency schedule whenever he concurs with a request for that action and it is feasible. The Director shall confirm the assignment as soon as possible.

(c) Each document assigned to the emergency schedule shall be published as soon as possible.

[Based on 12.5, 12.6 (less first sentence), and 12.7]

§ 17.5 Transmittal from distant points.

The text of a document assigned to the emergency schedule may be transmitted from a distant field installation to the Washington Office of the agency concerned by telecommunication. A certified transcription of the text may be filed in advance of receipt of the original document. The agency must file the original document at the earliest possible time. In such a case, the publication date is based on receipt of the certified transcribed copies by the Office of the Federal Register.

[Based on 12.8]

DEFERRED SCHEDULE

§ 17.6 Criteria.

A document may be assigned to the deferred schedule under the following conditions:

(a) There are technical problems, unusual tabulations, or illustrations, or the document is of such size as to require extraordinary processing time.

(b) The agency concerned requests a deferred publication date.

[Based on 12.15, 12.16, and 12.17]

PART 18—PREPARATION AND TRANSMITTAL OF DOCUMENTS GENERALLY

Sec.
18.1 Original and copies required.
18.2 Prohibition on combined documents.
18.3 Submission of documents and letters of transmittal.
18.4 Form of document.
18.5 Certified copies.
18.6 Form of certification.
18.7 Signature.
18.8 Seal.
18.9 Style.
18.10 Illustrations and tabular material.
18.11 Forms.
18.12 Minimum requirements for documents.
18.13 Withdrawal of filed documents.
18.14 Correction of errors in documents.
18.15 Correction of errors in printing.
18.16 Highlights; submission of summary statements.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 18.1 Original and copies required.

(a) Except as provided in § 19.2 of this subchapter for Executive orders and proclamations, each agency submitting a document to be filed and published in the FEDERAL REGISTER shall send an original and two duplicate originals or certified copies. However, if the document is printed or processed on both sides, the agency shall send, in addition to the original, three duplicate originals or certified copies.

(b) In the case of a document issued outside of the District of Columbia, an agency may submit certified text in place of the original. However, it must replace the certified text with the original document as soon as practicable for filing as required by Chapter 15 of Title 44, United States Code.

[Based on 16.1]

§ 18.2 Prohibition on combined documents.

The Director of the Federal Register may not accept a document for filing and publication if it combines material that must appear under more than one category in the FEDERAL REGISTER. For example, a document may not contain both rule making and notice of proposed rule making material.

[New section added]

§ 18.3 Submission of documents and letters of transmittal.

(a) Each document authorized or required by law to be filed with the Office of the Federal Register, published in the FEDERAL REGISTER, or filed with the Administrative Committee shall be sent to the Director of the Federal Register.

(b) Except for cases involving special handling or treatment, there is no need for a letter of transmittal for a document submitted for filing and FEDERAL REGISTER publication.

[Based on 3.3 and 16.2]

§ 18.4 Form of document.

(a) Except as provided in paragraph (b) of this section, to be eligible for filing and publication in the FEDERAL REGISTER, a document must be typewritten on white bond paper approximately 8 by 10½ inches in size, double spaced, with a left-hand margin of approximately 1½ inches and a right-hand margin of approximately 1 inch.

(b) A printed or processed document may be accepted for filing and publication if it is suitable as an archival original. However, a photostatic copy may not be accepted as an original document.

(c) A document in the form of a letter may not be accepted for filing or publication in the rules and regulations, proposed rule making, or notices sections of the FEDERAL REGISTER.

[Based on 16.3, 16.4, and 16.5]

§ 18.5 Certified copies.

(a) The certified copies or duplicate originals of each document must be attached to the original. Each copy or duplicate must be entirely clear and legible.

(b) Copies of a typewritten original may be the first two carbon copies of the ribbon original, positive photostats on paper with a matte surface, or electrostatic copies.

(c) Publication dates are determined at the time when clear and legible copies are received.

[Based on 16.6]

§ 18.6 Form of certification.

Each copy of each document submitted for filing and publication, except a Presidential document or a duplicate original, must be certified substantially as follows:

(Certified to be a true copy of the original)

signed by a certifying officer designated under § 16.1 of this chapter.

[Based on 16.7]

§ 18.7 Signature.

The original and each duplicate original document must be signed in ink, with the name and title of the official signing the document typed or stamped beneath his signature. Initialed or impressed signatures may not be accepted.

[Based on 16.8]

§ 18.8 Seal.

Use of a seal on an original document or certified copy is optional with the issuing agency.

[Based on 16.9]

§ 18.9 Style.

Each agency submitting a document for filing and publication shall prepare it in accordance with the following:

(a) Punctuation, capitalization, spelling, and other matters of style must conform, in general, to the current edition of the U.S. Government Printing Office Style Manual.

(b) The spelling of geographic names must conform to the decisions of the Board on Geographic Names, established by section 2 of the act of July 25, 1947, 61 Stat. 456 (43 U.S.C. 364a).

(c) Descriptions of land must conform, so far as practicable, to the current edition of the "Specifications for Descriptions of Tracts of Land for Use in Executive Orders and Proclamations" prepared by the Bureau of Land Management, Department of the Interior.

[Based on 16.15, 16.16, and 16.17]

§ 18.10 Illustrations and tabular material.

(a) An original drawing, or a clear reproduction, of each map, chart, graph, or other illustration that is found to be a necessary part of a document to be filed and published may be accepted only after submission to the Director of the Federal Register at least 6 working days before the date on which publication is desired.

(b) A clear and legible reproduction of the original illustration, approximately 8 by 10½ inches, shall be included in the original document and each certified copy.

(c) Tabular material consisting of more than two typewritten pages that is to be a part of a document to be filed and published shall be submitted to the Director at least 6 working days before the date on which publication is desired.

[Based on 16.20]

§ 18.11 Forms.

Except when considered necessary by the Director of the Federal Register, tabulated blank forms for applications, registrations, reports, contracts, and similar items, and the instructions for preparing the forms, may not be published in full. In place thereof, the agency concerned shall submit for publication a simple statement describing the purpose and use of each form and stating the places at which copies may be obtained.

[Based on 16.21]

§ 18.12 Minimum requirements for documents.

Each document shall—

(a) In the case of a notice of proposed rule making, contain a clear preamble statement that discusses the substance of the proposed rules and the major issues involved;

(b) In the case of a rule or regulation, contain a concise general preamble statement that discusses the basis and purpose thereof and, where the rule was preceded by a notice of proposed rule making, that also discusses the disposition of the significant comments received; and

(c) Otherwise substantially conform to the requirements of this chapter.

The Director of the Federal Register may return to the issuing agency any document submitted for filing and publication that does not comply with this section.

[New section added]

V 37 • 65 APR 4 72 XUM

§ 18.13 Withdrawal of filed documents.

A document that has been filed with the Office of the Federal Register and placed on public inspection as required by this chapter, may be withdrawn from publication by the submitting agency only by a timely written instrument revoking that document, signed by the issuing officer or an officer of his agency superior to him. Both the original and the revoking document shall remain on file.

[New section added]

§ 18.14 Correction of errors in documents.

After a document has been filed for public inspection and publication, a substantive error in the text may be corrected only by the filing of another document effecting the correction.

[Based on 11.10]

§ 18.15 Correction of errors in printing.

Typographical or clerical errors made in the printing of the FEDERAL REGISTER shall be corrected by insertion of an appropriate notation or a reprinting in the FEDERAL REGISTER published without further agency documentation, if the Director of the Federal Register determines that—

(a) The error would tend to confuse or mislead the reader; or

(b) The error would affect text subject to codification.

[Based on 11.11]

§ 18.16 Highlights; submission of summary statements.

(a) Except as provided in paragraph (b) of this section, each agency which submits a document for publication in the FEDERAL REGISTER shall furnish with the document two copies of a descriptive catchword or phrase and a brief statement that:

(1) Names the agency issuing the document; and

(2) Summarizes the principal subject of the document.

The language of the summary statement submitted under this section and the headings required by Parts 17 and 22 of this chapter may be the same whenever appropriate. The following are examples of the kinds of statements intended by this requirement:

DETERGENTS—Proposed FTC labeling and advertising requirements for synthetic detergents.

COAL MINE SAFETY—Interior Department procedures to assess civil penalties for violations.

(b) A summary statement need not be submitted with a document that is making nonsubstantive changes that are corrective or editorial in nature. The Director of the Federal Register may grant additional exceptions to the requirements of this section. The Director shall publish once each month in the FEDERAL REGISTER a list of the classes of documents exempted under this section during the preceding month, stating the agency involved and the document or class of documents.

(c) Selected summary statements submitted under this section shall be included in a highlights listing which will be printed in a prominent place in the daily FEDERAL REGISTER. The Director shall exercise final editorial control over the wording of each summary statement and make the final determination as to its inclusion in the highlights listing.

(d) Neither failure to submit a summary statement under this section, nor failure to print such a statement in the highlights listing in the FEDERAL REGISTER affects the legal status of a document printed in the FEDERAL REGISTER. Highlights listings printed in the FEDERAL REGISTER are intended solely to serve as an aid to readers and the wording of a listed item is not intended to interpret the language of the document. FEDERAL REGISTER readers should continue to use the Table of Contents to identify the documents published in each issue and the text of a document to determine its legal effect.

[Based on 16.25]

PART 19—EXECUTIVE ORDERS AND PRESIDENTIAL PROCLAMATIONS

Sec.
19.1 Form.
19.2 Routing and approval of drafts.
19.3 Routing and certification of originals and copies.
19.4 Proclamations calling for the observance of special days or events.
19.5 Proclamations of treaties excluded.
19.6 Definition.

NOTE: The provisions of this Part 19 derived from sections 1 to 6 of Executive Order 11030, 27 FR 5847, 3 CFR 1959–1963 Comp., p. 610, and E.O. 11354, 32 FR 7695, 1966–1970 Comp., p. 652.

§ 19.1 Form.

Proposed Executive orders and proclamations shall be prepared in accordance with the following requirements:

(a) The order or proclamation shall be given a suitable title.

(b) The order or proclamation shall contain a citation of the authority under which it is issued.

(c) Punctuation, capitalization, spelling, and other matters of style shall, in general, conform to the most recent edition of the U.S. Government Printing Office Style Manual.

(d) The spelling of geographic names shall conform to the decisions of the Board on Geographic Names, established by section 2 of the act of July 25, 1947, 61 Stat. 456 (43 U.S.C. 364a).

(e) Descriptions of tracts of land shall conform, so far as practicable, to the most recent edition of the "Specifications for Descriptions of Tracts of Land for Use in Executive Orders and Proclamations," prepared by the Bureau of Land Management, Department of the Interior.

(f) Proposed Executive orders and proclamations shall be typewritten on paper approximately 8 x 13 inches, shall have a left-hand margin of approximately 1½ inches and a right-hand margin of approximately 1 inch, and shall be double-spaced except that quotations, tabulations, and descriptions of land may be single-spaced.

(g) Proclamations issued by the President shall conclude with the following-described recitation:

IN WITNESS WHEREOF, I have hereunto set my hand this ____ day of _____, in the year of our Lord _____, and of the Independence of the United States of America the _____.

§ 19.2 Routing and approval of drafts.

(a) A proposed Executive order or proclamation shall first be submitted, with seven copies thereof, to the Director of the Office of Management and Budget, together with a letter, signed by the head or other properly authorized officer of the originating Federal agency, explaining the nature, purpose, background, and effect of the proposed Executive order or proclamation and its relationship, if any, to pertinent laws and other Executive orders or proclamations.

(b) If the Director of the Office of Management and Budget approves the proposed Executive order or proclamation, he shall transmit it to the Attorney General for his consideration as to both form and legality.

(c) If the Attorney General approves the proposed Executive order or proclamation, he shall transmit it to the Director of the Office of the Federal Register, National Archives and Records Service, General Services Administration: *Provided*, That in cases involving sufficient urgency the Attorney General may transmit it directly to the President: *And provided further*, That the authority vested in the Attorney General by this section may be delegated by him, in whole or in part, to the Deputy Attorney General, Solicitor General, or to such Assistant Attorney General as he may designate.

(d) After determining that the proposed Executive order or proclamation conforms to the requirements of § 19.1 and is free from typographical or clerical error, the Director of the Office of the Federal Register shall transmit it and three copies thereof to the President.

(e) If the proposed Executive order or proclamation is disapproved by the Director of the Office of Management and Budget or by the Attorney General, it shall not thereafter be presented to the President unless it is accompanied by a statement of the reasons for such disapproval.

§ 19.3 Routing and certification of originals and copies.

(a) If the order or proclamation is signed by the President, the original and two copies shall be forwarded to the Director of the Federal Register for publication in the FEDERAL REGISTER.

(b) The Office of the Federal Register shall cause to be placed upon the copies of all Executive orders and proclamations forwarded as provided in paragraph (a) of this section the following notation, to be signed by the Director or by some person authorized by him to sign such notation: "Certified to be a true copy of the original."

§ 19.4 Proclamations calling for the observance of special days or events.

Except as may be otherwise provided by law, responsibility for the preparation and presentation of proposed proclamations calling for the observance of special days, or other periods of time, or events, shall be assigned by the Director of the Office of Management and Budget to such agencies as he may consider appropriate. Such proposed proclamations shall be submitted to the Director at least 60 days before the date of the specified observance.

§ 19.5 Proclamations of treaties excluded.

Consonant with the provisions of Chapter 15 of Title 5 of the United States Code (44 U.S.C. 1511), nothing in these regulations shall be construed to apply to treaties, conventions, protocols, or other international agreements, or proclamations thereof by the President.

§ 19.6 Definition.

The term "Presidential proclamations and Executive orders," as used in Chapter 15 of Title 5 of the United States Code (44 U.S.C. 1505(a)), shall, except as the President or his representative may hereafter otherwise direct, be deemed to include such attachments thereto as are referred to in the respective proclamations or orders.

PART 20—HANDLING OF U.S. GOVERNMENT ORGANIZATION MANUAL STATEMENTS

Sec.
20.1 Liaison officers.
20.2 Preparation of agency statements.
20.3 Organization.
20.4 Description of program activities.
20.5 Sources of information.
20.6 Form, style, arrangement, and apportionment of space.
20.7 Deadline dates.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 20.1 Liaison officers.

Each of the following shall appoint an officer to maintain liaison with the Office on matters relating to the Manual:

(a) Agencies of the legislative and judicial branches.

(b) Executive agencies that do not have a liaison officer designated under § 16.1 of this chapter or who wish to appoint a liaison officer for Manual matters other than the one designated under such § 16.1.

(c) Quasi-official agencies represented in the Manual.

(d) Any other agency that the Director believes should be included in the Manual.

Each liaison officer will insure his agency's compliance with Part 9 of this chapter and this Part 20.

[Based on 31.11 and 31.12]

§ 20.2 Preparation of agency statements.

In accordance with schedules established under § 20.7 each agency shall submit for publication in the Manual an official draft of the information required by § 9.2 of this chapter and this Part 20.

[Based in part on 31.16 and 31.17]

§ 20.3 Organization.

(a) Information about lines of authority and organization may be reflected in a chart if the chart clearly delineates the agency's organizational structure. Charts must be submitted in duplicate in the form of clear prints suitable for photographing. Charts should be prepared so as to be perfectly legible when reduced to the size of a Manual page. Charts that do not meet this requirement will not be included in the Manual.

(b) Listings of heads of operating units should be arranged wherever possible to reflect relationships between units.

(c) Verbal descriptions of organization that duplicate information conveyed by charts or by lists of officials will not be published in the Manual.

[Based in part on 31.16 with new material added]

§ 20.4 Description of program activities.

Descriptions should state clearly the public purposes that the agency serves, and the programs that carry out those purposes. Detailed descriptions of the responsibilities of individuals will not be accepted for publication in the Manual.

[New section added]

§ 20.5 Sources of information.

Pertinent sources of information useful to the public, in areas of public interest such as employment, consumer activities, contracts, services to small business, and other topics involving public participation must be provided with each agency statement. These sources of information shall plainly identify the places at which the public may obtain information or make submittals or requests.

[New section added]

§ 20.6 Form, style, arrangement and apportionment of space.

The form, style, and arrangement of agency statements and other material included in the Manual and the apportionment of space therein shall be determined by the Director of the Federal Register. The U.S. Government Printing Office Style Manual is the applicable reference work in determining style.

[Based in part on 31.19]

§ 20.7 Deadline dates.

The Manual is published on a schedule that insures the information in it is available to the public on a timely basis. Therefore, agencies must comply with the deadline dates established by the Director of the Federal Register for transmittal of statements and charts and for the verification of proofs. Failure to do so may result in publication of an outdated statement or the omission of important material, thus depriving members of the public of information they have a right to expect in a particular edition of the Manual.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

Subpart A—General

§ 21.1 Drafting.

(a) Each agency that prepares a document that is subject to codification shall draft it as an amendment to the Code of Federal Regulations, in accordance with this subchapter, before submitting it to the Office of the Federal Register.

V 37 • 65 APR 4 72 XUM

(b) The agency shall place a promulgation statement in the document precisely describing the relationship of the new provisions to the Code.

[Based on 17.1]

§§ 21.2, 21.3 [Reserved]

§ 21.4 Descriptions of organization.

The Director of the Federal Register may designate documents submitted under section 552(a)(1)(A) of Title 5, United States Code, as "documents subject to codification" under special agreement with the issuing agency. The agreement must be in writing, signed by the head of the agency, or his designee, and stating that—

(a) Publication in the Code is necessary or desirable for the effective discharge of the agency's functions or activities; and

(b) Publication in the Code may be discontinued by the Administrative Committee for failure of the agency to keep publication current.

[Based on 17.2]

§ 21.5 Separate documents for each title and chapter amended.

Whenever an agency is taking an action that will amend more than one title, or more than one chapter, of the Code of Federal Regulations, it shall prepare a separate document for each title and each chapter that is to be amended.

[New section added]

§ 21.6 Notice of expiration of codified material.

(a) Whenever a document subject to codification expires after a specified period by its own terms or by law, the issuing agency shall submit a notification by document for publication in the FEDERAL REGISTER.

(b) If the preparation of the document is not practicable, the agency shall send a timely notice, in writing, to the Director of the Federal Register, stating that the document is no longer in effect, citing the pertinent terms.

[Based on 11.7]

CODE STRUCTURE

§ 21.7 Titles and subtitles.

(a) The major divisions of the Code are titles, each of which brings together broadly related Government functions.

(b) Subtitles may be used to distinguish between materials emanating from an overall agency and the material issued by its various components. Subtitles may also be used to group chapters within a title.

[Based on 17.4 and 17.8]

§ 21.8 Chapters and subchapters.

(a) The normal divisions of a title are chapters, assigned to the various agencies within a title descriptive of the subject matter covered by the agencies' regulations.

(b) Subchapters may be used to group related parts within a chapter.

[Based on 17.5 and 17.9]

§ 21.9 Parts, subparts, and undesignated center heads.

(a) The normal divisions of a chapter are parts, consisting of a unified body of regulations applying to a specific function of an issuing agency or devoted to specific subject matter under the control of that agency.

(b) Subparts or undesignated center heads may be used to group related sections within a part. Undesignated center heads may also be used to group sections within a subpart.

[Based on 17.6 and 17.10]

§ 21.10 Sections.

(a) The normal divisions of a part are sections. Sections are the basic units of the Code.

(b) When internal division is necessary, a section may be divided into paragraphs, and paragraphs may be further subdivided using the lettering indicated in § 21.11.

[Based on 17.7 and 17.16 (first 18 words)]

NUMBERING

§ 21.11 Divisions of the Code of Federal Regulations.

(a) Titles are numbered consecutively in Arabic throughout the Code.

(b) Subtitles are lettered consecutively in capitals throughout the title.

(c) Chapters are numbered consecutively in Roman capitals throughout each title.

(d) Subchapters are lettered consecutively in capitals throughout the chapter.

(e) Parts are numbered in Arabic throughout each title.

(f) Subparts may be lettered in capitals or be undesignated.

(g) Sections are numbered in Arabic throughout each part. A section number includes the number of the part followed by a decimal point and the number of the section. For example, the section number for section 15 of Part 21 is "§ 21.15".

(h) The lettering for divisions of a section is as follows:

Division	Illustrative lettering
Paragraph	(a), (b), etc.
Further subdivision of a paragraph.	(1), (2), etc. (i), (ii), etc. (A), (B), etc. (*I*), (2), etc. (i), (ii), etc.

[Based on 17.12, 17.13, 17.14, 17.15, 17.16 (less first 18 words), and 17.17]

§ 21.12 Reservation of numbers.

In a case where related parts or related sections are grouped under a heading, numbers shall be reserved at the end of each group to allow for expansion.

[Based on 17.18]

§ 21.13 Addition of new units between existing units.

(a) Whenever it is necessary to introduce a new part or section between existing consecutive parts or sections, the new part or section shall be designated by the addition of a lower case letter to the number of the preceding part or section. For example, a part inserted between Parts 31 and 32 is numbered "31a", and a section inserted between § 31.1 and § 31.2 is numbered "§ 31.1a".

(b) Whenever it is necessary to insert a paragraph between existing consecutive paragraphs, and revision of the entire paragraph is not desired, the new paragraph shall be designated by the addition of a hyphen and an Arabic number to the letter designating the preceding paragraph. For example, a paragraph inserted between paragraph (a) and (b) is designated "(a–1)".

[Based on 17.20]

§ 21.14 Keying to agency numbering systems.

The Director of the Federal Register may allow the keying of section numbers to correspond to a particular numbering system used by an agency only when, in his opinion, the keying will benefit both that agency and the public.

[Based on 17.22]

§ 21.15 Statements of policy and interpretations.

(a) Whenever a statement of general policy or an interpretation, submitted pursuant to section 552(a)(1)(D) of Title 5, United States Code, applies to an entire part, it shall be included in or appended to that part.

(b) Whenever a statement of general policy or an interpretation applies to a specific section it shall be appended to that section.

(c) Statements of policy and interpretations that are broader in scope than those covered by paragraphs (a) and (b) of this section shall be assigned to a part or group of parts within the chapter affected.

[Based on 17.23]

HEADINGS

§ 21.16 Required Code headings.

(a) The title, chapter, and part headings, in that order, shall be set forth in full on separate lines at the beginning of each document. Subtitle, subchapter, and subpart headings shall, if applicable, also be set forth.

(b) Each section shall have a brief descriptive heading, preceding the text, on a separate line.

[Based on 17.26]

§ 21.17 Additional captions.

(a) For the purpose of publication in the FEDERAL REGISTER, a brief caption more specifically describing the scope of a document constituting a partial amendment of the material in a part shall be provided immediately below the part heading.

(b) An agency that uses regulation numbers or other identifying symbols shall place them in brackets centered immediately above the part heading.

[Based on 17.27]

§ 21.18 Tables of contents.

A table of contents shall be used at the beginning of the part whenever a new part is introduced, an existing part is completely revised, or a group of sections is revised or added and set forth as a subpart or otherwise separately grouped under a center head. The table shall follow the part heading and precede the text of the regulations in that part. It shall also list the headings for the subparts, undesignated center headings, and sections in the part.

[Based on 17.28]

§ 21.19 Composition of part headings.

Each part heading shall indicate briefly the general subject matter of the part. Phrases such as "Regulations under the Act of July 28, 1955" or other expressions that are not descriptive of the subject matter may not be used. Introductory expressions such as "Regulations governing" and "Rules applicable to" may not be used.

[Based on 17.29]

AMENDMENTS

§ 21.20 General requirements.

(a) Each amendatory document shall include a statement of the nature and extent of the changes made.

(b) The number and heading of each section amended shall be set forth in full on a separate line.

[Based on 17.32]

REFERENCES

§ 21.21 General requirements.

(a) Each reference to the Code of Federal Regulations shall be in terms of the specific titles, chapters, parts, sections, and paragraphs involved. Ambiguous references such as "herein", "above", "below", and similar expressions may not be used.

(b) Each document that contains a reference to material published in the Code shall include the Code citation as a part of the reference.

[Based on 17.34]

§ 21.22 References between or within titles.

Unless the meaning is otherwise precisely expressed and an undue or awkward repetition would result, the following references shall be used:

(a) *Between titles.* When reference is made to material codified in a title other than that in which the reference occurs, the short form of citation shall be used. For example, a reference within Title 41 to § 2.4 of Title 1 is "1 CFR 2.4".

(b) *Within titles.* When reference is made to material codified in the same title, the following forms shall be used, as appropriate:

Chapter ------ of this title.
Part ------ of this title.
§ ------ of this title.

(c) *Within chapters.* When reference is made to material codified in the same chapter, the following forms shall be used, as appropriate:

Part ------ of this chapter.
§ ------ of this chapter.

(d) *Within sections.* When reference is made to material codified in the same section, the following forms shall be used, as appropriate:

Paragraph (------) of this section.

[Based on 17.36]

§ 21.23 Parallel citations of Code and Federal Register.

For parallel reference, the Code of Federal Regulations and the FEDERAL REGISTER may be cited in the following forms, as appropriate:

------ CFR ------ (------ FR ------).
§ ------ of this chapter (------ FR ------).

[Based on 17.37]

§ 21.24 References to 1938 edition of Code.

When reference is made to material codified in the 1938 edition of the Code of Federal Regulations, or a supplement thereto, the following forms may be used, as appropriate:

------ CFR, 1938 Ed., ------.
------ CFR, 1943, Cum. Supp., ------.
------ CFR, 1946 Supp., ------.

[Based on 17.38]

EFFECTIVE DATE STATEMENT

§ 21.30 General.

Each document subject to codification shall include a clear statement as to the date or dates upon which its contents become effective.

[Based on 17.41]

Subpart B—Citations of Authority

§ 21.40 General requirements.

(a) Each section in a document subject to codification shall include, or be covered by, a complete citation of the authority under which the section is issued, including—

(1) General or specific authority delegated by statute; and

(2) Executive delegations, if any, necessary to link the statutory authority to the issuing agency.

[Based on 17.45]

§ 21.41 Agency responsibility.

(a) Each issuing agency is responsible for the accuracy and integrity of the citations of authority in the documents it issues.

(b) Each issuing agency shall formally amend the citations of authority in its codified material to reflect any changes therein.

[Based on 17.46]

§ 21.42 Exceptions.

The Director of the Federal Register may make exceptions to the requirements of this subpart relating to placement and form of citations of authority in any case in which he determines that strict application would impair the practical use of the citations.

[Based on 17.47]

PLACEMENT

§ 21.43 Coverage.

(a) *Single section.* Authority covering a single section shall be cited in parentheses on a separate line immediately following the text of the section. For example:

(Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654))

(b) *Blanket coverage.* Authority covering two or more consecutive sections shall be cited following the word "AUTHORITY" and placed as a text note immediately preceding the first section of the group. For example:

AUTHORITY: Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654).

(c) *Combined blanket and separate coverage.* Whenever individual sections within a group covered by a blanket citation reflect additional authority, a combined form shall be used. For example:

AUTHORITY: Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654), unless otherwise noted.

(d) *Combined blanket coverage.* Whenever a group of two or more consecutive sections within a broader group covered by a blanket citation reflects the same additional authority, a combined blanket citation shall be used. For example:

AUTHORITY: Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654). §§ 7.1 to 7.11 also issued under sec. 313, Pub. L. 85–726, 72 Stat. 752 (49 U.S.C. 1354).

[Based on 17.50, 17.51, 17.52, and 17.53]

§ 21.44 Documents involving various amendments.

(a) Whenever a document prescribes several amendments issued under common authority, the citation to that authority shall be placed in parentheses on a separate line after the last amendment.

(b) Whenever a document prescribes several amendments issued under varying authorities, each amendment shall be followed by the appropriate citation in parentheses on a separate line.

[Based on 17.54]

§ 21.45 Nonstatutory authority.

Citation to a document as authority shall be placed after the statutory citations. For example:

AUTHORITY: Sec. 9, Pub. L. 89–670, 80 Stat. 944 (49 U.S.C. 1657). E.O. 11222, 30 FR 6469, 3 CFR 1965 Comp.

[Based on 17.55]

FORM

§ 21.51 General.

(a) Formal citations of authority shall be in the shortest form compatible with

V 37 • 65 APR 4 72 XUM

positive identification and ready reference.

(b) The Office of the Federal Register shall assist agencies in developing model citations.

[Based on 17.60]

§ 21.52 Statutory materials.

(a) *Public laws.* Citations to current public laws shall include reference to the volume and page of the U.S. Statutes at Large to which they have been assigned. For example:

Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654)

(b) *U.S. Statutes at Large.* Citations to the U.S. Statutes at Large shall refer to section, page, and volume. The page number should refer to the page on which the section cited begins. If the cited material is contained in a title of the United States Code that has not been positively enacted, the parallel United States Code citation shall also be given. For example:

Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654); sec. 313, Pub. L. 85–726, 72 Stat. 752 (49 U.S.C. 1354)

(c) *Positive law titles of the United States Code.* Citations to titles of the United States Code that have been enacted into positive law (such as 1, 5, 10, etc.) shall be cited as follows, without public law or U.S. Statutes at Large citation:

10 U.S.C. 501.

[Based on 17.61]

§ 21.53 Nonstatutory materials.

Nonstatutory documents shall be cited by document designation and by FEDERAL REGISTER volume and page, followed, if possible, by the parallel citation to the Code of Federal Regulations. For example:

Special Civil Air Reg. SR–422A, 28 FR 6703, 14 CFR Part 4b. E.O. 11130, 28 FR 12789; 3 CFR 1959–63 Comp.

[Based on 17.62]

PART 22—PREPARATION OF NOTICES AND RULE MAKING PROPOSALS

NOTICES IN GENERAL

Sec.
22.1 Name of issuing agency and subdivision.
22.2 Authority citation.

NOTICES OF PROPOSED RULE MAKING

22.5 General requirements.
22.6 Code designation.
22.7 Codification.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

NOTICES IN GENERAL

§ 22.1 Name of issuing agency and subdivision.

(a) The name of the agency issuing a notice shall be placed at the beginning of the document.

(b) Whenever a specific bureau, service, or similar unit within an agency issues a notice, the name of that bureau, service, or unit shall be placed on a separate line below the name of the agency.

(c) An agency that uses file numbers, docket numbers, or similar identifying symbols shall place them in brackets immediately below the other headings required by this section.

(d) A suitable short title identifying the subject shall be provided beginning on a separate line immediately after the other required caption or captions. Whenever appropriate, an additional brief caption indicating the nature of the document shall be used.

[Based on 18.2, 18.3, 18.4, and 18.5]

§ 22.2 Authority citation.

The authority under which an agency issues a notice shall be cited in narrative form within text or in parentheses on a separate line following text.

[Based on 18.6]

NOTICES OF PROPOSED RULE MAKING

§ 22.5 General requirements.

Each notice of proposed rule making required by section 553 of title 5, United States Code, or any other statute, and any similar notice voluntarily issued by an agency shall include a statement of—

(a) The time, place, and nature of public rule making proceedings; and

(b) Reference to the authority under which the regulatory action is proposed.

[Based on 18.10]

§ 22.6 Code designation.

The area of the Code of Federal Regulations directly affected by a proposed regulatory action shall be identified by placing the appropriate CFR citation in brackets immediately below the name of the issuing agency. For example:

[1 CFR Part 22]

[Based on 18.11]

§ 22.7 Codification.

Any part of a notice of proposed rule making document that contains the full text of a proposed regulation shall also conform to the pertinent provisions of Part 21 of this chapter.

[Based on 18.12]

OFFICE OF THE FEDERAL REGISTER

[1 CFR Ch. II]

INCORPORATION BY REFERENCE

Notice of Proposed Rule Making

The Director of the Federal Register is considering amending the regulations concerning the "incorporation by reference" of certain documents in the FEDERAL REGISTER. The present regulations governing incorporation by reference are contained in Part 20 of Chapter I of Title 1 of the Code of Federal Regulations. By a separate document published in this issue of the FEDERAL REGISTER, the Administrative Committee of the Federal Register is proposing a general revision of its regulations. Since present Part 20 is a regulation of the Director of the Federal Register (sec. 5 U.S.C. 552(a)) rather than of the Administrative Committee, it is proposed to transfer its requirements to a new Part 51 in a new Chapter II—Office of the Federal Register.

For the most part, proposed Part 51 is merely a renumbering with minor revisions of present Part 20. However, several significant changes are proposed, as follows:

(1) It is proposed that present paragraph (c) of § 20.4 (proposed § 51.3) be deleted. This paragraph now attempts to make a distinction between the "legal promulgation of a document in the FEDERAL REGISTER" and the use of "incorporation by reference within a document." It is generally agreed that incorporation by reference, if overused, could eventually result in emasculation of the Code of Federal Regulations. Thus, there is a legitimate reason for rejecting many proposed incorporations that could be considered "promulgation by reference." On the other hand, there may be cases, such as the postal service procurement regulations (see 36 F.R. 23217) where the public interest is better served by avoiding the publication in the FEDERAL REGISTER/CFR system of detailed regulations aimed at a fairly small class of persons who may be adequately served by a separate publication. Furthermore, there is no really clear line between "promulgation by reference" and "incorporation by reference" as is demonstrated by an examination of the incorporations that have previously been approved under Part 20. Deletion of present § 20.4(c) would not be an invitation to extensive use of incorporation by reference. The Director of the Federal Register would continue to examine each case on its merits and would approve only those where the incorporation would appear to serve the public interest.

(2) A new § 51.5 is proposed to require the filing of copies of all material that is approved for incorporation by reference (including copies of each amendment or revision) with the Office of the Federal Register. This new requirement is proposed for at least two reasons. First, it will permit the Office of the Federal Register to maintain a complete historical file of all material that is approved for incorporation by reference. Secondly, it will ensure that the intent of the original Federal Register Act (44 U.S.C. 1501–1511) concerning the filing of regulatory material is carried out. It has been argued by some in the past that a reading of 44 U.S.C. 1503, together with 5 U.S.C. 552(a), in fact already requires such a filing.

(3) Paragraph (c) of proposed § 51.8 contains new material not presently in Part 20. This proposed paragraph makes it clear that future amendments or revisions of a document that is incorporated by reference cannot automatically be included without further publication in the FEDERAL REGISTER. Automatic inclusion of future amendments or revisions to a document incorporated by reference is considered inappropriate for several reasons. For one, it could in many instances amount to an unlawful delegation of legislative authority to a private organization. Secondly, in cases where the proposed rule making requirements of 5 U.S.C. 553 apply, automatic inclusion of changes to an incorporated document would violate these requirements since the public would have no opportunity to comment thereon.

(4) Paragraph (c) of § 51.10 also contains new material not presently in Part 20. This paragraph is intended to clarify the status of any incorporation by reference that is included in a regulatory document without the approval of the Director of the Federal Register and that is inadvertently published in the FEDERAL REGISTER. The staff of the Office of the Federal Register makes every effort to prevent the publication of unapproved incorporations by reference. However, because of the constantly increasing number of documents processed daily, it is possible for one to slip through the editing process.

Interested persons are invited to comment on the proposed new regulations governing incorporation by reference by submitting their comments to the Director of the Federal Register, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408. All comments received by June 5, 1972 will be considered.

FRED J. EMERY,
Director of the Federal Register.

Chapter II—Office of the Federal Register

PART 51—INCORPORATION BY REFERENCE

GENERAL

Sec.
51.1 Policy.
51.2 Matter eligible.
51.3 Distinctions.
51.4 Elements on which approval may be based.
51.5 Filing.

DRAFTING STANDARDS

51.6 Language of incorporation.
51.7 Identification and description.
51.8 Statement of availability.

PUBLICATION PROCEDURES

Sec.
51.10 Advance consultation.
51.11 Letter transmitting final document.
51.12 Stamp of approval.

AUTHORITY: 5 U.S.C. 552(a).

GENERAL

§ 51.1 Policy.

(a) Section 552(a) of Title 5, United States Code, provides, in part, that "matter reasonably available to the class of persons affected thereby is deemed published in the FEDERAL REGISTER when incorporated by reference therein with the approval of the Director of the Federal Register".

(b) The Director will strictly interpret the language quoted in paragraph (a) of this section to provide fairness and uniformity in administrative proceedings involving publication in the FEDERAL REGISTER.

(c) The Director will interpret and apply the language quoted in paragraph (a) of this section with full regard to the significance of related instruments governing publication in the FEDERAL REGISTER and the Code of Federal Regulations. Related instruments include—

(1) Subchapter II of Chapter 5 of Title 5, United States Code;

(2) Chapter 15 of Title 44, United States Code;

(3) Chapter I of this title; and

(4) Special statutory provisions, listed in appendix B to Chapter I of this title, that require publication in the FEDERAL REGISTER.

(d) The Director will assume that the language quoted in paragraph (a) of this section is—

(1) Designed to cover the limited purposes of section 552(a) of Title 5, United States Code;

(2) Intended to benefit both the Federal Government and the members of the classes affected by reducing the volume of matter printed in the FEDERAL REGISTER; and

(3) Not intended to detract from the legal or practical attributes of the system established under the basic instruments listed in paragraph (c) of this section.

[Based on 20.1 and 20.2]

§ 51.2 Matter eligible.

To be eligible for incorporation by reference, under section 552(a) of Title 5, United States Code, in a document to be published in the FEDERAL REGISTER, material must conform to the policy stated in § 51.1 and be in the nature of published data, criteria, standards, specifications, techniques, illustrations, or other published information reasonably available to the members of the class that would be affected by the publication.

[Based on 20.3]

§ 51.3 Distinctions.

(a) *Ordinary references.* For the purposes of this part, informational references and cross references that do not purport to incorporate outside matter within a FEDERAL REGISTER document are not considered to be legal incorporations

V 37-65 APR 4 72 XUM

by reference under section 552(a) of Title 5, United States Code.

(b) *Regulations governing availability of agency issuances.* Regulations governing the availability of agency issuances are not considered to be legal incorporation by reference under section 552(a) of Title 5, United States Code.

[Based on 20.4]

§ 51.4 Elements on which approval may be based.

The Director of the Federal Register will approve an incorporation by reference only when the following considerations are favorable and reasonably stable:

(a) The matter is eligible.

(b) Incorporation will substantially reduce the volume of material published in the FEDERAL REGISTER.

(c) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(d) The incorporating document is drafted and submitted for publication in accordance with this part.

[Based on 20.5]

§ 51.5 Filing.

Copies of material approved for incorporation by reference including copies of all amendments or revisions to that material, shall be filed with the Office of the Federal Register.

DRAFTING STANDARDS

§ 51.6 Language of incorporation.

(a) The language incorporating material by reference shall be as precise and complete as possible.

(b) The words expressing the incorporation shall make it clear that the incorporation by reference is intended and completed by the document in which it appears.

[Based on 20.10]

§ 51.7 Identification and description.

(a) Each incorporation by reference shall include an identification and subject description of the matter incorporated, in terms as precise and useful as practicable within the limits of reasonable brevity.

(b) Titles, dates, editions, numbers, authors, and publishers shall be stated whenever they would contribute to clear identification.

(c) A brief subject description shall be included to inform the user of his potential need to obtain the matter incorporated.

[Based on 20.11]

§ 51.8 Statement of availability.

(a) *Information.* Each incorporation by reference shall include a statement covering the availability of the material incorporated, including current information as to where and how copies of it may be examined and be readily obtained with maximum convenience to the user.

(b) *Official showing.* Inclusion of the statement required by paragraph (a) of this section constitutes an official showing by the issuing agency that the material incorporated is, in fact, reasonably available to the class of persons affected.

(c) *Future amendments or revisions.* In any case in which incorporated material will be subject to change, the statement required by paragraph (a) of this section shall set forth that information. However, the incorporation of material in a FEDERAL REGISTER document by reference is limited to the material as it exists on the effective date of the document. Future amendments or revisions of material incorporated by reference are not included. They may be added as they become available, or at any later time, by the issuance of an amendatory document. Separate approval of the Director of the incorporation of each amendment whose original incorporation was approved need not be obtained if all other requirements of this part are met.

[Based on 20.12 plus new material]

PUBLICATION PROCEDURES

§ 51.10 Advance consultation.

(a) To avoid delay, each issuing agency shall consult in advance with the Director of the Federal Register regarding the approval of any specific incorporation by reference. The consultation should take place at least 10 working days before the proposed date of submission of the document.

(b) After completion of the consultation, the Director will notify the agency of his decision, at least 5 working days before the proposed date of submission of the document.

(c) If a document containing an incorporation by reference is published without the specific approval of the Director, the agency concerned must re-present the document for specific approval and republication.

[Based on 20.20 and 20.21]

§ 51.11 Letter transmitting final document.

Each agency submitting a document under this part shall send with it a letter of transmittal covering the matter of incorporation by reference and referring specifically to the advance consultation.

[Based on 20.22]

§ 51.12 Stamp of approval.

(a) Whenever the Director of the Federal Register accepts a document under this part it will be stamped with a statement substantially as follows:

Incorporation by reference provisions approved by the Director of the Federal Register ----------
(date)

(b) The language of the stamped statement will be printed in the FEDERAL REGISTER as a part of the document.

30-year Reference Volumes

Consolidated Indexes and Tables

Presidential Proclamations and Executive Orders

Consolidated subject indexes and tabular finding aids to Presidential proclamations, Executive orders, and certain other Presidential documents promulgated during a 30-year period (1936–1965) are now available in two separately bound volumes, published under Title 3 of the Code of Federal Regulations, priced as follows:

Title 3, 1936–1965 Consolidated Indexes $3.50

Title 3, 1936–1965 Consolidated Tables $5.25

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office
Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 3—The President

PROCLAMATION 4120

Cancer Control Month, 1972

By the President of the United States of America

A Proclamation

America is now committed to an all-out attempt to find a means of controlling cancer.

Last December I signed the National Cancer Act of 1971, a landmark piece of legislation authorizing new Federal support for cancer research over the next three years. This will be a massive effort, perhaps the largest attack against a single disease in the history of man.

Medical breakthroughs cannot be bought or forced. But the two out of every three American families who are touched by cancer now have the assurance that everything that *can* be done by Government *will* be done to control this brutal killer.

As a means of giving continued emphasis to the cancer problem, the Congress, by a joint resolution of March 28, 1938 (52 Stat. 148), requested the President to issue annually a proclamation setting aside the month of April as Cancer Control Month.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby proclaim the month of April 1972 as Cancer Control Month, and I invite the Governors of the States and the Commonwealth of Puerto Rico, and the appropriate officials of all other areas under the United States flag to issue similar proclamations.

To give new emphasis to this serious problem, and to encourage the determination of the American people to meet it, I also ask the medical and allied health professions, the communications industries, and all other interested persons and groups to unite during this appointed time in public reaffirmation of our Nation's strong commitment to control cancer.

IN WITNESS WHEREOF, I have hereunto set my hand this fourth day of April, in the year of our Lord nineteen hundred seventy-two, and of the Independence of the United States of America the one hundred ninety-sixth.

Richard Nixon

[FR Doc.72-5344 Filed 4-4-72; 12:33 pm]

V 37-66 APR 5 72 XUM

Rules and Regulations

Title 6—ECONOMIC STABILIZATION

Chapter I—Cost of Living Council

PART 101—COVERAGE, EXEMPTIONS AND CLASSIFICATION OF ECONOMIC UNITS

Miscellaneous Amendments

Part 101—Coverage, Exemptions and Classification of Economic Units was added to a new title 6 and a new chapter I of the Code of Federal Regulations on November 13, 1971 (36 F.R. 21788). Part 101 was amended and republished on January 27, 1972 (37 F.R. 1237), and further amended on February 4, 1972 (37 F.R. 3913), March 9, 1972 (37 F.R. 5043), and March 18, 1972 (37 F.R. 5700).

Subpart A is amended in § 101.2 to reflect a Council decision that, in determining the classification of price category firms under Subpart B of this part, the definition of "annual sales or revenues" does not includes the gross receipts of wholly owned foreign subsidiaries, if those gross receipts are generated primarily from foreign sources. The Council's decision was based on the fact that such revenues are related to the economies of other countries and do not have a direct impact on the U.S. domestic economy.

Section 101.34(b), Subpart D is amended to make clear that the previous exemption of tuition fees for private nonprofit, educational organizations does not generally include fees and charges for medical services or price adjustments for unrelated business activities.

Subpart D is also amended in § 101.34 (d) to reflect the Council's decision to exempt rates and other charges in foreign air transportation. The Council recognized that most international air rates are set by international agreement which reflect considerations beyond those related exclusively to the domestic U.S. economy; and that except for a few minor instances, international air rates are reviewed and subject to some control by the Civil Aeronautics Board.

Subpart D is also amended to add a paragraph (k) to § 101.34 to reflect a Council decision to exempt fees and charges imposed by Indian Tribal Councils. The Council's decision was based on the fact that the functions of Indian Tribal Councils which include the power to tax, license and operate schools, are similar to the functions of State and local governments whose fees and charges are in a large part exempt. The Council also considered that the economic activities of certain Indian Tribal Councils are subject to budgetary controls by the Federal Government.

Because the purpose of these regulations is to amend and modify Part 101 to provide immediate guidance and information as to Cost of Living Council decisions, the Council finds that publication in accordance with usual rule making procedures is impracticable and that good cause exists for making this regulation effective in less than 30 days. Interested persons may submit written comments regarding the above amendmends. Communications should be addressed to the Office of General Counsel, Cost of Living Council, New Executive Office Building, Washington, D.C. 20507.

These amendments shall become effective when filed with the Office of the Federal Register.

JAMES W. MCLANE,
Deputy Director,
Cost of Living Council.

Part 101 Chapter I of Title 6 of the Code of Federal Regulations is amended as follows:

1. Subpart A is revised and amended in § 101.2 to read as follows:

§ 101.2 Definitions.

* * * * * *

"Annual sales or revenues" means the total gross receipts of a firm during its most recent fiscal year from whatever source derived, except that it does not include the gross receipts of wholly owned foreign subsidiaries which derive their revenue primarily from transactions with foreign firms.

* * * * * *

2. Subpart D is revised and amended in § 101.34 (b) and (d), and § 101.34(k) is added to read as follows:

§ 101.34 Certain price adjustments.

* * * * * *

(b) *Tuition fees of private nonprofit educational organizations.* Tuition fees and other charges by private schools, colleges, and universities not operated for profit; except that: (1) Fees and charges resulting in income which is subject to tax under Part III of Subchapter F of the Internal Revenue Code of 1954, as amended, as unrelated business taxable income and (2) medical fees and charges, other than a health service fee levied on all students as a condition of enrollment, are not exempt under the provisions of this section.

* * * * * *

(d) *Exports, imports, ocean shipping rates, and foreign air transportation.* * * *

(4) All rates, fares, and charges for foreign air transportation (as defined by the Federal Aviation Act, 49 U.S.C. 1301 (21)) which are set forth in tariffs filed with the Civil Aeronautics Board or which are established or approved by the Civil Aeronautics Board.

* * * * * *

(k) *Fees and charges imposed by Indian Tribal Councils.* Price adjustments, including rent adjustments, for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, commodity, or similar thing of value or utility, performed, furnished, sold, leased, provided, granted, prepared, issued, or transferred by any Indian Tribal Council which is formally recognized by a State or the Federal Government are exempt whether or not all or part of a particular transaction takes place on or off Indian Tribal lands.

Chapter III—Price Commission

PART 300—PRICE STABILIZATION

Insurance Rates Established by States and by Rating Bureaus

The purpose of this amendment to § 300.20 *Insurers* of Part 300 of the regulations of the Price Commission is to provide a procedure for the elimination of duplicate prenotifications and quarterly reports data filed under that section.

Under the amendment rating bureaus would, when delegated that authority by insurers, be allowed to prenotify on behalf of their member and subscriber firms. Firms covered by such a prenotification proecdure will need only to submit a copy of the delegation to the Commission.

In addition, States which set rates that may be charged for a particular line of insurance could themselves submit a certificate of compliance with § 300.20. Individual prenotifiers would then submit a letter stating that they intend to use the State set rates.

Insurers required to report quarterly will list those rate increases which have been prenotified by either themselves or another person. Complete data submission will still be required for rate increases not previously approved.

Because the purpose of this amendment is to provide immediate guidance and information as to the price stabilization rules in effect for insurers, and because it is procedural in nature, it is hereby found that notice and public procedure thereon is impracticable and that good cause exists for making it effective less than 30 days after publication.

(Economic Stabilization Act of 1970, as amended, Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15, 85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92-210; Executive Order No. 11640, 37 F.R. 1213, Jan. 27, 1972; Cost

V 37-66
APR 5 72
XUM

of Living Council Order No. 4, 36 F.R. 20202, Oct. 16, 1971)

In consideration of the foregoing, § 300.20 of Title 6 of the Code of Federal Regulations is amended as set forth below, effective March 31, 1972.

Issued in Washington, D.C., on March 31, 1972.

C. JACKSON GRAYSON, Jr.,
Chairman, Price Commission.

Section 300.20 of Part 300 of Title 6 CFR is amended as follows:

1. Paragraph (a) is amended by inserting the following new definition after the definition of the word "Rate":

"Rating bureau" means a person who makes, files, or submits insurance rates applicable to or on behalf of or advisory for more than one insurer.

2. Paragraphs (d), (f), (g), and (h) are revised to read as follows:

§ 300.20 Insurers.

* * * * *

(d) Prenotification:

(1) Each prenotifier, or rating bureau acting for a prenotifier, shall file a written notice with the Price Commission and the appropriate State regulatory agency of each State to which the rate increase is applicable (or the State of domicile or delivery of the master policy for experience rated or group contracts applicable to a multi-State risk) of each proposed rate increase which affects, on a prenotifier by prenotifier basis, $1 million or more in aggregate annualized premiums under the existing rate. Each person submitting a notice under this section shall certify to the Price Commission and the State regulatory authority that the proposed increase conforms to paragraphs (b) and (c) of this section. The certification must be signed by the chief executive officer of the prenotifier or by an individual to whom he has delegated that authority. A copy of the delegation must be filed with the Price Commission.

(2) In any State in which rates are established by a State regulatory agency, that agency may submit the data required by paragraph (j) of this section and certify to the Price Commission that the rate increases are in compliance with paragraphs (b) and (c) of this section. An insurer using those State rates needs only to prenotify and report quarterly to the Price Commission that it is using those rates, without submitting the data required by paragraph (j) of this section.

* * * * *

(f) Self-certification: Whenever a prenotifier, or a rating bureau acting for a prenotifier, cannot obtain a certification of a rate increase from a State regulatory agency in accordance with paragraph (e) of this section because—

(1) The State concerned has not agreed to furnish certifications under that paragraph; or

(2) The State regulatory agency did not act upon the filing within the period required under that paragraph;

The prenotifier or rating bureau shall immediately notify the Price Commission that it cannot obtain the certification and may request the Commission to act upon the certification filed with it under paragraph (d) of this section.

(g) Price Commission actions: With respect to any rate increase certified by a State regulatory agency under paragraphs (d)(2) or (e) of this section, or self-certified by a prenotifier or a rating bureau acting for a prenotifier under paragraph (f) of this section, the Price Commission may take any of the following actions during the period after receiving the certification or self-certification and before the end of the thirtieth day after the date the prenotifier or rating bureau filed under paragraph (d) of this section:

(1) Require the insurer to furnish additional information regarding the increase;

(2) Delay the effective date of the increase pending further Commission action;

(3) Suspend all or part of the effect of the increase, pending further action by the Price Commission or by the regulatory agency; or

(4) Limit, refuse, rescind, reduce, or modify the increase.

If the Price Commission does not act upon a request under this paragraph before the end of the period prescribed for its review in this paragraph, the increase may go into effect without Commission action. However, in any case in which that period would otherwise end on a Saturday, Sunday, or Federal holiday, it will end at the close of the next succeeding workday.

(h) Reporting: Each insurer that had annual revenues of $50 million or more during the calendar year preceding any rate increase proposed by it shall file a quarterly report with the Price Commission, at the time it normally releases its quarterly reports but in any event not more than 45 days after the end of the quarter, of each rate increase by it during that quarter that effects $250,000 or more in aggregate annualized premiums under the existing rate. However, with respect to a rate increase that has been prenotified by a prenotifier, or by a rating bureau acting for insurers, the report need not include the date required by paragraph (j) of this section, but must list the rate increase, the name of the prenotifier or rating bureau, date of prenotification, line of insurance, State or States affected, and aggregate annualized premium affected. In addition, each insurer that had annual revenues of $50 million or more during the calendar year 1971 shall, not more than 90 days after the end of its last fiscal quarter ending before January 1, 1972, file a report with the Price Commission of each rate increase made by it during that quarter that affects $250,000 or more in aggregate annualized premiums under the existing rate. Each report under this section shall be made on a form prescribed by the Commission and shall contain the information required by that form.

Title 7—AGRICULTURE

Chapter I—Consumer and Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

Subpart—United States Standards for Grades of Green Asparagus for Processing [1]

On page 3642 of the FEDERAL REGISTER of February 18, 1972, there was published a notice of proposed rule making to revise these grade standards by providing tolerances for defects and off-size; a requirement providing a minimum amount of green color, unless otherwise specified, in the U.S. No. 2 grade; and, definitions of serious damage by certain defects. The title of the standard was changed to bring it in line with the current format for titles and the format of the standards was changed in the interest of clarity and readability.

These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

Statement of considerations leading to the revision of the grade standards. The U.S. Standards for Grades of Green Asparagus for Canning or Freezing have been in effect since December 22, 1937. They were published in the FEDERAL REGISTER in June 1967 for the purpose of codification.

The absence of tolerances made it impractical to apply the standards to a lot required to meet the requirements of one grade. For this reason, in August 1971, USDA's Consumer and Marketing Service prepared and submitted to the asparagus industry a draft for study to consider revision of the standards outlining proposed changes. Following this, the proposed revision was published in the FEDERAL REGISTER under notice of proposed rule making. Interested persons were given until March 15, 1972, to submit written data, views, or arguments

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

regarding the proposal. Several comments were received dealings with changes not proposed by this revision. However, no objections were made to the changes proposed.

The addition of tolerances will allow for certification of lots of asparagus which must meet the requirements of one specified grade. Without tolerances, a shipment would have to be 100 percent free from scorable defects to meet the requirements. Also included in the revision are the following: The format of the standards is changed and other changes in arrangement and wording are made in the interest of clarity and readability; A requirement is added to the U.S. No. 2 grade providing that unless otherwise specified each spear shall have green color extending at least 3 inches below the tip; definitions for serious damage by broken tips, spreading tips and beetle eggs are added; and, the title is changed from U.S. Standards for Grades of Green Asparagus for Canning or Freezing to U.S. Standards for Grades of Green Asparagus for Processing, which is in line with the current format for titles.

The proposed revised standards are hereby adopted without change and are set forth below.

It is hereby found that good cause exists for not postponing the effective date of this revision beyond the date of publication hereof in the FEDERAL REGISTER, in that: (1) The 1972 packing season for Asparagus for Processing is well underway and it is in the interest of the public and the industry that this revision be placed in effect at the earliest possible date; and (2) no special preparation is required for compliance with this revision on the part of members of the Asparagus industry or of others.

Accordingly this revision shall become effective upon publication in the FEDERAL REGISTER (4–5–72), and will thereupon supersede the U.S. Standards for Grades of Green Asparagus for Canning or Freezing which have been in effect since December 22, 1937. (7 CFR 51.4075–51.4085)

Dated: March 28, 1972.

G. R. GRANGE,
Acting Administrator.

51.4078 Butt.

APPLICATION OF STANDARDS

51.4079 Application of standards.

DIAMETER CLASSIFICATION

51.4080 Diameter classification.

DEFINITIONS

51.4081 Fresh.
51.4082 Fairly well formed.
51.4083 Damage.
51.4084 Green color.
51.4085 Serious damage.

METRIC CONVERSION TABLE

51.4086 Metric Conversion Table.

AUTHORITY: The provisions of this subpart issued under the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

GRADES

§ 51.4075 U.S. No. 1.

"U.S. No. 1" consists of spears of asparagus which meet the following requirements:

(a) Basic requirements:
(1) Fresh; and,
(2) Fairly well formed.
(b) Free from:
(1) Decay; and,
(2) Broken tips.
(c) Free from damage caused by:
(1) Doubles;
(2) Spreading tips;
(3) Knife cuts;
(4) Broken butts;
(5) Hail;
(6) Freezing;
(7) Dirt;
(8) Disease;
(9) Beetles or other insects; or,
(10) Mechanical, or other means.
(d) Size: Unless otherwise specified, each spear shall meet the following requirements:
(1) *For diameter.* Not less than one-fourth inch.
(2) *For length.* Not more than 7½ inches.
(e) Color: Unless otherwise specified, the spear shall have green color extending at least 4½ inches below the tip. There shall be no restrictions regarding the amount of white color permitted on a spear unless agreed upon by the processor and grower. (See § 51.4078.)
(f) For tolerances see "Application of Standards" § 51.4079.

§ 51.4076 U.S. No. 2.

"U.S. No. 2" consists of spears of asparagus which meet the following requirements:

(a) Basic requirements:
(1) Fresh.
(b) Free from:
(1) Decay.
(c) Free from damage caused by:
(1) Dirt.
(d) Free from serious damage caused by:
(1) Disease;
(2) Beetles or other insects; or,
(3) Mechanical, or other means.
(e) Size. Unless otherwise specified, each spear shall be not more than 7½ inches in length.
(f) Color. Unless otherwise specified, the spear shall have green color extending at least 3 inches below the tip. There shall be no restrictions regarding the amount of white color permitted on a spear unless agreed upon by the processor and grower. (See § 51.4078.)
(g) For tolerances see "Application of Standards" § 51.4079.

CULLS

§ 51.4077 Culls.

"Culls" are spears of asparagus which do not meet the requirements of either of the foregoing grades. Length of spear in excess of that specified in the lowest grade upon which a contract is based and any amount of white in excess of that which may be specified for that grade shall be considered as a "Butt".

BUTT

§ 51.4078 Butt.

That part of a spear that is in excess of the maximum length specified shall be classed as a butt; and if a contract between canner and grower restricts the amount of white on a spear, the white in excess of the amount specified shall also be classified as a butt; and in either case the remaining portion of the spear shall be considered as meeting the grade requirements in regard to these factors.

APPLICATION OF STANDARDS

§ 51.4079 Application of standards.

In the application of these standards to determine the percentage of U.S. No. 1 and U.S. No. 2 quality, culls, butts, and off-size in a lot, tolerances shall not apply.

(a) *Tolerances.* When lot of asparagus is required to meet a specified grade, the following tolerances, by weight, shall apply:

(1) *For defects.* 10 percent for spears in any lot which fail to meet the requirements of the grade other than for butts and off-size: *Provided,* That not more than one-tenth of this amount, or 1 percent, shall be allowed for spears affected by decay.

(2) *For butts.* 5 percent.

(3) *For off-size.* 10 percent, including not more than 5 percent for spears smaller than any specified minimum diameter.

DIAMETER CLASSIFICATION

§ 51.4080 Diameter classification.

(a) The following terms are provided for describing the diameter of the spears:

(1) *Small.* One-fourth inch to less than three-eighths inch in diameter.

(2) *Medium.* Three-eighths inch to less than five-eighths inch in diameter.

(3) *Large.* Five-eighths inch or larger in diameter.

(b) The diameter shall be the greatest thickness of the spear measured at a point 5 inches from the tip, except that spears which are less than 5 inches in length shall be measured at the base of the spear.

DEFINITIONS

§ 51.4081 Fresh.

"Fresh" means not wilted, limp or flabby.

§ 51.4082 Fairly well formed.

"Fairly well formed" means the spear is not badly flattened, crooked, or otherwise so badly deformed that its processing quality is materially affected.

§ 51.4083 Damage.

"Damage" means any defect which detracts from the processing quality of the portion of the spear that extends a distance of 4½ inches from the tip, or which materially detracts from the canning or freezing quality of the remaining portion of the spear exclusive of the

V 37-166
APR 5 72
XUM

butt. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Doubles which detract from the appearance of that portion of the spear that extends a distance of 4½ inches from the tip. Doubles which occur on the remaining portion of the spear shall not be regarded as damage.

(b) Spreading tips, when the tips are so spread or branched that the appearance is appreciably injured. Tips which have a "seedy" appearance shall be considered damaged.

(c) Dirt or sand which is so imbedded in the tip that it cannot be removed in the ordinary process of washing.

(d) Beetle eggs or holes which affect the portion of the spear that extends a distance of 4½ inches from the tip, or which materially detract from the processing quality of the remaining portion of the spear exclusive of the butt.

§ 51.4084 Green color

"Green color" means any shade or tinge of green color or purple color which will blanch green. The amount of green color shall be determined by measuring the distance from the extreme tip to the lowest point at which any shade of green color completely encircles the spear.

§ 51.4085 Serious damage.

"Serious damage" means any defect which seriously detracts from the processing quality of that part of the spear not classed as a butt. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(a) Broken tips when three or more segments are missing from the tip or when the extreme tip is missing and the broken end is not at least fairly well concealed by lower scales.

(b) Spreading tips when the tip branches are more than three-quarter inch in length or when extending out from the spear.

(c) Beetle eggs when more than six eggs are present on the spear providing that not more than three eggs are present within a distance of 4½ inches below the tip.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1434—HONEY

Subpart—1972-Crop Honey Loan and Purchase Program

On February 5, 1972, notice of proposed rule making regarding loan and purchase rates for 1972-crop honey, and detailed operating provisions to carry out the 1972 honey loan program were published in the FEDERAL REGISTER (37 F.R. 2775). Twenty-six responses were received from interested individual farmers, farm organizations and other interested parties. Most responses recommended an increase in loan and purchase rates. After considerations of all responses, it has been determined that the loan and purchase rates along with other operating procedures will remain the same as for the 1971 program. The Honey Price Support Regulations for 1970 and Subsequent Crops (35 F.R. 11773), as amended, which contain regulations of a general nature with respect to loan and purchase operations, are supplemented for the 1972 crop of honey as herein stated. The material previously appearing in this subpart in §§ 1434.40 through 1434.44 remains in full force and effect as to the crops to which it was applicable.

Subpart—1972-Crop Honey Loan and Purchase Program

Sec.
1434.40 Purpose.
1434.41 Availability.
1434.42 Maturity of loans.
1434.43 Loan and purchase rates.
1434.44 Discounts.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 201, 401, 63 Stat. 1052, 1054; 15 U.S.C. 714c, U.S.C. 1446, 1421.

§ 1434.40 Purpose.

This subpart contains program provisions which, together with (a) the Honey Price Support Regulations for 1970 and Subsequent Crops, (b) the Cooperative Marketing Association-Eligibility Requirements for Price Support in Part 1425 of this chapter, and (c) any amendments to such regulations, set forth the requirements with respect to loans and purchases for 1972-crop honey.

§ 1434.41 Availability.

(a) *Loans.* Producers must request a loan on 1972-crop eligible honey on or before March 31, 1973.

(b) *Purchases.* Producers desiring to offer eligible honey not under loan for purchase must complete a Purchase Agreement at the county ASCS office on or before June 30, 1973.

§ 1434.42 Maturity of loans.

Unless demand is made earlier, loans on honey will mature on June 30, 1973.

§ 1434.43 Loan and purchase rates.

(a) *Table and nontable honey.* The rate for the quantity of 1972-crop honey placed under loan or acquired under loan or purchase shall be the rate for the respective class and color set forth below:

Class and color: Table honey:	*Cents per pound*
1 White and lighter	14.8
2 Extra Light amber	13.8
3 Light amber	12.8
4 Other table honey	10.8
Nontable honey	10.8

(b) *Objectionable flavor, fermentation, or caramelization.* The settlement value for a lot of honey delivered under loan or for purchase which grades substandard on account of objectionable flavor, fermentation, or caramelization shall be the lower of its market value as determined by CCC or a value determined on the basis of the loan and purchase rate for nontable honey.

(c) *Grade not certified.* The settlement value for a lot of honey, delivered under loan or for purchase, on which the grade cannot be certified shall be the lower of its market value as determined by CCC or a value as determined on the basis of the loan and purchase rate for nontable honey.

(d) *Substandard.* The rate for a lot of honey delivered under a loan or for purchase which grades substandard on account of defects or moisture or a combination of defects and moisture shall be adjusted by the discounts in § 1434.44.

§ 1434.44 Discounts.

(a) *Defects.* The loan and purchase rate for a lot of honey delivered under a loan or for purchase which grades substandard on account of defects shall be adjusted by the following discount:

Substandard account of:	*Discount (cents per pound)*
Defects	2

(b) *Moisture.* The loan and purchase rate for a lot of honey delivered under a loan or for purchase which contains moisture in excess of 18.5 percent shall be adjusted by the following discounts which shall be in addition to the discount for defects:

Moisture (percent):	*Discount (cents per pound)*
18.5	0.0
19.0	0.5
19.5	1.0
20.0	1.5
20.5	2.0
21.0	2.5
21.5	3.0
22.0	3.5
22.5	4.0
23.0	4.5
23.5	5.0
24.0	5.5
24.5	6.0

(c) *Commingled storage.* The loan and purchase rate for a lot of honey tendered for loan or purchase by CCC while stored commingled in a warehouse, or delivered to a warehouse in bulk in satisfaction of a farm storage loan, shall be adjusted by the following discount:

	Discount (cents per pound)
Bulk commingled	1.5

Effective date: Upon publication in the FEDERAL REGISTER (4-5-72).

Signed at Washington, D.C., March 27, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. T]

PART 220—CREDIT BY BROKERS AND DEALERS

Credit on Mutual Fund Shares

Section 220.125 is added to Part 220 as follows:

§ 220.125 Extending, maintaining or arranging credit on mutual fund shares having portfolio of exempted securities.

(a) The Board of Governors has been asked whether a broker or dealer may extend, maintain, or arrange for credit in a special bond account subject to § 220.4 (i) on collateral consisting of shares of registered open-end investment companies whose portfolios are made up entirely or in part of exempted securities.

(b) The term "exempted securities" is defined in section 3(a)(12) of the Securities Exchange Act of 1934 (15 U.S.C. sec. 78c(a)(12)) and generally includes federal, state, and municipal securities. Such securities are eligible as collateral for extensions of credit in § 220.4(i) and are entitled to good faith loan value in an account carried pursuant to that section, under § 220.8(b).

(c) This Part 220 (Regulation T) provides that brokers and dealers may not extend, maintain, or arrange for credit to purchase any securities unless the collateral for such credit consists of exempted securities or securities that are registered on a national securities exchange or appear on the Board's OTC Margin List. Shares in registered open-end investment companies are not "exempted" securities, irrespective of the composition of the portfolio of the company, nor are they registered on national securities exchanges, or included on the OTC Margin List. Accordingly, such shares do not have loan value for purposes of this Part 220, nor may brokers or dealers extend credit against such shares to purchase or carry any securities under § 220.4(i).

(d) The above-stated opinion is in conformity with the Board's views expressed previously in its interpretations announced in 1952 Bulletin 1105 (§ 220.109) and 1955 Bulletin 267 (§ 220.112) to the effect that brokers or dealers are prohibited from arranging credit to purchase unlisted shares issued by open-end investment companies.

(Interprets and applies 15 U.S.C. 78g)

By order of the Board of Governors, March 28, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airworthiness Docket No. 72-WE-5-AD; Amdt. 39-1428]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 747 Airplanes

There have been reports of failures of the landing gear alternate extension actuators on Boeing Model 747 airplanes that could result in an inoperable landing gear after an additional failure. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require a functional check inspection of the landing gear alternate extension actuators in accordance with Boeing Service Bulletin 747-32-2118 or later FAA-approved revisions, or an equivalent inspection approved by the Chief, Aircraft Engineering Division, FAA Western Region, until modified in accordance with Boeing Service Bulletin 747-32-2118. The agency has determined that inspection intervals must be established by an AD rule to minimize possible failures.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING. Applies to Boeing Model 747 airplanes, listed in Boeing Service Bulletin 747-32-2118, dated December 20, 1971, or later FAA-approved revisions except the Model 747-131.

Compliance required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished within the last 400 hours' time in service, and thereafter at intervals not to exceed 500 hours' time in service from the last inspection, until modified per Boeing Service Bulletin 747-32-2118, dated December 20, 1971, or later FAA-approved revisions.

To detect failed landing gear alternate extension actuators, accomplish the following:

Inspect landing gear alternate extension actuators in accordance with Boeing Service Bulletin 747-32-2118, dated December 20, 1971, or later FAA-approved revisions, until modified in accordance with Boeing Service Bulletin 747-32-2118, dated December 20, 1971, or later FAA-approved revisions, or an equivalent inspection approved by the Chief, Aircraft Engineering Division, FAA Western Region.

This amendment becomes effective April 7, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on March 27, 1972.

ARVIN O. BASNIGHT,
Director, FAA Western Region.

[Docket No. 72-EA-10; Amdt. 39-1427]

PART 39—AIRWORTHINESS DIRECTIVES

Hartzell Propellers

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to revoke AD 71-26-4 and issue a superseding airworthiness directive applicable to certain Hartzell propellers.

Subsequent to the issuance of AD 71-26-4 there has been a report of an additional cracked T10173 blade with complete failure imminent. In view of the foregoing AD 71-26-4 has been completely revised to include a change in compliance time, a dye penetrant inspection and changes in serial numbers to be affected. Thus a new airworthiness directive is being issued so as to supersede AD 71-26-4.

Since the foregoing deficiency can exist in other blades of similar type design, expeditious adoption of the amendment is required. Therefore, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended so as to revoke AD 71-26-4 and issue a new airworthiness directive as follows:

HARTZELL. Applies to all models of Hartzell T10173 (—) and T10176 (—) type blades including serial numbers listed below installed on Hartzell HC-B3TN-2, HC-B3TN-3, HC-B3TN-5, HC-B3TF-7, and HC-B4TN-3 series propellers used on United Aircraft of Canada PT6A—, AiResearch TPE331— and Allison 250-B type engines.

Blade Serial Numbers. All serial numbers without prefix letters, all serial numbers prefixed with letter "A" and all serial numbers

V 37-66 APR 5 72 XUM

with prefix letter "B" up to serial No. B85887, except for the following serial numbers:

A97324	B63327	B80805	B82883
A97352	B63354	B80908	B82891
A98330	B63431	B80911	B82894
B38602	B63441	B80988	B82895
B39183	B69570	B82181	B82898
B39356	B71482	B82182	B82900
B40809	B71483	B82215	B82902
B40828	B75009	B82565	B82905
B41002	B75037	B82566	B82908
B41387	B75322	B82577	B84129
B41886	B76844	B82579	B84168
B41893	B76847	B82586	B84169
B44241	B76865	B82595	B84187
B44343	B78383	B82598	B84192
B49153	B78386	B82599	B84193
B53160	B78428	B82603	B84222
B53246	B79430	B82607	B84227
B53249	B79435	B82685	B84230
B53264	B79454	B82694	B84243
B63036	B80547	B82699	B84245
B63039	B80548	B82706	B84254
B63122	B80553	B82710	B84294
B63127	B80698	B82711	
B63131	B80715	B82876	
B63294	B80717	B82878	

Compliance required as indicated, unless already accomplished.

A. To prevent propellor blade failures, accomplish the following:

1. Propellers with a total of 1400 or more hours in service, inspect in accordance with paragraph (A) (5) within the next 100 hours in service after the effective date of this directive. If no cracks are found, shot peen propeller blade balance hole and service in accordance with Hartzell Bulletin No. 97, dated 1 December 1971, or equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Eastern Region.

2. Propellers with less than 1400 total hours in service, inspect in accordance with paragraph (A) (5) prior to the accumulation of 1500 total hours in service. If no cracks are found, shot peen propeller blade balance hole and service in accordance with Hartzell Bulletin No. 97, dated 1 December 1971, or equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Eastern Region.

3. Propellers whose total hours in service are unknown will be assumed to have a total of 1400 hours minimum and thus fall within the requirements for inspection and shot peening in accordance with paragraph (A) (1).

4. Propellers whose total time in service is unknown, inspect each blade for cracks by dye penetrant method or an equivalent method approved by the Chief, Engineering and Manufacturing Branch, Eastern Region, in the area of 2 to 6 inches outboard of the blade clamp (excluding the de-icers), within the next 15 hours' time in service after the effective date of this directive. Reinspect every 15 hours' time in service from last inspection until the inspection and shot peening requirements in accordance with paragraph (A) (1) are accomplished. If a cracked blade is found, remove and replace propeller before further flight with a propeller having blades to which this AD does not apply or have been inspected and altered in accordance with this directive.

5. Remove propeller from the aircraft and remove blades from hub. If lead wool is installed in balance hole, remove in accordance with Hartzell Bulletin No. 97 dated 1 December 1971, or equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Eastern Region. Inspect interior surfaces of balance hole for cracks in accordance with Hartzell Bulletin No. 97, Appendix "B", dated 1 December 1971, or equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Eastern Region. Replace any cracked blades before flight with blades to which this AD does not apply or which have been inspected and altered in accordance with this directive.

B. Propeller blade retirement for Beech 99 and A99 type aircraft. This applies only to blades affected by this directive.

1. Within 1500 hours' time in service after accomplishment of the inspection and shot peening requirements in accordance with paragraph (A) (1), remove the propeller(s) from the aircraft. Remove the blades from the hub, and replace with T10173—Category II type blades in accordance with instructions in Hartzell Overhaul Manual 118. Replaced blades must be retired from any further service in aircraft.

2. Propellers which have not been inspected and shot peened in accordance with paragraph (A) (2) as of the effective date of this directive may comply with the blade replacement requirements of paragraph (B) (1), in lieu of compliance with the requirements in paragraph (A) (2). (Hartzell Letter to Propeller Repair Stations dated 21 January 1972 pertains to this subject.)

This amendment is effective April 11, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on March 28, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[Docket No. 72-EA-21; Amdt. 39-1426]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend AD 68-7-4.

Subsequent to the issuance of AD 68-7-4 the service history of the Piper PA 23-250 type aircraft to which the AD applies demonstrated that the inspection of the engine mount tubes aft of the firewall was difficult because the tubes were not readily accessible and further that no deficiencies were observed when inspected. Thus AD 68-7-4 will be relaxed to confine inspections to the tubes forward of the firewall.

Since the foregoing is relaxatory, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended so as to amend AD 68-7-4 as follows:

Delete in paragraph b. the phrase "the mount for cracks at all joints" and insert in lieu thereof "the engine mount tubes forward of the firewall for cracks."

This amendment is effective April 11, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421 and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on March 27, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.72-5160 Filed 4-4-72;8:46 am]

[Airspace Docket No. 71-SO-186]

PART 73—SPECIAL USE AIRSPACE

Designation of Temporary Restricted Areas

On February 8, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 2847) stating that the Federal Aviation Administration was considering amendments to Part 73 of the Federal Aviation Regulations that would designate temporary restricted areas in the Camp Lejune/Croatan National Forest/Cherry Point area, and in the coastal region adjacent to Beaufort and Lake Waccamaw, N.C., to be utilized for a short period to accommodate a joint military training exercise.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., April 27, 1972, as hereinafter set forth.

1. Section 73.53 (37 F.R. 2365) is amended by adding the following:

a. Name: R-5309A Exotic Dancer V—Joint Military Exercise.

Location: Camp Lejeune, N.C.

Boundaries: Beginning at a point on the northwest boundary of Restricted Area R-5306A at lat. 35°23'15" N., long. 76°34'40" W.; thence southwest along the boundary of R-5306A to lat. 35°02'00" N., long. 76°58'15" W.; thence clockwise along the boundary of the New Bern control zone to lat. 35°02'00" N., long. 77°09'00" W.; to lat. 35°15'00" N., long. 77°30'00" W.; to lat. 35°32'30" N., long. 77°09'30" W.; thence to point of beginning.

Designated altitudes: 7,000 to 17,000 feet MSL.

Time of designation: Continuous, May 15, 1972, through May 25, 1972.

Controlling agency: Federal Aviation Administration, Washington ARTC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

b. Name: R-5309B Exotic Dancer V—Joint Military Exercise.

Location: Camp Lejeune, N.C.

Boundaries: Beginning at a point on the northwest boundary of Restricted Area R-5306A at lat. 35°02'00" N., long. 76°58'15" W.; thence southwest and southeast along the boundary of R-5306A, R-5306B, and R-5306C to lat. 34°30'20" N., long. 77°15'50" W.; thence southwest along the boundary of Warning Area W-122 to lat. 34°17'45" N., long. 77°37'50" W.; to lat. 34°35'30" N., long. 77°42'30" W.; to lat. 34°37'30" N., long. 77°50'00" W.; to lat. 34°55'00" N., long. 77°49'30" W.; to lat. 35°15'00" N., long. 77°30'00" W.; to lat. 35°02'00" N., long. 77°09'00" W.; thence counterclockwise along the boundary of the New Bern control zone to point of beginning; excluding the airspace at and below 4,000 feet MSL within the Jacksonville, N.C., control zone and transition area (8.5-statute-mile radius of New River MCAS, lat. 34°42'25" N., long. 77°26'35" W.; and 8.5-statute-mile radius and extensions of Albert Ellis, N.C., Airport, lat. 34°49'49" N., long. 77°36'42" W.); excluding that airspace from 1,000 to and including 4,000 feet MSL within 4 nautical miles either side of Fayetteville, N.C. VORTAC 102°M(98°T) radial, extending from the Jacksonville transition area westward to the restricted area boundary.

Designated altitudes: Surface to 17,000 feet MSL.

Time of designation: Continuous, May 15, 1972, through May 25, 1972.

Controlling agency: Federal Aviation Administration, Washington ARTCC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

c. Name: R-5309C Exotic Dancer V—Joint Military Exercise.

Location: Camp Lejeune, N.C.

Boundaries: Beginning at a point on the southeast boundary of Restricted Area R-5306A at lat. 34°43'40" N., long. 76°46'30" W.; to lat. 34°37'45" N., long. 76°40'00" W., thence west along the boundary of Warning Area W-122 to lat. 34°37'30" N., long. 76°56'20" W.; to lat. 34°41'50" N., long. 76°56'20" W.; thence along the boundary of R-5306A to point of beginning.

Designated altitudes: Surface to FL 350.

Time of designation: Continuous, May 15, 1972, through May 25, 1972.

Controlling agency: Federal Aviation Administration, Washington, ARTC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on March 30, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72-5158 Filed 4-4-72;8:46 am]

[Docket No. 11822; Amdt. 804]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $125 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by establishing, revising, or canceling the following VOR-VOR/DME SIAP's, effective May 4, 1972.

Clarksburg, W. Va.—Benedum Airport; VOR Runway 3, Amdt. 7; Revised.
Columbus, Ga.—Columbus Metropolitan Airport; VOR-A, Amdt. 14; Revised.
Lima, Ohio—Allen County Airport; VOR Runway 27, Amdt. 8; Revised.
Meridian, Miss.—Akin Airport; VOR Runway 4, Amdt. 1; Revised.
Sheridan, Wyo.—Sheridan County Airport; VOR Runway 13, Amdt. 3; Revised.
Columbia-Mount Pleasant, Tenn.—Maury County Airport; VOR/DME-A, Original; Established.
Sheridan, Wyo.—Sheridan County Airport; VOR/DME Runway 31, Amdt. 2; Revised.
Tangier, Va.—Tangier Island Airport; VOR/DME Runway 1, Amdt. 1; Revised.

2. Section 97.25 is amended by establishing, revising, or canceling the following SDF-LOC-LDA SIAP's effective May 4, 1972.

Columbus, Ga.—Columbus Metropolitan Airport; LOC (BC) Runway 23, Amdt. 4; Revised.
Huntington, W. Va.—Tri-State (Walker-Long Field); LOC (BC) Runway 30, Amdt. 6; Revised.

3. Section 97.27 is amended by establishing, revising or canceling the following NDB/ADF SIAP's, effective May 4, 1972.

Clarksburg, W. Va.—Benedum Airport; NDB Runway 21, Original; Established.
Columbus, Ga.—Columbus Metropolitan Airport; NDB Runway 5, Amdt. 20; Revised.
Huntington, W. Va.—Tri-State (Walker-Long Field); NDB Runway 12, Amdt. 9; Revised.
Lima, Ohio—Lima Airport; NDB Runway 9, Amdt. 2; Revised.
Santa Barbara, Calif.—Santa Barbara Municipal Airport; NDB-A, Amdt. 1; Revised.

4. Section 97.29 is amended by establishing, revising, or canceling the following ILS SIAP's, effective, May 4, 1972.

Clarksburg, W. Va.—Benedum Airport; ILS Runway 21, Original; Established.
Columbus, Ga.—Columbus Metropolitan Airport; ILS Runway 5, Amdt. 15; Revised.
Huntington, W. Va.—Tri-State (Walker-Long Field); ILS Runway 12, Amdt., 1; Revised.
Santa Barbara, Calif.—Santa Barbara Municipal Airport; ILS Runway 7, Amdt. 16; Revised.
Santa Barbara, Calif.—Santa Barbara Municipal Airport; ILS/DMS Runway 7, Amdt. 1; Revised.
Washington, D.C.—Dulles International Airport; ILS Runway 1R, Amdt. 10; Revised.

5. Section 97.31 is amended by establishing, revising, or canceling the following Radar SIAP's, effective May 4, 1972.

Columbus, Ga.—Columbus Metropolitan Airport; Radar-1, Amdt. 1; Revised.

6. Section 97.33 is amended by establishing, revising, or canceling the following RNAV SIAP's, effective May 4, 1972.

Santa Barbara, Calif.—Santa Barbara Municipal Airport; RNAV-A, Amdt. 2; Revised.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958, 49 U.S.C. 1438, 1354, 1421, 1510; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c), 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on March 28, 1972.

WILLIAM G. SHREVE, Jr.,
Acting Director, Flight Standards Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 F.R. 5610) approved by the Director of the Federal Register on May 12, 1969.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-2163]

PART 13—PROHIBITED TRADE PRACTICES

Canaveral International Corp. et al.

Subpart—Advertising falsely or misleadingly: § 13.73 *Formal regulatory and statutory requirements:* 13.73-92 Truth in Lending Act; § 13.155 *Prices:* 13.155-95(a) Truth in Lending Act. Subpart—Misrepresenting oneself and goods—Goods: § 13.1623 *Formal regulatory and statutory requirements:* 13.1623-95 Truth in Lending Act; Misrepresenting oneself and goods—Prices: § 13.1823 *Terms and conditions:* 13.1823-20 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852-75 Truth in Lending Act; § 13.1905 *Terms and conditions:* 13.1905-60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46, Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601-1605) [Cease and desist order, Canaveral International Corp. et al., Miami, Fla., Docket No. C-2163, March 2, 1972]

In the Matter of Canaveral International Corp., a Corporation, Baker Mobile Homes, Inc., a Corporation, Colonial Coach Estates, Inc., a Florida Corporation, and Colonial Coach Estates, Inc., a Georgia Corporation

Consent order requiring a Miami, Fla., seller and distributor of mobile homes

V 37-66 APR 5 72 XUM

and other associated respondents to cease violating the Truth in Lending Act by failing to disclose to customers the annual finance charge, the total payments, the method of computing penalty charges, the cash price, the unpaid balance of cash price, the deferred payment price, the cash downpayment, and other disclosures required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Canaveral International Corp., a corporation, Baker Mobile Homes, Inc., a corporation, Colonial Coach Estates, Inc., a Florida corporation, and Colonial Coach Estates, Inc., a Georgia corporation, their successors and assigns, and respondents' officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with any extension of consumer credit or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (P.L. 90–321, 15 U.S.C. 1601 et seq.) do forthwith cease and desist from:

1. Failing to provide customers with the following consumer credit cost disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z in the manner, form and amount required by §§ 226.6 and 226.8 of Regulation Z:

a. The finance charge expressed as an annual percentage rate.

b. The "total of payments."

c. The amount, or method of computing the amount, of any default, delinquency, or similar charges payable in the event of late payments.

d. A description of the penalty charge that may be imposed by respondents or their assignee for prepayment of the principal of the obligation with an explanation of the method of computation of such penalty and the conditions under which it may be imposed.

e. An identification of the method of computing any unearned portion of the finance charge in the event of prepayment of the obligation.

f. The "cash price."

g. The "unpaid balance of cash price."

h. All other charges which are included in the amount financed but which are not part of the finance charge.

i. The "unpaid balance" and "amount financed."

j. The "finance charge."

k. The "deferred payment price."

2. Failing to clearly and conspicuously disclose the type of security interest acquired in connection with their credit sales and the property to which the security interest relates as required by §§ 226.6(a) and 226.8(b)(5) of Regulation Z.

3. Failing to use the term "cash downpayment" to describe the downpayment in money made in connection with their credit sales, as required by § 226.8(c)(2) of Regulation Z.

4. Failing to use the term "trade-in" to describe the downpayment in property made in connection with their credit sales, as required by § 226.8(c)(2) of Regulation Z.

5. Failing to use the term "total downpayment" to describe the sum of the cash "downpayment" and "trade-in" as required by § 226.8(c)(2) of Regulation Z.

6. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form and amount required by §§ 226.6, 226.8 and 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in any of the respondents, such as dissolution, assignment, or sale resulting in the emergence of any successor corporations, the creation or dissolution of subsidiaries or any other change in the corporations which may affect compliance obligations arising out of the order.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: March 2, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

[Docket No. 2164]

PART 13—PROHIBITED TRADE PRACTICES

O & P Motors, Inc., and Patricia V. Olsen

Subpart—Advertising falsely or misleadingly: § 13.73 *Formal regulatory and statutory requirements:* 13.73–72 Truth in Lending Act; § 13.155 *Prices:* 13.155–95(a) Truth in Lending Act. Subpart—Misrepresenting oneself and goods—Goods: § 13.1623 *Formal regulatory and statutory requirements:* 13.1623–95 Truth in Lending Act; Misrepresenting oneself and goods—Prices: § 13.1823 *Terms and conditions:* 13.1823–20 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852–75 Truth in Lending Act; § 13.1905 *Terms and conditions:* 13.1905–60 Truth in Lending Act. Subpart—Securing signatures wrongfully: § 13.2175 *Securing signatures wrongfully.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601–1605) [Cease and desist order, O & P Motors, Inc., et al., Jacksonville, Fla., Docket No. C-2164, March 2, 1972]

In the Matter of O & P Motors, Inc., a Corporation, and Patricia V. Olsen, Individually and as an Officer of said Corporation

Consent order requiring a Jacksonville, Fla., seller and distributor of used automobiles to cease violating the Truth in Lending Act in its consumer credit transactions by failing to disclose the cash price, cash downpayment, trade-in, total downpayment, unpaid balance of cash price, amount financed, annual percentage rate, and other terms required by Regulation Z of said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents O & P Motors, Inc., a corporation, its successors and assigns, and its officers, and Patricia V. Olsen, individually and as an officer of said corporation, and respondent's agents, representatives, and employees, directly or through any corporate or other device, in connection with any extension of consumer credit or advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Public Law 90–321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to use the term "cash price" to describe the price at which respondents offer in the regular course of business to sell for cash the automobiles which are the subject of the credit sale, as required by § 226.8(c)(1) of Regulation Z.

2. Failing to use the term "cash downpayment" to describe the downpayment in money made in connection with the credit sale, as required by § 226.8(c)(2) of Regulation Z.

3. Failing to use the term "trade-in" to describe the downpayment in property made in connection with the credit sale, as required by § 226.8(c)(2) of Regulation Z.

4. Failing to use the term "total downpayment" to describe the sum of the "cash downpayment" and "trade-in" as required by § 226.8(c)(2) of Regulation Z.

5. Failing to use the term "unpaid balance of cash price" to describe the difference between the cash price and the total downpayment as required by § 226.8(c)(3) of Regulation Z.

6. Failing to use the term "amount financed" to describe the amount of credit extended, as required by § 226.8(c)(7) of Regulation Z.

7. Failing to use the term "finance charge" to describe the sum of all charges required by § 226.4 of Regulation Z to be included therein, as required by § 226.8(c)(8)(i) of Regulation Z.

8. Failing to disclose the sum of the cash price, all charges which are included in the amount financed but which are not part of the finance charge, and the finance charge, and to describe that sum as the "deferred payment price", as required by § 226.8(c)(8)(ii) of Regulation Z.

9. Failing to disclose the "annual percentage rate" determined in accordance with § 226.5 of Regulation Z, as required by § 226.8(b)(2) of Regulation Z.

10. Failing to disclose the number of payments scheduled to repay the indebtedness, as required by § 226.8(b)(3) of Regulation Z.

11. Failing to use the term "total of payments" to describe the sum of payments scheduled to repay the indebtedness as required by § 226.8(b)(3) of Regulation Z.

12. Failing to describe the type of security interest retained or acquired as required by § 226.8(b)(5) of Regulation Z.

13. Stating, in any advertisement, that no downpayment can be arranged when in truth and in fact respondents do require downpayments and do not customarily arrange for a credit sale with no downpayment, thereby violating § 226.10(a)(1) of Regulation Z.

14. Stating, in any advertisement, the amount of the downpayment required and the amount of monthly installment payments which can be arranged in connection with a consumer credit transaction, without also stating all of the following items, in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) thereof:

(i) The cash price;

(ii) The amount of the downpayment required or that no downpayment is required, as applicable;

(iii) The number, amount, and due dates or period of payments scheduled to repay the indebtedness if credit is extended;

(iv) The amount of the finance charge expressed as an annual percentage rate; and

(v) The deferred payment price.

15. Failing in any consumer credit transaction or advertising to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.8 and 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel or respondents engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution; assignment or sale, resulting in the emergence of a successor corporation; the creation or dissolution of subsidiaries; or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: March 2, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

PART 423—CARE LABELING OF TEXTILE WEARING APPAREL

Delegation of Authority To Act Upon Requests for Exemptions

§ 423.2 **Exemptions.**

(a) *Delegation of authority to grant or deny.* Pursuant to section 1 of Reorganization Plan No. 4 of 1961, authority to grant or deny requests for exemptions filed pursuant to § 423.1 is delegated, without power or redelegation, to the Director of the Bureau of Consumer Protection, subject to discretionary Commission review.

(b) *Procedure.* The Director of the Bureau of Consumer Protection will, by letter to the applicant, grant or deny each request for exemption, with a brief statement of the reason for any denial. The letter will be placed upon the public record. Within five (5) days after the letter is placed upon the record, computed in accordance with the Commission's rules, the Commission may place the matter upon its own docket for review, and may set aside the Director's decision and grant or deny the request for exemption. Also, within five (5) days following a decision by the Director on such a request, the applicant or any person who would be adversely affected may file with the Secretary a request for review and reversal thereof by the Commission. The Commission, in its discretion, may grant or deny the request, and will by letter notify the applicant and any such person of its decision, with a brief statement of the reason for any denial, and place the letter on the public record. If the Commission does not place the Director's decision upon its own docket for review, or if no timely request for review is filed, the Director's decision shall, upon the expiration of the 5-day period, become the action of the Commission.

By direction of the Commission dated March 14, 1972.

[SEAL] CHARLES A. TOBIN, *Secretary.*

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER T—OPERATION AND MAINTENANCE

PART 221—OPERATION AND MAINTENANCE CHARGES

Wind River Indian Irrigation Project, Wyo.

On page 3060 of the FEDERAL REGISTER of February 11, 1972, there was published a notice of intention to amend § 221.95 *Charges*, of Title 25, Code of Federal Regulations, dealing with the irrigable lands of the Wind River Indian Irrigation Project, Wyo. The purpose of the amendment is to establish the assessment rate of 1972, and thereafter until further notice.

A 30-day period was prescribed for the public to have the opportunity to participate in the rule making process and submit written comments, suggestions or objections. On page 5625 of the FEDERAL REGISTER of March 17, 1972, there was published a notice of extension of 14 days correcting the 30-day period to 44 days. We have reviewed and considered all submitted protests and comments. Information does not indicate facts which would materially change the recommended charges.

The proposed amendment is hereby adopted without change as set forth below.

Section 221.95 is amended to read as follows:

§ 221.95 **Charges.**

In compliance with the provisions of the acts of August 1, 1914, and March 7, 1928 (38 Stat. 583, 25 U.S.C. 385; 45 Stat. 210, 25 U.S.C. 387), the operation and maintenance charges for the lands under the Wind River Irrigation Project, Wyo., for the calendar year 1972, and subsequent years until further notice, are hereby fixed at $4.60 per acre for the assessable area under the constructed works on the diminished Wind River Project and at $3.20 per acre on the Ceded Wind River Project; except in the case of all irrigable trust patent Indian land which lies within the Ceded Reservation and which is benefited by the Big Bend Drainage District where an additional assessment of $0.45 (45 cents) per acre is hereby fixed.

CLYDE W. HOBBS, *Superintendent.*

Title 29—LABOR

Chapter XIV—Equal Employment Opportunity Commission

PART 1604—GUIDELINES ON DISCRIMINATION BECAUSE OF SEX

By virtue of the authority vested in it by section 713(b) of title VII of the

V 37-166 APR 5 72 XUM

Civil Rights Act of 1964, 42 U.S.C., section 2000e–12, 78 Stat. 265, the Equal Employment Opportunity Commission hereby revises Title 29, Chapter XIV, Part 1604 of the Code of Federal Regulations.

These Guidelines on Discrimination Because of Sex supersede and enlarge upon the Guidelines on Discrimination Because of Sex, issued by the Equal Employment Opportunity Commission on December 2, 1965, and all amendments thereto. Because the material herein is interpretive in nature, the provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rule making, opportunity for public participation, and delay in effective date are inapplicable. The Guidelines shall be applicable to charges and cases presently pending or hereafter filed with the Commission.

Sec.
1604.1 General principles.
1604.2 Sex as a bona fide occupational qualification.
1604.3 Separate lines of progression and seniority systems.
1604.4 Discrimination against married women.
1604.5 Job opportunities advertising.
1604.6 Employment agencies.
1604.7 Pre-employment inquiries as to sex.
1604.8 Relationship of Title VII to the Equal Pay Act.
1604.9 Fringe benefits.
1604.10 Employment policies relating to pregnancy and childbirth.

AUTHORITY: The provisions of this Part 1604 issued under sec. 713(b), 78 Stat. 265, 42 U.S.C. sec. 2000e–12.

§ 1604.1 General principles.

(a) References to "employer" or "employers" in this Part 1604 state principles that are applicable not only to employers but also to labor organizations and to employment agencies insofar as their action or inaction may adversely affect employment opportunities.

(b) To the extent that the views expressed in prior Commission pronouncements are inconsistent with the views expressed herein, such prior views are hereby overruled.

(c) The Commission will continue to consider particular problems relating to sex discrimination on a case-by-case basis.

§ 1604.2 Sex as a bona fide occupational qualification.

(a) The Commission believes that the bona fide occupational qualification exception as to sex should be interpreted narrowly. Labels—"Men's jobs" and "Women's jobs"—tend to deny employment opportunities unnecessarily to one sex or the other.

(1) The Commission will find that the following situations do not warrant the application of the bona fide occupational qualification exception:

(i) The refusal to hire a woman because of her sex based on assumptions of the comparative employment characteristics of women in general. For example, the assumption that the turnover rate among women is higher than among men.

(ii) The refusal to hire an individual based on sterotyped characterizations of the sexes. Such steretoypes include, for example, that men are less capable of assembling intricate equipment; that women are less capable of aggressive salesmanship. The principle of nondiscrimination requires that individuals be considered on the basis of individual capacities and not on the basis of any characteristics generally attributed to the group.

(iii) The refusal to hire an individual because of the preferences of coworkers, the employer, clients or customers except as covered specifically in subparagraph (2) of this paragraph.

(2) Where it is necessary for the purpose of authenticity or genuineness, the Commission will consider sex to be a bona fide occupational qualification, e.g., an actor or actress.

(b) Effect of sex-oriented State employment legislation.

(1) Many States have enacted laws or promulgated administrative regulations with respect to the employment of females. Among these laws are those which prohibit or limit the employment of females, e.g., the employment of females in certain occupations, in jobs requiring the lifting or carrying of weights exceeding certain prescribed limits, during certain hours of the night, for more than a specified number of hours per day or per week, and for certain periods of time before and after childbirth. The Commission has found that such laws and regulations do not take into account the capacities, preferences, and abilities of individual females and, therefore, discriminate on the basis of sex. The Commission has concluded that such laws and regulations conflict with and are superseded by title VII of the Civil Rights Act of 1964. Accordingly, such laws will not be considered a defense to an otherwise established unlawful employment practice or as a basis for the application of the bona fide occupational qualification exception.

(2) The Commission has concluded that State laws and regulations which discriminate on the basis of sex with regard to the employment of minors are in conflict with and are superseded by title VII to the extent that such laws are more restrictive for one sex. Accordingly, restrictions on the employment of minors of one sex over and above those imposed on minors of the other sex will not be considered a defense to an otherwise established unlawful employment practice or as a basis for the application of the bona fide occupational qualification exception.

(3) A number of States require that minimum wage and premium pay for overtime be provided for female employees. An employer will be deemed to have engaged in an unlawful employment practice if:

(i) It refuses to hire or otherwise adversely affects the employment opportunities of female applicants or employees in order to avoid the payment of minimum wages or overtime pay required by State law; or

(ii) It does not provide the same benefits for male employees.

(4) As to other kinds of sex-oriented State employment laws, such as those requiring special rest and meal periods or physical facilities for women, provision of these benefits to one sex only will be a violation of title VII. An employer will be deemed to have engaged in an unlawful employment practice if:

(i) It refuses to hire or otherwise adversely affects the employment opportunities of female applicants or employees in order to avoid the provision of such benefits; or

(ii) It does not provide the same benefits for male employees. If the employer can prove that business necessity precludes providing these benefits to both men and women, then the State law is in conflict with and superseded by tile VII as to this employer. In this situation, the employer shall not provide such benefits to members of either sex.

(5) Some States require that separate restrooms be provided for employees of each sex. An employer will be deemed to have engaged in an unlawful employment practice if it refuses to hire or otherwise adversely affects the employment opportunities of applicants or employees in order to avoid the provision of such restrooms for persons of that sex.

§ 1604.3 Separate lines of progression and seniority systems.

(a) It is an unlawful employment practice to classify a job as "male" or "female" or to maintain separate lines of progression or separate seniority lists based on sex where this would adversely affect any employee unless sex is a bona fide occupational qualification for that job. Accordingly, employment practices are unlawful which arbitrarily classify jobs so that:

(1) A female is prohibited from applying for a job labeled "male," or for a job in a "male" line of progression; and vice versa.

(2) A male scheduled for layoff is prohibited from displacing a less senior female on a "female" seniority list; and vice versa.

(b) A Seniority system or line of progression which distinguishes between "light" and "heavy" jobs constitutes an unlawful employment practice if it operates as a disguised form of classification by sex, or creates unreasonable obstacles to the advancement by members of either sex into jobs which members of that sex would reasonably be expected to perform.

§ 1604.4 Discrimination against married women.

(a) The Commission has determined that an employer's rule which forbids or restricts the employment of married women and which is not applicable to married men is a discrimination based on sex prohibited by title VII of the Civil Rights Act. It does not seem to us relevant that the rule is not directed against all females, but only against married females, for so long as sex is a factor in the application of the rule, such application involves a discrimination based on sex.

(b) It may be that under certain circumstances, such a rule could be justified within the meaning of section 703 (e)(1) of title VII. We express no opinion on this question at this time except to point out that sex as a bona fide occupational qualification must be justified in terms of the peculiar requirements of the particular job and not on the basis of a general principle such as the desirability of spreading work.

§ 1604.5 Job opportunities advertising.

It is a violation of title VII for a help-wanted advertisement to indicate a preference, limitation, specification, or discrimination based on sex unless sex is a bona fide occupational qualification for the particular job involved. The placement of an advertisement in columns classified by publishers on the basis of sex, such as columns headed "Male" or "Female," will be considered an expression of a preference, limitation, specification, or discrimination based on sex.

§ 1604.6 Employment agencies.

(a) Section 703(b) of the Civil Rights Act specifically states that it shall be unlawful for an employment agency to discriminate against any individual because of sex. The Commission has determined that private employment agencies which deal exclusively with one sex are engaged in an unlawful employment practice, except to the extent that such agencies limit their services to furnishing employees for particular jobs for which sex is a bona fide occupational qualification.

(b) An employment agency that receives a job order containing an unlawful sex specification will share responsibility with the employer placing the job order if the agency fills the order knowing that the sex specification is not based upon a bona fide occupational qualification. However, an employment agency will not be deemed to be in violation of the law, regardless of the determination as to the employer, if the agency does not have reason to believe that the employer's claim of bona fide occupations qualification is without substance and the agency makes and maintains a written record available to the Commission of each such job order. Such record shall include the name of the employer, the description of the job and the basis for the employer's claim of bona fide occupational qualification.

(c) It is the responsibility of employment agencies to keep informed of opinions and decisions of the Commission on sex discrimination.

§ 1604.7 Pre-employment inquiries as to sex.

A pre-employment inquiry may ask "Male ----------, Female ----------"; or "Mr. Mrs. Miss," provided that the inquiry is made in good faith for a nondiscriminatory purpose. Any pre-employment inquiry in connection with prospective employment which expresses directly or indirectly any limitation, specification, or discrimination as to sex shall be unlawful unless based upon a bona fide occupational qualification.

§ 1604.8 Relationship of Title VII to the Equal Pay Act.

(a) The employee coverage of the prohibitions against discrimination based on sex contained in title VII is coextensive with that of the other prohibitions contained in title VII and is not limited by section 703(h) to those employees covered by the Fair Labor Standards Act.

(b) By virtue of section 703(h), a defense based on the Equal Pay Act may be raised in a proceeding under title VII.

(c) Where such a defense is raised the Commission will give appropriate consideration to the interpretations of the Administrator, Wage and Hour Division, Department of Labor, but will not be bound thereby.

§ 1604.9 Fringe benefits.

(a) "Fringe benefits," as used herein, includes medical, hospital, accident, life insurance and retirement benefits; profit-sharing and bonus plans; leave; and other terms, conditions, and privileges of employment.

(b) It shall be an unlawful employment practice for an employer to discriminate between men and women with regard to fringe benefits.

(c) Where an employer conditions benefits available to employees and their spouses and families on whether the employee is the "head of the household" or "principal wage earner" in the family unit, the benefits tend to be available only to male employees and their families. Due to the fact that such conditioning discriminatorily affects the rights of women employees, and that "head of household" or "principal wage earner" status bears no relationship to job performance, benefits which are so conditioned will be found a prima facie violation of the prohibitions against sex discrimination contained in the Act.

(d) It shall be an unlawful employment practice for an employer to make available benefits for the wives and families of male employees where the same benefits are not made available for the husbands and families of female employees; or to make available benefits for the wives of male employees which are not made available for female employees; or to make available benefits to the husbands of female employees which are not made available for male employees. An example of such an unlawful employment practice is a situation in which wives of male employees receive maternity benefits while female employees receive no such benefits.

(e) It shall not be a defense under title VIII to a charge of sex discrimination in benefits that the cost of such benefits is greater with respect to one sex than the other.

(f) It shall be an unlawful employment practice for an employer to have a pension or retirement plan which establishes different optional or compulsory retirement ages based on sex, or which differentiates in benefits on the basis of sex. A statement of the General Counsel of September 13, 1968, providing for a phasing out of differentials with regard to optional retirement age for certain incumbent employees is hereby withdrawn.

§ 1604.10 Employment policies relating to pregnancy and childbirth.

(a) A written or unwritten employment policy or practice which excludes from employment applicants or employees because of pregnancy is in prima facie violation of title VII.

(b) Disabilities caused or contributed to by pregnancy, miscarriage, abortion, childbirth, and recovery therefrom are, for all job-related purposes, temporary disabilities and should be treated as such under any health or temporary disability insurance or sick leave plan available in connection with employment. Written and unwritten employment policies and practices involving matters such as the commencement and duration of leave, the availability of extensions, the accrual of seniority and other benefits and privileges, reinstatement, and payment under any health or temporary disability insurance or sick leave plan, formal or informal, shall be applied to disability due to pregnancy or childbirth on the same terms and conditions as they are applied to other temporary disabilities.

(c) Where the termination of an employee who is temporarily disabled is caused by an employment policy under which insufficient or no leave is available, such a termination violates the Act if it has a disparate impact on employees of one sex and is not justified by business necessity.

Effective date. This revision shall become effective on the date of its publication in the FEDERAL REGISTER (4–5–72).

Signed at Washington, D.C., this the 31st day of March 1972.

WILLIAM H. BROWN III,
Chairman.

[FR Doc.72–5213 Filed 3–31–72;4:30 pm]

Chapter XVII—Occupational Safety and Health Administration, Department of Labor

PART 1926—SAFETY AND HEALTH REGULATIONS FOR CONSTRUCTION

Rollover Protective Structures and Overhead Protection; Access Roadways and Grades

Background. This proceeding was commenced by notice published in the FEDERAL REGISTER on October 29, 1971 (36 F.R. 20772). The notice invited interested persons to submit data, views, and arguments concerning: (1) Proposed standards for rollover protective structures and overhead protection on designated types of equipment used in construction work, and (2) a proposed amendment of § 1518.602(a)(3), relating to access roadways and grades. The proposal largely reflected the recommendations of the Advisory Committee on Construction Safety and Health.

V 37-66 APR 5 72 XUM

The regulations to which the changes were proposed have application under the Construction Safety Act (40 U.S.C. 333) and the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 651, et seq.).

The notice of proposed rule making invited interested persons to submit data, views, and arguments concerning the proposed changes, both orally and in writing. Written data, views, and arguments were received. Oral data, views, and arguments were received by Hearing Examiner Rhea M. Burrow during an informal hearing held on December 13 and 14, 1971. At the request of several participants, Hearing Examiner Burrow also received additional data, views, and arguments concerning the proposal after the hearing was adjourned on December 14.

The certified record of the proceeding, including the written comments received from interested persons, was submitted to the Advisory Committee on Construction Safety and Health for its review and advice pursuant to 29 CFR 1911.18. The Advisory Committee has considered the proposed revisions and has submitted its recommendations to the Assistant Secretary of Labor for Occupational Safety and Health for decision.

The major issues before me are:

1. When these rules for new equipment should become effective;

2. Whether the rules should apply to machines manufactured before July 1, 1969;

3. The type of rollover protective device appropriate for agricultural and industrial tractors used in construction;

4. The extent to which the rules would apply to agricultural and industrial tractors used in construction.

There are other issues in the proceeding, as to which I have accepted the expert reasoning of the Advisory Committee, the members of which were appointed upon the basis of their professional and technical experience in the construction safety and health field. (See section 107(e) of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333) concerning the statutory qualifications of members of the Advisory Committee.)

Where substantive changes from the proposals have been made, they have been in response to comments which were regarded as persuasive. When substantive changes from the proposals have been requested but have not been made, the decision is based in large part on the contrary recommendations of the Advisory Committee and on the intrinsic appropriateness of the standards, as adopted, to assure safe and healthful places of employment.

The record shows that numerous operators of earthmoving equipment have been killed and injured because the machines which they were operating rolled over. Thus, there is a need for rollover protective structures (ROPS) which will protect the operators from this hazard.

The major issues are discussed below.

1. *Effective date for new equipment.* The notice of proposed rulemaking would have required that machines manufactured on or after July 1, 1972, must be equipped with rollover protective structures. Comments indicated that a period of between 6 and 9 months was needed by manufacturers to adjust to the new standard. The adjustment time, it was stated, would have to run from the date of final promulgation of the rules. However, this matter has been under discussion since July 1971 and interested persons have, since that time, had adequate notice of the action proposed to be taken. In addition, the notice of proposed rulemaking, issued October 29, 1971, specifically mentioned the date of July 1, 1971. I find that a period in excess of 90 days is necessary to insure familiarization with the standard and adjustment to its terms. No shorter period is considered feasible. However, I further find that a period of less than 6 months is reasonable and appropriate for new equipment. Thus, the effective date for the new equipment standard is set at September 1, 1972.

2. *Machines manufactured before July 1, 1969.* Under the notice of proposed rulemaking, machines manufactured before July 1, 1969, would have to be fitted with rollover protective structures no later than July 1, 1975.

Numerous comments stated that the imposition of such a requirement was unreasonable because of: (a) Unavailability of the necessary devices and, (b) impracticability of the proposed rules with respect to existing machines.

A decision on this subject requires some analysis of the problems of bringing existing machines into compliance with the standards. This process, which is frequently referred to as "retrofit" or "retrofitting", has been significantly affected by the absence of comprehensive rules, national in scope, requiring ROPS on earthmoving equipment used in construction. Thus, firms which specialize in manufacturing and supplying ROPS to the industry probably have the capacity, in many instances, to expand their operations once these rules are promulgated. Too, other firms may well enter the field, thus increasing the availability of ROPS. On the other hand, there is substantial evidence in the record that the number of ROPS currently available is too small, compared to the projected demand, to be overcome even by a multifold increase in present capacity.

The question of the impracticability and unfeasibility of fitting older machines raises more serious questions. The assertion has been made that older machines, because of structural design, will be unable to withstand the stress factors which would be required. Moreover, it is contended that the fitting of such machines according to the specific requirements, as proposed, is difficult, if not impossible, because the strength of each individual machine frame cannot be measured with assurance or precision after sustained heavy use.

It is somewhat difficult to evaluate these contentions. Previous experience with fitting older machines cannot be fully relied on, because such experience has been limited in scope. For example, when the U.S. Army Corps of Engineers required rollover protection in its construction contracts, contractors frequently made arrangements to borrow equipment which already met the corps' requirements, rather than making the necessary adjustments to their own machines. This type of borrowing of equipment is not a feasible alternative under the rules promulgated in this document, because all employers covered by the Williams-Steiger Act who are engaged in construction are affected by these rules. Thus, there is insufficient evidence of the capacity of various machines to sustain the stresses which would be required.

The suggested alternatives to setting a fixed minimum date by which all machines must come into compliance are: (a) To issue a rule exempting all machines manufactured before July 1, 1969; (b) to reserve this particular matter for further study to analyze the progress of employers, and of the construction industry as a whole, with fitting existing machines to meet the standards.

I find that the only reasonable alternative is to institute a more intensive review of the question of the practicality and feasibility of fitting machines manufactured before July 1, 1969. This review will include, and benefit from, an analysis of the progress which is made in the fitting of machines manufactured between July 1, 1969, and September 1, 1972. On the basis of the review, the reasonableness of a schedule for fitting older machines could then be satisfactorily determined. This review will commence immediately and will monitor the effectiveness with which the construction industry responds to the "retrofit" schedule promulgated today for existing machines manufactured since July 1, 1969. Depending on the results of this review, a new rule making proceeeding would be initiated under section 6(b) of the Williams-Steiger Act. The rule making proceeding would consider the question of what specific minimum compliance dates should be set for machines manufactured before July 1, 1969.

Accordingly, § 1926.1000(c)(v) is revised to read as follows: "Machines manufactured before July 1, 1969: Reserved pending further study, development and review."

Where a standard has been reserved or where its effective date has been delayed, the working conditions involved would nonetheless be subject to the requirements of section 5(a)(1) of the Act. Thus, although an employer would not be required to meet the specific requirements of the standard, he would be subject to citation and proposed penalty if he failed to provide his employees with employment and a place of employment free from recognized hazards that are causing or likely to cause death or serious physical harm. It is not possible in the absence of specific facts to catalog the application of section 5(a)(1) in situations where the machines involved are operated without rollover protective structure. The particular facts may involve such things as the speed of the machine, the nature of the soil, the grade on which the machine is being used, the risk of falling objects, the training of the operator, etc. However, consistent with the policy of OSHA, no citation or proposed penalty will be issued under section 5(a)(1) except for serious violations. Moreover, in setting abatement requirements where citations are issued, OSHA would not necessarily require action by an employer to meet the specific requirements in the standards; the employer would be required only to make changes, such as modification in the method of operation of the machines, as are necessary to eliminate recognized hazards that are likely to cause death or serious physical harm to employees.

3. *ROPS for agricultural and industrial tractors used in construction.* Under the October 29 proposal, wheel-type agricultural and industrial tractors used in construction would have had to be equipped with ROPS consisting of "four or more uprights."

The purpose of requiring four uprights (as opposed to requiring one or more uprights) was to insure that adequate overhead protection would be provided on such machines, since the proposed overhead protection requirements could only be applied to machines with four or more uprights. However, the evidence at the hearing tended to show that ROPS of two-post design have proved satisfactory on agricultural and industrial tractors, and that the imposition of a requirement for a four-post ROPS would create unreasonable and inappropriate demands on users of such equipment.

The record demonstrates that overhead protection is needed in site-clearing operations. Section 1926.604 already requires this type of protection. Employees engaged in such operations will be protected from overhead hazards by the operation of § 1926.604.

Therefore, I find that the need for mandatory standards for rollover protection is more urgent than the need for mandatory standards for overhead protection in all construction activities on the machines in question. Accordingly, the proposed rules for overhead protection on agricultural and industrial tractors used in construction are made optional (except, of course, that § 1926.604 still applies with respect to site clearing). Rollover protective structures are required on such machines (see §§ 1926.1000 through 1926.1002).

4. *Coverage of agricultural and industrial tractors used in construction.* Under the October 29 proposal, all agricultural and industrial tractors used in construction would have been affected by the new subpart. Interested persons brought out that the Society of Automotive Engineers (SAE) standards, which are the source of the proposed rules, only apply to such vehicles of more than 20 engine horsepower. I have determined that the suggested change should be made because adequate ROPS standards do not exist for such machines of less than 20 engine horsepower and because the hazard of rollover is minimal on such machines compared to the rollover hazard on machines of more than 20 engine horsepower. The change will also result in a desired consistency between the rules as promulgated and the SAE standards.

The rules as promulgated clarify the relationship to the rules of existing machines which meet the current ROPS requirements of the U.S. Army Corps of Engineers, the State of California, and the Bureau of Reclamation, U.S. Department of the Interior. The differences between such current governmental requirements and the rules promulgated in this document are minor, and the record shows that such other governmental rules have protected the safety and health of operators. Accordingly, existing machines which are in compliance with the current ROPS requirements (in effect as of the date of publication of this document in the FEDERAL REGISTER) of the U.S. Army Corps of Engineers, the State of California, and the Bureau of Reclamation, U.S. Department of the Interior, shall be deemed to meet the requirements of the rules published herein.

The Advisory Committee has recommended that I promulgate several newly issued standards of the Society of Automotive Engineers dealing with rollover protection. The standards in question are:

SAE J320b Minimum performance criteria for rollover protective structures for prime movers;

SAE J394a Rollover protective structures for wheeled front end loaders and wheeled dozers;

SAE J395a Minimum performance criteria for rollover protective structures for track type tractors and track type front end loaders;

SAE J396a Minimum performance criteria for rollover protective structures for motor graders;

SAE J397a Critical zone for laboratory evaluation of rollover protective structures (ROPS) and falling object protective structures (FOPS) of construction and industrial vehicles.

These standards would, it is suggested, update the standards published today. In the near future, I intend to initiate action to implement the committee's recommendation.

In § 1926.602(a)(3), the word "designed" is deleted to avoid redundancy and to achieve greater precision.

In view of the foregoing, I hereby adopt the following changes in Part 1926 of Title 29, Code of Federal Regulations.

1. Part 1926 is amended by adding a new Subpart W, to read as set forth below:

Subpart W—Rollover Protective Structures; Overhead Protection

Sec.

1926.1000 Rollover protective structures (ROPS) for material handling equipment.

1926.1001 Minimum performance criteria for rollover protective structures for designated scrapers, loaders, dozers, graders, and crawler tractors.

1926.1002 Protective frame (ROPS) test procedures and performance requirements for wheel-type agricultural and industrial tractors used in construction.

1926.1003 Overhead protection for operators of agricultural and industrial tractors.

AUTHORITY: The provisions of this Subpart W issued under sec. 1, 83 Stat. 96, 97, adding sec. 107 to Public Law 87-581, 76 Stat. 357; sec. 6(b), 84 Stat. 1593; 29 U.S.C. 655, 40 U.S.C. 333.

§ 1926.1000 Rollover protective structures (ROPS) for material handling equipment.

(a) *Coverage.* (1) This section applies to the following types of material handling equipment: To all rubber-tired, self-propelled scrapers, rubber-tired front-end loaders, rubber-tired dozers, wheel-type agricultural and industrial tractors, crawler tractors, crawler-type loaders, and motor graders, with or without attachments, that are used in construction work. This requirement does not apply to sideboom pipelaying tractors.

(2) The promulgation of specific standards for rollover protective structures for compactors and rubber-tired skid-steer equipment is reserved pending consideration of standards currently being developed.

(b) *Equipment manufactured on or after September 1, 1972.* Material handling machinery described in paragraph (a) of this section and manufactured on or after September 1, 1972, shall be equipped with rollover protective structures which meet the minimum performance standards prescribed in §§ 1926.1001 and 1926.1002, as applicable.

(c) *Equipment manufactured before September 1, 1972.* (1) All material handling equipment described in paragraph (a) of this section and manufactured or placed in service (owned or operated by the employer) prior to September 1, 1972, shall be fitted with rollover protective structures no later than the dates listed below:

(i) Machines manufactured on or after January 1, 1972, shall be fitted no later than April 1, 1973.

(ii) Machines manufactured between July 1, 1971, and December 31, 1971, shall be fitted no later than July 1, 1973.

(iii) Machines manufactured between July 1, 1970, and June 30, 1971, shall be fitted no later than January 1, 1974.

(iv) Machines manufactured between July 1, 1969, and June 30, 1970, shall be fitted no later than July 1, 1974.

(v) Machines manufactured before July 1, 1969: Reserved pending further study, development, and review.

(2) Rollover protective structures and supporting attachment shall meet the minimum performance criteria detailed in §§ 1926.1001 and 1926.1002, as applicable or shall be designed, fabricated, and installed in a manner which will support, based on the ultimate strength of the metal, at least two times the weight of the prime mover applied at the point of impact.

(i) The design objective shall be to minimize the likelihood of a complete overturn and thereby minimize the possibility of the operator being crushed as a result of a rollover or upset.

V 37-66 APR 5 72 XUM

(ii) The design shall provide a vertical clearance of at least 52 inches from the work deck to the ROPS at the point of ingress or egress.

(d) *Remounting.* ROPS removed for any reason, shall be remounted with equal quality, or better, bolts or welding as required for the original mounting.

(e) *Labeling.* Each ROPS shall have the following information permanently affixed to the structure:

(1) Manufacturer or . fabricator's name and address;

(2) ROPS model number, if any;

(3) Machine make, model, or series number that the structure is designed to fit.

(f) *Machines meeting certain existing governmental requirements.* Any machine in use, equipped with rollover protective structures, shall be deemed in compliance with this section if it meets the rollover protective structure requirements of the State of California, the U.S. Army Corps of Engineers, or the Bureau of Reclamation of the U.S. Department of the Interior in effect on April 5, 1972. The requirements in effect are:

(1) State of California: Construction Safety Orders, issued by the Department of Industrial Relations pursuant to Division 5, Labor Code, § 6312, State of California.

(2) U.S. Army Corps of Engineers: General Safety Requirements, EM–385–1–1 (March 1967).

(3) Bureau of Reclamation, U.S. Department of the Interior: Safety and Health Regulations for Construction, Part II (September 1971).

§ 1926.1001 Minimum performance criteria for rollover protective structures for designated scrapers, loaders, dozers, graders, and crawler tractors.

(a) *General.* This section prescribes minimum performance criteria for rollover protective structures (ROPS) for rubber-tired self-propelled scrapers; rubber-tired front-end loaders and rubber-tired dozers; crawler tractors, and crawler-type loaders, and motor graders. The vehicle and ROPS as a system shall have the structural characteristics prescribed in paragraph (f) of this section for each type of machine described in this paragraph.

(b) The static laboratory test prescribed herein will determine the adequacy of the structures used to protect the operator under the following conditions:

(1) For rubber-tired self-propelled scrapers, rubber-tired front-end loaders, and rubber-tired dozers: Operating between 0 and 10 miles per hour over hard clay where rollover would be limited to a maximum roll angle of 360° down a slope of 30° maximum.

(2) For motor graders: Operating between 0 and 10 miles per hour over hard clay where rollover would be limited to 360° down a slope of 30° maximum.

(3) For crawler tractors and crawler-type loaders: Operating between 0 and 10 miles per hour over hard clay where rollover would be limited to a maximum roll angle of 360° down a slope of 45°.

(c) *Facilities and apparatus.* (1) The following material is necessary:

(i) Material, equipment, and tiedown means adequate to insure that the ROPS and its vehicle frame absorb the applied energy.

(ii) Equipment necessary to measure and apply loads to the ROPS. Adequate means to measure deflections and lengths should also be provided.

(iii) Recommended, but not mandatory, types of test setups are illustrated in Figure W–1 for all types of equipment to which this section applies; and in Figure W–2 for rubber-tired self-propelled scrapers; Figure W–3 for rubber-tired front-end loaders, rubber-tired dozers, and motor graders; and Figure W–4 for crawler tractors and crawler-type loaders.

(2) Table W–1 contains a listing of the required apparatus for all types of equipment described in paragraph (a) of this section.

TABLE W–1

Means to measure	*Accuracy*
Deflection of ROPS, inches.	±5% of deflection measured.
Vehicle weight, pounds.	±5% of the weight measured.
Force applied to frame, pounds.	±5% of force measured.
Dimensions of critical zone, inches.	±0.5 in.

(d) *Vehicle condition.* The ROPS to be tested must be attached to the vehicle structure in the same manner as it will be attached during vehicle use. A totally assembled vehicle is not required. However, the vehicle structure and frame which support the ROPS must represent the actual vehicle installation. All normally detachable windows, panels, or nonstructural fittings shall be removed so that they do not contribute to the strength of the ROPS.

(e) *Test procedure.* The test procedure shall include the following, in the sequence indicated:

(1) Energy absorbing capabilities of ROPS shall be verified when loaded laterally by incrementally applying a distributed load to the longitudinal outside top member of the ROPS, as shown in Figure W–1, W–2, or W–3, as applicable. The distributed load must be applied so as to result in approximately uniform deflection of the ROPS. The load increments should correspond with approximately 0.5 in. ROPS deflection increment in the direction of the load application, measured at the ROPS top edge. Should the operator's seat be offcenter, the load shall be applied on the offcenter side. For each applied load increment, the total load (lb.) versus corresponding deflection (in.) shall be plotted, and the area under the load-deflection curve shall be calculated. This area is equal to the energy (in.-lb.) absorbed by the ROPS. For a typical load-deflection curve and calculation method, see Figure W–5.

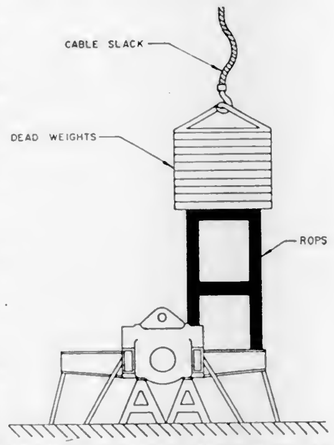

FIGURE W–1—Vertical loading setup for all types of equipment described in § 1518.1001(a).

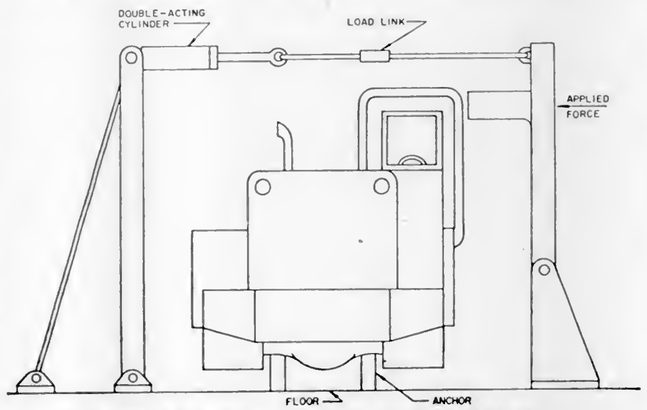

FIGURE W–2—Test setup for rubber-tired self-propelled scrapers.

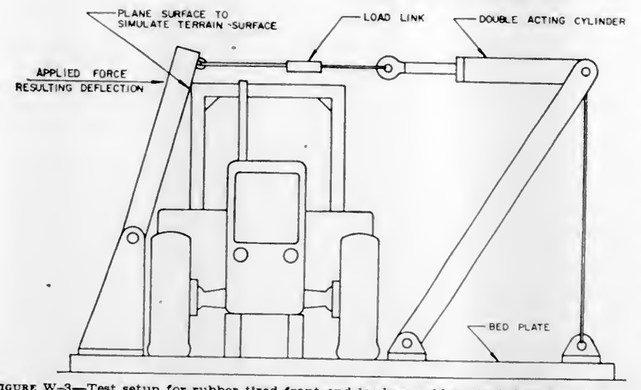

FIGURE W–3—Test setup for rubber-tired front-end loaders, rubber-tired dozers, and motor graders.

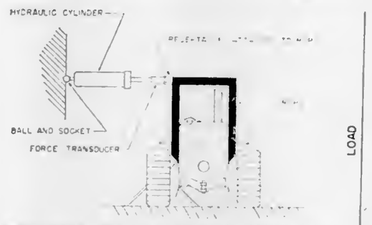

FIGURE W–4—Side-loading setup for crawler tractors and crawler loaders.

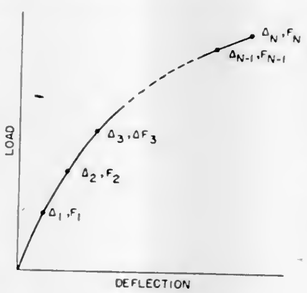

(2) To cover the possibility of the vehicle coming to rest on its top, the support capability shall be verified by applying a distributed vertical load to the top of the ROPS so as to result in approximately uniform deflection (see Figure W–1). The load magnitude is specified in paragraph (f)(2)(iii) of this section.

(3) The low temperature impact strength of the material used in the ROPS shall be verified by suitable material tests or material certification (see paragraph (f)(2)(iv) of this section).

(f) *Performance requirements.*—(1) *General performance requirements.* (i) No repairs or straightening of any member shall be carried out between each prescribed test.

(ii) During each test, no part of the ROPS shall enter the critical zone as detailed in SAE J397 (1969). Deformation of the ROPS shall not allow the plane of the ground to enter this zone.

(2) *Specific performance requirements.* (i) The energy requirement for purposes of meeting the requirements of paragraph (e)(1) of this section is to be determined by referring to the plot of the energy versus weight of vehicle (see Figure W–6 for rubber-tired self-propelled scrapers; Figure W–7 for rubber-tired front-end loaders and rubber-tired dozers; Figure W–8 for crawler tractors and crawler-type loaders; and Figure W–9 for motor graders. For purposes of this section, force and weight are measured as pounds (lb.); energy (U) is measured as inch-pounds.

Δ - TOTAL DEFLECTION
F - FORCE APPLIED

$$\text{AREA} = \frac{\Delta_1 F_1}{2} + (\Delta_2 - \Delta_1)\frac{F_1 + F_2}{2} + (\Delta_3 - \Delta_2)\frac{F_2 + F_3}{2} + \cdots + (\Delta_N - \Delta_{N-1})\frac{F_{N-1} + F_N}{2}$$

FIGURE W–5—Determination of energy area under force deflection curve for all types of ROPS equipment defined in § 1926.1001.

Incremental loading shall be continued until the ROPS has absorbed the amount of energy and the minimum applied load specified under paragraph (f) of this section has been reached or surpassed.

FIGURE W–6—Energy absorbed versus vehicle weight.

V 37-66
APR 5 72
XUM

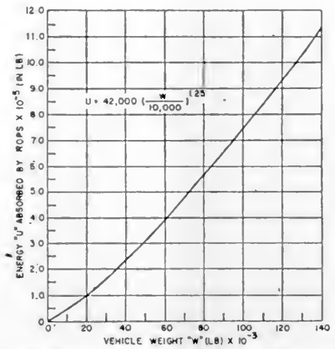

FIGURE W–7—Energy absorbed versus vehicle weight.

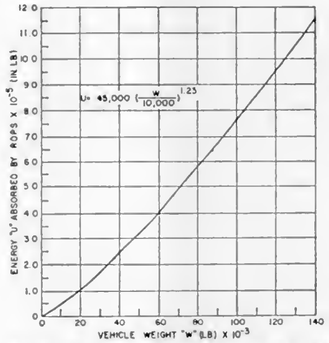

FIGURE W–8—Energy absorbed versus vehicle weight.

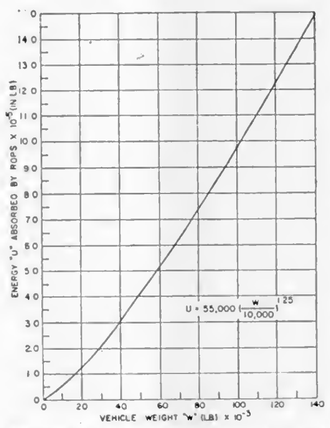

FIGURE W–9—Energy absorbed Versus Vehicle Weight.

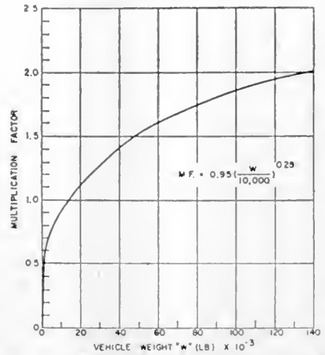

FIGURE W–10—Minimum horizontal load factor for self-propelled scrapers.

(ii) The applied load must attain at least a value which is determined by multiplying the vehicle weight by the corresponding factor shown in Figure W–10 for rubber-tired self-propelled scrapers; in Figure W–11 for rubber-tired front-end loaders and rubber-tired dozers; in Figure W–12 for crawler tractors and crawler-type loaders; and in Figure W–13 for motor graders.

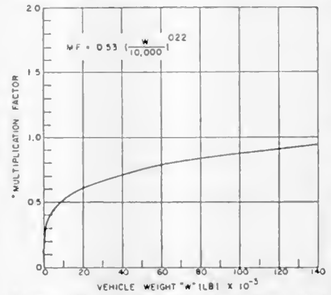

FIGURE W–11—Minimum horizontal load factor for rubber-tired loaders and dozers.

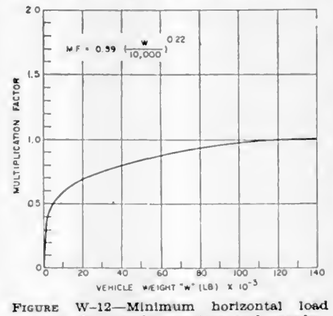

FIGURE W–12—Minimum horizontal load factor for crawler tractors and crawler-type loaders.

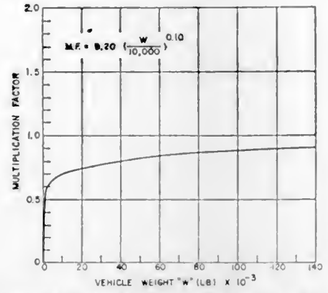

FIGURE W–13—Minimum horizontal load factor for motor graders.

(iii) The load magnitude for purposes of compliance with paragraph (e)(2) of this section is equal to the vehicle weight. The test of load magnitude shall only be made after the requirements of subparagraph (2)(i) of this paragraph are met.

(iv) Material used in the ROPS must have the capability of performing at zero degrees Fahrenheit, or exhibit Charpy V notch impact strength of 8 foot-pounds at minus 20° Fahrenheit. This is a standard Charpy specimen as described in American Society of Testing and Materials A 370, Methods and Definitions for Mechanical Testing of Steel Products (available at each Regional Office of the Occupational Safety and Health Administration). The purpose of this requirement is to reduce the tendency of brittle fracture associated with dynamic loading, low temperature operation, and stress raisers which cannot be entirely avoided on welded structures.

(g) *Definitions.* For purposes of this section, "vehicle weight" means the manufacturer's maximum weight of the prime mover for rubber-tired self-propelled scrapers. For other types of equipment to which this section applies, "vehicle weight" means the manufacturer's maximum recommended weight of the vehicle plus the heaviest attachment.

(h) *Source of standard.* This standard is derived from, and restates, the following Society of Automotive Engineers Recommended Practices: SAE J320a, Minimum Performance Criteria for Roll-Over Protective Structure for Rubber-Tired, Self-Propelled Scrapers; SAE J394, Minimum Performance Criteria for Roll-Over Protective Structure for Rubber-Tired Front End Loaders and Rubber-Tired Dozers; SAE J395, Minimum Performance Criteria for Roll-Over Protective Structure for Crawler Tractors and Crawler-Type Loaders; and SAE J396, Minimum Performance Criteria for Roll-Over Protective Structure for Motor Graders. These recommended practices shall be resorted to in the event that questions of interpretation arise. The recommended practices appear in the 1971 SAE Handbook, which may be examined in each of the Regional Offices of the Occupational Safety and Health Administration.

§ 1926.1002 Protective frame (ROPS) test procedures and performance requirements for wheel-type agricultural and industrial tractors used in construction.

(a) *General.* (1) The purpose of this section is to set forth requirements for frames for the protection of operators of wheel type agricultural and industrial tractors to minimize the possibility of operator injury resulting from accidental upsets during normal operation. With respect to agricultural and industrial tractors, the provisions of §§ 1026.1001 and 1926.1003 for rubber-tired dozers and rubber-tired loaders may be utilized in lieu of the requirements of this section.

(2) The protective frame which is the subject of this standard is a structure mounted to the tractor that extends above the operator's seat and conforms generally to Figure W–14.

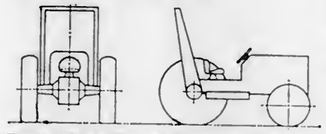

FIGURE W–14—Typical frame configuration.

(3) If an overhead weather shield is attached to the protective frame, it may be in place during tests: *Provided,* That it does not contribute to the strength of the protective frame. If such an overhead weather shield is attached, it must meet the requirements of paragraph (i) of this section.

(4) For overhead protection requirements, see § 1926.1003.

(5) If protective enclosures are used on wheel-type agricultural and industrial tractors, they shall meet the requirements of Society of Automotive Engineers Standard J168 (July 1970), Protective Enclosures, Test Procedures, and Performance Requirements. This standard appears in the 1971 SAE Handbook and may be examined in each Regional Office of the Occupational Safety and Health Administration.

(b) *Applicability.* The requirements of this section apply to wheel-type agricultural tractors used in construction work and to wheel-type industrial tractors used in construction work. See paragraph (j) of this section for definitions of agricultural tractors and industrial tractors.

(c) *Performance requirements.* (1) Either a laboratory test or a field test is required in order to determine the performance requirements set forth in subdivision (i) of this subparagraph.

(2) A laboratory test may be either static or dynamic. The laboratory test must be under conditions of repeatable and controlled loading in order to permit analysis of the protective frame.

(3) A field upset test, if used, shall be conducted under reasonably controlled conditions, both rearward and sideways, to verify the effectiveness of the protective frame under actual dynamic conditions.

(d) *Test procedures—general.* (1) The tractor used shall be the tractor with the greatest weight on which the protective frame is to be used.

(2) A new protective frame and mounting connections of the same design shall be used for each test procedure.

(3) Instantaneous and permanent frame deformation shall be measured and recorded for each segment of the test.

(4) Dimensions relative to the seat shall be determined with the seat unloaded and adjusted to its highest and most rearward latched position provided for a seated operator.

(5) If the seat is offset, the frame loading shall be on the side with the least space between the centerline of the seat and the upright.

(6) The low temperature impact strength of the material used in the protective structure shall be verified by suitable material tests or material certifications in accordance with § 1926.1001 (f)(2)(iv).

(e) *Test procedure for vehicle overturn*—(1) *Vehicle weight.* The weight of the tractor, for purposes of this section, includes the protective frame, all fuels, and other components required for normal use of the tractor. Ballast must be added if necessary to achieve a minimum total weight of 130 lb. (59 kg.) per maximum power takeoff horsepower at rated engine speed. The weight of the front end must be at least 33 lb. (15 kg.) per maximum power takeoff horsepower. In case power takeoff horsepower is unavailable, 95 percent of net engine flywheel horsepower shall be used.

(2) Agricultural tractors shall be tested at the weight set forth in subparagraph (1) of this paragraph.

(3) Industrial tractors shall be tested with items of integral or mounted equipment and ballast that are sold as standard equipment or approved by the vehicle manufacturer for use with the vehicle where the protective frame is expected to provide protection for the operator with such equipment installed. The total vehicle weight and front end weight as tested shall not be less than the weights established in subparagraph (1) of this paragraph.

(4) The test shall be conducted on a dry, firm soil bank as illustrated in Figure W–15. The soil in the impact area shall have an average cone index in the 0–6 in. (153 mm.) layer not less than 150 according to American Society of Agricultural Engineers Recommendation ASAE R313, Soil Cone Penetrometer (available in each Regional Office of the Occupational Safety and Health Administration). The path of travel of the vehicle shall be 12°±2° to the top edge of the bank.

(5) The upper edge of the bank shall be equipped with an 18 in. (457 mm.) high ramp as described in Figure W–15 to assist in tipping the vehicle.

(6) The front and rear wheel tread settings, where adjustable, shall be at the position nearest to halfway between the minimum and maximum settings obtainable on the vehicle. Where only two settings are obtainable, the minimum setting shall be used.

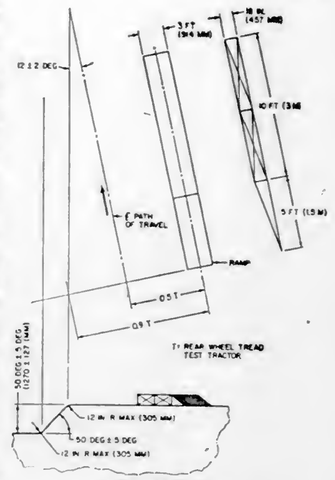

FIGURE W–15.

(7) *Vehicle Overturn Test—Sideways and Rearward.* (i) The tractor shall be driven under its own power along the specified path of travel at a minimum speed of 10 m.p.h. (16 km./hr.) or maximum vehicle speed if under 10 m.p.h. (16 km./hr.) up the ramp as described in subparagraph (5) of this paragraph to induce sideways overturn.

(ii) Rear upset shall be induced by engine power with the tractor operating in gear to obtain 3–5 m.p.h. (4.8–8 km./hr.) at maximum governed engine r.p.m. preferably by driving forward directly up a minimum slope of two vertical to one horizontal. The engine clutch may be used to aid in inducing the upset.

(f) *Other test procedures.* When the field upset test is not used to determine ROPS performance, either the static test or the dynamic test, contained in paragraph (g) or (h) of this section, shall be made.

(g) *Static test*—(1) *Test conditions.* (i) The laboratory mounting base shall include that part of the tractor chassis to which the protective frame is attached including the mounting parts.

(ii) The protective frame shall be instrumented with the necessary equipment to obtain the required load deflection data at the locations and directions specified in Figures W–16, W–17, and W–18.

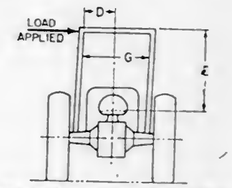

FIGURE W–16—Side load application.

V 37-166 APR 5 72 XUM

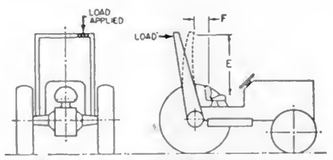

FIGURE W–17—Rear load application.

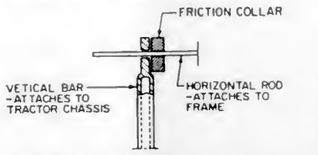

FIGURE W–18—Method of measuring instantaneous deflection.

(iii) The protective frame and mounting connections shall be instrumented with the necessary recording equipment to obtain the required load-deflection data to be used in calculating FSB (see paragraph (j)(3) of this section). The gauges shall be placed on mounting connections before the installation load is applied.

(2) *Test procedure.* (i) The side load application shall be at the upper extremity of the frame upright at a 90° angle to the centerline of the vehicle. The side load "L" shall be applied according to Figure W–16. "L" and "D" shall be recorded simultaneously. The test shall be stopped when:

(*a*) The strain energy absorbed by the frame is equal to the required input energy (E_{I_F}) or

(*b*) Deflection of the frame exceeds the allowable deflection, or

(*c*) The frame load limit occurs before the allowable deflection is reached in the side load.

(ii) The L–D diagram, as shown by means of a typical example in Figure W–19, shall be constructed, using the data obtained in accordance with subdivision (i) of this subparagraph.

(iii) The modified L_m–D_m diagram shall be constructed according to subdivision (ii) of this subparagraph and according to Figure W–20. The strain energy absorbed by the frame (E_a) shall then be determined.

(iv) E_{I_F}, FER, and FSB shall be calculated.

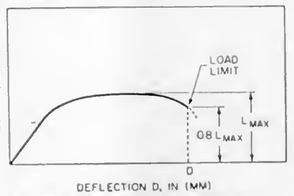

FIGURE W–19—Typical L–D diagram.

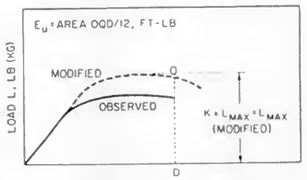

FIGURE W–20—Typical modified L_m–D_m diagram.

(h) *Dynamic test*—(1) *Test conditions.* (i) The protective frame and tractor shall meet the requirements of paragraphs (e) (2) or (3) of this section, as appropriate.

(ii) The dynamic loading shall be produced by use of a 4,410 lb. (2,000 kg.) weight acting as a pendulum. The impact face of the weight shall be 27 plus or minus 1 in. by 27 plus or minus 1 in. (686+ or −25 mm.) and shall be constructed so that its center of gravity is within 1 in. (25.4 mm.) of its geometric center. The weight shall be suspended from a pivot point 18–22 ft. (5.5–6.7 m.) above the point of impact on the frame and shall be conveniently and safely adjustable for height. (See Figure W–21.)

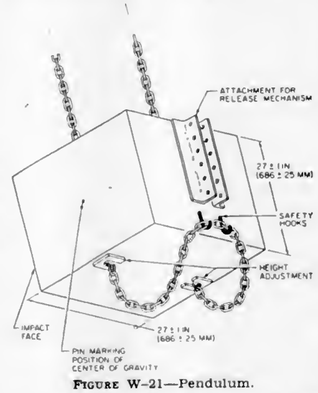

FIGURE W–21—Pendulum.

(iii) For each phase of testing, the tractor shall be restrained from moving when the dynamic load is applied. The restraining members shall be of 0.5–0.63 in. (12.5–16 mm.) steel cable and points of attaching restraining members shall be located an appropriate distance behind the rear axle and in front of the front axle to provide a 15°–30° angle between a restraining cable and the horizontal. The restraining member shall either be in the plane in which the center gravity of the pendulum will swing or more than one restraining cable shall give a resultant force in this plane. (See Figure W–22.)

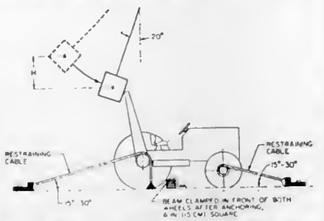

FIGURE W–22—Method of impact from rear.

(iv) The wheel tread setting shall comply with the requirements of paragraph (e)(6) of this section. The tires shall have no liquid ballast and shall be inflated to the maximum operating pressure recommended by the tire manufacturer. With specified tire inflation, the restraining cables shall be tightened to provide tire deflection of 6–8 percent of nominal tire section width. After the vehicle is properly restrained, a wooden beam 6 x 6 in. (15 x 15 cm.) shall be driven tightly against the appropriate wheels and clamped. For the test to the side, an additional wooden beam shall be placed as a prop against the wheel nearest the operator's station and shall be secured to the floor so that it is held tightly against the wheel rim during impact. The length of this beam shall be chosen so that when it is positioned against the wheel rim, it is at an angle of 25°–40° to the horizontal. It shall have a length 20–25 times its depth and a width two to three times its depth. (See Figures W–22 and W–23.)

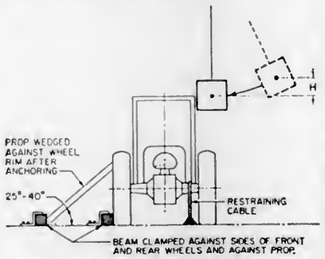

FIGURE W–23—Method of impact from side.

(v) Means shall be provided indicating the maximum instantaneous deflection along the line of impact. A simple friction device is illustrated in Figure W–23.

(vi) No repair or adjustments may be carried out during the test.

(vii) If any cables, props, or blocking shift or break during the test, the test shall be repeated.

(2) *Test procedure*—(i) *General.* The frame shall be evaluated by imposing dynamic loading to rear followed by a load to the side on the same frame. The pendulum dropped from the height (see definition "H" in paragraph (j)(3) of this section) imposes the dynamic load. The position of the pendulum shall be so selected that the initial point of impact on the frame shall be in line with the arc of travel of the center of gravity of the pendulum. A quick release mechanism should be used but, if used, shall not influence the attitude of the block.

(ii) *Impact at rear.* The tractor shall be properly restrained according to subparagraphs (1) (iii) and (iv) of this paragraph. The tractor shall be positioned with respect to the pivot point of the pendulum such that the pendulum is 20° from the vertical prior to impact, as shown in Figure W–22. The impact shall be applied to the upper extremity of the frame at the point which is midway between the centerline of the seat and the inside of the frame upright of a new frame.

(iii) *Impact at side.* The block and restraining shall conform to subparagraphs (1) (iii) and (iv) of this paragraph. The point of impact shall be that structural member of the protective frame likely to hit the ground first in a sideways accidental upset. The side impact shall be applied to the side opposite that used for rear impact.

(i) *Performance requirements*—(1) *General.* (i) The frame, overhead weather shield, fenders, or other parts in the operator area may be deformed but shall not shatter or leave sharp edges exposed to the operator, or violate dimensions as shown in Figures W–16 and W–17 as follows:

D=2 in. (51 mm.) inside of frame upright to vertical centerline of seat.
E=30 in. (762 mm.).
F=Not less than 0 in. and not more than 12 in. (305 mm.), measured at centerline front of seat backrest to crossbar along the line of load application as shown in Figure W–17.
G=24 in. (610 mm.).

(ii) The material and design combination used in the protective structure must be such that the structure can meet all prescribed performance tests at zero degrees Fahrenheit in accordance with § 1926.1001(f)(2)(iv).

(2) *Vehicle overturn performance requirements.* The requirements of this paragraph (i) must be met in both side and rear overturns.

(3) *Static test performance requirements.* Design factors shall be incorporated in each design to withstand an overturn test as prescribed in this paragraph (i). The structural requirements will be generally met if FER is greater than 1 and FSB is greater than K–1 in both side and rear loadings.

(4) *Dynamic test performance requirements.* Design factors shall be incorporated in each design to withstand the overturn test prescribed in this paragraph (i). The structural requirements will be generally met if the dimensions in this paragraph (i) are adhered to in both side and rear loads.

(j) *Definitions applicable to this section.* (1) SAE J333a, Operator Protection for Wheel-Type Agricultural and Industrial Tractors (July 1970) defines "agricultural tractor" as a "wheel-type vehicle of more than 20 engine horsepower designed to furnish the power to pull, carry, propel, or drive implements that are designed for agricultural usage." Since this Part 1926 applies only to construction work, the following definition of "agricultural tractor" is adopted for purposes of this subpart: "Agricultural tractor" means a wheel-type vehicle of more than 20 engine horsepower, used in construction work, which is designed to furnish the power to pull, propel, or drive implements.

(2) "Industrial tractor" means that class of wheeled type tractor of more than 20 engine horsepower (other than rubber-tired loaders and dozers described in § 1926.1001), used in operations such as landscaping, construction services, loading, digging, grounds keeping, and highway maintenance.

(3) The following symbols, terms, and explanations apply to this section:

E_{I_F}=Energy input to be absorbed during side loading. $E_{I_F}=723+0.4$ W ft.-lb. ($E'_{I_F}=100+0.12$ W', m.-kg.).

E_{I_F}=Energy input to be absorbed during rear loading. $E_{I_F}=0.47$ W ft.-lb. ($E'_{I_F}=0.14$ W', m.-kg.).

W=Tractor weight as prescribed in § 1926.1002 (e)(1) and (e)(3), in lb. (W', kg.).

L=Static load, lb. (kg.).

D=Deflection under L, in. (mm.).

L-D=Static load-deflection diagram.

L_m-D_m=Modified static load-deflection diagram (Figure W–20). To account for increase in strength due to increase in strain rate, raise L in plastic range to L x K.

K=Increase in yield strength induced by higher rate of loading (1.3 for hot rolled low carbon steel 1010–1030). Low carbon is preferable; however, if higher carbon or other material is used, K must be determined in the laboratory. Refer to Charles H. Norris, et al., Structural Design for Dynamic Loads (1959), p. 3.

L_{max}=Maximum observed static load.

Load Limit=Point on L–D curve where observed static load is 0.8 L_{max} (refer to Figure W–19).

E_a=Strain energy absorbed by the frame, ft.-lb. (m.-kg.) area under L_m-D_m curve.

FER=Factor of energy ratio, FER=E_a/E_{I_F}; also=E_a/E_{I_F}.

P_s=Maximum observed force in mounting connection under static load, L, lb. (kg.).

FSB=Design margin for mounting connection FSB=$(P_s/P_s)-1$.

H=Vertical height of lift of 4,410 lb. (2,000 kg.) weight, in. (H', mm.). The weight shall be pulled back so that the height of its center of gravity above the point of impact is defined as follows: H=4.92 +0.00190 W or (H'=125+0.107 W') (Figure W–24).

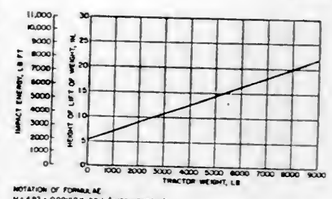

FIGURE W–24—Impact energy and corresponding lift height of 4,410 lb. (2,000 kg.) weight.

(k) *Source of standard.* The standard in this section is derived from, and restates, Society of Automotive Engineers Standard J334a (July 1970), Protective Frame Test Procedures and Performance Requirements. This standard shall be resorted to in the event that questions of interpretation arise. The standard appears in the 1971 SAE Handbook, which may be examined in each of the Regional Offices of the Occupational Safety and Health Administration.

§ 1926.1003 Overhead protection for operators of agricultural and industrial tractors.

(a) *General*—(1) *Purpose.* When overhead protection is provided on wheel-type agricultural and industrial tractors, the overhead protection shall be designed and installed according to the requirements contained in this section. The provisions of § 1926.1001 for rubber-tired dozers and rubber-tired loaders may be used in lieu of the standards contained in this section. The purpose of the standard is to minimize the possibility of operator injury resulting from overhead hazards such as flying and falling objects, and at the same time to minimize the possibility of operator injury from the cover itself in the event of accidental upset.

(2) *Applicability.* This standard applies to wheel-type agricultural tractors used in construction work and to wheel-type industrial tractors used in construction work. See § 1926.1002 (b) and (j). In the case of machines to which § 1926.604 (relating to site clearing) also applies, the overhead protection may be either the type of protection provided in § 1926.604 or the type of protection provided by this section.

(b) *Overhead protection.* When overhead protection is installed on wheel-type agricultural or industrial tractors used in construction work, it shall meet the requirements of this paragraph. The overhead protection may be constructed of a solid material. If grid or mesh is used, the largest permissible opening shall be such that the maximum circle which can be inscribed between the elements of the grid or mesh is 1.5 in. (38 mm.) in diameter. The overhead protection shall not be installed in such a way as to become a hazard in the case of upset.

V 37-66 APR 5 72 XUM

(c) *Test procedures—general.* (1) The requirements of § 1926.1002 (d), (e), and (f) shall be met.

(2) Static and dynamic rear load application shall be uniformly distributed along a maximum projected dimension of 27 in. (686 mm.) and a maximum area of 160 in.² (1,032 cm.²) normal to the direction of load application. The load shall be applied to the upper extremity of the frame at the point which is midway between the centerline of the seat and the inside of the frame upright.

(3) The static and dynamic side load application shall be uniformly distributed along a maximum projected dimension of 27 in. (686 mm.) and a maximum area of 160 in.² (1,032 cm.²) normal to the direction of load application. The direction of load application is the same as in § 1926.1002 (g) and (h). To simulate the characteristics of the structure during an upset, the center of load application may be located from a point 24 in. (610 mm.) (K) forward to 12 in. (305 mm.) (K) forward to 12 in. (305 mm.) (L) rearward of the front of the seat backrest to best utilize the structural strength. See Figure W–25.

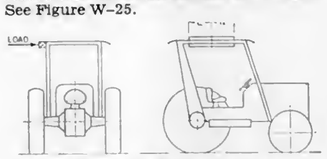

FIGURE W–25—Location for side load.

(d) *Drop test procedures.* (1) The same frame shall be subjected to the drop test following either the static or dynamic test.

(2) A solid steel sphere or material of equivalent spherical dimension weighing 100 lb. (45.4 kg.) shall be dropped once from a height 10 ft. (3,048 mm.) above the overhead cover.

(3) The point of impact shall be on the overhead cover at a point within the zone of protection as shown in Figure W–26, which is furthest removed from major structural members.

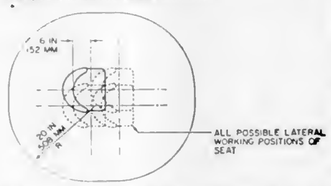

FIGURE W–26—Zone of protection for drop test.

(e) *Crush test procedure.* (1) The same frame shall be subjected to the crush test following the drop test and static or dynamic test.

(2) The test load shall be applied as shown in Figure W–27 with the seat positioned as specified in § 1926.1002(d)(4). Loading cylinders shall be pivotally mounted at both ends. Loads applied by each cylinder shall be equal within 2 percent, and the sum of the loads of the two cylinders shall be two times the tractor weight as set forth in § 1926.1002(e)(1). The maximum width of the beam illustrated in Figure W–27 shall be 6 in. (152 mm.).

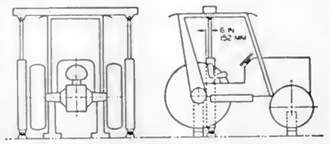

FIGURE W–27—Method of load application for crush test.

(f) *Performance requirements*—(1) *General.* The performance requirements set forth in § 1926.1002(l) (2), (3), and (4) shall be met.

(2) *Drop test performance requirements.* (i) Instantaneous deformation due to impact of the sphere shall not enter the protected zone as illustrated in Figures W–25, W–26, and W–28.

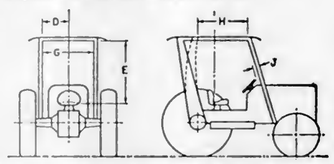

FIGURE W–28—Protected zone during crush and drop tests.

(ii) In addition to the dimensions set forth in § 1926.1002(l)(1)(i), the following dimensions apply to Figure W–28:

H=17.5 in. (444 mm.)
J=2 in. (50.8 mm.) measured from the outer periphery of the steering wheel.

(3) *Crush test performance requirements.* The protected zone as described in Figure W–28 must not be violated.

(g) *Source of standard.* This standard is derived from, and restates, the portions of Society of Automotive Engineers Standard J167 which pertain to overhead protection requirements. The full title of the SAE standard is: Protective Frame with Overhead Protection—Test Procedures and Performance Requirements. The SAE standard shall be resorted to in the event that questions of interpretation arise. The SAE standard appears in the 1971 SAE Handbook, which may be examined in each of the Regional Offices of the Occupational Safety and Health Administration.

2. Section 1926.602 is amended to read as follows:

§ 1926.602 Material handling equipment.

(a) • • •

(3) *Access roadways and grades.* (i) No employer shall move or cause to be moved construction equipment or vehicles upon any access roadway or grade unless the access roadway or grade is constructed and maintained to accommodate safely the movement of the equipment and vehicles involved.

(ii) Every emergency access ramp and berm used by an employer shall be constructed to restrain and control runaway vehicles.

• • • • •

(6) *Rollover protective structures (ROPS).* See Subpart W of this part for requirements for rollover protective structures and overhead protection.

• • • • •

Effective dates. The amendments to § 1926.602 shall become effective 30 days from publication of this document in the FEDERAL REGISTER. Effective dates for Subpart W are specifically set forth therein.

(Sec. 1, 83 Stat. 96, 97, adding sec. 107 to Public Law 87–581, 76 Stat. 357; sec. 6(b), 84 Stat. 1593; 29 U.S.C. 655, 40 U.S.C. 333)

Signed at Washington, D.C. this 28th day of March 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

[FR Doc.72–4973 Filed 4–4–72;8:45 am]

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

[CGFR 71–47b]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

North River, Mass.

This amendment adds regulations for the Union Street drawbridge and revises the regulations for the Route 3A drawbridge across the North River to require that the draws open on signal if at least 4 hours' notice has been given from May 1 through October 31 and at least 24 hours' notice has been given from November 1 through April 30. This amendment was circulated as a public notice dated October 6, 1971, by the Commander, First Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGFR 71–47a) on October 9, 1971 (36 F.R. 19703).

Thirty-seven letters and a petition with 225 signatures were received concerning this proposal. The petition and 20 letters supported this amendment on the grounds that the North River should be open along its entire length to large recreational craft.

Seventeen letters opposed these regulations on several grounds. Most writers opposed the regulations because opening the Union Street drawbridge would enable large recreational craft to use the waterway which they feel will pollute the river, cause the erosion of the river's banks by wake action and harm the marshes. Several writers felt that the North River should be preserved for small boats, canoes, and towboats. A few writers also objected to the regulations on the grounds that the North River is not suitable for navigation by large recreational craft above the Union Street bridge due to the existence of large rocks

in the waterway. In addition several writers objected to the expense of maintaining and operating the drawbridges. The Massachusetts Department of Natural Resources, Division of Conservation Services, however, has taken the position that these regulations would not have any deleterious long range effects on the North River and its wetlands.

The Coast Guard feels that there is significant public demand, as reflected in the petition and letters, to require these bridges to operate in accordance with regulations in this document. These regulations are intended to protect the public right to free and unobstructed navigation on the navigable waters of the United States. At a time when recreational boating is growing throughout the country, it is imperative that the Coast Guard assure that historical navigable waters, such as the North River, be available to all vessels capable of using them. These regulations make the North River available to the recreational boatman upon reasonable notice. In addition, it should make boating on the river safer, since vessels will be able to pass the bridges at high tide and avoid the strong currents that develop when the tide is ebbing.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.77 to read as follows:

§ 117.77 North River, Mass.; bridges at Route 3A and Union Street.

(a) From May 1 through October 31 the draws shall open on signal if at least 4 hours' notice has been given.

(b) From November 1 through April 30 the draws shall open on signal if at least 24 hours' notice has been given.

(c) The owner of or agency controlling each bridge shall post a notice of the contents of this section in such a manner that it can be easily read from an approaching vessel on both the upstream and downstream sides of the bridges. This notice shall state how advance notice should be given.

(d) The operating machinery of the draws shall be maintained in serviceable condition and the draws opened and closed at least every 3 months to make certain that the machinery will function properly for satisfactory operation.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4) (36 F.R. 19160))

Effective date. This revision shall become effective on May 1, 1972.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.72–5210 Filed 4–4–72;8:50 am]

[CGFR 71–163a]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Sinepuxent Bay, Md.

This amendment changes the regulations for the U.S. 50 highway bridge across Sinepuxent Bay, Ocean City, Md., to permit additional closed periods during the tourist season. This amendment was circulated as a public notice dated January 5, 1972, by the Commander, 5th Coast Guard District, and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGFR 71–163) on December 29, 1971 (36 F.R. 25162). Two replies were received. One supported this change. The other had no objection.

Accordingly, Part 117 of Title 33, of the Code of Federal Regulations is amended by revising § 117.245(f)(16) to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of drawtenders is not required.

• • • • •

(f) • • •

(16) Sinepuxent Bay, Ocean City, Md., U.S. Route 50 bridge. The draw shall open on signal, except that:

(i) From October 1 through April 30 at least 3 hours' notice is required from 6 p.m. to 6 a.m. and

(ii) From May through September 15, from 9 a.m. to 10 p.m. the draw shall open at 25 minutes after and 55 minutes after the hour for a maximum of 5 minutes to permit accumulated vessels to pass.

• • • • •

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Effective date. This revision shall become effective on May 5, 1972.

Dated: March 30, 1972.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.72–5211 Filed 4–4–72;8:50 am]

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 17—MEDICAL

Class II Dental Treatment

Section 17.123a is revised to read as follows:

§ 17.123a Eligibility for class II dental treatment without rating action.

When an application has been made for class II dental treatment under § 17.123(b), the applicant may be deemed eligible and dental treatment authorized on a one-time completion basis without rating action if:

(a) The examination to determine the need for dental care has been accomplished within 14 months after date of discharge or release unless delayed through no fault of the veteran, and sound dental judgment warrants a conclusion the condition originated in or was aggravated during service and the condition existed at the time of discharge or release from active service, and

(b) The treatment will not involve replacement of a missing tooth noted at the time of Veterans Administration examination except:

(1) In conjunction with authorized extraction replacement, or

(2) When a determination can be made on the basis of sound professional judgment that a tooth was extracted or lost on active duty.

(c) Individuals whose entire tour of duty consisted of active or inactive duty for training shall not be eligible for treatment under this section.

(72 Stat. 1114; 38 U.S.C. 210)

This VA Regulation is effective the date of approval.

Approved: March 29, 1972.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

[FR Doc.72–5229 Filed 4–4–72;8:51 am]

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

2-Chloro-1-(2,4,5-Trichlorophenyl) Vinyl Dimethyl Phosphate

A petition (PP 1F1090) was filed by the Shell Chemical Co., Suite 1103, 1700 K Street NW., Washington, D.C. 20006, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance for negligible residues of the insecticide 2-chloro-1-(2,4,5 - trichlorophenyl) vinyl dimethyl phosphate in the raw agricultural commodity milk at 0.02 part per million resulting from direct application of the insecticide to cattle and to the ceilings and walls of dairy barns. Subsequently, the petitioner amended the petition by proposing a tolerance of 0.5 part per million for residues of this insecticide in milk fat reflecting negligible residues of 0.02 part per million in milk.

Part 120, chapter I, title 21, was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, chapter III, title 21 was redesignated Part 180 and transferred to sub-

V 37-66 APR 5 72 XUM

chapter E, chapter I, title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The pesticide is useful for the purpose for which the tolerance is being established.

2. The tolerance on whole milk is not required as the residue is concentrated in the milk fat for which a tolerance of 0.5 part per million is being established.

3. Established tolerances for residues of this insecticide in the meat, fat, and meat byproducts of cattle will be adequate to cover residues resulting from the proposed uses on dairy cattle.

4. The tolerance established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.252 is amended by revising the paragraph "0.5 part per million * * *", as follows:

§ 180.252 2-Chloro-1-(2,4,5-trichlorophenyl)vinyl dimethyl phosphate; tolerances for residues.

* * * * * *

0.5 part per million in milk fat (reflecting negligible residues in whole milk) and the meat and meat byproducts of cattle.

* * * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4–5–72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: March 30, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72–5143 Filed 4–4–72;8:45 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

m-(1-Methylbutyl)phenyl Methylcarbamate and m-(1-Ethylpropyl) phenyl Methylcarbamate

A petition (PP 2F1190) was filed by Chevron Chemical Co., 940 Hensley Street, Richmond, CA 94804, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance for negligible residues of an insecticide that is a mixture of 75 percent *m*-(1-methylbutyl) phenyl methylcarbamate and 25 percent *m*-(1-ethylpropyl) phenyl methylcarbamate in or on the raw agricultural commodities rice and rice straw at 0.05 part per million.

Part 120, chapter I, title 21 was redesignated Part 420 and transferred to chapter III (36 F.R. 424). Subsequently, Part 420, chapter III, title 21 was redesignated Part 180 and transferred to subchapter E, chapter I, title 40 (36 F.R. 22369).

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The insecticide is useful for the purpose for which the tolerance is being established.

2. The proposed usage is not reasonably expected to result in residues of the insecticide in eggs, meat, milk, and poultry. The usage is in the category specified in § 180.6(a)(3).

3. The tolerance established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.255 is revised in both the heading and text to read as follows:

§ 180.255 *m*-(1-Methylbutyl)phenyl methylcarbamate and *m*-(1-ethylpropyl)phenyl methylcarbamate; tolerances for residues.

Tolerances are established for negligible residues of an insecticide that is a mixture consisting of 75 percent *m*-(1-methylbutyl) phenyl methylcarbamate and 25 percent *m*-(1-ethylpropyl) phenyl methylcarbamate in or on the raw agricultural commodities corn grain, fresh corn including sweet corn (kernels plus cob with husk removed), corn fodder and forage, rice, and rice straw at 0.05 part per million (such tolerances to cover residues of both components).

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC, 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4–5–72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: March 30, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72–5144 Filed 4–4–72;8:45 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

4-(2-Methyl-4-Chlorophenoxy) Butyric Acid

A petition (PP 1F1051) was filed by Rhodia Inc., Chipman Division, 120 Jersey Avenue, New Brunswick, NJ 08903, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance for negligible residues of the herbicide 4-(2-methyl-4-chlorophenoxy) butyric acid in or on the raw agricultural commodity peas with pods at 0.1 part per million.

Subsequently, the petitioner amended the petition by withdrawing the proposed tolerance on pea pods since it is understood that the term "peas" includes pods.

Part 120, chapter I, title 21 was redesignated Part 420 and transferred to chapter III (36 F.R. 424). Subsequently, Part 420, chapter III, title 21 was redesignated Part 180 and transferred to subchapter E, chapter I, title 40 (36 F.R. 22369).

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The herbicide is useful for the purpose for which the tolerance is being established.

2. The proposed use is not reasonably expected to result in residues of the herbicide in eggs, meat, milk, and poultry. The use is classified in the category specified in § 180.6(a)(3).

3. The tolerance established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), the following new section is added to Part 180, Subpart C, as follows:

§ 180.318 4-(2-Methyl-4-chlorophenoxy) butyric acid; tolerances for residues.

A tolerance of 0.1 part per million is established for negligible residues of the herbicide 4-(2-methyl-4-chlorophenoxy) butyric acid in or on the raw agricultural commodity peas.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4–5–72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: March 29, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72–5142 Filed 4–4–72;8:45 am]

PART 180—TOLERANCES AND EXEMPTION FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Subpart D—Exemptions From Tolerances

α-(o,p-Dinonylphenyl)-omega-Hydroxypoly (oxyethylene) and Mixtures of Corresponding Mono- and Dihydrogen Phosphate Esters

A petition (PP 1F1128) was filed by GAF Corp., 140 West 51st Street, New York, NY 10020, in accordance with provisions of the Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of an exemption from the requirement of a tolerance for residues of the following surfactants when used as inert ingredients in pesticide formulations applied to growing crops or to raw agricultural commodities after harvest.

1. α-(o,p-Dinonylphenyl)-*omega*-hydroxypoly(oxyethylene) produced by the condensation of 1 mole of dinonylphenol (the nonyl group is a propylene trimer isomer) with an average of 4–14 moles of ethylene oxide.

2. Mixtures of corresponding mono- and dihydrogen phosphate esters.

Part 120, chapter I, title 21 was redesignated Part 420 and transferred to chapter III (36 F.R. 424). Subsequently, Part 420, chapter III, title 21 was redesignated Part 180 and transferred to subchapter E, chapter I, title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that the compounds are useful for the purpose for which exemptions from tolerance are being established and that the exemptions established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.1001 is amended by alphabetically inserting two new items in the table in paragraph (c), as follows:

§ 180.1001 Exemptions from the requirement of a tolerance.

* * * * * *

(c) * * *

Inert ingredients	Limits	Uses
* * *	* * *	* * *
α-(o,p-Dinonylphenyl)-*omega*-hydroxypoly(oxyethylene) produced by the condensation of 1 mole of dinonylphenol (nonyl group is a propylene trimer isomer) with an average of 4–14 moles of ethylene oxide.		Surfactants, related adjuvants of surfactants.
α-(o,p-Dinonylphenyl)-*omega*-hydroxypoly(oxyethylene) mixture of dihydrogen phosphate and monohydrogen phosphate esters and the corresponding ammonium, calcium, magnesium, monoethanolamine, potassium, sodium, and zinc salts of the phosphate esters; the nonyl group is a propylene trimer isomer and the poly(oxyethylene) content averages 4–14 moles.		Do.
* * *	* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing with be adversely affected by the order and specify with partcularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4–5–72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: March 30, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

Standing Audit Committees Composed of Outside Directors

As far back as 1917, it was urged that auditors in the United States should be appointed or selected by the stockholders in accordance with the practice in Great Britain and in Canada, and that State laws or company bylaws "should contain a provision for an independent report on the affairs of the company by an auditor appointed by the stockholders."[1]

Following the McKesson-Robbins investigation, in 1940 the Commission advocated the adoption of a program for: (1) Current election of auditors at the annual meeting of stockholders; (2) nomination of auditors and arranging the details of the audit by a committee of nonofficer members of the board of directors; (3) addressing of the auditors' certificate, report or opinion to the stockholders; (4) mandatory attendance by auditors at the annual meetings of stockholders at which the audit report is presented; and (5) mandatory submission by auditors of a report on the amount of work done and of the reasons for noncompletion in situations where audit engagements are not completed. The stress of the program was on the responsibility of auditors to public investors.[2]

More recently others have supported these suggestions. In 1967, the executive committee of the American Institute of Certified Public Accountants recommended that standing audit committees of outside directors should nominate auditors for the annual audits of publicly owned companies and should discuss the audit work with the auditors appointed to perform the audit. The Institute considered that such standing audit committees "• • • can be a constructive force in the overall review of internal controls and financial structure, and give added assurance to stockholders as to the objectivity of corporate financial statements."[3]

A 1970 study has concluded that "[t]he potential for usefulness of corporate audit committees, • • • sufficiently exceeds the possibilities for disturbance that we strongly recommend that all companies with significant nonmanagement shareholder interests consider carefully the desirability of establishing an audit committee • • •."[4]

The Commission has a statutory duty to satisfy itself that the consolidated financial statements filed with it by publicly owned companies of increasingly sophisticated and interlocking affiliations satisfy the requirements of Rules 2-02 (b) and (c) of Regulation S-X (17 CFR 210.2-02 (b) and (c)) and/or Instruction 5 to Item 6 of Form S-1 (17 CFR 239.11), as appropriate. To this end, the Commission, in the light of the foregoing historical recital, endorses the establishment by all publicly held companies of audit committees composed of outside directors and urges the business and financial communities and all shareholders of such publicly held companies to lend their full and continuing support of the effective implementation of the above-cited recommendations in order to assist in affording the greatest possible protection to investors who rely upon such financial statements.

By the Commission.

[Release 34-9545]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Operation of Clearing and Settling System for Securities by National Securities Association

On November 4, 1971, in Securities Exchange Act Release No. 9380 and the FEDERAL REGISTER for November 10, 1971 at 36 F.R. 21525, the Securities and Exchange Commission published a proposal to adopt Rule 15Aj-3 (17 CFR 240.15Aj-3) under the Securities Exchange Act of 1934 (the Act). The Commission has received one comment letter. It has considered the comments and suggestions contained therein and has adopted the rule as stated below effective May 8, 1972.

The rule prescribes certain requirements applicable to a national association of securities dealers which establishes and operates facilities for clearing and settling securities transactions,[1] including the requirement that the applicable rules of the association incorporate as guides to interpretation and application certain public interest standards set forth in the Act and also that such rules of the association provide fair procedures for consideration of requests for or refusals of access to such system by customers, issuers, brokers and dealers. The rule also provides for the Commission review of adverse action by the association with respect to such requests for or refusals of access.[2]

Pursuant to section 15A(j) of the Act the NASD has submitted to the Commission amendments to its bylaws and a new schedule thereunder which, among other things, would provide complaint and hearing procedures for aggrieved persons who may be adversely affected by NCC action. The NASD has also submitted to the Commission pursuant to that section rules which, among other things, provide standards regarding who may obtain access to the system and the applicable rates to be charged those who clear through the system; standards for the inclusion or exclusion of securities from the system; standards for deleting securities from the list of cleared securities (i.e., those securities qualified for clearance through the system), and for exclusion of those who clear through the system for failure to comply with applicable regulatory standards. In accordance with section 15A(j), the Commission has not disapproved these amendments and rules. The Commission also has determined that these provisions would be consistent with Rule 15Aj-3.

Rule 15Aj-3 and its statutory basis. The rule relates specifically to the Commission's function to make sure that rules of a national securities association, among other things, "are designed to • • • remove impediments to and perfect the mechanism of a free and open market; and are not designed to permit unfair discrimination between customers or issuers, or brokers or dealers."

As stated in Release No. 9380, discharge of this function in the context of reviewing rules of an association (or its subsidiary) governing the operation of and access to a system of clearing and settling securities transactions is a novel problem in the administration of section 15A. The Commission, however, dealt with a similar problem when the Association proposed to establish the NASDAQ system, its system for providing automated quotations to members and the investing public. See Securities Exchange Act Release No. 8470 of December 16, 1968 and the FEDERAL REGISTER for December 24, 1968 at 33 F.R. 19167, announcing the adoption of Rule 15Aj-2 (17 CFR 240.15Aj-2). As the Commission indicated at that time, existing rules of the NASD (other than those of an organizational or procedural character) relate primarily to standards of business conduct or to conditions of membership. Apart from the possibility that the Commission may disapprove rules of this type which are on their face unlawful and/or in violation of the standards of the Act, the statute spells out a procedure whereby persons aggrieved as a result of the application of rules of conduct or rules limiting membership may have appropriate consideration of their grievance within the association and on review by the Commission. Rule 15Aj-3 provides a similar procedure where application of a rule of a national securities association or its subsidiary denies access to a facility for clearing and settling transactions which is maintained by the collective action of the association. The requirement of a fair and orderly procedure for consideration of specific access requests and grievance appears to the Commission essential to assure that such rules conform, in their actual operation, to the statutory requirements.

Commission action. The Securities and Exchange Commission, acting pursuant to the Securities Exchange Act of 1934, and more particularly sections 15A and 23(a) thereof, and deeming it in the public interest and for the protection of investors, hereby amends Part 240 of Chapter II of Title 17 of the Code of Federal Regulations by adopting § 240.15Aj-3 as set forth below, effective May 8, 1972.

§ 240.15Aj-3 Rules for a national securities association relating to a facility for clearing and/or settling securities transactions.

(a) Any national securities association which directly or indirectly adopts, or proposes to adopt, any rules providing for or regulating a system for the clearance and/or settlement of securities transactions shall incorporate in such rules a provision to the effect that insofar as such rules prescribe the conditions of access to such system, such rules shall be applied and interpreted in accordance with the standards of paragraph (b)(8) of section 15A of the Act, including the requirement that rules of such an association shall be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market, and not to permit unfair discrimination between customers or issuers, or brokers or dealers; and to assure that any disciplinary action pursuant to such rules shall not be excessive or oppressive, having due regard to the public interest.

(b) Such rules shall also provide a fair and orderly procedure with respect to the determination of whether any customer or issuer or broker or dealer may be excluded or limited in respect of requested access to such system including provisions:

(1) For notice of an opportunity to be heard upon the specific grounds for exclusion or limitation which are under consideration;

(2) That a record shall be kept; and

(3) That the determination shall set forth the specific grounds upon which the exclusion or limitation is based.

(c) In the event of any such exclusion or limitation, such action shall be subject to review by the Commission, on its own motion, or upon application by any person aggrieved thereby filed within 30 days after such action has been taken or within such longer period as the Commission may determine. In any proceeding for such review, if the Commission, after appropriate notice and opportunity for hearing, and upon consideration of the record before the association and such other evidence as it may deem relevant, determines that the specific grounds on which such action is based exist in fact and are in accord with the applicable rules of the association (including the provisions thereof required to be included by paragraph (a) of this section), the Commission shall by order dismiss the proceeding. Otherwise, the Commission shall by order set aside the action of the association and require the association to accord the aggrieved person access to such system or to take such other action as may be appropriate, subject to such terms and conditions as the Commission determines to be in accordance with the public interest and consistent with the rules of such association.

(Sec. 15A(j), 52 Stat. 1070, 15 U.S.C. 78o-3 (j); sec. 23(a), 48 Stat. 901, as amended, 49 Stat. 1379, sec. 8, 15 U.S.C. 78w)

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R-440; Order 451]

PART 35—FILING OF RATE SCHEDULES

PART 154—RATE SCHEDULES AND TARIFFS

Price Stabilization Criteria

MARCH 29, 1972.

On August 18, 1971, this Commission issued its Order No. 437 (36 F.R. 16902) stating that it was the general policy of the Federal Power Commission to implement the Economic Stabilization Act of 1970 as amended and Executive Order No. 11615 insofar as those laws pertain to the Commission's regulatory jurisdiction under the Natural Gas Act (52 Stat. 821, et seq. as amended), the Federal Power Act (41 Stat. 1063 et seq. as amended), and all other statutes vesting legislative authority in the Commission, including such regulatory definitions, orders, exceptions, and exemptions, as may be issued by the President or the Cost of Living Council.

On November 6, 1971, the Commission amended its original statement of policy in Order No. 437–A (36 F.R. 22367). The Commission reaffirmed its statement of policy promulgated in Order No. 437, took note of Executive Order No. 11627, and amendments to the regulations governing implementation of the Economic Stabilization Act of 1970, as amended. The Commission also noted that the objectives of the Economic Stabilization Act of 1970 are consistent with regulatory standards enunciated by Congress in the Federal Power Act and the Natural Gas Act. Specifically the objectives were stated to be consistent with the statutory standards which require the Commission among other things, to determine whether the rates established or proposed to be established by public utility and natural gas companies are just and reasonable. The Commission further stated that in discharging these statutory responsibilities through the regulatory process the Commission's regulatory purposes are consonant with objectives and purposes of the Economic Stabilization Act of 1970.

On March 17, 1972, the Price Commission amended Part 101—Coverage, Exemption and Classification of Economic Units, to Chapter I—Cost of Living Council, in Title 6—Economic Stabilization of the Code of Federal Regulations; Chapter II—Pay Board and Part 201—Stabilization of Wages and Salaries, to Title 6 of the Code of Federal Regulations; and Chapter III—Price Commission and Part 300—Price and Rent Stabilization to Title 6 of the Code of Federal Regulations, all set out in 37 F.R. 5701, March 18, 1972. Among other things these amendments add a new § 300.16a and call upon individual regulatory agencies to promulgate their own rules for implementing the Price Stabilization Act in accordance with the criteria set forth in that section.

The Commission will therefore amend its regulations under both the Federal Power Act and the Natural Gas Act to require that all applications for rate increases shall be accompanied by a special Price Stabilization Exhibit. This exhibit shall contain all of the necessary information by the applicant to demonstrate that the applicant's filing is in compliance with the intent and purposes of the Economic Stabilization Act of 1970, as amended, Executive Order Nos. 11615, 11627 and with the criteria also set out in the amendments to the Commission's regulations as hereinafter ordered. The exhibit and related testimony so filed, and any rebuttal thereto will be a part of the case and will be considered by the Commission in its overall determination as to whether the rate increase should or should not be granted.

The Commission finds:

(1) It is appropriate and in the public interest to establish criteria for the purpose of considering whether jurisdictional rate increases are consistent with the Economic Stabilization Act of 1970, as amended, and Executive Orders 11615 and 11627.

(2) The requirements of 5 U.S.C. 553 (b) for notice and hearing do not apply to this order.

(3) In addition, the provisions of 5 U.S.C. 553 do not apply because notice and public procedure are impracticable and contrary to the public interest in light of the regulations promulgated by the Price Commission at 6 CFR Part 101 pursuant to the Economic Stabilization Act of 1970 as amended.

Pursuant to sections 202, 205, 206, 301, 304, 307, and 309 of the Federal Power Act (49 Stat. 848, 851, 852, 854, 855, 856, 858; 16 U.S.C. 824a, 824b, 824e, 825, 825c, 825f, 825h) and sections 4, 5, 7, 8, 10, 14, and 16 of the Natural Gas Act (76 Stat. 72; 52 Stat. 823, 824, 825, 826, 828, 830; 56 Stat. 83, 84; 61 Stat. 459; 15 U.S.C. 717c, 717d, 717f(d), 717f(c), 717f(e), 717f(f), 717f(h), 717g, 717i, 717m, 717o) the Commission orders:

(A) Section 154.63(f) Part 154 Subchapter E—Chapter I, Title 18 of the Code of Federal Regulations as amended by adding Statement Q as follows:

§ 154.63 Changes in a tariff, executed service agreement or part thereof.

• • • • • •

(f) • • •

Statement Q—Price Stabilization Exhibit.

(a) All applications for rate increases shall be accompanied by a special Price Stabilization Exhibit. This exhibit shall contain all of the necessary information by the applicant to demonstrate that the applicant's filing is in compliance with the intent and purposes of the Economic Stabilization Act of 1970, as amended, Executive Order Nos. 11615, 11627 and with the criteria as hereinafter set out in (b) or with the special circumstances set forth in (c).

(b) These criteria are as follows:

(1) The increase is cost justified and does not reflect future inflationary expectations.

(2) The increase is the minimum required to assure continued, adequate, and safe service or to provide for necessary expansion to meet future requirements.

(3) The increase will achieve the minimum rate of return needed to attract capital at reasonable costs and will not impair the credit of the applicant.

(4) The increase does not reflect labor costs in excess of those allowed by Price Commission policies.

(5) The increase takes into account expected and obtainable productivity gains as determined under Price Commission policies.

(c) There are special circumstances which make the price increase in conformity with the Economic Stabilization Program although it does not meet any or all of the foregoing criteria. In making determinations under this subdivision, the Commission shall consider the following:

(1) The criteria set forth in (b) to the extent applicable.

(2) The past and current ratios of the utility's debt capital to the sum of its debt and equity capital and of the applicant's earnings to fixed charges available to pay those charges.

(3) Any financial data which relates to whether the applicant is entitled to a higher return on capital now than it was in the past.

(4) Direct and indirect labor costs, adjusted to reflect productivity gains, as determined by Commission policies; taxes; costs of materials and supplies; discretionary costs; whether any costs incurred or expected to be incurred are in excess of those allowed by Commission policies; and a comparison of all these costs and cost-related item between the current period and recent periods in the past.

(5) Any other factors which are relevant to the goals of the Economic Stabilization Program.

(d) Justification for price increases in conformity with the above criteria shall not be required for price increases resulting from the pass-through of special allowable costs including taxes (except income tax), purchased gas costs, and fuel cost. However, the criteria shall apply to labor cost unless otherwise specified by this Commission.

(e) The requirements for this exhibit shall not apply to any applicant's price increase where the rate base-cost of service criteria are not the basis for assessing a price increase under the terms of the Natural Gas Act and the rules, regulations, and orders promulgated thereunder.

(f) Under existing Commission regulations and applicable law, rate increases for producers of natural gas are determined on an area basis utilizing, inter alia, composite cost data after investigation and study of the various gas producing areas. This practice was established by Area Rate Proceeding, Docket No. AR 61–1, et al, Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in Permian Basin Area Rate Case, 309 U.S. 747 (1968). Small producers will not be required to file the exhibit since they are regulated under Order No. 428 (36 F.R. 5598, March 18, 1971) and its amendments and will be monitored for Price Stabilization purposes by using reports submitted pursuant to Order No. 428 as amended and § 154.104 of the Commission's regulations under the Natural Gas Act which requires filing of annual statements. Moreover, area maximum rates determined in conformity with the Natural Gas Act and intended to balance all interests are constitutionally permissible according to the U.S. Supreme Court. Ibid. Since the Commission will take into consideration the relationship between establishing an area ceiling and national economic stabilization goals in setting area rates, and because of the Price Commission Regulations, § 300.16a(d)(5), the requirements for filing the Price Stabilization Exhibit shall not apply to producers of natural gas. Staff shall develop Price Stabilization data on a composite basis in all area rate cases commenced on or before June 1, 1972.

(B) Section 35.13(b)(4)(iv), Part 35—Filings of Rate Schedules, of Subchapter B—Regulations under the Federal Power Act, as amended, of Chapter I of Title 18 of the Code of Federal Regulations is amended by adding Statement P as follows:

§ 35.13 Filing of changes in rate schedules.

• • • • • •

(b) • • •
(4) • • •
(iv) • • •

Statement P—Price Stabilization Exhibit.

(a) All applications for rate increases shall be accompanied by a special Price Stabilization Exhibit. This exhibit shall contain all of the necessary information by the applicant to demonstrate that the applicant's filing is in compliance with the intent and purposes of the Economic Stabilization Act of 1970, as amended, Executive Order Nos. 11615, 11627 and with the criteria as hereinafter set out in (b) or with the special circumstances set forth in (c).

(b) These criteria are as follows:

(1) The increase is cost justified and does not reflect future inflationary expectations.

(2) The increase is the minimum required to assure continued, adequate, and safe service or to provide for necessary expansion to meet future requirements.

(3) The increase will achieve the minimum rate of return needed to attract capital at reasonable costs and will not impair the credit of the applicant.

(4) The increase does not reflect labor costs in excess of those allowed by Price Commission policies.

(5) The increase takes into account expected and obtainable productivity gains as determined under Price Commission policies.

(c) There are special circumstances which make the price increase in conformity with the Economic Stabilization Program although it does not meet any or all of the foregoing criteria. In making determinations under this subdivision, the Commission shall consider the following:

(1) The criteria set forth in (b) to the extent applicable.

(2) The past and current ratios of the utility's debt capital to the sum of its debt and equity capital and of the applicant's earnings to fixed charges available to pay those charges.

(3) Any financial data which relates to whether the applicant is entitled to a higher return on capital now than it was in the past.

(4) Direct and indirect labor costs, adjusted to reflect productivity gains as determined by Commission policies; taxes; costs of materials and supplies; discretionary costs; whether any costs incurred or expected to be incurred are in excess of those allowed by Commission policies; and a comparison of all these costs and cost-related items between the current period and recent periods in the past.

(5) Any other factors which are relevant to the goals of the Economic Stabilization Program.

(d) Justification for price increases in conformity with the above criteria shall not be required for price increases resulting from the pass-through of special allowable costs including taxes (except income tax), purchased gas costs, and fuel cost. However, the criteria shall apply to labor cost unless otherwise specified by this Commission.

(e) The requirements for this exhibit shall not apply to any applicant's price increase where the rate base-cost of service criteria are not the basis for assessing a price increase under the terms of the Natural Gas Act and the rules, regulations, and orders promulgated thereunder.

(C) This order shall become effective 30 working days after issuance or upon the issuance of the Price Commission certificate of compliance, whichever first occurs, and shall terminate automatically when the price stabilization program is appropriately terminated by Executive order or Act of Congress.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB,
Secretary.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service [1]

[7 CFR Part 47]

PERISHABLE AGRICULTURAL COMMODITIES

Rules of Practice

Notice is hereby given that the U.S. Department of Agriculture is considering amending the rules of practice (7 CFR Part 47) issued pursuant to authority contained in the Perishable Agricultural Commodities Act, 1930 (46 Stat. 531 et seq., as amended; 7 U.S.C. 499a et seq.).

The Perishable Agricultural Commodities Act, 1930 (46 Stat. 531 et seq., as amended; 7 U.S.C. 499a et seq.), was amended by an act of Congress dated February 15, 1972 (Public Law 92–231), to provide that the Secretary shall order any commission merchant, dealer, or broker who is the losing party to pay the prevailing party, as reparation or additional reparation, reasonable fees and expenses incurred in connection with any oral reparation hearing. The purpose of the proposed amendment to the rules of practice is to provide procedures for the claiming of fees and expenses and adjudication of such claims.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment of the rules of practice should file the same, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 15th day after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendments are as follows:

1. Amend 7 CFR 47.19 by changing the number of paragraph (d) to paragraph (e).

2. Amend 7 CFR 47.19 by adding the following new paragraph (d) and amending paragraph (e) to read as follows:

§ 47.19 Post-hearing procedure before the examiner.

* * * * *

(d) *Claim for award of fees and expenses*—(1) *Filing.* Prior to the close of the hearing, or within 20 days thereafter, each party may file with the examiner a claim for the award of the fees and expenses which he incurred in connection with the oral hearing. No award of fees and expenses to the prevailing party and against the losing party shall be made unless a claim therefor has been filed, and failure to file a claim within the time allowed shall constitute a waiver thereof.

(2) *Fees and expenses which may be awarded to prevailing party.* Pursuant to section 7(a) of the act, the term "fees and expenses," as used herein is limited to: (i) Reasonable fees of an attorney or authorized representative for appearance at the hearing and for the taking of depositions necessary for introduction at the hearing; (ii) fees and mileage for necessary witnesses at the rates provided for witnesses in the courts of the United States; (iii) fees for the notarizing of a deposition and its reduction to writing; (iv) fees for serving subpoenas; and (v) other fees and expenses necessarily incurred in connection with the oral hearing. Fees and expenses which are not considered to be reasonable or necessarily incurred in connection with the oral hearing will not be awarded.

(3) *Form of claim.* A claim for fees and expenses shall be in the form of a written itemized statement of the fees and expenses claimed, which shall include an explanation of how each item was computed, to which there shall be attached an affidavit, made by the party or his authorized attorney or agent having knowledge of the facts, that each such item is correct and has been necessarily incurred in connection with the oral hearing in the proceeding and that the services for which fees are claimed were actually and necessarily performed.

(4) *Service of claim.* A copy of each such claim filed shall be served by the examiner on the other party or parties to the proceeding.

(5) *Objections to claim.* Within 10 days after being served with a copy of a claim for fees and expenses, the party so served may file with the examiner written objections to the allowance of any or all of the items claimed. If evidence is offered in support of an objection it must be in affidavit form. A copy of any such objections shall be served by the examiner on the other party or parties.

(6) *Reply to objections to claim.* A claimant who is served with a copy of objections to his claim may, within 10 days after such service, file with the examiner a reply to such objections. If evidence is offered in support of a reply it must be in affidavit form. A copy of any such reply shall be served by the examiner on the other party or parties.

(7) *Further inquiry by examiner.* Whenever it is deemed desirable or necessary for the proper disposition of a claim, the examiner may request statements as to specific matters from either or both parties. Any statements so furnished shall be served by the examiner on the other party.

(8) *Number of copies.* All documents or papers authorized by this paragraph to be filed with the examiner shall be filed in triplicate: *Provided,* That, where there are more than two parties to the proceeding an additional copy shall be filed for each additional party.

(e) *The examiner's report.* The examiner, with the assistance and collaboration of such employees of the Department as may be assigned for the purpose, and within a reasonable time after the filing of the transcript with the hearing clerk, as provided in paragraph (a) of this section, or within a reasonable time after the termination of the period allowed for the filing of the submissions of the parties allowed by this section, shall prepare, upon the basis of the evidence received at the hearing and with due consideration of submissions of the parties filed pursuant to paragraph (d) of this section, his report. Such report shall be filed with the hearing clerk and shall be prepared in the form of a final order for the signature of the Secretary, but shall not be served upon the parties, unless and until it shall have been signed by the Secretary, as hereinafter provided.

(Sec. 15, 46 Stat. 537, as amended; 7 U.S.C. 499o)

Done at Washington, D.C., this 3d day of April 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

Consumer and Marketing Service

[7 CFR Part 51]

SAWDUST PACK GRAPES

Proposed Termination of Standards for Grades [1]

Notice is hereby given that the U.S. Department of Agriculture is considering the termination of U.S. Standards for Sawdust Pack Grapes (7 CFR 51.2150—51.2178). These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposal should file the same, in duplicate, not later than April 15, 1972, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, where they will be available for public review during official hours of business (7 CFR 1.27(b)).

Statement of considerations leading to the proposed termination of the grade standards. The U.S. Standards for Sawdust Pack Grapes were issued in August 1928. They were last revised in October 1953, and amended in October 1962. Sawdust pack grapes are a premium pack designed for long storage and overseas shipment. The standards supplemented the table grape standards. In May 1971, the table grape standards were revised and at that time provisions for certification of grapes for export were incorporated. It was the intention of the Department of Agriculture to terminate the sawdust pack standards at that time. However, several shippers stated that termination then would cause undue hardship and financial loss due to the fact that they had on hand a stock of containers marked "U.S. No. 1 Sawdust Pack". It was believed that one season would be sufficient to allow for disposal of the containers on hand. As there was no duplication of grade designations between the two standards, this request for additional time was considered reasonable.

The 1972 shipping season will begin in May and it is the Department's belief, concurred in by grape industry representatives recently consulted, that it is in the best interest of the industry to terminate the sawdust pack standards. This will eliminate any chance of error or confusion on the part of members of the industry.

Therefore, it is proposed that the U.S. Standards for Sawdust Pack Grapes (European or Vinifera type) (7 CFR 51.2150—51.2178) be terminated effective May 1, 1972.

Dated: March 31, 1972.

G. R. GRANGE,
Acting Administrator.

[FR Doc.72-5246 Filed 4-4-72;8:54 am]

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act or with applicable State laws and regulations.

[7 CFR Part 911]

[Docket No. AO–267–A6]

LIMES GROWN IN FLORIDA

Decision and Referendum Order With Respect to Proposed Further Amendment of Marketing Agreement and Order

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Homestead, Fla., on November 10, 11, and 12, 1971, after notice thereof published in the FEDERAL REGISTER (36 F.R. 20610), on proposed further amendment of the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 36 F.R. 14125), regulating the handling of limes grown in Florida, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

On the basis of the evidence adduced at the hearing, and the record thereof, the recommended decision in this proceeding was filed on February 25, 1972, with the Hearing Clerk, U.S. Department of Agriculture. The notice of the filing of such recommended decisions, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER (F.R. Doc. 72–3153; 37 F.R. 4345), on March 2, 1972. No exception was filed.

The material issues, findings and conclusions, and the general findings of the recommended decision set forth in the FEDERAL REGISTER (F.R. Doc. 72–3153; 37 F.R. 4345), are hereby approved and adopted as the material issues, findings and conclusions, and the general findings of this decision as if set forth in full herein.

Further amendment of the marketing agreement and order. Annexed hereto and made a part hereof are documents entitled, respectively, "Marketing Agreement, as Amended, Regulating the Handling of Limes Grown in Florida," and "Order Amending the Order, as Amended, Regulating the Handling of Limes Grown in Florida" which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

Referendum order. Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby directed that a referendum be conducted among the producers who, during the period April 1, 1971, through March 31, 1972 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, within the production area (as defined in 7 CFR Part 911), in the production of limes for market to ascertain whether such producers favor the issuance of the said annexed order amending the order, as amended, regulating the handling of such limes.

Minard F. Miller, Fruit and Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture, P.O. Box 9, Lakeland, Fla. 33802, is hereby designated referendum agent of the Secretary of Agriculture to conduct said referendum.

The procedure applicable to such referendum shall be the "Procedure for the Conduct of Referenda in Connection with Marketing Orders for Fruits, Vegetables, and Nuts, Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended" (7 CFR 900.400 et seq.).

The ballots used in such referendum shall contain a summary describing the terms and conditions of the proposed amendatory order.

Copies of the aforesaid annexed order, of the aforesaid referendum procedure, and of this order may be examined in the office of the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250.

Ballots to be cast in each referendum, and other necessary forms and instructions, may be obtained from the referendum agent or any appointee.

It is hereby ordered, That all of this decision and referendum order, except the annexed marketing agreement, as amended, be published in the FEDERAL REGISTER. The regulatory provisions of the said marketing agreement are identical with those contained in the said order as further amended by the annexed order which will be published with this decision.

Dated: March 31, 1972.

RICHARD E. LYNG,
Acting Secretary.

Order [1] amending the order, as amended, regulating the handling of limes grown in Florida

§ 911.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of the order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held at Homestead, Fla., on November 10, 11, and 12, 1971, upon proposed amendments to the amended marketing agreement and Order No. 911, as amended (7 CFR Part 911; 36 F.R. 14125), regulating the handling of limes grown in Florida. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended and as hereby further amended, regulates the handling of limes grown in the designated production area in the same

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements to orders have been met.

V 37-166
APR 5 72
XUM

manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) The said order, as amended and as hereby further amended, is limited in application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of limes grown in the production area covered by the said order, as amended and as hereby further amended, that makes necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of limes grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of limes grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the said order, as amended and as hereby further amended, as follows:

1. The title of § 911.10 *Handle* and that part of the first sentence of the section preceding (a) are amended to read, respectively, as follows:

§ 911.10 Handle or ship.

"Handle" is synonymous with "ship" and means to sell, consign, deliver, or transport limes within the production area or between the production area and any point outside thereof: *Provided,* That such term shall not include: • • •

2. Section 911.30 *Procedure* is amended by revising paragraph (a) and adding a new paragraph (c) to read, respectively, as follows:

§ 911.30 Procedure.

(a) Except as provided in paragraph (c) of this section, six members of the committee, including alternates acting for members, shall constitute a quorum and any decision, recommendation or other action of the committee shall require not less than five concurring votes including one by a handler member or an alternate acting as such.

• • • • •

(c) For any recommendation of the committee pursuant to § 911.53 as to the total quantity of limes deemed advisable to be handled during any week immediately following two or more continuous weeks of regulation pursuant to § 911.54 nine members of the committee, including alternates acting for members, shall constitute a quorum and nine concuring votes shall be required. The quorum and voting requirements specified in this paragraph shall not apply to recommendations pursuant to § 911.53 to increase the quantity that may be handled during the applicable week or pursuant to § 911.54 to terminate or suspend a regulation.

3. Sections 911.50 through 911.56 are redesignated and amended as indicated:

a. Section 911.50 *Marketing policy* is redesignated as § 911.46 and amended by revising the introductory sentence and paragraph (d) to read, respectively, as follows:

§ 911.46 Marketing policy.

Each fiscal year prior to making any recommendation pursuant to § 911.47 or § 911.53, the committee shall submit to the Secretary a report setting forth its marketing policy for such fiscal year.

• • • • •

(d) The expected shipments of limes produced in the production area and in other areas including foreign competing areas, together with a schedule of estimated weekly shipments of limes during such fiscal year;

• • • • •

b. Section 911.51 *Recommendations for regulation* is redesignated as § 911.47 and in paragraph (a) of such section "§ 911.52" is changed to "§ 911.48".

c. Section 911.52 *Issuance of regulations* is redesignated as § 911.48.

d. Section 911.53 *Modification, suspension, or termination of regulations* is redesignated as § 911.49 and in paragraph (a) of such section "§ 911.52" is changed to "§ 911.48".

e. Section 911.54 *Exemption certificate* is redesignated as § 911.50 and in the first sentence of such section "§ 911.52" is changed to "§ 911.48".

f. Section 911.55 *Inspection and certification* is redesignated as § 911.51 and in the first sentence of such section "§ 911.52" is changed to "§ 911.48".

g. Section 911.56 *Limes not subject to regulations* is redesignated as § 911.52 and is amended by revising the text therein preceding paragraph (b) to read as follows:

§ 911.52 Limes not subject to regulations.

Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 911.41, 911.48, 911.51, and 911.54 through 911.58, and the regulation issued thereunder, handle limes (a) for consumption by charitable institutions; • • •

• • • • •

4. The following new sections are added immediately following § 911.52:

§ 911.53 Recommendation for volume regulation.

(a) The committee may, during any week, recommend to the Secretary the total quantity of limes which it deems advisable to be handled during the succeeding week: *Provided,* That such volume regulation shall not be recommended for any week except during the 18-week regulatory period beginning with the week preceding the first full week in May: *Provided, further,* That no such regulation shall be recommended after such regulations have been in effect for an aggregate of eight (8) weeks during the aforesaid period.

(b) In making its recommendations, the committee shall give due consideration to the following factors:

(1) Market prices for limes;

(2) Supply of limes en route to principal markets;

(3) Supply, maturity, and condition of limes in the production area;

(4) Market prices and supplies of fruits from competitive producing areas, including foreign competing areas, and supplies of other competitive fruits;

(5) Trend and level in consumer income; and

(6) Other relevant factors.

(c) At any time during a week for which the Secretary, pursuant to § 911.54, has fixed the quantity of limes which may be handled, the committee may recommend to the Secretary that such quantity be increased for such week. Each such recommendation, together with the committee's reason for such recommendation, shall be submitted promptly to the Secretary.

§ 911.54 Issuance of volume regulations.

Whenever the Secretary finds, from the recommendation and information submitted by the commitee, or from other available information, that to limit the quantity of limes which may be handled during a specified week of a regulatory period will tend to effectuate the declared policy of the act, he shall fix such quantity: *Provided,* That such regulations during a regulatory period shall not in the aggregate limit the volume of lime shipments for more than eight (8) weeks. The quantity so fixed for any week, may be increased by the Secretary at any time during such week. Such regulations may, as authorized by the act, be made effective irrespective of whether the season average price of limes is in excess of the parity price. The Secretary may upon the recommendation of the committee, or upon other available information, terminate or suspend any regulation pursuant to this section at any time.

§ 911.55 Prorate bases.

(a) Each person who desires to handle limes shall submit to the committee, at such time and in such manner as may be designated by the committee, and upon forms made available by it, a written application for a prorate base and for allotments as provided in this section and § 911.56.

(b) Such application shall be substantiated in such manner and shall be supported by such information as the committee may require.

(c) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the committee the factors considered in making the correction.

(d) Each week during the regulatory period when volume regulation is likely to be recommended for the following week, the committee shall compute a prorate base for each handler who has made application in accordance with the provisions of this section. The prorate base for each such handler shall be computed by adding together the handler's shipments of limes in the current season and his shipments in the immediately preceding seasons, if any, within the representative period, in which he shipped limes and dividing such total by a divisor computed by adding together the number of weeks elapsed in the current season and 18 weeks for each of such immediately preceding seasons within the representative period in which the handler shipped limes. For purposes of this section "representative period" means the two preceding seasons together with the current season; the term "season" means the 18-week period beginning with the week preceding the first full week in May of any fiscal year; and the term "current season" means the period beginning with the week preceding the first full week in May of the current fiscal year through the fourth full week preceding the week of regulation: *Provided,* That when official shipping records are available to the committee he said "current season" shall extend through the third full week preceding the week of regulation.

§ 911.56 Allotments.

Whenever the Secretary has fixed the quantity of limes which may be handled during any week, the committee shall calculate the quantity of limes which may be handled during such week by each person who has applied for a prorate base and for whom such a base was computed by the committee. Such quantity shall be the allotment of such person and shall be that portion of the total quantity fixed by the Secretary which, expressed in terms of percent, is equal to the percentage that such applicant's prorate base is of the aggregate of the prorate bases of all such applicants. The committee shall give reasonable notice in writing to each person of the allotment computed for him pursuant to this section.

§ 911.57 Overshipments.

During any week for which the Secretary has fixed the total quantity of limes which may be handled, any person who has received an allotment including any handler who received zero allotment computed pursuant to §§ 911.55 and 911.56 may handle, in addition to the total allotment available to him, an amount of limes equivalent to 10 percent of such total allotment or 50 bushels, whichever is the greater.

§ 911.58 Undershipments.

If any person handles during any week a quantity of limes, covered by a regulation issued pursuant to § 911.54, in an amount less than the total allotment available to him for such week, he may handle, during the next week, only, a quantity of limes, in addition to that permitted by the allotment available to him for such week, equivalent to such undershipment or 50 percent of the allotment issued to him for the week during which the undershipment was made, whichever is the lesser: *Provided,* That the committee, with the approval of the Secretary, may increase or decrease such percentage.

§ 911.59 Allotment loans and transfers.

(a) A person to whom an allotment has been issued for a particular week may lend or transfer all or part of such allotment to other persons to whom allotments also have been issued.

(b) Loaned or transferred allotment may be used only during the particular week for which issued.

(c) Each party to any loan or transfer, shall, prior to the handling of any limes covered by a loan or transferred allotment, notify the committee of the loan or transfer including the applicable dates, if any, of repayment.

(d) If no volume regulation is in effect in the week when a loan repayment is due the repayment requirement shall be deemed canceled.

(e) Any handler to whom an allotment has been issued and who desires to be a party to any such loan or transfer arrangement, may communicate such information to the committee. As a service to handlers, the committee shall act as a clearinghouse of such information and make it available to all such handlers upon request. However, as required by paragraph (c) of this section each party to any such loan or transfer shall, prior to the handling of any limes covered by the loan or transferred allotment, notify the committee of the loan or transfer, including the applicable dates, if any, of repayment.

[7 CFR Part 966]

TOMATOES GROWN IN FLORIDA

Notice of Recommended Decision and Opportunity To File Exceptions With Respect to Proposed Amendment of Marketing Agreement and Order

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, as amended (7 CFR Part 900), notice is hereby given to the filing with the Hearing Clerk of this recommended decision with respect to the proposed amendment of Marketing Agreement No. 125 and Order No. 966, both as amended (7 CFR Part 966), hereinafter referred to collectively as the "order," regulating the handling of tomatoes grown in the Florida production area. This regulatory program is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "act."

Interested persons may file written exceptions to this recommended decision in quadruplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the close of business on the 15th day after its publication in the FEDERAL REGISTER. All such communications will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. A public hearing was held during the 5-week period October 4–November 4, 1971 in Orlando, Fla., pursuant to a notice thereof published in the FEDERAL REGISTER on April 28, 1971 (36 F.R. 7969) and as amended on August 25, 1971 (36 F.R. 16677).

The purpose of the hearing was to collect evidence with which to reevaluate the basis and method for regulating the handling of Florida tomatoes differently for different stages of maturity. Such authority, now provided in § 966.52, has been used on several occasions in past years to impose different minimum size limitations on shipments of Florida grown mature green tomatoes than those imposed on tomatoes of more advanced maturity. As required by § 608e–1 of the act, identical minimum size limitations were imposed on imported tomatoes.

The regulations imposed under the order have been recommended by the Florida Tomato Committee and supported by the Florida tomato industry. However, importers of Mexican tomatoes and others have opposed such regulations, both in views filed under rule making proceedings and in the courts. On March 19, 1971, the U.S. Court of Appeals for the District of Columbia recommended that a hearing should be provided for on "novel and crucial" issues.

This hearing was held in response to the Court's ruling. All interested parties were given an opportunity to present pertinent evidence on the material issues.

Sixteen witnesses appeared including representatives of the Florida tomato industry and the Florida Tomato Committee, an importer of Mexican tomatoes, a tomato repacker, and a retailer. Staff members of the University of Florida and private consulting firms, an expert witness from the U.S. Department of Agriculture, and two representatives of consumer organizations also testified.

The testimony amounted to 4,238 pages. In addition 116 exhibits were identified or received in evidence.

Material issues. The material issues on the record of the hearing are as follows:

(1) The basis for regulating tomato shipments differently by maturity. Involved in this issue are the following matters relating to tomato production, harvesting, and handling in Florida:

(a) Season and scope of production;
(b) Classes of producers;
(c) Cultural practices;
(d) Vine ripe production;
(e) Mature green production;
(f) Districts;
(g) Packinghouse operations;
(h) Controlled atmosphere ripening;
(i) Machine harvesting;
(j) Tomato growth and size characteristics;

(2) The effect of regulating tomato shipments differently by maturity on

V 37 I 66 APR 5 72 XUM

Florida producers and others involved in the production and marketing of winter season tomatoes; and

(3) Whether § 966.51 *Recommendations for regulation*, should be amended to specify the factors to be considered in developing and recommending regulations.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

(1) The basis for regulating tomato shipments differently by maturity.

(a) *Season and scope of production.* Planting of tomatoes in Florida usually begins in midsummer and is active through the fall and early winter. Most acreage is direct seeded, although in some parts of the State growers transplant seedlings. The latter practice is more prevalent in the more northerly areas of Florida where the production season is shorter due to a cooler climate.

Annual production varies considerably from year to year, reflecting the vagaries of weather. But the long-term trend has been downward. Shipments during the 1970–71 marketing season of 13.3 million 40-pound cartons were 27 percent above those in 1969–70, but 12 percent below the average of the three preceding seasons.

Harvest of Florida's fresh tomato crop typically gets underway in late October and continues well into the following June. During the five most recent seasons (1966–67 through 1970–71), an average of 22 percent of the total seasonal shipments occurred in October through December, 33 percent were made during the months January through March, and 45 percent from April to the end of the season.

Throughout each of the five aforementioned seasons, Florida shipped both "mature green" and "vine ripe" tomatoes. These terms refer to the stage of maturity of the tomatoes at the time of inspection. A "mature green" tomato is one that is mature as defined by U.S. Standards for Fresh Tomatoes and the skin of which is completely green in color. The U.S. Standards definition of mature is "that the contents of two or more seed cavities have developed a jelly-like consistency and the seeds are well-developed."

A "vine ripe" tomato is also mature but the skin color has reached at least the breaker stage. Breaker means that there is a definite change in color from green to a tannish yellow, pink, or red on not more than 10 percent of the surface. In appearance, such a tomato is green with just a touch of yellow or pink, usually at the blossom end of the tomato.

Under the marketing order, the maturity of Florida tomatoes, including color as an indication of the degree of maturity, is officially determined at the packinghouse where tomatoes are inspected by the Federal-State Inspection Service. Such inspection is compulsory when a marketing order regulation is in effect requiring all shipments meet a specified size or grade and to provide a basis for collecting assessments needed to operate a marketing order program. Inspection is commonly used even when a market order program is not operating as a means of identifying the composition of particular lots being traded.

(b) *Classes of producers.* The terms vine ripe and mature green also are used to describe tomato growers in Florida in the sense that such terms indicate the particular maturity of tomatoes predominantly produced and harvested by such growers. Every grower when he plants an individual field has a basic intent to harvest tomatoes from that field as either mature green or vine ripe. His plans are influenced by many factors including type of soil, climate, the prospective supply of labor while the crop is growing and at harvest, and the packinghouse facilities that will be available to handle his harvested tomatoes.

The record shows that most growers specialize in harvesting just one maturity although a few persons have tomato operations so organized as to produce and harvest both vine ripe and mature green tomatoes. The record also shows that all fresh tomato growers, whether specialists or not, may at some time harvest both mature green and vine ripe tomatoes from their fields. As shown later herein, this results primarily from practical considerations in commercial harvesting practices.

(c) *Cultural practices.* The initial activities of preparing the soil and planting the tomato seed or seedlings are essentially the same for both maturities. But the vines usually are handled differently and harvesting practices for a vine ripe tomato operation vary greatly compared with one in which tomatoes are picked primarily mature green.

As the tomato vines grow they are either left on the ground or "staked". In staking tomatoes, the vines are tied to stakes or may be supported by a trellis-like system constructed of strings tied to stakes set at intervals in the row, and their growth is directed upward. The staked vines, unlike ground grown, are pruned and grow taller. They produce larger tomato fruit and a greater total quantity than ground grown vines and, because the tomatoes do not touch the ground, the incidence of disease is reduced.

Tomatoes, in both stake and ground culture, grow larger and mature earlier at the lower part of the vine. The quantity and size of the fruit progressively decreases toward the top of the vine.

(d) *Vine ripe production.* Tomatoes intended to be harvested as vine ripes are "staked". Such staking results in the tomato fruit being more accessable to the pickers and because, unlike ground grown, the vine does not have to be picked up and turned to expose the fruit, there is less damage to the vine than otherwise would result from the frequent harvesting required in a vine ripe operation. Vine ripe fields in Florida generally are picked every other day and all tomatoes showing "color" are picked. The frequent picking schedule is necessary in order to pick the vine ripes as close as possible to the breaker stage, i.e., when the fruit is almost entirely or predominately green. Tomatoes which are picked mature green or as breakers usually have a firm internal texture and a relatively tough surface. If left on the vine a "breaker" could turn red within a few days. As the fruit turns pink and then red, it becomes progressively softer and less able to withstand the frequent handling involved in a commercial tomato harvest, packing, and marketing operation without suffering bruising and other deterioration.

Harvesting of a vine ripe tomato field may continue for several months. However, as the vines get older and yields decline, the vine ripe grower may decide that continued harvest of the field would be uneconomical. Under such circumstances, he will pick both vine ripe and mature green tomatoes as he cleans out the field.

The record shows that the relative importance of "true" vine ripe tomato producers in Florida has been declining in terms of numbers of growers and the volume of their production. However, such producers harvest tomatoes during most of the season, and account for a significantly large portion of the tomato production in several districts of the production area in Florida.

(e) *Mature green production.* In a mature green tomato harvest operation, most fields are picked twice, but occasionally a third picking will be made if the condition of the remaining crop is suitable for such harvest and the market is relatively strong.

As the time for first picking of a mature green field nears, the grower must assess the progress of the tomato crop and decide whether enough fruit are sufficiently mature to warrant sending in a picking crew. The producer considers various external characteristics of his tomatoes which he can associate by experience with adequate maturity. He may squeeze the fruit to gauge its firmness. Some tomatoes may be cut—if the seeds give way before the edge of the knife and are not cut, the tomato is mature. Another common test is the amount of "colored" (vine ripe) tomatoes in the field. Usually a grower will pick only "vine ripe" tomatoes at first, and may do this several times until he decides that there are sufficient mature tomatoes in a field to warrant the initial full scale harvest. Then he has his crew pick every mature tomato. While most of the tomatoes will be mature green, some will have reached the breaker (vine ripe) stage.

The second and occasional third pickings occur at 7- to 10-day intervals. Within these intervals, tomatoes left on vines continue to grow in size and increase in maturity. Some vine ripe tomatoes are included in every subsequent mature green picking and constitute a significant economic commodity to the grower. The proportion of vine ripes included in each harvest of mature greens varies, primarily because of the effects of weather on the growth of the tomatoes. During unusually warm weather, the amount of vine ripes in a picking might

be above average if the harvest crews were unable to keep up with the crop; i.e. the tomatoes would grow unusually fast during the normal time interval between harvests. One witness testified that on occasion vine ripes account for up to 20 percent of the production from his basically mature green harvest operation. Conversely, when temperatures are low, the overall growth of tomatoes is slowed and the incidence of vine ripes in a second or third picking of mature greens may be relatively low.

Because of its more advanced stage of maturity, a vine ripe tomato is more tender than a mature green tomato and therefore usually requires special handling. When a mature green tomato grower makes the preliminary harvests of vine ripes, small containers may be used in the field to avoid pressure bruising. But when the full scale picking occurs, all tomatoes usually are placed in 60- to 90-pound field crates, and in some areas in pallet boxes which hold much larger amounts.

The largest portion of mature green tomatoes is produced on vines which lie on the ground. However, some tomatoes to be harvested mature green also may be staked. This practice is increasing in those areas of Florida where soil structure is suitable for the use of stakes. Staking of mature green fields is more expensive than allowing the vine to stay on the ground, but as with vine ripe culture, it results in less vine damage and better yields. In contrast to a staked vine ripe operation wherein tomatoes are picked at frequent intervals over several months, the staked mature green field is harvested only two or three times. Although the mature green harvest operation theoretically could be changed to a vine ripe operation, this would be impractical because a sharp increase in labor would be required, and as will be shown later, the harvest operation must be geared to the capacity of the packinghouse which will handle the tomatoes.

(f) *Districts.* The types of cultural systems used by Florida growers are related in part to soil and climatic factors, and vary by District within the State. District 1 is comprised of Dade County and is the southern-most tomato producing area in the State. Although a few people grow a small amount of vine ripe tomatoes on a trellis or hydroponically, all large tomato operations in the District are organized for mature green production. In this District, mature green tomatoes are harvested from vines on the ground, planted in soil composed of crushed coral rock. Stakes are not used since it is impracticable to drive them into the underlying coral. Harvest of the Dade County mature green crop usually begins in mid-November and continues into the following May. During the 1970–71 season, 164 million pounds of tomatoes were shipped from District 1, of which 93 percent were mature greens and 7 percent were vine ripe.

District 2 is in the Southeastern corner of the Florida peninsula and includes the Counties of Brevard, Broward, Glades, Indian River, Martin, Osceola, Okeechobee, Palm Beach, and St. Lucie. Tomato production is concentrated in sandy soils along the Atlantic Coast. Vine ripe culture is dominant in the more southern coastal area where the Gulf Stream moderates winter temperatures. Harvest begins in November and terminates during the following spring. The last shipments during the 1970–71 season from Pompano, the center of the area's vine ripe production and marketing, were reported on May 28, 1971. About 93 percent of the total seasonal shipments of 63 million pounds from the district's south coastal area were tomatoes of vine ripe maturity.

Mature green "ground" production is the prevalent practice in the more northerly Fort Pierce area of District 2; tomatoes there are grown for both fall and spring season harvest. For the entire 1970–71 marketing season, shipments reported from the Fort Pierce shipping point amounted to 96 million pounds, of which 96 percent were mature green.

District 3 is in the Southwestern corner of the peninsula, including the Counties of Charlotte, Collier, Hendry, Lee, and Monroe. Tomato growers in this District use all three basic types of culture—vine ripe and mature greens on stakes and mature greens on the ground. Vine ripe production is concentrated on lands close to the ocean, while green tomato operations are inland. Harvest is continuous from November into the following June, with seasonally heaviest shipments typically occurring in December and May. Shipments amounted to 115 million pounds in 1970–71; about 80 percent were mature green.

District 4 is on the west coast of Florida and includes the Counties of De Soto, Hardee, Highlands, Hillsborough, Manatee, Pinellas, Polk, and Sarasota. Tomato production is concentrated in the Manatee-Ruskin-Wauchula area, which is southeast of Tampa. Virtually all tomatoes are grown on stakes for harvest as mature greens. The 1970–71 tomato shipments from this area totaled 124 million pounds, 92 percent being mature green. Shipments begin in late October or early November and continue until frosts occur, usually during the first half of December. Spring crop harvest usually starts in April and runs into June.

Each of the Districts have unique characteristics with regard to tomato production and marketing. Nevertheless, producers in the various Districts are growing the same commodity in about the same manner as their neighbors, harvesting and handling their tomatoes in essentially the same way albeit at different stages of maturity, and selling them in the same market, often at the same time. The result is a continuous flow to market of both mature green and vine ripe tomatoes throughout Florida's November–June season. During the 1970–71 marketing season Florida's shipments totalled 562 million pounds, of which 81 percent were mature green and 19 percent were vine ripe.

(g) *Packinghouse operations.* Vine ripe and mature green tomatoes are not only harvested differently, they also are handled differently.

Tomatoes harvested in a vine ripe operation are hauled from the field to a packinghouse where they are washed, waxed, mechanically segregated by size using sizing belts, and graded. They are then segregated by color so they can be placed in highly stratified packs such as 5 x 6 pinks, 5 x 6 light pinks, and 5 x 6 breakers. While many of the packinghouse operations have been mechanized, the color separation process depends upon the human eye and hand, resulting in relatively large labor requirements for a vine ripe packing operation. Most vine ripes are packed in 20-pound cartons, but special containers which provide additional protection for the product also are used. Some operators will individually wrap vine ripes to provide cushioning for the tomato during transportation and marketing.

Tomatoes picked during a mature green harvest go through essentially the same process. They are hauled in field boxes to the packinghouse where they are first sorted to remove those with "color." Tomatoes showing color move to a "pink" machine on which they are handled as indicated above for the tomatoes from a vine ripe operation.

The sorted out mature green tomatoes go to a "green" machine whereon they are segregated by size, graded, and jumble packed in cardboard containers. Since there is no need for a color separation, labor requirements are much less to operate a green than a pink-machine. A 40-pound carton is the most common container for mature greens but smaller containers are becoming more popular.

Although essentially the same type of machinery is used to process vine ripe and mature green tomatoes, the organization and speed of operation is different. Since vine ripes are segregated by size and then color, they must be sorted an additional time than is the case for mature greens. Belts run slower for vine ripes than mature green in order to reduce bruising of the more tender vine ripes, and to facilitate visual color selection.

A typical tomato packinghouse is equipped to specialize in the handling of a particular maturity, but as noted some have secondary machinery so that both mature green and vine ripe tomatoes can be graded and packed. This specialization in packinghouse equipment is directly associated with the harvesting practices of the producers whose tomatoes are graded in such houses. Thus, in District 4 where virtually all tomatoes are produced to be harvested as mature greens, the bulk of the machinery in the packinghouse is designed to handle mature greens but each house will have a small "pink" machine for use in grading the vine ripe tomatoes that are picked incidental to mature green harvest. This specialization reduces the grower's flexibility in harvesting tomatoes with regard to the maturity at which such tomatoes may be picked. A basically mature green grower must time his harvests so that the incidence of vine ripes does not ex-

V 37-166 APR 5 72 XUM

ceed the capacity of the vine ripe machine in the packinghouse handling his primarily mature green tomatoes. Otherwise his vine ripes will have to be left in the field or, if picked, dumped at the packinghouse.

Due to the additional handling required for vine ripe tomatoes—encompassing more labor, and different machinery and packages—the costs of such handling and preparation for market are substantially higher than those incurred for mature green tomatoes. Data in the record show that packing and selling costs run about 25 percent higher for vine ripes. When harvest charges are taken into account, the total cost of picking, packing, and selling tomatoes during the 1970–71 season averaged 4.6 cents per pound for mature greens as compared with 7.2 cents per pound for vine ripes.

The sized, graded, and packaged tomatoes usually are loaded directly on trucks or rail cars for transporting to market although when supplies are relatively large some may be held in the packinghouse for a day or more until sold. During periods of warm weather, refrigeration is commonly used both in the packinghouse and during transportation to maintain quality and retard ripening.

(h) *Controlled atmosphere ripening.* As a tomato ripens, it emits ethylene gas and the rate of emission increases as the fruit approaches a fully ripe condition. The introduction of additional ethylene into closed tomato ripening rooms under controlled conditions merely hastens the ripening process, with the further result of having the tomatoes all ripen at a uniform rate. The increasing use of smaller containers for mature green tomatoes is associated with the practice of gassing tomatoes. In this process, mature greens are placed in a room in which humidity and temperature are controlled. Ethylene gas is injected into the room and the tomatoes remain there for a day or two until the desired color appears. Since the tomatoes in the room tend to ripen uniformly, packinghouse operators can pack mature green tomatoes in 20- or 30-pound cartons, ripen them in a controlled atmosphere room and ship them direct to retail outlets, thus bypassing the repacking (ripening) operation in the terminal market.

Industry witnesses testified that the introduction of additional ethylene is not detrimental to a tomato. On the contrary, in their opinion the process hastens maturity and actually improves the quality of the product ultimately available to the consumer because there is less damage to tomatoes as compared with that which occurs during the repeated handling required for ordinary ripening. By the latter method, a lot of tomatoes often may be sorted several times over a period of days by the repacker as he attempts to obtain tomatoes of uniform color in the package he sends to the retail outlets.

(i) *Machine harvesting.* Because of rising wage rates and a decline in the supply and quality of field labor, efforts are being made to develop a method or system by which fresh tomatoes can be effectively harvested by machines. The two major parts of such a system are a mechanical harvester that will operate efficiently under various soil conditions in Florida, and a tomato variety with sufficient strength to withstand the buffeting that occurs during harvest and which ripens with a high degree of uniformity. The latter characteristic is essential since each field will be machine picked only once; the plant will be severed from its roots, thus terminating further production.

The record shows that the machine harvesting system now in the testing stage is primarily a mature green operation. A witness testified to his belief that when the use of such a system becomes widespread and general, Florida growers will continue to harvest and market both mature green and vine ripe tomatoes. It is expected that they will continue to use the amount of "color" in the field as an indication of maturity, hand-picking the "color" one or more times until the field of tomatoes reaches the stage of maturity which justifies complete harvest by machine. Even then, it is anticipated that there will be vine ripe tomatoes among the machine harvested crop. And because of differences in production schedules of the various growers, at any given time throughout a season some growers probably will be hand picking only vine ripe tomatoes while others will be machine harvesting predominantly mature green tomatoes. Thus, both vine ripe and mature green tomatoes will be marketed simultaneously.

(j) *Tomato growth and size characteristics.* A tomato becomes "mature green" as many as 21 days before it reaches the so-called breaker stage, at which stage it is commonly considered to be "vine ripe". During that interval or maturation period of up to 21 days, the tomato continues to increase in size and weight according to the testimony of industry witnesses based upon their many years of experience in producing tomatoes. These witnesses differed however in their judgment as to the extent of such increases.

Research on the extent of growth during the maturation period is limited. The U.S. Department of Agriculture has published two documents, which were placed in evidence, containing material which relates to this matter. The more recent publication dealt with a study performed in Mississippi in the late 1930's. The author reported a substantial gain of 12 percent in tomato size took place during the last 4 days prior to breaking and becoming vine ripe. However, he did not discuss his method of analysis and it is impossible to determine whether the observed size increase related to diameter, volume or some other measure.

The other publication described a research project undertaken shortly after World War I. The research was performed in northern Virginia and southern Florida with a tomato variety which has not been used for many years. Average growth in Virginia during the usual period of maturation amounted to about a fifth of an inch, whereas the experiment in Florida showed a gain of slightly over one-third of an inch. The tomatoes in Florida were grown under weather conditions of extreme stress which may have been responsible for the erratic growth pattern observed, comprised of an especially large increase during the 7-day period beginning 21 days before breaking and becoming vine ripe, and a small increase thereafter. Nevertheless, the growth pattern observed in this experiment suggests that there was a significant increase in size during the 21-day period of maturation.

The differences in tomato-growth rates during maturation, as measured in these USDA research projects and as testified to by various witnesses, are indicative of the variation in growth that may occur because of differences in such factors as cultural practices, varieties, type of soil, and season of production, and to the influence of short-run changes in weather.

The relative sizes of vine ripe and mature green tomatoes—of varieties now commonly used and as harvested over many weeks during a recent winter season—can be ascertained from shipment data compiled by the Florida Tomato Committee.

Each season since reactivation of the marketing order in 1968, the Florida Tomato Committee has reported, by grade and size, all shipments regulated under the marketing order. During the first two seasons these data gave some indication of the general size relationship among tomatoes of different maturities, but the data were not complete because only interstate shipments were regulated and therefore recorded. The quantity and size composition of Florida tomatoes that moved to market within the State were unknown.

In addition, the Florida shipment data for those seasons (1968–69 and 1969–70) provided no insight into the quantity of saleable tomatoes which were not marketed. When total supplies of tomatoes are larger than market demand, prices are depressed and some of the smaller and less valuable tomatoes are not shipped. During such periods of low prices, many small mature green tomatoes are abandoned in the fields or dumped at the packinghouse. Similarly, even though all vine ripe tomatoes are usually picked and moved from the fields because of cultural requirements, economic factors generally result in small vine ripes also not being shipped when the market is saturated with larger tomatoes. In addition, during significant portions of these two marketing seasons, regulations were in effect which restricted shipment of certain of the smaller sizes of tomatoes.

The deficiency in statistical data relating to tomato sizes was relieved in the 1970–71 marketing season. During that season, marketing order regulations limiting the sizes of tomatoes that could be shipped were imposed only briefly near the end of the season. But regulations requiring inspection of intrastate as well as interstate shipments were in effect all season. Therefore all shipments of Florida tomatoes, whether marketed within

or without the State, were inspected and recorded. Further, for an extended number of weeks during the main portion of the season, the market for tomatoes was unsually strong. During that period virtually every marketable tomato was picked, shipped, and recorded. The combination of (1) mandatory inspection of all shipments, (2) intensive harvest of all marketable tomatoes, and (3) only brief imposition of size requirements resulted in a detailed picture of the size and grade composition of the 1970–71 tomato crop in Florida.

The shipment data indicate that tomato sizes vary between districts in Florida, and that, overall, tomato sizes change during the season. While this variation may result from a number of factors, the primary causes are differences in cultural practices, changing weather conditions, and the general stage of harvest. Thus tomatoes produced using a ground cultural system may be smaller than those which are staked; extended periods of temperatures which are too low or too high will reduce size; and tomato sizes tend to decrease in the late stage of harvest, whether in a particular field or for a whole district.

Despite these variations in the general size of tomatoes, in every district and all through the season, vine ripe tomatoes averaged larger than mature green tomatoes. As indicated in the following table, a significantly larger portion of vine ripes shipped were 6 x 6 size or larger compared with mature greens. Conversely, the proportion of the vine ripes in the smaller sizes was much less than was the case for mature greens. These basic relationships prevailed in all Florida producing districts, regardless of whether the district harvested its tomatoes predominantly mature green or vine ripe.

PERCENTAGE DISTRIBUTION OF SHIPMENTS OF FLORIDA TOMATOES, BY SIZE AND DISTRICT, 1970/71 SEASON

District	6 x 6 and larger [1]		6 x 7 and smaller	
	Vine ripe	Mature green	Vine ripe	Mature green
	Percent			
1	56	38	44	62
2	83	53	17	47
3	80	55	20	45
4	75	60	25	40
State	79	50	21	50

[1] A 6 x 6 size tomato must be over $2^{17}/_{32}$ inches and no more than $2^{23}/_{32}$ inches in diameter according to Florida tomato marketing order size classifications. A 6 x 7 size tomato must be over $2^{9}/_{32}$ inches and no more than $2^{17}/_{32}$ inches in diameter.

Tomato size relationships between maturities during the months of strong markets and high prices in the 1970–71 season were particularly significant. Prices for tomatoes were especially high during much of the winter and early spring of 1971 because of tight supplies due to weather damage in both Florida and Mexico. Over the 15 consecutive week period—from mid-January through April, 1971—shipping point prices for 85 percent U.S. No. 1 6 x 6 size mature green tomatoes averaged 27 cents per pound which was about 60 percent above the average price of a year earlier.

This sustained period of very high prices—the strongest market in many years—resulted in virtually every saleable tomato being picked and marketed. The proportions of the tomatoes shipped, by size categories, during this period were as shown in the following table. In every size category 6 x 6 and larger, the proportion of vine ripes substantially exceeded the proportion of mature greens.

FLORIDA TOMATOES, DISTRIBUTION OF SHIPMENTS BY SIZE CATEGORIES, MID-JANUARY THROUGH APRIL, 1971

Size	Vine ripe	Mature green
	Percent	*Percent*
4 x 4	[1] 1.9	0
4 x 5	3.2	0
5 x 5	8.8	.1
5 x 6	22.4	8.6
6 x 6	33.1	30.3
6 x 7	18.0	35.6
7 x 7	5.2	18.4
7 x 8	1.4	7.0

[1] Includes less than 0.1 percent of size 3 x 4 vine ripes.

Thus, not only did vine ripe tomatoes clearly average larger than mature green tomatoes, but a regulation providing for withholding mature greens $2^{9}/_{32}$ inches and smaller in size (7 x 8) and vine ripes $2^{5}/_{32}$ inches and smaller (7 x 7 and 7 x 8) would have resulted in near equality of withholding between the two maturities during that time span. About 6.6 percent of the vine ripes would have been withheld compared with 7 percent of the mature greens.

Likewise a regulation providing for withholding mature greens $2^{9}/_{32}$ inches and smaller in size (7 x 7 and 7 x 8) and vine ripes $2^{17}/_{32}$ inches and smaller (6 x 7, 7 x 7, and 7 x 8) would have provided proportionate withholding—24.6 percent vine ripes and 25.4 percent mature greens—of the two maturities in that period.

On the other hand, prices for 85 percent U.S. No. 1 6 x 6 size mature green tomatoes during November-December 1970, and May–June 1971, were about 17 cents per pound. Although vine ripe tomato sizes also averaged larger than mature green sizes during these periods, the quantities of each maturity in the smaller size classifications were relatively small, reflecting the impact of nonmarketing. This was mostly due to the economic influence of low prices although regulations prohibited the shipment of the 7 x 7 size in both maturities in late May and June.

The size relationship among mature green and vine ripe tomatoes also is apparent from a comparison of average diameters of the two maturities. For each size category of Florida tomatoes, the average diameter was weighted by shipments of that size to compute a weighted average diameter for all tomatoes of each maturity. The average diameter for all vine ripe tomatoes during the mid-January through April period was 2.764 inches which is equivalent to about $2^{25}/_{32}$ inches. This was a little more than one size larger than the 2.488 or $2^{15}/_{16}$ inches average diameter of all mature green tomatoes.

From these findings based on the record evidence, it is concluded that vine ripe tomatoes average larger than mature greens. This fact, together with the fact that all tomato growers, including mature green growers, harvest various portions of their crops at the vine ripe stage of maturity, is of substantial significance when considering the regulation of tomato shipments.

Because of the average size difference of the two maturities, a single minimum size requirement imposed on shipments of both vine ripe and mature green Florida tomatoes under normal conditions would require growers predominantly harvesting tomatoes at the mature green stage to withhold a disproportionately larger share of their crops from market as compared to those harvesting primarily at the vine ripe stage. Similarly as between growers who harvest both mature greens and vine ripes from their fields, the grower with the greater volume of vine ripes would be able to market a greater proportion of his crop. A regulation based on maturity, i.e., requiring larger minimum sizes for vine ripe tomatoes than mature green tomatoes, has the effect of achieving a proportionate sharing of withholding of both maturities.

(2) *The effect of regulating shipments differently by maturity on Florida producers and others involved in the production and marketing of winter season tomatoes:* Tomato growers space the planting of their crop so that there will be a steady flow of their commodity to market beginning several months later. But the vagaries of weather cause erratic growth which results in distorted harvest schedules. And growers sometimes misjudge market demand, and plant too many acres. The result, as the record shows, is an occasional oversupply of tomatoes available for market, which depresses prices to producers.

Numerous witnesses representing both the Florida and Mexican tomato industries agreed that some method was needed to cope with these periodic surplus supplies. Some thought promotional efforts would be most productive. One mentioned that the Mexican government has imposed minimum size and grade requirements on its shipments a number of times in recent seasons when prices on the U.S. market became depressed. A few had no specific suggestions. The Florida industry representatives testified to their belief that the approach used in past seasons was a proper way to balance tomato supplies with demand on the U.S. market. It is their position that requiring different minimum sizes for different maturities is an effective way to tailor the supply to demand and at the same time tend to equate the burden of withholding as between mature green and vine ripe tomatoes.

Shipments of Florida's tomatoes begin in November and continue into the following June. Distribution is nationwide and some are exported to Canada.

V 37 ■ 66
APR 5 72
XUM

Throughout its marketing season and in each of the receiving markets, Florida tomatoes compete in varying degrees with tomatoes from other sources. Typically, they compete with small amounts of tomatoes from other States in early November and again very late in the spring, and hothouse tomatoes are available in light volume throughout Florida's marketing season. However, the greatest competition is with tomatoes from Mexico which have sharply increased in U.S. markets in recent years. Ten years ago, during the 1960–61 season, tomato imports from Mexico accounted for 20 percent of the U.S. winter market supply. During the November 1970–June 1971 marketing season, imported Mexican tomatoes accounted for about 45 percent of the total supply marketed in the United States.

When regulations have been considered, the U.S. market supply in nearly all instances has been comprised primarily of the crop in Florida about to be harvested and shipped, and the then current imports from Mexico. Various reports concerning acreage, growing conditions and current yields provided detailed information about the potential supply in Florida, and packout data showed the size and grade of Florida's tomatoes currently being marketed.

Current information regarding Mexican supplies is restricted to data compiled by the National Union of Horticultural Producers, a Mexican growers association, which shows by size and maturity the quantity of tomatoes crossing the border at Nogales, Ariz. These data account for about 90 percent of the total quantity of Mexican tomatoes crossing the U.S. border destined for markets in the United States and Canada.

With the potential supply identified in total and classified by size, that supply can then be related to estimated demand to determine the extent of withholding which may be necessary to maintain a reasonable level of returns to growers. Thus, if the potential supply exceeds demand by 10 percent and tomatoes of the smaller, less valuable sizes (those which return the least to the producer) account for a 10th of the supply, restrictions can be imposed which preclude such tomatoes from shipment.

This method of regulating shipments, which has been recommended by the Florida Tomato Committee, was subjected to intensive examination during the hearing. Special attention focused on the issue of whether regulations requiring larger minimum sizes for vine ripes than mature greens discriminated against tomatoes produced in other countries, particularly Mexico.

Mexico has been exporting tomatoes to the United States since the early part of this century, but the volume of such exports was relatively small until the early 1960's when a concerted effort was made to expand the export-oriented industry on the west coast. Vast irrigation systems were developed and there was an influx of capital and production skills. With an abundant supply of low cost labor also available, Mexican producers reduced the scope of their mature green tomato operations and concentrated on developing a vine ripe tomato production system. Although most of their tomatoes are harvested at the vine ripe stage of maturity, mature green production is still common, and supplies of this maturity are exported throughout the season.

West Mexican tomato production and export sales have risen steadily and sharply. Exports to the United States during the November 1970–June 1971 marketing season, at 570 million pounds, were more than 300 percent of those a decade earlier. The increase in exports was particularly sharp during the late 1960's even though import regulations were imposed on several occasions following reactivation of the Florida Tomato Marketing Order for the 1968–69 marketing season. The 570 million pounds exported in the 1970–71 season were 63 percent above such exports during the 1967–68 season, just prior to the reactivation of marketing order regulations. One witness estimated that West Mexico's tomato crop now far exceeds output in Florida with production in the 1970–71 season of nearly a billion pounds being about 65 percent above that in Florida.

Published detailed information is not available as to the composition of the Mexican tomato crop by size and quality. Witnesses who surveyed the Mexican producing area at various times testified however that it is little different from that in Florida. Mexican tomato growers use the same varieties, produce and harvest at the same time of year, and use the same cultural methods used by growers in Florida. Grading, packing, and tomato transportation facilities in Mexico also match the most modern in the United States.

The main difference in production is that Florida harvests 80 percent of its tomatoes at the mature green stage of maturity whereas Mexico harvests most of its tomatoes as vine ripes. It has been contended that because of this difference, a regulation requiring larger minimum sizes for vine ripes than mature greens discriminated against Mexican tomatoes. However, inasmuch as vine ripe tomatoes average larger in size than mature greens, the burden of withholding under such regulations should fall evenly on the mature green and vine ripe tomatoes in both areas. On the other hand, a regulation making a single minimum size restriction applicable to both mature green and vine ripe tomatoes would result in a proportionately smaller withholding of vine ripes as compared to mature greens, regardless of the location of production.

When examining the impact of a regulation, it is appropriate to examine its effect on Florida growers and Mexican growers, and also on the importers of Mexican tomatoes.

At the producer level, the hearing evidence indicates that burden of withholding falls more heavily on Florida growers than on growers in Mexico. This is true because Florida tomatoes withheld under marketing order regulations are nearly totally restricted from any fresh market outlet. In addition to the ban on sales in U.S. markets, exports of the restricted sizes to Canada are precluded because of reciprocal regulations imposed by that country. (Whenever shipments of U.S. fruits and vegetables are limited by a marketing order regulation, Canada prohibits the import from the United States of the restricted item. However, such items produced in other countries including Mexico still are permitted to enter Canada.) The only alternative outlets for affected Florida tomatoes are in Caribbean countries, which usually look to the United States as a market for their own tomatoes rather than as a source of supply.

Mexican tomatoes which cannot be shipped to the U.S. market because of marketing order regulations can be shipped to other countries such as Canada, or to consumers in Mexico. Although the Mexican domestic market is a secondary outlet for those tomatoes produced on the West Coast of Mexico, sales to this outlet are economically valuable. According to industry witnesses, average prices received for Mexican tomatoes shipped to Mexican markets have been as low as 8 pesos and as high as 60 pesos per 60 pounds, with the market considered good at a range of 20 to 25 pesos ($1.60 to $2). The record shows that average production and harvesting costs would be covered at 8 pesos, and a price of 20 pesos would exceed average production, harvesting and packing costs by approximately 50 percent.

The marketing of West Mexican tomatoes differs from practices in Florida in that the Mexican industry segregates its total marketable supply according to market outlets. The industry selectively grades its tomatoes with the result that annually only about 60 percent of their total production is exported to the United States, Canada, or elsewhere and the remainder is available to markets in Mexico. It is the West Mexican practice of selecting the tomatoes to be exported that may cause the proportion of their exports to the U.S. market affected by an import regulation to differ from the proportionate effect of a regulation on Florida or Mexican growers, i.e., an import regulation applies only to the segment of the Mexican crop selected for export whereas the regulation is applied to the total crop in Florida. This does not necessarily mean proportionately more Mexican tomatoes would be banned from the U.S. market as compared with Florida. As will be shown later herein, the proportionate effect upon imports might be smaller.

Most of the Mexican tomatoes imported into the United States are handled by importers located in Nogales, Ariz. The importers are middlemen in the marketing chain whose main function is to facilitate the entry of the tomatoes and arrange for the sale of such tomatoes to U.S. buyers. For these services, they receive a commission of 7.5 to 10 percent of gross sales, although on large sales a fixed fee may be charged. Some of the importers participate in

Mexican tomato production through various joint venture arrangements.

An import regulation imposed pursuant to a marketing order regulation would result in some reduction in volume from that which otherwise might be handled by importers. This would not necessarily result in reduced income to importers however.

The commission merchant, whether an importer at the border or a broker in the terminal market, who received a percentage of the sales dollars, might receive more than otherwise would prevail without a shipment regulation. Record evidence on recent research on tomato price and quantity relationships suggests that total revenue from sales of tomatoes can be increased substantially by the removal of smaller sizes from the market when total supplies are heavy. As stated in Exhibit 10 ("Supplying U.S. Markets with Fresh Winter Produce"), "—removal of 7 x 7 and 7 x 8 vine ripes from marketings would have increased the average price of the remainder of the supply (vine ripes and mature greens) by 12 percent, although only about a 2-percent increase in price would have offset the loss in revenue from not marketing these sizes."

The quantitative effect of minimum size requirements upon growers and importers can be determined using data available for the 1970–71 season. It has already been shown that a regulation providing for withholding mature green tomatoes $2^{9}/_{32}$ inches and smaller in size (7 x 7 and 7 x 8) and vine ripe tomatoes $2^{17}/_{32}$ inches and smaller (6 x 7, 7 x 7, and 7 x 8) during a representative period in the 1970–71 season would have resulted in near equality of withholding between the two maturities in Florida. Such a regulation would have precluded the shipment of 25.4 percent of Florida's mature greens and 24.6 percent of Florida's vine ripes.

During this period, Mexican authorities prohibited the export of 7 x 7 and smaller size tomatoes. However, 80.2 million pounds of 6 x 7 size vine ripe tomatoes and 6.5 million pounds of 6 x 7 size mature greens moved north across the Mexican-United States border. If an import regulation had been in effect (based upon the aforementioned 2-size requirement in Florida), the shipments of mature green tomatoes would have been unaffected. The 80.2 million pounds of vine ripes, which represented 24 percent of the total crossings of this maturity, would have been excluded. However, a portion of the 80.2 million pounds were destined for sale in Canada and therefore unaffected by the U.S. import requirements. Thus, the percentage of vine ripes ultimately excluded would have been something less than 24 percent.

In summary, imposition of the type of regulation advocated by the Florida Tomato Committee during the aforementioned period would have resulted in the dumping of about 25 percent of Florida's production, and the exclusion from the U.S. market of something less than 24 percent of the tomatoes from Mexico. Any Mexican tomatoes so excluded would have been available for sale in Mexican markets, Canada, or elsewhere.

The fundamental reason for requiring different minimum sizes for different maturities is to equalize the proportionate burden of withholding among Florida producers. It was speculated that some growers in Florida might be able to minimize the impact of withholding on them by switching from harvesting their tomatoes vine ripe to harvesting them mature green. For example, this might have enabled them to pick and market 6 x 7 size tomatoes during portions of the 1968–69 and 1969–70 marketing seasons when regulations precluded shipments of 6 x 7 vine ripes but permitted shipment of mature green tomatoes of the same size.

It has been shown that when a Florida grower plants a field to tomatoes, he has a basic intent as to the maturity of the tomatoes he will harvest from that field. Further, differences in harvesting and packing methods restrict the freedom of such a grower to vary the maturity of tomatoes to be harvested from a field. To a limited degree, however, it is possible to switch from picking tomatoes vine ripe to picking them mature green. Whether this occurs depends upon the producer's evaluation of potential total economic returns.

When he changes from picking vine ripe to picking mature green, the producer sacrifices volume—size and weight—inasmuch as mature green tomatoes average smaller than vine ripes and weigh less. In some instances, such a sacrifice may be the best alternative. For example, if freezing weather is imminent, a vine ripe producer might harvest all the tomatoes possible (whether vine ripe or mature green) before everything is lost. Also, a prospective labor shortage which would preclude continuing harvest later in the season also might induce a vine ripe producer to finish off his field by picking it mature green.

Witnesses testified that a marketing order minimum size regulation would not in itself be an incentive to switch maturities because such a change would increase the likelihood of economic loss. For by switching from vine ripe to mature green, the producer would be reducing the volume that could be harvested from a field and concentrating his sales of that smaller volume of less valuable sizes of tomatoes on a depressed market (which would be the impetus for marketing order regulations in the first place). The alternative would be to continue to pick tomatoes vine ripe, harvest a larger total volume of the more valuable larger sizes, and hopefully benefit from higher prices as the market improves due to the effect of the marketing order regulations.

Another option reviewed would be to continue the vine ripe operation but also pick all 6 x 7 size tomatoes mature green. Representatives of both the Florida and Mexican industries agreed that this would be impractical. It would be necessary to pick the whole crop green or else employ more people to pick the 6 x 7 greens. And since the 6 x 7 mature greens would be at various stages of maturity (i.e. from 1 to as many as 21 days away from changing color and becoming vine ripe), some would have grown much larger before turning color. Therefore, picking 6 x 7 tomatoes at the mature green stage would not be practicable to offset any loss occasioned by the prohibition of shipment of 6 x 7 vine ripe tomatoes because of the loss in potential size, weight and value of the tomatoes so harvested.

A third consideration relating to "switching" was whether, because of differences in the time and place of inspection, a Florida vine ripe grower who changed to picking his tomatoes mature green would have an advantage over his counterpart in Mexico who also changed to picking tomatoes mature green.

Florida tomatoes generally are inspected and certified as to grade, size, or maturity on the same day they are harvested although during the peak of the season some may not be so handled and inspected until the following day. Mexican tomatoes exported are inspected by U.S. inspectors at the United States-Mexican border, usually at the request of the importers who use the certification as to the composition of the shipment for trading purposes. When import regulations are in effect, the inspection is necessary to determine whether the shipment complies with such regulations and is therefore permitted to enter the United States.

It was contended that because it takes about 18 hours to transport Mexican tomatoes 600 miles from the main growing area to the U.S. border, it would be impractical to switch to picking tomatoes mature green since such tomatoes might advance to the vine ripe stage of maturity by the time they reached the border and were inspected. This contention suggests that under import regulations such as imposed in past years (permitting entry of 6 x 7 mature greens but precluding entry of 6 x 7 vine ripes) a 6 x 7-size Mexican tomato picked at the mature green stage could therefore not be marketed in the United States. The suggested advantage to Florida growers is that a 6 x 7-size Florida tomato picked mature green probably could be marketed when such regulations were in effect since inspection and certification would take place relatively soon after harvest and before the tomato reached the breaker stage.

Record evidence indicates that such an inequity would not occur. It is a common practice to cool Mexican tomatoes after harvest to remove field heat and retard ripening. Also, packinghouse and transportation facilities—which includes refrigeration equipment—are the same or better than such facilities in the United States. Thus, it is physically practicable to harvest and export Mexican tomatoes to the United States at the mature green stage of maturity. As has been shown, in recent years, Mexican mature green tomatoes regularly have moved north across the Mexican-United States border in substantial volume throughout each marketing season even

V 37-66
APR 5 72
XUM

during periods of regulation. And for many years prior to the development of the vine ripe industry in the early 1960's, almost all Mexican tomatoes exported were mature green in maturity.

Even though some Mexican tomatoes are harvested and exported at the mature green stage of maturity, it is unlikely that there would be an incentive for producers generally to switch from picking their tomatoes as vine ripes to picking them mature green because of an import regulation imposed under 608e–1 of the Act. For in Mexico as in Florida, a producer making such a change would be sacrificing size and weight inasmuch as mature green tomatoes average smaller than vine ripes. It has been shown that picking 6 x 7 tomatoes at the mature green stage would not be practicable to offset any loss occasioned by the prohibition of export of 6 x 7 vine ripe tomatoes because of the loss in potential size, weight, and value of the tomatoes so harvested.

Evidence regarding the effect of shipment regulations such as advocated by the Florida tomato industry upon consumer interests is generally inconclusive. It was suggested that the overall nutritional value of tomatoes marketed would be reduced by imposing regulations such as those issued in past seasons because proportionately more vine ripe tomatoes than mature green tomatoes would be withheld from shipment. Further, it was assumed that vine ripe tomatoes are more nutritional than mature greens. As shown earlier herein, the type of regulation recommended by the Florida Tomato Committee does not result in disproportionate withholding between the two maturities. With regard to the relative nutritional values, there is no evidence of substantial differences between vine ripe and mature green tomatoes.

Several publications relating to various aspects of tomato quality were offered in evidence by counsel for Mexican tomato importers but not accepted by the Hearing Examiner on the grounds that they contained either outdated or immaterial evidence. These exhibits—Nos. 102, 103, 104, and 105—dealt with research performed generally in the 1920's or earlier on various nutritional characteristics of tomatoes of different maturities such as vitamins A and C values, starch content, acidity, and sugar/acid ratios. They showed for example that mature green tomatoes have a higher starch content and are more acid than those which are vine ripened. Further, some researchers said that acidity decreases as a tomato ripens while others found that the pattern is one of decreasing acidity through the pink stage and an increase thereafter. The ratio of sugar to acid is much lower in mature green tomatoes when fully ripened compared with those that fully ripen on the vine. Pink or fully ripe tomatoes scored much higher on Vitamin A values compared with mature green fruit. On the other hand, the difference between such pinks, ripes, and mature greens was relatively minor with regard to vitamin C, which is the nutrient of greatest importance in tomatoes. Although these analyses concern quality attributes of tomatoes in general, their applicability to the present matter is dubious since the tomatoes were of a different variety than those presently used and the fully ripe tomatoes used in most of the research were much more advanced in maturity than the commercially grown "vine ripe" tomato presently marketed during the winter. As noted earlier herein, the winter "vine ripe" tomatoes are picked at a very early stage of maturity.

They are primarily green in color with a tinge of yellow, pink, or red color on 10 percent or less of the surface. Therefore, the Hearing Examiner's rulings relating to these submissions are upheld.

Some witnesses questioned the desirability of using ethylene gas in the handling of tomatoes. However, as has been shown, witnesses with many years of experience in marketing tomatoes believe that the use of additional ethylene, a gas emitted by the tomato itself, to hasten ripening results in a superior product in the retail store.

Consumers preferences for tomatoes have been examined on several occasions in the past by various researchers. Among the observations noted in the record were that consumers were aware of grade and size differences when they are making comparisons among large tomatoes such as 5 x 6's and 6 x 6's. Thus, a U.S. No. 1 5 x 6 size tomato is definitely superior to all other smaller and lower graded tomatoes. However, grade and size differences among smaller tomatoes such as 7 x 8, 7 x 7, and 6 x 7 are not significant to consumers.

Witnesses who produce or sell primarily vine ripe tomatoes said such tomatoes are the best, and that they probably could distinguish between vine ripe and mature green tomatoes placed before them even when both had been fully ripened. Florida producers and handlers testified that their largest chainstore buyers preferred mature greens. These witnesses also believed that it is virtually impossible for consumers to detect any material difference in appearance, texture, or taste between fully ripened mature green and vine ripe tomatoes.

The most recent survey of buyers' attitudes was that performed by the Department in its analysis of competitive aspects of fresh vegetable marketing, "Supplying U.S. Markets with Fresh Winter Produce," which is exhibit 10 in the record. It was found that wholesalers in both Chicago and New York City ranked tomatoes from Florida (mostly harvested mature green) in first place while those from Mexico (mostly harvested vine ripe) tied with California for second. Middlemen customers of wholesalers in Chicago ranked California ahead of Florida, Texas, and Mexico in that order, but Florida held first place among wholesalers' customers in New York City.

Restrictions on shipments of the smaller sizes of tomatoes also were believed by some to be responsible for high retail prices for this commodity in recent seasons. However, the record shows that short supplies due to weather damage in both Florida and Mexico were largely responsible for high prices for tomatoes during much of the 1970–71 marketing season. Regulations affecting shipments were imposed only briefly during late May and the first half of June 1971. Supplies were similarly reduced by weather influences for many weeks during the 1969–70 marketing season, and the shipment of smaller sizes of tomatoes was precluded significantly by marketing order regulation only at the end of the season, beginning in late April 1970.

Although periods of high retail prices have occurred in recent years, prices received by Florida producers have not been unduly enhanced over those which prevailed during seasons prior to reactivation of the marketing order. Using parity relationships as a measure, such prices have in fact been somewhat less favorable to Florida producers than in earlier years. The average return to Florida producers for tomatoes was 99 percent of parity in 1968–69, 85 percent in 1969–70, and 87 percent in 1970–71. During the 5-year period 1963–64 through 1967–68, prices received by Florida producers averaged 91 percent of parity.

At the hearing a witness for the importers of Mexican tomatoes suggested that U.S. foreign policy and trade policy with regard to Mexico must be considered by the Secretary when promulgating and issuing regulations on tomatoes and, specifically, that the Secretary should avoid restrictions which might conflict with Article XI of the General Agreement on Tariffs and Trade (GATT) which provides with certain exceptions, for the general elimination of quantitative restrictions on imports.

GATT is a multilateral agreement of the United States and other countries relating to trade between the signatory countries and is concerned primarily with nondiscriminatory treatment, duties, and quantitative restrictions on commodities traded between such countries. GATT is not an enactment of Congress but rather an executive agreement entered into by the President under authority of section 350 of the Tariff Act of 1930, as amended (19 U.S.C. 1351). GATT is binding solely upon the countries that are signatories to the agreement. Mexico is not a signatory to GATT and, therefore the terms, conditions, prohibitions, and principles of GATT do not apply to that country.

It was, however, argued by a witness at the hearing that the provisions of Article XI of GATT have been made applicable to imports into the United States from Mexico by virtue of the Most-Favored-Nation Principle contained in section 251 of the Trade Expansion Act of 1962 (19 U.S.C. 1881). This section provides that "any duty or other import restriction or duty-free treatment" proclaimed in carrying out trade agreements under section 350 of the Tariff Act of 1930, as amended (19 U.S.C. 1351), or title II of the Trade Expansion Act of 1962 (19 U.S.C. 1821–1888) shall apply to products of all foreign countries, with

certain exceptions. The provisions of Article XI of GATT, stating the principles to be followed with respect to the elimination of quantitative restrictions on imports, are not "any duty or other import restriction or duty-free treatment" referred to in section 251. Furthermore, neither GATT nor the provisions of Article XI thereof have ever been proclaimed by the President of the United States in carrying out a trade agreement. Therefore, the provisions of Article XI have not been made applicable by virtue of the Most-Favored-Nation Principle to the importation of articles from Mexico into the United States.

Mexico, not being a signatory to GATT, would derive benefit therefrom under the Most-Favored-Nation Principle only to the extent that the tariff concessions granted by the United States under GATT are extended to the products of other countries. While duties on the importation of tomatoes have been proclaimed in carrying out trade agreements under the provisions of law referred to in the Most-Favored-Nation Principle, such duties are unrelated to the grade, size, quality, or maturity restrictions which are made applicable to imports of tomatoes by operation of section 608e–1. Further, the grade, size, quality, or maturity restrictions under section 608e–1 are not made operative by Presidential proclamation but rather are statutorily mandated by Congress by requiring the Secretary to issue the restrictions whenever such restrictions are applied to domestic shipments under a marketing order regulation.

Accordingly, Article XI of GATT is not applicable to the section 608e–1 import restrictions applicable to imports from Mexico. In any event, even if Article XI of GATT were applicable to imports of tomatoes from Mexico, the section 608e–1 restrictions would be authorized under the exceptions provided in paragraph 2 of Article XI.

It was contended during the hearing that tomato shipment regulations requiring larger minimum sizes for vine ripe tomatoes than mature green tomatoes were inappropriate and discriminatory, and therefore the authority to so regulate should be deleted from the Florida tomato marketing order and preference be given instead to regulating shipments by a combination of grade and a single minimum size or by grade alone. However, as the record evidence shows, the method used in recent years—i.e., to require different minimum sizes for different maturities—is appropriate and is nondiscriminatory to others involved in the marketing and consumption of tomatoes.

Since the marketing order presently contains authority to regulate by maturity, including different size limitations for mature green tomatoes than for those of a greater maturity, it is concluded that such authority should be retained in the Florida tomato marketing order and that no amendatory action is necessary.

(3) Whether § 969.51 *Recommendations for regulation* should be amended to specify the factors to be considered in developing and recommending regulations:

The proposal in the notice of hearing to amend § 966.51 of the marketing order was as follows:

(a) The committee may recommend regulations to the Secretary pursuant to § 966.52 after consideration of the factors specified in paragraph (b) of this section.

(b) In making its recommendations the committee shall give due consideration to the following factors:

(1) Market prices for tomatoes by maturity, grades, and sizes for production area tomatoes and tomatoes from competing areas;

(2) Estimated supplies within the production area and from competing sources, by maturity, grades, and sizes;

(3) Estimated effect on shipments, assuming alternative maturity, grade, or size requirements, or combinations thereof; and

(4) Any other relevant factors which may influence tomato marketing or prices.

(c) Each recommendation for regulations as are provided for in § 966.52, together with the committee's reasons and supporting data or other material for such recommendation, shall be promptly submitted to the Secretary.

The record shows that the factors and considerations as proposed are virtually the same as those already being used by the Florida Tomato Committee. As has been discussed, a shipment regulation is intended to correct a depressed price situation or to prevent a depressed situation from occurring when it appears that the supply of tomatoes in relation to market demand will be excessive. There was general agreement among witnesses that, barring substantial crop changes because of weather, supply, and market conditions can be estimated accurately for approximately 2 weeks and reliable projections are possible for up to 4 weeks. Projections beyond 4 weeks tend to be less reliable. There also was general agreement that a shipment regulation should be issued promptly if it is to accomplish its intended purpose.

In developing a regulation for recommendation to the Secretary, the committee examines all the pertinent data and information relating to the current and prospective supply and price situation. Voluminous data and information concerning tomato production and marketing are published periodically by the Department and by the various State Departments of Agriculture in conjunction with the Department. Since these are official publications, this information is readily available to all interested persons. The typical information in these publications includes tomato prices on a daily basis; supply and market trends on a daily and weekly basis, and summaries of the supply and marketing conditions in past seasons. Detailed information on Florida's production indicates the acreage planted in tomatoes and the time at which such plantings were made; the acres already harvested, those still in production and the number of times picked; and the effects of weather on quality and size of the tomatoes.

Additional data compiled weekly by the committee show shipments by district from Florida by grade, size, and maturity. Information regarding Mexican tomatoes is restricted to data on the size and maturity of tomato shipments crossing the border into the United States at Nogales. These represent about 90 percent of the border crossings and are furnished the committee by the Mexican National Union of Horticultural Producers. The Florida shipment and Mexican export data are regularly exchanged between the two producer groups.

Proposed regulations are developed during committee meetings open to all interested persons. The record shows that representatives of importers of Mexican tomatoes attended virtually all committee meetings in the last two marketing seasons and were accorded the opportunity to participate therein. A representative of the Secretary also attends. In addition to having the above mentioned material available at such meetings, the committee receives the observations of its fieldman and individual growers and handlers to further aid in evaluating the supply. To the extent possible the committee also obtains such observations from growers, importers, and handlers of Mexican tomatoes on the current and prospective status of the Mexican tomato crop.

Utilizing the above information, the committee then develops a proposed regulation designed to withhold a sufficient supply from market to correct the prospective supply-demand imbalance. This recommended regulation together with supporting information explaining the economic justification is then submitted to the Secretary for action thereon. The committee noted that the Secretary apparently considered this a practical method of operating, and did not object to the noticed proposal.

Several witnesses of the West Mexico Vegetable Distributors Association endorsed the concept in the proposal of factual analysis of current and prospective supply-price relationships for tomatoes and regulations needed to correct any imbalance. However, these witnesses in commenting on the proposal, emphasized considering the probable producer price resulting from the regulation and its relationship to parity and also the effect of such regulations on the various segments of the industry such as repackers, wholesalers, and retailers in the various areas of the country as well as its effect on importers of tomatoes and on consumers. Section 602 of the Act requires the Secretary to take into account the relationship of producer prices with parity. As to the other matters, they are inherent in the factors and considerations discussed elsewhere herein relating to developing, recommending, and issuing a regulation.

A witness for the importers contended that the Florida Tomato Committee had acted in the past to develop regulations which would discriminate against tomato imports from Mexico, and that

V 37 • 66 APR 5 72 XUM

inadequate or erroneous information occasionally had been provided the Secretary in support of its recommendations. Therefore, it was proposed that an opportunity for a hearing be provided so they could confront and contest the data and views presented to the Secretary by the committee and others.

It was further proposed that there be provision for maintaining a public file with the Hearing Clerk in Washington, which would contain all the data and information submitted by the committee to the Secretary relating to the proposed regulation as well as submissions of any other interested persons. This material would also be subject to cross-examination during the proposed hearings.

The witness recommended that all segments of society throughout the country who were interested in or affected by the tomato regulation be afforded the opportunity to participate in such a hearing. Such segments of society were identified as tomato growers, packinghouse operators, repackers, brokers, importers, commission merchants, wholesalers, chain store operators, consumers and any others interested in the regulation. However, the witness recognized that such a hearing must be held and completed within a relatively short time in order for the proposed regulation to accomplish its intended purpose. In this regard, it was suggested that the Secretary omit publishing a notice of the hearing in the FEDERAL REGISTER but instead notify all such interested segments of society of the hearing by telephone or telegram.

He proposed that it was necessary or desirable for the Secretary to set the hearing within a matter of 3 or 4 days after the committee submitted its recommendation for regulation to the Secretary, and indicated that this would allow sufficient time for interested persons throughout the country to prepare for their presentation at the hearing and to travel from all parts of the country. The importer witness further recommended that the Secretary should arbitrarily restrict or cut short cross-examination of any witness in the event it appeared that the hearing would run more than 1 or 2 days. It was further recommended that if there was extreme urgency for the regulation, the hearing procedure could be omitted.

The importer witness then recommended that if a tomato shipment regulation is issued, the Secretary provide a fully detailed analysis of the basis for the regulation based upon all the data, views, and arguments submitted to him whether presented written or at the hearing. In his opinion, this analysis could be done in 1 or 2 days after the hearing.

The requirements of the Administrative Procedure Act encompass virtually all of the procedures recommended by the witness for the importers. After the committee's recommendation for regulation has been submitted to the Secretary, the procedure under which a regulation is issued is governed by section 553 of the Administrative Procedure Act (5 U.S.C. 553) which provides:

(b) General notice of proposed rule making shall be published in the FEDERAL REGISTER, unless persons subject thereto are named and either personally served or otherwise have actual notice thereof in accordance with law. The notice shall include:

(1) a statement of the time, place, and nature of public rule making proceedings;

(2) reference to the legal authority under which the rule is proposed; and

(3) either the terms or substance of the proposed rule or a description of the subjects and issues involved.

Except when notice or hearing is required by statute, this subsection does not apply—

(A) * * *

(B) when the agency for good cause finds (and incorporates the finding and a brief statement of reasons therefore in the rules issued) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest.

(c) After notice required by this section, the agency shall give interested persons an opportunity to participate in the rule making through submission of written data, views, or arguments with or without opportunity for oral presentation. After consideration of the relevant matter presented, the agency shall incorporate in the rules adopted a concise general statement of their basis and purpose.

(d) The required publication or service of a substantive rule shall be made not less than 30 days before its effective date, except:

(1) a substantive rule which grants or recognizes an exemption or relieves a restriction;

(2) interpretative rules and statements of policy; or

(3) as otherwise provided by the agency for good cause found and published with the rule.

(e) Each agency shall give an interested person the right to petition for the issuance, amendment, or repeal of a rule.

The Secretary in applying these procedures to marketing order regulations issues a notice of the proposed regulation and provides an opportunity for the public to submit written data, views, and arguments on the proposed regulation. As to those who would be directly regulated by the proposed regulation such as Florida growers, shippers and importers of Mexican tomatoes, such persons, as noted heretofore, have access to essentially the same information utilized by the Florida Tomato Committee in developing and recommending a regulation to the Secretary. Further, all persons who will be affected by the regulation are in a position to evaluate the effect of the proposed regulation on them by virtue of the terms of the regulation itself. Thus, all interested persons can furnish to the Secretary for his analysis any information or argument supporting their position as to the need for and type of regulation to be made effective. This of course is what is contemplated by the Administrative Procedure Act i.e., that the Secretary be provided and take into account the data, views, and arguments submitted by all interested persons in arriving at his determination.

In issuing a regulation the Secretary is required to provide a statement in support of the basis and purpose of the regulation. Here again, this comports with the recommendation that the Secretary provide a detailed analysis of the data supporting the regulation.

The Administrative Procedure Act has taken into account the fact that there may be instances where it is "impracticable, unnecessary or contrary to the public interest" to go through the notice and public rule making procedure. Under conditions where the issuance or modification of a regulation required prompt and expedited action thereon, the Secretary has issued such regulations without the notice and rulemaking procedure.

The Administrative Procedure Act requires that the Secretary give any interested person the right to petition for the "issuance, amendment, or repeal" of the regulation. Thus, in the event an interested person disagrees with the regulation issued by the Secretary or the reasons supporting the regulation, whether issued after rule making or under the expedited procedure, he has the further opportunity to request that such regulations be reviewed by the Secretary.

Further, the Administrative Procedure Act provides all interested persons the opportunity to participate in rule making "through the submission of written data, views, or arguments with or without opportunity for oral presentation." Accordingly, in the event there are circumstances in which a hearing is appropriate, the Administrative Procedure Act provides that option to the Secretary. However, it should be noted that if novel or crucial issues again develop which would warrant a hearing they would be more appropriately handled through the hearing procedure provided by section 608c of the act for consideration of an amendment of the marketing order itself.

The record shows that the factors and considerations in the noticed proposal are virtually the same as those already being used by the committee in developing regulations. Further, such factors and considerations are essentially encompassed by §§ 966.50 and 966.51 relating to establishing a marketing policy and recommending regulations which provide as follows:

§ 966.50 *Marketing policy.* Prior to or at the same time as initial recommendations are made pursuant to § 965.51, the committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for the industry to follow in shipping tomatoes from the production area during the ensuing season. Additional reports shall be submitted from time to time if it is deemed advisable by the committee to adopt a new or modified marketing policy because of changes in the demand and supply situation with respect to tomatoes. The committee shall publicly announce the submission of each such marketing policy report and copies thereof shall be available at the committee's office for inspection by any producer or any handler. In determining each such marketing policy the committee shall give due consideration to the following:

(a) Market prices of tomatoes, including prices by grades, sizes, and quality in different packs, and such prices by foreign competing areas;

(b) Supply of tomatoes, by grade, size and quality in the production area, and in other production areas, including foreign competing production areas;

(c) Trend and level of consumer income;

(d) Marketing conditions affecting tomato prices; and

(e) Other relevant factors.

§ 966.51 *Recommendations for regulations.* The committee, upon complying with the requirements of § 966.50, may recommend regulations to the Secretary whenever it finds that such regulations, as are provided for in this subpart, will tend to effectuate the declared policies of the act.

It is contemplated that the committee and the Secretary will continue to utilize such factors and considerations in developing, recommending, and issuing regulations. Accordingly, it is unnecessary to amend the marketing order as proposed in the notice of hearing.

Rulings on proposed findings and conclusions. The Hearing Examiner fixed December 23, 1971, as the time within which interested parties were to file briefs with respect to the matters involved in the hearing. Briefs were filed by the following: Counsel for the West Mexican Vegetable Distributors Association of Nogales, Ariz.; counsel for the Florida Tomato industry; and counsel on behalf of various consumer organizations.

In their brief, counsel for the West Mexican Distributors Association objected to the Hearing Examiner's ruling excluding from evidence certain testimony and exhibits offered by them at the hearing.

The direct testimony of Dr. Schnittker was offered in the form of a written statement and marked exhibit 101 for identification and offered in evidence. Portions of such testimony-exhibit were not received in evidence by the Examiner. A review of the record reveals that Dr. Schnittker was the last witness of the hearing and that one of the basic reasons for excluding such material was that the testimony-exhibit characterized, analyzed, and offered conclusions on the testimony and evidence which, in most part, made up the hearing record up to the time of his appearance as a witness and was in the form of a brief which appropriately should be filed after the close of the hearing. In addition to his general ruling that the testimony-exhibit was a brief rather than testimony, the Hearing Examiner further ruled on the excluded portions of the testimony-exhibit paragraph by paragraph and indicated additional bases for excluding specific portions of the material. Based on a review of the record and the bases of the rulings of the Hearing Examiner on the excluded portions of the testimony-exhibit, such rulings are sustained.

Certain affidavits submitted by the importer organization were not received by the Hearing Examiner. These were marked exhibits 111, 112, 113, 114, 115, and 116 for identification. These affidavits were excluded on the basis that there was no opportunity for cross-examination of the affiants on the matters contained therein.

Objection was made to the Hearing Examiner's ruling excluding affidavits marked for identification as exhibits 107, 108, 109, and 110 on the grounds that these affidavits had been submitted and received in the Holm v. Hardin court proceeding and, therefore, should also be received in this proceeding. The Hearing Examiner ruled out these affidavits because there was no opportunity for cross-examination by interested persons in this proceeding. Further, with regard to the affidavit of Richard M. Fairbanks, exhibit 107, it did not contain facts of his independent knowledge but was merely his analysis of various documents, records and depositions involved in the court proceeding. As to his rulings on the affidavits, the Examiner also noted that the rules of practice had been amended specifically to eliminate the authority to receive affidavits in these proceedings. Objection was also made of the failure of the Hearing Examiner to receive in evidence documents marked for identification as exhibits 81 and 82. These were the depositions of Floyd F. Hedlund and Harold Willis, which were again part of the record of the Holm v. Hardin case. These depositions were also excluded on the ground that the deponents were not available for cross-examination by interested parties at this proceeding. Based on a review of the record and the rulings of the Hearing Examiner on each of the matters involved, such rulings are sustained.

Counsel for the West Mexican Vegetable Distributors Association made the further contention that the Hearing Examiner was predisposed in favor of the Florida growers. A review of the record however reveals that the Hearing Examiner conducted the hearing in a fair and impartial manner and that each of the persons appearing at the hearing had a full and complete opportunity to participate therein in accordance with the applicable rules of practice governing such proceedings.

Every point in the briefs was carefully considered along with record evidence in making the findings and reaching the conclusions herein set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with findings and conclusions contained herein, requests to make such findings or to reach such conclusions are denied on the basis of facts found and stated in connection with this decision.

Summary findings and conclusions. Upon the basis of the evidence introduced at such hearing, the record thereof, and for the reasons stated, it is found and concluded that: The authority presently contained in section 966.52 of the Florida tomato marketing order which authorizes the regulation of shipments differently by maturities should be retained. Further, the procedures now provided for in the order as to Committee recommendations for regulations are proper and adequate; no significant purpose would be served by amending the order to further delineate these criteria. Accordingly, it is concluded that no amendatory action is necessary as a result of this proceeding, and this proceeding should be terminated.

Copies of this notice of recommended decision may be obtained from the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, or may be there inspected.

Dated: March 31, 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

ELECTRIC BORROWERS

Manual for Preservation of Records

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to issue revised REA Bulletin 180–2, Manual for Preservation of Borrowers' Records (Electric).

Persons interested in the provisions of revised REA Bulletin 180–2 may submit written data, views, or comments to the Director, Borrowers' Financial Management Division, Room 4307, South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 30 days from the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Borrowers' Financial Management Division, during regular business hours.

A copy of the proposed REA Bulletin 180–2 may be secured in person or by written request from the Director, Borrowers' Financial Management Division.

A summary of the changes in REA requirements included in the proposed bulletin is as follows:

REA BULLETIN 180–2

REA Bulletin 180–2, Manual for Preservation of Borrowers' Records (Electric) was issued in March 1957. Since that time, significant changes have been made by the electric utility industry in the length of accepted retention periods and in methods of keeping records for future use which need to be recognized.

The primary changes incorporated in the proposed revision of REA Bulletin 180–2 are as follows:

1. REA has adopted generally as its Manual for Preservation of Borrowers' Records (Electric) the Federal Power Commission's 1972 Regulations to Govern the Preservation of Records of Public Utilities and Licensees. That manual is supplemented by REA requirements for the retention of "Financial Requirement and Expenditure" reports as well as consumer accounts where patronage capital has not been allocated.

2. In accordance with the provisions of the new FPC Manual various media forms of the "originals" of records to be retained are made acceptable including paper and card stock, tape, microforms, microfilm and metallic recording data strips.

3. In accordance with the provisions of the new FPC Manual, retention periods for certain types of records are revised. Provision is also made for the retention of new types of records such as nuclear production records.

Dated: March 31, 1972.

JAMES N. MYERS,
Assistant Administrator-
Electric.

V 37-166 APR 5 72 XUM

[7 CFR Part 1701]

TELEPHONE BORROWERS

Policies and Requirements for Headquarters Facilities

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to issue a revision of REA Bulletin 320–5, "Headquarters Facilities for Telephone Borrowers." On issuance of the revised REA Bulletin, Appendix A of Part 1701 will be amended accordingly.

Persons interested in this revision of the policies and requirements prescribed by REA for such headquarters facilities may submit written data, views, or comments to the Director, Telephone Operations and Standards Division, Room 1355, South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 30 days from the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Telephone Operations and Standards Division during regular office hours.

The text of the proposed revision of REA Bulletin 320–5 is as follows. A copy of proposed REA Bulletin 320–5 and Appendix A to the bulletin will be furnished on request to the Director, Telephone Operations and Standards Division.

REA BULLETIN 320–5

HEADQUARTERS FACILITIES FOR TELEPHONE BORROWERS

I. *Purpose.* To set forth REA policy and procedure concerning loans for and construction of headquarters facilities for telephone borrowers, including the provisions of Public Laws 90–480 and 91–596 as they relate to buildings financed with Federal Funds.

II. *General.* A. The term "headquarters facilities," or a headquarters building project means a commercial office building, warehouse, garage, or a combination of these facilities which are required to make the project suitable for providing communication services to the public.

B. The borrower and its architect are responsible for determining the size and style of building, and for selecting the materials to be used in its construction consistent with the needs of the system and the environment of the community in which it is to be located.

C. The borrower is responsible for determining whether to purchase, remodel, or construct the facilities consistent with REA requirements and prudent management principles. REA assistance may be requested in these matters.

III. *Policy.* A. Generally, loans to finance headquarters facilities may be made on the same terms and conditions as loans for other telephone plant.

B. Headquarters facilities should be planned to meet economically the future requirements of the proposed system. The site should be large enough for possible future expansion. Discretion should be exercised to assure that unnecessary features and unduly high investment are avoided. Plans and specifications for the building should be such that the facilities can be constructed within the amount provided in the loan budget. Borrowers may be required to provide any excess in construction costs from non-loan funds.

IV. *Preloan requirements for headquarters buildings.* The following supporting data shall be submitted as part of the area coverage design of the system or with the loan application which includes funds for headquarters facilities:

A. An estimate of the cost of the project, including equipment, other than switching equipment, all site development and other essential or desirable work on the property. If purchasing existing facilities, report the purchase price of the property showing the land value as a separate item, remodeling costs, and architectural services. Appendix B provides a suggested work sheet for estimating the cost of headquarters facilities.

B. Preliminary plans including a plot plan, locating building(s) thereon, and a floor plan. If remodeling is proposed, show existing and new floor plan, or a combined plan fully illustrating the work proposed.

C. A statement as follows: "The facilities described in this application will be designed and constructed to comply with the minimum standards contained in the American National Standards No. A117.1–1961, to insure that the facilities will be made accessible to and usable by the physically handicapped as required by Public Law 90–480. The following portions of the project need not be made accessible to, or usable by the public or the physically handicapped because of their intended use (insert 'none' or describe fully with the other supporting data)."

V. *Borrowers' considerations.* Before submission of the plans and specifications, the borrower should obtain necessary forms, bulletins, etc., from REA, and:

A. Obtain the services of a competent architect as set forth in REA Bulletin 342–1, "Architectural Services for Telephone Borrowers." Use REA Form 165, "Architectural Services Contract."

B. Refer to REA Bulletin 344–1, "Methods of Purchasing Materials and Equipment for use on Systems of Telephone Borrowers" for the applicable type of procedure.

C. Refer to REA Bulletin 387–1, "Preparation of Plans and Specifications for Construction of Telephone Borrowers' Buildings."

D. Use REA Form 257, "Contract to Construct Buildings."

VI. *REA construction requirements and procedures.* A. Following approval of the loan for headquarters facilities (or the determination of the availability of nonloan funds for such purpose), the borrower should inform the architect of the amount of funds available for construction of the facilities and any other information needed by the architect.

B. The design and construction of the headquarters facilities must comply with all applicable laws and regulations, including:

1. Public Law 90–480, an Act to insure that certain buildings financed with Federal funds are so designed and constructed as to be accessible to the physically handicapped. See Appendix "A", and paragraph V, "C" of this bulletin.

2. Public Law 91–596, the "Occupational Safety and Health Act of 1970." The Department of Labor has the responsibility for issuing rules and regulations pertaining to the Act, including occupational safety and health standards which are either national consensus standards or established Federal standards. These are published in the FEDERAL REGISTER, when issued, and codified in the Code of Federal Regulations under title 29.

C. Submit three copies of the final plans and specifications to REA for approval. A cost estimate prepared by the architect should accompany the plans.

D. After approval of plans and specifications and bids, submit three copies of the construction contract to REA for approval.

E. The approval of title to real estate is a prerequisite to REA's advance of loan funds and approval of the construction contract. See REA Bulletin 380–1, "Right-of-Way and Title Procedures, Telephone."

F. Consult REA Bulletin 387–3, "Final Documents Required to Close Out Construction of Buildings."

Dated: March 30, 1972.

DAVID A. HAMIL,
Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 191]

FIREWORKS DEVICES

Classification As Banned Hazardous Substance

A. The National Society for the Prevention of Blindness, 79 Madison Avenue, New York, NY 10016, filed an objection and requested a hearing in response to the order published in the FEDERAL REGISTER of May 13, 1970 (35 F.R. 7415), that classified certain fireworks devices as "banned hazardous substances" (21 CFR 191.9(a)(3)) within the meaning of section 2(q)(1)(B) of the Federal Hazardous Substances Act. The objector was not opposed to the order as written, but rather requested that its scope be expanded.

On June 26, 1970, notice was published in the FEDERAL REGISTER (35 F.R. 10451) denying the objector's request for a hearing on the grounds that granting a hearing was not in the public interest because it would stay the effective date of the order, thus hindering the efficient enforcement of the act during the Fourth-of-July season. The notice stated that the objection would be treated as a petition to amend the regulations.

Therefore, pursuant to provisions of the Federal Hazardous Substances Act (sec. 2(q)(1)(B), (2), 74 Stat. 374, as amended 80 Stat. 1304–05; 15 U.S.C. 1261) and the Federal Food, Drug, and Cosmetic Act (sec. 701(e), 52 Stat. 1055, as amended; 21 U.S.C. 371(e)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that a petition has been filed by the National Society for the Prevention of Blindness proposing the amendment of 21 CFR 191.9(a)(3) to ban "all fireworks in keeping with the National Fire Protection Association model fireworks law" (except those intended for use solely for bona fide crop protection purposes as provided in 21 CFR 191.9(a)(3)(i) through (iv)) and, further, to expand the recordkeeping requirement of 21 CFR 191.9(a)(3)(iv) from 3 to 10 years.

Grounds given in support of the petition are:

1. The scope of 21 CFR 191.9(a)(3) "is not broad enough to protect public interest and children in particular";

2. The "labeling of cartons, shipping containers, wrappers and the items per se of all fireworks are inadequate to protect purchasers, users and innocent bystanders, all foreseeable victims";

3. The 3-year requirement "is an inadequate time for record preservation and a minimum of 10 years is necessary in that (1) eye injuries may not manifest themselves before that time (2) ingredients may need to be ascertained for treatment and diagnosis and a premature destruction of records may preclude this (3) identification for civil and criminal litigation will be made difficult if not impossible."

In support of these contentions, petitioner relies on statistical data contained in "Fireworks Incidents in the United States during 1969", published by the National Fire Protection Association, Boston, Mass., and the "1969 Annual Report National Society for the Prevention of Blindness, Inc."

B. The Commissioner has insufficient information to support the proposal of the National Society for the Prevention of Blindness. Publication of the proposal provides an opportunity for interested persons to submit appropriate data. In the interim, the Commissioner has obtained information from investigations and other sources which indicate that the exemption in 21 CFR 191.9(a)(3) permitting certain fireworks devices to be used for bona fide crop protection purposes is being grossly abused by some manufacturers and distributors to make fireworks available to the public for general use and that such fireworks have caused most of the firework deaths and serious injuries investigated by the Food and Drug Administration. Accordingly, the Commissioner finds that the degree or nature of the hazard involved in the presence or use of such devices in households is such that the objective of the protection of the public health and safety can be adequately served only by keeping them out of channels of interstate commerce.

Therefore, pursuant to the aforementioned statutory provisions and delegated authority, the Commissioner proposes that § 191.9(a)(3) be revised to read as follows:

§ 191.9 Banned hazardous substances.

(a) • • •

(3) Fireworks devices intended to produce audible effects (including but not limited to cherry bombs, M–80 salutes, silver salutes, and other large firecrackers, aerial bombs, and other fireworks designed to produce audible effects, and including kits and components intended to produce such fireworks) if the audible effect is produced by a charge of more than 2 grains of pyrotechnic composition.

• • • • • •

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding these proposals. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 24, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 171]

[CGD 72-55 PH]

DEFECT NOTIFICATION

Notice of Proposed Rule Making

The Coast Guard is considering issuing new regulations which apply to the manufacturers of boats and associated equipment and supplement section 15 of the Federal Boat Safety Act of 1971 (85 Stat. 219), Notification of Defects; Repair or Replacement. Interested persons are invited to submit written statements regarding the proposal to the U.S. Coast Guard (CMC/82), 400 Seventh Street, SW., Washington, DC 20590. Statements should identify the public docket number, CGD 72–55 PH, and the name and address of the person. Where appropriate, comments should be directed to specific sections of the proposal. Statements should include data, views, or arguments supporting any recommended change or objection to the proposal.

The Coast Guard will hold an informal public hearing on May 3, 1972, at 9:30 a.m. in Conference Room 2230, Department of Transportation, Nassif Building, 400 Seventh Street, SW., Washington, DC 20590. Any person desiring to make an oral presentation at this hearing should notify the Executive Secretary, Marine Safety Council, Room 8234, U.S. Coast Guard (CMC), 400 Seventh Street, SW., Washington, DC 20590. (Phone—202–426–1477.)

The presiding officer at the hearing may apportion the time of persons making presentations in an equitable manner, question participants as to their statements and terminate or shorten the presentation of any party when, in the opinion of the presiding officer, such presentation is repetitive or is not relevant to the purpose of the hearing. Participants are encouraged to submit written statements.

All communications received on or before May 11, 1972, will be fully considered and evaluated before final action is taken on this proposal. Copies of written statements submitted by the public in response to this proposal and a tape recording of the public hearing will be available for examination in Room 8234, Department of Transportation, Nassif Building, 400 Seventh Street, SW., Washington, DC. Copies of written statements will be furnished interested persons upon requst to U.S. Coast Guard (CMC/82), Washington, D.C. 20590 in accordance with the payment provisions of 49 CFR 7.81.

This proposal may be changed in light of comments received.

Section 15 of the Act applies to manufacturers of boats and manufacturers of such associated equipment as is prescribed by regulation or order. Section 15(f) states that application of the section to items or classes of "associated equipment" must be made on determination that the application is reasonable, appropriate, and in furtherance of the purposes of the Act. The Coast Guard considers that the following items should be prescribed as "associated equipment."

(a) Outboard engines.
(b) Inboard engines.
(c) Stern drive units.

Outboard engines are sold, for the most part, as distinct major units separately from any particular boat model or type. They are mechanically complex and provide the primary motive power and steering for a boat on which they are installed. Inboard engines are also produced, for the most part, independently from any particular boat model or type. While most inboard-powered boats are delivered with the engine installed, there are often several options and there are a significant number of engines marketed for replacement units. These engines provide the motive power of the boat.

Stern drive units are marketed much the same as inboard engines and provide power transmission and steering control. Each of these items is mechanically complex and a defect in design or manufacture can cause loss of power or control and endanger the occupants of the boat and others. Therefore, proposed § 171.03 (d) would define associated equipment as outboard engines, inboard engines, and stern drive units. Additional items of associated equipment will be the subject of future rule making.

Proposed §§ 171.05 and 171.11 prescribe time periods for meeting notification requirements of section 15 of the Act.

Proposed §§ 171.13 and 171.15 would require reports to the Commandant to assist the Coast Guard in evaluating (1) the severity of the defect, (2) the effectiveness of the manufacturer in notifying first purchasers, subsequent purchasers, dealers, and distributors to which the defective product may have been transferred or sold, and (3) the measures taken by the manufacturer to correct the defect. The initial report to the Coast Guard required by § 171.13 would be made at the same time the notification is given to first and subsequent purchasers, dealers, and distributors. Since some of this detailed information might not be available, paragraph (b) would allow the manufacturer to delay submission of the information required in the report if he

V 37 ■ 66 APR 5 72 XUM

explains why it is not submitted and estimates when it will be available.

Notifications made according to section 15(c) must contain "* * * a clear description of such defect or failure to comply, an evaluation of the hazard related thereto, a statement of the measures to be taken to correct such defect or failure to comply, and an undertaking by the manufacturer to take such measures at his sole cost and expense." To assure that there is a "clear description" of the defect, proposed § 171.09 would require that the notification contain the make and model year (if appropriate), the inclusive dates of manufacture (month and year), and any other data necessary to describe the products that may be affected by the defect.

The Boating Safety Advisory Council, established pursuant to section 33 of the Act, was consulted regarding this major boating safety matter. The advice and comments of the Council have been considered in drafting these proposed regulations.

In consideration of the foregoing, it is proposed that a new Part 171 be added to Title 33 of the Code of Federal Regulations to read as follows:

PART 171—DEFECT NOTIFICATION

Sec.

171.01 Purpose.
171.03 Definitions.
171.05 Manufacturer discovered defects.
171.07 Notice given by "more expeditious means."
171.09 Contents of notification.
171.11 Defects determined by the Commandant.
171.13 Initial report to the Commandant.
171.15 Followup report.
171.17 Penalties.
171.19 Address of Commandant.

AUTHORITY: The provisions of this Part 171 issued under sections 14 and 15 of the Federal Boat Safety Act of 1971 (Public Law 92–75, 85 Stat. 213, 218, 229 (Aug. 10, 1971)); 49 CFR 1.46(0)(1).

§ 171.01 Purpose.

This part prescribes rules to implement section 15 of the Federal Boat Safety Act of 1971 governing the notification of defects in boats and associated equipment.

§ 171.03 Definitions.

(a) "Act" means the Federal Boat Safety Act of 1971.

(b) "Manufacturer" means any person engaged in—

(1) The manufacture, construction, or assembly of boats or associated equipment; or

(2) The manufacture or construction of components for boats and associated equipment to be sold for subsequent assembly; or

(3) The importation into the United States for sale of boats, associated equipment, or components thereof.

(c) "Boat" means any vessel—

(1) Manufactured or used primarily for noncommercial use; or

(2) Leased, rented, or chartered to another for the latter's noncommercial use; or

(3) Engaged in the carrying of six or fewer passengers.

(d) "Associated equipment" means an—

(1) Inboard engine,
(2) Outboard engine, or
(3) Stern drive unit

as shipped, transferred, or sold from the place of manufacture and includes all attached parts and accessories.

§ 171.05 Manufacturer discovered defects.

Each manufacturer who is required to furnish a notice of a defect or failure to comply with a standard prescribed pursuant to section 5 of the Act by section 15(a) of the Act shall furnish that notice within 30 days after he discovers or acquires information of the defect or failure to comply.

§ 171.07 Notice given by "more expeditious means."

Each manufacturer who gives the notice required by section 15 of the Act by more expeditious means than certified mail must give such notice in writing.

§ 171.09 Contents of notification.

Each notice required by section 15(a) of the Act must include the following additional information:

(a) The name and address of the manufacturer.

(b) Identifying classifications including the make, model year, if appropriate, the inclusive dates (month and year) of the manufacture, and any other data necessary to describe the boats or associated equipment that may be affected.

§ 171.11 Defects determined by the Commandant.

A manufacturer who is informed by the Commandant under section 15(e) of the Act that a boat or associated equipment contains a defect relating to safety or failure to comply with a standard prescribed pursuant to section 5 of the Act shall, within 30 days of receipt of the information—

(a) Furnish the notification described in section 15(c) of the Act to the persons designated in section 15(b) of the Act, or

(b) Present his views to the Commandant by certified mail to establish that there is no defect relating to safety or failure of compliance.

§ 171.13 Initial report to the Commandant.

(a) When a manufacturer gives a notification required by section 15 of the Act, he shall concurrently send to the Commandant by certified mail—

(1) A true or representative copy of each notice, bulletin, and other communication that he has given to the persons required to be notified under section 15(b) of the Act;

(2) The total number of boats or associated equipment potentially affected by the defect or failure to comply with a standard prescribed pursuant to section 5 of the Act; and

(3) If discovered or determined by the manufacturer, a chronology of all principal events upon which the determination is based.

(b) A manufacturer may submit an item required by paragraph (a) of this section that is not available at the time of submission to the Commandant when it becomes available if the manufacturer explains why it was not submitted within the time required and estimates when it will become available.

§ 171.15 Followup report.

(a) Each manufacturer who makes an initial report required by § 171.13 shall submit a followup report to the Commandant by certified mail within 60 days after the initial report. The followup report must contain at least the following information:

(1) A positive identification of the initial report;

(2) The number of units in which the defect was discovered as of the date of the followup report;

(3) The number of units in which corrective action has been completed as of the date of the followup report;

(4) The number of first purchasers not notified because of an out-of-date name or address, or both; and

(5) An updating of the information required by § 171.13.

(b) Each manufacturer shall submit any additional followup reports requested by the Commandant.

§ 171.17 Penalties.

(a) Each manufacturer who fails to furnish a notification as required by section 15(a) of the Act or fails to exercise reasonable diligence in fulfilling the undertaking given pursuant to section 15(c) of the Act is subject to the penalties prescribed by section 35(a) of the Act.

(b) Each manufacturer who fails to comply with any other provision of section 15 of the Act or the regulations in this part is subject to the penalties prescribed by section 35(b) of the Act.

§ 171.19 Address of Commandant.

Each report and communication sent to the Coast Guard required by this part must be submitted to:

U.S. Coast Guard (BBC/62), 400 Seventh Street SW., Washington, DC 20590.

This proposal is made under the authority of the Federal Boat Safety Act of 1971 (Public Law 92–75, 85 Stat. 213 (Aug. 10, 1971)); 49 CFR 1.46(0)(1) (36 F.R. 19593).

Dated: March 30, 1972.

A. C. WAGNER,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Boating Safety.

Hazardous Materials Regulations Board

[49 CFR Parts 173, 179]

[Docket No. HM–100; Notice 72–4]

TRANSPORTATION OF HAZARDOUS MATERIALS

Ethylene Oxide; Opening in Tank Car Heads

The Hazardous Materials Regulations Board is considering amendment of §§ 173.124, 179.102, 179.201, and 179.202 of the Department's Hazardous Materials Regulations to authorize the shipment of ethylene oxide in insulated portable tanks and to upgrade the specifications of tank cars authorized for ethylene oxide. In addition, the Board proposes to remove authorization for the use of certain other tank cars in this service.

The Board has received petitions to make these changes to the regulations. Support for the petition to permit ethylene oxide to be transported in specially modified Specification 51 portable tanks is based on favorable experience data reported to the Board on shipments moving since 1964 under special permit.

The proposed changes for tank cars are based on recommendations by the Manufacturing Chemists Association, Inc. Its petition indicates that the present ethylene oxide tank car specifications warrant revisions for improved safety performance, that some currently authorized tanks cars for this service are obsolete, and that others are inadequate for safe rail transportation.

The Board believes that the adoption of this proposal would provide greater safety in the transportation of ethylene oxide. Also, the Board requests advice on the need for continuing the authorization for "Openings in tank heads to facilitate application of lining" which is found in § 173.124(a)(5) and numerous other sections such as §§ 173.119(a)(12), (e)(2), and (f)(3), 173.314(c) Note 16, 173.354(a)(4), 179.102–12, 179.102–17, 179.102–20, 179.102–6(a)(3), 179.202–1, and 179.202–18. The Board believes that this is an obsolete requirement and is no longer needed.

The Board is developing improved identification requirements for tank cars containing certain hazardous materials such as ethylene oxide. As part of this development, the Board will propose changes to the present marking requirements for tank cars in a separate notice. Any changes resulting from that notice of proposed rule making would be reflected in those sections dealing with marking of ethylene oxide tank cars.

In consideration of the foregoing, it is proposed to amend 49 CFR Parts 173 and 179 as follows:

PART 173—SHIPPERS

In § 173.124 paragraph (a), paragraph (a)(5) would be amended, Note 1 would be canceled, and paragraph (a)(6) would be added; paragraph (b) would be canceled as follows:

§ 173.124 Ethylene oxide.

(a) * * *

(5) Specification 105A100W or 111A-100W4 (§§ 179.100, 179.200 of this chapter) tank car. Each 105A***W series tank car must be equipped with a 75 p.s.i.g. safety valve and must be stenciled 105A100W. Each tank car must be stenciled, in letters not less than 1½ inches high, "Ethylene Oxide Only" near the car specification number. Outage of each tank must be sufficient to prevent the tank from becoming entirely filled with liquid at 105° F. Each tank, loaded or empty, must be padded with dry nitrogen or other suitable dry inert gas charged to a pressure of 35 to 60 p.s.i.g. at 70° F. The gas must be free of impurities which may cause the ethylene oxide to rearrange chemically or polymerize violently. See §§ 179.102–12 and 179.202–18 of this chapter for special requirements for tank cars authorized for ethylene oxide.

NOTE 1 [Canceled]

(6) Specification 51 (§ 178.245 of this chapter) portable tank. Each tank, loaded or empty, must be padded with dry nitrogen or other suitable dry inert gas charged to a pressure of 35 to 60 p.s.i.g. at 70° F. The gas must be free of impurities which may cause the ethylene oxide to rearrange chemically or polymerize violently. Each tank must be constructed to be in compliance with the following requirements:

(i) The tank must be insulated with mineral wool or glass fiber of sufficient thickness so that the thermal conductance at 60° F. is not more than 0.075 B.t.u. per hour, per square foot, per degree Fahrenheit temperature differential.

(ii) The insulating material of the tank must be protected by a steel jacket having a minimum thickness of 14 gage. This jacket must be applied to prevent moisture from coming in contact with the insulation.

(iii) Each tank must be equipped with a safety relief valve or frangible disc, meeting the requirements of § 173.315 of this chapter, set to relieve at 75 p.s.i.g.

(iv) Filling must be such that the tank will not be liquid full below 185° F.

(v) Copper, silver, mercury, magnesium, or their alloys may not be used in any part of the tank or appurtenances if that part or appurtenance is normally in contact with ethylene oxide liquid or vapor.

(vi) Each tank must be equipped with a thermometer well.

(vii) Gaskets made of Teflon or interwoven stainless steel and Teflon are required.

(viii) The capacity of the tank may not exceed 300 gallons.

(b) [Canceled]

PART 179—SPECIFICATIONS FOR TANK CARS

(A) Section 179.102–12 would be amended to read as follows:

§ 179.102 Special commodity requirements for pressure tank car tanks.

§ 179.102–12 Ethylene oxide.

(a) Each tank car used to transport ethylene oxide must be constructed to be in compliance with the following special requirements:

(1) The tank must be constructed in accordance with the DOT–105A * * * W Specification, and its jacket stenciled "DOT–105A100W" and "Ethylene Oxide Only." "Ethylene Oxide Only" must appear on both sides of the tank and in letters not less than 1½ inches high.

(2) Each safety relief valve must be in compliance with the requirements specified in the DOT–105A100W tank car specification. Each safety relief valve must have its discharge piped to the top of the manway bonnet assembly. Vapor exit from the assembly must be provided through a full opening weather cap located directly above the safety valve vent pipe. Compliance with this provision is required after (*effective date of amendment*) except that tank cars which are not in compliance and were built before (*effective date of amendment*) must be in compliance by (*1 year following effective date*).

(3) Copper, silver, mercury, magnesium, or their alloys may not be used in any part of the tank or appurtenances if that part or appurtenance is normally in contact with ethylene oxide liquid or vapor.

(4) Interior pipes of liquid discharge valves, vapor lines, gaging devices (when the device provides a means for passage of the lading from the interior to the exterior of the tank) and sampling lines must be equipped with excess flow valves of an approved design.

(5) Each tank must be equipped with a thermometer well.

(6) Each tank must be insulated with glass fiber except tank cars built before (effective date of amendment) are authorized in this service when insulated with cork.

(7) The manway protective housing and cover must be insulated with glass fiber or other material that will provide protection against heat deterioration of the valves and any resilient material contained within the housing. Compliance with this provision is required after (effective date of amendment) except that tank cars which are not in compliance and were built before (effective date of amendment) must be in compliance by (1 year following effective date).

(8) Gaskets made of Teflon or interwoven stainless steel and Teflon are required.

(B) In § 179.201–1 paragraph (a) table, footnote 2 would be added and reference thereto would replace § 173.314 (c) as the seventh entry in the column headed 111A100W4:

V 37 ■ 66
APR 5 72
XUM

§ 179.201 **Individual specification requirements applicable to nonpressure tank car tanks.**

§ 179.201–1 **Individual specification requirements.**

(a) • • •

[1] See § 173.314(c) of this chapter for compressed gases and § 173.116 of this chapter for flammable liquids, unless otherwise specified in Part 173, Subpart C.

• • • • •

(C) Section 179.202–18 would be amended to read as follows:

§ 179.202 **Special commodity requirements for nonpressure tank car tanks.**

§ 179.202–18 **Ethylene oxide.**

(a) Each tank car used to transport ethylene oxide must be constructed to be in compliance with the following special requirements:

(1) The tank must be constructed in accordance with the DOT–111A100W4 specification and its jacket stenciled on both sides "ETHYLENE OXIDE ONLY" in letters not less than 1½ inches high.

(2) The safety relief valve, if not located on the manway nozzle, must be protected by an approved and insulated protective housing. Each safety relief valve must have its discharge piped to the top of the manway bonnet assembly or protective housing. Vapor exit from the manway bonnet assembly or protective housing must be provided through a full opening weather cap located directly above the safety valve vent pipe. Compliance with this provision is required after (effective date of amendment) except that tank cars which are not in compliance and were built before (effective date of amendment) must be in compliance by (1 year following effective date).

(3) Copper, silver, mercury, magnesium, or their alloys may not be used in any part of the tank or appurtenances if that part or appurtenance is normally in contact with ethylene oxide liquid or vapor.

(4) Interior pipes of liquid discharge valves, vapor lines, gaging devices (when the device provides a means for passage of the lading from the interior to the exterior of the tank) and sampling lines must be equipped with excess flow valves of an approved design.

(5) Each tank must be equipped with a thermometer well.

(6) Each tank must be insulated with glass fiber except tank cars built before (effective date of amendment) are authorized in this service when insulated with cork.

(7) Manway nozzle, cover plate, and protective housing must be in compliance with the requirements of section 179.100–12. The manway protective housing and cover must be insulated with glass fiber or other material that will provide protection against heat deterioration of the valves and any resilient material contained within the housing. Compliance with this provision is mandatory after (effective date of the amendment) except that tank cars which are not in compliance and were built before (effective date of amendment) must be in compliance by (1 year following effective date).

(8) Gaskets made of Teflon or interwoven stainless steel and Teflon are required.

(9) Vacuum relief valves are prohibited.

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, Department of Transportation, 400 Sixth Street SW., Washington, D.C. 20590. Communications received on or before July 18, 1972, will be considered before final action is taken on the proposal. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board, both before and after the closing date for comments.

This proposal is made under the authority of sections 831–835 of title 18, United States Code, and section 9 of the Department of Transportation Act (49 U.S.C. 1657).

Issued in Washington, D.C., on March 31, 1972.

W. J. BURNS,
Chairman, Hazardous Materials Regulations Board.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

THIABENDAZOLE

Proposed Fungicide Tolerance

Dr. C. C. Compton, Coordinator Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, N.J. 08903, on behalf of the Agricultural Experiment Stations of Oregon and Washington submitted a petition (PP 1E1151), proposing establishment of a tolerance for residues of the fungicide thiabendazole ((2-(4-thiazolyl) benzimidazole)) in or on Hubbard squash at 1 part per million.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The pesticide is useful for the purpose for which the tolerance is proposed.

2. The proposed usage is not reasonably expected to result in residues of the pesticide in eggs, meat, milk, and poultry. The usage is classified in the category specified in § 180.6(a)(3).

3. The proposed tolerance will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), it is proposed that § 180.242 be amended by inserting a new paragraph after the paragraph "2 parts per million • • •," as follows:

§ 180.242 **Thiabendazole; tolerances for residues.**

• • • • •

1 part per million in or on Hubbard squash.

• • • • •

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, within 30 days after publication hereof in the FEDERAL REGISTER, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: March 30, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

FEDERAL POWER COMMISSION

[18 CFR Parts 141, 260]

[Docket No. R–439]

COMPREHENSIVE REPORTING OF LEASE RENTAL CHARGES

Notice of Proposed Rule Making

MARCH 30, 1972.

Pursuant to 5 U.S.C. 553, sections 301, 304, and 309 of the Federal Power Act (49 Stat. 854, 855–856, 858–859; 16 U.C.S. 825, 825c, 825h) and sections 8, 10, and 16 of the Natural Gas Act (52 Stat. 825, 826, 830; 15 U.S.C. 717g, 717i, 717o), the Commission gives notice it proposes to revise for the reporting year 1972:

A. Schedule page 421 of FPC Form No. 1, annual report for electric utilities, licensees and others (Class A and Class B) prescribed by § 141.1.

B. Schedule page 533 of FPC Form No. 2, annual report for natural gas companies (Class A and Class B) prescribed by § 260.1.

The schedule page 421, entitled rents charged of FPC Form No. 1, and schedule page 533, entitled rents charged of FPC Form No. 2, are being proposed for revision to provide the Commission with more comprehensive information than is presently being reported in connection with leases.

The present schedules were designed at a time when leases were generally applicable only to contracts for the use of vehicles, ADP equipment and segments of facilities leased from other utilities. Over the past few years the number and amounts of these lease agreements have increased considerably and have been broadened to cover the lease of gas turbines, nuclear fuel, pollution control structures and equipment, and other major items.

It is necessary and desirable that the Commission obtain reasonably comprehensive information on provisions of all lease agreements of $25,000 or more.

The proposed revisions to FPC Form No. 1 would be issued under authority granted the Federal Power Commission by the Federal Power Act, particularly sections 301, 304, and 309 (49 Stat. 854, 855–856, 858–859; 16 U.S.C. 825, 825c, 825h).

The proposed revisions to FPC Form No. 2 would be issued under authority granted the Federal Power Commission under the Natural Gas Act, as amended, particularly sections 8, 10 and 16 (52 Stat. 825, 826, 830; 15 U.S.C. 717g, 717i, 717o).

Accordingly, effective for the reporting year 1972, it is proposed to revise:

(A) Schedule page 421, currently entitled rents charged, of FPC Form No. 1, annual report for electric utilities, licensees and others (Class A and Class B) prescribed by § 141.1, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachment A hereto.[1]

(B) Schedule page 533, currently entitled rents charged, of FPC Form No. 2, annual report for natural gas companies (Class A and Class B) prescribed by § 260.1, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachment B hereto.[1]

(C) Paragraph (d) of § 141.1 in Part 141, Subchapter D of Chapter I, Title 18 of the Code of Federal Regulations, as follows:

1. Delete schedule titled "Rents Charged" and substitute therefore schedule titled "Lease Rentals Charged" so that it will read:

§ 141.1 **Form No. 1, Annual report for electric utilities, licensees and others (Class A and Class B).**

• • • • •

(d) This annual report contains the following schedules:

• • • • •

Lease Rentals Charged.

• • • • •

(D) Paragraph (c) of § 260.1 in Part 260, Subchapter G of Chapter I, Title 18 of the Code of Federal Regulations, as follows:

1. Delete schedule titled "Rents Charged" and substitute therefore schedule titled "Lease Rentals Charged" so that it will read:

§ 260.1 **Form No. 2, Annual report for natural gas companies (Class A and Class B).**

• • • • •

(c) This annual report contains the following schedules:

• • • • •

Lease Rentals Charged.

• • • • •

[1] Attachments A and B, filed as part of the original document.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than May 15, 1972, data, views, comments or suggestions in writing concerning the revisions to the annual report forms proposed herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conformed copies should be filed with the Secretary of the Commission. In addition, interested persons wishing to have their comments considered in the clearance of the proposed revisions in the report forms pursuant to 44 U.S.C. 3501–3511 may, at the same time, submit a conformed copy of their comments directly to the Clearance Officer, Statistical Policy Division, Office of Management and Budget, Washington, D.C. 20503. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed revisions. The Staff, in its discretion, may grant or deny requests for conference.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

NATIONAL CREDIT UNION ADMINISTRATION

[12 CFR Part 741]

INSURANCE

Certified Statements and Premiums

Notice is hereby given that the Administrator of the National Credit Union Administration, pursuant to the authority conferred by section 120, 73 Stat. 635, 12 U.S.C. 1766, proposes additions to Part 741 (12 CFR Part 741) by adding § 741.5 as set forth below.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed additions to the Administrator, National Credit Union Administration, 1325 K Street NW., Washington, DC 20456, to be received not later than May 12, 1972.

HERMAN NICKERSON, Jr.,
Administrator.

MARCH 29, 1972.

§ 741.5 **Insurance fee statements.**

(a) On or before January 31 of each insurance (calendar) year, each federally insured credit union which became insured prior to the beginning of that year shall file with the Administrator a certified statement showing the total amount of the member accounts in the credit union at the close of the preceding insurance (calendar) year and the amount of the premium charge for insurance due to the fund for that year, as computed under Title II, section 202(c)(1) of the Federal Credit Union Act. The certified statements required to be filed with the Administrator pursuant to this section shall be in such form and shall set forth such supporting information as the Administrator shall require. The Insurance Fee Statement, Form NCUA–1308, has been designated as the authorized statement required in this section. Copies of Form NCUA–1308 can be obtained from the National Credit Union Administration office in Washington, D.C., or any regional National Credit Union Administration office.

(b) Each credit union which was in existence prior to October 19, 1970, and which becomes federally insured after January 1 of any insurance (calendar) year shall file with the Administrator a certified statement to provide supporting information similar to that outlined in paragraph (a) of this section and the amount of the premium charge for insurance due to the fund for that year, as computed under Title II, section 202(c)(2) of the Federal Credit Union Act, no later than 30 days after the date on which the credit union receives the Certificate of Insurance issued to it under section 201 of the Federal Credit Union Act. The Insurance Fee Statement, Form NCUA–1307, has been designated as the authorized statement required in this section. Copies of Form NCUA–1307 can be obtained from the National Credit Union Administration office in Washington, D.C., or any regional National Credit Union Administration office.

(c) Each credit union which is chartered after October 19, 1970, and which becomes federally insured in the insurance (calendar) year in which it is chartered shall file with the Administrator a certified statement to provide supporting information similar to that outlined in paragraph (a) of this section and the amount of the premium charge for insurance due to the fund for that year, as computed under Title II, section 202(c)(3) of the Federal Credit Union Act, no later than January 31 of the insurance (calendar) year following the year in which the credit union was chartered. The Insurance Fee Statement, Form NCUA–1309, has been designated as the authorized statement required in this section. Copies of Form NCUA–1309 can be obtained from the National Credit Union Administrtion office in Washington, D.C., or from any National Credit Union Administration regional office.

(d) Each such statement shall be certified by the president of the credit union, or by any officer of the credit union designated by its board of directors, that to the best of his knowledge and belief the statement is true, correct, and complete.

Notice of Filing of California State Protraction Diagram

MARCH 27, 1972.

Notice is hereby given that effective May 15, 1972, the following protraction diagram, approved December 20, 1971, is officially filed and of record in the Riverside District and Land Office. In accordance with Title 43, Code of Federal Regulations, this protraction will become the basic record for describing the land for all authorized purposes at and after 10 a.m. on the above effective date. Until this date and time, the diagram has been placed in the open files and is available to the public for information only.

[Serial I–4874]

IDAHO

Notice of Proposed Withdrawal and Reservation of Lands

MARCH 28, 1972.

The Bureau of Sport Fisheries and Wildlife has filed an application, Serial No. I–4874 for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining laws but not the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for public purposes for management of migrating birds and other wildlife as a part of the Deer Flat National Wildlife Refuge.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 398, Federal Building 550 West Fort Street, Boise, Idaho 83702.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the Bureau of Sport Fisheries and Wildlife.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 11 N., R. 3E.,
  Sec. 3, lot 7;
  Sec. 10, unsurveyed island lying in E½SE¼;
  Sec. 15, unsurveyed island lying in SE¼SE¼, unsurveyed island lying in sections 14 and 15, unsurveyed island lying in sections 15 and 22.

The areas described aggregate approximately 8.2 acres in Valley County.

RICHARD H. PETRIE,
Chief,
Division of Technical Services.

BONNEVILLE POWER ADMINISTRATION

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bonneville Power Administration has prepared a final statement which discusses environmental considerations relating to BPA's projected program for fiscal year 1973.

Copies of the final environmental statement are available for review in the library of the headquarter's office of BPA, 1002 NE. Holladay Street, Portland, Oreg. 97208; the Washington, D.C. Office in the Interior Building, Room 5600; or in the following Area and District Offices: Idaho Falls, Idaho; Portland, Oreg.; Seattle, Wash.; Spokane, Wash.; Walla Walla, Wash.; Eugene, Oreg.; Kalispell, Mont.; and Wenatchee, Wash.

Copies may be obtained by writing the National Technical Information Service, Department of Commerce, Springfield, Va. 22151, and enclosing $3. Please refer to the statement number above.

W. W. LYONS,
Deputy Assistant
Secretary of the Interior.

GRAIN STANDARDS

Cairo, Ill., Grain Inspection Point

Statement of considerations. On February 3, 1972, there was published in the FEDERAL REGISTER (37 F.R. 2599) a notice announcing (1) a proposed transfer of the designation to operate the official grain inspection agency, as defined in section 3(m) of the U.S. Grain Standards Act (7 U.S.C. 75(m)), at Cairo, Ill., and (2) the application by J. R. Simpson, Cairo, Ill., for designation to operate the official grain inspection agency. Inspection agencies, members of the grain trade, and other interested parties were given until March 6, 1972, to submit written data, views, or arguments with respect to the proposed transfer and to make application for designation.

Comments were received from eight members of the grain trade recommending that J. R. Simpson be designated to operate the official grain inspection agency at Cairo. No applications for designation were received other than the application from J. R. Simpson, and no adverse comments were received.

After due consideration of all submissions made pursuant to the notice of February 3, 1972, and all other relevant matters, and pursuant to the authority contained in sections 3(m) and 7(f) of the U.S. Grain Standards Act (7 U.S.C. 75(m) and 79(f)), the designation as the official grain inspection agency at Cairo, Ill., is hereby transferred from the Woodson-Tenent Laboratories, Inc., to J. R. Simpson.

Effective date. This notice shall become effective 60 days after publication in the FEDERAL REGISTER.

Done in Washington, D.C., on March 30, 1972.

G. R. GRANGE,
Acting Administrator.

Forest Service

MOUNT ASHLAND CHAIRLIFT NO. 2

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Mount Ashland Chairlift No. 2 in Oregon, USDA-FS-DES(Adm) 72-27.

The environmental statement concerns a proposal to construct one additional chairlift at Mount Ashland to enlarge the existing winter sports facility.

This draft environmental statement was filed with CEQ on March 30, 1972.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW., Washington, D.C. 20250.

USDA, Forest Service, Pacific Northwest Region, 319 Southwest Pine Street, Portland, OR 97208.

Rogue River National Forest, Supervisor's Office, Federal Building, Medford, Oreg. 97501.

A limited number of single copies are available upon request to Rexford A. Resler, Regional Forester, Post Office Box 3623, Portland, Oreg. 97208.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151 for $3 each. Please refer to the name and number of environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Mr. Rexford A. Resler, U.S. Forest Service, Post Office Box 3623, Portland, OR 97208. Comments must be received within 50 days of the date of publication of this notice in order to be considered in the preparation of the final environmental statement.

LAWRENCE M. WHITFIELD,
Acting Deputy Chief, Forest Service.

MARCH 30, 1972.

Office of the Secretary

MEAT IMPORT LIMITATIONS

Second Quarterly Estimates

Public Law 88-482, approved August 22, 1964 (hereinafter referred to as the Act), provides for limiting the quantity of fresh, chilled, or frozen cattle meat (TSUS 106.10) and fresh, chilled, or frozen meat of goats and sheep except lamb (TSUS 106.20), which may be imported into the United States in any calendar year. Such limitations are to be imposed when it is estimated by the Secretary of Agriculture that imports of such articles, in the absence of limitations during such calendar year, would equal or exceed 110 percent of the estimated quantity of such articles, prescribed by section 2(a) of the Act.

In accordance with the requirements of the Act, the following second quarterly estimates are published:

1. The estimated aggregate quantity of such articles which would, in the absence of limitations under the Act, be imported during calendar year 1972 is 1,240.0 million pounds.

2. The estimated quantity of such articles prescribed by section 2(a) of the Act during the calendar year 1972, is 1,042.4 million pounds.

Since the estimated quantity of imports continues to exceed 110 percent of the estimated quantity prescribed by section 2(a) of the Act, under the Act limitations for the calendar year 1972 on the importation of fresh, chilled, or frozen cattle meat (TSUS 106.10) and fresh, chilled, or frozen meat of goats and sheep (TSUS 106.20), are required to be imposed but may be suspended. Such limitations were imposed by Proclamation 4114 of March 9, 1972, and were suspended during the balance of the calendar year 1972, unless because of changed circumstances further action under the Act becomes necessary.

Done at Washington, D.C., this 30th day of March 1972.

EARL L. BUTZ,
Secretary of Agriculture.

IOWA STATE UNIVERSITY ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, as published in the February 24, 1972, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 72-00345-90-46070. Applicant: Iowa State University, Ames Laboratory, Ames, Iowa 50010. Article: Scanning electron microscope, Model S-4. Manufacturer: Cambridge Scientific Instruments, Ltd., United Kingdom. Intended use of article: The article is intended to be used in conjunction with basic research studies on metal, ceramic, and semiconductor materials. Surface morphology of specimens will be examined using secondary electron, back scattering, and specimen current modes. The article will also be used to measure the crystallographic orientation of plates and needles having dimensions down to 0.5 micrometers in such materials as martensites, bainites, eutectoids, eutectics, dendrites and solid solution precipitates by means of selected area channelling patterns. Application received by Commissioner of Customs: January 27, 1972.

Docket No. 72-00344-33-46040. Applicant: National Institutes of Health, NAID/LVD, 9000 Rockville Pike, Bethesda, MD 20014. Article: Electron microscope, Model JEM 100B. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used for research aimed at a better understanding of multivirus (virus-helper virus)—host cell interaction of the adenovirus associated viruses, as well as other members of the parvovirus group. Further, studies of the nucleic acids by electron microscopy of these viruses as well as other viruses such as the adeno-SV40 hybrids and members of the leucosis group, will also be conducted. Studies already in progress on the polypeptides of these viruses will be subjected to further study in the electron microscope from ultrastructural and immunological aspects. Application received by Commissioner of Customs: January 27, 1972.

Docket No. 72-00346-00-46040. Applicant: Cedars-Sinai Medical Center, 4833 Fountain Avenue, Los Angeles, CA 90029. Article: High contrast, wide field observation attachment, JEM-ACW. Manufacture: JEOL Ltd., Japan. Intended use of article: The article is intended to be used as an accessory to an existing electron microscope to provide high contrast, distortion free, superwide images in the following projects:

1. Reconstruction of heart muscle cells in dogs as well as the retina in fish.

2. Distortion free observation of glomeruli from renal biopsies under low magnification.

Application received by Commissioner of Customs: January 27, 1972.

Docket No. 72-00347-01-77040. Applicant: University of Utah, Purchasing Department, Building 40, Salt Lake City, Utah 84112. Article: Mass spectrometer, Model MS 30. Manufacturer: Associated Electrical Industries, Ltd., United Kingdom. Intended use of article: The article is intended to be used for the analysis and characterization of gaseous, liquid, and solid materials both alone and in connection with gas chromatographic and liquid chromatographic analysis of the compounds. The article will also be used for educational purposes to train personnel in analytical mass spectroscopy in the following areas:

1. Structural studies which include reaction products and intermediates, correlation studies, and natural products.

2. Analysis of drug metabolites, stable isotopic studies of biosynthesis, stable isotope studies of organic and inorganic reactions, membrane composition, complex lipids and complex mixtures.

Application received by Commissioner of Customs: January 27, 1972.

Docket No. 72-00348-33-46070. Applicant: Duke University, Erwin Road, Durham, N.C. 27706. Article: Scanning electron microscope, Model JSM-S1. Manufacturer: Japan Electron Optics Laboratory Co., Japan. Intended use of article: The article is intended to be used by undergraduates, graduates, postdoctoral fellows and faculty for instructional purpose in ecology-limnology, biosystematics and cell physiology as well as general biology and cytology. The article will also be used for research in paleoecology of African lake sediments, evolutionary diversification of plants and calcification mechanism in marine organisms. Application received by Commissioner of Customs: January 27, 1972.

Docket No. 72-00349-75-77000. Applicant: Department of Commerce—NOAA, Experimental Meteorology Laboratory, Post Office Box 8044, University of Miami Branch, Coral Gables, Fla. 33124. Article: Distrometer, Type RD-69. Manufacturer: Marc Wiebel, Switzerland. Intended use of article: The article will be used in cloud seeding (rain making) research to measure the distribution in time and space of raindrop sizes. This information in conjunction with known details of the seeding procedures, will tell the percentage of water droplets of different sizes, the time required for the growth of the water droplets, the density of the various sized droplets per unit area and the duration of both the drop growth and the total rainfall. Finally, together with rainfall collecting instruments, it will give the total rainfall for the individual experiment periods. The article will also be used in the training of graduate students in Meteorology. Application received by Commissioner of Customs: January 28, 1972.

Docket No. 72-00350-33-09300. Applicant: University of Michigan, Medical Science Building II, Room 5614, Ann Arbor, Mich. 48104. Article: Vibrogen cell mill, M586621. Manufacturer: Max Planck Institute for Biochemistry, West Germany. Intended use of article: The article is intended to be used to prepare cell-free extracts of microorganisms for the specific purpose of isolating and studying intracellular enzymes. Application received by Commissioner of Customs: January 28, 1972.

Docket No. 72-00351-33-46500. Applicant: North Carolina Department of Mental Health, Research Division, Embryology Laboratory, Station B, Box 7532, Raleigh, N.C. 27611. Article: Ultramicrotome, Model OmU2. Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used to examine spinal cord and chicken embryonic tissues in developmental studies of the growing nervous system, specifically the formation of synapses. Application received by Commissioner of Customs: January 28, 1972.

Docket No. 72-00352-33-46500. Applicant: University of Pennsylvania, School of Medicine, Department of Anatomy, 36th Spruce Streets, Philadelphia, PA 19104. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used to prepare ultrathin serial sections of brain tissues in research investigations to discover the patterns of connection between neurons in the central nervous system. The article will also be used in training graduate students who are learning to conduct these types of research. Application received by Commissioner of Customs: January 28, 1972.

Docket No. 72-00353-33-46500. Applicant: Los Angeles County, University of Southern California Medical Center, Women's Hospital, Room 1L23, 1200 North State Street, Los Angeles, CA 90033. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to obtain ultrathin sections of male and female reproductive tissues, fertilized eggs and embryonic specimens for the purpose of obtaining ultrastructural information with the electron microscope. The objectives to be pursued in the investigations will include the ultrastructural description of reproductive tissues, the determination of ultrastructural effects from contraceptive methods, the study of fertilized eggs, the examination of sperm, and the study of early embryonic development. Application received by Commissioner of Customs: January 28, 1972.

V 37-166 APR 5 72 XUM

Docket No. 72–00354–33–46595. Applicant: Mount Sinai Hospital, Madison Avenue and 100th Street, New York, N.Y. 10029. Article: Pyramitome. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in studying the morphology of the lens in the developing chick embryo. Of primary interest is the capsule, anterior, equatorial posterior and nucleous of the lens and their relationship to each other. The project will involve the measurement of lens capsule thickness as a function of time during development, with respect to location in the lens and also the relationship of various intracellular organelles in relation to their special location within the lens as a function of time. Application received by Commissioner of Customs: January 28, 1972.

Docket No. 72–00355–01–77030. Applicant: The University of Georgia, Department of Medicinal Chemistry, School of Pharmacy, Athens, Ga. 30601. Article: NMR Spectrometer, Model R–20A. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article: The article is intended to be used in research correlating biologic activity of organic compounds to physical-chemical properties. Specific acid and base catalyzed proton exchange kinetic constants and the energies of activation of N–H compounds are being studied. The effect on proton exchange kinetics due to complexation of carbamate esters and amides with nucleotides, and soluble proteins will be studied to make subtle and meaningful correlations between the delta G of binding and protolysis data. The article will also be used in a graduate course titled Advanced Pharmaceutical Analysis and in an undergraduate course in Pharmaceutic Drug Analysis. Application received by Commissioner of Customs: February 1, 1972.

Docket No. 72–00356–33–28500. Applicant: University of Texas Medical School at San Antonio, 7703 Floyd Curl Drive, San Antonio, TX 78229. Article: Cell electrophoresis apparatus, Model Mark II. Manufacturer: Ranks Brothers, United Kingdom. Intended use of article: The article is intended to be used to study the effects of a variety of chemicals which act on the surface of the Ehrlich ascites cancer cell. Its use will permit an assessment of the subtle alterations in electric charge density associated with the components forming the cell surface. These alterations will be reflected as changes in the rate of migration of the cancer cells when subjected to an electrical field. Application received by Commissioner of Customs: February 1, 1972.

Docket No. 72–00357–33–46040. Applicant: College of Medicine & Dentistry of New Jersey, New Jersey Medical School, Department of Anatomy, 100 Bergen Street, Newark, NJ 07103. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article will be used for the following research projects:

1. The effects of chronic administration of DDT in fish livers.

2. Ultrastructural aspects of development of the peripheral nervous system of telcost fishes.

3. Investigations on growth and differentiation of tissues during amphibian development.

4. The synaptic organization of selected regions of the central nervous system of mammals.

The article will also be used in courses in electron microscopy, experimental electron microscopy, and microscopic anatomy of cells and tissues to train students in the techniques of electron microscopy. Application received by Commissioner of Customs: February 1, 1972.

Docket No. 72–00358–33–46040. Applicant: Brookhaven National Laboratory, Associated University, Inc., Upton, Long Island, N.Y. 11973. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used to obtain micrographs of the fine structure of cells, cell components, and macromolecules. Studies will be made from sections of plastic embedded biological material, isolated cell components, replicas of freeze-fractured cells, and isolated macromolecules in three-dimensional analysis of cellular structure, macromolecules and their aggregates. Application received by Commissioner of Customs: February 1, 1972.

Docket No. 72–00359–33–40600. Applicant: Florida State University, Department of Physics, Tallahassee, Fla. 32306. Article: Axial extraction penning source. Manufacturer: Amersfoort, The Netherlands. Intended use of article: The article is intended to be used for the efficient production of negative ions of a variety of elements. These negative ion beams will be injected into the Tandem Accelerator where they will be energized and focused into useful beams for heavy ion nuclear physics research. In addition the article will be used in the physics courses PSC 599 and PSC 699 for the training and qualification of students to work as physicists in basic research and technology. Application received by Commissioner of Customs: February 1, 1972.

Docket No. 72–00360–33–46040. Applicant: Harbor General Hospital, 1000 West Carson Street, Torrance, CA 90506. Article: Electron microscope, Model HU–11E. Manufacturer: Hitachi Ltd., Japan. Intended use of article: The article is intended to be used to study (a) isolated spermatozoa and ova and the fertilization process of humans and animals; (b) biopsies of kidneys, livers, brains, muscles, skin, and bone marrows of patients affected by a variety of diseases; and (c) developing organs of embryos from mouse, rabbit, and woman. The investigations are aimed at obtaining a better understanding of the various aspects of the fertilization process and of the lesions produced by diseases on a variety of organs. The article will also be used for educational purposes in the training of Pathology interns and residents and post-doctoral fellows in reproductive biology. Application received by Commissioner of Customs: February 1, 1972.

Docket No. 72–00361–33–46040. Applicant: University of Minnesota, Minneapolis, Minn. 55455. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article will be used in experiments designed to study the ultrastructure of the cell membrane before and after various enzyme and extraction procedures designed to remove specific proteins and nucleoproteins. Application received by Commissioner of Customs: February 3, 1972.

Docket No. 72–00362–33–68300. Applicant: State University of New York at Buffalo, The Research Foundation, 1807 Elmwood Avenue, Buffalo, NY 14207. Article: Microperfusion pump. Manufacturer: Wolfgang Hampel, West Germany. Intended use of article: The article will be used in a laboratory of kidney physiology to inject and perfuse individual kidney tubules in the rat with ultramicro volumes of fluid. The problems under investigation are designed to elucidate normal kidney function as well as changes seen with experimental kidney disease. Application received by Commissioner of Customs: February 3, 1972.

Docket No. 72–00363–33–46040. Applicant: University of Chicago, Department of Pathology, Division of Surgical Pathology, 950 East 59th Street, Chicago, IL 60637. Article: Electron microscope, Model EM–201. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used for post doctoral training an dresearch on ultrastructure of human cancer, particularly tumors of the hematopoietic tissues. Specifically, the instrument will be used for research on human tissue removed during surgery and for the study of experimental animal tissues. Ongoing projects include:

(a) A corrolative light and electron microscopic study of human lymphomas and leukemias;

(b) A fine resolution study for localization of ferritin labelled antibodies, and for radioisotope labelled incorporation studies of mucopolysaccharide and protein synthesis; and

(c) A fine resolution study for the three dimensional reconstruction of consecutively serial sectioned cells of various, light microscopically not further identifiable human malignant tumors, and three dimensional study of subcellular components of muscle cells in human myopathies. Application received by Commissioner of Customs: February 3, 1972.

NEW YORK UNIVERSITY ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles; Correction

The following notice of application as published in Volume 37, Number 47 (pages 5067–68) of the FEDERAL REGISTER, Thursday, March 9, 1972, pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) is hereby amended to read: Article: Ultramicrotome, Model LKB 8800A instead of Article: Ultramicrotome, Model LKN 8800A.

Docket No. 72–00293–33–46500. Applicant: Veterans Administration Hospital, 800 Stadium Road, Columbia, MO 65201. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for three dimensional sectioning of human bone marrow and soft tissue tumors in connection with diagnosis and therapy of selected human neoplasms. The article will also be used in the training of physicians for specialties in laboratory medicine including interpretation and preparation of material for electron microscopy. Application received by Commissioner of Customs: December 23, 1971.

SETH M. BODNER,
Director,
Office of Import Programs.

TEMPLE UNIVERSITY MEDICAL SCHOOL

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No.: 71–00439–33–46040. Applicant: Temple University Medical School, 3400 North Broad Street, Philadelphia, PA 19140. Article: Electron microscope, Model HU–12. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used for a study of the cross-linkages in the filaments of the pigment synthesizing organelle of the melanocyte; for a project involving the localization of isoproterenol to specific organelles in the cells of the salivary gland; and for an investigation to identify element copper in the enzyme tyrosinase.

Comments: Comments have been received from one domestic manufacturer, Forgflo Corporation (Forgflo), which alleges, inter alia, that its Model Paragon is "of equivalent scientific value to the instrument for which duty-free entry has been requested for the purposes stated in the application for which the instrument is intended to be used."

Decision: Application approved. No domestic manufacturer was both able and willing to produce an instrument or apparatus within the United States of equivalent scientific value to the foreign article, for such purposes as the article is intended to be used, and have it available without unreasonable delay to the applicant at the time the application for the foreign article was received. (March 11, 1971.)

Reasons: The Department of Health, Education, and Welfare (HEW) advises in a memorandum dated July 9, 1971 that the study of cross-linkages in filaments of pigment synthesizing organelles of the melanocyte, in which there is evidence that failure of cross-linkage in these filaments is characteristic of malignant melanoma cells, will "require the optimum in resolution. • • •" Therefore the resolution limit, i.e., the resolving capability is a pertinent specification within the meaning of § 701.2(n) of the regulations.

Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability. The foreign article has a specified resolving capability of three angstroms. Comparable electron microscopes are produced in the United States by only one manufacturer, Forgflo. Forgflo has published specifications for two electron microscopes, i.e., the Model EMU–4C and the Paragon. The EMU–4C has a specified resolving capability of five angstroms, while the Paragon, according to its printed specifications, has a resolving capability of two angstroms. Accordingly, the EMU–4C is not of equivalent scientific value to the foreign article for the purposes that the foreign article is intended to be used.

The "Paragon" is an instrument that is customarily produced on order. Section 701.2(j) of the regulations defines produced on order as follows:

> Produced on order means an instrument, apparatus, or accessory which a manufacturer lists in a current catalog and is able and willing to produce and have available without unreasonable delay to the applicant.

Section 701.11(b) of the regulations provides as to availability of such instruments:

> An instrument, apparatus, or accessory shall be considered as being manufactured in the United States if it is customarily produced for stock, produced on order, or custom-made within the United States. In determining whether a U.S. manufacturer is able and willing to produce a produced on order, or custom-made instrument, apparatus or accessory and have it available without unreasonable delay to the applicant the Deputy Assistant Secretary shall take into account the normal commercial practices applicable to the production and delivery of instruments, apparatus, or accessories of the same general category • • •.

As to the Forgflo Model "Paragon", we note that: (1) The Department of Commerce knows of no instance wherein Forgflo demonstarted that it had produced an instrument conforming to the printed specifications of the Paragon. (2) Although the design of the Paragon apparently had been completed as of the date of the comments, the component parts were not. And further, the instrument had not reached, in performance, its design specifications. (3) Forgflo's published material relating to the Paragon did not include information on delivery and Forgflo has never been able to provide the Department of Commerce with a firm delivery date. (4) Although Forgflo has accepted orders for the Paragon, delivery has been set back and Forgflo has not been able to deliver a single Paragon to this date.

Accordingly, we find that at the time the application for duty-free entry of the foreign article was received, no domestic manufacturer was both able and willing to make available to the applicant an instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, within the meaning of § 701.11(b) of the regulations.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF CINCINNATI

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71–00461–33–46040. Applicant: University of Cincinnati, College of Medicine, Department of Surgery, Eden and Bethesda Avenues, Cincinnati, OH 45219. Article: Electron microscope, Model HU–12. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used in a research program concerned with the nature and causes of surgical infections complicating trauma, the factors related to bacterial infection which alter and impair the process of wound healing, and the diagnosis and control of cancer. The electron microscope will also be used in the research education of pre- and postdoctoral fellows, interns and residents in the Department of Surgery.

Comments: Comments have been received from one domestic manufacturer, Forgflo Corp. (Forgflo), which alleges, inter alia, that its Model EMU–4C and Paragon instruments are "of equivalent scientific value to the instrument for which duty-free entry has been requested for the purposes stated in the application for which the instrument is intended to be used."

Decision: Application approved. No domestic manufacturer was both able and willing to produce an instrument or apparatus within the United States of equivalent scientific value to the foreign

V 37-66
APR 5 72
XUM

article, for such purposes as the article is intended to be used, and have it available without unreasonable delay to the applicant at the time the application for the foreign article was received. (March 25, 1971.)

Reasons: The Department of Health, Education, and Welfare (HEW) advises in a memorandum dated August 20, 1971 that, in the applicant's studies on control of infections following surgery, significant studies will involve examination of fine structural components of bacterial specimens at high resolution with negative staining for which "the best resolution available * * * will be needed." Therefore the resolution limit, i.e., the resolving capability is a pertinent specification within the meaning of section 701.2(n) of the regulations.

Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability. The foreign article has a specified resolving capability of 3 angstroms. Comparable electron microscopes are produced in the United States by only one manufacturer, Forgflo. Forgflo has published specifications for two electron microscopes, i.e., the Model EMU–4C and the Paragon. The EMU–4C has a specified resolving capability of 5 angstroms, while the Paragon, according to its printed specifications, has a resolving capability of 2 angstroms. Accordingly, the EMU–4C is not of equivalent scientific value to the foreign article for the purposes that the foreign article is intended to be used.

The "Paragon" is an instrument that is customarily produced on order. Section 701.2(j) of the regulations defines produced on order as follows:

"Produced on order" means an instrument, apparatus, or accessory which a manufacturer lists in a current catalog and is able and willing to produce and have available without unreasonable delay to the applicant.

Section 701.11(b) of the regulations provides as to availability of such instruments:

An instrument, apparatus, or accessory shall be considered as being manufactured in the United States if it is customarily produced for stock, produced on order, or custom-made within the United States. In determining whether a U.S. manufacturer is able and willing to produce a produced on order, or custom-made instrument, apparatus or accessory and have it available without unreasonable delay to the applicant the Deputy Assistant Secretary shall take into account the normal commercial practices applicable to the production and delivery of instruments, appartus, or accessories of the same general category * * *.

As to the Forgflo Model "Paragon", we note that: (1) The Department of Commerce knows of no instance wherein Forgflo demonstrated that it had produced an instrument conforming to the printed specifications of the Paragon. (2) Although the design of the Paragon apparently had been completed as of the date of the comments, the component parts were not. And further, the instrument had not reached, in performance, its design specifications. (3) Forgflo's published material relating to the Paragon did not include information on delivery and Forgflo has never been able to provide the Department of Commerce with a firm delivery date. (4) Although Forgflo has accepted orders for the Paragon, delivery has been set back, and Forgflo has not been able to deliver a single Paragon to this date.

Accordingly, we find that at the time the application for duty-free entry of the foreign article was received, no domestic manufacturer was both able and willing to make available to the applicant an instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, within the meaning of § 701.11(b) of the regulations.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF MARYLAND

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897), and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71–00414–33–46040. Applicant: University of Maryland, College Park, Md. 20740. Article: Electron Microscope, Model HU–12. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used for the study of the ultrastructure and assembly of myofibrils, myofilaments, and microtubles in dividing and differentiating chickembryo muscle cells grown in tissue culture; and to study isolated molecules of messenger RNA, DNA, and RNA–DNA hybrids from embryonic and adult muscle cells, Also electron miscroscopy will be taught in zoology courses.

Comments: Comments have been received from one domestic manufacturer, Forgflo Corporation (Forgflo), which alleges, inter alia, that its Model "Paragon" electron microscope is "superior to the instrument for which the applicant is applying for tariff relief, for the purposes stated in the application for which the instrument is intended to be used."

Decision: Application approved. No domestic manufacturer was both able and willing to produce an instrument or apparatus within the United States of equivalent scientific value to the foreign article, for such purposes as the article is intended to be used, and have it available without unreasonable delay to the applicant at the time the application for the foreign article was received. (February 23, 1971.)

Reasons: The Department of Health, Education, and Welfare (HEW) advises in a memorandum dated June 30, 1971, that the studies of the ultrastructure of muscle fibrils and microtubles and of isolated molecules of mRNA, DNA, and RNA–DNA hybrids will "require * * * the best resolution available." Therefore the resolution limit, i.e., the resolving capability is a pertinent specification within the meaning of § 701.2(n) of the regulations. Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability. The foreign article has a specified resolving capability of 3 angstroms. Comparable electron microscopes are produced in the United States by only one manufacturer, Frogflo. Frogflo has published specifications for two electron microscopes, i.e., the Model EMU–4C and the Paragon. The EMU–4C has a specified resolving capability of 5 angstroms, while the Paragon, according to its printed specifications, has a resolving capability of 2 angstroms. Accordingly, the EMU–4C is not of equivalent scientific value to the foreign article for the purposes that the foreign article is intended to be used.

The "Paragon" is an instrument that is customarily produced on order. Section 701.2(j) of the regulations defines produced on order as follows:

Produced on order means an instrument, apparatus, or accessory which a manufacturer lists in a current catalog and is able and willing to produce and have available without unreasonable delay to the applicant.

Section 701.11(b) of the regulations provides as to availability of such instruments:

An instrument, apparatus, or accessory shall be considered as being manufactured in the United States if it is customarily produced for stock, produced on order, or custom-made within the United States. In determining whether a U.S. manufacturer is able and willing to produce a produced on order, or custom-made instrument, apparatus or accessory and have it available without reasonable delay to the applicant the Deputy Assistant Secretary shall take into account the normal commercial practices applicable to the production and delivery of instruments, apparatus, or accessories of the same general category * * *.

As to the Forgflo Model "Paragon", we note that: (1) The Department of Commerce knows of no instance wherein Forgflo demonstrated that it had produced an instrument conforming to the printed specifications of the Paragon. (2) Although the design of the Paragon apparently had been completed as of the date of the comments, the component parts were not. And further, the instrument had not reached, in performance, its design specifications. (3) Forgflo's published material relating to the Paragon did not include information on delivery and Forgflo has never been able to provide the Department of Commerce with a firm delivery date. (4) Although Forgflo has accepted orders for the Paragon, delivery has been set back and Forgflo has not been able to deliver a single Paragon to this date.

Accordingly, we find that at the time the application for duty-free entry of the foreign article was received, no domestic manufacturer was both able and willing to make available to the applicant an instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, within the meaning of § 701.11(b) of the regulations.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.72-5196 Filed 4-4-72;8:49 am]

UNIVERSITY OF MIAMI

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71–00521–33–46040. Applicant: University of Miami, Post Office Box 8184, Coral Gables, FL 33124. Article: Electron microscope Model EM 300. Manufacturer: Philips Electronics NVD, the Netherlands. Intended use of article: The article will be used at the Department of Physiology and Biophysics of the Medical School for studies on cell junctions in normal and cancerous tissues. Research concerns the structural aspects of cellular communication in normal cells and the structural alterations in cancer cells.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article has a specified resolving capability of 3.5 angstroms. The most closely comparable domestic instrument is the Model EMU–4C electron microscope manufactured by the Forgflo Corporation. The Model EMU–4C has a specified resolving capability of 5 angstroms. (The lower the numerical rating in terms of angstrom units, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated September 3, 1971, that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU–4C is not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

OFFICE OF EDUCATION

Statement of Organization, Functions, and Delegations of Authority

The following statement supersedes all previous material issued in Part 6 (Office of Education) of the Statement of Organization, Functions and Delegations of Authority for the Department of Health, Education, and Welfare pertaining to Part 6–C, Delegations of Authority, Part 6–D, Reservation of Authority, and Part 6–E, Redelegation of Authority.

2–C *Delegations of authority.* Except as noted below and as provided in Part 1 (Office of the Secretary) and section 2–D of this Statement (Reservation of Authority), the Commissioner of Education shall exercise the functions vested in or delegated to the Secretary, the Department of Health, Education, and Welfare, the Commissioner, or the Office of Education by or under the following:

1. Establishment of Federal agency, Reorganization Plan No. 1, dated July 1, 1939, and Reorganization Plan No. 1, dated April 11, 1953; derived from the Acts of March 2, 1867, and July 20, 1868 (20 U.S.C. 1).

2. Establishment of and assistance to land-grant colleges and universities (Morrill Acts and special legislation in lieu thereof), except that authority to certify funds is reserved to the Secretary (Act of July 2, 1862; Act of August 30, 1890, as amended; and Act of June 29, 1935 (7 U.S.C. 301–329)).

3. Availability of library facilities (Joint Resolution No. 8, 52d Congress, approved April 12, 1892, as amended) (20 U.S.C. 91).

4. Inspection of Howard University (section 8 of Public Law 70–634, approved December 13, 1928, as amended) (20 U.S.C. 123).

5. Membership on District of Columbia Commission on Licensure (section 4 of Public Law 70–831, approved February 27, 1929, as amended) (2 District of Columbia Code 103).

6. Agreement with Housing and Home Finance Agency under title IV of the Housing Act of 1950 regarding college housing loans (Public Law 81–475, approved April 20, 1950, as amended) (12 U.S.C. 1749a(c)(2)).

7. Future Farmers of America (Public Law 81–740, approved August 30, 1950) (36 U.S.C. 271–291).

8. School construction in areas affected by Federal activities and in disaster relief areas (Public Law 81–815, approved Sept. 23, 1950, as amended) (20 U.S.C. 631–647).

9. Financial assistance for local educational agencies in areas affected by Federal activities and in disaster relief areas (Public Law 81–874, approved September 30, 1950, as amended) (20 U.S.C. 236–241–1, 242–244).

10. Immigration and Nationality Act—approval of schools for aliens under student visas (Public Law 82–414, approved June 27, 1952, as amended) (8 U.S.C. 1101(a)(15)(F)).

11. Veterans Readjustment Benefits Act of 1966—approval of accrediting agencies and membership on advisory committee (Public Law 89–358, approved March 3, 1966) (38 U.S.C. 1775, 1782–1783, 1786, 1788, 1790).

12. Consultation with National Science Foundation on study of effects on educational institutions of Federal contracts and grants for scientific research and development (Excutive Order 10521 of March 17, 1954, as amended by Executive Order 10807 of March 3, 1959).

13. National Defense Education Act of 1958, including functions of the Secretary under section 1001(d) to study Federal programs in higher education, after initial contact has been made by the Secretary with the heads of departments and agencies concerned; and excepting the functions of the Secretary under sections 761(a) (Public Law 85–864, approved September 2, 1958, as amended) (20 U.S.C. 401–602).

14. Membership on Board of Trustees of the John F. Kennedy Center for the Performing Arts (Public Law 85–874, approved September 2, 1958, as amended).

15. Science Clubs (Public Law 85–875, approved September 2, 1958) (20 U.S.C. 2 note).

16. Education of the Handicapped Act except the functions of the Secretary under sections 604 and 653 (Public Law 91–230, title VI, approved April 13, 1970) (20 U.S.C. 1401–1461).

17. Preparation of national emergency plans and development of preparedness programs covering education functions and educational institutions (Executive Order 11490 of Oct. 28, 1969, Part II, section 1107, and those portions of Part 30, sections 3001, 3002, 3003, 3004, 3005, 3007, 3008, 3009, and 3010 which pertain to education).

18. Manpower Development and Training Act of 1962, except the responsibility for overall policy direction of the program, for coordination of program policies with those of related programs within the Department and with other departments and agencies, and the functions of the Secretary under sections 232 and 233 (Public Law 87–415, approved March 15, 1962, as amended) (42 U.S.C. 2571–2623).

19. Cooperative Research Act, except the functions of the Secretary under section 2(c) relating to the transfer of funds to other Federal agencies and section 2(e) (Public Law 83–531, approved July 26, 1954, as amended) (20 U.S.C. 331–332b).

V 37-166
APR 5 72

20. Library Services and Construction Act, except the functions of the Secretary under section 502 (Public Law 84–597, approved June 19, 1956, as amended) (20 U.S.C. 351–358).

21. Grants for construction of educational broadcasting facilities under title III, part IV of the Communications Act of 1934, except the functions of the Secretary under sections 392–395 (Public Law 87–477, approved May 1, 1962, as amended) (47 U.S.C. 701–756).

22. Cuban refugee educational assistance programs, as assigned by the Commissioner of Welfare, under the Migration and Refugee Assistance Act of 1962 (Public Law 87–510, approved June 28, 1962, as amended) (22 U.S.C. 2601–2605).

23. Approval of recognized bodies for accrediting schools of medicine, dentistry, optometry, osteopathy, pharmacy, podiatry, nursing, and public health, membership on National Advisory Council on Education for Health Professions and the National Advisory Council on Nurse Training under the Public Health Service Act (Public Law 88–120, approved September 24, 1963, as amended, sections 721, 725, 841(a)(1), and 843(f)) (42 U.S.C. 293a(b)(1), et. seq.).

24. Higher Education Facilities Act of 1963, except the functions of the Secretary under section 306(b) to set limitations of general applicability respecting the amount of the annual interest grant or the amount on which such grant is based. (Public Law 88–204, approved December 16, 1963, as amended) (20 U.S.C. 701–757).

25. Vocational Education Act of 1963, except the functions of the Secretary under section 104(a)(2)(B) (Public Law 88–210, approved December 18, 1963, as amended) (20 U.S.C. 1241–1391).

26. Presidential Scholars (Executive Order 11155 of May 23, 1964).

27. Assistance in desegregation of public schools under title IV of the Civil Rights Act of 1964 (Public Law 88–352, approved July 2, 1964) (32 U.S.C. 2000 c–2000c–9).

28. Extension to the Trust Territory of the Pacific Islands of any program or of assistance under any program administered by the Commissioner of Education, except financial assistance under a grant-in-aid program (Public Law 88–487, approved August 22, 1964) (48 U.S.C. 1681).

29. Membership on and assistance to President's Commission on White House Fellowships (Executive Order 11183 of October 6, 1964).

30. Coordination of Federal education programs under Executive Order 11185 of October 16, 1964, as amended by Executive Order 11260 of December 15, 1965, and as amended by Executive Order 11410 of May 6, 1968, except the functions of the Secretary thereunder.

31. Financial assistance for follow through under the Economic Opportunity Act of 1964 (Public Law 88–452, approved August 30, 1964, as amended) (42 U.S.C. 2809(a)(2), 2971).

32. Vocational education facilities and supplements to certain grant-in-aid programs administered by the Commissioner of Education—Appalachian Regional Development Act of 1965 (Public Law 89–4, approved March 9, 1965, as amended) (40 U.S.C. App. 211, 214).

33. Elementary and Secondary Education Act of 1965, except the functions of the Secretary under sections 103(d), 309(b), and 708 (Public Law 89–10, approved April 11, 1965, as amended) (20 U.S.C. 241 a–m, 242–44, 821–887b).

34. Membership on the Federal Council on the Arts and Humanities and grants and loans for improving instructions in the humanities and arts under the National Foundation on the Arts and Humanities Act of 1965 (Public Law 89–209, approved September 29, 1965, as amended) (20 U.S.C. 958).

35. Higher Education Act of 1965, except the functions of the Secretary under section 205(a), section 303(a) and section 502 (Public Law 89–329, approved November 8, 1965, as amended) (20 U.S.C. 1001–1144; 42 U.S.C. 2751–2756).

36. Adult Education Act of 1966, except the functions of the Secretary under section 310 (Public Law 89–750, title III, approved November 3, 1966) (20 U.S.C. 1201–1211).

37. General Education Provisions Act, except the functions of the Secretary under sections 402(b), 404, and 424(b), and except for those evaluation funds which are received in any fiscal year for use at the initiative and direction of the Assistant Secretary for Planning and Evaluation; and except authority which is reserved to the Secretary to approve regulations, establish such advisory committees as he may deem appropriate, and appoint members thereof (Public Law 90–247, title IV, approved January 2, 1968, as amended) (20 U.S.C. 1221–1223g).

38. The agreements made with the Department of State in connection with educational aspects of international education exchange and international technical cooperation programs under:

a. Agricultural Trade Development and Assistance Act of 1954 (Public Law 83–480, approved July 10, 1954, as amended) (7 U.S.C. Ch. 41).

b. Foreign Assistance Act of 1961 (Public Law 87–195, approved September 4, 1961, as amended) (22 U.S.C. Ch. 32).

c. Mutual Educational and Cultural Exchange Act of 1961 (Public Law 87–256, approved September 21, 1961, as amended) (22 U.S.C. Ch. 33).

39. Mutual Educational and Cultural Exchange Act of 1961, section 102(b)(6), to the extent provided in section 4 of Executive Order 11034 of June 25, 1962 (Public Law 87–256, approved September 21, 1961, as amended) (22 U.S.C. 2451).

40. Emergency Insured Student Loan Act of 1969, except the functions of the Secretary under section 2 (Public Law 91–95, approved October 22, 1969) (20 U.S.C. 1078a).

41. Assistance to desegregating local educational agencies under the Emergency School Assistance Program, for which appropriations were made by Public Law 91–980, including that portion of the program carried out under title II of the Economic Opportunity Act of 1964 (pursuant to authority delegated to the Secretary), except authority delegated to the Secretary under section 242 of that Act.

42. The Environmental Education Act, except the functions of the Secretary under section 3(c)(1) and section 4 thereof (Public Law 91–516, approved October 30, 1970) (20 U.S.C. 1531–1536).

43. Provision of administrative support under the National Commission on Libraries and Information Science Act, section 3(b). (Public Law 91–345, approved July 20, 1970) (20 U.S.C. 1502).

44. The Drug Abuse Education Act of 1970, except the functions of the Secretary under section 5 thereof (Public Law 91–527, approved December 3, 1970) (21 U.S.C. 1001–1007).

2–D *Reservation of authority.* No State grant-in-aid funds shall be withheld nor shall any State plan or amendment thereto submitted pursuant to any statute administered by the Office of Education be finally disapproved without the Commissioner's prior consultation and discussion with the Secretary. Regulations shall be approved by the Secretary in all instances in which authority for issuances has not been specifically delegated.

2–E *Redelegation of authority.* Authority contained in section 2–C except the making of regulations, may, to the extent permitted by law, be delegated or redelegated by the Commissioner of Education to such officials of the Office of Education as he may deem appropriate.

Dated: March 30, 1972.

RODNEY H. BRADY,
Assistant Secretary for Administration and Management.

COST OF LIVING COUNCIL

[Order No. 9]

SECRETARY OF THE TREASURY

Delegation of Authority To Deny Certain Requests for Exemptions

Pursuant to the Economic Stabilization Act of 1970, as amended (hereinafter referred to as the Act) and the authority delegated to the Cost of Living Council by Executive Order No. 11640, it is hereby ordered as follows:

1. There is hereby delegated to the Secretary of the Treasury (hereinafter referred to as the Secretary), subject to the general policy guidance of and coordination with the Cost of Living Council (hereinafter referred to as the Council) and in accordance with the general policy of the Act, authority to deny exemption requests that are the same as or substantially the same as exemptions considered and denied by the Council insofar as such requests are based upon the same or substantially the same reasons considered and rejected by the Council.

2. All executive departments and agencies shall furnish such necessary assistance to the Secretary as may be authorized by law.

3. The Secretary may redelegate to any agency, instrumentality, or official of the United States any authority under this order, and may, in carrying out the functions delegated by this order, utilize the services of any other agencies, Federal or State, as may be available and appropriate.

By direction of the Council.

0,0 - DIETHYL S - (2 - CHLORO - 1 - PHTHALIMIDOETHYL) PHOSPHORODITHIOATE

Notice of Extension and Renewal of Temporary Tolerances

Hercules Inc., Wilmington, Del. 19899, was granted a temporary tolerance for residues of the insecticide *0,0*-diethyl *S*-(2-chloro-1-phthalimidoethyl) phosphorodithioate and its oxygen analog *0,0*-diethyl *S*-(2-chloro-1-phthalimidoethyl) phosphorothioate in or on citrus fruits at 1.5 parts per million on July 1, 1969 (notice was published in the FEDERAL REGISTER of July 9, 1969 (34 F.R. 11326)). The temporary tolerance was later extended to July 1, 1971 (notice was published in the FEDERAL REGISTER of September 30, 1970 (35 F.R. 15254)). The firm also was granted a temporary tolerance for residues of this insecticide and its oxygen analog in or on pecans at 0.01 part per million on March 15, 1971 (notice was published in the FEDERAL REGISTER of March 18, 1971 (36 F.R. 5254)).

The firm has requested a 1-year extension of the temporary tolerance on pecans at 0.01 part per million and a 1-year renewal of the temporary tolerance on citrus at a new level of 2.5 parts per million to obtain additional experimental data. It is concluded that such extension and renewal will protect the public health. The tolerance on pecans at the present level (0.01 part per million) is therefore extended, and the tolerance on citrus for the fresh fruit market only is renewed at the new level (2.5 parts per million). A condition under which the extension and renewal are granted is that the insecticide will be used in accordance with the temporary permits which are being issued concurrently by the Environmental Protection Agency and which provide for distribution under the Hercules Inc. name.

As extended, the temporary tolerance on pecans expires March 15, 1973. As renewed, the temporary tolerance on citrus expires March 15, 1973.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038).

Dated: March 29, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

FEDERAL DEPOSIT INSURANCE CORPORATION

INSURED STATE NONMEMBER BANKS

Statement of Policy and Guidelines for "Leeway Investments"

The Federal Deposit Insurance Corporation feels that some of its examination policies may be inhibiting insured State banks not members of the Federal Reserve System from investing in the securities of corporations who are engaged in providing capital to minority business enterprises, securities of foreign governments, or the securities of corporations whose objectives and purposes are primarily of a civic or community nature or seem socially desirable to the bank's board of directors but whose risk as a bank investment may seem greater than normal. These policies include criticism by examiners of investments by banks in equity securities or other securities not of group I or "investment grade."

It has been suggested that these constraints have in some instances inhibited banks from participating effectively in the broad social movements that have taken place in the United States during the past decade. Indeed, Congress has enacted laws authorizing programs for community rehabilitation, low and moderate income housing, and many other social objectives, and the support and participation of the financial community has been solicited to achieve those goals. In this vein, the Urban Affairs Committee of the American Bankers Association has recently sponsored the formation of Minbanc Capital Corporation, a closed-end investment company whose primary objective is to make capital funds available to qualifying minority owned banks and whose capital stock has been offered exclusively to ABA member banks. Other similar corporations, such as "Mesbics," have also been recently suggested to facilitate the flow of capital to minority business enterprises.

By encouraging insured banks to restrict their investments to "investment" grade securities, the corporation has perhaps also inhibited some banks from acquiring debt securities of alleged merit, which technically fall short of "investment" grade quality by conventional standards of liquidity and other measurable qualitative factors. Such a situation might arise with respect to debt securities associated with community rehabilitation or development corporations which, while lacking the qualitative elements of "investment" grade securities, are regarded by knowledgeable bankers as "tolerable" risks to depository financial institutions on a restricted and controlled basis. Similar circumstances may prevail in the case of securities of a foreign government, particularly among the new emerging nations, which not only suffer from liquidity imperfections arising from limitations on transfer and exchange rate fluctuations, but also qualitatively because of the absence of a reliable past record of debt performance and financial stability and an uncertain political climate.

The corporation does not wish to impede those banks that feel a strong sense of responsibility from providing limited financial assistance under the circumstances described. Accordingly, the board of directors is adjusting the corporation's examination policies to enable those insured State nonmember banks that so desire to invest in equity or capital debt securities falling within broad categories such as those discussed without fear of criticism by the corporation or its examiners, subject to the following conditions:

(1) That such investments are allowed for State nonmember banks by applicable State law;[1]

(2) That they are not in conflict with the Voluntary Foreign Credit Restraint guidelines promulgated by the Board of Governors of the Federal Reserve System;

(3) That the aggregate total of all such investments not exceed the amount authorized by applicable State law or 10 percent of the bank's combined capital stock and surplus,[2] whichever is less;

(4) That all such investments have been approved by the bank's board of directors as "leeway investments" and are so identified on the bank's general or subsidiary ledger records.

Within the parameters outlined above, the acquisition of "leeway investments" will not be subject to criticism by corporation examiners, and in the absence of default or bankruptcy will be permitted to be carried on the bank's books at amortized acquisition cost.

Interested persons are given 45 days to submit written comments, suggestions or objections concerning this proposed policy statement. Address all such correspondence to:

Office of the Chairman, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

By order of the Board of Directors, March 31, 1972.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

[FR Doc.72–5250 Filed 4–4–72;8:54 am]

[1] The word "State" means any State of the United States, the District of Columbia, any territory of the United States, Puerto Rico, Guam, American Samoa, or the Virgin Islands.

[2] Surplus means that segment of the bank's capital structure duly established as "surplus" by action of the board of directors and so captioned on the bank's books.

FEDERAL MARITIME COMMISSION

DET BERGENSKE DAMPSKIBSSELSKAB

Order of Revocation of Certificates of Financial Responsibility

Certificate of Financial Responsibility for Indemnification of Passengers for Nonperformance of Transportation No. P–52 and Certificate of Financial Responsibility to Meet Liability Incurred for Death or Injury to Passengers or Other Persons on Voyages No. C–1,033.

Secretary.

[FR Doc.72–5205 Filed 4–4–72;8:50 am]

FRED F. NOONAN CO., INC., ET AL.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreements filed by:

Paul A. Dezurick, Esq., Graham & James, 310 Sansome Street, San Francisco, CA 94104.

Agreement No. T–2610, between Fred F. Noonan Co., Inc. (Noonan), Pasha Truckaway Corp. (Pasha), and Canal Industrial Park, Inc. (CIP), sets forth the basis for (1) the assignment to CIP by Noonan and Pasha of the "Southside Premises" located at Richmond, Calif.; (2) the lease to CIP by Noonan and Pasha of the existing improvements to the Southside Premises; and (3) the preferential assignment to Noonan by CIP of portions of the "Northside Premises" originally leased to Pasha by the Surplus Property Authority of the city of Richmond, but subsequently assigned to CIP by Pasha pursuant to the terms of FMC Agreement No. T–2427. It is the parties' intent that the combined effect of the implementation of the three basic provisions of Agreement No. T–2610 will be CIP's operation of the Southside Premises (formerly leased to Noonan and Pasha) in conjunction with its operations at the Northside Premises, with Noonan performing agency and clerking services for CIP's combined operation of both the Northside and Southside Premises.

Agreement No. T–2610–A implements the first basic provision of Agreement No. T–2610, the assignment to CIP of Noonan and Pasha's right, title, and interest in (1) the Southside Premises, consisting of 16.67 acres of land (exclusive of improvements); and (2) a contract with Parr-Richmond Terminal Co. (FMC Agreement No. T–2332, determined not to be subject to section 15) relating to the receipt and free-time storage of automobiles delivered at Parr-Richmond Terminal facilities. Canal Industrial Park, Inc. assumes all obligations of Noonan and Pasha under Agreement No. T–2332, and will be compensated directly by Parr-Richmond on the same basis as the assignors were compensated.

Agreement No. T–2610–B implements the second basic provision of Agreement No. T–2610, the lease to CIP by Noonan and Pasha of the existing improvements to the Southside Premises assigned to CIP by Noonan and Pasha under Agreement No. T–2610–A. The lease is for a term of 8 years and 4 months. As compensation, Noonan is to receive 50 percent of the net income received by CIP from its operation of the Southside Premises, to a maximum of $35,000 during the terms of the lease of improvements, and Pasha is to receive $1 annually.

Agreement No. T–2610–C implements the third basic provision of Agreement No. T–2610, the preferential assignment to Noonan by CIP of portions of the Northside and Southside Premises with CIP retaining secondary and temporary assignment rights. Agreement No. T–2610 provides that Noonan will have no right to collect wharfage and dockage fees on the Northside facilities.

Dated: March 31, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[Docket No. CP72-227]

CAPROCK PIPELINE CO.

Notice of Application

MARCH 28, 1972.

Take notice that on March 21, 1972, Caprock Pipeline Co. (applicant), Post Office Box 2542, Amarillo, Tex. 79105, filed in Docket No. CP72-227 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the acquisition from Pioneer Natural Gas Co. (Pioneer), and operation of certain gas gathering facilities, the construction and operation of minor interconnecting facilities with Northern Natural Gas Co. (Norhtern) and the operation of certain existing facilities for the transportation of natural gas for Pioneer in Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to acquire Pioneer's field gathering system in the West Wellman Field, Terry County, Tex., at a net book cost of $51,886; to gather Pioneer's gas for a gathering charge of 1 cent per Mcf at 14.65 p.s.i.a.; to deliver the gas at two points on the gathering system to Northern, which will redeliver it to applicant at a point of interconnection with applicant's existing Gaines County, Tex., facilities; and to transport the gas for Pioneer from the point of redelivery by Northern to El Paso Natural Gas Co.'s Plains Compressor Station in Yoakum County, Tex., at a charge of one-half cent per Mcf at 14.65 p.s.i.a. Applicant also proposes to construct certain minor interconnecting facilities at the point where it will receive the West Wellman Field gas from Northern in Gaines County, Tex.

Applicant states that the purpose of the proposed transportation service is to supply needed natural gas to Pioneer's West Texas distribution system, supplied by El Paso Natural Gas Company downstream of its Plains Compressor Station. Pioneer has advised applicant that its customers presently receiving gas from the West Wellman Field can be served from other sources of supply. Applicant estimates that the maximum volume of West Wellman Field gas to be transported will be 5,000 Mcf per day.

Applicant plans to finance the acquisition of the gathering facilities from the proceeds of a note in the amount of $50,000 to Pioneer, with the balance from cash on hand. Applicant estimates the cost of the proposed new interconnection facilities at $1,179, which it plans to finance from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 18, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project 785]

CONSUMERS POWER CO.

Notice of Application for Approval of Exhibit R (Recreational Use Plan) for Constructed Project

MARCH 27, 1972.

Public notice is hereby given that application for approval of an Exhibit R has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Consumers Power Co. (Correspondence to Mr. P. A. Perry, Secretary, Consumers Power Co., 212 West Michigan Avenue, Jackson, MI 49201) as part of the license for the Calkins Bridge Project No. 785, located on the Kalamazoo River, near the city of Allegan, in Allegan County, Mich.

The project reservoir is presently used primarily for sightseeing, boating, and canoeing, and limited fishing. Due to the abundance of other lakes and ponds near the project the poor water quality within the project reservoir, and the small amount of fee-owned lands within the project boundary, the recreational use of project lands and waters is limited.

Recreation facilities located outside the project boundary, but with access to the project reservoir, include two areas owned and maintained by the Michigan State Department of Natural Resources: One is the Lakeview Campground with ten tent or trailer campsites, a picnic area with tables and grills, sanitary facilities, and a boat launch area; the other is an improved boat launching site with two ramps, sanitary facilities, and parking facilities for 36 cars and boat trailers and for 73 cars. Access to the reservoir is also available at (1) a Highway turnout with a sheltered well and an unimproved boat launching site; (2) Echo Point Park, located in the Allegan State Game Area, which includes a picnic area with 10 tables, grills, and an improved boat ramp; and (3) Indian Shores Park, a private park for the use of Indian Shores Subdivision residents, which includes a well, picnic area with tables and grills, a playground area, and an improved boat ramp.

Licensee's development plans include constructing a boat launch ramp on fee-owned lands, improving access to the launch site and issuing recreational leases to the city of Allegan for development of a 12 acre recreational park and to the Boy Scout Area Council for use of an island in the project reservoir.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 16, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP71-13, etc.]

EL PASO NATURAL GAS CO.

Notice of Motion for Further Modification of Order Permitting Tracking Increases in Purchased Gas Costs

MARCH 27, 1972.

Take notice that El Paso Natural Gas Co. (El Paso), on March 13, 1972, filed in Docket No. RP71-13 a motion for further modification of the Commission's order, issued October 30, 1970, as amended by order issued July 30, 1971, insofar as it gives El Paso authority to file rate increases and decreases to reflect increases or decreases in the cost of purchased gas for its Southern Division System.

El Paso seeks further modification of the order issued October 30, 1970, as amended, so as to permit it to track the increase in cost of gas purchased on an intrastate basis and utilized as fuel in El Paso's plants and stations situated on its Southern Division System. El Paso states that in light of the fact that it is unable to acquire, on a jurisdictional basis, new supplies in the Permian Basin area in meaningful quantities and the increasingly effective competition in west Texas from intrastate pipeline purchasers, El Paso has undertaken an intrastate project, as more fully described in its motion, which it hopes will provide intrastate supplies and thereby preserve interstate supplies for the use and benefit of customers served by its interstate Southern Division System. El Paso says that in addition to the distribution, export and direct sale uses of the intrastate supplies in the city of El Paso, Tex., and surrounding area, it anticipates that these supplies will be utilized for fuel in plants and stations physically situated on El Paso's interstate system in Texas and that, in its motion, it seeks only authority necessary to track the increased cost of the intrastate gas utilized as fuel at those locations.

Copies of the motion were served on all parties in Docket No. RP71-13 and RP71-14, all jurisdictional and nonjurisdictional customers of El Paso's Southern Division System and interested State regulatory commissions.

Answers or comments relating to the motion may be filed with the Federal Power Commission, Washington, D.C. 20426, on or before April 11, 1972.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP72-230]

FLORIDA GAS TRANSMISSION CO.

Notice of Application

MARCH 28, 1972.

Take notice that on March 22, 1972, Florida Gas Transmission Co. (applicant), Post Office Box 44, Winter Park, Fla. 32789, filed in Docket No. CP72-230 a budget-type application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the regulations under said Act, for a certificate of public convenience and necessity authorizing the construction and installation, during the 12-month period commencing July 1, 1972, and operation of certain natural gas-purchase facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the purpose of this budget-type application is to augment its ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in producing areas generally coextensive with its system and in maintaining its currently committed supplies of natural gas.

The total cost of the facilities proposed herein will not exceed $7 million, with no single onshore project to exceed $1 million and no single offshore project to exceed $1,750,000. Applicant states that these costs will be financed from internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 18, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CS71-232]

R. W. LANGE

Notice of Petition of Waiver of Regulations

MARCH 28, 1972.

Take notice that by letter filed March 21, 1972, R. W. Lange, Post Office Box 1034, Garden City, KS 67846, small producer certificate holder in Docket No. CS71-232, requests that the Commission waive in part paragraph (c) of § 157.40 of the regulations under the Natural Gas Act (18 CFR 157.40(c)) so as to permit the sale of natural gas under his small producer certificate from reserves acquired in place from Petroleum, Inc., a large producer.

Section 157.40(c) provides in part that sales may not be made pursuant to a small producer certificate from reserves acquired by a small producer by purchase of developed reserves in place from a large producer. Mr. Lange states that he has acquired the Hoskinson No. 1 well from Petroleum, Inc., that the well is marginal, and that Petroleum, Inc., proposed to plug and abandon the well.

Mr. Lang's letter is being construed as a petition for waiver of Commission regulations under paragraph (b) of § 1.7 of the Commission's rules of practice and procedure (18 CFR 1.7(b)). Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than April 21, 1972, views and comments in writing concerning the petition for waiver. An original and 14 conformed copies should be filed with the Secretary of the Commission. The Commission will consider all such written submittals before acting on the petition.

KENNETH F. PLUMB,
Secretary.

[Project 2692—North Carolina]

NANTAHALA POWER AND LIGHT CO.

Notice of Availability of Environmental Statement for Inspection

MARCH 28, 1972.

Notice is hereby given that on March 29, 1972, as required by § 2.81(b)

V 37-166 APR 5 72 XUM

of Commission regulations under Order 415–B (36 F.R. 22738, November 30, 1971) a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971) was placed in the public files of the Federal Power Commission. This statement deals with an application filed pursuant to the Federal Power Act by Nantahala Power and Light Co. for a major license for Nantahala Project No. 2692.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, D.C. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The project consists of (1) a dam (1,042 feet long and 250 feet high), (2) a reservoir (surface area of 1,605 acres), (3) a 5.6 mile long pressure conduit, (4) two diversion dams (one 109 feet long and 16 feet high and the other 115 feet long and 16 feet high), (5) conduits (totaling approximately 3 miles) connecting to the main conduit, and (6) a powerhouse with installed capacity of 43,200 kw.

Any person desiring to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene, and also file an explanation of their environmental position, specifying any difference with the environmental statement upon which the intervenor wishes to be heard, including therein a discussion of the factors enumerated in § 2.80 of Order 415–B. Written statement by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before 60 days from March 29, 1972. The Commission will consider all response to the statement.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–5173 Filed 4–4–72;8:47 am]

[Docket No. CP72–217]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

MARCH 27, 1972.

Take notice that on March 6, 1972, Natural Gas Pipeline Co. of America (applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP72–217 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities required to operate its pipeline facilities at authorized levels of delivery capacity, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the winter season deliverability of its existing gas supply is inadequate to support operation of its pipeline at authorized levels of capacity. To assure continued deliveries to existing customers, Applicant proposes to increase the peak day withdrawal capacity of its Sayre Storage Field in Beckham County, Okla., to 300,000 Mcf; to increase the capacity of its pipeline between its Sayre Storage Field and its Compressor Station No. 111 in Hutchinson County, Tex., in order to effectuate transportation of the increased daily withdrawal quantities from Sayre Storage; to increase the peak day and seasonal capacity of its storage fields in Iowa and Illinois by 75,000 Mcf and 7,500,000 Mcf, respectively; to increase the capacity of its main transmission system between its Iowa Storage Fields and Joliet, Ill., in order to effectuate transportation of the increased daily withdrawal quantities therefrom; and to utilize additional storage service in the amounts of 45,000 Mcf peak day and 4,500,000 Mcf seasonally which Applicant has contracted for with Michigan Wisconsin Pipe Line Co.

To effect the proposal herein, applicant proposes the construction and operation of:

(1) 13,000 additional compressor horsepower, approximately 0.4 mile of 10-inch gathering pipeline, five injection-withdrawal wells, purification and other miscellaneous facilities at its Sayre Storage Field in Beckham County, Okla.;

(2) 3,000 additional horsepower at Compressor Station No. 111, in Hutchinson County, Tex., 3,000 additional horsepower at Compressor Station No. 154, in Gray County, Tex., and approximately 15.78 miles of 26-inch pipeline partially looping its existing pipeline between its Sayre Storage Field and Compressor Station No. 111;

(3) Modification of one existing compressor unit, additional cushion gas and other miscellaneous facilities at Applicant's Cairo Mt. Simon Storage Field in Louisa County, Iowa;

(4) Nineteen injection - withdrawal wells, recompletion of an existing St. Peter reservoir well as a Mt. Simon well, approximately 0.5 mile of 8-inch gathering pipeline, additional cushion gas, and other miscellaneous facilities at Applicant's Columbus City Mt. Simon Storage Field in Louisa County, Iowa;

(5) Two injection-withdrawal wells, approximately 0.57 mile of 12-inch and 8-inch gathering pipelines, 2,000 additional horsepower at its Compressor Station No. 201, additional cushion gas, and other miscellaneous facilities at Applicant's Herscher Northwest Storage Field in Kankakee County, Ill.;

(6) 2,000 additional horsepower, approximately 0.89 mile of 8-inch and 6-inch gathering pipelines, additional cushion gas, and other miscellaneous facilities at Applicant's Loudon Storage Field in Fayette County, Ill.;

(7) Approximately 20.72 miles of 36-inch pipeline partially looping its existing pipeline between the Iowa storage fields and Joliet, Ill.

In addition to the preceding proposal, applicant requests that the inventory limitations on its storage fields imposed as conditions to certificate authorization heretobefore issued be increased to levels as follows:

	Mcf
Sayre Storage Field, Beckham County, Okla.	84,000,000
Cairo Mt. Simon Storage Field, Louisa County, Iowa	15,000,000
Herscher Northwest Storage Field, Kankakee County, Ill.	12,000,000
Loudon Storage Field, Fayette County, Ill.	47,000,000
Columbus City Mt. Simon Storage Field, Louisa County, Iowa	10,000,000

Applicant states that the cost of the facilities to be constructed, inclusive of additional cushion gas, is $20,727,000. Applicant plans to finance said costs with funds to be obtained through interim and permanent financing.

Any person desiring to be heard or to make protest with reference to said application should on or before April 17, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–5165 Filed 4–4–72;8:47 am]

[Project 2533–Minnesota]

NORTHWEST PAPER CO.

Notice of Availability of Environmental Statement for Inspection

MARCH 28, 1972.

Notice is hereby given that on March 31, 1972, as required by § 2.81(b) of Commission regulations under Order 415–B (36 F.R. 22738, November 30, 1971) a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971) was placed in the public files of the Federal Power Commission. This statement deals with an application for license filed by The Northwest Paper Co. for the Brainerd Project No. 2533–Minnesota.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, D.C. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The existing project consists of: (1) A dam about 400 feet long and 30 feet high incorporating the powerhouse; (2) a spillway containing two 85-foot wide by 7-foot high Bascule gates and a 20-foot wide tainter gate; (3) a 14-mile long reservoir with an area of several thousand acres; (4) a powerhouse forming part of the dam and containing five generators with a total capacity of 3,342 kw; (5) a substation with three 2400/480 transformers; and (6) appurtenant facilities.

Any person desiring to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene, and also file an explanation of their environmental position, specifying any difference with the environmental statement upon which the intervenor wishes to be heard, including therein a discussion of the factors enumerated in § 2.80 of Order 415–B. Written statement by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before 60 days from March 31, 1972. The Commission will consider all response to the statement.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–5174 Filed 4–4–72;8:47 am]

[Docket No. RI72–196]

SHELL OIL CO.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

MARCH 28, 1972.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf*		Rate in effect subject to refund in docket No.
									Rate in effect	Proposed increased rate	
RI72–196..	Shell Oil Co.	2	10	Natural Gas Pipeline Co. of America (Clayton Field, Live Oak County, Tex., District No. 2).	$62,389	3–1–72	.....	4–2–72	15.4536	24.0	

*The pressure base is 14.65 p.s.i.a.

The question presented here is whether the subject gas is entitled to an area rate of 19 cents, which is the rate established in Opinion No. 595 for gas sold under contracts dated prior to October 1, 1968, or an area rate of 24 cents which applies to contracts dated on or after October 1, 1968. As justification for the proposed 24 cents rate, Shell states that the gas to be delivered after April 1, 1972, was never covered by the July 15, 1950, contract and was in fact specifically declared to be surplus gas which Shell could have sold at any time. The proposed increase should be suspended for one day from the proposed effective date of April 1, 1972, pending determination as to whether the gas involved herein is entitled to the new or old gas price.

CERTIFICATE OF ABBREVIATED SUSPENSION

Pursuant to § 300.16(1)(3) of the Price Commission rules and regulations, 6 CFR Part 300 (1972), the Federal Power Commission certifies as to the abbreviated suspension period in this order as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by "Area Rate Proceeding, Docket No. AR61–1, et al.," Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in "Permian Basin Area Rate Case," 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this Commission if such rates are contractually authorized and are at or below the area ceiling.

(2) In the instant case, the requested increases do not exceed the ceiling rate for a 1 day suspension.

(3) By Order No. 423 (36 F.R. 3464) issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act (15 U.S.C. 717c(d)) in a situation where the proposed rate exceeds the increased rate ceiling but does not exceed the ceiling for a 1 day suspension.

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage. (See Opinion Nos. 595, 598, and 607, and Order No. 435). In these circumstances and for the reasons set forth in Order No. 423 the Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR Part 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued, adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

[Project 199]

SOUTH CAROLINA PUBLIC SERVICE AUTHORITY

Notice of Application for Change in Land Rights

MARCH 27, 1972.

Public notice is hereby given that application for approval of the conveyance of 409.7 acres of project land to Oakland Hunt Club to use for private hunting has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by South Carolina Public Service Authority (Correspondence to Mr. J. B. Thomason, General Manager, South Carolina Public Service Authority, Santee-Cooper, Moncks Cor-

V 37-166 APR 5 72 XUM

ner, S.C. 29461) in Project No. 199, located on the Santee and the Cooper Rivers, in Berkeley, Calhoun, Clarendon, Orangeburg, and Sumter Counties, S.C. The project lands to be conveyed are in Eutaw Parish and First St. Johns Parish, Berkeley County, S.C.

The application seeks Commission approval of a proposed conveyance of 409.7 acres of project land to Oakland Hunt Club to be used for private bird hunting, consisting of 203 acres known as Willow Grove Plantation located on the eastern side of the Cooper River in First St. Johns Parish, and 206.7 acres which are a portion of licensee's 1,163.7-acre Bluefield Plantation Tract in Eutaw Parish. In exchange for the receipt of the above tracts, Oakland Hunt Club would convey to licensee 409.7 acres of its own land for nonproject purposes.

The instrument of conveyance would retain licensee's right to use the land for project purposes and include the covenant pursuant to paragraph C of Order 313. No construction is planned on the lands; however, the land will be cleared in selected areas to allow the planting of cover crops.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 5, 1972, file with the Commission, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project 120]

SOUTHERN CALIFORNIA EDISON CO.

Notice of Availability of Environmental Statement for Inspection

MARCH 28, 1972.

Notice is hereby given that on August 21, 1970, as required by § 2.81(b) of Commission regulations under Order 415-B (36 F.R. 22738, November 30, 1971) a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971) was placed in the public files of the Federal Power Commission. This statement deals with an application for a new major license filed pursuant to the Federal Power Act for constructed Big Creek No. 3 Project No. 120.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, D.C. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

This statement discusses the environmental impact of Big Creek No. 3 Project located in Fresno, Madera, Tulare, Kern, and Los Angeles Counties, Calif. The project consists of a dam with a concrete spillway; a reservoir; an unlined diversion tunnel; four penstocks; and a powerhouse containing a total installed capacity of 107,100 kw. The project has been in operation since 1923.

Any person desiring to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene, and also file an explanation of their environmental position, specifying any difference with the environmental statement upon which the intervenor wishes to be heard, including therein a discussion of the factors enumerated in § 2.80 of Order 415-B. Written statement by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before 60 days from March 27, 1972. The Commission will consider all response to the statement.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-5175 Filed 4-4-72;8:48 am]

[Docket No. CP72-229]

CITIES SERVICE GAS CO.

Notice of Application

MARCH 30, 1972.

Take notice that on March 22, 1972, Cities Service Gas Co. (Applicant), Post Office Box 25128, Oklahoma City, Okla. 73125, filed in Docket No. CP72-229 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the installation and operation of certain natural gas compressor facilities in Newton County, Mo., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that under the terms of Arkansas Louisiana Gas Co.'s (Arkla) proposed curtailment plan submitted in Docket No. RP71-122, Arkla proposes to reduce deliveries of natural gas to Applicant at a point near Jane, Mo., from a daily maximum volume of 133,000 Mcf to 55,020 Mcf, which, applicant says, is an insufficient volume of natural gas to enable it to serve the peak day firm requirements of its customers in the Springfield, Mo., area. On November 30, 1971, the Commission granted applicant interim relief by directing Arkla to deliver volumes of natural gas up to 75,000 Mcf per day whenever it was necessary to protect firm gas service to applicant's customers east of its Saginaw Compressor Station, with the condition that applicant take all necessary steps to alleviate the capacity problem on its pipeline before the next heating season.

Applicant seeks authorization to install and operate an additional 2,000 horsepower compressor unit at its Saginaw Compressor Station near Joplin, Newton County, Mo., in order to enable it to compress sufficient supplemental volumes of natural gas from its Southern Trunk and Quapaw pipelines into its Springfield 16-inch pipeline to serve the peak day firm requirements of its customers east of the Saginaw Compressor Station during the 1972-73 heating season.

Applicant estimates the total cost of the proposed facilities at $900,000, which it plans to finance from treasury cash.

Applicant states that the instant application is filed without modifying or prejudicing its position in the proceeding in Docket No. RP71-122.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 24, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-5230 Filed 4-4-72;8:52 am]

[Docket No. R-338]

MOBIL OIL CORP. ET AL.

Order Denying Applications for Rehearing

MARCH 30, 1972.

Mobil Oil Corp. (Mobil) on February 29, 1972, and Amoco Production Co. (Amoco) and the Public Service Commission for the State of New York (New York Commission) on March 1, 1972, filed timely applications for rehearing of the Commission's Order No. 449 issued January 31, 1972, in the above-entitled proceeding. Order No. 449 added a new § 2.71 to the Commission's General Policy and Interpretations under the Natural Gas Act providing that when pipeline companies transport liquids and liquefiable hydrocarbons from producing areas to processing plants for removal of such hydrocarbons, the contractual consideration to be received by the pipeline companies for such transportation will be the amount set forth in the parties' contracts unless the specified contractual consideration is less than 2 cents per hundred miles for liquefiable hydrocarbons and 20 cents per barrel for liquids, in which case the aforesaid minimum charges will apply.

Examination of the 15 specifications of alleged error in Mobil's application reveals that they are repetitive in nature and therefore can be summarized under seven primary contentions. Mobil first argues that the Commission erred in establishing the charges allocable to the transportation of liquids and liquefiable hydrocarbons in an "informal" rulemaking proceeding without requiring a trial-type hearing, including presentation of witnesses with right of cross-examination, issuance of an intermediate decision, and the filing of briefs. Mobil claims that the Commission's use of "informal" rulemaking has resulted (a) in denial to it of due process because of its inability to test the accuracy of the data relied upon by the Commission, (b) in consideration by the Commission of transportation costs apart from its section 7 certificate proceedings, and (c) in production of incomplete findings of facts which are not supported by substantial evidence.

Mobil cites a number of inapposite court decisions in support of its first contention, including City of Chicago v. F.P.C., ------ F. 2d ------ (D.C. Cir. No. 23,740 decided Dec. 2, 1971). The court's discussion of rulemaking proceedings in City of Chicago shows that the Commission correctly employed an informal rulemaking approach in this proceeding. The court there (slip op. p. 21) pointed out that section 16 of the Natural Gas Act gives the Commission broad power to prescribe such rules and regulations as it may find necessary or appropriate in carrying out the provisions of the Act. The court noted that when the Commission employs section 16, the Natural Gas Act does not specify the procedures to be used, but that the Administrative Procedure Act, particularly in section 4, sets forth the minimum requirements which the Commission must meet before exercising its power under section 16 of the Gas Act (slip op. p. 22). While the Commission may resort to full evidentiary hearings under section 4 of the Administrative Procedure Act, it may also find in its discretion that the minimum procedures of providing only for the "* * * submission of written data, views or arguments with or without opportunity for oral presentation" are sufficient for the acquisition of the information which will enable the Commission to carry out effectively the provisions of the Gas Act. The court concluded that (slip op. p. 23):

> * * * The ability to choose with relative freedom the procedure it will use to acquire relevant information gives the Commission power to realistically tailor the proceedings to fit the issues before it, the information it needs to illuminate those issues and the manner of presentation which, in its judgment, will bring before it the relevant information in the most efficient manner.

The informal procedure utilized by the Commission in this proceeding permitted Mobil and all other interested parties to file comments and to participate in two conferences. The comments and facts thereby obtained constituted sufficient bases for the Commission's promulgation of § 2.71 by issuance of Order No. 449 and the procedures employed did not deny Mobil due process under the Natural Gas and Administrative Procedure Acts.

The cost of transporting the producers' liquids and liquefiables is an inappropriate matter for consideration in Mobil's section 7 proceedings. The issues in such cases are related to the usual considerations of demonstrating existence of markets, proving adequate gas reserves, and showing that the level of the proposed initial price is in the public interest. In initial certificate cases the producer is estimating the volumes of gas and liquids which will be produced and the pipeline purchaser is uncertain of the exact location of facilities and of their ultimate costs. Only after the pipeline company's facilities have been constructed and production has commenced does the pipeline company know for certain what its actual costs for moving liquids and liquefiables are. The variables which have to be considered in ascertaining the exact cost of transporting the producers' liquids and liquefiables were among the reasons for the Commission's conclusion that a general rule for application to all producers could properly be determined only in a rulemaking proceeding on the basis of generalized industry costs, rather than by means of the impractical and time-consuming trial-type hearings sought to be instituted by Mobil.[1]

Mobil's second contention is that the pipeline cost data relied on by the Commission are inflated because they were taken from pipeline rate filings which have been subjected to contested proceedings resulting in disallowance of some of the costs originally claimed. In support of that argument Mobil refers to the fact that some of the data relied on by the Commission related to the costs claimed by four pipeline companies which subsequently agreed to make rate reductions accepting decreased rates of return and other cost reductions below those reflected in the data distributed at the conferences held in this proceeding. The short answer to that argument is that pipeline costs, exclusive of allowing increases in rates to track escalations in cost of purchased gas, have continued to rise above the level of the costs reflected in the data on which the Commission relied in determining charges in this proceeding.

There is no validity to Mobil's claims that the Commission relied on data reflecting inflated costs which have been reduced in contested rate proceedings because the cost of debt has continued to rise and pipeline companies have not encountered any decreases in operating and maintenance costs which would in any way support an argument that the cost data distributed in this proceeding are inflated above the actual costs being incurred by the pipeline companies. Not only have the costs risen considerably above those reflected in the studies distributed in this proceeding, but the scarcity of gas supplies has resulted in reduced sales volumes in some cases so that the unit cost of transporting gas would be slightly higher than the studies shown in this proceeding even if costs had not continued to rise.

Mobil's third contention is that the Commission violated § 1.18(e) of its rules of practice and procedure by relying on data which were offered by the pipeline companies as a settlement of the issues in the proceeding. Mobil points to paragraph one on page two of the minutes of the conference held on October 15, 1970, as support for the foregoing argument. That paragraph simply notes that the pipeline companies' position might be different from the one stated at the conference if their offer of settlement should be rejected. Mobil's third contention is untenable for at least five reasons. First, § 1.18(e) provides that offers of settlement are privileged and that such offers cannot be used in evidence against the person who made the offer. Since Mobil did not make the offer, it cannot complain because data submitted by the pipeline companies were used. Second, the pipeline companies only stated that their "position" might be different if their offer were rejected, not that they would argue that the data they had presented were incorrect. Third, the data submitted by the pipeline companies were taken from the Commission's public files and could be used in any event regardless of whether the pipeline companies' settlement offer was ever accepted. Fourth, the pipeline companies' settlement offer was accepted by the majority of the producers and other parties and approved by the Commission in Opinion No. 598 issued July 16, 1971, 46 FPC —, in Area Rate Proceeding, et al. (Southern Louisiana Area), Docket Nos.

[1] The court in City of Chicago v. F.P.C., 385 F.2d 629 (D.C. Cir. 1967), pointed out the danger inherent in case-by-case adjudications when it stated at p. 644 "* * * The continued expressions of courts and commentators stressing the desirability of generalized approaches to generalized problems does not betoken a desire to meddle with administrative details and techniques, but rather an uneasiness lest an excessively individuated approach may be a seed bed that is too favorable to the rank weed of discrimination."

V 37-166 APR 5 72 XUM

AR61–2, et al. Fifth, not one of the pipeline companies which offered the data relied on by the Commission has filed an application for rehearing of Order No. 449 or objected to the Commission's reliance on the data they distributed at the conference.

The fourth error alleged by Mobil is that the Natural Gas Act does not give the Commission authority to assert jurisdiction over the transportation of liquid hydrocarbons. The Supreme Court in Permian Basin Area Rate Cases, 390 U.S. 747 (1968), at p. 820, n. 111, affirmed the Commission's assertion of jurisdiction over the total raw stream of casinghead gas which includes entrained liquids. In The Jupiter Corp. v. F. P. C., 424 F.2d 783, 792 (D.C. Cir. 1969), cert. denied, 397 U.S. 937 (1970), the court referred to a similar assertion of jurisdiction in The Jupiter Corporation, 39 FPC 954 (1968), but stated that it did not need to reach Jupiter's contentions to the effect that the Commission had taken a different position in the rulemaking notice issued in this proceeding in that the Commission was proposing to allocate out of the pipeline companies' cost of service the costs related to transporting liquid hydrocarbons. The court stated that it did not need to resolve those points in the Jupiter case because certain court proceedings related to Jupiter's contractual right to charge for liquid transportation had not yet been concluded.

Pipeline companies are providing a service in moving the producers' liquid hydrocarbons to processing plants. If the Commission does not fix minimum charges for such services, gas consumers will continue to pay costs related primarily to transporting the producers' liquid hydrocarbons. The Commission sees no essential difference between establishing a minimum rate to be charged for transporting actual liquids which are transported along with the raw gas stream and fixing a minimum charge for transporting liquefiable hydrocarbons which can be removed from the raw gas stream only by using sophisticated equipment. In reaching the foregoing conclusions the Commission is not implying that it has jurisdiction over the construction and operation of pipelines to transport hydrocarbons solely in liquid form. In Order No. 449 the Commission has asserted only such jurisdiction as is required to make certain that the producers pay their fair share of the cost of transporting their liquid hydrocarbons through interstate pipeline facilities subject to the Commission's jurisdiction.

Mobil's fifth alleged error is that the Commission improperly allowed the pipeline companies to increase their rates without requiring them to comply with section 4 of the Act. The import of Mobil's argument regarding section 4 is not clear. Pipeline companies are allowed to charge rates which recover a just and reasonable rate of return on their investments and reimburse them for the costs associated with operating and maintaining their facilities. The pipeline companies will not be able to increase their rates to their resale customers as a result of the Commission's Order No. 449 since that order only requires the producers to pay a portion of the costs which the pipeline companies are presently recouping through rates being charged their customers. The revenues to be obtained from producers will therefore either forestall the filing of new rate increase proposals or serve as a basis for a reduction in rates below those presently being charged. On the other hand, if Mobil is only contending that the Commission cannot fix in a rulemaking proceeding charges applicable to transportation of liquid hydrocarbons, then its argument regarding section 4 merely merges with the first contention considered above, i.e., the question of whether the Commission can fix a charge in a rulemaking proceeding without first holding a trial-type hearing.

Mobil's sixth point is that the Commission did not consider critical differences in load factors, distances, cost incurrence, etc., in fixing the charges specified in § 2.71 and thereby imposed discriminatory and unduly preferential high charges on short-haul transportation. Questions regarding load factors, distances, sizes of pipelines, etc., were discussed at length in Order No. 449, particularly at pages 6 to 10. Since the Order provides for the payment of a charge per mile of haul, the charge cannot possibly impose an excessively high charge on short-haul transportation of liquefiable hydrocarbons. While the charge for liquids is a flat minimum charge of 20 cents per barrel, that amount cannot be excessive for liquids because of the impedance to dry gas transportation caused by injection of actual liquids into a given dry-gas pipeline. Additionally, when it is considered that the producer does not have to invest in liquid storage facilities as is necessary with alternative hauling by barge or other mode of transportation, a charge of 20 cents per barrel is certainly not unreasonably high from the producer's viewpoint.

Mobil's seventh and final contention is that the Commission relied on data which was not distributed at the conference held on October 15, 1971. The only cost data employed other than those included in the pipeline companies' studies distributed at the conference were Transwestern Pipeline Co.'s transmission costs which were used only for the purpose of showing that its transportation costs were in line with costs of the other three major interstate pipeline purchasers in the Permian Basin area. Those costs were taken from Transwestern's rate filing in Docket No. RP70–19 which is available to the public for examination. As the court pointed out in the recent City of Chicago case supra. " * * * Frequently, statistics, scientific reports and studies will be amenable to various interpretations and effective regulation requires that the Commission bring to bear the full range of its knowledge, garnered from whatever source, in making the interpretation on which it bases important policy decisions" (slip op. pp. 29–30). The only other reference to matters outside the record in this proceeding was to Commission decisions which indicated various ranges of charges for transportation services similar to those involved in this proceeding. Those citations were used only for comparison purposes and were not the factual data on which the Commission relied in fixing the minimum charges for transportation of liquid hydrocarbons. The Commission's reference to Red Snapper Pipe Line Company's charges for transporting natural gas and liquid hydrocarbons surely cannot be prejudicial to Mobil since it was one of Red Snapper's stockholders (38 FPC at 734, n. 47) and must know that Red Snapper's proposed charges were greater than those fixed by the Commission in Order No. 449.

Amoco's application first makes a legal argument to the effect that the Commission erred in fixing rates for transportation of liquid hydrocarbons without providing for a trial-type hearing. That argument has already been considered above and rejected in connection with Mobil's identical contentions. Amoco also asks the Commission to revoke Order No. 449 and then clarify in the order providing for a trial-type hearing whether § 2.71 should be interpreted to require Amoco to pay for the transportation of impurities, such as water and carbon dioxide, which are extracted from the raw gas stream in the producers' processing plants. There is nothing in any of the parties' comments or in the minutes of the conferences, or in the studies distributed by the pipeline companies indicating that producers are expected to pay for the transportation of impurities such as water and carbon dioxide. Section 2.71 clearly refers only to the transportation of liquids and liquefiable hydrocarbons and indicates that the transportation charges are applicable only to liquid hydrocarbons.

Amoco claims that § 2.71 could also be read as requiring producers to pay a charge for transporting liquid hydrocarbons in connection with gas being sold at contract prices which are below the area rates for such gas. Amoco is correct in assuming that § 2.71 should be so interpreted because the producers have had their liquid hydrocarbons transported at no cost to them up to the issuance of Order No. 449, except in a few instances where their sales contracts provided for such transportation reimbursement to the pipeline purchasers. It was the producers' failure to pay such costs which made it necessary to add the last sentence to § 2.71 indicating that the price producers are charging pipeline companies for natural gas will not be reduced if they pay at least the minimum transportation charges provided for in § 2.71.

Amoco further claims that it will be very difficult to compute the distance each well is from the processing plant and to determine the liquefiable hydrocarbon shrinkage volume for each well. After Order No. 449 has been revoked and a new hearing has been held to fix lawful rates, Amoco asks that a conference be held to determine an average charge to be applied to volumes transported from all wells. Inasmuch as the Commission has not agreed to revoke Order No. 449, it appears premature for Amoco to request a conference on that basis at this time. In any event, Amoco has not shown any need to convene a conference because the producers and the pipeline companies already know the distance each well is from the processing plants as they had to ascertain those distances before they could purchase and install the necessary pipelines. The producers also have to determine the hydrocarbon content of the raw gas stream for their own accounting purposes. Consequently, applying the charges specified in § 2.71 should give rise to no administrative problems which cannot easily be solved by the producers and their pipeline purchasers in the course of their usual business procedures. Nonetheless, Amoco is free to renew its request for a conference if its request is not conditioned upon revocation of Order No. 449 and if it and its pipeline purchasers actually encounter problems when they begin to apply the charges specified in § 2.71.

The New York Commission's application makes only one contention and that is that the transportation rates fixed by Order No. 449 are too low. The New York Commission points to a transportation charge of 3.3 cents per Mcf made by Tidal Transmission Co., to the charge of 4 cents per Mcf made by Texas Eastern Transmission Corporation for transporting gas through its offshore facilities, and to a similar charge made by Michigan Wisconsin Pipe Line Co. for transporting gas for Texas Gas Transmission Corp. The New York Commission concludes from such rates that the charges provided for by Order No. 449 should be at least 4 cents per Mcf per hundred miles for liquefiable hydrocarbons and 40 cents per barrel for liquids, and asks that the Commission on rehearing increase the transportation rates accordingly.

The Commission explained at some length in Order No. 449 that the transportation rates to be established would have to be applicable for all situations and should not be excessive for the producers or require consumers to continue paying costs for transporting producers' liquefiable hydrocarbons and liquids. The Commission recognized that some services, particularly those rendered by using the newest high-cost facilities, might involve costs justifying rates in excess of those fixed in Order No. 449. The Commission also noted that services provided by a given pipeline company would have a lower unit cost when production was at its height in a particular producing area than at subsequent times when production had declined and load factors were reduced. The Commission also pointed out that the producers were providing a service to the pipeline companies in removing certain impurities from the raw gas stream. In light of all these considerations, the Commission found that charges of 2 cents per Mcf per hundred miles and 20 cents per barrel for liquefiable hydrocarbons and liquids, respectively, were in the public interest and fair to both the producers and consumers. The Commission is still of the opinion that the charges set forth in § 2.71 are appropriate. Therefore, the New York Commission's request that the charges be increased must be denied.

The Commission finds. The assignments of error and grounds for rehearing set forth in the applications for rehearing of Mobil, Amoco, and the New York Commission present no new facts or principles of law which were not considered by the Commission when it issued its Order No. 449 or which, having now been considered, warrant any change or modification of said Order.

The Commission orders. The application for rehearing filed February 29, 1972, by Mobil Oil Corp., and the applications for rehearing filed March 1, 1972, by Amoco Production Co. and the Public Service Commission for the State of New York are denied.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

TENNESSEE GAS PIPELINE CO.

Notice of Extension of Time and Postponement of Hearing

MARCH 29, 1972.

Notice is hereby given that the procedural dates prescribed by the order issued December 23, 1971, and modified by notices issued January 13, 1972, February 15, 1972, and March 8, 1972, are further modified, as follows:

1. The time within which parties shall serve their prepared direct testimony and exhibits is extended to and including April 28, 1972. The time within which any rebuttal evidence by Tennessee shall be served is extended to and including May 19, 1972.

2. Cross-examination of the evidence shall commence on May 30, 1972.

By direction of the Commission.[1]

KENNETH F. PLUMB, *Secretary.*

[FR Doc.72–5231 Filed 4–4–72;8:52 am]

[Project 2545]

WASHINGTON WATER POWER CO.

Notice of Amendment of Application for Major License

MARCH 29, 1972.

Public notice is hereby given that amendment of application for major license has been filed under the Federal Power Act (17 U.S.C. 791a–825r) by Washington Water Power Company (correspondence to R. D. Yoemans, Secretary, the Washington Water Power Company, Post Office Box 1445, Spokane, Wash. 99210), for its proposed Monroe Street plant of project No. 2545, located on the Spokane River, in Spokane, Stevens, and Lincoln Counties, Wash., near the cities of Spokane, Nine Mile Falls, and Reardan.

This amendment modifies applicant's application for major license (filed August 30, 1965) as it relates to the Monroe Street plant of project No. 2545.

The Monroe Street plant presently consists of: (1) An overflow rock-fill timber-crib dam with crest elevation 1,806 feet (m.s.l.); (2) a concrete and stone masonry headgate dam; (3) a 5-acre pond; (4) three 10-foot diameter steel penstocks; and (5) a powerhouse containing five generating units with a total installed capacity of 7,200 kw.

Applicant proposes to reconstruct the existing Monroe Street plant so that it would consist of: (1) A concrete gravity overflow dam about 240 feet long with a crest elevation 1,806 feet (m.s.l.); (2) a concrete intake structure at the left abutment of the dam; (3) a 5-acre pond; (4) one 14-foot diameter steel and reinforced concrete penstock about 420 feet long; (5) a remodeled powerhouse containing five generating units with an installed capacity of 7200 kw. (three turbines would be replaced); and (6) appurtenant facilities.

The reconstruction of the Monroe Street plant, which is estimated to cost $1,565,000, is scheduled to be completed prior to spring 1974. Applicant states that the above changes are necessary because the present project works are not consistent with the city of Spokane's plan for development of the river in conjunction with the International Ecological Exposition planned for the summer of 1974 (EXPO 74), and because the present dam has been damaged by past floods and should be replaced before failure occurs.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 8, 1972, file with the Federal Power Commission, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestant parties to the proceedings. Persons wishing to become parties to a proceeding must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.; Temporary Reg. F–142]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the Department of Defense in a proceeding involving the establishment of policy for the creation of a domestic communications satellite system in the United States.

2. *Effective date.* This regulation is effective March 29, 1972.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the Department of Defense before the Federal Communications Commission in a proceeding (Docket No. 16495) involving the establishment of policy for the creation of a domestic communications satellite system in the United States.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

Dated: March 29, 1972.

ROD KREGER,
Acting Administrator of General Services.

FEDERAL RESERVE SYSTEM

TWIN GATES CORP.

Acquisition of Bank

Twin Gates Corp., Wilmington, Del., a registered bank holding company, has applied for the Board's approval under section 3(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)) to exchange 22.48 percent of the outstanding voting shares of City National Bank of Detroit, Detroit, Mich., for 22.48 percent of the outstanding shares of Northern States Financial Corp., Detroit, Mich., a proposed bank holding company.

On February 8, 1972, notice was published in the FEDERAL REGISTER (37 F.R. 2858) of the receipt of the application of Northern States Financial Corp. for Board approval to become a bank holding company through the acquisition of 80 percent or more of the voting shares of City National Bank of Detroit, and the acquisition of the indirect control of 13.2 percent of the voting shares of the National Bank of Rochester, Rochester, Mich. As an incident to Northern States Financial Corp.'s proposal, Twin Gates Corp. would exchange the shares that it now owns in City National Bank of Detroit for shares of Northern States Financial Corp.; the present application is for the Board's approval of the exchange of such shares. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than April 19, 1972.

Board of Governors of the Federal Reserve System, March 30, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

[812–3134]

E. F. HUTTON TAX-EXEMPT FUND

Notice of Filing of Application for Exemption

MARCH 30, 1972.

In the matter of E. F. Hutton Tax-Exempt Fund (National Series 1, 2, 3, and 4, California Series 1, 2, and 3, New York Series 1 and 2 and all subsequent national and State series similarly or otherwise titled), c/o E. F. Hutton & Co., Inc., One Battery Park Plaza, New York, N.Y. 10004, (812–3134).

Notice is hereby given that E. F. Hutton Tax-Exempt Fund (National Series 1, 2, 3, and 4, California Series 1, 2, and 3, New York Series 1 and 2 and all subsequent national and State series similarly or otherwise titled) (Applicant), registered under the Investment Company Act of 1940 (Act) as unit investment trusts (and including potential future such trusts), has filed an application pursuant to section 6(c) of the Act for an order exempting the secondary market operations of Applicant's sponsor from the provisions of Rule 22c–1. The sponsor seeks to follow the practice of valuing Applicant's units, for repurchase and resale in the secondary market, once a week on the last business day of the week, as of 3:30 p.m., effective for all transactions made during the following week. All interested persons are referred to the application on file with the Commission for a statement of Applicant's representations contained therein which are summarized below.

Applicant is composed of various series, each of which is an unmanaged fund, with a portfolio consisting of tax-exempt municipal bonds. E. F. Hutton & Co., Inc., acts as sponsor for each series (Sponsor). No additions may be made to the portfolio of bonds of any series after the date of deposit of the bonds by the Sponsor and the number of units in a series may not be increased. The units are distributed by the Sponsor during the initial offering period at a 4 percent sales charge. The pricing procedures during such period comply with the requirements of Rule 22c–1.

The Sponsor also maintains a secondary market for the units by offering to repurchase them from holders at a price based on the aggregate "asked" side evaluation of the underlying bonds ("offering side of evaluation"). This value, according to the application, may be expected to exceed the redemption price (bid side evaluation) by at least $10 per unit. In addition, the Sponsor resells such units with a 4 percent sales charge. The Sponsor seeks to have both the repurchase and resale price based on the unit evaluation of the preceding Friday made by an independent evaluator.

Rule 22c–1 provides, in part, that redeemable securities of registered investment companies may be sold, redeemed or repurchased at a price based on the current net asset value (computed on each day during which the New York Stock Exchange is open for trading not less frequently than once daily as of the time of the close of trading on such exchange) which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicant asserts that the pricing by the Sponsor in the secondary market in no way affects the assets of the fund, and that the public unit holders benefit from such pricing procedure by receiving a normally higher repurchase price for their units without the cost burden of daily evaluations of the unit redemption value. In addition, the application states that the Sponsor has undertaken to adopt a procedure whereby the evaluator, without a formal evaluation, will provide estimated evaluations on trading days. In the case of a repurchase, if the evaluator cannot state that the current bid side evaluation is not equal to or not higher than the previous Friday's price, the Sponsor will order a full evaluation. In case of resale, if the evaluator cannot state that the previous Friday's price is no more than one-half point ($5 on a unit representing $1,000 principal amount of underlying bonds) greater than the current offering price, a full evaluation will be ordered. Finally, the Sponsor has agreed to waive that portion of its annual $0.275 per $1,000 unit fee not required to pay for evaluations under a weekly pricing system.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 20, 1972, at 5:30 p.m., submit to the Commission in writing a request for hearing on the matter accompanied by a statement as to the nature of its interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

AMERICAN GENERAL BOND FUND, INC.

Notice of Filing of Application for Exemption

MARCH 30, 1972.

Notice is hereby given that American General Bond Fund, Inc., 280 Park Avenue, New York, NY 10017, (Applicant), a closed-end, diversified, management company registered under the Investment Company Act of 1940 (Act) has filed an application for an order pursuant to section 6(c) of the Act declaring that Mr. Milford A. Viser shall not be deemed an interested person of Applicant as that term is defined under section 2(a)(19) of the Act solely by reason of his status as an honorary director of the Mutual Benefit Life Insurance Company (Mutual Benefit). All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Mr. Vieser, a director of Applicant is a consultant as well as an honorary director of Mutual Benefit, a mutual life insurance company. Mutual Benefit has a wholly-owned subsidiary, Mutual Benefit Financial Service Company (FISCO), which is registered as a broker-dealer under the Securities Exchange Act of 1934.

Applicant states that FISCO sells only variable annuities, and does not deal in debt securities, to which, by its investment restrictions, Applicant's investments are limited. Applicant further states that FISCO does no business with American General Insurance Company (American) which is the parent company of Applicant's investment adviser, with Channing Company, Inc., which is Applicant's underwriter, or with any other subsidiary of American or with any of the Channing Funds, and no business is anticipated between these parties in the future.

Section 2(a)(19) of the Act, in pertinent part, defines an interested person of an investment company as any broker or dealer registered under the Securities Exchange Act of 1934 or any affiliated person of such broker or dealer. Section 2(a)(3) of the Act defines an affiliated person of another person to include any director or employee of such other person.

Section 6(c) of the Act provides that the Commission may conditionally or unconditionally exempt any person from any provision of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant asserts that Mr. Vieser should not be deemed an "interested person" of Applicant because his affiliation with Mutual Benefit does not and will not impair his independence in acting on behalf of Applicant and its stockholders, and the requested exemption is therefore consistent with the provisions of section 6(c).

Notice is further given that any interested person may, not later than April 20, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address set forth above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

GENERAL PUBLIC UTILITIES CORP.

Notice of Proposed Issue and Sale of Shares of Common Stock

MARCH 30, 1972.

Notice is hereby given that General Public Utilities Corporation, 80 Pine Street, New York, NY 10005 (GPU), a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 7, and 12(c) of the Act and Rules 42 and 50 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the amended declaration, which is summarized below, for a complete statement of the proposed transaction.

GPU proposes to offer up to 3,440,000 authorized but unissued shares of its common stock (additional common stock) for subscription by the holders of its outstanding shares of common stock on the basis of one share of additional common stock for each ten (10) shares of common stock held on the record date of May 4, 1972, or such later date as GPU's registration statement under the Securities Act of 1933 may become effective. The subscription price, to be determined by GPU's board of directors on the record date, will be not more than the closing price of GPU common stock on the New York Stock Exchange on the day prior to the record date and not less than 85 percent thereof. The subscription period will expire May 26, 1972, unless the record date should be later than May 4, 1972, in which event the expiration date will be specified by amendment. The offering of the common stock will not be underwritten.

V 37-166 APR 5 72 XUM

Rights to subscribe to the additional common stock will be evidenced by transferable subscription warrants which will be issued to all record holders of GPU common stock as promptly as practicable after the record date. No fractional shares will be issued; however, any holder with more than 10 shares, but not in exact multiples thereof, may purchase, at the subscription price, one extra share of additional common stock. A stockholder with less than 10 shares of common stock will be entitled to purchase, at the subscription price, one full share of additional common stock. In addition, each holder who exercises such warrant or warrants in full will be given the privilege of subscribing, subject to allotment, at the same subscription price, for shares of additional common stock not subscribed to pursuant to rights. GPU intends to take such action as is appropriate on its part to effect the admission of the warrants to dealing on the New York Stock Exchange. A commercial bank will be used as subscription agent in connection with the rights offering. GPU proposes to utilize the services of securities dealers in soliciting the exercise by the initial record holders of original issue warrants of the subscription privileges represented thereby and in disposing of the shares of additional common stock available to GPU for such disposition. GPU will pay compensation to the securities dealers, in an amount to be determined by the GPU board of directors at a later time and to be supplied by amendment, for the successful solicitation of the exercise of original issue warrants by the initial record holders thereof and in connection with the purchase of additional common stock by such dealers from GPU. The fee payable with respect to any single beneficial owner will not exceed $250.

No warrants will be mailed to stockholders with registered addresses outside the United States, Bermuda, Canada, and Mexico. Such stockholders will be informed in advance by GPU of their rights. Any of such warrants as to which no instructions have been received before the close of business on the second business day preceding the expiration date of the warrants will be sold for cash, and the pro rata portions of such proceeds will be delivered to, or held for 2 years for the account of, such stockholders, after which such proceeds will become the property of GPU.

In connection with the rights offering, GPU may effect stabilization transactions in its common stock or warrants up to a maximum net long position equivalent to 300,000 shares.

During the 45 business days following the subscription period, GPU may make shares available for purchase by participating dealers. The price (before deduction of dealer fees) fixed by GPU shall be not less than the subscription price and shall in no event be below 90 percent of the last sale price on the New York Stock Exchange immediately preceding the time when such GPU sale price is fixed.

GPU will utilize the net proceeds realized from the sale of the common stock for additional investments in its subsidiary companies or to pay a portion of its promissory notes then outstanding, the proceeds of which have been or will be used for such investments.

Fees and expenses to be incurred by GPU are estimated at $650,000, including legal fees of $39,000, accounting fees of $21,000, and subscription agent charges of $397,000. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 21, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[812-2844]

MANUFACTURERS VARIABLE ACCOUNT I AND MANUFACTURERS LIFE INSURANCE CO.

Notice of Filing of Application for Order Permitting Registration

MARCH 30, 1972.

Notice is hereby given that The Manufacturers Life Insurance Co. (Manufacturers), mutual life insurance company organized under the laws of Canada, and Manufacturers Variable Account I, 200 Bloom Street East, Toronto, Ontario, Canada (Account I), a separate account established by Manufacturers under the provisions of the Canadian and British Insurance Companies Act, have filed an application for an order pursuant to section 7(d) of the Investment Company Act of 1940 (Act) permitting Manufacturers to register Account I as a unit investment trust under the Act and to make a public offering of its variable annuity contracts. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

Manufacturers conducts the business of life, personal accident and business insurance in Canada, the District of Columbia, Puerto Rico, the Virgin Islands, all States of the United States except New York, and many other areas throughout the world. The application states that Manufacturers is the second largest life insurance company in Canada and among the twenty largest on the North American Continent when measured by assets. A substantial portion of Manufacturers' business arises from its operations in the United States. Manufacturers wishes to enter the variable annuity field in the United States. Account I is designed to serve as the facility for the issuance of tax qualified variable annuity contracts (contracts) to be sold by Manufacturers exclusively in the United States. An order of the Commission is necessary to permit the sale of such contracts in the United States because section 7(d) of the Act provides that no investment company, unless organized or otherwise created under the laws of the United States or of a State, and no depositor or trustee of or underwriter for such a company not so organized or created shall make use of the mails or any means or instrumentality of interstate commerce, directly or indirectly, to offer for sale, sell, or deliver after sale, in connection with a public offering, any security of which such company is the issuer. The Commission is authorized, however, upon application by an investment company organized or otherwise created under the laws of a foreign country, to issue a conditional or unconditional order permitting such company to register under the Act and to make a public offering of its securities by use of the mails and means or instrumentalities of interstate commerce if the Commission finds that, by reason of special circumstances or arrangements, it is both legally and practically feasible effectively to enforce the provisions of the Act against such company and that the issuance of such an order is consistent with the public interest and the protection of investors.

All assets of the Account will be invested in shares of an open-end management investment company (Fund) to be incorporated in Delaware and which along with its shares will be registered with the Commission. Investment advice will be furnished to the Fund by its adviser, ManEquity Management Co., a wholly owned subsidiary of Manufacturers incorporated in the State of Colorado, with its principal office in Denver, Colo. The adviser is registered as an investment adviser under the Investment Advisers Act of 1940. The Fund's Board of Directors will supervise investment decisions for the Fund based on such investment advice, and must comply with the objections and policies of the Fund and with restrictions required under Canadian law for insurance company separate accounts. It is contemplated that the adviser will not use the personnel and services of Manufacturers in implementing its responsibilities under the investment advisory agreement. However, certain directors and nonoperational officers of the adviser may be officers or employees of Manufacturers.

Sales of the contracts will be made only by associated persons of registered broker-dealers who are also members of the NASD. Such persons will also be insurance agents of or brokers for Manufacturers who are qualified under applicable State law to sell variable annuities. The principal underwriter will be ManEquity, Inc., a wholly owned subsidiary of ManEquity Management Co. The underwriter, a Colorado corporation, has its principal office in Denver, Colo., and is a registered broker-dealer and a member of the NASD.

At the state level, Manufacturers will be subject to the same regulation with respect to its variable annuity operations as would a United States company engaged in such operations, with the one exception—that as an alien insurance company, it is required to maintain its Account I assets with a U.S. depository in order to conform to the deposit requirements of the Insurance Code of the State of Michigan which serves as Manufacturers "state of entry" required under insurance laws for doing business in the United States. To comply with Michigan deposit requirements, Manufacturers will establish, under a new trust agreement, a separate trust for the protection of owners and beneficiaries of contracts issued by Account I. This trust, which will be in the United States, will hold all of the assets of the Account I.

Manufacturers and Account I have requested an order from the Commission allowing Manufacturers to register Account I on certain terms and conditions. Among other things these terms and conditions require:

(1) That the assets of Account I be maintained in trust in the United States in a bank which (a) is trustee for such trust, (b) is a bank within the meaning of section 2(a)(5) of the Act, and (c) meets the qualifications set forth in section 26(a)(1) of the Act.

(2) That an agent in the United States be designated by Manufacturers, its directors and certain of its officers to accept service of process in connection with matters relating to Account I and that Manufacturers and certain of its officers and directors consent that any suit, action or proceeding concerning such matters before the Commission, or any appropriate court of the United States, may be commenced by the service of process upon such agent;

(3) That copies of books and records of Account I be furnished the Commission, at its request, in the United States, and that auditors or inspectors for the Commission be given free access to such books and records at the principal office of Manufacturers in Toronto, Ontario, Canada; and

(4) That an accountant be appointed for Account I who is qualified to act as an independent public accountant under the Act and the rules thereunder, and who maintains a permanent office and place of business in the United States.

Manufacturers and Account I have also agreed that jurisdiction of the Commission is reserved to suspend or revoke the requested order in whole or in part if:

(a) Manufacturers or Account I, or Account I's custodian or underwriter, or the Fund of the Fund's investment, adviser shall have failed to comply with the Investment Company Act of 1940, the Investment Advisers Act of 1940, the Securities Act of 1933, the Securities Exchange Act of 1934, or any applicable Rules, Regulations or Orders of the Commission thereunder; or

(b) Any of the representations, undertakings, and agreements contained in or contemplated by the application shall not have been complied with; or

(c) Any change has occurred in the laws of the Dominion of Canada, or any subdivision thereof, creating an inconsistency with the protection of investors afforded by the representations, undertakings, and agreements contained in or contemplated by the application, and

(d) The Commission finds, after notice and opportunity for hearing, that suspension or revocation of the order requested herein is in the public interest and is necessary for the protection of investors.

Notice is further given that any interested person may, not later than April 19, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service by affidavit (or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in the matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.72-5227 Filed 4-4-72;8:51 am]

[812-3042]

PENN MUTUAL LIFE INSURANCE CO. AND PENN MUTUAL VARIABLE ANNUITY ACCOUNT II

Notice of Application for Exemption

MARCH 30, 1972.

Notice is hereby given that The Penn Mutual Life Insurance Co. (Penn Mutual), a mutual life insurance company organized under the laws of Pennsylvania, and Penn Mutual Variable Annuity Account II, 530 Walnut Street, Philadelphia, PA 19105 (Account II), a separate account of Penn Mutual registered as a unit investment trust under the Investment Company Act of 1940 (Act), (collectively called the "Applicants"), have filed an application pursuant to section 6(c) of the Act for an order exempting Applicants, to the extent noted below, from the provisions of sections 22(d), 26(a), and 27(c)(2) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Account II was established by Penn Mutual in connection with the proposed sale of three types of individual variable annuity contracts (Contracts). The Contracts proposed to be issued by Penn Mutual are (1) periodic purchase payment deferred contracts; (2) single purchase payment deferred contracts; and (3) single purchase payment immediate contracts. Under the periodic purchase payment and single purchase payment deferred contracts, net purchase payments are allocated for accumulation on a fixed or variable basis to provide either fixed or variable annuities or a combination of both. Under single purchase payment immediate contracts, there is no accumulation period and only variable benefits are provided.

Net purchase payments that are to be accumulated on a variable basis, and funds allocated to provide variable benefits under the Contracts, are invested through Account II in shares of Penn Mutual Equity Fund, Inc. ("Fund"), a registered open-end management investment company incorporated in Delaware. The value of interests in Account II, before or after annuity benefits become payable, will vary to reflect investment performances of Fund shares.

Under Pennsylvania insurance law, the assets of Account II are owned by Penn Mutual and not held in trust by Penn Mutual. However, the income, gains, or losses, realized or unrealized, of Account II are credited to or charged against Account II in accordance with the Contracts, and without regard to other income, gains or losses of Penn Mutual. In addition, the assets held in Account II

FEDERAL REGISTER, VOL. 37, NO. 66—WEDNESDAY, APRIL 5, 1972

V 37-166 APR 5 72 XUM

may not be chargeable with liabilities arising out of any other business that might be conducted by Penn Mutual.

Applicants request exemption from the following provisions of the Act to the extent stated below:

Section 22(d) provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security to the public except at a public offering price described in the prospectus.

Applicants request exemption from the provisions of section 22(d) to permit dividends received under the Contracts during any accumulation period to be applied to the purchase of additional variable accumulation units in Account II without the imposition of charges for sales expenses. Any dividends on the Contracts resulting from divisible surplus will be declared on a uniform and nondiscriminatory basis according to each class of the Contracts.

Applicants also request an exemption from section 22(d) to permit the transfer to Account II of amounts accumulated on a fixed basis contract when: (1) All or part of a surrender or death benefit under a periodic purchase payment or a single purchase payment deferred contract is used to provide a variable annuity; (2) on the annuity date, all or part of the value of the fixed accumulation account under a periodic purchase payment or a single purchase payment deferred contract is used to provide a variable annuity; and (3) all or part of a surrender benefit, death benefit, or annuity benefit under a contract is used to provide a fixed settlement option without life contingencies, and thereafter all or part of the remaining value of the fixed settlement option is used by the payee thereof to provide a variable annuity. Applicants intend to allow the transfer of such amounts without the imposition of a sales charge since the payments giving rise to such amounts will have already been subject to sales charges equal to those which would have been imposed had such payments originally been paid into Account II.

An exemption from section 22(d) is also requested to permit amounts accumulated under other Penn Mutual life insurance, endowment, and fixed annuity contracts to be transferred to Account II for the purchase of any contract offered by Account II. From the amounts transferred, Penn Mutual proposes to deduct a charge of 1¼ percent for sales expenses and ¾ percent for administrative expenses. Applicants represent that these reduced charges will not result in unfair discrimination among contract owners since they will only be applicable to amounts arising under other Penn Mutual contracts with respect to which sales and administrative expense charges have previously been levied.

With respect to periodic purchase payment contracts purchased with amounts transferred from at least 1 year old Penn Mutual life insurance, endowment, or fixed annuity contracts, applicants also request exemption from section 22(d) to permit charges for sales and administrative expenses on periodic purchase payments made subsequent to the initial purchase to be at the rate applicable to second or later year payments on the periodic payment contracts. The periodic purchase payment contracts provide for a sales and administrative expense deduction of 15 percent with respect to purchase payments made in the first contract year and 7 percent with respect to payments made thereafter. Applicants submit that the application of the second year charges in the circumstances described will not be unfairly discriminatory since persons who become contract owners upon transfer from other Penn Mutual life insurance, endowment, or fixed annuity contracts will already have paid a first year sales and administrative expense charge.

Applicants request exemption from the provisions of sections 26(a) and 27(c)(2) which, as here pertinent, provide that periodic payment plan certificates of a unit investment trust may not be sold unless the proceeds of all payments, other than sales loads, are deposited with a qualified bank as trustee or custodian, and are held under an agreement of custodianship. Such agreement must provide, in part, that: (i) The custodian bank shall have possession of all property of the unit investment trust and shall segregate and hold the same in trust; (ii) that the custodian bank shall not resign until either the unit investment trust has been liquidated or a successor custodian has been appointed; (iii) that the custodian may collect fees from the income and, if necessary, from the corpus of the unit investment trust for services performed and reimbursement of expenses incurred; and (iv) that no payment to the depositor or principal underwriter shall be allowed the custodian bank as an expense except a fee, not exceeding such reasonable amount as the Commission may prescribe, as compensation for performing bookkeeping and other administrative services normally performed by the custodian. Applicants state that a custodianship or trusteeship of the assets of Account II is unnecessary because the assets of the account will only consist of shares of the Fund which will be issued under an open account arrangement without the use of stock certificates. Applicants also state that Penn Mutual will operate as a regulated insurance company subject to the extensive supervision and control of the Pennsylvania Insurance Commission, and that such control and supervision will provide assurance against misfeasance and afford the essential protection of a trusteeship.

Applicants assert further that under Pennsylvania law neither Account II nor Penn Mutual may abrogate its obligation under the Contracts. Therefore, the dangers against which sections 26(a) and 27(c)(2) are directed are not present.

Penn Mutual and Account II have consented that any order granting the requested exemption from sections 26(a) and 27(c)(2) may be subject to the conditions that: (1) Any charges under the Contracts for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, and the Commission shall reserve jurisdiction for such purpose; and (2) the payment of sums and charges out of the assets of Account II shall not be deemed to be exempted from regulation by the Commission by reason of the order.

Section 6(c) authorizes the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is hereby given that any interested person may, not later than April 20, 1972 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted; or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered), and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to Delegated Authority.

[SEAL] RONALD F. HUNT,
Secretary.

[812–3113]

PENN MUTUAL EQUITY FUND, INC.

Notice of Application for Exemption

MARCH 30, 1972.

Notice is hereby given that Penn Mutual Equity Fund, Inc., 530 Walnut Street, Philadelphia, Pa. 19105 ("Applicant"), an open-end diversified management investment company registered under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 6(c) of the Act for an order of exemption from the provisions of section 15(b) of the Act to the extent necessary to permit Applicant's shares to be sold without an underwriting contract. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Shares of the Applicant are offered only to the Penn Mutual Life Insurance Co. ("Penn Mutual"), and separate accounts of Penn Mutual, at a price equal to the net asset value per share. The Applicant is currently selling its shares only to Penn Mutual Variable Annuity Account I, a separate account of Penn Mutual that is registered under the Act as a unit investment trust. Applicant proposes to sell its shares to Penn Mutual Variable Annuity Account II ("Account II"), a separate account of Penn Mutual that is also registered under the Act as a unit investment trust. All net purchase payments under variable annuity contracts issued by Penn Mutual which are allocated to Account II will be invested in shares of the Applicant. Applicant has no present intention of offering its shares directly to the public.

Section 15(b) provides that no principal underwriter for a registered open-end investment company may offer for sale or sell any security of which such company is the issuer except pursuant to a written contract with such company.

Applicant contends that while Penn Mutual may be deemed an underwriter of the shares of the Applicant within the meaning of the Act, there is no function to be served by an underwriting contract.

Accordingly, Applicant requests an exemption from the provisions of section 15(b) to the extent necessary to permit sales of shares of the Applicant to Account II without a written underwriting contract complying with section 15(b) so long as the shares of Applicant are not offered directly to the public.

Section 6(c) authorizes the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is hereby given that any interested person may, not later than April 20, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted; or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered), and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

FIRST AMERICAN CAPITAL CORP.

Notice of Surrender of License to Operate as Small Business Investment Company

Notice is hereby given that First American Capital Corporation (First American), Suite 200, American Building, Cedar Rapids, Iowa 52401, has, pursuant to § 107.105 of the regulations governing small business investment companies (13 CFR 107.105 (1971)), surrendered its license to operate as a small business investment company (SBIC).

First American was incorporated on March 24, 1961, under the laws of the State of Oklahoma to operate solely as an SBIC under the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.) (Act), and it was issued license number 10–0040 by the Small Business Administration (SBA) on June 19, 1961. With the approval of SBA, First American, on September 29, 1969, was acquired by Iowa Growth Investment Company (Iowa Growth), Suite 200, American Building, Cedar Rapids, Iowa 52401, an Oklahoma SBIC. First American has operated as a wholly owned subsidiary of Iowa Growth pending its dissolution which has now been completed.

Under the authority vested by the Act and the regulations promulgated thereunder, the voluntary surrender of the license of First American is hereby accepted and, accordingly, it is no longer licensed to operate as an SBIC.

Dated: March 28, 1972.

A. H. SINGER,
Associate Administrator for Investment.

[FR Doc.72–5222 Filed 4–4–72;8:51 am]

[License No. 02/02–5291]

PUERTO RICAN FORUM CAPITAL CORP.

Notice of Issuance of License To Operate as Minority Enterprise Small Business Investment Company

On November 18, 1971, a notice was published in the FEDERAL REGISTER (36 F.R. 22028), stating that the Puerto Rican Forum Capital Corp., 156 Fifth Avenue, New York, NY 10010, had filed an application with the Small Business Administration, pursuant to § 107.102 of the SBA rules and regulations governing small business investment companies (13 CFR 107.102 (1971)) for a license to operate as a minority enterprise small business investment company (MESBIC).

Interested parties were given to the close of business December 3, 1971, to submit their written comments to SBA.

Notice is hereby given that, having considered the application and all other pertinent information, SBA has issued License No. 02/02–5291 to the Puerto Rican Forum Capital Corp., pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended.

Dated: March 29, 1972.

A. H. SINGER,
Associate Administrator for Investment.

TARIFF COMMISSION

[337–25]

PANTY HOSE

Notice of Findings and Recommendation

Upon completion of its investigation (337–25) under section 337 of the Tariff Act of 1930, in response to a complaint of Tights, Inc., the Commission finds violation of section 337(a) of the Tariff Act of 1930 by unfair methods of competition and unfair acts in the importation and sale of panty hose manufactured in accordance with the claim of U.S. Patent No. Re. 25,360 owned by complainant, the effect or tendency of which is to destroy or substantially injure an industry, efficiently and economically operated, in the United States.

Accordingly, the Commission recommends that, in accordance with section 337(e) of the Tariff Act of 1930, the President direct the Secretary of the Treasury to instruct customs officers to exclude from entry into the United States panty hose manufactured in accordance with the claim of U.S. Patent No. Re. 25,360 until expiration of the patent, except where the importation is made under license of the registered owner of said patent.

Under the statute (19 U.S.C. 1377(c)) a rehearing before the Commission may be requested. In accordance with § 201.14 of the Commission's rules of practice and procedure (19 CFR 201.14) a motion for

V 37-166 APR 5 72 XUM

a rehearing may be granted for good cause shown. Any such motion for a rehearing must be in writing and filed with the Secretary of the U.S. Tariff Commission, Washington, D.C. 20436, within twenty (20) days after publication of this notice. The motion must state clearly the grounds which are relied upon for the granting of a rehearing and must be accompanied by 19 true copies.

Issued: March 31, 1972.

[SEAL] KENNETH R. MASON, *Secretary.*

INTERSTATE COMMERCE COMMISSION

ASSIGNMENT OF HEARINGS

MARCH 31, 1972.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the official docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 106120 Sub 3, Badger Coaches, Inc., now being assigned hearing June 7, 1972, at Chicago, Ill., in a hearing room to be later designated.

MC-F-11200, MC 59583 Sub 131, Mason & Dixon Lines—Purchase—Econ Lines, now being assigned hearing June 12, 1972, at Chicago, Ill., in a hearing room to be designated later.

MC 11290, MC 98913 Sub 3, Gordons Transports—Control—J. B. Reed Motor Express, now being assigned hearing June 19, 1972, at Chicago, Ill.

MC 119857 Sub 9, George Transit Line, Inc., now being assigned hearing June 15, 1972, at Chicago, Ill., in a hearing room to be designated later.

No. 35407, Increased rates and charges by Matson Navigation, No. 35407, Sub 1; increased rates and charges, Seatrain Lines, Calif., No. 35407 Sub 2; increased rates and charges, Matson Navigation Co., No. 35407 Sub 3; increased rates and charges, Matson Navigation Co., No. 35407 Sub 4; increased rates and charges, Seatrain Lines, Calif., No. 35407 Sub 5; lumber and related commodities, West Coast to Hawaii, and No. 35407 Sub 6; various commodities, between California and Hawaii, now being assigned hearing July 10, 1972, at San Francisco, Calif., in a hearing room to be later designated.

MC-F-11043, Colonial Motor Freight Line, Inc.—Control—Griggs Trucking Co., now being assigned hearing May 24, 1972, at Columbia, S.C., in a hearing room to be later designated.

MC-C-7566, W. T. Mayfield Sons Trucking Co., Inc.—Investigation and revocation of certificates, now being assigned hearing May 16, 1972, at Atlanta, Ga., in a hearing room to be later designated.

MC-C-7715, Mangum Trucking Company, Inc.—Investigation and revocation of certificates, now being assigned hearing May 22, 1972, at Atlanta, Ga., in a hearing room to be later designated.

MC 106644 Sub 130, Superior Trucking Company, Inc., now being assigned hearing May 23, 1972, at Atlanta, Ga., in a hearing room to be later designated.

MC 135606, Inman Transport, Inc., now being assigned hearing May 15, 1972, at Atlanta, Ga., in a hearing room to be later designated.

MC 136136, Arnold J. Kellos, d.b.a. A. J. Kellos Construction Co., now being assigned hearing May 17, 1972, at Atlanta, Ga., in a hearing room to be later designated.

MC 65475 Sub 9, Jetco, Inc., now assigned May 22, 1972, at Washington, D.C., is canceled and application dismissed.

MC 120526 Sub 2, Griggs Trucking Co., now being assigned hearing May 24, 1972, at Columbia, S.C., in a hearing room to be later designated.

MC 103435 Sub 216, United-Buckingham Freight Lines, Inc., now being assigned hearing June 15, 1972, at Billings, Mont., in a hearing room to be later designated.

MC 109533 Sub 44, Overnite Transportation, now being assigned hearing July 11, 1972, in the Ramada Inn, Broadway and Route 4, Lexington, Ky.

MC-C-7405, William E. Hesselgrave, d.b.a. Pudget Sound Tours, and George V. Hesselgrave, d.b.a. Bellingham-Ferndale Stages, investigation of operations, now assigned April 25, 1972; MC 135987 Sub 1, Carbol Trailways, Ltd., now assigned April 24, 1972, and MC 136189, George V. Hesselgrave, d.b.a. Hesselgrave Charter Service, now assigned April 25, 1972, and No. 35474, Pacific Paper Products, Inc.-V-Garrett Freightlines, Inc., et al., now assigned April 26, 1972, at Seattle, Wash., will be held in Room 4054, Federal Office Bldg., 909 1st Ave., Seattle, Wash.

[Notice 11]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

MARCH 31, 1972.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC 29957 (Deviation No. 14), CONTINENTAL SOUTHERN LINES, INC., Post Office Box 8435, Jackson, MS 39204, filed March 21, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From Jackson, Miss., over Interstate Highway 55 to junction Interstate Highway 10, thence over Interstate Highway 10 to New Orleans, La., (2) from Jackson, Miss., over Interstate Highway 55 to junction U.S. Highway 51 (about 8 miles south of Pontchatoula, La.), thence over U.S. Highway 51 to junction Interstate Highway 10 (near LaPlace, La.), thence over Interstate Highway 10 to New Orleans, La., and (3) from junction Interstate Highway 55 and U.S. Highway 190, over U.S. Highway 190 to junction access roads on the north end of the Lake Pontchartrain Causeway, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (1) From Mendenhall, Miss., over Mississippi Highway 13 to Columbia, Miss., thence over Mississippi Highway 24 to junction Mississippi Highway 35, thence over Mississippi Highway 35 via Jamestown and Sandy Hook, Miss., to the Mississippi-Louisiana State line, thence over Louisiana 21 to Bush, La., thence over Louisiana Highway 484 to Talisheek, La., thence over Louisiana Highway 58 to Pearl River, La., thence over U.S. Highway 11 to junction U.S. Highway 90, thence over U.S. Highway 90 to New Orleans, La., (2) from Gulfport, Miss., over U.S. Highway 49 to Jackson, Miss., thence over U.S. Highway 51 via Grenada, Miss., to Memphis, Tenn., and (3) from New Orleans, La., over access roads to Lake Pontchartrain Causeway, thence over Lake Pontchartrain Causeway to access roads on the north end thereof, thence over access roads to junction U.S. Highway 190 near Mandeville, La., thence over U.S. Highway 190 to Covington, La., thence over Louisiana Highway 21 to a point about 2 miles from Bush, La., thence over unnumbered highway to Bush, La., and return over the same routes.

No. MC 29957 (Deviation No. 15), CONTINENTAL SOUTHERN LINES, INC., Post Office Box 8435, Jackson, Miss. 39204, filed March 21, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From Memphis, Tenn., over Interstate Highway 55 to St. Louis, Mo., with the following access routes: (a) From junction Interstate Highway 55 and Business Route U.S. Highway 61, about 5 miles south of Cape Girardeau, Mo., over Business Route U.S. Highway 61 to Cape Girardeau, Mo., (b) from junction Interstate Highway 55 and Business Route U.S. Highway 61, about 6 miles north of Cape Girardeau, Mo., over Business Route U.S. Highway 61 to Cape Girardeau, Mo., and (c) from junction Interstate Highways 55 and 57, near Sikeston, Mo., over Interstate Highway 57 to Cairo, Ill., and (2) from Memphis, Tenn., over Interstate Highway 55 to junction U.S. Highway 61 (near Holland, Mo.), thence over U.S. Highway 61 to junction Interstate Highway 55 (near Hayte, Mo.), thence over Interstate Highway 55 to junction U.S. Highway 61 (near Jackson, Mo.), thence over U.S. Highway 61 to junction Interstate Highway 55 (near Brewer, Mo.), thence over Interstate Highway 55 to St. Louis, Mo., with the following access routes:

(a) From junction Interstate Highway 55 and Business Route U.S. Highway 61, about 5 miles south of Cape Girardeau, Mo., over Business Route U.S. Highway 61 to Cape Girardeau, Mo., (b) from junction Interstate Highway 55 and Business Route U.S. Highway 61, about 6 miles north of Cape Girardeau, Mo., over Business Route U.S. Highway 61 to Cape Girardeau, Mo., and (c) from junction Interstate Highway 55 and Interstate Highway 57, over Interstate Highway 57 to junction U.S. Highway 60, thence over U.S. Highway 60 to Cairo, Ill., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (1) From Memphis, Tenn., over U.S. Highway 64 to junction Tennessee Highway 100, thence over Tennessee Highway 100 to junction Tennessee Highway 18, thence over Tennessee Highway 18 to junction U.S. Highway 45, thence over U.S. Highway 45 to Jackson, Tenn., thence over U.S. Highway 45 to junction U.S. Highway 45E, thence over U.S. Highway 45E to junction U.S. Highway 51, thence over U.S. Highway 51 to Cairo, Ill., thence over Illinois Highway 3 to East St. Louis, Ill., thence over Eads Bridge to St. Louis, Mo., (also from Cape Girardeau, Mo., over Missouri Highway 74 to and across the Mississippi River to Illinois Highway 146), thence over Illinois Highway 146 to junction Illinois Highway 3, and (2) from Red Bud, Ill., over Illinois Highway 159 to Belleville, Ill., thence over U.S. Highway 460 to East St. Louis, Ill., and return over the same routes.

By the Commission.

[FR Doc.72-5239 Filed 4-4-72;8:52 am]

[Notice 25]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

MARCH 31, 1972.

The following publications are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 47142 (Sub-No. 106) (Republication), filed March 12, 1970, published in the FEDERAL REGISTER issues of April 9, 1970, and December 15, 1971, and republished this issue. Applicant: C. I. WHITTEN TRANSFER CO., a corporation, 4417 Earl Court, Huntington, WV 25705. Applicant's representative: Joseph G. Dail, Jr., 1111 E Street NW., Washington, DC 20004. An order of the Commission, Division 1, acting as an Appellate Division, dated February 25, 1972, and served March 8, 1972, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) commodities bearing a security classification by the U.S. Government, and (2) weapons, ammunition, and drugs which are designated sensitive by the U.S. Government between points in Connecticut, Delaware, Florida, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, restricted against the transportation of shipments weighing in the aggregate more than 5,000 pounds from one consignor to one consignee on any one day. Restriction: The authority granted herein above shall be limited in point of time, to a period expiring 5 years from date of issue of the certificate herein. Because it is possible that other parties, who have relied upon the notice of the grants of authority as published, may have an interest in and would be prejudiced by the lack of proper notice of the authorities granted herein, a notice of the authorities granted herein will be published in the FEDERAL REGISTER and issuance of certificate in these proceedings will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in these proceedings setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 109397 (Sub-No. 177) (Republication), filed September 2, 1969, published in the FEDERAL REGISTER issue of October 2, 1969, and November 10, 1971, and republished this issue. Applicant: TRI-STATE TRANSIT CO., a Corporation, Post Office Box 113, Joplin, MO 64801. Applicant's representatives: Max G. Morgan, 600 Leininger Building, Oklahoma City, Okla. 73112, and Frank Hand, 740 15th Street NW., Washington, DC 20005. An order of the Commission, Division 1, acting as an Appellate Division, dated February 25, 1972, and served March 8, 1972, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) commodities bearing a security classification by the U.S. Government, and (2) weapons, ammunition, and drugs which are designated sensitive by the U.S. Government, between points in the United States (except Alaska and Hawaii), restricted against the transportation of shipments weighing in the aggregate more than 5,000 pounds from one consignor to one consignee on any one day; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. That the grant of authority herein, and applicant's existing authority that it duplicates shall be construed as conferring only a single operating right. The authority granted herein shall be limited in point of time, to a period expiring 5 years from the date of issuance of the certificate herein. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of

V 37-66 APR 5 72 XUM

the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file and appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 124692 (Sub-No. 60) (Republication), filed March 20, 1969, published in the FEDERAL REGISTER issues of April 24, 1969, and June 19, 1969, and republished this issue. Applicant: SAMMONS TRUCKING, Post Office Box 933, Missoula, MT 59801. Applicant's representative: Gene P. Johnson, 502 First National Bank Bldg., Fargo, N. Dak. 58102. A report and order of the Commission, Division 1, acting as an Appellate Division, Decided March 2, 1972, and served March 14, 1972, finds, that the present and future public convenience and necessity require operation by applicant as a common carrier by motor vehicle, in interstate or foreign commerce, over irregular routes, of iron and steel articles, from the plantsite of CF&I Steel Corp., at Pueblo, Colo., to points in Idaho, Montana, Oregon, and Washington, restricted against the transportation of oilfield commodities as defined in Mercer Extension-Oil Field Commodities, 74 MCC 459 (1946); that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that a certificate authorizing such operation should be granted subject to the condition that said findings shall be subject to prior publication in the FEDERAL REGISTER of a notice of the authority actually granted, and conditioned upon the filing by applicant with this Commission, pursuant to section 217 of the Interstate Commerce Act, of appropriate new and revised tariffs in compliance with the requirements established in Restrictions on Service by Motor Common Carriers, 111 MCC 151 (1970), as described above: The report and order further finds that the certificate authorizing the above operations should be conditioned also upon applicant's acceptance of and compliance with the following conditions:

(1) That the authority granted herein shall be limited in point of time to a period expiring 3 years from the date of the certificate; that at the close of each full year for a period of 3 years after the date of the issuance of the certificate herein, applicant shall file with the Commission's Bureau of Economics a "Performance Report" shall, among other things, identify and describe with respect to origin, volume, and destination (a) the truckload, and (b) the less-than-truckload traffic transported by it under the authority granted herein. (2) That within 3 months prior to the expiration of the 3-year term, applicant, if it so desires, shall file with the Commission (with copies to be served upon the protestants in this proceeding), a petition for permanent extension of the certificate issued herein, accompanied by a brief but detailed summary of the material contained in the two prior "Performance Reports" as well as other matter considered pertinent by applicant with respect to whether the authority granted should at that time be extended permanently. (3) That jurisdiction will be retained in order that the Commission may delete, modify, or impose such further terms, conditions, and limitations as the Commission in the future may find necessary to insure that applicant's operations comport with its obligation to serve the general public within the limits of its facilities, at its published rates, without discrimination. Because it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application as originally published may have an interest in and would be prejudiced by the lack of proper notice of the grant of authority in the findings herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of the certificate in the FEDERAL REGISTER and issuance of the certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced.

No. MC 125403 (Sub-No. 6) (Republication), filed April 13, 1970, published in the FEDERAL REGISTER, issues of May 14, 1970, and May 28, 1970, and June 25, 1970, and republished this issue. Applicant: S. T. L. TRANSPORT, INC., 1000 Jeferson Road, Post Office Box 9796, Rochester, NY 14623. Applicant's representative: Raymond A. Richards, 23 West Main Street, Webster, NY 14580. A report and order of the Commission, Division 1, decided March 1, 1972, and served March 14, 1972, finds that the present and future public convenience and necessity require operation by applicant as a common carrier by motor vehicle, in interstate or foreign commerce, over irregular routes, of canned foodstuffs from Phelps, Shortsville, and Gorham, N.Y., and the plantsites and storage facilities of Comstock-Greenwood Foods, Inc., a division of Borden, Inc., at Rushville and Waterloo, N.Y., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont; restricted to the transportation of traffic originating at the named origin points and destined to points in the named destination States; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that a certificate authorizing such operation should be granted subject to the condition below, and subject to the further condition that the certificate shall be limited, in point of time, to a period expiring 3 years from its date of issue. Because it is possible that other persons, who have relied upon the notice of the application as published may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings of this report, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

NOTICE OF FILING OF PETITIONS

No. MC FF-52 (Notice of Filing of Petition for Modification of Permit), filed March 20, 1972. Petitioner: WESTRANSCO FREIGHT COMPANY, a corporation, 501 South Anderson Street, Los Angeles, CA 90033. Petitioner's representative: R. Y. Schureman, 1545 Wilshire Boulevard, Los Angeles, CA 90017. Petitioner holds authority in FF-52, the part here pertinent, to operate, in interstate commerce, as a freight forwarder of commodities generally, "• • • (2) from all points in the United States east of and including Minnesota, Iowa, Missouri, Arkansas, and Louisiana to points in all States west thereof, other than North Dakota and Texas, and to points in Louisiana and Florida, not including, however, any traffic destined to points in the Province of British Columbia and on Vancouver Island, Canada; • • •" By the instant petition, petitioner requests the Commission to modify its Sixth Amended Permit and Order so as to delete from numbered (2) of the operating authority set forth therein the following restriction: "• • • (2) • • • not including, however, any traffic destined to points in the Province of British Columbia and on Vancouver Island, Canada; • • •" Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 4781 (Notice of Filing of Petition for Reopening for Further Hearing), filed February 14, 1972. Petitioner: DON PAFFILE, doing business as, PAFFILE TRUCK LINES, Lewiston, Idaho. Petitioner's representative: Donald P. Paffile, Lewiston, Idaho. Petitioner holds authority in certificate No. MC-117304 (Sub-No. 8) issued July 30, 1963, authorizing, as pertinent, the transportation (A) of machinery, mining equipment, mining supplies, mine ores except coal, and building materials, between points in Montana on and east of a line beginning at Monida Pass, Mont., and extending northerly to the boundary of the United States and Canada, near Babb, Mont., on the one hand, and, on the other, points in Montana, Idaho, Oregon, and Washington, restricted to the transportation of the above-specified commodities where either the origin or destination or both is a mine or mining camp; and (B) of heavy machinery, mining equipment, supplies and mine ores not including coal, between points in Idaho, Washington, Oregon, and that part of Montana west of a line extending in a northerly direction from Monida Pass, Mont., to the boundary of the United States and Canada near Babb, Mont. Petitioner acquired this authority by purchase from Ernest George Smith in No. MC-FC-65489, by order entered April 30, 1963. The authority included in part (B) above was originally contained in certificate No. MC-4781, issued February 27, 1972, and the authority included in part (A) above was originally contained in certificate No. MC-4781 (Sub-No. 1), issued January 27, 1940. Both certificates were intended to reflect operations performed by the original owner prior to 1935.

Petitioner indicates that while the authority in part (A) is confined to mining supplies, part (B) is not so confined, and that the authority to transport "supplies" in part (B) authorizes the transportation of supplies of a general nature. Petitioner states that the original owner of the certificates indicated that he had been transporting groceries, hardware, and general supplies under part (B), and, upon purchasing such rights, petitioner continued this practice. Petitioner's operations were questioned by the Commission in No. MC-C-4706 and No. MC-C-4706 (Sub-No. 1), and by order served February 25, 1969, in No. MC-C-4706 (Sub-No. 1) Division 1 found that the term "supplies" as contained in part (B) above, is limited by the modifier "mining," and that accordingly petitioner could not transport under its authority anything other than supplies intended to be used in furtherance of a mining endeavor. By this petition, petitioner seeks to reopen the proceeding in No. MC-4781 for an interpretation as to actual meaning of the authority in part (B) above at the time such authority was originally issued. Petitioner contends that its authority should be amended to reflect such operations. Any interested person desiring to participate and to be heard in the matter may file an original and six copies of his written representations, views, or arguments in support of or against the petition, within 30 days of this publication in the FEDERAL REGISTER.

No. MC 30226 (Sub-No. 5 and Sub-No. 8) (Notice of Filing of Petition To Add a Shipper), filed March 23, 1972. Petitioner: HOWELL TRUCKING COMPANY, INC., Jersey City, N.J. Petitioner's representative: Martin Werner, 2 West 45th Street, New York, NY 10036. Petitioner holds Permit MC 30226 Sub 5, issued March 16, 1961, which authorizes the following transportation, over irregular routes: *Frozen foods and foods, other than frozen,* in vehicles equipped with mechanical refrigeration, from New York, N.Y., and Jersey City, N.J., to points in New Jersey, Fairfield County, Conn., and Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, Ulster, and Westchester Counties, N.Y., with no transportation for compensation on return except as otherwise authorized. Restriction: The service authorized herein is subject to the following conditions: The operations authorized herein are restricted against transporting the above-specified commodities in bulk, in tank or hopper-type vehicles. The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: The Great Atlantic and Pacific Tea Co., Inc., of New York, N.Y., Gristede Bros., Inc., of New York, N.Y. Petitioner also holds Permit No. MC 30226 (Sub-No. 8) dated June 24, 1966, which authorizes the following transportation, over irregular routes: *Returned shipments of foods,* in vehicles equipped with mechanical refrigeration (except commodities in bulk, in tank and hopper-type vehicles). From points in New Jersey, Fairfield County, Conn., and Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, Ulster, and Westchester Counties, N.Y., to New York, N.Y., and Jersey City, N.J., with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: The Great Atlantic and Pacific Tea Co., Inc., of New York, N.Y., Gristede Bros., Inc., of New York, N.Y. Under said two (2) permits, petitioner is authorized to serve 2 named shippers: The Great Atlantic and Pacific Tea Co., Inc., and Gristede Bros., Inc. By this petition, petitioner seeks to add the name of Anderson Clayton & Co. of Dallas, Tex., as an additional contracting shipper for whom service may be performed under the above number permits. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 38478 (Notice of Filing of Petition To Correct and Clarify Certificate), filed March 6, 1972. Petitioner: FRANK RUMSEY AND BERNARD RUMSEY, a partnership, doing business as RUMSEY TRANSFER COMPANY, Wheatland, Wyo. Petitioner's representative: Robert S. Stauffer, 3539 Boston, Cheyenne, WY 82001. Petitioner holds a certificate in MC 38478 issued to them on May 22, 1961, pursuant to MC-FC 63402, authorizing the transportation of general commodities, with the usual exceptions, among other things, from Denver, Colo., to Chugwater, Wyo., over specified regular routes, serving specified intermediate and off-route points. Petition sets forth that the original certificate issued to their predecessor read: "Between Denver, Colo., and Chugwater, Wyo." By the instant petition, petitioners seek to correct and clarify said certificate. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 85255 (Sub-No. 31), Notice of Filing of Petition for Removal of Plantsite Restriction), filed March 9, 1972. Petitioner: PUGET SOUND TRUCK LINES, INC., Pier 62, Seattle, WA 98101. Petitioner's representative: Clyde H. MacIver (same address as above). Petitioner holds authority in No. MC 85255 (Sub-No. 31) as follows: Irregular routes: *Metal cans, combination metal and fiberboard cans, and can parts,* from the plantsites and storage facilities of the Continental Can Co., Inc., and the American Can Co. at Portland, Oreg., to points in that part of Washington in and west of Okanogan, Chelan, Kittitas, Yakima, and Klickitat Counties, with no transportation for compensation on return except as otherwise authorized. From the plantsites and storage facilities of the Continental Can Co., Inc., and the American Can Co. in that part of Washington in and west of Okanogan, Chelan, Kittitas, Yakima, and Klickitat Counties, to Portland, Oreg., with no transportation for compensation on return except as otherwise authorized. From the plantsites and storage facilities of the Continental Can Co. and the American Can Co. at Seattle, Wash., to Astoria, Oreg., with no transportation for compensation on return except as otherwise authorized. By the instant petition, petitioner requests that the Commission (1) determine that the plantsite restriction imposed is serving no useful purpose and (2) modify the territorial description therein to read as follows: "Between Portland, Oreg., and points in Washington in and west of Okanogan, Chelan, Kittitas, Yakima, and Klickitat Counties; and from Seattle, Wash., to Astoria, Oreg." Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 115846 (Sub-No. 2) (Notice of Filing of Petition To Amend Permit by Adding Two Points), filed February 28, 1972. Petitioner: CRIST TRUCKING, INC., 511 Union Avenue, Mt. Vernon, NY 12550. Petitioner's representatives: Martin Werner and Norman Weiss, 2 West 45th Street, New York, NY 10036. Petitioner holds a permit in No. MC 115846 (Sub-No. 2), authorizing it to perform the following transportation, under contract with Coca Cola Bottling Co., of New York, Inc., of New York, N.Y.: *Carbonated beverages,* in containers, and *empty containers, advertising material, supplies and equipment* used in the manufacture and distribution of carbonated beverages, between New York, Newburgh, Monticello, Poughkeepsie, Westhampton, Jericho, and Tuckahoe, N.Y., Bridgeport and Stamford, Conn., and Jersey City, Trenton, Paterson, Bridgewater Township (Somerset County), Asbury Park, and the sites of the plants of the Coca Cola Bottling Co., of New York, Inc., at Newark, N.J. By the instant petition, petitioner requests the Commission to amend its permit so as to add Elmsford, N.Y., and New Haven, Conn., to the list of points in New York, New Jersey, and Connecticut which petitioner may serve for its one customer. Any interested per-

V 37-166 APR 5 72 XUM

son desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 128320 and No. MC 128320 (Sub-No. 4), (Notice of Filing of Petition To Modify Permits by Adding a Contracting Shipper), filed March 13, 1972. Petitioner: ART QUIRING, Coin, Iowa. Petitioner's representative: Charles J. Kimball, 605 South 14th Street, Post Office Box 82028, Lincoln, NE 68501. Petitioner holds authority in MC 128320, to conduct operations as a motor contract carrier, over irregular routes, transporting: Foodstuffs, and exempt agricultural commodities, as defined in section 203(b)(6) of the Interstate Commerce Act, in mixed loads with foodstuffs, from points in Washington, Oregon, California, and Idaho, to points in Iowa, with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Hoxie Institutional Wholesale Co. of Des Moines, Iowa. In *MC–129320 (Sub-No. 4)*, over irregular routes, transporting: Paper tissue, paper napkins, paper towels, wax paper, paper bags, and wrapping paper, from the storage facilities of Crown Zellerbach Paper Co., at or near Portland, Oreg., to points in Iowa, under a continuing contract, or contracts, with Hoxie Institutional Wholesale Co., of Waterloo, Iowa. By the instant petition, petitioner, seeks to add Hawkeye Wholesale Grocery Co., Inc., Iowa City, Iowa, as an additional contract shipper on the two specified permits. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a (b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–11252. (Correction of amendment) (IML FREIGHT, INC.—PURCHASE (PORTION)—MICHIGAN EXPRESS, INC.), published in the March 15, 1972, issue of the FEDERAL REGISTER on page 5419. By petition filed March 2, 1972, request is made for leave to amend prior application to include additional operating rights to be purchased, (1) between Detroit, and Mount Clemens, Mich., serving all intermediate points, and (2) between Benton Harbor and Detroit, Mich., over Interstate Highway 94 (formerly U.S. Highway 12) serving no intermediate points, serving off-route points along U.S. Highway 31 from junction Interstate Highway 94 to Michigan Highway 89 over U.S. Highway 31, thence over Michigan Highway 89 to Fennville, Mich., thence in a southerly direction over county roads through Grand Junction, Bangor and Hartford, Mich., to junction Interstate 94; also serving Lansing, Mich., over U.S. Highway 127 from junction Interstate Highway 94; also serving Flint, Mich. over U.S. Highway 23 from junction Interstate Highway 94.

No. MC–F–11498. Authority sought for control and merger by COMMERCIAL CARRIERS, INC., 10701 Middlebelt Road, Romulus, MI 48174, of the operating rights and property of HUGHES TRUCK-A-WAY, INC., 1331 "B" Street, Hayward, CA 94543, and for acquisition by AMERICAN COMMERCIAL LINES, INC., 2919 Allen Parkway, Houston, TX 77019, and in turn by TEXAS GAS TRANSMISSION CORPORATION, 3800 Frederica Street, Owensboro, KY 42301, of control of such rights and property through the transaction. Applicants' attorneys and representatives: Bertram S. Silver, 140 Montgomery Street, San Francisco, CA 94104, Jack C. Goodman, 39 South La Salle Street, Chicago, IL 60603, Craig McAtee, 601 California Street, San Francisco, CA 94108, Charles R. Herrick, 10701 Middlebelt Road, Romulus, MI 48174, Richard C. Young, Post Office Box 1160, Owensboro, KY 42301, and Robert O. Koch, 3800 Frederica Street, Owensboro, KY 42301. Operating rights sought to be controlled and merged: Under a certificate of registration, in Docket No. MC–96780 Sub–1, covering the transportation of commodities, as a common carrier, in interstate commerce, within the State of California. COMMERCIAL CARRIERS, INC., is authorized to operate as a *common carrier* in all States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b). NOTE: No. MC–43038 Sub–450, is a matter directly related.

No. MC–F–11499. Authority sought for control and merger by YELLOW FREIGHT SYSTEM, INC., 92d Street, at State Line Road, Kansas City, Mo. 64114, of the operating rights and property of MIDSOUTH TRANSPORTS, INC., 1046 Arkansas, Memphis, TN 38102, and for acquisition by GEORGE E. POWELL, 801 W. 64th Terrace, Kansas City, MO 64113, and GEORGE E. POWELL, JR., 1040 West 57th Street, Kansas City, MO 64113, of control of such rights and property through the transaction. Applicants' attorneys: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603, and A. O. Buck, 500 Court Square Building, Nashville, Tenn. 37201. Operating rights sought to be controlled and merged: Under certificates of registration in Dockets Nos. MC–99467 (Sub–No. 1) and MC–99467 (Sub–No. 4), covering the transportation of property and general commodities, as a common carrier, in interstate commerce, within the State of Tennessee. YELLOW FREIGHT SYSTEM, INC., is authorized to operate as a *common carrier* in Illinois, Kansas, Oklahoma, Missouri, Texas, Indiana, Kentucky, Michigan, Ohio, Minnesota, Iowa, Nebraska, Colorado, Tennessee, Georgia, Arizona, California, New Mexico, South Carolina, Wyoming, Utah, Wisconsin, Pennsylvania, Maryland, Virginia, Alabama, New Jersey, Nevada, Louisiana, Delaware, New York, Massachusetts, Connecticut, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b). NOTE: MC–112713 (Sub–No. 141) is a matter directly related.

No. MC–F–11500. Authority sought for merger into NORMAN TRANSPORTATION LINES, INC., 6201 Lee Road, Maple Heights (Cleveland), OH 44137, of the operating rights and property of THE KEYSTONE TRANSPORTATION COMPANY, also of Maple Heights (Cleveland), Ohio 44137, and for acquisition by NORMAN JOSEPH, AMELIA M. MORAN, BEDIE N. JOSEPH, all of 435 Delaware Avenue, Buffalo, NY 14202, and MORTIMER A. SULLIVAN, 530 Walbridge Building, 43 Court Street, Buffalo, NY 14202, of control of such rights and property through the transaction. Applicants' representative: John H. Baker, 435 Delaware Avenue, Buffalo, NY 14202. Operating rights sought to be merged: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, as a *contract carrier* over irregular routes, between points and places in a defined area in Pennsylvania and Ohio, between points and places in the above-specified territory, on the one hand, and, on the other, Akron and Cleveland, Ohio, and Pittsburgh, Pa. NORMAN TRANSPORTATION LINES, INC., is authorized to operate as a *contract carrier* in New York, Ohio, and Pennsylvania. Application has been filed for temporary authority under section 210a(b). NOTE: Pursuant to order dated November 23, 1945 in MC–F–2823 transferee acquired control of transferor.

No. MC–F–11501. Authority sought for purchase by AUBREY FREIGHT LINES, INC., 625 Grove Street, Elizabeth, NJ 07202, of the operating rights of WHITEHALL TRANSPORT, INC., 1200 Main Street, Post Office Box 387. Whitehall, WI 54773, and for acquisition by MURIEL D. MURRAY, 625 Grove Street, Elizabeth, NJ 07202, of control of such rights through the purchase. Applicants' attorney: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Operating rights sought to be transferred: *Meat, meat products, and meat byproducts*, and etc., as a *contract carrier*, over irregular routes, from Whitehall and Eau Claire, Wis., and St. Paul and Minneapolis, Minn., to points in Kentucky, Pennsylvania, New York, New Jersey, Virginia, West Virginia, Maryland, Delaware, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and the District of Columbia, from Whitehall and Eau Claire, Wis., to points

in Minnesota, with restrictions, from Whitehall and Eau Claire, Wis., to points in Illinois, Indiana, Iowa, Michigan, Nebraska, and Ohio, from Milwaukee, Wis., to points in Maryland, Michigan, New Jersey, Ohio, Pennsylvania, and the District of Columbia, with restriction; groceries and dairy products (except in bulk), from certain specified points in Wisconsin, to points in New York, Ohio, Pennsylvania, Maryland, Delaware, New Jersey, Connecticut, Massachusetts, Vermont, New Hampshire, Rhode Island, Maine, and the District of Columbia; *animal feed, whey*, and *powdered milk and dried milk solids*, from ports and storage facilities in New Jersey, New York, N.Y., and Charleston, S.C., to points in Minnesota and Wisconsin, with restrictions. Vendee is authorized to operate as a *common carrier* in Illinois, Pennsylvania, Maryland, New Jersey, New York, Massachusetts, Connecticut, and the District of Columbia, and as a *contract carrier* in New York, New Jersey, Connecticut, Pennsylvania, Ohio, Illinois, Michigan, Utah, Wisconsin, Maryland, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11502. Authority sought for control by HOLMES FREIGHT LINES, INC., 7878 I Street, Omaha, NE 68127, of (1) BYERS TRANSPORTATION COMPANY, INC., and (2) COMMERCIAL FREIGHT LINES, INC., both of 4200 Gardner Avenue, Kansas City, MO 64120, and for acquisition by THOMAS FULKERSON, and K. SUSAN EDMUNDS, both of Omaha, Nebr. 68127, of control of BYERS TRANSPORTATION COMPANY, INC., and COMMERCIAL FREIGHT LINES, INC., through the acquisition by HOLMES FREIGHT LINES, INC. Applicants' attorneys: Donald L. Stern, 530 Univac Building, Omaha, NE 68106, and Richard K. Andrews, 1500 Commerce Bank Building, Kansas City, MO 64106. Operating rights sought to be controlled: (1) General commodities with usual exceptions, as a *common carrier* over regular routes, between Kansas City, Mo., and St. Joseph Mo., serving the intermediate and off-route points of Lansing, Leavenworth, and Atchinson, Kans., and points in the Kansas City, Mo.-Kansas City, Kans., commercial zone, as defined by the Commission, between Kansas City, Kans., and East St. Louis, Ill., serving intermediate and off-route points in the St. Louis, Mo.-East St. Louis, Ill., commercial zone, as defined by the Commission, and points in the Kansas City, Mo.-Kansas City, Kans., commercial zone, as defined by the Commission, without restriction and the off-route points of Belleville and Alton, Ill., restricted to truckload lots only, between Kansas City, Mo., and Lake City, Mo., serving intermediate and off-route points within 2 miles of Lake City, between junction U.S. Highway 40 and Missouri Highway 7, and Lake City, Mo., serving intermediate and off-route points within 2 miles of Lake City, between Wentzville, and St. Louis, Mo., serving the intermediate and off-route points of Wendon Springs, Mo., and points within 2 miles of Weldon Springs, between East St. Louis, Ill., and St. Joseph, Mo., between Maryville, Mo., and Omaha, Nebr., serving no intermediate points, between Sheridan and St. Joseph, Mo., serving all intermediate points between Maryville and Sheridan, Mo., including Maryville and serving the off-route points of Conception Junction, Clyde, Conception, Rosendale, and Rea, Mo.;

Lubricating oils, greases, gasoline, naphtha, furniture polish, rubber tires, insecticide liquid, batteries, wax, candies, empty drums, tanks, barrels, and signs, between Quincy, Ill., and Browning, Mo.; *used empty containers* for fresh meat and packinghouse products, from Booneville, Mo., to Kansas City, Kans.; *petroleum products*, in containers, *soap, cleaning compounds, fresh meat, and packinghouse products*, in truckload lots, over irregular routes; from Kansas City, Kans., to points in Missouri; *paint, varnish, and painters' supplies*, in truckload lots, from Kansas City, Mo., to certain specified points in Kansas; *paper and paper articles*, in truckload lots, from St. Joseph, Mo., to certain specified points in Kansas; *general commodities*, with usual exceptions, between points in Clay, Jackson, and Platte Counties, Mo., and Douglas, Johnson, Leavenworth, and Wyandotte Counties, Kans.; between points in that part of Nodaway, Gentry, and Worth Counties, Mo., on and east of U.S. Highway 71 and on west of U.S. Highway 169, on the one hand, and, on the other, Omaha, Nebr., Council Bluffs and Des Moines, Iowa, Kansas City, Kans., Kansas City, Mo., and those points in that part of Iowa on and south of U.S. Highway 34 and on and west of U.S. Highway 169, with restriction;

Meats, meat products, and meat byproducts and *articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities, in bulk, in tank vehicles), from the plantsite and storage facilities of Missouri Beef Packers, Inc., at or near Phelps City, Mo., to points in Illinois, Iowa, Kansas, Missouri, and Nebraska, with restriction; and (2) *general commodities*, with certain specified exceptions, and numerous other specified commodities, as a *common carrier*, over regular and irregular routes, from, to, and between specified points in the States of Nebraska, Illinois, Missouri, Iowa, Kansas, Oklahoma, Indiana, Colorado, Wisconsin, Arkansas, and Minnesota, with certain restrictions, serving various intermediate and off-route points, as more specifically described in Docket No. MC–84511 and Sub-numbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. HOLMES FREIGHT LINES, INC., is authorized to operate as a *common carrier* in Iowa, Illinois, and Nebraska. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11503. Authority sought for purchase by OLD COLONY TRANSPORTATION CO., INC., 676 Dartmouth Street, South Dartmouth, MA 02748, of the operating rights and property of CHAPIN MOTOR FREIGHT, INC., West Main Street Road, Malone, N.Y. 12953, and for acquisition by GEORGE VIGEANT, also of South Dartmouth, Mass. 02748, of control of such rights and property through the purchase. Applicants' attorneys: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, MA 02043, and Cornelius J. Carey, 19 West Main Street, Malone, NY 12953. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC–98036 Sub 2, covering the transportation of general commodities, as a common carrier, in interstate commerce, within the State of New York. Vendee is authorized to operate as a *common carrier* in Massachusetts, Maine, New Hampshire, New York, New Jersey, Connecticut, Rhode Island, and Vermont. Application has been filed for temporary authority under section 210a(b). NOTE: MC–106051 Sub 46, is a matter directly related.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

[FR Doc.72–5240 Filed 4–4–72;8:53 am]

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

MARCH 31, 1972.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Tennessee Docket No. MC 2668 (Sub-No. 5), filed March 8, 1972. Applicant: HOHENWALD TRUCK LINES, INC., Columbia Highway, Hohenwald, Tenn. Applicant's representative: A. O. Buck, 500 Court Square Building, Nashville, Tenn. 37201. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except household goods, Classes A and B ex-

V 37-166 APR 5 72 XUM

plosives, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading. Route 1: Between Linden, Tenn., and Memphis, Tenn., serving no intermediate points: From Linden over Tennessee Highway 20 to its junction with Law Road; thence over Law Road to its junction with Interstate Highway 40; thence over Interstate Highway 40 to Memphis and return over the same route. Route 2: Between Buffalo, Tenn., and Memphis, Tenn., serving no intermediate points: From Buffalo over Interstate Highway 40 to Memphis, and return over the same route. Applicant proposes to utilize the above sought authority in conjunction with all of its present authority and seeks corresponding interstate authority. Restriction: Restricted against the handling of any traffic moving between any point in Davidson County, Tenn., and Memphis, Tenn. Both instrastate and interstate authority sought.

HEARING: April 20, 1972 at 9:30 a.m., at the Commission's Court Room, C–1–110 Cordell Hull Building, Nashville, Tenn. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Tennessee Public Service Commission, Cordell Hull Building, Nashville, Tenn. 37219 and should not be directed to the Interstate Commerce Commission.

California Docket No. 53212, filed March 17, 1972. Applicant: ALCO TRANSPORTATION CO., 1603 Chapin Road, Montebello, CA 90640. Applicant's representative: Donald Murchison, 9454 Wilshire Boulevard, Suite 400, Beverly Hills, CA 90212. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of (A) *general commodities,* except: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10–C of Minimum Rate Tariff No. 4–A. (2) Automobiles, trucks and buses, viz: new and used finished or unfinished passenger automobiles (including jeeps), ambulances, hearses, and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks, and trailers combined, buses and bus chassis. (3) Livestock, viz: bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags, or swine. (4) Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerated equipment. (5) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles. (6) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (7) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (8) Logs.

(B) Between: (1) All points and places in the Los Angeles Basin territory as described in Exhibit "A" hereto attached. (2) All points and places in the Los Angeles Basin territory, on the one hand, and, on the other hand, San Diego territory, as described in Exhibit "A", via Interstate 5, with service to all intermediate points and all points on and within 10 miles laterally of said highways between the Los Angeles Basin territory and the San Diego territory, inclusive. (3) All points and places in the Los Angeles Basin territory, on the one hand, and, on the other hand, the San Diego Territory via Interstate 15, with service to all intermediate points and all points on and within 10 miles laterally of said highway between Los Angeles Basin territory and the San Diego territory, inclusive. (4) All points and places in San Diego territory. (5) All points and places as set forth in subparagraph 3 above, on the one hand, and, on the other hand, points and places in the San Francisco territory, as described in Exhibit "B" hereto attached, via U.S. Highways 101, Interstate 5, 15, and 580, U.S. Highway 50, State Highways 1, 99, 120, and 280, with service to all intermediate points south of San Luis Obispo and Bakersfield, inclusive, and all points on and within 10 miles laterally of said highways south of San Luis Obispo and Bakersfield, inclusive. (6) All points and places in the Los Angeles Basin territory, on the one hand, and, on the other hand, Mojave, via Interstate 5 and State Highway 14, serving all intermediate points on and within 10 miles laterally of said highways between Mojave and said Los Angeles Basin territory, inclusive, and (7) all points and places in the Los Angeles Basin territory on the one hand, and, on the other hand, Barstow, via Interstate 15, serving all intermediate points on and within 10 miles laterally of said highways between Barstow and said Los Angeles Basin territory, inclusive.

Applicant proposes to establish through routes and joint rates between any and all points described in subparagraphs 2, 3, 5, 6, and 7, inclusive and between any and all points presently authorized to be served. Exhibit "A" *Description—Los Angeles Basin territory.* Los Angeles Basin territory includes that area embraced by the following boundary: Beginning at the point the Ventura County-Los Angeles County boundary line intersects the Pacific Ocean; thence northeasterly along said county line to the point it intersects State Highway No. 118, approximately 2 miles west of Chatsworth; easterly along State Highway No. 118 to Sepulveda Boulevard; northerly along Sepulveda Boulevard to Chatsworth Drive to the corporate boundary of the city of San Fernando; westerly and northerly along said corporate boundary to McClay Avenue; northeasterly along McClay Avenue and its prolongation to the Angeles National Forest boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest boundary to the county road known as Mill Creek Road; westerly along Mill Creek Road to the county road 3.8 miles north of Yucaipa; southerly along said county road to and including the unincorporated community of Yucaipa; westerly along Redlands Boulevard to U.S. Highway No. 99; northwesterly along U.S. Highway No. 99 to the corporate boundary of the city of Redlands; westerly and northerly along said corporate boundary to Brookside Avenue; westerly along Brookside Avenue to Barton Avenue; westerly along Barton Avenue and its prolongation to Palm Avenue; westerly along Palm Avenue to La Cadena Drive; southwesterly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to U.S. Highway No. 60;

Southwesterly along U.S. Highways Nos. 60 and 395 to the county road approximately 1 mile north of Perris; easterly along said county road via Nuevo and Lakeview to the corporate boundary of the city of San Jacinto; easterly, southerly and westerly along said corporate boundary to San Jacinto Avenue; southerly along San Jacinto Avenue to State Highway No. 74; westerly along State Highway No. 74 to the corporate boundary of the city of Hemet; southerly, westerly, and northerly along said corporate boundary to the right of way of The Atchison, Topeka & Santa Fe Railway Co.; southwesterly along said right of way to Washington Avenue; southerly along Washington Avenue, through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to the county road intersecting U.S. Highway No. 395, 2.1 miles north of the unincorporated community of Temecula; southerly along said county road to U.S. Highway No. 395; southeasterly along U.S. Highway No. 395 to the Riverside County-San Diego County boundary line; westerly along said boundary line to the Orange County-San Diego County boundary line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shoreline of the Pacific Ocean to point of beginning. San Diego territory includes that area embraced by the following imaginary line starting at the northerly junction of U.S. Highways 101–E and 101–W (4 miles north of La Jolla); thence easterly to Miramar on State Highway No. 395; thence southeasterly to Lakeside on the El Cajon-Ramona Highway; thence southerly to Bostonia on U.S. Highway No. 80;

Thence southeasterly to Jamul on State Highway No. 94; thence due south to the international boundary line, west to the Pacific Ocean and north along the coast to point of beginning. Exhibit "B" San Francisco territory includes all the city of San Jose and that area embraced by the following boundary. Beginning at the point of San Francisco-San Mateo boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Co. right-of-way at Arastradero

Road; southeasterly along the Southern Pacific Co. right-of-way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to West Parr Avenue; easterly along West Parr Avenue to Capri Drive; southerly along Capri Drive to East Parr Avenue; easterly along East Parr Avenue to the Southern Pacific Co. right-of-way; southerly along the Southern Pacific Co. right-of-way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101; to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue;

Northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the city of Richmond; southwesterly along the highway extending from the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. Both intrastate and interstate authority sought.

HEARING: Date, time, and place not shown. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, CA 94102, and should *not* be directed to the Interstate Commerce Commission.

Tennessee Docket No. MC 5441 (Sub-No. 1) (Correction) filed February 22, 1972, published in the FEDERAL REGISTER issue of March 8, 1972, and republished in part as corrected this issue. Applicant: NASHVILLE-CLARKSVILLE EXPRESS, INC., Post Office Box 986, Clarksville, Tenn. 37040. Applicant's representative: Clarence Evans, 18th Floor, Third National Bank Building, Nashville, TN 37219. NOTE: The sole purpose of this partial republication is to add "all of the foregoing routes to be tacked with applicant's existing authority," which was erroneously omitted in the previous publication. The rest of the application remains as previously published.

Florida Docket No. 72138–CCT filed March 16, 1972. Applicant: GATOR FREIGHTWAYS, INC., 2175 Commonwealth Avenue, Jacksonville, FL 32209. Applicant's representative: J. E. Allen, Post Office Box 1086, Jacksonville, FL 32201. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities,* between Jacksonville, Fla., over U.S. Highway 90 to Pensacola, serving as a motor common carrier the intermediate points of Madison and points within 10 miles thereof: Tallahassee and points within 25 miles thereof; Marianna and points within 10 miles thereof; and points within 25 miles of Pensacola. All points so described being limited to service wholly within the State of Florida. In addition to the authority above described, applicant seeks authority between Tallahassee and Pensacola, from Tallahassee over Florida State Highway 20 to the junction of Florida Highway 20 and U.S. Highway 231; thence over U.S. Highway 231 to Panama City; thence over U.S. Highway 98 to Pensacola, serving the intermediate points of Panama City and 25 miles thereof and Fort Walton Beach and 10 miles thereof. All points so designated being restricted to points within the State of Florida and authority is sought for the territory herein described for intrastate and interstate commerce.

HEARING: 9:30 a.m., Monday, May 1, 1972, at Florida Public Service Commission District Office, room 100, 2255 Phyllis Street, Jacksonville, FL. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Florida Public Service Commission, 700 South Adams Street, Tallahassee, FL 32304 and should *not* be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 39]

MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–73502. By order of March 24, 1972, the Motor Carrier Board approved the transfer to The Portsmouth Trucking Co., a corporation, Youngstown, Ohio 44501, of the operating rights in permit No. MC–124847, issued June 12, 1968, to William T. Kiser, Olive Hill, Ky. 41164, authorizing the transportation of limestone, from Olive Hill, and Carter City, Ky., and points within 10 miles of each, to points in specified counties in both Ohio and Kentucky; slag, from Ashland, Ky., to specified counties in Ohio and West Virginia; and sand and gravel, from Haverhill, Ohio, and points within 2 miles thereof, to points in Carter, Boyd, and Greenup Counties, Ky., Paul F. Beery and Boyd B. Ferris, 88 East Broad Street, Columbus, OH 43215, attorneys for applicants.

No. MC–FC–73538. By order of March 23, 1972, the Motor Carrier Board approved the transfer to Warren Transportation Co., a corporation, Hayward, Calif. 94543, of certificate of registration No. MC–121472 (Sub-No. 1) issued June 3, 1965, to E. Guy Warren, doing business as Warren Transportation Co., Hayward, Calif. 94543, evidencing a right to engage in the transportation in interstate commerce corresponding in scope to certificate of public convenience and necessity granted in Decisions Nos. 45417, 45792, 50499, 53170, and 57964, dated March 6, and June 5, 1971, August 31, 1954, May 28, 1958, and February 3, 1959, respectively, issued by the Public Utilities Commission of California. Marvin Handler, Handler, Baker & Greene, attorney for applicants, 405 Montgomery Street, San Francisco, CA 94104.

No. MC–FC–73552. By order of March 27, 1972, the Motor Carrier Board approved the transfer to Henry's Transportation, Inc., 30 Village Street, Millis, MA 02054 of Certificate of Registration No. MC–58428 (Sub-No. 1) issued October 30, 1963, to Henry J. Lewandowski, doing business as Henry's Transportation, Millis, Mass. 02054, evidencing a right to engage in transportation in intrastate commerce as described in State Certificate No. 6162 issued July 6, 1944, by the Public Utilities Commission of Massachusetts.

No. MC–FC–73575. By order of March 27, 1972, the Motor Carrier Board approved the transfer to Trans Eastern Vans, Inc., Brooklyn, N.Y., of the operating rights set forth in certificate No. MC–113021, issued November 25, 1960, to Nick's Moving & Storage Co., Inc., Brooklyn, N.Y., authorizing the transportation of: Household goods as defined by the Commission, between New York, N.Y., and points in Nassau and Suffolk

V 37-66 APR 5 72 XUM

Counties, N.Y., on the one hand, and, on the other, points in New York, New Jersey, Pennsylvania, Connecticut, and Massachusetts. Morris Honig, 150 Broadway, New York, NY 10038, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.72-5241 Filed 4-4-72;8:53 am]

[Rev. S.O. 994; ICC Order 57, Amdt. 7]

PENN CENTRAL TRANSPORTATION CO.

Rerouting or Diversion of Traffic

Upon further consideration of ICC Order No. 57 (Penn Central Transportation Co., George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, trustees), and good cause appearing therefor:

It is ordered, That:

ICC Order No. 57 be, and it is hereby, amended by substiuting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., June 30, 1972, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., March 31, 1972, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., March 29, 1972.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[FR Doc.72-5245 Filed 4-4-72;8:53 am]

POOLE TRUCK LINE, INC.

Notice of Petition for Declaratory Order

MARCH 31, 1972.

No. MC-C-7739 (Notice of Filing of Petition for Issuance of a Declaratory Order), filed March 13, 1972. Petitioner: POOLE TRUCK LINE, INC., Evergreen, Ala. Petitioner's representative: Robert E. Tate, Post Office Drawer 500, Evergreen, AL 36401. Petitioner requests issuance of a declaratory order as to whether laminated wood flooring may be transported under certificates of public convenience and necessity authorizing the transportation of lumber. Petitioner submits that the question arises because of differences of opinion on the part of various motor carriers and certain personnel of the Interstate Commerce Commission concerning the scope of the commodity description "lumber." Petitioner has been transporting laminated flooring under its "lumber" authority from and to various points, and claims to have knowledge that its competitors have also been transporting laminated flooring under "lumber" authority either in competition with petitioner or from origins petitioner does not serve. Petitioner contends that laminated wood flooring, like plywood and residential flooring should be considered to be "lumber."

Any interested person desiring to participate and to be heard in this matter may file an original and six copies of his written representations, views, or arguments, in support of or against the petition, within 30 days of this publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 102—INSTRUCTIONS RELATING TO REPORTS OF CURRENCY TRANSACTIONS

PART 103—FINANCIAL RECORDKEEPING AND REPORTING OF CURRENCY AND FOREIGN TRANSACTIONS

On June 10, 1971, a notice of proposed rule making to implement the provisions of titles I and II of Public Law 91-508 (84 Stat. 1114 et seq.), was published in the FEDERAL REGISTER (36 F.R. 11208 (1971)). In accordance with the notice, interested parties were afforded an opportunity to submit written comments.

After consideration of all such relevant matters as were presented by interested parties regarding the rules proposed, the regulations set forth below have been adopted.

[SEAL] SAMUEL R. PIERCE, Jr.,
General Counsel.

EUGENE T. ROSSIDES,
Assistant Secretary.

Part 102 is repealed effective July 1, 1972.

Part 103 is added to Title 31 CFR as follows:

Subpart A—Definitions

Sec.
103.11 Meaning of terms.

Subpart B—Reports Required To Be Made

103.21 Determination by the Secretary.
103.22 Reports of currency transactions.
103.23 Reports of transportation of currency or monetary instruments.
103.24 Reports of foreign financial accounts.
103.25 Filing of reports.
103.26 Identification required.

Subpart C—Records Required To Be Maintained

103.31 Determination by the Secretary.
103.32 Records to be made and retained by persons having financial interests in foreign financial accounts.
103.33 Records to be made and retained by financial institutions.
103.34 Additional records to be made and retained by banks.
103.35 Additional records to be made and retained by brokers and dealers in securities.
103.36 Nature of records and retention period.
103.37 Person outside the United States.

Subpart D—General Provisions

103.41 Dollars as including foreign currency.
103.42 Photographic or other reproductions of Government obligations.
103.43 Availability of information.
103.44 Disclosure.
103.45 Exceptions, exemptions, modifications, and reports.
103.46 Enforcement.
103.47 Civil penalty.
103.48 Forfeiture of currency or monetary instruments.
103.49 Criminal penalty.
103.50 Enforcement authority with respect to transportation of currency or monetary instruments.

AUTHORITY: The provisions of this Part 103 issued under sec. 21 of the Federal Deposit Insurance Act, 84 Stat. 1114, 12 U.S.C. 1829b; 84 Stat. 1116, 12 U.S.C. 1951-1959; and the Currency and Foreign Transactions Reporting Act, 84 Stat. 1118, 31 U.S.C. 1051-1122.

Subpart A—Definitions

§ 103.11 Meaning of terms.

When used in this part and in forms prescribed under this part, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section.

Bank. (a) Each agency, branch or office within the United States of any person doing business in one or more of the capacities listed below:

(1) A commercial bank or trust company organized under the laws of any State or of the United States;

(2) A private bank;

(3) A savings and loan association or a building and loan association organized under the laws of any State or of the United States;

(4) An insured institution as defined in section 401 of the National Housing Act;

(5) A savings bank, industrial bank or other thrift institution;

(6) A credit union organized under the laws of any State or of the United States; and

(7) Any other organization chartered under the banking laws of any State and subject to the supervision of the bank supervisory authorities of a State.

(b) Each agent, agency, branch or office within the United States of a foreign bank.

Broker or dealer in securities. A broker or dealer in securities, registered or required to be registered with the Securities and Exchange Commission under the Securities Exchange Act of 1934.

Currency. The coin and currency of the United States or of any other country, which circulate in and are customarily used and accepted as money in the country in which issued. It includes U.S. silver certificates, U.S. notes and Federal Reserve notes, but does not include bank checks or other negotiable instruments not customarily accepted as money.

Domestic. When used herein, refers to the doing of business within the United States, and limits the applicability of the provision where it appears to the performance by such institutions or agencies of functions within the United States.

Financial institution. Each agency, branch or office within the United States of any person doing business in one or more of the capacities listed below:

(1) A bank;

(2) A broker or dealer in securities;

(3) A person who engages as a business in dealing in or exchanging currency as, for example, a dealer in foreign exchange or a person engaged primarily in the cashing of checks;

(4) A person who engages as a business in the issuing, selling or redeeming of travelers' checks, money orders, or similar instruments, except one who does so as a selling agent exclusively or as an incidental part of another business;

(5) An operator of a credit card system which issues, or authorizes the issuance of, credit cards that may be used for the acquisition of monetary instruments, goods, or services outside the United States.

(6) A licensed transmitter of funds, or other person engaged in the business of transmitting funds abroad for others.

Foreign bank. A bank organized under foreign law, or an agency, branch or office located outside the United States of a bank. The term does not include an agent, agency, branch or office within the United States of a bank organized under foreign law.

Investment security. An instrument which:

(1) Is issued in bearer or registered form;

(2) Is of a type commonly dealt in upon securities exchanges or markets or commonly recognized in any area in which it is issued or dealt in as a medium for investment;

(3) Is either one of a class or series or by its terms is divisible into a class or series of instruments; and

(4) Evidences a share, participation or other interest in property or in an enterprise or evidences an obligation of the issuer.

Monetary instruments. Coin or currency of the United States or of any other country, travelers' checks, money orders, investment securities in bearer form or otherwise in such form that title thereto passes upon delivery, and negotiable instruments (except warehouse receipts or bills of lading) in bearer form or otherwise in such form that title thereto passes upon delivery. The term does not include bank checks made payable to the order of a named person which have not been endorsed or which bear restrictive endorsements.

Person. An individual, a corporation, a partnership, a trust or estate, a joint stock company, an association, a syndicate, joint venture, or other unincorporated organization or group, and all entities cognizable as legal personalities.

Secretary. The Secretary of the Treasury or any person duly authorized by the Secretary to perform the function mentioned.

Transaction in currency. A transaction involving the physical transfer of currency from one person to another. A transaction which is a transfer of funds by means of bank check, bank draft, wire transfer, or other written order, and which does not include the physical transfer of currency is not a transaction in currency within the meaning of this part.

United States. The various States, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

Subpart B—Reports Required To Be Made

§ 103.21 Determination by the Secretary.

The Secretary hereby determines that the reports required by this subpart have a high degree of usefulness in criminal, tax, or regulatory investigations or proceedings.

§ 103.22 Reports of currency transactions.

(a) Each financial institution shall file a report of each deposit, withdrawal, exchange of currency or other payment or transfer, by, through, or to such financial institution, which involves a transaction in currency of more than $10,000.[1]

(b) Except as otherwise directed in writing by the Secretary, this section shall not (1) require reports of transactions with Federal Reserve Banks or Federal Home Loan Banks; (2) require reports of transactions solely with, or originated by, financial institutions or foreign banks; or (3) require a bank to report transactions with an established customer maintaining a deposit relationship with the bank, in amounts which the bank may reasonably conclude do not exceed amounts commensurate with the customary conduct of the business, industry or profession of the customer concerned. A report listing such customers who engage in transactions which are not reported because of the exemption contained in this paragraph shall be made to the Secretary upon demand therefor made by him.

§ 103.23 Reports of transportation of currency or monetary instruments.

(a) Each person who physically transports, mails, or ships, or causes to be physically transported, mailed or shipped, currency or other monetary instruments in an aggregate amount exceeding $5,000 on any one occasion from the United States to any place outside the United States, or into the United States from any place outside the United States, shall make a report thereof.[2] A person is deemed to have caused such transportation, mailing or shipping when he aids, abets, counsels, commands, procures or requests it to be done by a financial institution or any other person. A transfer of funds through normal banking procedures which does not involve the physical transportation of currency or monetary instruments is not required to be reported by this section.

(b) Each person who receives in the United States currency or other monetary instruments in an aggregate amount exceeding $5,000 on any one occasion which have been transported, mailed, or shipped to such person from any place outside the United States with respect to which a report has not been filed under paragraph (a) of this section, whether or not required to be filed thereunder, shall make a report thereof, stating the amount, the date of receipt, the form of monetary instruments, and the person from whom received.

(c) This section shall not require reports by (1) a Federal Reserve bank, (2) a bank, a foreign bank, or a broker or dealer in securities, in respect to currency or other monetary instruments mailed or shipped through the postal service or by common carrier, (3) a person who is not a citizen or resident of the United States in respect to currency or other monetary instruments mailed or shipped from abroad to a bank or broker or dealer in securities through the postal service or by common carrier, (4) a common carrier of passengers in respect to currency or other monetary instruments in the possession of its passengers, (5) a common carrier of goods in respect to shipments of currency or monetary instruments not declared to be such by the shipper, (6) a travelers' check issuer or its agent in respect to the transportation of travelers' checks prior to their delivery to selling agents for eventual sale to the public, nor by (7) a person engaged as a business in the transportation of currency, monetary instruments and other commercial papers with respect to the transportation of currency or other monetary instruments overland between established offices of banks or brokers or dealers in securities and foreign banks.

(d) This section does not require that more than one report be filed covering a particular transportation, mailing or shipping of currency or other monetary instruments with respect to which a complete and truthful report has been filed by a person. However, no person required by paragraph (a) or (b) of this section to file a report shall be excused from liability for failure to do so if, in fact, a complete and truthful report has not been filed.

§ 103.24 Reports of foreign financial accounts.

Each person subject to the jurisdiction of the United States (except a foreign subsidiary of a U.S. person) having a financial interest in, or signature or other authority over, a bank, securities or other financial account in a foreign country shall report such relationship as required on his Federal income tax return for each year in which such relationship exists, and shall provide such information concerning each such account as shall be specified in a special tax form to be filed by such persons.

§ 103.25 Filing of reports.

(a) Reports required to be filed by the first paragraph of § 103.22 shall be filed on or before the 45th day following that on which the reported transactions occur. They shall be filed with the Commissioner of Internal Revenue on forms to be prescribed by him, with the approval of the Secretary. All information called for in such forms shall be furnished.

(b) Reports required to be filed by § 103.23(a) shall be filed at the time of entry into the United States or at the time of departure, mailing or shipping from the United States, unless otherwise directed or permitted by the Commissioner of Customs. They shall be filed with the Customs officer in charge at any Customs port of entry or departure, or as otherwise permitted or directed by the Commissioner of Customs. If the currency or other monetary instruments with respect to which a report is required do not accompany a person entering or departing from the United States, such reports may be filed by mail on or before the date of entry, departure, mailing or shipping, with the Commissioner of Customs, Attention: Currency Transportation Reports, Washington, D.C. 20226. They shall be on forms to be prescribed by the Secretary and all information called for in such forms shall be furnished.

(c) Reports required to be filed by § 103.23(b) shall be filed with the Commissioner of Customs within 30 days after receipt of the currency or other monetary instruments. They may be filed with the Customs officer in charge at any port of entry or departure, or by mail addressed to the Commissioner of Customs, Attention: Currency Transportation Reports, Washington, D.C. 20226. They shall be on forms to be prescribed by the Secretary and all information called for in such forms shall be furnished.

(d) Forms to be used in making the reports required by §§ 103.22 and 103.23 may be obtained from any Internal Revenue office; in addition, forms to be used in making the reports required by § 103.23 may be obtained from any office of the Bureau of Customs.

§ 103.26 Identification required.

Before effecting any transaction with respect to which a report is required under the first paragraph of § 103.22, a financial institution shall verify and record the identity, and record the account number on its books or the social security or taxpayer identification number, if any, of a person with whom or for whose account such transaction is to be effected. Verification of identity for a customer of the financial institution depositing or withdrawing funds may be by reference to his account or other number on the books of the institution. Verification of identity in any other case may be by examination, for example, of a driver's license, passport, alien identification card, or other appropriate document normally acceptable as a means of identification.

Subpart C—Records Required To Be Maintained

§ 103.31 Determination by the Secretary.

The Secretary hereby determines that the records required to be kept by this subpart have a high degree of usefulness in criminal, tax, or regulatory investigations or proceedings.

[1] Forms filed as part of the original document.

[2] Forms filed as part of the original document.

V 37-166
APR 5 72
XUM

§ 103.32 Records to be made and retained by persons having financial interests in foreign financial accounts.

Records of accounts required by § 103.24 to be reported on a Federal income tax return shall be retained by each person having a financial interest in any such account. Such records shall contain the name in which each such account is maintained, the number or other designation of such account, the name and address of the foreign bank or other person with whom such account is maintained, the type of such account, and the maximum value of each such account during the reporting period. Such records shall be retained for a period of 5 years and shall be kept at all times available for inspection as authorized by law. In the computation of the period of 5 years, there shall be disregarded any period beginning with a date on which the taxpayer is indicted or information instituted on account of the filing of a false or fraudulent Federal income tax return or failing to file a Federal income tax return, and ending with the date on which final disposition is made of the criminal proceeding.

§ 103.33 Records to be made and retained by financial institutions.

Each financial institution shall retain either the original or a microfilm or other copy or reproduction of each of the following:

(a) A record of each extension of credit in an amount in excess of $5,000, except an extension of credit secured by an interest in real property, which record shall contain the name and address of the person to whom the extension of credit is made, the amount thereof, the nature or purpose thereof, and the date thereof;

(b) A record of each advice, request, or instruction received regarding a transaction which results in the transfer of funds, or of currency, other monetary instruments, checks, investment securities, or credit, of more than $10,000 to a person, account, or place outside the United States;

(c) A record of each advice, request, or instruction given to another financial institution or other person located within or without the United States, regarding a transaction intended to result in the transfer of funds, or of currency, other monetary instruments, checks, investment securities, or credit, of more than $10,000 to a person, account or place outside the United States;

§ 103.34 Additional records to be made and retained by banks.

(a) With respect to each deposit or share account opened with a bank after June 30, 1972, by a person residing or doing business in the United States or a citizen of the United States, such bank shall secure and maintain a record of the taxpayer identification number of the person maintaining the account; or in the case of an account of one or more individuals, such bank shall secure and maintain a record of the social security number of an individual having a financial interest in that account.

(b) Each bank shall, in addition, retain either the original or a microfilm or other copy or reproduction of each of the following:

(1) Each document granting signature authority over each deposit or share account;

(2) Each statement, ledger card or other record on each deposit or share account, showing each transaction in, or with respect to, that account;

(3) Each check, clean draft, or money order drawn on the bank or issued and payable by it, except those drawn on accounts which can be expected to have drawn on them an average of at least 100 checks per month over the calendar year or on each occasion on which such checks are issued, and which are (i) dividend checks, (ii) payroll checks, (iii) employee benefit checks, (iv) insurance claim checks, (v) medical benefit checks, (vi) checks drawn on governmental agency accounts, (vii) checks drawn by brokers or dealers in securities, (viii) checks drawn on fiduciary accounts, (ix) checks drawn on other financial institutions, or (x) pension or annuity checks;

(4) Each item other than bank charges or periodic charges made pursuant to agreement with the customer, comprising a debit to a customer's deposit or share account, not required to be kept, and not specifically exempted, under subparagraph (3) of this paragraph;

(5) Each item, including checks, drafts, or transfers of credit, of more than $10,000 remitted or transferred to a person, account or place outside the United States;

(6) A record of each remittance or transfer of funds, or of currency, other monetary instruments, checks, investment securities, or credit, of more than $10,000 to a person, account or place outside the United States;

(7) Each check or draft in an amount in excess of $10,000 drawn on or issued by a foreign bank, purchased, received for credit or collection, or otherwise acquired by the bank;

(8) Each item, including checks, drafts or transfers of credit, of more than $10,000 received directly and not through a domestic financial institution, by letter, cable or any other means, from a person, account or place outside the United States;

(9) A record of each receipt of currency, other monetary instruments, checks, or investment securities, and of each transfer of funds or credit, of more than $10,000 received on any one occasion directly and not through a domestic financial institution, from a person, account or place outside the United States; and

(10) Records prepared or received by a bank in the ordinary course of business, which would be needed to reconstruct a demand deposit account and to trace a check deposited in such account through its domestic processing system or to supply a description of a deposited check. This subparagraph shall be applicable only with respect to demand deposits.

§ 103.35 Additional records to be made and retained by brokers and dealers in securities.

(a) With respect to each brokerage account opened with a broker or dealer in securities after June 30, 1972, by a person residing or doing business in the United States or a citizen of the United States, such broker or dealer shall secure and maintain a record of the taxpayer identification number of the person maintaining the account; or in the case of an account of one or more individuals, such broker or dealer shall secure and maintain a record of the social security number of an individual having a financial interest in that account.

(b) Every broker or dealer in securities shall, in addition, retain either the original or a microfilm or other copy or reproduction of each of the following:

(1) Each document granting signature or trading authority over each customer's account;

(2) Each record described in § 240.-17a–3(a) (1), (2), (3), (5), (6), (7), (8), and (9) of Title 17, Code of Federal Regulations;

(3) A record of each remittance or transfer of funds, or of currency, checks, other monetary instruments, investment securities, or credit, of more than $10,000 to a person, account or place outside the United States;

(4) A record of each receipt of currency, other monetary instruments, checks, or investment securities and of each transfer of funds or credit, of more than $10,000 received on any one occasion directly and not through a domestic financial institution, from any person, account or place outside the United States.

§ 103.36 Nature of records and retention period.

(a) Wherever it is required that there be retained either the original of a microfilm or other copy or reproduction of a check, draft, monetary instrument, investment security, or other similar instrument, there shall be retained a copy of both front and back of each such instrument or document, except that no copy need be retained of the back of any instrument or document which is entirely blank or which contains only standardized printed information, a copy of which is on file.

(b) Records required by this subpart to be retained by financial institutions may be those made in the ordinary course of business by a financial institution. If no record is made in the ordinary course of business of any transaction with respect to which records are required to be retained by this subpart, then such a record shall be prepared in writing by the financial institution.

(c) Records which are required by § 103.34(b)(10) to be retained by banks shall be retained for a period of 2 years. All other records which are required by this subpart to be retained by financial institutions shall be retained for a period of 5 years. All such records shall be filed or stored in such a way as to be accessible within a reasonable period of time, taking into consideration the nature of the record, and the amount of time expired since the record was made.

§ 103.37 Person outside the United States.

For the purposes of this subpart, a remittance or transfer of funds, or of currency, other monetary instruments, checks, investment securities, or credit to the domestic account of a person whose address is known by the person making the remittance or transfer, to be outside the United States, shall be deemed to be a remittance or transfer to a person outside the United States, except that, unless otherwise directed by the Secretary, this section shall not apply to a transaction on the books of a domestic financial institution involving the account of a customer of such institution whose address is within approximately 50 miles of the location of the institution, or who is known to be temporarily outside the United States.

Subpart D—General Provisions

§ 103.41 Dollars as including foreign currency.

Wherever in this part an amount is stated in dollars, it shall be deemed to mean also the equivalent amount in any foreign currency.

§ 103.42 Photographic or other reproductions of Government obligations.

Nothing herein contained shall require or authorize the microfilming or other reproduction of

(a) Currency or other obligation or security of the United States as defined in 18 U.S.C. 8, or

(b) Any obligation or other security of any foreign government,

the reproduction of which is prohibited by law.

§ 103.43 Availability of information.

The Secretary may make any information set forth in any reports received pursuant to this part available to any other department or agency of the United States upon the request of the head of such department or agency, made in writing and stating the particular information desired, the criminal, tax, or regulatory investigation or proceeding in connection with which the information is sought, and the official need therefor.

§ 103.44 Disclosure.

All reports required under this part and all records of such reports are specifically exempted from disclosure under section 552 of title 5, United States Code.

§ 103.45 Exceptions, exemptions, modifications, and reports.

(a) The Secretary, in his sole discretion, may by written order or authorization make exceptions to, grant exemptions from, impose additional record-keeping or reporting requirements authorized by statute, or otherwise modify, the requirements of this part. Such exceptions, exemptions, requirements or modifications may be conditional or unconditional, may apply to particular persons or to classes of persons, and may apply to particular transactions or classes of transactions. They shall, however, be applicable only as expressly stated in the order or authorization, and they shall be revocable in the sole discretion of the Secretary.

(b) The Secretary shall have authority to further define all terms used herein.

§ 103.46 Enforcement.

(a) Responsibility for assuring compliance with the requirements of this part is delegated as follows:

(1) To the Comptroller of the Currency, with respect to national banks and banks in the District of Columbia;

(2) To the Board of Governors of the Federal Reserve System, with respect to State bank members of the Federal Reserve System;

(3) To the Federal Home Loan Bank Board, with respect to insured building and loan associations, insured savings and loan associations, and insured institutions as defined in section 401 of the National Housing Act;

(4) To the Administrator of the National Credit Union Administration, with respect to Federal credit unions;

(5) To the Federal Deposit Insurance Corporation, with respect to all other banks except agents of foreign banks which agents are not supervised by State or Federal bank supervisory authorities;

(6) To the Securities and Exchange Commission, with respect to brokers and dealers in securities;

(7) To the Commissioner of Customs with respect to §§ 103.23 and 103.48;

(8) To the Commissioner of Internal Revenue except as otherwise specified in this section.

(b) Overall responsibility for coordinating the procedures and efforts of the agencies listed herein and assuring compliance with this part, is delegated to the Assistant Secretary (Enforcement, Tariff and Trade Affairs, and Operations). Periodic reports shall be made by each such agency to the Assistant Secretary, with copies to the General Counsel of the Treasury Department and to the Commissioner of Internal Revenue.

§ 103.47 Civil penalty.

(a) For any willful violation of any requirement of this part, the Secretary may assess upon any domestic financial institution, and upon any partner, director, officer or employee thereof who willfully participates in the violation, a civil penalty not exceeding $1,000.

(b) For any failure to file a report required under § 103.23 or for filing such a report containing any material omission or misstatement, the Secretary may assess a civil penalty up to the amount of the currency or monetary instruments transported, mailed or shipped, less any amount forfeited under § 103.48.

§ 103.48 Forfeiture of currency or monetary instruments.

Any currency or other monetary instruments which are in the process of any transportation with respect to which a report is required under § 103.23 are subject to seizure and forfeiture to the United States if such report has not been filed as required in § 103.25, or contains material omissions or misstatements. The Secretary may, in his sole discretion, remit or mitigate any such forfeiture in whole or in part upon such terms and conditions as he deems reasonable.

§ 103.49 Criminal penalty.

(a) Any person who willfully violates any provision of this part may, upon conviction thereof, be fined not more than $1,000 or be imprisoned not more than 1 year, or both. Such person may in addition, if the violation is of any provision authorized by title I of Public Law 91–508 and if the violation is committed in furtherance of the commission of any violation of Federal law punishable by imprisonment for more than 1 year, be fined not more than $10,000 or be imprisoned not more than 5 years, or both.

(b) Any person who willfully violates any provision of title II of Public Law 91–508, or of this part authorized thereby, where the violation is either

(1) Committed in furtherance of the commission of any other violation of Federal law, or

(2) Committed as part of a pattern of illegal activity involving transactions exceeding $100,000 in any 12-month period, may, upon conviction thereof, be fined not more than $500,000 or be imprisoned not more than 5 years, or both.

(c) Any person who knowingly makes any false, fictitious or fraudulent statement or representation in any report required by this part may, upon conviction thereof, be fined not more than $10,000 or be imprisoned not more than 5 years, or both.

§ 103.50 Enforcement authority with respect to transportation of currency or monetary instruments.

(a) If the Secretary has reason to believe that currency or monetary instruments are in the process of transportation and with respect to which a report required under § 103.23 has not been filed or contains material omissions or misstatements, he may apply to any court of competent jurisdiction for a search warrant. Upon a showing of probable cause, the court may issue a warrant authorizing the search of any or all of the following:

(1) One or more designated persons.

(2) One or more designated or described places or premises.

(3) One or more designated or described letters, parcels, packages, or other physical objects.

(4) One or more designated or described vehicles. Any application for a search warrant pursuant to this section shall be accompanied by allegations of fact supporting the application.

(b) This section is not in derogation of the authority of the Secretary under any other law or regulation.

Effective date. This part shall become effective July 1, 1972.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 263]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.563 Navel Orange Regulation 263.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 4, 1972.

(b) *Order.* (1) The respective quantities of naval oranges grown in Arizona and designated part of California which may be handled during the period April 7, 1972, through April 13, 1972, are hereby fixed as follows:

(i) District 1: 913,000 cartons;
(ii) District 2: 187,000 cartons;
(iii) District 3: Unlimited.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 5, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[Valencia Orange Reg. 385]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.685 Valencia Orange Regulation 385.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 4, 1972.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period April 7, 1972, through April 13, 1972, are hereby fixed as follows:

(i) District 1: 1,484 cartons;
(ii) District 2: 14,316 cartons;
(iii) District 3: 154,000 cartons.

(2) As used in this section, "handler", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 5, 1972.

ARTHUR E. BROWNE,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Chapter X—Consumer and Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 131]

PART 1131—MILK IN THE CENTRAL ARIZONA MARKETING AREA

Order Terminating Certain Provisions

This termination order is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Central Arizona marketing area.

Notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 5302) concerning a proposed termination of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon. None were filed in opposition.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that the following provisions of the order no longer tend to effectuate the declared policy of the Act:

1. In the introductory text of § 1131.51 (a), the provision "and shall be increased or decreased by a 'supply-demand adjustment' of not more than 50 cents computed as follows:";

2. Subparagraphs (1) and (2) of § 1131.51(a).

STATEMENT OF CONSIDERATION

The termination would eliminate the supply-demand adjustment provisions that are now a part of the Class I price formula in this order. These provisions adjust the order's Class I price according to changes in receipts of producer milk relative to Class I utilization in the market. An order effective June 4, 1968 (33 F.R. 8266) suspended the supply-demand adjustment provisions for an indefinite period.

The termination of these provisions was requested by the United Dairymen of Arizona to effectuate the declared policy of the Act. The cooperative association stated that the supply-demand adjustment provisions have been inoperative for more than 3 years indicating that the provisions are no longer needed in the order.

It is hereby found and determined that 30 days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This termination is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that continuation of the supply-demand adjustment provisions in the order will not effectuate the declared policy of the Act;

(b) This termination order does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rule making was given interested parties and they were afforded opportunity to file written data, views, or arguments concerning this termination.

Therefore, good cause exists for making this order effective upon publication in the FEDERAL REGISTER.

It is therefore ordered, That the aforesaid provisions of the order are hereby terminated.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: Upon publication in the FEDERAL REGISTER (4–6–72).

Signed at Washington, D.C., on March 31, 1972.

RICHARD LYNG,
Acting Secretary.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter III—Consumer and Marketing Service (Meat Inspection), Department of Agriculture

SUBCHAPTER A—MEAT INSPECTION REGULATIONS

PART 327—IMPORTED PRODUCTS

Eligibility of Trust Territory of the Pacific Islands for Importation of Meat Products Into U.S.

On January 25, 1972, there was published in the FEDERAL REGISTER (37 F.R. 16) a notice of a proposal to amend § 327.2 of the Federal Meat Inspection Regulations (9 CFR Part 327), to change paragraph (b) of that section to include the words "Trust Territory of the Pacific Islands" in alphabetical order in the list of countries specified therein from which certain products (meat, meat food products, and meat byproducts) may be imported into the United States as provided in said regulations.

After due consideration of all relevant matters in connection with the notice of proposed rule making and under the authority of the Federal Meat Inspection Act (34 Stat. 1260, as amended, 21 U.S.C. 601 et seq.), paragraph (b) of § 327.2 is hereby amended to read as follows:

§ 327.2 Eligibility of foreign countries for importation of product into the United States.

* * * * *

(b) It has been determined that product of cattle, sheep, swine, and goats from the following countries, covered by foreign meat inspection certificates of the country of origin as required by § 327.4, except fresh, chilled, or frozen or other product ineligible for importation into the United States from countries in which the contagious and communicable disease of rinderpest, or of foot-and-mouth disease, or of African swine fever exists as provided in Part 94 of this title, is eligible under the regulations in this subchapter for importation into the United States after inspection and marking as required by the applicable provisions of this part.

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

PART 115—SURETY BOND GUARANTEE

On December 9, 1971, a notice was published in the FEDERAL REGISTER of proposed rule making for the establishment of regulations to govern Small Business Administration's authority to guarantee bid, payment or performance bonds issued by qualified sureties.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations.

No objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These regulations shall be effective as of February 8, 1972.

THOMAS S. KLEPPE,
Administrator.

Sec.
115.1 Statutory provisions.
115.2 Policy.
115.3 Definitions.
115.4 Eligibility.
115.5 Procedure for surety bond guarantee assistance.

Sec.
115.6 Guarantee agreement.
115.7 Processing fee and guarantee fee.
115.8 Approval or decline of applications.

AUTHORITY: The provisions of this Part 115 issued under Title IV—Part B, of the Small Business Investment Act of 1958, 84 Stat. 1812; 15 U.S.C. 694a, 694b.

§ 115.1 Statutory provisions.

TITLE IV—PART B—SURETY BOND GUARANTEES

DEFINITIONS

SEC. 410. As used in this part—

(1) The term "bid bond" means a bond conditioned upon the bidder on a contract entering into the contract, if he receives the award thereof, and furnishing the prescribed payment bond and performance bond.

(2) The term "payment bond" means a bond conditioned upon the payment by the principal of money to persons under contract with him.

(3) The term "performance bond" means a bond conditioned upon the completion by the principal of a contract in accordance with its terms.

(4) The term "surety" means the person who, (A) under the terms of a bid bond, undertakes to pay a sum of money to the obligee in the event the principal breaches the conditions of the bond, (B) under the terms of a performance bond, undertakes to incur the cost of fulfilling the terms of a contract in the event the principal breaches the conditions of the contract, or (C) under the terms of a payment bond, undertakes to make payment to all persons supplying labor and material in the prosecution of the work provided for in the contract if the principal fails to make prompt payment.

(5) The term "obligee" means (A) in the case of a bid bond, the person requesting bids for the performance of a contract, or (B) in the case of a payment bond or performance bond, the person who has contracted with a principal for the completion of the contract and to whom the obligation of the surety runs in the event of a breach by the principal of the conditions of a payment bond or performance bond.

(6) The term "principal" means (A) in the case of a bid bond, a person bidding for the award of a contract, or (B) the person primarily liable to complete a contract for the obligee, or to make payments to other persons in respect of such contract, and for whose performance of his obligation the surety is bound under the terms of a payment or performance bond. A principal may be a prime contractor or a subcontractor.

(7) The term "prime contractor" means the person with whom the obligee has contracted to perform the contract.

(8) The term "subcontractor" means a person who has contracted with a prime contractor or with another subcontractor to perform a contract.

AUTHORITY OF THE ADMINISTRATION

SEC. 411. (a) The Administration may, in consultation with the Secretary of Housing and Urban Development and upon such terms and conditions as it may prescribe, guarantee and enter into commitments to guarantee any surety against loss, as hereinafter provided, as the result of the breach of the terms of a bid bond, payment bond, or performance bond by a principal on any contract up to $500,000 in amount, subject to the following conditions:

(1) The person who would be the principal of the bond is a small business concern.

(2) The bond is required in order for such person to bid on a contract or to serve as a prime contractor or subcontractor thereon.

(3) Such person is not able to obtain such bond on reasonable terms and conditions without a guarantee under this section.

(4) The Administration determines that there is a reasonable expectation that such person will perform the covenants and conditions of the contract with respect to which the bond is required.

(5) The contract meets requirements established by the Administration for feasibility of successful completion and reasonableness of cost.

(6) The terms and conditions of any bond guaranteed under the authority of this part are reasonable in light of the risks involved and the extent of the surety's participation.

(b) Any contract of guarantee under this section shall obligate the Administration to pay to the surety a sum not to exceed 90 per centum of the loss incurred by the surety in fulfilling the terms of his contract as the result of the breach by the principal of the terms of a bid bond, performance bond, or payment bond.

(c) The Administration shall fix a uniform annual fee which it deems reasonable and necessary for any guarantee issued under this section, to be payable at such time and under such conditions as may be determined by the Administration. Such fee shall be subject to periodic review in order that the lowest fee that experience under the program shows to be justified will be placed into effect. The Administration shall also fix such uniform fees for the processing of applications for guarantees under this section as it determines are reasonable and necessary to pay administrative expenses incurred in connection therewith. Any contract of guarantee under this section shall obligate the surety to pay the Administration such portions of the bond fee as the Administration determines to be reasonable in the light of the relative risks and costs involved.

(d) The provisions of section 402 shall apply in the Administration of this section.

§ 115.2 Policy.

It is the intent of Congress to strengthen the competitive free enterprise system by assisting qualified small business concerns to obtain certain bid, payment or performance bonds that are otherwise not obtainable by authorizing the Small Business Administration to guarantee surety companies up to 90 percent of their losses incurred by reason of the breach of certain surety bonds executed on behalf of such small business concerns on contracts up to $500,000 in amount.

§ 115.3 Definitions.

(a) "Administration" shall mean the Small Business Administration.

(b) "Administrator" shall mean the Administrator of the Small Business Administration.

(c) "SBA" means the Small Business Administration.

(d) "Small business concern" means a concern which would qualify as a small business under § 121.3–14 of this chapter.

(e) "Surety" means a corporation with a Certificate of Authority from the Secretary of the Treasury under sections 6 to 13 of title 6 of the United States Code, or as otherwise qualified by the Small Business Administration.

§ 115.4 Eligibility.

In order to be eligible for a surety bond guarantee, the applicant must:

(a) Qualify as a small business under § 121.3–14 of this chapter.

(b) Operate or propose operation of a business in conformity with Part 120—Loan Policy, of this chapter.

(c) Represent that a bond is required in order to bid on a contract or to serve as a prime contractor or subcontractor thereon.

(d) Represent that a bond is not obtainable on reasonable terms and conditions without SBA's bond guarantee assistance.

§ 115.5 Procedure for surety bond guarantee assistance.

(a) An application for surety bond guarantee assistance shall be made on the appropriate SBA forms and shall include any additional information required in supporting schedules and forms. The application shall be submitted to an appropriate surety company agent in triplicate, plus all other supporting material. Except for the District of Columbia, the agent will forward one copy of the same to the SBA District Office and Regional Office serving the area in which the applicant is located, and one copy to the surety company. In the District of Columbia Standard Metropolitan Statistical Area, the agent will forward one copy of the same to the SBA District Office and one copy to the SBA Central Office.

§ 115.6 Guarantee agreement.

Any agreement by SBA to guarantee a surety company shall provide that:

(a) Surety shall represent that such bond or bonds when executed by it as to terms and conditions will be in accord with those executed by professional sureties for that type of contract for which such bond or bonds are required to be furnished by principal.

(b) Surety shall affirm that without the SBA guarantee to surety it will not issue any of said bonds to principal.

(c) That the term "loss" shall mean any and all liability, damages, court costs, counsel fees, charges and expenses of whatever kind or nature which the surety shall or may at any time, sustain or incur by reason, or in consequence, of having executed the bond or bonds guaranteed by SBA.

(d) Unless otherwise agreed, surety shall take charge of all claim matters arising under said bonds; determine its liability and the amount thereof; compromise, settle or defend any claim or suit; and, take such action as it deems necessary to minimize loss.

(e) Surety shall pay SBA 10 percent of its bond(s) premium for and in consideration of SBA's agreement to guarantee the bid, payment or performance bond contemplated by this agreement. It is further agreed by SBA and surety that surety will pay SBA an additional like percentage of the additional premiums on any increase in contract price and SBA will make a like percentage refund on any premium reductions resulting from a reduction in the contract price. Where SBA or surety's share of any additional premium increase or decrease is five dollars ($5.00) or less, there shall be no adjustment.

V 37-67 APR 6 72 XUM

§ 115.7 Processing fee and guarantee fees.

(a) The applicant small business concern shall pay to SBA an annual processing fee in the amount of five dollars ($5.00).

(b) The applicant small business concern shall pay to SBA a guarantee fee of 0.2 percent of the contract price, not to exceed five hundred dollars ($500), said fee to be paid only by the applicant ultimately obtaining the contract.

(c) The Surety Company shall pay to SBA a guarantee fee of 10 percent of its bond premium.

§ 115.8 Approval or decline of applications.

(a) No application for bond guarantee assistance shall be approved unless the following determinations have been made by SBA:

(1) That there is a reasonable expectation that the applicant will perform the covenants and conditions of the contract with respect to which a bond is required;

(2) That the contract meets requirements established by SBA for feasibility of successful completion and reasonableness of cost;

(3) That the terms and conditions of any bond guaranteed under the authority of this legislation are reasonable in light of the risks involved and the extent of the surety's participation.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72-WE-8]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On February 19, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 3764) stating that the Federal Aviation Administration was considering amendments to Part 71 of the Federal Aviation Regulations that would alter the descriptions of the Prescott, Ariz., control zone and transition area.

Interested persons were given 30 days in which to submit written comments, suggestions or objections. No objections have been received and the proposed amendments are hereby adopted subject to the following change.

1. Add the following to the 700 foot portion of the transition area "• • • and within 3 miles each side of the Prescott VORTAC 319° radial extending from the 10.5-mile radius area to 8.5 miles northwest of the VORTAC;"

Since this change is minor in nature and imposes no additional burden on any person, notice and public procedure hereon is unnecessary.

Effective date. These amendments shall be effective 0901 G.m.t., May 25, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a), sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on March 27, 1972.

ARVIN O. BASNIGHT,
Director, Western Region.

In § 71.171 (37 F.R. 2056) the description of the Prescott, Ariz., control zone is amended to read as follows:

PRESCOTT, ARIZ.

Within a 6-mile radius of Prescott Municipal Airport (latitude 34°39'10" N., longitude 122°25'15" W.).

In § 71.181 (37 F.R. 2143) the description of the Prescott, Ariz., transition area is amended to read as follows:

PRESCOTT, ARIZ.

That airspace extending upward from 700 feet above the surface within a 10.5-mile radius of Prescott Municipal Airport (latitude 34°39'10" N., longitude 122°25'15" W.) "• • • and within 3 miles each side of the Prescott VORTAC 319° radial extending from the 10.5-mile radius area to 8.5 miles northwest of the VORTAC;" that airspace extending upward from 1,200 feet above the surface within a 21-mile radius of the Prescott VORTAC extending clockwise from a line 5 miles south of and parallel to the Prescott VORTAC 252° radial to a line 5 miles west of and parallel to the Prescott VORTAC 159° radial and within a 14-mile radius of Prescott VORTAC, extending clockwise from a line 5 miles west of and parallel to the Prescott VORTAC 159° radial to a line 5 miles south of and parallel to the Prescott 252° radial.

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-727; Amdt. 3]

PART 250—PRIORITY RULES, DENIED BOARDING COMPENSATION TARIFFS AND REPORTS OF UNACCOMMODATED PASSENGERS

Filing of Rules and Statements With Chief, Passenger and Cargo Rates Division, Bureau of Economics

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of April 1972.

Part 250 (Priority Rules, Denied Boarding Compensation Tariffs and Reports of Unaccommodated Passengers) provides, inter alia, that all air carriers, except helicopter carriers and intra-Alaska carriers, certificated by the Board pursuant to paragraph (1) or (2) of section 401(d) of the Act, shall establish priority rules and criteria for determining which passengers holding confirmed reserved space shall be denied boarding on an oversold flight, and shall furnish to affected passengers a written explanation of denied boarding compensation.

First. Section 250.3, which requires that carriers file with the Board two copies of their priority rules, does not specify where such priority rules should be filed. We have determined that priority rules should be filed with the Chief, Passenger and Cargo Rates Division, Bureau of Economics, and we are amending § 250.3 accordingly.

Second. Section 250.9 requires a carrier to file with the Director, Bureau of Operating Rights, a written statement explaining denied boarding compensation. Moreover, § 250.9 permits a carrier to use a statement of its own making, rather than the text set forth therein, if it obtains the Board's prior approval; and the Board's authority thereunder has been delegated by § 385.13(u) to the Director, Bureau of Operating Rights. We have now determined to designate the Chief, Passenger and Cargo Rates Division of the Bureau of Economics, instead of the Director, Bureau of Operating Rights, as the official with whom statements under § 250.9 are to be filed, and to whom to delegate our authority to approve or disapprove statements containing language varying from the text prescribed therein. In accordance with said determination, we are amending § 250.9, and concurrently amending Part 385.[1]

Since this amendment is a rule of internal agency organization and procedure, notice and public procedure are not required, and the rule may be made effective on less than 30 days' notice.

Accordingly, the Civil Aeronautics Board hereby amends Part 250 of its Economic Regulations (14 CFR Part 250), effective April 7, 1972, to read as follows:

1. Amend § 250.3 to read as follows:

§ 250.3 Priority rules.

Every carrier shall establish priority rules and criteria for determining which passengers holding confirmed reserved space shall be denied boarding on an oversold flight. Every carrier shall file with the Chief, Passenger and Cargo Rates Division, Bureau of Economics, two copies of such rules and criteria, including that portion of its company manual instructing employees on the order of boarding priorities in case of an oversold flight. Such rules and criteria shall not make, give or cause any undue or unreasonable preference or advantage to any particular person or subject any particular person to any unjust discrimination or any undue or unreasonable prejudice or disadvantage in any respect whatsoever.

2. Amend § 250.9 to read, in part, as follows:

§ 250.9 Written explanation of denied boarding compensation.

Every carrier shall furnish passengers who are denied boarding on flights on which they hold confirmed reserved space, immediately after the denied boarding occurs, a written statement explaining the terms, conditions and limitations of the denied boarding compensation provided by this part. Each carrier shall, prior to furnishing passengers with such written statement or any revision thereof, file three copies of such statement, or revision, with the Chief, Passenger and Cargo Rates Division, Bureau of Economics. The language of the statement, or revision, to be filed must have the prior approval of the Board, unless the wording thereof is as prescribed hereinbelow.

• • • • •

(Secs. 102, 204(a), 403, 404, 411, 416(a), Federal Aviation Act of 1958, as amended, 72 Stat. 240, 743, 758, 760, 769, 771; 49 U.S.C. 1302, 1324, 1373, 1374, 1381, 1386; secs. 3, 4, Administrative Procedure Act, 81 Stat. 54, 80 Stat. 383; 5 U.S.C. 552, 553)

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-5303 Filed 4-5-72;8:49 am]

[1] OR-60 adopted April 3, 1972.

(u) [Reserved]

• • • • • •

2. Amend § 385.14 by adding paragraph (j) to read as follows:

§ 385.14 Delegation to the Chief, Passenger and Cargo Rates Division, Bureau of Economics.

The Board hereby delegates to the Chief, Passenger and Cargo Rates Division, Bureau of Economics, the authority to:

• • • • • •

(j) Approve or disapprove written statements filed by air carriers pursuant to § 250.9 of this chapter (Economic Regulations) explaining the terms, conditions, and limitations of denied boarding compensation provided by Part 250 of this chapter.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324; Reorg. Plan No. 3 of 1961, 75 Stat. 837, 26 F.R. 5989)

By the Civil Aeronautics Board.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

COMPONENTS OF PAPER AND PAPERBOARD IN CONTACT WITH AQUEOUS AND FATTY FOODS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 1B2697) filed by Monsanto Co., 800 North Lindbergh Boulevard, St. Louis, MO 63166, and other relevant material, concludes that the food additive regulations should be amended to provide for the safe use, as set forth below, of polyamine-epichlorohydrin resin as a wet strength agent and/or retention aid in the manufacture of paper and paperboard for food-contact use.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2526 is amended in paragraph (a)(5) by adding alphabetically a new item to the list of substances, as follows:

§ 121.2526 Components of paper and paperboard in contact with aqueous and fatty foods.

• • • • • •

(a) • • •

(5) • • •

List of substances	*Limitations*
• • •	• • •
Polyamine - epichlorohydrin resin produced by the reaction of bis (hexamethylene) triamine and higher homologues with epichlorophydrin such that the finished resin has a nitrogen content of 7.4–8.9 percent and chlorine content of 18–21 percent on a dry basis, and a minimum viscosity in 20 percent by weight aqueous solution of 30 centipoises at 25° C., as determined by Brookfield HAT model viscometer using a No. 1H spindle at 50 r.p.m. (or equivalent method).	For use only as a wet - strength agent and/or retention aid employed prior to the sheet-forming operation in the manufacture of paper and paperboard, and used at a level not to exceed 1 percent by weight of dry paper and paperboard fibers.
• • •	• • •

• • • • • •

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4-6-72).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: March 30, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

SUBCHAPTER C—DRUGS

PART 135a—NEW ANIMAL DRUGS FOR OPHTHALMIC AND TOPICAL USE

Gentamicin Sulfate, Betamethasone Valerate

The Commissioner of Food and Drugs has evaluated a new animal drug application (46-821V) filed by Schering Corp., 86 Orange Street, Bloomfield, NJ 07003, proposing the safe and effective use of a combination drug containing gentamicin sulfate and betamethasone valerate for

V 37-67 APR 6 72 XUM

the treatment of dogs. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135a is amended by adding the following new section:

§ 135a.22 Gentamicin sulfate, betamethasone valerate otic solution.

(a) *Specifications.* Each cubic centimeter of solution contains gentamicin sulfate equivalent to 3 milligrams of gentamicin base and betamethasone valerate equivalent to 1 milligram of betamethasone alcohol.

(b) *Sponsor.* See code No. 032 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is used or intended for use in dogs for the treatment of acute and chronic otitis externa caused by bacteria sensitive to gentamicin.

(2) It is used by instillation of 3 to 8 drops of solution into the ear canal twice daily for 7 to 14 days. Duration of treatment will depend upon the severity of the condition and the response obtained. The duration of treatment and/or frequency of the dosage may be reduced but care should be taken not to discontinue therapy prematurely. The external ear and ear canal should be properly cleaned and dried before treatment. Remove foreign material, debris, crusted exudates, etc., with suitable nonirritating solutions. Excessive hair should be clipped from the treatment area of the external ear.

(3) If hypersensitivity to any of the components occurs treatment with this product should be discontinued and appropriate therapy instituted. Concomitant use with other drugs known to induce ototoxicity is not recommended. This preparation should not be used in conditions where corticosteroids are contraindicated. Do not administer parenteral corticosteroids during treatment with this drug. The antibiotic sensitivity of the pathogenic organism should be determined prior to use of this preparation.

(4) For use by or on the order of a licensed veterinarian.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4–6–72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 28, 1972.

FRED J. KINGMA,
Acting Director,
Bureau of Veterinary Medicine.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

[CGFR 71–107a]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Willamette River, Oreg.

This amendment changes the regulations for the Oregon State Highway Department across the Willamette River, mile 132.1 at Corvallis to require that the draw open on signal if at least 7 days notice has been given. Further, the draw need not open on Saturdays, Sundays, and legal holidays. This amendment was circulated as a public notice dated 26 October 1971 by the Commander, Thirteenth Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGFR 71–107) on October 14, 1971 (36 F.R. 19981). Six comments were received, four had no objection to the proposal. One objection was withdrawn after clarifying information had been given to the objector. One objected to the 6-month period, stating that this was not reasonable. In a subsequent meeting between the bridge owners and the objector it was agreed that 7 days notice would be adequate, this change is incorporated in this amendment. Another change in the proposed amendment is in the name of this bridge because this was transferred from county to state ownership. This amendment was originally proposed to be included in § 117.755 however these regulations more appropriately are codified under § 117.759b(f)(7).

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising subparagraph (7) of paragraph (f) of § 117.759b to read as follows:

§ 117.759b Drawbridges in the State of Oregon where constant attendance is not required.

* * * * *

(f) * * *

(7) *Oregon State Highway Department bridge, Van Buren Street, Corvallis.* The draw shall open on signal if at least 7 days' notice has been given, however, the draw need not open on Saturdays, Sundays, and legal holidays.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Effective date. This revision shall become effective on May 8, 1972.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Marine Environment and Systems.

MARCH 31, 1972.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 946]

[AO–200–A1]

IRISH POTATOES GROWN IN STATE OF WASHINGTON

Decision With Respect to Proposed Amendment of Marketing Agreement and Order; Referendum Order

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held in Quincy, Wash., October 28, 1971, pursuant to notice thereof published in the September 24, 1971, issue of the FEDERAL REGISTER (36 F.R. 18956), upon a proposed amendment of Marketing Agreement No. 113 and Order No. 946 (7 CFR Part 946) hereinafter referred to collectively as the "order," regulating the handling of Irish potatoes grown in the State of Washington.

Based on evidence adduced at the hearing and the record thereof, the Deputy Administrator, Consumer and Marketing Service, on February 29, 1972, filed with the Hearing Clerk, U.S. Department of Agriculture, a recommended decision (including a proposed amendment of the order) which was published in the FEDERAL REGISTER March 3, 1972 (37 F.R. 4444). It offered opportunity to file written exceptions thereto until March 23, 1972. None was filed.

Material issues, findings, and conclusions. The material issues, findings, and conclusions of the recommended decision set forth in the FEDERAL REGISTER (F.R. Doc. 72–3241; 37 F.R. 4444), are hereby approved and adopted as the material issues, findings, and conclusions of this decision as if set forth in full herein.

Amendment of the Marketing Agreement and Order. Annexed hereto, and made a part hereof are two documents entitled, respectively, "Marketing Agreement as Amended Regulating the Handling of Irish Potatoes Grown in the State of Washington" and "Order Amending the Order Regulating the Handling of Irish Potatoes Grown in the State of Washington" which have been decided upon as the detailed means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

Referendum order. Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby directed that a referendum be conducted among producers who during the period April 16, 1971, through April 15, 1972 (which is hereby determined to be the representative period for the purpose of such referendum) have been engaged within the production area as defined in the order annexed to this decision and referendum order, in the production of potatoes for market, to determine whether such producers approve or favor the issuance of the annexed amendatory order. William C. Knope and John C. Rhine of the Fruit and Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture, are hereby designated referendum agents of the Secretary of Agriculture to conduct said referendum severally or jointly.

The procedure applicable to the referendum shall be the "Procedure for the Conduct of Referenda in Connection With Marketing Orders for Fruits, Vegetables, and Nuts Pursuant to the Agriculture Marketing Agreement Act of 1937, as Amended" (7 CFR Part 900).

The ballots used in the referendum shall contain a summary describing the terms and conditions of the proposed amendatory order.

A copy of the aforesaid annexed order and of the aforesaid referendum procedure may be examined in the Northwest Marketing Field Office, U.S. Department of Agriculture, 1218 Southwest Washington Street, Portland, OR 97205.

It is hereby ordered, That this decision and referendum order, except the annexed marketing agreement, as amended, be published in the FEDERAL REGISTER. The regulatory provisions of the said marketing agreement, as amended, are identical with those contained in the order as amended by the annexed order which will be published with this decision.

Dated: March 31, 1972.

RICHARD E. LYNG,
Acting Secretary.

Order[1] *Amending the order regulating the handling of Irish potatoes grown in the State of Washington*

§ 946.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary, and in addition to the previous findings and determinations which were made in connection with the issuance of the marketing agreement and order; and all of the said previous findings and determinations are hereby ratified and affirmed except insofar as such previous findings and determinations may be in conflict with the findings and determinations set forth herein (for prior findings and determinations see 14 F.R. 5860):

(a) Findings upon the basis of the hearing record: Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674) and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held in Quincy, Wash., on October 28, 1971, upon a proposed amendment of Marketing Agreement No. 113 and Order No. 946 (7 CFR Part 946) regulating the handling of Irish potatoes grown in the State of Washington. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The order, as hereby amended, regulates the handling of potatoes grown in the State of Washington in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing order upon which hearings have been held;

(3) The order, as hereby amended, is limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of potatoes the production area covered by the order, as hereby amended, which require different terms applicable to different parts of such area; and

(5) All handling of potatoes grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *It is therefore ordered,* That, on and after the effective date hereof, all handling of potatoes grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the said order as hereby amended, as follows:

1. Section 946.6 is revised to read as follows:

§ 946.6 Handler.

"Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of potatoes

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders have been met.

V 37 I 67 APR 6 72 XUM

owned by another person) who handles potatoes or causes potatoes to be handled.

2. Section 946.7 is revised to read as follows:

§ 946.7 Handle.

"Handle" is synonymous with "ship" and means to transport, sell, or in any other way to place potatoes grown in the State of Washington, or cause such potatoes to be placed, in the current of commerce within the production area or between the production area and any point outside thereof, or from any point in the adjoining States of Oregon and Idaho to any other point: *Provided*, That, the definition of "handle" shall not include the transportation of ungraded potatoes within the production area for the purpose of having such potatoes prepared for market, or stored, except that the committee may impose safeguards pursuant to § 946.55 with respect to such potatoes.

3. Section 946.9 is revised to read as follows:

§ 946.9 Fiscal period.

"Fiscal period" means the period beginning on July 1 of each year and ending June 30 of the following year, or such other period as the Secretary may establish pursuant to recommendation of the committee.

§§ 946.13, 946.14, and 946.15 [Deleted]

4. Sections 946.13, 946.14, and 946.15 are deleted.

5. Section 946.16 is renumbered as § 946.13 and revised to read as follows:

§ 946.13 Grade and size.

"Grade" means any one of the officially established grades of potatoes, and "size" means any one of the officially established sizes of potatoes as defined and set forth in:

(a) The U.S. Standards for Potatoes issued by the U.S. Department of Agriculture (§§ 51.1540 to 51.1566 of this title), or amendments thereto or modifications thereof, or variations based thereon;

(b) U.S. Standards for Grades of Potatoes for Processing as issued by the U.S. Department of Agriculture (§§ 51.3410 to 51.3424 of this title), or amendments thereto, or modifications thereof, or variations based thereon;

(c) U.S. Standards for Grades of Peeled Potatoes (§§ 52.2421 to 52.2433 of this title), or amendments thereto or modifications thereof, or variations based thereon; and

(d) State of Washington Standards for Potatoes issued by the State of Washington Director of Agriculture, or amendments thereto, or modifications thereof, or variations based thereon.

6. Section 946.14 is added to read as follows:

§ 946.14 Grading.

"Grading" is synonymous with "preparing for market" which means the sorting or separating of potatoes into grades and sizes for market purposes.

7. Section 946.17 is renumbered as § 946.15 and revised to read as follows:

§ 946.15 Export.

"Export" means shipment of potatoes beyond the boundaries of the 48 contiguous States of the United States, or the District of Columbia.

§ 946.16 [Renumbered]

8. Section 946.18 is renumbered as § 946.16.

9. Paragraph (a) of § 946.25 is amended to read as follows:

§ 946.25 Selection.

(a) Persons selected as committee members or alternates to represent producers shall be individuals who are producers in the respective district for which selected, or officers or employees of a corporate producer in such district.

* * * * *

10. Paragraph (a) of § 946.27 is amended to read as follows:

§ 946.27 Term of office.

(a) The term of office of committee members and alternates shall be for 3 years beginning on the 1st day of July and continuing until their successors are selected and have qualified: *Provided, however*, That the terms of office of the initial committee under the amended order shall be determined by the Secretary so that the terms of office of one-third of the initial members and alternates shall be for 1 year, one-third for 2 years, and one-third for 3 years.

* * * * *

11. Section 946.30 is revised to read as follows:

§ 946.30 Expenses and compensation.

Committee members and their respective alternates when acting on committee business shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this subpart. In addition, they may receive reasonable compensation at a rate recommended by the committee and approved by the Secretary.

12. Section 946.32 is revised to read as follows:

§ 946.32 Nomination.

The Secretary may select the members of the State of Washington Potato Committee and their respective alternates from nominations which may be made in the following manner, or from among such other qualified persons:

(a) A meeting or meetings of producers and handlers shall be held by the committee in each district for which nominees are to be selected not later than May 1 of each year to designate nominees for members and alternates to the committee; or the committee may conduct nominations by mail in a manner recommended by the committee and approved by the Secretary; and, in arranging for such meetings, the committee may, if it deems desirable, utilize the services and facilities of other existing organizations;

(b) At least one nominee shall be designated for each position as member and for each position as alternate member on the committee which is vacant, or which is to become vacant the following July 1;

(c) The names of nominees shall be supplied to the Secretary in such manner and form as he may prescribe, not later than June 1 of each year, or by such other date as may be specified by the Secretary;

(d) Only producers may participate in designating producer nominees, and only handlers may participate in designating handler nominees. Any person who operates in more than one district or is engaged in producing and handling potatoes, shall elect the classification (i.e., producer or handler), and the district within which he desires to participate in designating nominees;

(e) Regardless of the number of districts in which a person produces or handles potatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the district in which he elects to vote; and

(f) If nominations are not made within the time and in the manner specified in this section, the Secretary may, without regard to nominations, select the committee members and alternates on the basis of the representation provided for in this subpart.

§ 946.33 [Deleted]

13. Section 946.33 is deleted.

§ 946.34 [Renumbered]

14. Section 946.34 is renumbered as § 946.33.

15. Section 946.40 is revised to read as follows:

§ 946.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each fiscal period for its maintenance and functioning, and for such other purposes as the Secretary, pursuant to this subpart, determines to be appropriate. The committee shall submit to the Secretary a budget for each fiscal period, including an explanation of the items appearing therein, and a recommendation as to the rate of assessment for such fiscal period.

16. Section 946.41 is revised to read as follows:

§ 946.41 Assessments.

Each handler shall pay to the committee upon demand, his pro rata share of the expenses authorized by the Secretary for each fiscal period. Each handler's pro rata share shall be the rate of assessment per hundredweight fixed by the Secretary times the quantity of potatoes which he handles as the first handler thereof. At any time during or after

a fiscal period, the Secretary may increase the rate of assessment as necessary to cover authorized expenses. Such increase shall be applicable to all potatoes handled during the given fiscal period. The payment of expenses for the maintenance and functioning of the committee may be required during periods when no regulations are in effect. If a handler does not pay his assessment within the time prescribed by the committee, the assessment may be increased by a late payment charge or an interest charge, or both, at rates prescribed by the committee with the approval of the Secretary.

17. Section 946.42 is revised to read as follows:

§ 946.42 Accounting.

(a) *Excess funds.* At the end of a fiscal period, funds in excess of the year's expenses shall be placed in an operating reserve not to exceed approximately two fiscal periods' operational expenses or such lower limits as the committee, with the approval of the Secretary, may establish. Funds in such reserve shall be available for use by the committee for expenses authorized pursuant to § 946.40. Funds in excess of those placed in the operating reserve shall be refunded to handlers. Each handler's share of such excess shall be the amount of assessments he paid in excess of his pro rata share of the actual expenses of the committee and the addition, if any, to the operating reserve.

(b) *Accounting of funds upon termination of order.* Any money collected as assessments pursuant to this subpart and remaining unexpended in the possession of the committee after termination of this part shall be distributed in such manner as the Secretary may direct: *Provided*, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

18. Section 946.46 is renumbered as § 946.50 and revised to read as follows:

§ 946.50 Marketing policy.

(a) Prior to each marketing season, the committee shall consider and prepare a policy statement for the marketing of potatoes. In developing its marketing policy, the committee shall investigate relevant supply and demand conditions for potatoes. In such investigations, the committee shall give appropriate considerations to the following:

(1) Market prices of potatoes, including prices by grade, size, quality, and maturity in different packs of fresh potatoes and of the various forms of processed potatoes;

(2) Supplies of potatoes by grade, size, quality, and maturity in the production area and in other production areas, of fresh potatoes, and the supplies of various forms of processed potatoes;

(3) The trend and level of consumer income;

(4) Establishing and maintaining orderly marketing conditions for potatoes;

(5) Orderly marketing of potatoes as will be in the public interest; and

(6) Other relevant factors.

(b) In the event it becomes advisable to deviate from such marketing policy because of changed supply and demand conditions, the committee shall formulate a revised marketing policy statement in accordance with the appropriate considerations in paragraph (a) of this section.

(c) The committee shall submit a report to the Secretary setting forth such marketing policy. Notice of each such marketing policy and any revision thereof shall be given to producers, handlers, and other interested parties by bulletins, newspapers, or other appropriate media, and copies thereof shall be available for examination at the committee office to all interested parties.

19. Section 946.47 is renumbered as § 946.51 and revised to read as follows:

§ 946.51 Recommendation for regulation.

The committee shall recommend to the Secretary regulations, or amendments, modifications, suspension, or termination thereof, whenever it finds that such regulations as provided in § 946.52 are in accordance with the marketing policy established pursuant to § 946.50 and that such regulations will tend to effectuate the declared policy of the act.

20. Section 946.48 is renumbered as § 946.52 and revised to read as follows:

§ 946.52 Issuance of regulations.

(a) The Secretary shall limit the shipment of potatoes as set forth in this subpart whenever he finds from the recommendation and information submitted by the committee, or from other available information, that it would tend to effectuate the declared policy of the act:

(1) To regulate, in any or all portions of the production area the handling of particular grades, sizes, qualities or maturity of any or all varieties of potatoes during any period;

(2) To regulate the handling of particular grades, sizes, qualities or maturities of any or all varieties of potatoes, or for any combination of the foregoing during any period in the States of Oregon and Idaho which have been shipped from the production area to specified locations therein for grading or storage pursuant to § 946.54;

(3) To regulate the handling of particular grades, sizes, qualities or maturities of any or all varieties differently for: Different portions of the production area, different uses or outlets, different packs or for any combination of the foregoing, during any period;

(4) To regulate the handling of potatoes by establishing in terms of grades, sizes, or both, minimum standards of quality and maturity.

(b) The Secretary may amend any regulation issued under this subpart whenever he finds that such amendment would tend to effectuate the declared policy of the act. The Secretary may also terminate or suspend any regulation whenever he finds that such regulation obstructs or no longer tends to effectuate the declared policy of the act.

(c) The Secretary shall notify the committee of any such regulation issued pursuant to this section and the committee shall give reasonable notice thereof to handlers.

21. Section 946.49 is renumbered as § 946.53 and revised to read as follows:

§ 946.53 Minimum quantities.

The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued pursuant to this part.

22. Section 946.50 is renumbered as § 946.54 and revised to read as follows:

§ 946.54 Shipments for specified purposes.

(a) Whenever the Secretary finds, upon the basis of the recommendations and information submitted by the committee, or from other available information, that it will tend to effectuate the declared policy of the act, he shall modify, suspend, or terminate any or all regulations issued pursuant to this part in order to facilitate shipments of potatoes for the following purposes:

(1) Livestock feed;
(2) Charity;
(3) Export;
(4) Seed;
(5) Prepeeling;
(6) Such other purposes as may be specified by the committee with the approval of the Secretary; and
(7) Grading or storing between the districts within the production area or to and within specified locations in the adjoining States of Idaho and Oregon.

(b) The Secretary shall give prompt notice to the committee of any modification, suspension, or termination of regulations pursuant to this section, or of any approval issued by him under the provisions of this section.

23. Section 946.55 is added to read as follows:

§ 946.55 Safeguards.

(a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to § 946.54 from entering channels of trade and other outlets for other than the specific purposes authorized therefor, and the transportation of potatoes for grading and storing to points outside the production area.

(b) Safeguards provided by this section may include, but shall not be limited to, requirements that handlers:

(1) Shall obtain the inspection required by § 946.60 or pay the assessment provided by § 946.41, or both, in connection with the potato shipments effected in accordance with § 946.54, and

(2) shall obtain a special purpose certificate from the committee for shipments of potatoes effected or to be effected under provisions of § 946.54.

(c) The committee, with the approval of the Secretary, shall prescribe rules

V 37-67
APR 6 72
XUM

governing the issuance and the contents of the special purpose certificate.

(d) The committee may rescind, or deny to any handler the special purpose certificate if proof satisfactory to the committee is obtained that potatoes shipped by him for the purpose stated in § 946.54 were handled contrary to the provisions of this section.

(e) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications for such certificates, the number of such applications denied, and certificates granted, the quantity of potatoes shipped under duly issued certificates, and such other information as may be requested by the Secretary.

24. Section 946.53 is renumbered as § 946.60 and paragraph (a) is amended to read as follows:

§ 946.60 Inspection and certification.

(a) During any period in which the Secretary regulates the shipment of potatoes pursuant to the provisions of this subpart, each handler who first ships potatoes shall, prior to making shipment, cause each shipment to be inspected by an authorized representative of the Federal-State inspection service or such other inspection service as the Secretary shall designate. The committee may, with the approval of the Secretary, prescribe rules and regulations modifying the inspection requirements of this section in circumstances under which such requirements would create an undue hardship on growers or shippers: *Provided*, That all such shipments shall comply with all regulations in effect: *And provided further*, That proper safeguards to assure compliance are adopted.

* * * * *

§§ 946.56, 946.57, 946.58, and 946.59 [Deleted]

25. Sections 946.56, 946.57, 946.58, and 946.59 are deleted.

26. Section 946.70 is revised to read as follows:

§ 946.70 Reports and records.

(a) Upon the request of the committee, with the approval of the Secretary, every handler shall furnish to the committee in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its duties under this subpart.

(b) Each handler shall establish and maintain for at least 2 succeeding years such records and documents with respect to potatoes received and potatoes disposed of by him as will substantiate the required reports.

(c) For the purpose of assuring compliance with the recordkeeping requirements and verifying reports filed by handlers, the Secretary and the committee through its duly authorized employees, shall have access to such records.

(d) All reports and records furnished or submitted by handlers to, or obtained by the employees of, the committee which contain data for information constituting a trade secret or disclosing the trade position, financial condition, or business operations of the particular handler from whom received, shall be treated as confidential, and the reports and all information obtained from records shall at all times be kept in the custody and under the control of one or more employees of the committee who shall disclose such information to no person other than the Secretary, or his authorized agents. Compilations of general reports from data and information submitted by handlers is authorized subject to the prohibition of disclosure of individual handlers' identity or operations.

Farmers Home Administration

[7 CFR Part 1861]

[FHA Instruction 451.5]

SERVICING OF COMMUNITY PROGRAM LOANS AND GRANTS

Proposed Policies, Authorizations and Procedures

Notice is hereby given that the Farmers Home Administration has under consideration a proposed new Subpart F, "Servicing of Community Program Loans and Grants," which prescribes the policies, authorizations, and procedures for servicing association loans.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment to the Assistant Administrator for Management, Farmers Home Administration, U.S. Department of Agriculture, Room 5013, South Building, Washington, D.C. 20250, within 30 days after date of publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Assistant Administrator for Management during regular business hours. (8:15 a.m.–4:45 p.m.)

As proposed, the new Subpart F will read as follows:

Sec.
1861.81 Purpose.
1861.82 Loan servicing.
1861.83 Sale or exchange of security property.
1861.84 Liquidation of security.
1861.85 Transfer of security and assumption of loans.
1861.86 Voluntary conveyance of security to FHA.
1861.87 Foreclosure.
1861.88 Mergers.
1861.89 Special provisions applicable to Economic Opportunity (EO) Cooperative loans.
1861.90 Care, management, and disposal of acquired property.
1861.91 Water and waste disposal systems which have become part of an urban area.
1861.92 Determining present market value.
1861.93 Development grants.
1861.94 Comprehensive planning grants.
1861.95 Servicing planning advances.
1861.96 Additional State Director's authorizations.
1861.97 Payment in full.
1861.98 State requirements.
1861.99 Redelegation of authority.
1861.100 Reports and recommendations.
1861.101 Servicing public bodies.

AUTHORITY: The provisions of this Subpart F issued under sec. 339, 75 Stat. 318, 7 U.S.C. 1989; sec. 602, 78 Stat. 526, 42 U.S.C. 2942; sec. 301, 80 Stat. 379, 5 U.S.C. 301; Order of Act. Sec. of Agr., 36 F.R. 21529; Order of Asst. Sec. of Agr. for Rural Development and Conservation, 36 F.R. 21529; Order of Dir., OEO, 29 F.R. 14764.

Subpart F—Servicing of Community Program Loans and Grants

§ 1861.81 Purpose.

This subpart prescribes the policies, authorizations, and procedures for servicing the following: Community water and waste disposal system loans and grants, comprehensive water and sewer planning grants, loans for grazing and other shift-in-land use projects, community recreation facility loans, community irrigation and drainage loans, watershed loans and advances, resource conservation and development loans, economic opportunity cooperative loans, loans to Indian tribes and tribal corporations, and loans to timber development organizations. Servicing will be directed toward assisting the borrower to meet the objectives of the loan, repaying loans on schedule, complying with agreements, and protecting the Farmers Home Administration's (FHA's) financial interest.

§ 1861.82 Loan servicing.

(a) *Regular payments.* Regular payments are: All payments other than extra payments and refunds; revenue from mineral lease bonuses and delay rentals; proceeds from the sale of timber harvested on a selective cutting basis that does not deplete the Government's security; proceeds from the sale of gravel, rock, fill dirt, or sand when such sale does not reduce the value of the Government's security; and similar transactions which do not reduce the value of the Government's security.

(1) *Order of application.* Regular payments will be applied to accounts in accordance with § 1861.5(a) except as otherwise established by the note or bond.

(b) *Extra payments.* Extra payments are those derived from: the sale of basic chattel or real estate security, including rental or lease of real estate security of a depreciating or depleting nature; mineral royalties and timber other than referred to in paragraph (a)(1) of this section; cash proceeds of real property insurance as provided in § 1806.5(b) of this chapter; and a refund of unused loan funds.

(1) *Application.* Extra payments will be applied in accordance with § 1861.5 (b) except where otherwise established in accordance with the note or bond.

(c) *Collections.* Collections will be processed in accordance with Part 1862 of this chapter.

(d) *Actions by FHA for account of borrower including advances for protection of security or lien.* (1) Property insurance will be serviced in accordance with Part 1806 of this chapter in real estate mortgage cases and in accordance with the loan agreement in other cases.

(2) Borrower's real property taxes will be serviced in accordance with Part 1863 of this chapter. If State statutes permit a personal property tax lien to have priority over FHA's lien, personal property taxes will be serviced in accordance with §§ 1863.3 and 1863.4 of this chapter.

(3) The State Director is authorized to approve vouchers to pay costs, other than taxes and insurance, necessary to protect FHA's interest. Vouchers will be prepared using standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal," in an original and two copies. The name and address of the party to whom payment is due will be inserted in the heading. The amount of the vouchered items will be inserted in the appropriate spaces. The notation inserted in the space for description of the services will include the purpose of the payment, the location and a simple description of the property, the name and case number of the borrower, and the fact that the amount will be charged to the borrower's account. A sample notation could be as follows:

For payment of water rights of real property in (community), (State), (case No.), (loan type code) for the period of July 15, 1971, through August 1971 to be charged to the borrower's loan account.

(4) After the voucher has been approved by the State Director, the original with any attached reports will be sent to the Finance Office, St. Louis, Mo. One copy will be held in the borrower's county office loan docket, and one copy will be given to the borrower.

(i) After the voucher has been processed in the Finance Office, a U.S. Treasury check will be issued to the appropriate payee and mailed to the State Director for delivery. The purpose of the payment will be stated on each check. Any amount advanced will be entered as a recoverable charge on the borrower's account in the Finance Office. The advance will bear interest at the rate specified in the most recent debt instrument under which the advance is authorized to be made. After the check is issued, Form FHA 451–26, "Transaction Record," will be prepared by the Finance Office and sent to the appropriate county office, showing the amount of the recoverable charge and the applicable rate of interest.

(e) *Subordination of security—(1) Request for subordination.* When a borrower requests FHA to subordinate a security instrument so that another creditor or lender can refinance, extend, reamortize, or increase the amount of a prior lien, or place a lien ahead of the FHA lien, it will submit a written request. This request should contain the purpose of the subordination, exact amount of money or property involved, description of security property to be subordinated, type of security instrument, name, address, line of business, and other general information pertaining to the party in favor of which subordination will be given, and other pertinent information which will be of assistance in determining need for subordination. The State Director is authorized to execute subordination on Form FHA 440–2, "Subordination by the Government," provided all the following requirements and conditions are met:

(i) The amount of the subordination does not exceed the State Director's loan approval authorization as set forth in Part 1810, Subpart B of this chapter.

(ii) The borrower is unable to refinance the FHA mortgage on terms which it can reasonably be expected to meet.

(iii) The transaction will either further the objectives for which the FHA loan was made or improve the borrower's debt-paying ability and, in either case, result in the FHA debt being adequately or no less well secured.

(iv) The terms and conditions of the prior lien will be such that the borrower can reasonably be expected to meet them as well as all other debts.

(v) Any proposed development work will be planned and performed in accordance with Subpart A of Part 1823 of this chapter or in a manner directed by the creditor which reasonably attains the objectives of Subpart A of Part 1823 of this chapter.

(vi) In case of land purchase, the FHA will obtain a mortgage on such purchased land.

(vii) When the transaction involves more than $1,000 and the State Director considers it necessary, a present market value appraisal report will be obtained. However, a current appraisal report need not be obtained if there is an appraisal report not over 2 years old in the file which will permit the proper determination as to the present market value of the total property after the transaction.

(viii) The subordination is for a specific amount.

(ix) All contracts, pay estimates, and change orders will be reviewed and approved by the FHA State Director.
